#90051p0277 02/20/1990 ~PR Newswire

EDEN PRAIRIE, MI. (FEB. 20) PR NEWSWIRE - Buffets Inc. (NASDAQ: BOCB), which opened its first restaurant in 1983, reported its sixth consecutive year of record revenues and earnings.

For the year (53 weeks) ended Jan. 3, 1990, restaurant sales increased 61 percent to $115,376,000. Net earnings increased 45 percent to $5,587,000. Earnings per share were 59 cents on 9,511,000 shares, compared to 42 cents on 9,254,000 shares in 1988, an increase of 40 percent.

For the fourth quarter (13 weeks) restaurant sales increased 54 percent to $29,870,000, earnings before income taxes increased 40 percent to $1,916,000, and net earnings increased 19 percent to $1,040,000. Earnings per share were 11 cents on 9,543,000 shares, compared to 9 cents on 9,282,000 shares in 1988, an increase of 22 percent. Net income for the fourth quarter was affected by a tax rate increase to 45.7 percent versus a 37.7 percent rate reported in the previous quarter. The tax rate increase resulted from a determination that the tax deduction arising from the exercise and sale of stock options by company employees was allowable by the company only for tax purposes and not for financial reporting purposes.

During the fourth quarter, seven company-owned Old Country Buffet restaurants were opened in Charleston, Columbia and Spartanburg, S.C.; Toledo, Willoughby and Cincinnati, Ohio; and Springfield, Mo.

The company has opened one restaurant since the end of the year and expects to open an additional 19 restaurants in 1990. Two company-owned restaurants are under construction in Michigan and Tennessee. Currently, Buffets Inc. operates 70 Old Country Buffet restaurants in 12 states and has eight franchise restaurants in four states.

#90051p0281 02/20/1990 ~PR Newswire

MINNEAPOLIS (FEB. 20) PR NEWSWIRE - Honeywell Inc. (NYSE: HON) today announced 1989 net income of $604 million, or $14.18 per share, compared with a net loss of $435 million, or $10.22 per share in 1988. The 1989 figures include an after-tax gain from the sale of assets, primarily from the sale of Yamatake-Honeywell shares, of $313 million, or $7.34 per share. Net income excluding asset sales totaled $291 million, or $6.84 per share.

As previously announced, the company is planning to divest its Defense and Marine Systems business. Income from this discontinued operation totaled $54 million in 1989, or $1.26 per share. Income in 1989 from continuing operations totaled $550 million, or $12.92 per share.

Sales from continuing operations in 1989 were $6.059 billion, up modestly from $5.857 billion in 1988. Excluding sales from units divested in 1988 and 1989, sales increased more than 7 percent in 1989. Sales increased in each of the company's businesses, paced by Space and Aviation results where commercial flight systems continues its strong growth. Industrial systems sales were also up strongly in 1989. Total international sales grew at a slightly faster rate than U.S. sales.

Operating profit from continuing operations in 1989 was $494 million, up sharply from a modest loss in 1988. Operating profit improved in all business segments. Results in 1989 were negatively affected by substantial restructuring charges related to the company's profit improvement plan. Results in 1988 also were negatively affected by restructuring charges and contract cost writeoffs.

Orders from continuing operations in 1989 increased moderately, led by gains in commercial flight systems and industrial systems, where non-U.S. markets were particularly strong. Orders and backlog increased in each business segment.

Sales from continuing operations in the fourth quarter were $1.610 billion a 1-percent increase, compared with $1.587 billion in fourth-quarter 1988. Excluding sales from units divested in 1988 and 1989, sales grew nearly 7 percent in the quarter. Sales increased in all segments, led by growth in industrial systems, particularly in non-U.S. markets.

In the fourth quarter Honeywell reported net income of $392 million, or $9.26 per share, compared with a net loss in fourth-quarter 1988 of $483 million, or $11.35 per share. The 1989 figures include an after-tax gain from the sale of assets of $306 million, or $7.18 per share.

MIAMI BEACH, FL (FEB. 20) PR NEWSWIRE - On Jan. 20, 1990, Jefferson National Bank sponsored the Bonds for Israel gala reception following Joan Rivers' performance at Florida Atlantic University in Boca Raton, Fla. During the reception, Barton S. Goldberg, president of Jefferson National Bank, announced the bank's purchase of $100,000 in bonds for Israel.

This momentous evening marked the end of Bonds for Israel's second annual campaign to increase the purchase of bonds in the Boca Raton area. Purchasers were lured to increase their bond buys to $5,000 or more with the promise of tickets to the Joan Rivers performance and an invitation to the lavish dessert reception hosted by Jefferson National Bank. Howard Pittman chaired this year's event making a presentation to South Palm Beach Jewish Federation in honor of its 10th anniversary and to Jefferson National Bank for its continued campaign support.

Jefferson Bancorp Inc. (NASDAQ: JBNC), a publicly held bank holding company with assets totaling $360 million, owns and operates three banks with 12 offices in Dade, Broward and Palm Beach counties.

CARLSBAD, CA (FEB. 20) PR NEWSWIRE - Specialized Systems Inc. (SSI) (NASDAQ: SSII) today announced that it had signed a letter of intent to acquire a diversified construction company located near its Richland Chambers Reservoir project outside Corsicana, Texas. The privately held company is one of the top ten builders of Texas State Government projects and has built, among other projects, highways, bridges and schools. The acquisition is subject to negotiation of a definitive agreement and the company obtaining adequate financing to complete the transaction.

Preliminary terms of the agreement are that SSI shall purchase all of the outstanding shares of the potential acquiree in exchange for $5 million in cash, 16,242,500 shares of SSI stock and obtain adequate financing for the combined entity to allow the principal of the construction company to terminate his current personal liability on project completion bonds.

Audited financials provided to SSI by the principal of the potential acquiree indicate that for the period ended Sept. 30, 1989, the construction company had total assets of $44,556,875 and shareholders equity of $13,835,496. Using the percentage of completion method of accounting the company had contract revenues for the 12 months ended Sept. 30, 1989, of $39,471,725 upon which it had gross profits of $4,903,145 and a pre tax loss of $2,583,607. The company had contracts in progress at Sept. 30, 1989, worth a total of $102,351,775.

SSI management and the principal of the potential acquiree have met with an investment banking firm to discuss financing for the transaction and expect to do so again in the near future to determine as soon as possible whether the acquisition can be completed.

#90051p0288 02/20/1990 ~PR Newswire

BOULDER, CO (FEB. 20) PR NEWSWIRE - Advance Display Technologies Inc. (NASDAQ: ADTI) today announced a new and significant financing arrangement with Corporate Partners Inc. (CPI) of Dallas.

A February 15, 1990, agreement between ADTI and CPI provides ADTI cash, returns 5,944,000 shares of common stock to ADTI after certain events

occur, and provides for a significant reduction in shareholder dilution. Corporate Partners has provided ADTI with $144,000 cash during 1990 and has surrendered 944,000 shares of ADTI common stock as a capital contribution. Corporate Partners further agreed to assign back to ADTI 5,000,000 common shares of company stock as soon as such stock is released from a collateral pledge held by a Texas financial institution.

CPI had been issued two debentures by ADTI in prior financings, an Initial Debenture and a First Additional Debenture. The First Additional Debenture was convertible into 20 percent of the fully diluted common shares outstanding at the time of conversion. (As of Dec. 31, 1989, such conversions would have represented 10,728,161 shares of ADTI common stock.) Under the February, 1990, agreement, the anti-dilution provisions were cancelled and CPI is now only entitled to convert its debentures into common stock at $1 per share. No conversion, without prior approval of ADTI's board, can take place for a minimum of two years. Other material items contained in the agreement call for Corporate Partners to vote its shares in favor of Ted Taylor, Dr. William E. Glenn, Jr., and Jeffrey S. Robinson in board elections for the next two years.

Assembly of ADTI's improved Fibervision screen is currently underway in the company's Boulder plant. The 6 foot by 8 foot fiber optic video display screen is 600 percent brighter than previous comparable models. Special demonstrations of this brighter screen are being scheduled for prospective customers and will continue the entire month of March.

MONTREAL (FEB. 20) PR NEWSWIRE - Domtar Newsprint and Kraft Pulp division announced today the construction of a new chlorine dioxide plant at its Lebel-sur-Quvillon kraft pulp mill, subject to Quebec Environment Department's approval. This project will enable Domtar to substantially reduce dioxins from the mill's effluent and in the pulp to barely

detectable levels.

The process retained by Domtar to produce chlorine dioxide - the first one of this type to be installed in Canada - is a closed- circuit chlorine dioxide process from Lurgi, representing the best available environmental protection technology. This process has no effluent and will permit to significantly reduce the production of organo - chlorine compounds in the bleaching process. This results from using 50 to 80 percent less of molecular chlorine as a bleaching agent.

The project is the second stage a major upgrading program aimed at protecting the environment, and represents an investment of over $60 million. The first stage of the program is the installation of a Waterloo scrubber to reduce bark boiler emissions, to be completed by the end of 1990.

Construction of the new chlorine dioxide plant is to begin in early spring this year and is scheduled for completion at the beginning of 1992. Some 150 people, mainly from the Abitibi region, will be working on the site at the peak of construction in 1991.

The new facility will enable Domtar to protect the environment, both at the mill site and with the finished product. "This is a very key part of our future," says Robert Forbes, vice-president, Domtar Newsprint and Kraft Pulp.

This major voluntary dioxin reduction project, when combined with the installation of chip thickness screens and brown stock pressure screens by mid 1990, will significantly strengthen Lebel-sur-Quvillon's competitive position as a worldwide supplier of fully bleached market pulp.

#90051p0297 02/20/1990 ~PR Newswire

FREMONT, CA. (FEB. 20) PR NEWSWIRE - VeloBind Inc. (NASDAQ: VBND) today announced higher sales and earnings for both the year ended Dec. 31, 1989, and for the fourth quarter of 1989, compared to the like periods in 1988.

Sales for the total year increased 11 percent to $41,103,000 over sales of $36,963,000 in 1988. Net income per share increased four-fold to 20 cents per share ($967,000) compared to 5 cents per share ($263,000) for fiscal 1988.

VeloBind's fourth quarter sales of $9,722,000 were 1 percent ahead of the $9,656,000 in the fourth quarter of 1988. Earnings in this period of $90,000 (2 cents per share) compare to a loss of $801,000 (17 cents per share) in the fourth quarter of 1988.

Commenting on the company's performance, president and CEO Carl J. Swenson said, "The positive trend in sales is encouraging. Most domestic channels of distribution and the international business performed substantially better than they did last year. Earnings, while ahead of 1988, were below our expectations for three key reasons: (1) We nearly doubled research and development spending. We believe the resulting new products will be the key to future growth; (2) Our former headquarters and production facility has not yet been leased. Our inability to rent this building is preventing us from realizing the complete savings from the move to consolidate manufacturing in Nevada; and (3) The legal costs of defending our patents were higher than we thought they would be at the start of the year. However, we have been successful in protecting our assets from infringers.

"We continue to balance the investments necessary to ensure future growth with controlling expenses to provide good current earnings," Swenson said. "We are pleased that the sales and earnings trends were positive in 1989, while at the same time we were able to invest heavily in VeloBind's future and to safeguard valuable company assets."

Swenson explained that the company is continuing to buy back its shares. "We believe that, at current market prices, VeloBind stock is a better use of excess cash than other altenatives." As announced in October 1989, VeloBind's board approved stock repurchases of up to 5 percent of the company's shares. "That effort continues," said Swenson.

VeloBind has manufactured and marketed professional-quality office binding systems for more than 20 years. The company's products are widely used by law offices, accounting firms, government agencies, schools, and other organizations that require attractive, securely-bound documents.

#90051p0301 02/20/1990 ~PR Newswire

NEW YORK (FEB. 20) PR NEWSWIRE - Philip H. Geier Jr., chairman of the board and chief executive officer, today reported that The Interpublic Group of Companies, Inc. (NYSE: IPG) had record net income of $70.6 million for the year ended Dec. 31, 1989, an increase of more than 17 percent from $60,123,000 for the comparable period in 1988. Earnings per share increased more than 15 percent to $2.10 from $1.82 in 1988. Gross income reached a record level in 1989 of $1,256,854,000 compared to $1,165,100,000 in 1988, an increase of almost 8 percent.

Net income for the fourth quarter of 1989 was $27,355,000, an increase of almost 18 percent from $23,282,000 during the same quarter of 1988. Earnings per share for the fourth quarter increased almost 16 percent to $.81 from $.70 in the same period of 1988. Fourth quarter gross income in 1989 increased to $380,026,000 from $371,074,000 in 1988.

The per-share results for 1988 have been restated to reflect the 3- for-2 stock split in June 1989. In addition, the translation of local currency to U.S. dollars in Argentina and Brazil was changed in 1989 to more realistically reflect the month-to-month relationship of their respective currencies to the U.S. dollar. Therefore, in order to conform the 1988 reported amounts with the 1989 reported amounts, certain revenue and expense line items were reclassified. These reclassifications are not material to either the year or the fourth quarter of 1988, and net income was not affected.

Geier noted that Interpublic's agency systems achieved net new business during 1989 of approximately $505 million, which is an indication of solid growth.

The Interpublic Group of Companies is comprised of McCann-Erickson Worldwide, Lintas: Worldwide, Daily & Associates, interests in The Lowe Group and other related companies.

The shares of The Interpublic Group of Companies, Inc. are listed on the New York Stock Exchange.

LOUISVILLE, KY (FEB. 20) PR NEWSWIRE - Brown-Forman Corporation (AMEX: BF.A BF.B) announced today that its subsidiary, Lenox, Incorporated, has signed a definitive agreement to acquire the assets of The Kirk-Stieff Company, a highly respected Baltimore-based manufacturer and marketer of silver and pewter products.

The agreement is subject to expiration of the waiting period under the Hart-Scott-Rodino Act and the satisfactory resolution of certain contingencies. Other terms of the agreement were not disclosed.

Kirk-Stieff is a descendant of two famous 19th century silversmiths, Samuel Kirk & Son and The Stieff Company. Founded in 1815, Samuel Kirk & Son is America's oldest silversmith, and is particularly renowned for its ornate flower and foliage design, "Repousse". The Stieff Company was founded in 1892 and is known for its exacting reproductions of historical patterns. Kirk-Stieff's principal products include silver and pewter flatware and holloware for the tabletop and giftware markets. The company is the largest producer of pewter holloware in the country. Rodney G. Stieff, Kirk-Stieff's chairman and a grandson of the founder, stated that "we are very pleased that Kirk- Stieff, America's oldest silversmith, will continue its growth and commitment to marketing the highest quality silver and pewter products with Lenox, America's premier tabletop company." Rodney Stieff will continue his involvement with the company as a member of the Kirk-Stieff board of directors.

Brown-Forman owns Lenox, a leading manufacturer of fine china and crystal. W.L. Lyons Brown, Jr., Brown-Forman's chairman and chief executive officer, stated that "Kirk-Stieff's rich history and fine reputation are consistent with that of Lenox. Their flatware and holloware products are a perfect extension of our china and crystal businesses."

Pierce B. Dunn, who will remain as president of Kirk-Stieff, stated that "our access to the Lenox distribution network will greatly enhance our products' availability nationwide."

Brown-Forman Corporation is a diversified producer and marketer of fine quality consumer products, including Jack Daniel's Tennessee Whiskey, Canadian Mist, Southern Comfort, Korbel California Champagnes, Lenox China and Crystal, and Hartmann Luggage.

#90051p0316 02/20/1990 ~PR Newswire

ROCKFORD, IL (FEB. 20) PR NEWSWIRE - Sundstrand Corporation (NYSE: SNS) today reported fourth-quarter and total 1989 results. The company's board of directors also increased the regular quarterly dividend from $.45 per share on Sundstrand common stock and voted to seek stockholder approval for a two-for-one stock split.

1989 Results Fourth-quarter sales were $437.8 million, an increase of 4.2 percent over fourth-quarter 1988 sales of $420.2 million. Sales for the total year 1989 were $1,595.4 million, an increase of 8.0 percent over 1988 sales of $1,477.3 million.

Earnings available for common stock for the fourth quarter of 1989 were $30.6 million, equivalent to $1.65 per share, compared to a net loss for fourth quarter 1988 of $17.9 million, equivalent to $.97 per share. Fourth-quarter 1989 results included an interest provision of $5.9 million after taxes, equivalent to $.32 per share, for potential interest charges related to tax disputes which primarily concerned prices charged by a Singapore subsidiary for products transferred to United States operations. Negotiations with the Internal Revenue Service to resolve this pricing dispute have terminated, and the company is awaiting a decision by the U.S. Tax Court for a redetermination of 1977 and 1978 deficiency assessments.

Earnings available for common stock for the total year 1989 were $114.2 million, equivalent to $6.17 per share, compared to a net loss for the year 1988 of $76.6 million, equivalent to $4.15 per share. Excluding a nonrecurring after-tax gain of $10.3 million, equivalent to $.56 per share from the sale of the company's Trans Com Systems division, 1989 earnings

per share were $5.61. Results for 1989 included a total provision of $11.8 million after taxes, equivalent to $.64 per share, related to the aforementioned tax.

Dividend Increase Sundstrand's board of directors today increased the scheduled quarterly dividend on common stock from $.45 per share to $.55 per share, to be paid on March 20, 1990, to shareholders of record at the close of business on March 6, 1990.

The dividend increase, the first since 1981, reflects the company's improved operating margins and financial strength. It will be the 183rd consecutive quarter that the company has paid a dividend.

Proposed Stock Split In further action at today's meeting, the board of directors proposed to increase the company's authorized capital stock and to effect a two-for-one stock split of the company's outstanding common stock. The increase in the company's authorized capital stock and the stock split will require a shareholder amendment of the company's certificate of incorporation reducing the par value of its common stock from $1.00 per share to $.50 per share, reclassifying each outstanding share of $1.00 par value common stock into two shares of $.50 par value common stock, and increasing the company's authorized stock from 50 million shares of $1.00 par value common stock to 150 million shares of $.50 par value common stock.

Sundstrand Corporation, with 1989 sales of $1,595,4 million, is a market leader in the design, manufacture and sale of a variety of proprietary, technology-based components and subsystems for aerospace (67 percent of 1989 sales) and industrial (33 percent of 1989 sales) markets.

#90051p0318 02/20/1990 ~PR Newswire

WHIPPANY, NJ (FEB. 20) PR NEWSWIRE - Isomedix Inc. (NASDAQ: ISMX) today reported fourth quarter consolidated sales of $5,461,083, exceeding sales of $5,022,490, for the same period in 1988 by nine percent. Operating income increased 32 percent to $1,413,994, compared with $1,073,572 for the same period last year.

Revenues from the company's primary business (radiation processing) increased 12 percent to $4,741,346, and operating income from that business (before corporate overhead) increased 18 percent to $1,811,316, compared for the same period in 1988.

Consolidated net income in the fourth quarter increase 91 percent to $997,614 compared with $523,488 earned a year ago. Based on 6,651,416

weighted average number of shares outstanding in the fourth quarter compared with 5,106,699 shares a year ago (a 30 percent increase), earnings per share were 15 cents for the fourth quarter vs. ten cents for the same period last year.

For the 12 months ended Dec. 31, 1989, consolidated sales were $20,674,821, representing an increase of 13 percent over $18,257,843, reported in the same period last year. Operating income increased 21 percent to $5,477,385, compared with $4,537,418, for the same period last year.

Revenues from radiation processing increased 22 percent to $18,282,519, and operating income (before corporate overhead) from radiation processing increased 35 percent to $7,259,231, compared for the same period in 1988.

Consolidated income before a cumulative effect of a change in accounting for income taxes for the 12 months ended Dec. 31, 1989, increase 41 percent to $3,460,182, compared with $2,457,627, a year ago.

Net income for the 12 months was $3,460,182, compared to $3,088,898 in 1988, of which $631,271 (or 13 cents per share) was included in 1988 net income due to the implementation of Statement of Financial Accounting Standards No. 96 in 1988.

Based on 5,615,818 weighted average number of shares outstanding in the 12-month period ended Dec. 31, 1989, compared with 5,007,021 shares a year ago (a 12 percent increase), earnings per share before a cumulative effect on prior years of a change in accounting for income taxes were 62 cents for the 12-month period vs. 49 cents for the same period last year.

The company operates a network of nine facilities in seven states and Canada. During 1989, the capability to sterilize medical devices with ethylene oxide (EtO) was added at two of the nine facilities, and both locations are now operational. Isomedix also provides validation services through its Skyland Scientific Services subsidiary located in Montana.

CONTACT: John Masefield, chairman of Isomedix, (201) 887-4700, or Susan Noonan or Anthony J. Russo, both of Noonan/Russo Communications, (212) 979-9180, for Isomedix.

NEW ORLEANS (FEB. 20) PR NEWSWIRE - Robert E. Howson, chairman of the board and chief executive officer of McDermott International, Inc., (NYSE: MDR) announced today the appointment of M. Philip Burguieres and William McCollam, Jr. as directors of the company. Burguieres is president and chief executive officer of Panhandle Eastern Corporation and McCollam is president of the Edison Electric Institute.

Burguieres, who served on the board of directors of Panhandle Eastern since 1984, became president and chief executive officer of the company at the beginning of this year and will assume the responsibilities of chairman of the board in April. Before joining Panhandle Eastern, he was president and chief executive officer of Cameron Iron Works, Inc. He joined Cameron in 1971 and held positions of increasing responsibility, becoming a board member and president and chief operating officer in 1981, becoming president and chief executive officer in 1986, and assuming the role of chairman of the board in 1987.

Born in Franklin, La., in 1943, Burguieres received a bachelor of science degree in mechanical engineering from the University of Southwestern Louisiana in 1965 and a master of business administration degree from the University of Pennsylvania (Wharton School) in 1970. From 1966 to 1969 he served as an officer in the Civil Engineer Corps of the United States Navy.

McCollam has served as president of the Edison Electric Institute since 1978. Before assuming this position, he was president of New Orleans Public Service Inc. for seven years, an office he held after progressively advancing in a number of executive positions at Arkansas Power and Light Company. Both companies were part of Middle South Utilities, now Entergy Corporation. McCollam has served on the board of directors of Middle South, as well as on the boards of Middle South Services, Middle South Energy Inc., Louisiana Power and Light, and Systems Fuels, Inc.

Born in New Orleans in 1925, McCollam received a bachelor of science degree in arts and sciences from Louisiana State University in 1943, a bachelor of science degree in engineering from the United States Military Academy (West Point) in 1946, and a master of science degree in civil engineering from the Massachusetts Institute of Technology in 1954. He is a 1958 graduate of the U.S. Army Command and General Staff College. He left active service in the Army Corps of Engineers with the rank of lieutenant colonel in 1961, when he joined AP and L.

McDermott International, Inc., is a leading worldwide energy services company. The company and its subsidiaries manufacture steam- generating equipment, defense products, and tubular products. They also provide engineering and construction services for industrial and utility facilities onshore, and to the oil and gas industry offshore.

#90051p0326 02/20/1990 ~PR Newswire

DALLAS (FEB. 20) PR NEWSWIRE - TeleCom Corp. (NYSE: TEL) today reported net income of $649,000 or 18 cents per share with revenues of $53.4

million for the year ended Dec. 31, 1989 compared to a net loss of $728,000 or 20 cents per share with revenues of $46.3 million for the year ended Dec. 31, 1988.

For the three months ended Dec. 31, 1989, TeleCom Corp. reported a net loss of $457,000 or 12 cents per share with revenues of $11.6 million compared to a net loss of $953,000 or 26 cents per share with revenues of $9.7 million for the like period of 1988.

TeleCom reported that all operating subsidiaries reported an improvement in their operations for the year ended Dec. 31, 1989. The company was particularly encouraged by improved results at its Meyer Conveyair Inc. subsidiary which, through increased marketing efforts of its new product designs, was able to increase its revenues to $4.1 million for the year ended Dec. 31, 1989, up from $2.1 million for the like period in 1988. The higher revenues led to increased efficiencies in Conveyair's manufacturing operations, and as a result, a significant improvement in its gross margins. In addition, Conveyair was able to achieve the increased revenues without a significant increase in selling, general and administrative expenses.

TeleCom noted that the improvement in the results of operations for the fourth quarter reflected increased earnings at Meyer Machine Co. as a result of record sales in December 1989, as well as reduced losses at Comfort Supply Inc. The results for the comparable three months ended Dec. 31, 1988 included a higher than normal provision for bad debts at Comfort Supply Inc. as well as management's recognition of a markdown reserve for certain inventory items.

TeleCom Corp. is a diversified company with interests in the manufacture of conveying equipment for the food, beverage, can manufacturing and chemical industries and the wholesale distribution of air conditioning and heating products as well as souvenir, novelty and gift items.

ATLANTA (FEB. 20) PR NEWSWIRE - Information Systems of America Inc. (ISA) has signed a joint venture agreement with Steria, a French technological consulting and software development company.

Steria and ISA will market jointly ISA's Investment Management and Accounting software system in France, Germany, Switzerland, Belgium, and Luxembourg.

The agreement is another significant step in expanding ISA's expertise in Europe. This affiliation provides ISA with a network of 300 Steria financial services institution customers. Both ISA and Steria gain avenues into those investment management software systems markets. Recently ISA signed another agreement establishing representatives in Spain and Portugal.

"We expect the European financial services software market to explode with competitive activity in preparation for 1992's EEC," said ISA's Vice President, International William L. Kalahar. "We are pleased to partner now with such a solid, well-established and compatible company as Steria."

The ISA Investment Management and Accounting System, known as PRISM in the U.S., is the leading IBM mainframe-based system offering multi-currency capabilities to international money managers. Two of Europe's largest insurance companies and Switzerland's oldest bank have licensed the ISA investment system.

Paris-based Steria is a 20-year-old company with majority ownership by its more than 1,000 employees in eight countries. The primary financial services in this multi-divisional firm are targeted at the European banking industry.

ISA, a subsidiary of United Telecom, develops, markets and supports IBM mainframe investment management and accounting systems for the global

financial services industry. ISA, celebrating its 20th anniversary this year, is headquartered in Atlanta and has offices in New York and London.

#90051p0333 02/20/1990 ~PR Newswire

SAN FRANCISCO (FEB. 20) PR NEWSWIRE - Chevron Corporation (NYSE: CHV) today announced that its domestic oil and gas subsidiary Chevron U.S.A. Inc. is restructuring its entire oil and natural gas exploration and production business in a move aimed mostly at cutting layers of management and significantly lowering operating costs.

The changes are designed to make the company more competitive and to enhance profitability and shareholders investment. The company said it anticipates the changes it is making to result in a charge against first quarter earnings of between $25 and $30 million.

The restructuring and the acceleration of an ongoing property sales program this year are expected to eliminate 800 to 1,000 positions, or 10 to 12 percent of the organization, including middle and senior management positions. With a strategically managed property portfolio, Chevron expects its domestic upstream organization to continue to shrink over the next few years.

However, any further reductions in Chevron U.S.A. Exploration, Land & Production staffing after those announced today are expected to be handled primarily through normal attrition, training, retraining and transfer programs. Also, Chevron's international upstream programs are expected to continue to expand in several areas, so there may be some job opportunities for some employees whose positions are affected by changes in domestic EL&P.

A critical factor in the company's outlook is that public policy in the United States is expected to continue to prohibit access to acreage with promising exploration potential, making it difficult or impossible to develop domestic energy resources.

Today's announcement follows an internal strategic study started last August designed to make Chevron a top financial performer among its domestic upstream competition over the next several years.

The study concluded that the best way to accomplish this goal is to change a traditionally centralized approach to management and work -- instead focusing authority, responsibility and accountability at the lowest possible level. This will ensure that the people most familiar with the business are making key decisions with a minimum of technical and

management review. Improved efficiency and greater profitability are expected to result quickly.

CONTACT: Mike Libbey, 415-894-4440, Bonnie Chaikind, 415-894-1200, or Jan Bayles, 212-303-3833, all of Chevron

ROMULUS, MI (FEB. 20) PR NEWSWIRE - Kelsey-Hayes, acquired by Varity Corporation (NYSE: VAT) late last year, today announced the purchase of a $300,000 vehicle dynamics simulator which will shorten the time cycle involving anti-lock brake (ABS) and traction control systems development.

Kelsey-Hayes, the world's largest supplier of ABS systems, will add the simulator to its Research and Development Center in Ann Arbor, Mich.

With the new state-of-the-art real time simulator, company engineers will be able to quickly try out new ideas for ABS and traction control in the laboratory before hardware is taken out onto the track for actual vehicle testing. It will be possible to simulate vehicle parameters such as wheelbase, weight distribution, suspension characteristics, steering geometry and wheel inertia in the laboratory and determine their effects on ABS and traction control system operation.

Many combinations of variables such as vehicle speed, braking and acceleration effort, brake temperatures and road surface conditions can be specified by the engineers. The simulator then will solve the differential equations governing vehicle and system performance at a rate of a thousand times a second, in effect, allowing the engineers to take a test ride in the laboratory while collecting the data needed for system optimization.

According to Tom Atkins, chief engineer of Advanced Systems Development at the Keysey-Hayes Research and Development Center, "While testing of these systems on the actual vehicles will remain an important facet of our total development effort, the vehicle dynamics simulator will add a new dimension to our ability to expose advanced ideas to a wide range of conditions very quickly. The result will be to further shorten the time cycle required to take a new idea from concept to production."

Kelsey-Hayes is a major supplier of steel and aluminum wheels, brakes, anti-lock brake systems and electrical control devices for the automotive industry worldwide. Kelsey-Hayes is a business of Varity Corporation.

NEW YORK (FEB. 20) PR NEWSWIRE - CBS and Cox Enterprises, Inc. have reached an agreement in principle for the sale of WSUN (AM) Tampa, Fla. The joint announcement was made today by Nancy C. Widmann, president, CBS Radio division, and Michael J. Faherty, executive vice president, radio, for Cox Enterprises. The sale is contingent on the parties concluding a definitive purchase agreement, containing customary conditions and other regulatory approvals, including that of the FCC.

"We are pleased to have reached an agreement in principle regarding WSUN with such excellent broadcasters as Cox Enterprises," Widmann said. "At the same time we remain active participants in the burgeoning Tampa radio marketplace with WYNF (FM), our highly rated album oriented rock station."

Faherty commented, "The opportunity to add WSUN as a companion station to our FM facility in Tampa is exciting. Since we acquired WWRM (FM) 18 months ago, Tampa-St. Petersburg has proven to be an excellent market for us. We look forward to further serving the listeners of West Florida's largest city."

CBS also owns radio stations in New York, Los Angeles, Chicago, San Francisco, Philadelphia, Detroit, Dallas/Ft. Worth, Boston and Washington, D.C., Houston and St. Louis.

Cox Enterprises, an Atlanta-based broadcasting and publishing company, owns and operates radio and television stations in Dayton, Atlanta, Charlotte, Pittsburgh, San Francisco-Oakland, Detroit, Orlando, Miami, Los Angles and Chicago.

ORLANDO, FL (FEB. 20) PR NEWSWIRE - American Pioneer Inc. (NASDAQ: APIO), parent company of American Pioneer Savings Bank, and HBJ Insurance Companies have mutually agreed to terminate their Letter of Intent to sell American Pioneer Life Insurance Company to HBJ Insurance Companies. HBJ Insurance Companies are a wholly owned subsidiary of Harcourt Brace Jovanovich and American Pioneer Life is a wholly owned subsidiary of American Pioneer Inc.

"We regret not being able to complete this transaction as originally agreed," said Richard R. Swann, chairman of American Pioneer Inc. "However in recent months, the company has completed other transactions that have

helped us make substantial progress in complying with the new Federal capital regulations for savings banks contained in the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA). These transactions have added approximately $100 million to tangible capital and reduced the aggregate investment in subsidiary activities. FIRREA provides for phase-out of these types of operations over the next four years. Consequently, American Pioneer is not immediately seeking another buyer."

LOS ANGELES (FEB. 20) PR NEWSWIRE - The board of directors of First Interstate Bancorp (NYSE: I) today declared quarterly cash dividends on the company's common stock, Series A Preferred Stock and Adjustable Rate Cumulative Preferred Stock, Series B.

A quarterly cash dividend of $0.75 per share on the company's common stock is payable March 30, 1990, to stockholders of record on March 9, 1990. This is the 127th consecutive quarterly dividend paid by the Los Angeles-based multistate banking and financial services company since it began operations in 1958. The quarterly rate was established with the increased dividend paid on June 30, 1989.

The March dividend payment, totaling $36.6 million, will be paid to nearly 40,000 shareholders of record who hold First Interstate's 48.7 million common shares outstanding. On an annual basis, the common dividend equals $3.00 a share.

A dividend of $0.59-3/8 a share on First Interstate's Series A Preferred Stock is payable March 30, 1990, to stockholders of record on March 19, 1990. On an annual basis, the preferred dividend equals $2.37-1/2 a share, or 9.5 percent of the stated value of $25 a share.

In addition to the common stock and Series A preferred stock dividends, the board of directors also declared a quarterly cash dividend to be paid to holders of the corporation's Adjustable Rate Cumulative Preferred Stock Series B, issued in conjunction with the purchase of Allied Bancshares Inc. of Texas in 1988. A dividend of $0.83 will be paid on April 15, 1990, to shareholders of record on March 30, 1990.

First Interstate provides the largest geographical coverage of any retail and business banking system in the U.S. Including licensees, First Interstate Banks operate nearly 1,200 full-service offices in 21 states. These offices serve five million households in more than 650 communities, including seven of the 10 fastest growing metropolitan markets. Other

offices serve U.S. and international customers in 19 countries.

HOUSTON (FEB. 20) PR NEWSWIRE - Howell Corp. (NYSE: HWL), announced today that Steven K. Howell resigned his positions as a director, president and chief operating officer of the company last week. Howell stated that he had decided to resign in order to allow himself more time to pursue his political, charitable and other business interests. The company is grateful for Howell's many years of loyal service and we wish him the best of luck in his future endeavors.

The board of directors of Howell Corp. elected Paul W. Funkhouser to succeed Steven K. Howell as president and chief operating officer of the company. Until his election to succeed Howell, Funkhouser served the company as executive vice president and corporate secretary. His duties as corporate secretary will be assumed by Allyn R. Skelton II, the company's vice president and chief financial officer.

Funkhouser joined the company in 1983 as vice president and general counsel. From 1984 to 1988, he was president of Howell Petroleum Corp., the company's oil and gas exploration and production unit, and a vice president of the company. In August of 1988, Funkhouser was promoted to executive vice president of the company and assumed his role as corporate secretary shortly thereafter.

Funkhouser holds undergraduate and legal degrees from the University of Texas at Austin and an MBA from the University of Chicago. His wife, Jane and two children are long-time Houstonians.

Howell Corp. is an energy industry holding company. Through wholly- owned operating units, it is engaged in oil and gas exploration and production, crude oil marketing, technical fuels manufacturing and marketing, custom chemical processing, product terminalling and common carrier bulk liquids transportation of hydrocarbons and chemicals.

OKLAHOMA CITY (FEB. 20) PR NEWSWIRE - Fleming Companies, Inc. (NYSE: FLM) announced today that John E. Moll and R. Randolph Devening have been elected to the company's board of directors. Moll is the company's president and chief operating officer and Devening is executive vice president and chief financial officer.

Moll was named president and chief operating officer in November 1989, after serving as president of Malone & Hyde, a subsidiary purchased by Fleming in 1988. He has over 32 years of food distribution experience and had been associated with Malone & Hyde since 1957.

Moll serves as a member of the board of governors of the National-American Wholesale Grocers' Association and is co-chairman of the Food Marketing Institute's shipping container committee. He is a director of the Third National Bank of Nashville, Tenn. Moll is a graduate of the University of Missouri.

Devening has been with Fleming a total of eight years. He first joined the company in 1979 and was named executive vice president, finance and administration, in 1982. He left the company for two and a half years, and returned to Fleming in June 1989 in his current position.

Devening is a member of the board of directors of Arkwright Mutual Insurance Company of Waltham, Mass., and also serves as a director of Fred Jones Manufacturing Company of Oklahoma City. He is a graduate of Stanford University and earned an M.B.A. from the Harvard Graduate School of Business Administration.

Fleming is the nation's largest food wholesaler, serving more than 5,000 stores in 36 states.

DALLAS (FEB. 20) PR NEWSWIRE - The Board of Directors of National Heritage Inc. (NYSE: NHR) today announced a number of officer appointments to more accurately reflect corporate responsibility at the nursing home management concern.

Hugh C. Shurtleff, formerly chairman and president, adds the title of chief executive officer to his continuing role as chairman of the board. In addition to his position at National Heritage, Shurtleff serves as Assistant to the Chairman of Sybra, Inc., a franchisee of Arby's Restaurants and is a director of Southmark Corporation. Before his retirement in early 1989, Shurtleff served as Chairman of Sybra and as a senior executive of several public companies including T.I.M.E.-DC, Inc., and Valhi, Inc.

Robert M. Galecke, formerly vice chairman and executive vice president, has been promoted to president and chief operating officer while continuing as vice chairman. Galecke also serves as executive vice president and treasurer of Southmark Corp. Prior to joining Southmark in 1986, Galecke was president and chief operating officer of Amrecorp Realty Inc., a property management company. Galecke was formerly Executive Vice President of First Bank Milwaukee and with the U.S. Treasury in banking regulation.

Joseph L. Rzepka was appointed chief financial officer, removing an earlier interim designation. Rzepka, a certified public accountant, continues as vice president and chief accounting officer. Since 1984 Rzepka has held increasingly responsible financial positions with National Heritage and its related companies. Before joining National Heritage, Rzepka held various accounting positions with Finalco Inc., Stuart Petroleum Co. and Federal-Mogul Corp.

James D. Shelton was named to the vacant position of corporate controller. In addition to his duties at National Heritage, Shelton is senior assistant treasurer of Southmark Corp. where he has primary responsibility for servicing a $500 million mortgage portfolio. A certified public accountant, Shelton previously served as controller of Southmark's Private Syndication Group. Before joining Southmark in 1986, Shelton was Treasurer of Mediplex Medical Building Corp. and in the audit department

of Arthur Andersen & Co.

National Heritage Inc. is one of the nation's leading managers of nursing homes, retirement centers and assisted living facilities.

NEW YORK (FEB. 20) PR NEWSWIRE - Sequoia Partners, L.P., today announced that it has delivered a letter to Counsellors Tandem Securities Fund, Inc. (NYSE: CTF), giving notice of its intention to nominate seven candidates for election to the Counsellors Tandem board of directors at its annual meeting scheduled for April 10. A group led by Sequoia owns 1,225,100 shares or approximately 25.3 percent of Counsellors Tandem which includes 138,500 shares purchased last Friday.

The nominees are Timothy P. Hurley, the general partner of Sequoia and president of Delta Management Group, L.P., an investment management firm; Victor M. Rosenzweig, partner at the law firm of Olshan Grundman Frome Rosenzweig & Orens; Robert F. Ferraro, a senior producer at Capital Cities/ABC; William C. Bush, president of Wm. Bush & Co., Inc., an investment management and consulting firm, and previously managing director-corporate finance at PaineWebber Incorporated; Edward J. Fanning, vice president of Delta Management Group, L.P.; Roy B. Simpson Jr., partner of Colson Investments, a New York private investment partnership; and Charles Lindsay, a private investor and previously managing director of Dillon Read & Company's Fixed Income Department.

Hurley stated, "I am especially gratified that this group of experienced business and professional people has agreed to serve as directors. We are committed to maximizing value for all the shareholders of Counsellors Tandem Fund."

He added, "I believe that the existing closed-end structure of the fund unnecessarily penalizes each and every shareholder. If our slate is elected, we will pursue a program to eliminate the discount from net asset value at which the common shares have historically traded. In my opinion, the optimum way to accomplish this is to promptly open-end or liquidate the fund. This program would most likely also include redeeming the preferred stock at its redemption price, currently $51.50 per share."

Counsellors Tandem is a closed-end investment company which invests in common stocks of public utilities and industrial companies. The fund is managed by a subsidiary of E.M. Warburg Pincus & Co. of New York.

#90051p0392 02/20/1990 ~PR Newswire

LONG BEACH, CA. (FEB. 20) PR NEWSWIRE - Control of exterior and interior aircraft noise is the focus of a $2.3 million contract awarded to McDonnell Douglas Corp. by NASA Langley Research Center.

The three-year contract is part of an overall NASA program in acoustics and noise control. Analytical and experimental research planned by McDonnell Douglas will develop methods to more accurately predict and significantly reduce aircraft noise.

The research and development effort, which supplements current studies, will be conducted by a Douglas Aircraft Co. team that includes McDonnell Douglas Helicopter Co., McDonnell Douglas Research Laboratories, General Electric Co. and Wyle Laboratories.

According to a Douglas Aircraft assessment, aircraft noise will be an important industry issue in the 1990s. This is due to the proliferation of noise-related use restrictions imposed by airport authorities, stringent FAA/ICAO noise regulations, airline requirements for an interior environment that is comfortable for passengers and crew, and low acoustic signature requirements for military aircraft.

Under the contract, the Douglas Aircraft team will study the noise generated by commercial subsonic aircraft, helicopters, and the proposed High Speed Civil Transport (HSCT). The team will perform specific tasks in three general areas - aeroacoustics, applied acoustics, and structural acoustics and noise control.

It will study exterior noise generated by engines for the HSCT, by advanced propulsion systems for subsonic transports and by advanced rotorcraft. This study will produce more accurate ways to predict and reduce noise. Noise-reduction technology developed will emphasize minimizing the loss of associated aircraft performance.

In addition, the team will examine aircraft cabin noise and recommend methods to control it. Along with theoretical modeling of sound transmission, advanced concepts such as active noise control (using sound to cancel other sound) will be employed by the researchers.

SANTA MONICA, CA (FEB. 20) PR NEWSWIRE - Tosco Corp. (NYSE: TOS) today reported net income for the fourth quarter of 1989 of $2.5 million on revenues of $424 million compared with earnings in the fourth quarter of 1988 of $9.8 million on revenues of $242 million. The fully diluted loss per share (after deducting preferred stock dividends) was $.09 for the 1989 quarter compared to fully diluted earnings of $.29 for 1988. The fourth quarter 1989 results include a loss of $7.7 million for Seminole Fertilizer Corp. (excluding the interest on Tosco's acquisition debt), a favorable adjustment for taxes of $9.4 million and a LIFO charge of $1.7 million.

Net income for the year ended Dec. 31, 1989, was $40.5 million on revenues of $1.44 billion with earnings per fully diluted share of $1.24. Such results compare with 1988 earnings of $90.4 million dollars on revenues of $1.14 billion with fully diluted earnings per share of $2.74. The 1989 results include a six-month loss of Seminole since the date of Tosco's acquisition on June 30, 1989, of $8.7 million excluding interest on the acquisition debt.

Thomas D. O'Malley, Tosco's chief executive officer and president, stated, "Fourth quarter results for Tosco's refining operations were adversely impacted by unscheduled major maintenance at a key unit at the Avon Refinery which is now fully operational. Further, while 1989 was a year marked with extensive maintenance, which reduced refinery throughput and adversely impacted results, 1990 is a year with substantially less maintenance scheduled. Indeed, in the first 45 days of this year the refinery has run at near record rates. Although refining margins are presently seasonally soft," O'Malley added, "margins are expected to improve as we approach the driving season."

In the fourth quarter of 1989 Tosco announced that several multinational firms had expressed an interest in acquiring Tosco or its Avon Refinery and that Tosco had retained Bear Stearns & Co. to evaluate such expressions of interest and other possible financially capable buyers.

Tosco Corp. is a large independent oil refiner engaged in the refining and marketing of wholesale products on the West Coast of the United States. Through its wholly owned subsidiary, Seminole Fertilizer Corp., Tosco is also one of the largest U.S. manufacturers and wholesale distributors of phosphate-based fertilizer products.

#90051p0395 02/20/1990 ~PR Newswire

HOLLAND, MI. (FEB. 20) PR NEWSWIRE - Donnelly Corporation (AMEX: DON)

will participate with VanDresser Corporation in the 1990 SAE Show in Detroit. A display featuring innovative products from both Donnelly Corporation and VanDresser Corporation will be available for viewing from Feb. 26 through March 2 at Cobo Arena.

Donnelly's focus for this year's show will be on innovations in automotive rear vision and interior lighting. The company is a full- service supplier of rear vision and lighting systems which control glare and provide convenience for the driver.

The company will feature some of its most advanced "Added Feature Mirrors" at the show, including a lighted interior mirror with an electronic compass and an electrochromic mirror. These products are the latest offerings in a line of unique mirrors which offer a wide range of feature flexibility. Customers may select from a variety of features which may be integrated with their interior rearview mirror and offer added value to the driver.

Donnelly will also feature other new automotive interior products, such as roof-mounted (rail) reading lights and lights with passenger assist grab-handles. These lights provide illumination for passengers in the car and, at the same time, minimize glare for the driver by keeping the light source out of the driver's line of sight.

In 1984, the company first offered an interior mirror with integrated, glare-reducing lights. This product innovation was followed by a lighted mirror with an electronic compass, a lighted mirror with a microphone for use with a cellular telephone, and a lighted interior electrochromic mirror. Lighted compass mirrors will be available on a number of 1991 vehicle models. The new lighted electrochromic mirror, which darkens automatically when the bright lights of a following vehicle reflect in the surface of the mirror, will be offered to the car makers for the 1992 model year.

Donnelly said it is pleased to participate with VanDresser Corporation in this year's show. VanDresser is a major manufacturer and supplier of automotive headliners and has been a leader in integrating a variety of features into headliner assemblies, such as lights, audio equipment, and various other auto electronics. Donnelly and VanDresser are cooperating on selected projects to supply headliner and glare management systems to the automotive industry.

In addition to Automotive Vision Systems, Donnelly Corporation is a full-service supplier of Automotive Modular Window Systems, and Coated Glass Products for the electronics and information display industry. The company uses four core technologies ... glass fabrication, integrated plastic molding, thin film coatings, and electronic design and manufacturing.

Donnelly is an international company, serving over 200 customers in 30 countries. Based in Holland, Donnelly today operates from 12 separate facilities in western Michigan. In addition, Donnelly has a major facility in Naas, Ireland, a marketing liaison office in Tokyo, an Advanced Technology Center in Tucson, Ariz., and a manufacturing facility under construction in Mount Pleasant, Tenn. Donnelly is also recognized as a leader in the application of participative management practices.

RED BANK, NJ (FEB. 20) PR NEWSWIRE - The North European Oil Royalty Trust (NYSE: NET) announced today that the state of Delaware had filed a motion in the Delaware Chancery Court seeking to modify prior orders of that court so as to start the period of dormancy with respect to unexchanged shares of predecessor corporations of the trust and dividends and distributions paid thereon.

The period of dormancy is used in determining when unclaimed assets escheat to the state. The motion came in a previously announced proceeding in which the Chancery Court had dismissed the state's earlier request for different relief. The trust said it is studying the motion and that it anticipates opposing it on grounds set forth in earlier court filings. In any event, the motion seeks to start a period of dormancy which requires five years of inactivity before any claims by the state under it could mature.

#90051p0409 02/20/1990 ~PR Newswire

ST. PAUL, MN (FEB. 20) PR NEWSWIRE - H.B. Fuller Co. (NASDAQ: FULL) announced today that earnings for its first quarter ending Feb. 28 are expected to be considerably less than those of first quarter 1989.

Overall, earnings from operations are expected to be in the range of $.05-$.10 per share for the quarter, compared to $.20 in first quarter 1989. In addition, the company will take a first-quarter charge of $.12-$.18 per share, as a result of looting and destruction of its operations in Panama following the December 1989 U.S. military action. Claims submitted to insurance carriers have not been formally denied. However, decisions regarding any possible payments for losses are dependent upon ongoing discussions between the insurance companies and the Panamanian government.

European operations recorded a downturn in both sales and earnings for the quarter as compared to first quarter 1989. Sales at the company's Italian business, acquired late in the first quarter of 1989, were less than anticipated and resulted in an operating loss in the first quarter of 1990. In the United Kingdom, sales were less than the same quarter of 1989 resulting in an operating loss for the quarter. In France the company has written off a substantial unrecoverable receivable.

Sales from Latin American operations are above last year's level, but

operating earnings will be depressed, excluding the Panama charge, as a result of currency devaluations in Brazil and Argentina.

U.S. sales and earnings for the quarter are expected to be slightly improved over those of the same period a year ago, based on two months' actual operations. A softness in the economy, in general, and a slow down in the auto industry, specifically, have hindered the company's domestic growth.

H.B. Fuller Co. management is re-evaluating its financial outlook for 1990 and will provide a revised estimate for the year if necessary.

H.B. Fuller Co. is a worldwide manufacturer and marketer of specialty chemical products, including adhesives, sealants, coatings, paints, waxes and sanitation chemicals, with fiscal 1989 sales of $753 million.

CHARLOTTE, NC (FEB. 20) PR NEWSWIRE - The board of directors of First Union Corporation (NYSE: FTU) today declared quarterly cash dividends for both its common stock and the cumulative adjustable rate preferred stock (FTUpr).

The common stock dividend of 27 cents per share is an increase of 8 percent, payable March 15 to stockholders of record as of March 3.

First Union Corporation Chairman Ed Crutchfield announced the increase. "This dividend increase indicates our continued confidence in the outlook for our company," Crutchfield said.

First Union shareholders may have their common stock dividend payments deposited automatically into checking, savings or money market accounts. These direct deposits may be made to accounts at any financial institution participating in an Automated Clearing House.

The initial dividend rate for the cumulative adjustable rate preferred stock is 10 percent per annum for period from January 29, 1990 through March 31, 1990. The dividend is payable March 31 to shareholders of record as of March 15.

The preferred stock was issued following the January 29, 1990 merger of First Union and Florida National Banks of Florida, Inc.

First Union Corporation operates 663 banking offices in North and South Carolina, Georgia, Florida and Tennessee and 282 nonbanking offices in 36

states. Following its acquisition of Florida National Banks of Florida, Inc., on January 29, 1990, First Union Corporation now has assets of approximately $40 billion.

#90051p0415 02/20/1990 ~PR Newswire

LEONIA, N.J. (FEB. 20) PR NEWSWIRE - Jaguar Cars Inc. today announced a recall of 38,315 1988 and 1989 Jaguar sedans, including XJ6, Vanden Plas and Majestic models.

It has been determined that in a range of these vehicles the possibility exists that the high pressure hose that supplies fluid for the power assist system may rupture, causing loss of fluid. In addition, hydraulic fluid can leak from the brake system accumulator switches. Expelled fluid from hose failure could cause under-hood smoke and possibly engine fire. Accumulator switch leaks could occur in the vicinity of the electrical wiring, causing electrical power interruption and the power assist feature of the brakes not to recharge.

In both cases, fluid loss, if left uncorrected, could lead to a loss of power assistance of the vehicle braking system. However, in the event that either or both of these failures occur, unassisted braking would still be available to the driver.

Jaguar sedans are equipped with a warning system which will alert the driver first of low power fluid and then of low brake pressure. All owners of Jaguar sedans in the range affected will be advised by mail to contact their selling dealer to make an appointment to have the high pressure hose and brake accumulator switches replaced at no charge to them.

Jaguar is also contacting 31,835 owners of 1979 model year XJ12 sedans and 1982 to 1990 model year Jaguar XJ-S vehicles. On vehicles within this range, the possibility exists that valves controlling the operation of the cruise control activator are not functioning properly such that the cruise control will fail to disengage in the normal manner. If this should occur, there is also the possibility that the driver could lose control of the vehicle and the vehicle could crash, but this risk can be minimized or eliminated by applying the brakes.

All owners of XJ12 and XJ-S models in the range affected are advised not to switch on or engage the cruise control system. These owners will be advised by mail to contact their selling dealer to make an appointment to have the condition corrected. An extra vacuum dump valve will be installed at no charge to the owner.

CONTACT: Tom McDonnell, 201-592-5210, or Mike Cook, 201-592-5212, both of Jaguar

ANAHEIM, CA (FEB. 20) PR NEWSWIRE - Directors of the Walt Disney Co. (NYSE: DIS) reelected five members to the board of directors at the firm's annual meeting here today.

Some 9,000 attendees at the Anaheim Convention Center were given a review of the company's finances and plans for development over the next 10 years. It was Disney's first annual meeting here since 1987.

Members returned to the board were Roy E. Disney, vice chairman of the board of directors; Ignacio E. Lozano Jr., chairman and editor-in-chief of Lozano Enterprises, publisher of La Opinion; Sharon Disney Lund, an officer of Retlaw Enterprises Inc. and daughter of the late Walt Disney; Samuel L. Williams, partner in the law firm Hufstedler, Miller, Kaus & Beardsley, and Gary L. Wilson, principal adviser to the company and former Disney executive vice president and chief financial officer.

Chairman and Chief Executive Officer Michael Eisner, along with Frank Wells, president and chief operating officer, noted that the company achieved record-level revenues and net income for 1990's first quarter, which ended Dec. 31.

Revenues were $1.04 billion, an increase of 42 percent over the corresponding period a year earlier. Net income increased 48 percent to $148.3 million or $1.08 per share.

All three segments of Disney's business -- theme parks and resorts, filmed entertainment and consumer products -- contributed to the record performance, they said.

In reviewing the company's plans for the 1990s, which they termed The Disney Decade, Eisner and Wells outlined huge expansion programs for Disney plans to open scores of attractions and hotels at Disney parks worldwide.

The Disney executives forecast an attendance of 100 million visitors annually at Disney parks by the year 2000.

Shareholders also ratified Price Waterhouse as the company's independent accountant -- the 53rd year for the firm as Disney's accountant.

CHARLOTTE, N.C. (FEB. 20) PR NEWSWIRE -- The board of directors of First Union Corporation (NYSE: FTU) today elected to redeem on April 1, 1990 all

of the corporation's outstanding 11-5/8 percent notes due April 1, 1993. First Union will redeem the notes at a redemption price equal to 100 percent of the principal amount of the notes.

The aggregate outstanding principal amount of the notes is $50 million, of which First Union owns $38.6 million.

"First Union is taking this action because we can fund ourselves less expensively through other sources," said Edward E. Crutchfield Jr., First Union Corporation chairman and chief executive officer.

Since April 1, 1990 is an interest payment date on the notes, interest on the notes will be paid in the usual manner to holders of record as of the close of business on March 15, 1990, the record date for such interest payment. Interest on the notes will cease to accrue from and after the redemption date.

First Union Corporation, based in Charlotte, N.C. has assets of approximately $40 billion following First Union's January 29, 1990 acquisition of Florida National Banks of Florida, Inc.

MIAMI (FEB. 20) PR NEWSWIRE - Hoteleticket, the leading computerized ticketing distribution network that books reservations and prints airline tickets with boarding passes within minutes of a call to its 800 hotline, has signed an agreement with Hickory Travel Systems to deliver tickets to that company's clients on the road.

According to Hoteleticket President, Edd Helms, Hickory has more than 60 subsidiary agencies worldwide and is the first 24-hour travel service to sign with Hoteleticket.

Helms pointed out that Hoteleticket is providing a ticket delivery service only, via its Satellite Ticket Printer Network to clients of Hickory's subscribing agencies. Through its 24-hour reservations desk that services all of its subscribers, Hickory is responsible for accurate reservation and faring information.

All service requests will be generated from Hickory's reservation center in Saddle Brook, N.J. and tickets will be available for pickup by client travelers at front desks of Hoteleticket member hotels.

Helms termed the agreement with Hickory as an "outstanding opportunity" for both participants. "We're pleased to be associated with such a fine

organization as Hickory Travel Systems," said Helms. "Working together, we're confident the result will be a beneficial program that bonds Hickory's subscribing agencies, their client travlers, hotels and our product."

Hoteleticket is a subsidiary of Miami-based Hotelecopy, Inc. (NASDAQ-NMS: FAXM), the world's largest public access FaxMail network, operating in nearly 2,000 hotels, airports and U.S. Post Offices nationwide. Hotelecopy is endorsed by the American Hotel and Motel Association as "the FaxMail network of the lodging industry."

STAMFORD, CT (FEB. 20) PR NEWSWIRE - John McClanahan Henske, former chairman of the board of Olin Corporation and former chairman of the Chemical Manufacturers Association, died Tuesday, Feb. 20 at home in Greens Farms, Conn., after a long illness. He was 66.

Mr. Henske began his career with Olin in September, 1969, as vice president of the Chemicals Group. He was elected president of the corporation in December, 1973, chief executive officer in April, 1978, and to the additional post of chairman of the board in September, 1980. He retired from Olin on July 1, 1988, as chairman.

He held the post of chief executive officer longer than anyone outside of the founding family -- from April, 1978, to April, 1987. He continued as a director after he retired.

Mr. Henske came to Olin after 21 years with Dow Chemical Company, where he was a vice president and a member of the board of directors.

He was born in Omaha, Neb., on June 3, 1923. After spending two years at Yale University, he served in the U.S. Army with the Corps of Engineers from 1943 to 1946. He returned to Yale to graduate in 1948 with a degree in chemical engineering. He joined Dow that same year as a research engineer, and by 1960 was manager of the Chemicals Department. He became a member of the Dow board of directors in 1965, general manager of the Chemicals and Metals Department in 1967, and a vice president the following year.

Today's Chemical Manufacturers Association embarked on a new direction under Mr. Henske's chairmanship in 1979-80, changing its name from Manufacturing Chemists Association, and developing a greater advocacy role in representing the industry's positions. He insisted that the industry and Olin conduct its business according to the highest moral principles, a

concern reflected by his emphasis on safety, environmental and community responsibility. He also served as a director of Sun Company, American Precision Industries, The Hydraulic Company, Northeast Bancorp, and others.

Mr. Henske's legacy of community service was as impressive as his corporate career. In addition to serving as chairman of the United Negro College Fund, United Way campaigns and as a hospital director, Mr. Henske was the creative force behind the innovative Science Park in New Haven, Connecticut. Science Park was launched in 1981 on 80 acres donated by Olin and today serves as an incubator for over 100 small companies. He was a trustee of the Buffalo Bill Historical Center in Cody, Wyo., and of Stamford Hospital and Yale-New Haven Hospital.

FORKED RIVER, N.J. (FEB. 20) PR NEWSWIRE - Oyster Creek Nuclear Generating Station was removed from service this morning.

Operators initiated a manual plant shutdown in accordance with plant procedures after control room instruments indicated that a backup safety system had been activated, thereby initiating automatic actions to shut down the nuclear reactor.

The backup safety system was activated by a signal from a two-way radio. The two-way radio was improperly used by a technician in the control room conducting an equipment test.

The 650-megawatt plant was operating at full power. Preparations are being made for returning the plant to service.

Oyster Creek is operated by GPU Nuclear Corp. and owned by Jersey Central Power & Light Co.

HOUSTON (FEB. 20) PR NEWSWIRE - Transco Energy Co. (NYSE: E) has named Michael D. Zagata as vice president, environmental affairs of Transcontinental Gas Pipe Line Corp. (TGPL), a subsidiary of Transco Energy Co. Zagata will have overall responsibility for Transco's environmental affairs, including TGPL's land & permits and environmental engineering departments, and will report to James R. Gattis, senior vice

president, technical services.

Zagata has more than 26 years of experience in environmental and natural resources activities. Most recently, he served as director, environmental, hygiene and safety affairs for Kerr-McGee Corp. Prior to that, he held various environmental positions at Tenneco Inc., the National Academy of Sciences, the National Audubon Society and The Wildlife Society. Zagata received a bachelor's and a master's in biology from State University of New York, and a Ph.D. in wildlife resources from Iowa State University.

ROCKVILLE, MD (FEB. 20) PR NEWSWIRE - Sage Software, Inc. (NASDAQ-NMS: SGSI) today reported operating results for the third fiscal quarter, which ended Jan. 31, 1990.

Revenues for the third quarter were $7.5 million, a new high for the company, and a 29 percent increase over the same period last year. Net income increased 47 percent to $1,252,000 (20 cents per share), compared to $854,000 (14 cents per share) for the third quarter of last year.

For the nine months ended Jan. 31, 1990, revenues increased 18 percent to $18.5 million from $15.6 million for the same period last year. Net income for the nine months rose 45 percent to $2,067,000 (33 cents per share), compared to $1,421,000 (24 cents per share) for the first nine months of last year.

Kevin J. Burns, Sage's president and chief executive officer, said, "Our financial results were driven by strong growth in revenues from our PC-based 'Desk Top Development' products and continued expansion in our domestic and international marketing channels."

Sage specializes in software products which enable customers to build information systems faster and more cost effectively. Sage's products operate on IBM Mainframes, PCs and local area networks (LANs). Sage's corporate offices are located at 3200 Tower Oaks Blvd. in Rockville, a suburb of Washington.

#90051p0455 02/20/1990 ~PR Newswire

CHATTANOOGA, TN (FEB. 20) PR NEWSWIRE - Chattem, Inc. (NASDAQ: CHTT), a manufacturer of specialty chemicals and consumer products, today announced audited results for the six-month period ended Nov. 30, 1989.

The report for this short period resulted from the previously announced change in Chattem's fiscal year from May 31 to Nov. 30. The change in fiscal year-end reflects the seasonal nature of Chattem's business and will allow the company to more properly match expenses with revenues and to improve its ability to project earnings.

For the six months, Chattem reported net sales of $28,783,000, up slightly from the comparable period in the prior year. The increase in sales reflected the acquisition of Flex-all 454 in May 1989, and Norwich aspirin in July of last year. These sales were offset to some extent by the loss of very low margin, opportunistic sales of glycine in Chattem Chemicals and a one-time reduction in sales in the United Kingdom related to the restructuring of the company's operations there.

Chattem recorded a net loss of $5.26 per share for the six months ended Nov. 30, 1989. The loss was generally consistent with the expected loss projected in mid-November 1989, with the exception of fiscal period-end inventory adjustments. Chattem typically incurs a loss in the June-through-November period due to the seasonal nature of the business. The six-month results also include the effects of a charge of about $2.20 per share due to a difference in accounting treatment of advertising expense for interim and fiscal period-end purposes, an approximately 80 cents per share charge incurred in the restructuring of the U.K. operation and a loss related to the national introduction of Flex-all 454 analgesic gel.

Because of the unusual nature of the short period, comparisons with reported results for the comparable period of a year ago are not meaningful.

RICHMOND, VA. (FEB. 20) PR NEWSWIRE - Richfood Holdings, Inc. (NASDAQ: RCHFA) today announced the successful refinancing of its senior debt. As announced last July, the Company has been out of compliance with certain limits on short-term debt under its loan agreement with The Prudential Insurance Company of America. Prudential had previously agreed not to accelerate payment of its loan during the period when bids were being solicited for the sale of the Company. Following the termination of the solicitation of bids, the Company obtained from Crestar Bank a commitment for a bridge loan in the amount of $39,500,000. Proceeds of the bridge loan, secured by accounts receivable and fixed assets, will be used to repay the Prudential indebtedness on February 21, 1990, together with a negotiated $1 million payment in full satisfaction of the $3.6 million yield maintenance premium due Prudential. Crestar and Richfood have agreed to commence negotiations immediately with respect to a new long-term debt facility to replace the bridge loan.

The negotiated payment to Prudential is being reflected in the third quarter results as an extraordinary item of $.6 million ($.06 per share) after related tax benefits.

The Company also announced that excluding certain non-recurring expenses and the extraordinary item related to repayment of the Prudential loan, the Company would have recorded net earnings for the third quarter ended January 6, 1990 of $1.0 million, or $.10 per share.

After these non-recurring expenses and the extraordinary item, the Company recorded a net loss of $270,000 or $.03 per share, for its third quarter. This compares with net earnings of $1.8 million, or $.17 per share, for the comparable period last year. Non-recurring expenses during the third quarter totaled $.7 million, or $.07 per share, after related tax benefits and consisted of (i) compensation costs associated with the recently announced resignation of the Company's Chief Executive Officer on January 1, 1990, (ii) investment banker, legal and other professional fees incurred in connection with the previously announced termination of the solicitation of bids for the Company, and (iii) lease termination costs.

Mr. Villanueva said "These operating results reflect favorably on the core food distribution business which represents 94 percent of total sales. The non-food distribution business (Garner Wholesale Merchandisers) operated unprofitably during this period. Management is committed to continued improvements and efficiencies in its core food business and plans to move aggressively to deal with the adverse impact on profits of its non-food business."

For the thirty-six week period ended January 6, 1990, the Company recorded a net loss of $470,000, or $.05 per share, after non-recurring expenses

and the extraordinary item. This compares with net earnings of $4.5 million, or $.44 per share, for the comparable period last year. Non-recurring expenses during the thirty-six week period ended January 6, 1990, totaled $.8 million, or $.08 per share, after related tax benefits.

Net sales for the quarter ended January 6, 1990 were $253.7 million compared to $296.2 million for the same period last year. A substantial portion of the sales decline resulted from the previously announced loss of a supply relationship with A & P.

Mr. Villanueva added: "During the first three quarters of the fiscal year dramatic improvement was made in the Company's balance sheet as indicated by a $40 million reduction in inventory levels accompanied by a $12 million reduction in accounts receivable. This improvement enabled the Company to reduce bank borrowings by $33 million along with an $18 million reduction in trade debt. Additional, but more modest, reductions in inventory levels coupled with related debt reductions are anticiapted in the near term. These reductions coupled with the anticipated new credit arrangement will place the Company in a far stronger financial condition."

Mr. Villanueva indicated that the search process for a new CEO is proceeding on schedule with completion slated for the April -- June time period. He reiterated the Company's intention to remain indepenedent and expressed appreciation for the loyalty and continued support of the Company's customers, suppliers, lenders, employees and stockholders.

The Company will hold its annual meeting of shareholders on April 3, 1990.

Richfood is the largest wholesale food distributor serving its Mid-Atlantic operating region. It supplies over 600 supermarkets with a complete line of grocery products, frozen foods, dairy, fresh produce and meats.

#90051p0463 02/20/1990 ~PR Newswire

CALGARY, ALBERTA (FEB. 20) PR NEWSWIRE - Norcen Energy Resources Limited (AMEX: NCN) today announced net earnings of $110.2 million for 1989, up 20 percent from $91.7 million in 1988. Cash generated from operations at $300.7 million, was up 23 percent.

On a per share basis, earnings were $1.74 per ordinary share, compared to $1.43 in the previous year, and cash generated was $4.98 per ordinary share, up from $4.04.

Sales and other revenues amounted to $845.1 million, 16 percent higher than in 1988.

The improved financial performance reflected the combined effects of significantly higher crude oil prices and oil and gas production gains. The average price realized by Norcen for its crude oil and gas liquids production in 1989 was $18.72 per barrel, compared to $15.45 per barrel in the previous year.

Operating income in the Oil and Gas Division amounted to $151.7 million, up 40 percent from 1988. In the Propane Marketing Division, operating income was $45.9 million, down from the record-setting $49.3 million achieved in the previous year, due to severe sales price competition, particularly for auto propane and a sharp upward spike in propane supply costs late in the year. Operating income in the Mineral Resources Division rose to a new high of $45.2 million, from $36.3 million in 1988, partly as the result of a $5.9 million gain on the sale of coal properties written off in 1986.

Capital expenditures, excluding acquisitions, totalled $190.7 million compared to $198.7 million in 1988. Acquisitions, net of dispositions, amounted to $465.7 million, including $453.2 million for the acquisition of oil and gas properties from Westmin Resources Limited. Acquisitions in the previous year totalled $55.4 million.

Production of oil and gas rose to record levels in 1989. Oil and gas liquids averaged 47,100 barrels per day, up 5 percent from the previous year and natural gas averaged 203.9 million cubic feet per day, up 12 percent. The production gains were primarily the result of exploration and development successes, as the Westmin acquisition was closed late in the year and had little impact on Norcen's 1989 operating results. In 1990, with the benefit of a full year's production from both the Westmin properties and recently-completed projects in Australia, production levels are forecast to rise to approximately 63,000 barrels per day for oil and gas liquids and to 300 million cubic feet per day for natural gas.

At 1989 year-end, Norcen's established reserves of crude oil and gas liquids amounted to 173.4 million barrels, up 29 percent from a year earlier. Natural gas reserves, at 1,625 billion cubic feet, were up 40 percent.

#90051p0464 02/20/1990 ~PR Newswire

SEATTLE (FEB. 20) PR NEWSWIRE - Cathay Pacific Airways has exercised an option to purchase four Boeing 747-400s, Boeing Commercial Airplane Group

confirmed today. Value of the four is about $550 million.

Including these four, the Hong Kong-based carrier has committed to 14 of the big, long-range -400s, two of which are freighter versions. This total also includes two 747-400s, valued at about $275 million, which had not been publicly confirmed previously by Boeing.

Cathay Pacific has taken delivery of three 747-400s from Boeing. It uses these plus one leased from another carrier, to fly passengers nonstop between Hong Kong and European destinations. The airline has chosen Rolls-Royce RB211D524H engines to power all of its -400s.

Turned-up wingtips, a 12-foot longer wingspan and the use of advanced composite materials help make Boeing's new 747-400 jetliner the longest-range passenger jetliner in the world. The 747-400 can fly 8,400 statute miles (13,518 km) nonstop with a full load of passengers and fuel. The airplane also features new high bypass engines, a two-crew flight deck with all-digital avionics and revamped interiors.

In addition to the 14 747-400s, Cathay Pacific has ordered 15 other Boeing 747s including six -300s, eight -200 passenger aircraft and one -200 freighter. It currently has 20 in service, including two obtained from other sources.

Today's order brings Boeing 747-400 total orders to 259. For the year to date, Boeing has announced orders for 88 aircraft valued at about $7.28 billion.

#90051p0467 02/20/1990 ~PR Newswire

NORTHFIELD, IL (FEB. 20) PR NEWSWIRE - Stepan Company (AMEX: SCL) reported record sales and reduced earnings for the year ended Dec. 31, 1989.

Net sales for 1989 rose 4 percent to a record $346,350,000, up from $333,033,000 for 1988. Net income declined 42 percent from $13,428,000 or $2.39 per share in 1988, compared to $7,840,000 or $1.42 per share in 1989.

Net sales for the 1989 fourth quarter increased 8 percent to $85,918,000 from $79,905,000. Net income for the quarter declined 29 percent from $2,631,000 or 47 cents per share to $1,868,000 or 34 cents per share.

''Sales of domestic surfactants, our core business, had the strongest

quarter of the year,'' said F. Quinn Stepan, chairman and president. Total surfactant volume was up 28 percent, resulting in a significant improvement in profits. Large national accounts and the 1989 acquisition of two Canadian companies were largely responsible for the increase in volume. However, this was overshadowed by a significant drop in PA earnings and start-up costs relating to acquisitions. Economic difficulties in the industries supplied by PA -- housing, auto, boating -- and global overcapacity were responsible for this decline. In November 1989, we acquired the surfactant business of Domtar Inc. located at Longford Mills, Ontario; this was the second Canadian acquisition of the year. Interest expense rose due to higher average debt levels from capital expenditures and the Canadian acquisitions.

In summary, the decline in earnings for 1989 is primarily attributable to polymer products. PA alone accounted for almost 90 percent of the unfavorable performance, while urethane accounted for the balance. Surfactant and specialty chemical earnings were flat. The start-up costs related to the acquisition and assimilation of our new Canadian operations contributed to the disappointing surfactant results.

Stepan said, ''We enter 1990 cautiously as many economic forecasts indicate little or no real growth. With the start-up costs related to our two recent Canadian acquisitions substantially behind us and another surfactant sulfonation unit with additional needed capacity coming on stream this spring, we expect improved sales and earnings from our surfactant operations in the coming year. Results from sales of our polymer products, phthalic anhydride and urethanes, will be dependent on what happens in the economy. Assuming no major decline in the economy, we expect 1990 to show improved financial results over 1989.''

Stepan Co., headquartered in Northfield, is a leading producer of basic and intermediate chemicals used in household, industrial, personal care, agricultural and energy-related products.

NEW YORK (FEB. 20) PR NEWSWIRE - Sumter Partners L.P. (Sumter), announced today the settlement of all outstanding litigation with Clemente Global Growth Fund, Inc. (the Fund) (NYSE: CLM).

Under the terms of the settlement, among other things, Sumter will not purchase any additional fund shares and will not seek to change control or management of the fund.

Thomas B. Pickens III, a spokesman for Sumter, stated: "Since September

1988, the net asset value of the fund has risen from $8.29 to approximately $11.82 and similar regional investment funds have traded at premiums to net asset value rather than at significant discounts. Sumter, along with all other shareholders, has benefitted from the fund's recent successful investment strategy. We wish the fund continued growth and success."

NEW YORK (FEB. 20) PR NEWSWIRE - Universal Matchbox Group Ltd. (NYSE: UMG) today reported operating results for the fourth quarter and year ended Dec. 31, 1989.

Net sales for the fourth quarter increased 2.4 percent to $79 million from $77.2 million in the fourth quarter of 1988. Net loss for the quarter was $6.9 million, or $0.70 per share, compared with net income of $4.9 million, or $0.50 per share, in the 1988 fourth quarter.

For the year, net sales decreased 2 percent to $235.7 million compared with $240.5 million in 1988. Sales of core Matchbox vehicles, vehicle accessories and playsets, preschool toys and plastic model kits increased 10 percent to $131 million for the year. However, this was more than offset by a 21 percent decrease in sales of non-core promotional products as a $22 million decline in sales of Pee Wee Herman product was only partially replaced by new product sales. Contract manufacturing revenue declined 5 percent in 1989 to $50.6 million from $53.3 million in 1988 due to planned capacity reductions.

A net loss of $13.5 million, or $1.38 per share, was reported for 1989 as compared to a net income of $2.1 million, or $0.21 per share, in the prior year.

The company attributed the 1989 loss to a number of factors:

-- The 1989 new product range was too broad, overstretching the company's product development and manufacturing resources. This resulted in delays in the availability and supply of certain key new products.

-- Increased promotional and selling expenses were incurred early in 1989 in anticipation of sales level which did not materialize. Higher R&D costs were incurred in order to have 1990 products available earlier, as well as on a number of projects which were dropped.

-- High levels of excess inventory were closed out at prices below cost.

-- Interest expense increased 22.5 percent primarily due to higher average inventory and receivables.

Universal Matchbox Group Ltd. is one of the world's leading toy companies. The company designs, manufactures and markets toys in more than 120 countries. It is also a leading contract manufacturer for other major international toy companies.

NEW YORK (FEB. 20) PR NEWSWIRE - Orion Pictures Corp. (NYSE: OPC) announced today that Mike Medavoy has asked to be relieved of his contractual obligations which have two years to go and discussions are under way to accommodate his desire and arrange for an orderly transition.

Arthur Krim, Eric Pleskow and Bill Bernstein expressed their regrets and their deep affection for Medavoy and their understanding of his wish to take on new challenges. In the 16 years of association of the four senior executives, Medavoy played a key role in the accomplishments of United Artists in the years 1974-1977 and of Orion since that date. He has not yet made plans for the future and his colleagues at Orion not only wish him well but also expressed the hopes that those future plans would not exclude working together in areas of mutual interest.

Orion further announced that the head of production to succeed Medavoy will be Marc Platt, who as a production executive and senior vice president of Orion since 1987 has earned the confidence and respect of the creative community associated with Orion as well as the creative community at large. Platt will assume the title of president of Orion Pictures Productions, a subsidiary of the parent company.

Pleskow, president and chief executive officer of Orion, expressed his great pleasure that the new production head could be recruited from within the company and referred to Platt as "one of the outstanding new young rising stars in the industry," an assessment enthusiastically endorsed by Krim, Medavoy and Bernstein.

ALBANY, OR (FEB. 20) PR NEWSWIRE - Synthetech Inc. (NASDAQ: NZYM) today announced a loss for the third quarter ending Dec. 31, 1989, of $42,975 (0

cents per share, unaudited) on revenues of $261,369. The results were an improvement over the year ago period in which the loss was $161,975 on revenues of $106,752. Despite the quarter loss, year-to-date figures are ahead of 1988. For the nine month period, the company posted a profit of $202,284 (2 cents per share, unaudited) on revenues of $1,154,821 compared to a loss of $655,436 on revenues of $267,460.

Paul C. Ahrens, chief executive officer, stated that the lower level of product shipments, compared to the second quarter, was anticipated by management and reflects lower productiondue to seasonal variations. Ahrens pointed out that the level of order backlog at the end of the quarter exceeded the revenues for the three month period. The company's customer base and range of products continued to grow during the quarter. Management anticipates quarter-to-quarter fluctuations in earnings as the emerging market for peptide building blocks grows.

Recent press reports have linked Synthetech with Syntex's recently approved peptide-based drug, Synarel. Ahrens confirmed that Synthetech is a qualified supplier of peptide building blocks for Synarel. "Synthetech is a leading supplier of peptide building blocks to the pharmaceutical industry for peptide-based drugs. Synarel is one of several approved peptide-based drugs for which Synthetec is a qualified supplier. There are many more peptide-based drugs at various stages of investigation," Ahrens said.

SANTIAGO, CHILE (FEB. 20) UPI - Embattled Australian businessman Alan Bond has agreed to sell 48 percent of the nation's major telephone company, Compania de Telefonos de Chile, to a Spanish company for $391 million, government officials said.

Bond, his business empire crumbling under the weight of excess debt, sold nearly his entire stake in the company to Telefonica Espanol. Bond in 1988 bought 49 percent of the company that provides local telephone service to most of Chile. The company is owned 51 percent by the Chilean government.

Finance Minister Martin Costabal said Monday the sale came about because "the owners of that business have important debts and are trying to manage them in some way."

Bond Corp. Holdings Ltd., Alan Bond's brewing, resources, media, and property company, has been selling assets for more than a year to reduce a debt of some $7 billion.

One possible conflict with the sale of Bond's stake in Compania de Telefonos de Chile could be that Telefonica Espanol owns an interest in Entel Chile, the company that provides long-distance service to Chile. Costabal said the possible violation of antitrust laws would have to be studied.

NEW YORK (FEB. 20) UPI - Comedy was king in the ratings last week and NBC was laughing all the way to the finish line as it won the ratings race for the 18th consecutive week, it was reported Tuesday.

Of the 10 top-rated shows of the week, nine were sitcoms - and six of those were on NBC. The remaining top 10 shows included three ABC comedies, one of which was ''America's Funniest Home Videos'' in sixth place, and the second installment of NBC's miniseries ''Blind Faith.''

''Blind Faith'' averaged a 21.6 rating and a 34 share over its two parts, making it the second highest-rated miniseries of the season, just one-tenth of a ratings point behind ABC's ''Small Sacrifices,'' which had

a 21.7 rating and a 34 share.

NBC again was successful in designating Monday a ''Night of 1,000 Laughs '' and scheduling special episodes of some of its most popular sitcoms. The comedies averaged a 16.4 rating and 26 share for the night. That did not sink ''The Love Boat: A Valentine Voyage'' on CBS, but it did push it down to 38th place with a 13.6 rating and a 22 share.

ABC's Monday night flick, ''The Jewel of the Nile,'' tied for 41st.

In the Sunday movie competition, CBS won with the theatrical ''The Color Purple'' in 18th place. The first installment of ABC's ''The Kennedys of Massachusetts'' tied for 20th and ''The Death of the Incredible Hulk'' on NBC in a three-way tie for 24th.

The shows ''The Hulk'' tied with were ''The Simpsons,'' which continued to wow the folks for Fox Broadcasting, and NBC's ''Night Court.''

Bob Hope continued to win for NBC, with his lampoon of show biz in a tie for 30th.

NBC won the ratings race for the week ending Feb. 18 with a 15.7 rating and a 26 share, according to the A.C. Nielsen Co. ABC took second place with a 12.6 rating and a 20 share, while CBS was third with an 12.1 rating and a 20 share.

The 22-week-old season-to-date ratings show NBC with a 14.9 rating and a 25 share, ABC with a 13.0 rating and a 22 share, and CBS with a 12.3 rating and a 20 share.

In the evening news ratings, ABC's ''World News Tonight'' with Peter Jennings continued as No. 1 with an 11.3 rating and a 21 share. The Jennings news has been in sole possession of first place or tied for first for 19 of the last 20 weeks.

''NBC Nightly News'' with Tom Brokaw was second with a 10.1 rating and a 19 share, while ''CBS Evening News'' with Dan Rather was third with a 9.9 rating and an 18 share.

Each ratings point represents about 921,000 households and a share is the percentage of TV sets tuned to a particular show.

The top 10 programs for the week ending Sunday, Feb. 18, according to the A.C. Nielsen Co., were:

1. The Cosby Show (NBC)
2. (tie) Blind Faith, part 2 (NBC)
3. Cheers (NBC)

4. A Different World (NBC)
5. The Cosby Show Monday special (NBC)
6. America's Funniest Home Videos (ABC)
7. Roseanne (ABC)
8. Golden Girls (NBC)
9. Empty Nest (NBC)
10. Wonder Years (ABC)

#90051u1115 02/20/1990 ~United Press International

WASHINGTON (FEB. 20) UPI - The Supreme Court refused to become involved Tuesday in a clash between Volkswagen and owners of older model Rabbits who claim they were soaked by the company because their cars' engines used too much oil.

The justices, without comment, rejected the appeal by 164 owners of the 1976-1979 model year compact cars who filed a nationwide class-action suit against the automaker.

The dispute before the court began in 1987 after a federal jury in Charlotte, N.C., found Volkswagen could not be held liable for the excessive oil consumption of the vehicles at issue. The 4th U.S. District Court of Appeals upheld the decision.

The case focused on instructions the jury received in considering their verdict.

The Rabbit owners sought a new trial, contending the instructions wrongly forced the jury to find that seals in the car engine, which resulted in the lost oil, were defectively designed. The owners argued they only needed to prove the cars were not doing what they were supposed to do.

#90051u1298 02/20/1990 ~United Press International

DETROIT (FEB. 20) UPI - The parent company of Mercedes-Benz Tuesday announced an agreement with Mitsubishi Motor Co. to sell Mercedes cars in Japan, while exploring ventures in East Germany for commercial vehicles, railroad systems, and household appliances.

Edzard Reuter, chairman of Daimler-Benz AG, West Germany's giant automotive, aerospace, and electronics congolmerate, said his company is also exploring joint ventures with Japanese aerospace and micro-electronics businesses.

Reuter told the Economic Club of Detroit the company's agreement with Mitsubishi will allow it to double its Mercedes sales in Japan to 60,000

cars a year by 1992 or 1993 by increasing the number of sales outlets, Reuter said. However, he stressed there are no plans with Mitsubishi for a joint manufacturing venture.

Reuter also noted that the political reform in Central and Eastern Europe since last November, along with recent steps to unify East and West Germany, may slow down the economic integration of Europe in 1992.

"If you had asked me four months ago, my answer would have been that a (unified Europe) will come about, although I don't know that it will all happen by Jan. 1, 1993," Reuter said. "But now Eastern Europe might slow it up."

While Reuter said a unified Western Europe will not have a large impact on the company since it already markets its wares in most countries, Eastern Europe holds great potential for its commercial vehicle and electronics business.

"There are high growth possibilities in Eastern Europe although it will take some time to happen," Reuter said, adding that a unified monetary system is needed throughout Europe. "But American companies, including automakers, would be well advised to engage themselves in Eastern Europe as soon as possible," he said.

Separately, Reuter said Mercedes has "never been frightened" by the new and less expensive luxury cars from Toyota's Lexus and Nissan's Infiniti divisions on sale since late last year from about $23,500 to $40,000.

But he said those automakers may be subsidizing those new models to help bolster U.S. sales. Mercedes cars now range from about $31,600 to nearly $85,000.

"But one thing is for sure," Reuter said. "The Japanese industry tends to follow a high-priced policy in their domestic market, which enables them to sell their products outside Japan at lower prices."

Reuter said Daimler-Benz has not determined if Toyota or Nissan may be "dumping" those cars on the U.S. market, which means they are being sold for less than it costs to produce them.

#90051u1310 02/20/1990 ~United Press International

CASTLEWOOD, VA (FEB. 20) UPI - Striking miners ratified a contract with the Pittston Coal Group by a nearly 2-1 ratio, United Mine Workers union officials said Tuesday, ending a 10-month-old walkout that crippled the economy of the Appalachian region.

UMW President Richard Trumka and Vice President Cecil Roberts held simultaneous news conferences in Florida and southwest Virginia to announce the results.

No date has been set for the miners to return to work. The strike began Apr. 5 and was notable for the UMW's unprecedented implementation of non-violent civil disobedience tactics, but it also sparked confrontations and violence that led to 71 injuries.

Nearly 2,000 miners in Virginia, West Virginia and Kentucky voted on the contract, with 1,247 voting in favor and 734 voting against.

Virginia locals supported the agreement by a 62 to 38 percent margin, while West Virginia miners approved by a 71-29 percent margin.

Miners in Kentucky split on the pact, voting 95-97 to reject it.

Pittston Coal Group president Michael Odom described the ratification as ''fantastic news. I think both of us can agree we got a good contract. ... We have a relationship now. We understand each other.''

Labor Secretary Elizabeth Dole, attending an AFL-CIO convention in Bal Harbour, Fla., with Trumka and AFL-CIO President Lane Kirkland, said it was apparent that the vote showed confidence in union leadership.

Dole, who traveled to the coal fields last year and brought in federal mediator William Usery to speed an end to the strike, said she wanted to look at ''the larger issues'' involved in the strike.

She said she was prepared to set up a commission to study ways to resolve conflicts over union health benefits and pensions, one of the critical bargaining points in the Pittston dispute.

Roberts said Pittston will be making radio announcements and calling individual workers about possible times to return to work, although no return date has been established. He said mines will be inspected within the next 24 hours and safety retraining for the strikers will begin soon.

''We are extremely proud of the strikers here,'' said Roberts. ''They made a tremendous sacrifice in order for us to sit here today. I hope we can bring peace back to southwest Virginia. I hope we can get on with our lives.''

Roberts said the Pittston strike was a dispute where unions worldwide decided to take a stand, particularly in light of their ''great defeat'' in the air traffic controllers strike in the early 1980s.

Trumka, in a telephone call to Roberts, said, ''I've never been more proud

of a group of people in my life than I am of all of you there right now.

''We should have our people inspect the mines and get our people back to work as quickly as possible,'' said Trumka.

Pittston won concessions to operate its mines around the clock, but miners claimed victory in the areas of pensions and health benefits.

Strikers who voted Monday expressed concern about portions of the contract but looked forward to the end of the dispute. Still undecided is the disposition of more than $64 million in fines imposed by Russell County Circuit Judge Donald McGlothlin Jr. against the UMW for alleged illegal strike activity.

Trumka said last week he may attempt to meet with McGlothlin, who has refused to dismiss the fines despite urging by Usery and Pittston.

Others said the union should have done more for 13 Kentucky strikers who are suspended for alleged illegal strike activity, men who will have to go to arbitration if they want to win the right to return to work.

Cox said the union did not like leaving the men hanging but noted that Pittston originally wanted 800 strikers in arbitration because of strike-related violence.

Pittston wanted rotating shifts so it could operate mines round the clock, seven days a week, although no actual mining will be allowed on the Sunday daylight shift.

An extra shift of workers will be needed to fill the new schedule, Odom said, and the shift will be filled by hiring laid-off union miners.

The flexible work rules will help the company meet spot market foreign sales, Odom said. Pittston, whose parent company, Pittston Co., is the largest U.S. exporter of metallurgical coal to Japan.

A U.S. District Court judge already has slashed nearly $1 million in fines to $280,000, and the National Labor Relations Board accepted a request from both sides to drop all unfair labor practice charges.

CHICAGO (FEB. 20) UPI - Zenith Electronics Corp. said Tuesday it has a $49 million disagreement with Paris-based Groupe Bull over the amount due on Bull's purchase of Zenith Data Systems.

Zenith had estimated it would earn $22 million in the fourth quarter from

the discontinued computer business, including a net gain on the sale of that business.

But the suburban Glenview company said its computer business declined substantially in December. It said it now expects to show a net loss on Zenith Data Systems for the quarter, with operating losses exceeding the net gain on the sale of the business to Groupe Bull.

The extent of the loss depends on resolution of Zenith's dispute with Groupe Bull over the final purchase price of the computer business, which is the subject of a major dispute between the two companies.

Under the agreement signed with Groupe Bull Oct. 2, the purchase price was set at $91.9 million plus the adjusted net book value of the assets sold.

The sale was completed Dec. 28, and Groupe Bull paid Zenith $495.4 million in cash. The final purchase price, however, was to be determined based on a statement by Groupe Bull assessing the net adjusted book value of Zenith Data Systems at the time of the sale.

Zenith Chairman Jerry K. Pearlman said Groupe Bull presented its closing-date statement Feb. 16 and called for a refund of $49 million, plus interest.

Zenith has until Mar. 16 to review the Groupe Bull statement and respond.

The two companies , under terms of the sale agreement, would then have another 30 days to negotiate a settlement of their dispute. Should negotiations fail, the dispute would be referred to arbitration.

The disagreement between Zenith and Groupe Bull was revealed in Zenith's fourth-quarter earnings statement, released Monday.

Zenith reported earnings of $4 million, or 15 cents a share, from continuing operations during its fourth quarter, a decline of 47 percent compared with $7.5 million, or 29 cents a share, in the final quarter of 1988. Revenues from continuing operations increased to $443 million compared with $440 million a year ago.

For all of 1989, Zenith reported a net loss of $17 million compared with a net loss of $11 million in 1988. Revenues for continuing operations totaled $1.55 billion compared with $1.40 billion the previous year.

Complete results for the quarter and year were not available because of the dispute with Groupe Bull over the purchase of Zenith Data Systems.

NEW YORK (FEB. 20) UPI - Foreign companies must improve their business strategy and show that offshore investments are no threat to the U.S. economy, an expert in U.S.-Japan business relations said Tuesday.

"Highly visible business deals have re-ignited the burning question: are foreign investors, particularly Japanese investors, friends or foes of the United States," said Art Gemmell, vice president and director of strategic planning at Fujitsu America Inc.

Gemmell cited as an example the uproar triggered by the recent Japanese acquisition of a controlling interest in New York's Rockefeller Center. The landmark had failed to attract U.S. buyers able to outbid Japanese offers in a relatively depressed real estate market.

"By demonstrating that foreign investments can be productive for local communities and for America as a whole, foreign investors are met with welcome mats instead of 'go home' signs," said Gemmel, who authored a number of working papers on businesses and the cross-culture environment.

Gemmell identified several areas where foreign investors should concentrate their efforts in order to improve their image - as well as their business performance. He quoted a recent opinion poll saying that a large majority of Americans - 62 percent - perceived Japanese investments as a threat.

The top priority for foreign companies, Gemmel said, should be to "hire employees in the local community and develop training programs" in order to give employees true career opportunities within foreign corporations.

Foreign ventures should not be seeking short-term profits only but should invest in research, a trend favored by many Japanese companies, to tap the best talents and improve technological developments, Gemmel said.

Foreign companies should also seek to have a positive impact on the U.S. economy by investing in depressed areas where job creation is most needed, Gemmel said. "Many of the more successful foreign investors have invested in geographic areas in need to maximize their investments," he said.

Finally, turning to local suppliers and implementing long-term business strategies are crucial to the positive perception of foreign companies, according to Gemmel.

"Succesful foreign investors must seek U.S. suppliers close to manufacturing facilities to maximize their competitive position," he said. "They must build for the future and not just establish 'screwdriver' facilities."

Gemmel asserted that emotional reactions underlie U.S. fears of takeovers

by "Japan Inc." He pointed out that European countries, not Japan, largely dominated foreign investments in the United States.

According to the Department of Commerce, European countries' investments in the United States stood at $216.4 billion in 1988. Britain ranked as the largest single foreign investor with $101.9 billion, followed by Japan with $53.4 billion and the Netherlands with $49 billion. Total foreign investments in the United States in 1988 were $328.9 billion.

Fujitsu America, based in San Jose, Calif., is the U.S. subsidiary of Fujitsu Ltd., Japan's largest computer maker and a major manufacturer of telecommunications equipment and semiconductors.

#90051u1392 02/20/1990 ~United Press International

NEW YORK (FEB. 20) UPI - Authorities Tuesday filed a $3 million lawsuit against one of the city's largest employment agencies that allegedly discriminated against blacks and elderly people who failed to fit an ''All-American'' image.

The complaint, jointly filed by the city and state against Cosmopolitan Care, charged the employment agency forced its workers to use secret codes to note whether an applicant was black or elderly and urged them against sending such people to job interviews.

It was the fifth lawsuit filed against a New York City employment agency since state Attorney General Robert Abrams' office began investigating allegations of racism, sexism and age discriminaion in the industry four years ago.

''I am appalled at this insidious form of bigotry, which has harmed not only African-Americans but also one of our most vulnerable populations, the elderly,'' said Mayor David Dinkins, speaking at a City Hall news conference with Abrams.

Edward Barbini, a spokesman for Abrams, called the suit ''the biggest lawsuit of its kind in the nation.''

Also at the news conference were two former Cosmopolitan employees, B.J. Levin and Joel Council - both of them black - who charged the agency urged them against sending out a black for an interview, even if that person was best qualified for the job.

Both claimed they were forced to note on an application whether the job seeker was black and were discouraged from sending such applicants out for interviews at companies that had specificially requested a white worker.

Council, who now works for a different employment agency, said Cosmpolitan job counselors were asked to sign their initials in reverse on an application if the job seeker failed to fit an ''All American'' stereotype - namely if he or she was black or elderly.

Levin, now self-employed, said she worked at Cosmopolitan for more than five years, challenging the company's allegedly racist policies whenever possible by secretly sending out black job applicants she felt were qualified.

But, Levin said, she quit in frustration in March 1988 and ultimately decided to take her story to the attorney general's office last fall after viewing a television report that brought to light charges of racism at three other employment agencies.

The complaint against Cosmopolitan, one of the city's largest employment agencies, seeks $3 million in compensatory and punitive damages from the agency and its parent company, the Norrell Corp., of Atlanta, Ga.

A spokeswoman for Norell Corp., Beatrice Ruffin, said the company had not yet analyzed the lawsuit.

But, she said, ''Norell is disturbed by these allegations because, for many years, the company has had a strict policy prohibiting discrimination in any form.''

#90051u1477 02/20/1990 ~United Press International

DALLAS (FEB. 20) UPI - Recognition Equipment Inc. reported Tuesday a first-quarter loss of $3.7 million, compared with earnings of $186,000, or 2 cents a share, in the year-ago period.

Revenues for the quarter ended Jan. 31 were $56.8 million, compared to $64.15 million last year.

The maker of image processing and document scanning systems, which has undergone major restructuring in recent months, said the results included a $1.24 million charge for severance expenses.

Also included were legal expenses associated with the criminal proceedings over alleged irregularities in the procurement of a contract from the U.S. Postal Service. In November, the company and two of its former officers were given a favorable directed verdict of acquittal.

''The company is recovering from a difficult 1989 but the restructuring programs which we are implementing are beginning to have a positive impact '' said Thomas Hurley and Robert Vanourek, co-chief executive officers, in

a prepared statement.

''We continue to view 1990 as a transition period as we sell certain assets, complete the downsizing of the company and make product development investments in the company's image-related products.''

By JAN A. ZVERINA

DETROIT (FEB. 20) UPI - Building an exemplary automobile is much like assembling a good dance company, acrobatic troupe, or preparing a fine meal.

Simply put, the whole must be greater than the sum of its parts.

The ''parts'' of Infiniti's new M30 coupe, the smaller model in Nissan's new luxury car division, cover the full spectrum of luxury and safety features.

Included in its single, no options price of $23,500 is an electric sunroof air conditioning, Bose stereo cassette and leather seats, as well as a driver's side air bag and anti-lock brakes.

The M30, which is slightly larger than a Chevrolet Beretta, has so far been living in the shadow of its big brother, the $38,000 Q45 sedan that is now busy rubbing bumpers with the finest BMW and Mercedes have to offer.

Sold as the Leopard in Japan, the M30 competes with cars like the Acura Legend, BMW 325i, and Ford Thunderbird Super Coupe - in other words, within a hotly contested market crammed with capable coupes ranging from the low $20,000 range on up.

It is also intended as a ''step-up'' car for loyal Nissan and Toyota buyers.

While the Q45 sedan embraces the ''aero'' styling theme now in vogue, the M30 coupe has a more angular profile, which Nissan says makes ''a strong visual statement.''

But one week of driving the M30 throughout the Motor City, where it will not go on sale until this fall, turned nary a head. In fact its swept-forward roofline reminded some of Toyota's Corolla G-T-S subcompact coupe, which costs thousands less.

The rear-drive M30 has a 3.0 liter V6 that pumps out 162 horsepower at 5,200 rpm, coupled with a 4-speed automatic with electronic overdrive. Its

engine is a conventional two-valve-per-cylinder design - a bit surprising, since many less expensive Japanese cars have long adopted multi-valve motors.

Premium unleaded gas is recommended, with EPA fuel mileage ratings of 19 city-25 mph highway.

The M30's interior conveys mixed impressions about what kind of car it really is. The excellent leather seats, for instance, clash with the heavily grained vinyl on its dash and doors.

More importantly, there are ergonomic flaws that have no place in any car, let alone one that Nissan claims accents both comfort and performance.

Its gauges are legible and well marked - but blocked from view once the adjustable steering wheel is set in its lowest position. Its redundant radio controls to the right of the gauges do little to enhance driver operation of the stereo, nestled at the bottom of the dash and dotted with tiny controls.

And its rear seat, which is tight fit for adults, requires a contortion act to get in or out of.

The mixed feelings continued after an extended test drive of the M30.

Its ability to smooth out rough pavement and insulate the driver is notably good, even when driven in a spirited manner. But drivers may notice very little difference in ride when switching from ''comfort'' to ''sport'' using a console mounted button that changes shock absorber firmness.

The M30's V6 engine is growlish if not outright tinny and loud under acceleration, constantly kicking into a lower gear for added power. A 5-speed manual might be a welcome addition.

On the plus side was a fit and finish level second to none as judged on the M30 evaluated for this review.

In short, the M30 has all the right ingredients - but seems to lack the overall feel that should be imparted to such a luxury coupe.

From a subjective view, it is blandly styled when parked alongside cars like the Legend coupe or Super Coupe, or even the Saab 9000, also considered a target by Infiniti.

The M30 also lacks the precision feel of the Legend coupe or the sheer muscularity of a Super Coupe - in other words a distinct character that is needed for an all new brand to do well in this market.

What is most troubling is that Nissan, which has been launching one great model after another during the past 18 months, could have done so much better in filling the second slot at its Infiniti division, which now has about 60 dealers nationwide.

(For each car written about in his weekly Roadtalk column, UPI Auto Writer Jan Zverina test drives the vehicle for one week, driving it between 250 and 500 miles on city and rural roads.)

#90051u1940 02/20/1990 ~United Press International
(FEB. 20) UPI - With many traders in London for an annual dinner, oil prices ended mixed Tuesday in a lackluster day of trading as crude oil gave further evidence of being ready for a decline.

In the final day of trading the March delivery contract, the benchmark West Texas Intermediate crude, dropped 23 cents to $22.19 a barrel on the New York Mercantile Exchange.

April delivery WTI, which becomes the Merc's spot-month contract Wednesday lost 11 cents to $22.14 a barrel. The spread between the prices of the March and April contracts has been narrowing in recent sessions and ended Tuesday at 5 cents.

''That's not a bright signal for the prompt crude to go out at only 5 cents above,'' said Tom Bentz, director of trading services at United Energy Corp. in New York.

''If you didn't want to own March contracts today, why would you want to own April's tomorrow?'' the analyst said.

On the U.S. Gulf Coast cash market, WTI lost 25 cents to a bid of $22.15 a barrel.

''It was a kind of lackluster day, Bentz said, with many traders away in London for the annual dinner of the International Petroleum Exchange.

Some analysts foresee demand for crude dropping as much as 1 million barrels a day in March as refiners perform their season ''turnaround'' maintenance to emphasize the refining of gasoline rather than heating oil.

The slightly colder weather in the Northeast gave support to heating oil early in the day, Bentz said, ''but that didn't last.''

March delivery heating oil ended the day down 0.10 cent to 57.38 cents a gallon on the Merc after trading as high as 57.95 cents a gallon. On the New York Harbor cash market, it slipped a bare 0.05 cent to 57.60 cents a gallon.

Unleaded gasoline for March delivery gained 0.21 cent to end the day on the Merc at 60.20 cents a gallon. It was up 0.20 cent on the New York Harbor cash market to 58.70 cents a gallon.

Gasoline may have received some support from a fire in the morning at a

big Amoco Corp. refinery at Whiting, Ind., about 15 miles southeast of Chicago, that killed two employees and injured three, according to spokesman Richard Judy.

He said the fire, which blazed for about an hour and a half before being brought under control, occurred during the loading of tank trucks with liquefied petroleum gas and damage was largely confined to the LPG rack loading area.

''There was no indication of any serious damage to the refinery that would cause problems in supplying customers,'' Judy said.

On the European spot market, Britain's widely traded North Sea Brent crude dropped 25 cents to $19.75 a barrel while the United Arab Emirates' Dubai light - the key OPEC crude from the Middle East shipped mainly to Asia - also fell 25 cents to $16.45 a barrel.

#90051u1959 02/20/1990 ~United Press International

DETROIT (FEB. 21) UPI - Profit sharing checks to be distributed by General Motors Corp. and Ford Motor Co. next month are expected to equal only a quarter of the payout last year, according to a study issued Tuesday by Manufacturer's National Bank.

Initial estimates by the Detroit bank shows an estimated 285,000 Michigan auto workers will get a combined $89 million this year, based on lower 1989 profits at the nation's two largest carmakers.

That compares with 309,000 Michigan workers who shared a pool of $337 million last year, based on 1988 earnings. Chrysler Corp. workers also shared in those payments last year.

The bank estimates the $89 million to be distributed next month will grow to $124 million after ripple effects from consumer and business spending within the state.

Ford workers stand to get an average $1,025 each this year, down from the average of $2,800 paid last year. GM workers will get a mere $50 each, a fifth of the typical $254 payout last year.

Chrysler workers, who received an average $720 last year, stand to get nothing this year because the automaker's U.S. earnings did not trigger the profit sharing formula agreed to by the United Auto Workers union.

#90051u2411 02/20/1990 ~United Press International

ANCHORAGE, AK (FEB. 20) UPI - The Exxon captain who replaced Joseph Hazelwood on the grounded Exxon Valdez testified Tuesday that the tanker should have missed Bligh Reef based on the skipper's turn commands and that Hazelwood's actions after the grounding may have saved the damaged ship.

Capt. William Deppe said that, unlike Hazelwood, he would have stayed on the bridge during maneuvers around icebergs, but he refused prosecution invitations to fault Hazelwood's other actions before and after the grounding a few minutes after midnight last March 24.

Hazelwood, on trial in state Superior Court on three misdemeanors and a felony arising out of the grounding, was removed from the stricken ship the night of the wreck to answer investigators' questions ashore in Valdez and Deppe replaced him as captain.

Prosecutors, apparently trying to illustrate the reckless nature of Hazelwood's actions, asked Deppe to describe how he would have behaved if he had been skipper of the Exxon Valdez.

But Deppe's answers seemed to bolster the defense case.

Deppe said the Exxon Valdez probably would have cleared Bligh Reef based on the turn commands given by the third mate to the helmsman - but apparently executed too late - while Hazelwood was in his cabin doing paperwork. Hazelwood had left orders about what to do.

Deppe further testified that Hazelwood's orders to run the engines forward once the tanker was on its rocky perch, may have saved the ship from sliding off the reef.

Hazelwood, 43, of Huntington, N.Y., is charged with reckless endangerment, operating the tanker while intoxicated, negligent discharge of oil and criminal mischief. He faces up to seven years, three months in jail and a $61,000 if convicted.

Deppe helped Exxon investigate the accident and he was Exxon's official representative in the National Transportation Safety Board probe. His testimony may offer the first hint of how Exxon would like to see the Hazelwood trial end.

Deppe, as an Exxon company representative, may have wanted to paint a picture of Hazelwood acting responsibly, not recklessly, because if Hazelwood is convicted of reckless conduct, then Alaska may have an easier time showing gross negligence on the part of Exxon in the state's civil suit against the company.

Gross negligence would subject Exxon, in the civil case, to penalties five

times greater than civil spill penalties without gross negligence. Proving reckless behavior by Hazelwood in the criminal case would help the state prove gross negligence by Exxon in the civil case.

The issue of gross negligence and Exxon's potentially steep liability have not arisen openly during the Hazelwood trial, but it is probably the chief unspoken subplot running through the trial.

Although Exxon fired Hazelwood one week after the wreck when a blood test showed alcohol in his system, Deppe's testimony made it appear as if Exxon testmay have an interest in seeing Hazelwood beat charges of recklessness described in the felony and one misdemeanor.

Deppe also noted that he has known Hazelwood for 22 years.

Another Exxon skipper, Capt. Michael Stalzer, testified that company policy may have required Hazelwood to be on the bridge during the detour out of tanker lanes to avoid icebergs.

Deppe hedged in his answers, saying his actions, were he in Hazelwood's shoes when the wreck occurred, would depend on circumstances. Probably the only thing Deppe said he would do differently would be to remain on the bridge during the detour. Prosecutors have indicated that Hazelwood's absence was itself reckless.

Hazelwood left a third mate in charge with a helmsman at the steering wheel who had difficulty carrying out steering orders, according to other crewmen.

Deppe, who works as an Exxon crew coordinator, testified that no Exxon tanker has ever delayed its departure from the Alaska oil port of Valdez because of icebergs, which littered shipping lanes when the Exxon Valdez sailed with 53 million gallons of oil.

Nor does Exxon have any policy spelling out when skippers should stay in port because of hazardous conditions, such as the icebergs, he said.

It was during its ice detour that the Exxon Valdez hit Bligh Reef, which ripped open the underbelly of the tanker, releasing nearly 11 million gallons.

When asked about Exxon policy on alcohol aboard tankers, Deppe said, ''We have had so many policy changes lately that it's kind of confusing.''

He said Exxon formerly permitted alcohol on board for holidays. Moussy beer, a low-alcohol brew found in Hazelwood's cabin, also was permitted on board tankers, but that, too, has since been prohibited.

Another prosecution witness, Dan Lawn, a state environmental engineer in Valdez, said Hazelwood smelled of stale beer late the morning of the wreck.

Lawn, one of the first people on the stricken tanker, videotaped what he saw and that video was shown to jurors, giving them their first look at the disastrous spill.

#90052b0006 02/21/1990 ~Business Wire

SEATTLE (FEB. 21) BUSINESS WIRE - Immunex Corp. (NASDAQ:IMNX) Wednesday filed a Product License Application (PLA) and Establishment License Application (ELA) with the U.S. Food and Drug Administration (FDA) for Leukine, the company's yeast-expressed granulocyte-macrophage colony stimulating factor (GM-CSF).

The FDA has stated in writing its willngness to grant Leukine expedited review, provided certain criteria are met in the filing. Expedited review is an agency process designed to speed the availability of life-savings therapeutics to desperately ill patients.

Leukine promotes the growth, differentiation and function of the infection-fighting white blood cells, granulocytes and macrophages. The license applications to manufacture and sell Leukine are for two indications related to bone marrow transplantation, a technique used to restore the immune systems of certain cancer patients following intensive radiation or chemotherapy.

Immunex has developed Leukine in collaboration with Behringwerke AG, based in Marburg, Federal Republic of Germany, and with Behringwerke's U.S. affiliate, Hoechst-Roussel Pharmaceuticals Inc. (HRPI). The Leukine PLA was supported with results from clinical trials conducted under an investigational new drug application sponsored by HRPI.

Under an agreement in principle with Behringwerke announced in September 1989, Immunex is manufacturing the product for both itself and HRPI. The agreement also specifies that Immunex will market the product under the Leukine brand name, and HRPI will market the product with its own mark.

Immunex is a leading biotechnology firm focused on the research, development, marketing and manufacture of immunological therapeutic products. The company has under development one of the biopharmaceutical industry's largest proprietary portfolio of cytokines and cytokine receptors.

#90052b0009 02/21/1990 ~Business Wire

REDMOND, WA (FEB. 21) BUSINESS WIRE - Data I/O Corp. (NASDQ: DAIO) Wednesday reported 1989 net income of $1.3 million, or 19 cents per share.

Net income in 1988 was $4.6 million, or 61 cents per share.

Sales in 1989 were $60.6 million, down 7.0 percent from 1988. The decline in sales was due in part to general weakness in capital equipment markets and to continued price competition in the desingn automation software market. It also was due to a loss of market share in the mid to lower price segment of the programmer market, which the company has been serving with a product introduced in 1981.

In comparing 1989 with 1988 earnings, there was a 14 cents per share unfavorable change which reflected the company earning $1.2 million in interest income in 1988 and paying $351,000 in interest expense in 1989. This resulted from the company selling approximately $20 million in short-term investments and incurring $8 million in debt to pay a $4.15 per share cash dividend in March 1989. A reduction in stock option price by the amount of the dividend necessitated the accrual of compensation expense that represents an approximate 4 cents per share charge to earnings each year from 1989 through 1991.

Net income in 1989 was reduced by 5 cents per share because the company was unable to offset taxable U.S. income by losses in its Japanese subsidiary. This subsidiary returned to profitability in the fourth quarter. In 1989, the company experienced a one-time loss of 8 cents per share in buying a 50 percent interest in its German distributor. This resulted from the repurchase of inventory from the distributor which required the company to reverse $1.1 million in revenue that it had recorded in earlier periods. The company also incurred a 3 cents per share loss from writing down a mainframe computer which will be replaced in 1990.

Net income in the fourth quarter was $0.8 million, or 12 cents per share on sales of $16.6 million. This compares with earnings of $1.7 million, or 25 cents per share, on sales of $16.1 million in the same quarter of 1988. While fourth quarter expenses were 13 percent higher than in 1988, comparisons in subsequent quarters should be favorable, because of an approximate 10 percent reduction in staff effected in the fourth quarter.

Lawrence L. Mayhew, president and chief executive officer, said, ''We see 1990 to be a tight year across the industry, but we expect our strong new

product program to provide access to new customers and to help us regain some market share that we have lost in the mid and lower price segments.''

#90052b0010 02/21/1990 ~Business Wire

BOISE, ID (FEB. 21) BUSINESS WIRE - Warren E. McCain, chairman of the board and chief executive officer, announced that preliminary results show 1989 to be the 20th consecutive year of record sales and earnings.

Preliminary, unaudited, results show sales for the 13 weeks ended Feb. 1, 1990, were $1.94 billion, an increase of 2.7 percent over the 14 week quarter last year. On a comparable 13 week basis, sales increased 10.4 percent and identical sales increased 3.2 percent.

Sales for the 52 week year were $7.4 billion, an increase of 9.6 percent over the 53 weeks last year. Sales increased 11.6 percent on a comparable 52 week basis and identical sales increased 4.7 percent.

Earnings for the fourth quarter should be in the $57 million to $60 million range compared to $51.9 million last year, while earnings per share should be 86 cents to 89 cents per share compared to 78 cents last year.

Thus, earnings for the year should be $193 million to $196 million compared to $162.5 million last year, and earnings per share should be $2.89 to $2.92 compared to $2.44 last year.

McCain further stated that during 1989 the company opened 36 new stores, completed 39 remodels and opened a new 267,000 square foot distribution center in Sacramento, Calif., a new 731,000 square foot distribution center in Fort Worth, Texas, and a 344,000 square foot expansion of the Brea, California Distribution Center.

Final results for the fourth quarter and 1989 will be released on March 5, 1990.

MOUNTAIN VIEW, CA (FEB. 21) BUSINESS WIRE - Adobe Systems Inc. (NASDAQ:ADBE) has announced 15 typeface software packages, as showcased in the new Winter 1990 issue of Font & Function, Adobe's type catalog.

The 15 downloadable typefaces are available for both the Macintosh and IBM personal computing environments and bring the total number of typeface packages available in the Adobe Type Library to 134.

''Our goal is to continue building our library to serve the needs of our design and publishing customers,'' said Kathy Englar, product marketing manager, Adobe's Application Products Division. ''Shipping 15 new families in the first two months of 1990 demonstrates that commitment.''

All packages will be available March 1, 1990 and can be purchased from all authorized Adobe dealers or through Font & Function. Customers interested in the Adobe Type Library should contact Adobe at 1-800-83-FONTS. The new releases include the following typefaces:

Package No. Typeface 120 Trajan and Charlemagne
121 Lithos 122 Adobe Wood Type 1 123 Tekton
124 ITC Avant Garde Gothic Condensed
125 Stempel Schneidler 126 Trade Gothic

Adobe Systems began shipping downloadable typefaces in April 1986. Since that time, the Adobe Type Library has grown from 12 families to the 134 currently available. These include both traditional designs and new typefaces developed by Adobe specifically for electronic publishing.

Adobe Systems Inc., founded in 1982 by Dr. John Warnock and Dr. Charles Geschke, is headquartered in Mountain View. Adobe is the developer of PostScript, the industry standard page-description language for the electronic printing and publishing fields, and Display PostScript, a device-independent graphics imaging model that drives screen displays.

In addition, the company develops and markets a complete line of application software programs, including the award-winning Adobe Illustrator 88 and Adobe Type Manager, the Adobe Type Library and Adobe Photoshop. Revenues for fiscal 1989 were over $121 million.

IRVINE, CA (FEB. 21) BUSINESS WIRE - Ralph W. Leatherby, chairman and chief executive officer of UniCARE Financial Corp. (ASE:UFN) has announced that the company's net income for the year ended Dec. 31, 1989 was up 23 percent to $7,509,000.

Net premiums earned increased 36 percent to $64,252,000, for 1989.

For the three months ended Dec. 31, 1989, net income rose 17 percent to $1,959,000, with net premiums earned for the fourth quarter of 1989 increasing 49 percent to $18,580,000.

For the year ended Dec. 31, 1989 the company's book value increased 27 percent to $39,562,000.

''We consider 1989 a successful year with net investment income increasing 30 percent to $8,534,000 and underwriting reflecting a combined ratio including policyholder dividends of 99.6 percent (consolidated GAAP),'' said Leatherby.

Leatherby also announced that the board has approved a 5-for-4 stock split of the company's common stock. Shareholders of record at the close of business on March 31 will be entitled to receive one additional share of common stock for every four shares they hold on that date.

The company intends to distribute the additional shares on or about April 11. Cash payments will be made in lieu of issuing fractional shares. Leatherby further commented, ''We hope the shareholders will share the board's enthusiasm for the company's future.''

The company also announced that its financial advisor had concluded its assignment with regard to exploring alternatives for maximizing shareholder value. Leatherby commented, ''In light of the growth and performance of the company, as well as the future prospects, we believe it is important to focus on the continued on the continued expansion of the company's business to achieve the best possible results for our shareholders.''

UniCARE Financial Corp., is the holding company for Irvine-based UniCARE Insurance Co., founded in 1979 by Leatherby whose business philosophy is

to selectively underwrite California workers' compensation insurance for relatively large accounts.

#90052b0039 02/21/1990 ~Business Wire

CUPERTINO, CA. (FEB. 21) BUSINESS WIRE - In response to slowing growth in the U.S. personal computer industry, Apple Computer Inc. Wednesday announced that it will trim its workforce by approximately 3 percent.

As part of a company-wide cost reduction program designed to bring expense growth better in line with current and anticipated business conditions, about 400 positions will be eliminated.

The reductions are occurring in the Human Resources, Finance, Customer Service and Information Technology, and Community and Government Affairs groups as well as the Marketing and Distribution groups of the Apple USA Division. Hiring will continue, however, in specialized areas such as Research and Development and U.S. Sales, and in certain countries within Apple Europe and Apple Pacific.

''Although the transition we are experiencing is by no means an easy one, it is necessary to build an even stronger business foundation for the future,'' said John Sculley, chairman and chief executive officer.

''During this period of slower industry growth, the fundamentals of our company remain strong and stable: our products continue to gain acceptance throughout the world, our new product development efforts remain aggressive and the development community continues to choose the Macintosh computer platform for the industry's most powerful and cutting edge solutions. We expect that the cost reduction steps we have identified will help ensure long-term profitability and will enable Apple to continue to prosper in the 1990s.''

For the past year, Apple has implemented a number of cost reduction measures. In addition to today's workforce reduction, the company has slowed hiring in certain areas, significantly reduced discretionary spending such as travel, and substantially reduced contractor services.

Employees affected by today's reductions will remain on Apple's payroll and receive full pay and benefits for up to 60 days. At that point, employees will be eligible to receive an additional severance package based upon their length of service with Apple and grade level.

A Transition Resource Center has been established to provide outplacement

counseling; assistance in finding a new job; courses designed to polish job search skills; and access to Human Resource representatives to discuss issues or concerns during the transition period.

#90052b0047 02/21/1990 ~Business Wire

IRVINE, CA. (FEB. 21) BUSINESS WIRE - To promote U.S. technology in the Soviet Union, AST Research Inc. (NASDAQ:ASTA) will begin demonstrating its personal computer systems throughout the U.S.S.R. at technology demonstration centers.

Fifteen centers have been established by CMS Inc. of Scotts Valley, Calif. operated in a partnership arrangement with Soviet organizations and government ministries. The centers are designed to assist in the marketing and sales of American technology in the Soviet marketplace and to develop counter-trade opportunities.

AST personal computer systems also will be displayed at the International Computer Technology Exposition (COMTEK '90), scheduled for March 6 to 12 at the National Exhibition of Economic Achievements in Moscow. COMTEK '90 sponsored by ComputerLand Corp., is the largest computer trade show ever held the Soviet Union.

AST has contracted with CMS to display its high-performance personal computer systems in special display centers located in major cities including Moscow, Leningrad, Minsk, Kharkov, Tallinn and Tashkent. AST also has signed an agreement with CMS to provide service and support for AST computer products.

''AST is the largest U.S. manufacturer of personal computers to display its products at CMS centers in the Soviet Union,'' said Roman Gil, president of CMS. ''AST has demonstrated its commitment to a long-term market strategy.''

In conjunction with the demonstration of AST's personal computers in the Soviet Union, Safi Qureshey, AST president and chief executive officer, will attend COMTEK '90 to meet with Soviet government and business officials interested in acquiring U.S. high-technology products.

''My trip to Moscow will afford an important opportunity to enhance AST's ongoing trade relationship with the Soviet Union,'' Qureshey said. ''The Soviets have set a high priority for increasing the number of personal computers for use in government, health care, agriculture, manufacturing and education.''

AST began marketing and distributing personal computer systems in the Soviet Union more than two years ago. The company has sold nearly 2,000 personal computers to the Soviet Union and Eastern European countries, which have been used for educational and agricultural applications. AST's personal computer systems sales comply with current U.S. trade policies, which restrict export of personal computers based on higher-performing microprocessors currently available in the U.S. marketplace.

There are less than 200,000 personal computers in the Soviet Union, according to Dataquest, an industry research group. The Soviets have called for an installed base of 28 million personal computers by the year 2000.

In addition to the CMS demonstration centers, AST has launched a major program to market its personal computers in many of the republics of the Soviet Union. AST has advertised in Soviet business and trade publications and has developed a dedicated Russian-speaking marketing and sales group to establish business relationships and promote AST products.

CMS was founded in 1987 and promotes U.S.S.R.-U.S. joint ventures and business relationships between Soviet and American firms involved in the computer industry.

AST is a leading manufacturer of high-performance desktop computing solutions. The AST systems product line ranges from entry-level Bravo systems to the 386-based and i486 high- performance Premium line of personal computers, including the new EISA bus architecture.

AST Research Inc. corporate headquarters are located at 16215 Alton Parkway, P.O. Box 19658, Irvine, Calif. 92713-9658. Telephone: 714/727-4141.

#90052b0055 02/21/1990 ~Business Wire

MILPITAS, CA. (FEB. 21) BUSINESS WIRE - Octel Communications (NASDAQ/NMS:OCTL) Wednesday announced software Release 10 and new applications packages which use software segmentation to segment a single voice-processing system for use by multiple divisions of a corporation or multiple independent companies.

Release 10 also substantially enhances call coverage options and is designed for quick, easy and cost-effective implementation.

This announcement is importanat for both the Customer Premise Equipment (CPE) market and for Voice Information Services (VIS) providers, which include regional Bell operating companies, independent telephone companies and celluar providers.

''These new software offerings segment Octel voice processing systems for use by distinct communities,'' said Mike West, Octel's executive vice president of sales and marketing. ''CPE customers can easily customize their system to meet the varied voice processing needs of specific groups within their organization, improving employee productivity while reducing application development costs.

''VIS providers can use segmentation to market voice mail services to suit the exact needs of individual businesses or residential users with a single system.''

This new software offering consists of: Release 10 with eight standard features; Octel Index I and II, two new optional software packages; three new enhancements for AspenNet networking software; and an optional feature Bullentin Broadcast.

A Cost-Effective Method of Serving Multiple ''Companies'' on a Single System

With Octel Index application software, CPE customers or VIS providers can segment an Octel system to provide custom services for between 10 to 200 separate divisions or companies. Segmentation is achieved by establishing secure boundaries around a group or groups of users on the same system.

A large corporation can segment the system to serve the voice processing needs of smaller, multiple divisions at a single site. Allowing them to share the cost makes it easier to financially justify a capital expenditure for voice processing.

SALT LAKE CITY (FEB. 21) BUSINESS WIRE - Rodney S. Rougelot, president of Evans & Sutherland Computer Corp. (NASDAQ:ESCC), Wednesday announced consolidated audited financial results for the fiscal year ended Dec. 29, 1989.

Sales for the year were $138,570,000, a 7 percent increase over 1988 sales of $129,630,000. Net earnings were $1 million, or 12 cents per share, which includes the effect of the discontinuance and write-off of the company's supercomputer operations, and compares with $1,890,000 (22 cents per share) for fiscal 1988.

Sales for the fourth quarter of 1989 were $41,950,000, with a net lose of $4,650,000 (54 cents per share), which includes both the operating expenses of the supercomputer group and a non-recurring pretax cost of $13,200,000 for closing and writing down the assets of the operation. For the like quarter of 1988, sales and earnings were $41,280,000 and $2,220,000 (26 cents per share).

Evans & Sutherland designs, builds, sells and services interactive computing systems for pilot training and for general engineering and scientific applications.

LOS ANGELES (FEB. 21) BUSINESS WIRE - In the wake of the collapse of Drexel Burnham Lambert Inc. and its enormous high-yield bond market, Foothill Capital Corp. Wednesday announced a ''Net Worth Enhancement Program'' to help highly-leveraged, mid-sized companies retire their so-called ''junk bonds.''

Foothill Capital, the nation's largest independent asset-based lending institution, said companies that qualify for the program can buy back their high-yield bonds at discounted prices through secured lines of credit provided by the company.

''Through our Capital Markets division, Foothill has been an active trader in many of these high-yield bonds, therefore, we are in a better position to determine their true value,'' said Peter Schwab, president of Foothill Capital. ''With this expertise, we can determine the best refinancing alternatives to help a company reduce its overall debt.''

Schwab said the Foothill program is designed to allow companies to reduce high interest payments often associated with junk bonds.

''We can help companies restructure debt, cut overall interest expenses, increase cash flow and enhance net worth,'' Schwab said.

Most highly-leveraged companies have several layers of debt, including subordinated or unsecured bonds. By retiring those bonds, companies can restructure their balance sheet to more accurately reflect their current operating performance.

Schwab said many firms that issued high-yield bonds in the last few years were not able to turn to their banks or the equity market to raise capital.

Based in Los Angeles, Foothill Capital Corp. is the largest independent commercial financial lender in the United States. Foothill Capital is a wholly owned subsidiary of the Foothill Group, Inc., a New York Stock Exchange listed company with assets in excess of $700 million.

As an asset-based lender, Foothill secures loans with a borrower's assets -- including accounts receivable, equipment, inventory and real estate.

COSTA MESA, CA (FEB. 21) BUSINESS WIRE - Emulex Corp. (OTC: EMLX), a leading supplier of system and network enhancement products for the computer industry, Wednesday announced a new terminal server product that provides interconnection for up to 32 terminals to a local area network.

The new Performance 4000-TL, or P4000-TL, is designed specifically for a mixed-vendor network where communication is required among computers and terminals from a variety of vendors.

Jon Asahina, Emulex's marketing director of communications products, stressed Emulex's commitment to supporting a variety of widely used industry standards in its networking products.

"Mixed-vendor networks are now the norm rather than exception. For example, users often have DEC (Digital Equipment Corp.) host computers, Sun workstations, and PCs all tied together on a single local area network. The Performance 4000-TL is the first Emulex product that is designed specifically to meet the needs of this type of mixed-vendor environment," Asahina said.

The P4000-TL offers full compatibility with both the Local Area Transport (LAT) protocol and the Transmission Control Protocol/Internet Protocol (TCP/IP).

LAT is the protocol found in networks of computers from DEC, and TCP/IP is an industry-standard transport protocol used with computers supporting the UNIX operating system. Communicating through the P4000-TL, any terminal user may communicate with any DEC- or TCP/IP-based system on the network.

Emulex offers a variety of products for local area networks - including a family of high-performance terminal servers supporting LAT and TCP/IP, and a printer server.

The P4000-TL has all the features of the popular P4000 terminal server, introduced in 1988, including a parallel printer port that allows users to access a printer located great distances from the host computer system, support for most dial-in and dial-out modems and very high throughput rates.

Using a proprietary high-performance dual processor architecture, the P4000 supports 16 ports operating simultaneously at 38.4 kilobits per second or 32 ports at 19.2

The P4000-TL also offers many features rarely found on competing servers, such as LCD display, simple upgrades by the user via PerformancePak modules, extended security and many ease-of-use features.

HOUSTON (FEB. 21) BUSINESS WIRE - Santa Fe Energy Resources Inc. filed a registration statement for the initial public offering of 11.7 million shares of common stock at a filing range of $18 to $20 per share.

The company has granted the underwriters, Goldman Sachs & Co., Kidder, Peabody & Co. Inc. and Shearson Lehman Hutton Inc., an option to purchase up to 1.17 million additional shares to cover over-allotments.

Santa Fe Energy Resources Inc.'s common stock will be traded on the New York Stock Exchange under the symbol SFR.

Prior to the offering, the company was a wholly owned subsidiary of Santa Fe Pacific Corp. (NYSE:SFX), a Chicago-based company with operations in natural resources, transportation and real estate. After the offering, Santa Fe Pacific Corp. will own approximately 81.7 percent of the company's common stock.

Santa Fe Energy Resources Inc. is one of the largest independent (non-integrated) oil and gas companies in the United States in terms of domestic proved oil and gas reserves.

At Dec. 31, 1989, the company had proved oil and natural gas reserves of approximately 251.1 million barrels of oil equivalent, of which approximately 88 percent were oil and 12 percent were natural gas.

All of the company's reserves are located in the United States. Santa Fe Energy Resources Inc.'s daily production averaged approximately 50,700 barrels of oil and 81.6 million cubic feet of natural gas in 1989.

The company has interests in major fields throughout the United States, including: Midway-Sunset, South Belridge, Kern River, and Coalinga in the San Joaquin Valley of California; and Wasson in the Permian Basin of West Texas.

Santa Fe Energy Resources Inc. is headquartered in Houston.

A preliminary prospectus may be obtained from one of the contacts named below. A registration statement relating to these securities has been

filed with the Securities and Exchange Commission but has not yet become effective.

These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This notice shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

OSHKOSH, WI (FEB. 21) BUSINESS WIRE - C.F. Hyde, chairman and CEO of Oshkosh B'Gosh Inc., (NASDAQ:GOSHA) Wednesday announced that sales for the year ended Dec. 31, 1989, were $315.1 million, an increase of 24.5 percent over the $253.0 million reported for 1988.

Net income for 1989 was $37.6 million ($2.58 per share) an increase of 100 percent over the $18.8 million ($1.29 per share) earned last year. Both

net sales and net income are records for the company.

For the quarter ended Dec. 31, 1989, net sales were $63.3 million, up 22.7 percent over the same quarter of 1988. Net income for the fourth quarter was $8.3 million (57 cents per share) compared to $1.7 million (12 cents per share) for the same quarter last year.

Increased unit volume of approximately 18 percent for both the year and the quarter combined with improved gross margins for the year and quarter were the primary reasons for the increased net income for both periods.

According to Hyde, while 1989 was a banner year, the company, in response to customer request, began shipping Spring 1990 merchandise in December of 1989, and therefore, it may be difficult to match the strong sales level achieved during the first quarter last year.

#90052b0174 02/21/1990 ~Business Wire

CHICAGO (FEB. 21) BUSINESS WIRE - For the first time, Hyatt is specifically targeting Marriott's frequent stayers in an aggressive Hyatt Gold Passport membership enrollment campaign.

Hyatt announced Wednesday that Marriott Honored Guests who join the Hyatt Gold Passport frequent stay program and stay at Hyatt three times between March 1 and June 30, 1990, will receive a certificate for a free weekend night at any of 150 Hyatt hotels and resorts worldwide. Certificates can

be redeemed for stays Aug. 1, 1990, through July 31, 1991, or exchanged for 5,000 additional Gold Passport points.

''These are fiercely competitive times for the hotel industry, which is suffering from serious oversupply, a weakening economy and a propensity by many competitors in the industry to give their product away free or at a great discount,'' said Darryl Hartley-Leonard, president, Hyatt Hotels Corp. ''The frequent guest program war is not a battle that we started but if we're going to be in it, we intend to play hard.''

In addition, members in Marriott Club Marquis will be eligible for immediate membership in Hyatt Gold Passport's Platinum level. Normally, Gold Passport members must stay at Hyatt 10 times a year before becoming a Platinum member. Platinum membership entitles members to a 15 percent bonus on points earned on every stay and a Regency Club upgrade on every fifth stay.

''With this action, Hyatt is capitalizing on the strength of Hyatt Gold Passport, which has quickly become one of the two dominant frequent guest programs in the U.S. hotel industry. Both Hyatt and Marriott have built a very strong and loyal frequent guest membership,'' Hartley-Leonard said.

''But we're confident that the invitation to directly compare Hyatt Gold Passport with Marriott Honored Guest and to compare a Hyatt stay with a Marriott stay will convince their customers to choose Hyatt.''

Even so, Hartley-Leonard admitted that Hyatt is trying to make up for lost years while Marriott was building its customer base with a program that began in 1983. Hyatt introduced its current program in 1987, and has added nearly a million new members to its Gold Passport program in that time. In addition, Hyatt's chainwide hotel occupancy rate has increased in each of the three years since the new program's introduction in 1987.

There are 150 Hyatt hotels and resorts around the world. Hyatt Hotels Corp. operates 88 hotels and 14 resorts in the United States, Canada and the Caribbean. Hyatt International, a separate company, and its subsidiaries operate 29 hotels and 19 resorts in 26 countries.

HOUSTON (FEB. 21) - BUSINESS WIRE - Battle Mountain Gold Co. Wednesday reported the pricing of its previously announced public offering of 5

million common shares.

The price of the offering was fixed at $16.00 per share, with closing expected to occur on Feb. 28.

BMG Chairman Douglas J. Bourne said proceeds from the sale of the company's shares will be added to working capital and used for general corporate purposes, which may include capital expenditures and potential future acquisitions in the gold mining industry.

The company has granted the underwriters overallotment options to purchase up to an additional 750,000 shares for 30 days. Goldman, Sachs & Co. is the lead manager for the offering, which will be made through a syndicate of U.S. underwriters.

Battle Mountain Gold is engaged in the mining and processing of gold and silver ore in the United States, Australia and Bolivia, and in the exploration and acquisition of precious metals in the United States, Australia, Canada, South America and the South Pacific.

The company's common stock trades on the New York Stock Exchange, the Australian Stock Exchange Limited, the Frankfurt Stock Exchange, the Swiss Stock Exchanges and the Toronto Stock Exchange under the symbol BMG.

Copies of the prospectus may be obtained by writing or calling the company c/o the Registration Department at Goldman, Sachs & Co. -- Attention: Don Hansen, 212/902-6686. Goldman's address is 85 Broad St., New York, NY 10004.

SAN JOSE, CA (FEB. 21) BUSINESS WIRE - TeleVideo Systems Inc. (OTC:TELV) Wednesday reduced list prices on its computer system products by as much as 20 percent as it continued to experience cost reductions resulting from moving its manufacturing operations back to its U.S. facilities.

The new pricing is indicative of TeleVideo's aggressive new marketing efforts in the industry and positions them very competitively against efforts in the offshore-manufactured units, as well as other domestic manufacturers.

The price reductions cover most configurations of TeleVideo's 386-based systems and the company's 286-based diskless workstations for local area networks. In the announcement, TeleVideo credits its transfer of systems

manufacturing from Korea to the United States for its ability to be more aggressive on pricing.

In 1989, TeleVideo invested heavily in its U.S. capabilities, including surface mount manufacturing technology, ASIC components, and board level design and manufacturing.

TeleVideo Systems Inc. is a leading supplier of industry-standard, high performance LAN file servers and workstation products, low-cost video display terminals, computer enhancement products, and applications specific integrated circuits (ASICs).

TeleVideo is a publicly held corporation and is traded in the over-the-counter market. Corporate offices are located in San Jose.

TORONTO (FEB. 21) BUSINESS WIRE - Aur Resources Inc. and Belmoral Mines Ltd. (ToSE/MoSE:BME; NASDAQ:BMEEF) announced that they have entered into an agreement whereby Aur shall make an investment in Belmoral and become its largest shareholder, provide management services to Belmoral and have the right to purchase a controlling interest in Belmoral.

Belmoral shall receive significant cash by way of equity and debt to ensure the ongoing development of its mining assets.

This transaction is subject to the approval of Aur's board of directors to be given no later than Mar. 9 to the approval of all regulatory authorities and to the approval of Belmoral shareholders. It is anticipated that the closing of the transaction will take place on or about April 30.

Aur and Belmoral each own producing gold mines in Val d'Or, Quebec, the production from which is currently being processed at the Belmoral mill. In addition, both companies own significant exploration lands in the Val d'Or mining camp with both gold and base metal potential.

The new relationship between Aur and Belmoral will increase operational efficiencies at the mine sites, coordinate the further exploration of their extensive landholdings in the Val d'Or area and reduce overall administrative expenditures.

SAN JOSE, CA (FEB. 22) BUSINESS WIRE - Corvus Systems Inc. (OTC:CRVQC), Wednesday announced that on Feb. 16, 1990, Berg & Berg Industrial Developers, a California general partnership, filed a proposed creditor's plan with the United States Bankruptcy Court for the Northern District of California for the reorganization of Corvus under Chapter 11 of the United States Bankruptcy Code.

Berg & Berg Industrial Developers, of whom Carl E. Berg is a general partner, is a secured creditor of Corvus and is owed approximately $3.2 million (net of interest) under a promissory note delivered by the company in Oct. 1986. The company defaulted in the payment of the note which was due and payable on April 10, 1988.

According to the proposed plan and related disclosure statement, a cash amount of $700,000 will be made available for distribution among the company's unsecured creditors who may expect to receive cash payments up to approximately 20 percent of their allowable claims.

The cash payments will be made from Corvus' cash on hand and any shortfall will be made up from up to $750,000 in cash to be contributed by Berg & Berg Industrial Developers. The holders of Corvus stock at the time that the plan is confirmed will not receive anything for their stock which will be cancelled upon confirmation of the plan.

Although the plan does not provide for cash payments to Berg & Berg Industrial Developers whose claims will be subordinated to those of the unsecured creditors, Berg & Berg Industrial Developers will be issued approximately 4,200,000 shares of newly issued Corvus common stock upon confirmation of the plan.

The disclosure statement indicates that the company will continue as a going concern after confirmation of the plan and that a new board of directors will be elected by the new shareholders after confirmation of the plan. Berg will assume the office of president and chief executive officer.

The Disclosure Statement also states that the $3.2 million promissory note was delivered to Berg & Berg Industrial Developers in settlement of disputes between the company and Berg & Berg Industrial Developers relating to the leases of the former headquarters facilities of Corvus at 2100 Corvus Drive, San Jose and of Onyx + IMI at 25 East Trimble Road, San Jose.

A spokesperson for the company said that the proposed plan and disclosure statement will only be mailed to all of the company's creditors and shareholders for review after the disclosure statement has been approved by the bankruptcy court.

Corvus Systems Inc. was founded in 1979. Corvus develops and markets a full line of networking and connectivity hardware and software products that are marketed worldwide through a network of dealers, distributors and OEMs.

#90052b0616 02/21/1990 ~Business Wire

SANTA ROSA, CA (FEB. 21) BUSINESS WIRE - Optical Coating Laboratory Inc. (NASDAQ:OCLI) Wednesday reported sales for the first quarter ended Jan. 31 of $20.3 million, up 5 percent over sales of $19.3 for the first quarter of 1989.

Earnings from operations for the first quarter of 1990 were $1.8 million, 17 percent higher than earnings from operations of $1.5 million for the first quarter of 1989.

Net earnings for the first quarter of 1990 were $876,000, up 30 percent over net earnings of $675,000 for the first quarter of 1989. Net earnings per common share for the first quarter of 1990 were 10 cents, 43 percent higher than net earnings per common share of 7 cents for the first quarter of 1989.

The continued efforts of OCLI's employees on quality improvement have had a major impact on the improved financial performance of the company.

The increase in sales was due primarily to revenues earned under a contract to construct a coating machine utilizing OCLI's new metal mode reactive sputtering technology (MetaMode). This machine, scheduled for completion in early 1991, will be shipped to Europe where it will be used under license from OCLI by a major European company for a specialized lighting application.

Orders booked in the first quarter of 1990 were $19.6 million, 14 percent less than orders booked of $22.7 million in the first quarter of 1989. Orders for products used in aerospace applications and in office equipment including computer displays were lower compared with the like quarter of last year.

On the positive side, orders for OCLI's Glare Guard products for the first

quarter of 1990 were up substantially over the like quarter of 1989.

The reduced bookings are believed to be due to a combination of program slippages and general market conditions in the United States. In response to these conditions, OCLI has increased its marketing efforts, both domestically and internationally.

In addition, OCLI is actively pursuing several licensing opportunities in connection with its strategy to increase the return on the investment in its technology through licensing in areas the company would not ordinarily serve as part of its usual business activities.

#90052b0618 02/21/1990 ~Business Wire

ALAMEDA, CA (FEB. 21) BUSINESS WIRE - The board of directors of Mission Resources Inc., the managing partner of Mission Resource Partners, L.P. (ASE:MRP), has adopted a rights plan to protect the interests of the Partnership's unitholders, according to Douglas K. Brown, president of Mission Resources Inc.

The plan provides for a dividend distribution to each unitholder of record on Jan. 31, 1990 of one right for each outstanding unit. The rights entitle unitholders to purchase one additional unit of the Partnership for $40 or, under certain circumstances, an amount of units of the Partnership or capital stock of an acquiring entity at one-half market value.

The rights may be exercised at one-half market value only if certain events related to an unsolicited takeover attempt occur. The plan was not adopted in response to any known attempt to acquire control of the Partnership, Brown said.

In July, Mission announced it had retained First Boston Corp. to assist it in determining ways of increasing value for the Partnership's unitholders. On Dec. 20, 1989, Mission said it had sold four oil and gas properties for $6.3 million but had not attracted any acceptable offers for either the Partnership as a whole or its principal property interests in the South Belridge Field located near Bakersfield, Calif.

The properties sold represented approximately nine percent of the Partnership's reserves as of Dec. 31, 1988. After completion of these sales, MRP will have interests in approximately 450 oil and gas wells.

Mission Resources Inc. also disclosed the resignation from its board of directors of Thomas C. Brown, Thomas E. Fish and T.C. ''Jake'' Taylor.

Messrs. Brown and Fish, formerly chairman and vice chairman, respectively, are retired from Mission and no longer are involved in directing its affairs. Taylor's resignation follows the end of his role as senior vice president in Mission's Houston office, which was closed in December as part of a cost-saving program.

Douglas K. Brown, president of Mission, was named to the additional post of chairman following the resignations.

#90052b0619 02/21/1990 ~Business Wire

SAN FRANCISCO (FEB. 21) BUSINESS WIRE - Thortec International Inc. (NYSE:THT) announced Wednesday the completion of its previously announced financial restructuring plan.

Following the successful tender of debentures, and shareholder approval, the plan was completed with entities managed or advised by Richard C. Blum & Associates (RCBA) and Wells Fargo Bank.

With the completion of the plan, the capital structure of the company is dramatically altered. Most importantly, the total outstanding principal of the company's indebtedness has been reduced from approximately $73 million to approximately $37 million.

This substantial reduction in the debt is the result of the tender of approximately 77.3 percent of Thortec's debentures and the significant reduction of Thortec's debt obligations to Wells Fargo Bank. In addition, the plan generated new working capital from both the purchase of stock and new debt.

The company acquired $29.3 million of the aggregate amount of its two series of debentures. The net cash purchase price for the 6-1/2 percent debentures due 2012 was $180 per $1,000 of principal amount, and the net cash purchase price for the 8-5/8 percent debentures was $230 per $1,000 of principal amount. All validly tendered debentures were accepted.

As a result of these tranactions, the equity control of the company has shifted to entities managed or advised by RCBA. At the close of the restructuring, the fully diluted percentage ownership is RCBA 68 percent, Wells Fargo Bank 14 percent, other shareholders 18 percent.

Concurrent with today's restructuring, the company also announced a

1-for-10 reverse stock split.

URS Corp. (formerly Thortec International Inc.) through its subsidiary URS Consultants, is a multi-disciplinary engineering, architecture, planning and consulting firm providing services to governmental, commercial, industrial, educational and health care clients across the United States.

URS Consultants provides a diverse range of professional services to solve complex hazardous material, environmental, seismic, transportation and water treatment problems.

GOLETA, CA (FEB. 21) BUSINESS WIRE - ExperTelligence Inc. announced a profit of $89,095 for the quarter ended Dec. 31, 1989, the first quarter of its new fiscal year.

This report follows the September announcement of a profitable prior year. Comparison of the most recent quarter's figures with the like period last year shows dramatic improvement in both revenues and income generated.

President Denison Bollay commented on the improved results: ''It is important to note that these results were obtained while increasing our efforts in research and development.

''During the same period, we released version 2.0 of our Action! development environment for both the microExplorer and the Macintosh II, began porting the Action! system to other platforms (Sun workstations and IBM PCs under Presentation Manager) and successfully completed the first phase of a large government contract.''

Dr. John E. Forge, ExperTelligence's executive vice president and chief operating officer, added: ''The quarterly results are very encouraging. During this same period, our assets reached the $2 million level, allowing ExperTelligence to apply for relisting on the NASDAQ securities service.

''The NASDAQ listing has been an important objective for ExperTelligence and our shareholders. This is a major milestone in the development of our company.''

Forge continued: ''We are now concentrating our efforts on developing sales to corporations. We will take advantage of the January-to-March quarter (a traditionally slow period in our industry) to open new sales

offices in Orange County and a technical support center in Texas. These offices will contribute to an expected strong third quarter and a profitable 1990.''

#90052b0623 02/21/1990 ~Business Wire

FORT WORTH, TX (FEB. 21) BUSINESS WIRE - Gainsco Inc. (AMEX SYMBOL: GNA), Tuesday reported net income for 1989 of $5,339,000, or $0.89 per share versus $3,818,000, or $0.65 per share in 1988.

The Company achieved a 25 percent return on beginning shareholders' equity and the net income for 1989 represents a 40% increase over 1988.

For the fourth quarter, net income was $1,634,000, or $0.27 per share, in 1989, versus $553,000, or $0.09 per share, in 1988.

Commenting on the results, Joseph D. Macchia, Chairman of the Board, President and Chief Executive Officer, stated, ''Back to back record annual earnings and a 25% return on beginning shareholders' equity for 1989 are excellent achievements which should be exceeded in 1990. GAINSCO is in the best position ever for taking advantage of the coming hard market.''

Mr. Macchia added, ''Our combined ratio (86.6 percent for 1989) will remain in the 85-90 percent range for 1990. The statutory capital and surplus will be adequate for additional production and the profit contributions from the insurance service operations should continue to grow.''

GAINSCO, INC. is a vertically integrated property and casualty insurance company specializing in underwriting and marketing excess and surplus lines. The Company's subsidiaries include General Agents Insurance Company of America, Inc., an Oklahoma corporation, General Agents Premium Finance Company, which offers premium financing programs for general agents in connection with their marketing activities; Agents Processing Systems, Inc., which markets a computer software policy management system to general agents; and Risk Retention Administrators, Inc., which assists managing and general agents in forming and operating risk retention groups.

In addition, General Agents Insurance Company of America, Inc. operates a wholly- owned subsidiary, MGA Insurance Company, Inc., which is the sole owner of MGA Agency, Inc., the Company's marketing arm.

COLUMBUS, IN (FEB. 21) BUSINESS WIRE - Cummins Engine Co. Inc. and Suddeutsche Kuhlerfabrik Julius Fr. Behr GmbH & Co., KG Wednesday announced they have completed an agreement for joint ownership of McCord Heat Transfer Corp. Behr, one of the leading manufacturers of products for engine cooling and air conditioning for motor vehicles, purchased a portion of McCord, a wholly-owned subsidiary of Cummins, and will license its technology and provide technical assistance and support to McCord.

McCord Heat Transfer Corp. operates two manufacturing facilities in the United States for cooling systems and components for on-highway truck and agricultural, industrial and military equipment. Behr, headquartered in Stuttgart, Germany, designs and produces a variety of high-technology engine cooling components and air conditioning systems principally for European truck and passenger car markets.

George Fauerbach, vice president of Cummins' power systems group, said, ''This relationship with Behr will enable McCord to manufacture and market products developed with Behr's heat transfer technology, which we believe is the world's best. And it will enable Behr to share in McCord's growth. McCord and Behr complement each other very well.''

Cummins, headquartered in Columbus is a major producer of diesel engines, components and power systems for heavy-duty trucks and industrial machinery.

VAN NUYS, CA (FEB. 21) BUSINESS WIRE - Superior Industries International Inc. (NYSE:SUP) Wednesday announced that it achieved record sales and earnings in the fourth quarter and for the year, the eighth consecutive year for increased revenues and sales.

For the fourth quarter ended Dec. 31, 1989, revenues increased to $60,908,000, or 7.5 percent, from $56,666,000, in the like period a year ago. Net income rose to $4,989,000, or 63 cents per share, a 15 percent increase from $4,337,000, or 56 cents per share, in the 1988 final quarter.

Annual revenues grew 23 percent in 1989 to a record $246,124,000, from $200,150,000, in 1988. Net income advanced to $16,151,000, or $2.04 per share, a 22.9 percent increase from $13,138,000, or $1.66 per share, in the preceding year.

Louis L. Borick, chairman and president stated: ''We are pleased to report Superior's record results and eighth consecutive year of increased sales and earnings. It is important to note that while domestic auto sales have declined during 1989, Superior has maintained its growth.''

''This is due to the fact that Superior continues to increase its share of the fast growing market for aluminum wheels. For example, in 1989, the company was awarded its first contract with a Japanese carmaker, Mazda. This is an area for future potential growth.''

Borick concluded: ''We continue to closely monitor the economy, particularly domestic auto sales and manage our resources accordingly. In 1990 and beyond, we remain confident in our ability to continue our leadership position in this growing industry.''

A recognized leader in its field, Superior Industries International supplies cast aluminum wheels for Ford and General Motors, along with other products and also serves the national automotive aftermarket with a broad range of accessory and RV products.

The company transferred listing to the New York Stock Exchange in December 1989.

LAS VEGAS (FEB. 21) BUSINESS WIRE - Hart Industries Inc.(NASDAQ:HRTI) Wednesday announced in Las Vegas the launching of their new Enviro-watch Lease Program.

Hart's Enviro-watch Lease Program (HELP) is the second phase of the company's on-going commitment to providing affordable methods of complying with the EPA's new underground storage tank (UST) regulations.

HELP provides a second alternative to Hart's UST Compliance Program which provides monitoring, maintenance and financial responsibility in an all-encompassing 15-year lease package.

HELP will provide a nationwide monitoring inventory control and financial responsibility package financed over five years for tank owners who wish to finance their own installation. A spokesman for Hart stated that the company is completely funded on their HELP program through 1995 and stated that Hart expected demand for their HELP program would exceed $10 million per year.

Hart also stated its program could cover tank owners whose tanks and piping were installed after 1988, who qualify for a special retroactive HELP program.

Hart reported earlier this week that it had placed an order for 10 mobile thermal pollution units to be used in conjunction with its tank installation program.

#90052b0647 02/21/1990 ~Business Wire
HORSHAM, PA (FEB. 21) BUSINESS WIRE - Advanta Corp. (NASDAQ: ADVN) Wednesday reported record earnings for 1989 with net income of $12 million or $1.26 per share, reflecting a substantial increase from a loss of $9.1 million, or $1.02 per share for 1988.

Included in net income for 1989 was extraordinary income of $3.3 million, or 35 cents per share, of which $1.9 million net of tax, or 20 cents per share, was related to the company's repurchase of $16.9 million of senior subordinated debt and $1.4 million, or 15 cents per share, arose from the tax benefit of net operating loss carryforwards.

Net income for the three months ended Dec. 31, 1989 was $1.3 million, or 14 cents per share, a significant improvement from a loss of 10 million, or $1.12 per share, for the three months ended Dec. 31, 1988. Reflected in fourth quarter 1989 results was income of $4.6 million from the

securitization of $75 million of second mortgages.

In addition, the company continued to strengthen reserves which increased $1.5 million from the end of the prior quarter. Finally, the company's earnings contribution from credit cards improved significantly, with credit card noninterest revenues (including securitization and servicing income) increasing $1 million, or 12 percent from the prior quarter and $1.5 million or 19 percent from the comparable 1988 quarter.

The increased earnings for the full year were attributable to improvements in key business fundamentals, as well as certain transactions. Operating expenses, excluding advertising and external loan origination costs and nonrecurring charges, declined $.6 million, or 1 percent, from 1988 to 1989, while the number of accounts owned and serviced increased over 30 percent.

Finally, as a result of three successful credit card marketing campaigns during 1989, the company generated approximately 500,000 new credit card accounts, resulting in an increase in total owned and serviced credit card receivables of 36 percent to $1 billion at year end 1989. Mortgage receivables, owned and serviced, and equipment leasing receivables increased as well, growing 43 percent and 31 percent, respectively, from year end 1988.

#90052b0648 02/21/1990 ~Business Wire

GUNTERSVILLE, AL (FEB. 21) BUSINESS WIRE - Comptronix Corp. (NASDAQ: CMPX) Wednesday announced sales and earnings for the fourth quarter and year ended Dec. 31, 1989.

Sales for the year rose 45 percent to $42,419,000, compared with $29,254,000 for 1988. For the fourth quarter of 1989, sales declined 19 percent to $9,179,000, compared with $11,108,000 for the like period of the previous year.

Net income for the year increased 44 percent to $1,470,000 from $1,020,000 in 1988. Earnings amounted to 19 cents per share, up from 17 cents per share in the prior year.

Earnings for 1988 included an extraordinary item of two cents per share resulting from the utilization for tax purposes of a tax loss carryforward. For the fourth quarter of 1989, net income was $152,000, or two cents per share, compared with $362,000, or six cents per share, in the 1988 fourth

quarter.

William J. Hebding, chairman and chief executive officer of Comptronix, commented: "We are pleased to report that Comptronix achieved record results in 1989 in spite of the loss of a major disk drive industry customer. It was the loss of this customer that resulted in declines in third and fourth quarter sales and earnings.

"However, we have added approximately twenty new customers over the last six months which have given us a higher quality and more diversified customer base. We expect that the revenues from these new customers will more than make up for the loss of the former account."

Hebding continued: "At the end of the year, our order backlog reached a record level of approximately $19 million compared with $12 million at the end of 1988. Even though the backlog is at a record level, we anticipate that revenues in the first quarter of 1990 will be slightly below the level in the first quarter of 1989.

"However, we expect that the backlog will continue to build throughout the first quarter and expect the remaining quarters of 1990 to be much stronger than the comparable quarters of 1989."

Comptronix Corp. provides contract manufacturing services to original equipment manufacturers in the electronics industry and specializes in assembling printed circuit boards for customers requiring strict quality control and prompt, responsive service.

EMERYVILLE, CA (FEB. 21) BUSINESS WIRE - Cetus Corp. (NASDAQ:CTUS) Wednesday announced the introduction of the company's first forensic product, the AmpliType DNA Amplification and Typing Kit.

The kit is the first DNA profiling product to employ the powerful GeneAmp polymerase chain reaction (PCR) technology.

The AmpliType HLA DQ Alpha Forensic DNA Amplification and Typing Kit was launched at the annual meeting of the American Academy of Forensic Sciences in Cincinnati.

Because the AmpliType kit employs PCR, it offers several advantages over conventional DNA typing techniques. It can be used to type DNA from minuscule samples and can provide reliable results even when the DNA is so

degraded that it cannot be analyzed by other methods.

The AmpliType test is very fast, providing results in hours rather than days or weeks. The test utilizes an easy-to-interpret non-radioactive dot blot format that is read by means of a color change.

Approximately 1.3 million violent crimes are reported annually in the United States. The Federal Bureau of Investigation has estimated that biological evidence such as blood, semen, hair, saliva or skin are left behind in 50 percent of homicides, 75 percent of reported rape cases and 10 percent of aggravated assaults.

DNA typing has been used by forensic scientists in criminal investigations and other forensic applications since the early 1980s. DNA, the genetic blueprint found in the cells of all living organisms, is unique to each individual, and thus it can be used for identification purposes.

Since its first use in 1983, DNA evidence has been successfully introduced in over 100 criminal cases in the United States and 50 cases in Britain.

The AmpliType kit utilizes a DNA sequence known as the HLA DQ alpha region chosen for forensic analysis because it is highly variable among individuals. Cetus plans to introduce a line of AmpliType products which analyze additional genetic regions.

GeneAmp polymerase chain reaction technology is a method invented by Cetus scientists for rapidly amplifying genetic information. It has been quickly adopted by the biotechnology community worldwide and is currently the most cited technology in the life sciences.

Cetus Corp. is a leading biotechnology company primarily engaged in the development, manufacture and marketing of pharmaceutical products to treat cancers and serious infectious diseases.

The company is also developing commercial applications of its GeneAmp polymerase chain reaction (PCR) technology. Founded in 1971, Cetus is based in Emeryville, and also operates EuroCetus in Amsterdam, Netherlands.

SAN LORENZO, CA (FEB. 21) BUSINESS WIRE - McGrath RentCorp released the

results of operations for the fourth quarter 1989 and the year ended Dec. 31, 1989.

For the fourth quarter 1989, total revenues increased from $8,708,405 in 1988 to $11,483,001 in 1989, or 32 percent. Net income increased from $1,359,526 (32 cents per share) in 1988 to $1,994,969 (53 cents per share) in 1989, a 47 percent increase in net income.

For the year ended Dec. 31, 1989, total revenues increased from $35,579,087 in 1988 to $40,508,967 in 1989, or 14 percent. Net income increased 10 percent from $6,420,735, or $1.47 per share, in 1988, to $7,078,587, or $1.83, in 1989.

#90052b0654 02/21/1990 ~Business Wire

PLANO, TX (FEB. 21) BUSINESS WIRE - Eljer Industries, Inc. (NYSE: ELJ) Wednesday announced full year pro forma net earnings of $7.3 million or $1.03 per share, compared with pro forma earnings of $11.1 million or $1.58 per share in 1988.

Sales in 1989 were $429.9 million, essentially flat compared to sales of $428.6 million in 1988.

For the fourth quarter, net earnings were $699,000 or 10 cents per share, compared with pro forma earnings of $3.3 million or 47 cents per share for the year ago period. Sales for the fourth quarter were $108.3 million, while sales in the 1988 fourth quarter were $112.3 million. Full-year results are reported on a pro forma basis as Eljer Industries, Inc. was spun off from Household International, Inc. in April of 1989.

Scott Arbuckle, president of Eljer, commented, ''The strong growth we experienced in our retail and heating and ventilation product lines in 1989 was not sufficient to offset the decline in our traditional plumbingware business that occurred due to this year's 8 percent decline in housing starts. At year end, we elected to write off approximately $800,000 of administrative and product line expenses related to discontinued activities which lowered 1989's net earnings by about 7 cents per share. Full-year earnings were also negatively impacted by the previously announced 3 1/2 week strike at our Salem plant, costs related to new product and plant start-ups, increased raw material prices, and a significant escalation in insurance costs.''

Arbuckle added, ''We see the variety of new products and marketing and manufacturing programs that we initiated in 1989 bringing solid returns in

1990 and beyond.''

Eljer Industries, Inc. is a leading manufacturer and marketer of high-quality building products, including plumbing, heating, and ventilation products for residential and commercial construction, remodeling and repair, and do-it-yourself markets in North America and Europe.

ATLANTA (FEB. 21) BUSINES WIRE - Advanced Telecommunications Corp. (ATC) (NASDAQ/NMS:ATEL) a leading regional long distance telecommunications company, Wednesday announced that it has reached an agreement with Metromedia Co. to purchase 1,954,500 shares of ATC common stock at the market price of $13 per share, for a total purchase price of $25.4 million.

Commenting on the agreement, Stephen E. Raville, chairman and chief executive officer of ATC, said: ''This transaction is consistent with our goal of building and supporting shareholder value. The repurchase is non-dilutive and is expected to increase ATC's future earnings per share.''

ATC has acquired the stock primarily for the purpose of providing shares for the conversion of a subordinated debenture, exercise of employee stock options, and funding of the company's Employee Stock Purchase Plan and of a 401(k) program.

ATC is one of the largest publicly held long distance carriers in the United States. It provides domestic and international long distance

telephone services to business and residential customers in the rapidly growing markets of the Southwest and Southeast.

DANIA, FL (FEB. 21) BUSINESS WIRE - Alco International Group Inc. (NASDAQ:ALIG) Wednesday reported financial results for the first quarter of fiscal 1990, ended Dec. 31, 1989.

For the three months ended Dec. 31, 1989, revenues were $932,905 as compared to $743,284 in the same period the prior year. There was a net profit of $21,344 or less than $.01 per share in the quarter just ended compared to a net loss of $124,808 or $.01 per share in the first quarter of fiscal 1989.

The profitability in the first quarter of fiscal 1990 is primarily the result of an increase of $189,621 in revenues during the quarter. This net increase in sales is comprised of an increase of $137,038 in the company's cargo sales, plus increases in charter income and terminal and port services. Net profits were impacted favorably as fixed costs decreased as a percentage of sales.

Russell P. McCain, president, commented ''Implementation of cost containment measures has controlled our fixed costs and greater utilization of our assets has resulted in increased revenues and net profits during the past quarter. We are please that cargo and charter sales, as well as port and terminal services all contributed to our profitable performance.''

Alco International Group Inc., through its subsidiaries and affiliates, is engaged in the transportation of trailerized, containerized and on-deck cargos from a leased port terminal facility at Dania, Fla., to the Bahamas Islands, islands of the Caribbean (excluding Puerto Rico) and countries on the north coast of South America and on the east coast of Central America.

#90052b0674 02/21/1990 ~Business Wire

DENVER (FEB. 21) BUSINESS WIRE - Aspen Wind Inc. reported Wednesday that as of the quarter ended Dec. 31, 1989, total assets increased 648 percent over the prior fiscal year from $523,216 to $3,915,962.

Total stockholders equity increased 573 percent from ($341,426) to $1,616,579.

Total revenues for the nine months ended Dec. 31, 1989, were $836,049, up 296 percent from $210,811 for the same period in 1988. Gross profit was $509,129, up 297 percent from $128,010, and net income was $108,992, up 149 percent from ($220,219).

David Nommensen, president and chief executive officer, said: ''We at Aspen Wind Inc. will strive to continue this phenonemal growth through the 90s. Furthermore we plan to continue our search for profitable marina properties to add to the company's holdings, and by August of this year,

should begin our houseboat rental program at Sadler Point Marina.''

Aspen Wind Inc. acquires, maintains and sells houseboats and undivided interests in houseboats destined for the nation's recreation and resort vacation areas.

The company also intends to acquire, own and operate existing marinas located throughout the United States and to own and operate houseboat rental fleets at these marinas.

On Aug. 1, 1989, Aspen Wind Inc. acquired its first marina property, Sadler Point Marina, located in Jacksonville, Fla.

#90052b0675 02/21/1990 ~Business Wire

SOUTHPORT, CT (FEB. 21) BUSINESS WIRE - Crystal Brands, Inc. (NYSE) Wednesday announced that 1989 earnings rose dramatically over results for the prior year. Operating income increased 185 percent in 1989 to $84,758,000 from $29,719,000 in 1988. Income from continuing operations in 1989 was $27,393,000, or $3.02 per share, a 68 percent increase over comparable results of $16,323,000, or $1.81 per share, in the prior fiscal year.

As announced previously, Crystal Brands has decided to divest its Ship 'n Shore and William Barry operations. As a result of the Ship 'n Shore divestiture, the Company incurred a one-time after-tax charge of $8,864,000, reducing net income for 1989 to $18,529,000, or $2.05 per share. Despite this charge, net income for 1989 rose 27 percent over the prior year's net income of $14,648,000, or $1.63 per share. The Ship 'n Shore divestiture charge relates, principally, to the non-cash write-down of goodwill and intangibles which were generated when Ship 'n Shore was acquired by General Mills Inc. and which were transferred to Crystal Brands at the time of its spin-off from General Mills in 1985. The divestitures will positively affect the Company's cash flow in 1990.

Net sales for the 1989 fiscal year were $857,241,000, an increase of 119 percent over 1988 net sales of $390,871,000. The results of operations of Palm Beach and Trifari (both acquired in 1988) were included for the full twelve months of 1989. In the prior year, the results of Trifari were included for eight months but the results of Palm Beach were excluded for the full year, as Palm Beach was acquired at the end of 1988.

For the fourth fiscal quarter of 1989, operating income rose 45 percent to $28,401,000 from $19,565,000 in the comparable period in 1988. In the

1989 fourth quarter, income from continuing operations was $11,501,000, or $1.27 per share, after net interest expense of $10,022,000, compared to income from continuing operations of $11,746,000, or $1.30 per share, after net interest expense of $1,634,000, in the year earlier period. Net sales for the final quarter of the 1989 fiscal year were $215,833,000 versus net sales of $126,082,000 in the fourth quarter of 1988.

Crystal Brands produces tailored clothing, dress furnishings and sportswear for men, women and boys under the brand names Eagle Shirtmakers Evan-Picone, Gant, Haspel, Izod, Izod Lacoste, Palm Beach, John Weitz, Polo by Ralph Lauren for Boys, Pierre Cardin for Boys, Hunter Haig, Turnbury, Brannoch, Fulcrum, Firenza, Milano and Austin Hill. The Company also produces costume jewelry and accessories under the brand names Monet, Trifari and Marvella.

#90052b0677 02/21/1990 ~Business Wire

VALENCIA, CA (FEB. 21) BUSINESS WIRE - Huntway Partners L.P. (NYSE:HWY) Wednesday reported a 1989 net loss of $1.8 million, or 16 cents per unit, compared with 1988 pro forma net income of $3.2 million, or 29 cents per unit.

Results for 1988 are shown on a pro forma basis for comparability and include both Huntway Partners L.P. and its predecessor entity.

Revenues were $89.5 million, an 8 percent increase from 1988 revenues of $82.8 million, due to higher prices for refined petroleum products other than liquid asphalt. Sales volume for 1989 remained at the 1988 record level of 5.1 million barrels.

The 1989 loss is attributable to reduced margins for liquid asphalt, primarily during the second half, and to a change from the first-in, first-out (FIFO) method of valuing inventories to the last-in, first-out (LIFO) method, which had the effect of increasing the loss by $2.2 million or 20 cents per unit.

Operating cash flows are unaffected by the change to LIFO and by substantial depreciation and amortization expenses.

For the fourth quarter, Huntway reported a net loss of $1.6 million, or 15 cents per unit, compared with a pro forma net loss of $441,000, or 4 cents per unit for the comparable quarter in 1988.

The change to LIFO discussed above increased the fourth quarter loss by

$1.3 million, or 12 cents per unit.

Fourth quarter revenues were $24.2 million, up 35 percent from 1988's $17.9 million. Volume of 1.3 million barrels was unchanged from the comparable 1988 quarter.

The effect of the change to LIFO on operating results for the first nine months of 1989 was to change the previously reported net income of $734,000, or 7 cents per unit, to a net loss for the period of $162,000, or 1 cent per unit.

Huntway Partners L.P. owns and operates three crude oil refineries, two in California and one in Arizona, which primarily produce liquid asphalt for use in road construction and repair. Its preference units are traded on the New York Stock Exchange.

#90052b0679 02/21/1990 ~Business Wire

LOS ANGELES (FEB. 21) BUSINESS WIRE - Anthony Industries Inc. (NYSE:ANT) Wednesday reported record earnings and record sales for the year ended Dec. 31, 1989.

Net income rose 30 percent to $13.4 million, or $1.42 per fully diluted share, from $10.3 million, or $1.20 per share. Sales increased 24 percent to $382 million.

In the fourth quarter, net income increased 21 percent over the corresponding 1988 quarter to a record $3.1 million, or 32 cents per share. Sales rose slightly to a record $87 million.

Both the recreational and industrial products groups contributed to the sharp yearly improvement. Operating profit from Anthony's recreational products grew 30 percent to $20.5 million on a 30 percent increase in sales to $260 million.

Industrial product sales climbed 13 percent to $122 million, boosting operating profit for the industrial segment 27 percent to $13.8 million.

In reporting the results, B.I. Forester, chairman and chief executive officer, noted, ''Operating profit growth in our recreational products group was spurred by the dramatic improvements at Shakespeare Fishing Tackle and inclusion for the first full year of operations of two

acquisitions made in 1988 -- Stearns Water Safety Products and Poolsaver Pool Covers.''

The board of directors on Feb. 20 declared a regular quarterly cash dividend of 11 cents per share, payable April 3, to shareholders of record March 9.

Anthony Industries is a diversified manufacturer with operations in two major business segments: recreational products consisting of K2 skis, Hilton active apparel, Shakespeare fishing tackle, Anthony swinmming pools Poolsaver pool covers and Stearns water safety products; and industrial products including Simplex building materials, Shakespeare fiberglass antennas and light poles and Shakespeare monofilaments.

COLUMBUS, OH (FEB. 21) BUSINESS WIRE - Goal Systems International Inc. today announced it has finalized the acquisition of privately-held Tower Systems International, a California-based software company specializing in tape and disk management systems for IBM and compatible mainframe computers.

To complete the transaction, Goal Systems paid approximately $5.2 million in cash for all of Tower's stock and one year's noncompetition and service compensation. In addition, the agreement calls for four annual payments of $700,000 each for remaining noncompetition and service compensation, plus royalties based upon increased license revenue from acquired products for a period of five years.

Tower Systems employs 50 people in Costa Mesa, Calif., and revenue for the year ended Dec. 31, 1989 was $6 million. The company was founded in 1975 and is best known for its EPIC family of tape and disk management systems.

''We are very pleased to finalize the second of our three previously announced acquisitions in the area of automated data center operations,'' said Goal President David C. Wetmore. ''Discussions related to our third acquisition, MVS Software, are proceeding on schedule, and we expect it to close by March 31.''

Goal Systems (NASDAQ:GOAL) designs, develops and markets software products grouped into two product lines. The Data Center Management (DCM) Division consists of a broad range of systems software products for IBM and compatible mainframe computers which allow users to manage, automate, monitor and analyze the use, cost and performance of their data processing

resources. The Information Technology Division (ITD) product line consists of computer-based training and computer-based reference products, along with associated courseware and professional services.

KENILWORTH, NJ (FEB. 21) BUSINESS WIRE - Harmonia Bancorp Inc. (NASDAQ:HBCI) announced Wednesday that its board of directors has declared an annual cash dividend of 30 cents per share, payable in the form of a regular quarterly cash dividend of 7-1/2 cents, on the company's common stock.

The first quarter dividend is payable March 30, to shareholders of record at the close of business on Feb. 28. Subsequent payment and record dates will be announced in the future.

In making the announcement, Walter D. Tombs, chairman of the board and chief executive officer, said, ''We are pleased to reward our shareholders by paying a regular quarterly dividend early in our first full year as a public company.

''This decision is clearly a reflection of our strong capital position and the board's confidence in the company's ability to grow earnings.'' Tombs added that the board intends to review the dividend policy on an ongoing basis and will consider increases as conditions permit.

Through its subsidiary, Harmonia Savings Bank, Harmonia Bancorp Inc. operates 21 offices in five central New Jersey counties. Organized in 1851 Harmonia provides traditional savings bank products and services complemented by multi-family residential loans and home equity lending.

In November 1989, Harmonia Savings Bank converted from mutual to stock form and was acquired by the company as part of the conversion, which raised $47.5 million.

LITTLETON, MA (FEB. 21) BUSINESS NEWS - Alliant Computer Systems Corp. (NASDAQ:ALNT) Wednesday announced net income for the fourth quarter ended Dec. 31, 1989, of $932,000, or 7 cents per share.

Fourth quarter revenues were $18,518,000, compared to fourth quarter 1988 revenues of $15,687,000, an increase of 18 percent.

For the twelve months ended Dec. 31, 1989, net income was $2,189,000, or 17 cents per share. Twelve month 1989 revenues were $63,379,000, compared to $64,829,000 in 1988. Fourth quarter net income compares to a net loss of $27,537,000, or $2.26 per share in the year-ago period.

International operations now account for approximately 50 percent of Alliant's equipment revenues. The company is well positioned with direct international subsidiaries in seven countries throughout Europe, an exclusive Japanese distributor (Nihon Alliant) and distribution partners in Australia, Taiwan, Korea and Hong Kong.

The company's worldwide customer base, originally made up of traditional research and university users, is now primarily composed of industrial and commercial accounts. More than 450 systems have been installed at more than 300 customer sites.

During 1989, Alliant installed systems in many companies around the world, such as Mitsubishi and Sanyo in Japan, and Turbomeca and Aerospatiale in France, Glaxo (one of the largest pharmaceutical companies in the world) and British Petroleum in the U.K., Hughes Aircraft Company, Rockwell and McDonnell Douglas in the U.S., and Messerschmitt-Bolkow-Blohn (MBB) in Germany.

In January 1990, Alliant introduced the high-end FX/2800 family of parallel supercomputers. The systems, which build on Alliant's expertise with parallel processing and integrated visualization, incorporate standard processor technology through the use of Intel i860 RISC processors.

This encourages significant scientific and engineering software to be ported. Software developed according to PAX specifications will run on all PAX-compliant hardware, from workstations to supercomputers.

Alliant and Intel developed PAX as a standard for parallel processing and 3-D graphics in the technical computing marketplace, much the same way that Microsoft and Intel created a worldwide standard for personal computer use. The use of standard processors enables Alliant to develop new products more rapidly than had been possible with proprietary chips.

Alliant Computer Systems Corp. manufactures standards-based parallel supercomputers with visualization tools that enable scientists and

engineers to quickly interpret and solve complex problems.

NEW YORK (FEB. 21) BUSINESS WIRE - In an important technological advance that will bring both rural and urban U.S. viewers convenient, low cost access to a greatly broadened range of programming services and sharply improved reception, four media companies announced Wednesday that they have signed a memorandum of understanding providing for the launch of the first high power Direct Broadcast Satellite service in late 1993.

Cablevision Systems Corp., NBC and The News Corp. Limited -- companies with experience in producing and marketing video programs - are joining with Hughes Communications Inc. to launch the high power service, to be called ''Sky Cable.''

Hughes Communications Inc. is a leading supplier of satellite communications services. Through 12 owned and operated satellites, it provides video, voice, and data communications for domestic and international customers. It also provides international television transmission service and participates in Japanese and European satellite joint ventures. Hughes Communications and its parent, Hughes Aircraft Co. are units of GM Hughes Electronics.

Cablevision Systems Corp., based in Woodbury, N.Y., has been a leading innovator in developing and distributing television programming. As one of the nation's foremost cable television multiple systems operators, Cablevision serves over 1.5 million subscribers in 11 states.

NBC, a unit of the General Electric Company, is America's leading television network, and owns television stations in seven cities. Its 209 affiliated stations serve virtually all of America's television households.

The News Corporation is one of the world's largest multi-media companies. Among News Corporation's extensive media operations are twentieth Century Fox Films, Fox Broadcasting and TV Guide magazine in the United States, The Sunday Times and The Sun newspapers and Sky Television in the United Kingdom, The South China Morning Post in Hong Kong, and The Australian and major metropolitan, regional and suburban newspaper groups in Australia.

WILTON, CT (FEB. 21) BUSINESS WIRE - Senior Service Corp. (NASDAQ:SENR; BSE:SNR), the only public company devoted exclusively to providing products and services for Americans over 65, announced Wednesday the appointment of Edward M. Klane, 39, as president of the company's Home Health Care Group and HouseCalls Inc. subsidiary.

Prior to joining Senior Service, where he also serves as a vice president of the parent corporation, Klane was chief executive officer of METAPLEX Management Services Inc., based in Red Bank, N.J., which he founded in 1984. Under his leadership, METAPLEX built the revenue base of MCOSS, Inc., a small home health care agency, from $4.5 million to $20 million.

Today, MCOSS is the fifth largest home health care agency in the country, providing ambulatory care, durable medical equipment, infusion therapy, certified home health care and other services.

The growth of MCOSS and the other companies and non-profit organizations Klane and his METAPLEX team managed reflects in-depth experience and expertise in financial management, human resources and operations for health care service organizations. Prior to founding METAPLEX, Klane was chief executive officer of MCOSS Nursing Services Inc., the largest agency in New Jersey which he joined in 1981 as director-finance.

Klane initiated and implemented a corporate restructuring which increased productivity and created considerable cost savings for the nursing agency which today has 600 employees who make 250,000 home visits annually.

From 1977 until joining MCOSS in 1981, he was director of finance for the Garden State Rehabilitation Center where he was responsible for the billing and accounting departments, facilities and plant management. He started his career in 1974 as assistant controller for the Saint Lawrence Rehabilitation Center in Lawrenceville, N.J., where he was subsequently promoted to controller.

Klane earned an M.S. in health planning and administration from the University oif Cincinnati and a B.A. in Public Administration from Upper Iowa University.

The company is establishing niche-oriented businesses in Adult Day Care and Home Health Services and is involved in Publishing and Marketing.

#90052b0690 02/21/1990 ~Business Wire

NORTHBROOK, IL (FEB. 21) BUSINESS WIRE - General Binding Corp. (NASDAQ: GBDN) Wednesday reported that 1989 earnings increased 35 percent on record sales.

Earnings for 1989 increased to $20,105,000, or $1.26 per share compared to $14,856,000, or 92 cents per share, in 1988. Prior year earnings per share have been restated for the August 1989, three-for-two stock split. Sales for 1989 increased 13 percent to $283,691,000 from $250,626,000 in 1988.

For the fourth quarter of 1989 GBC's sales reached $74,236,000 compared to $65,726,000 in 1988. Earnings for the quarter were $4,605,000, or 29 cents per share, compared to $3,770,000, or 23 cents per share, for the comparable 1988 period.

Commenting on GBC's performance, president and CEO Rudolph Grua said, "We are pleased that GBC demonstrated good growth in a difficult year. We expect the strategies we have in place to ensure that the company will continue to grow in 1990 even though the current economic climate is not buoyant."

GBC is an international manufacturer and marketer of business machines and related supplies. The company's binding, laminating and paper shredding systems are used worldwide in the business, commercial, education and government markets. GBC products are marketed under the GBC, Shredmaster and U.S. RingBinder names.

ROCKVILLE, MD (FEB. 21) BUSINESS WIRE - GE Information Services (GEIS), owner and operator of one of the world's largest commercial teleprocessing networks, has announced the appointment of International Teleprocessing (Thailand) Co. Ltd. as its network services distributor in Thailand.

Under the terms of the agreement, International Teleprocessing (Thailand) Co. will distribute the full portfolio of GEIS' teleprocessing services in Thailand. It also will support all existing and new Thailand-based users of GEIS' services.

''The appointment of International Teleprocessing (Thailand) as our network services distributor in Thailand is indicative of the growing importance that GE Information Services places on Thailand in both the Asian and world commercial markets,'' said D.J. Crane, vice president, Asia Pacific Sales and Services, for GE Information Services.

''International Teleprocessing was selected primarily because of the level of commitment it was prepared to offer in selling and supporting our products and services in Thailand,'' added Crane.

For further information on access to GEIS' teleprocessing network in Thailand, please call International Teleprocessing (Thailand) Co. in Bangkok at 66-2-280-0848, FAX 66-2-280-0855. GE Information Services, a division of General Electric Co., USA, is headquartered in Rockville, Md., USA. It offers a wide range of value-added services for network-based business applications, systems integration and software development services, and network management services.

RICHMOND, VA (FEB. 21) BUSINESS WIRE - James River Corp. (NYSE: JR), Montedison, and Nokia Corp. announced Wednesday that they have completed the formation of the previously announced pan-European tissue and related disposable hygienics products group.

The group unites all of the tissue and disposable hygienics operations of the three companies which are located in eight European countries. The operations of the group will be conducted through two holding companies, J/Mont N.V. and J/Mont-Nokia N.V., which are headquartered in Brussels, Belgium. The group is expected to have combined annual sales of approximately $1.3 billion.

Organizational changes were begun in January, and thus the group is prepared to take full advantage of the growth opportunities in Europe for disposable hygienics products and to compete effectively in the increasingly concentrated European market for these products.

James River Corp., headquartered in Richmond, is a diversified manufacturer of paper products with annual sales of $6 billion and is a leading U.S. producer of towel and tissue products. Montedison Group, headquartered in Milan, Italy, is a diversified manufacturer of chemical products with annual sales of $10 billion.

The Nokia Group, headquartered in Helsinki, Finland, is a manufacturer of electronics and other industrial products with annual sales of $5.5 billion.

#90052b0717 02/21/1990 ~Business Wire
VENTURA, CA (FEB. 21) BUSINESS WIRE - Independent oil and natural gas company Fairbanks & Haas Inc. Wednesday announced that J. Don Langston, formerly vice president of exploration for Exxon U.S.A. has been appointed to the position of chairman of the board.

With nearly 40 years of experience in the petroleum industry, Langston will play an active role in the analysis and selection of potential drilling projects for the company. Fairbanks & Haas focuses its operations on exploration, development and production of on-shore oil and natural gas properties exclusively within California.

Langston, who is educated and trained in geology and geophysics, served in positions of increasing responsibility at Exxon and its subsidiaries throughout his career, including an eight-year term as Exxon U.S.A.'s senior executive for exploration in the continental United States and Alaska.

In that capacity, he was responsible for an annual exploration budget in excess of $1 billion, and over 2 billion barrels of oil and 10 trillion cubic feet of gas were discovered under his direction. Langston also served as director of Esso Australia Inc. where he was responsible for all exploration, production and operations.

Langston said that he believes that Fairbanks & Haas, with its efficient operating and management structures and focus on California properties exclusively, represents the future trend of petroleum industry companies.

A native of Jacksboro, Texas, Langston graduated from the University of Texas with a bachelor of science degree in geology, and completed post-baccalaureate studies in business administration/ advanced management at Columbia University. He is a member of the University of Texas Geology Foundation Advisory Committee.

Fairbanks & Haas, which funds its drilling programs in advance and carries no debt, operates through joint ventures with major oil companies, independent oil and gas operators, as well as private and institutional investors. The company, with drilling projects in Southern San Joaquin Valley and Ventura County, maintains fully staffed geology, engineering and land/legal departments.

#90052b0724 02/21/1990 ~Business Wire

NEW YORK (FEB. 21) BUSINESS WIRE - Lotus Development Corp. Wednesday introduced three new Lotus One Source products designed to meet financial professionals' heightened need for broader, easier access to information on foreign companies.

The three products, CD/Private+: U.K., CD/Corporate: U.K. and CD/M&A: Europe provide extensive financial information on the U.K. and Europe, including public and private companies, as well as merger and acquisition transaction data. The new research products are targeted to professionals in investment houses, banks and corporations who perform financial, merger and acquisition, and investment analysis on foreign companies.

Lotus One Source is a family of PC-based business and financial

information products delivered on CD-ROM (compact disc, read-only memory). Introduced in 1987, Lotus One Source is the world's best-selling CD-ROM application, with more than 10,000 users.

The current One Source product line provides a broad range of financial information on U.S. public and private companies, financial institutions, large international corporations, and mergers and acquisitions.

''The 1990s will bring a ground swell of financial activity abroad as companies seek to maximize their profitability and seize the opportunities presented by 1992,'' said Kenneth Grunzweig, Lotus One Source general manager. ''To participate, companies will need in-depth international information to research, analyze and structure deals involving foreign companies. With One Source, investment professionals will be able to access international data from their desktops in seconds.''

''The introduction of these three new international products is a significant and exciting advance for One Source in foreign markets,'' said David Roux, vice president of Lotus' Information Services Group. ''Our expanding product line will further strengthen and extend our global lead, enhancing our ability to meet our customers' needs in both the U.S. and abroad.''

-- CD/Private+: U.K. provides information on more than 100,000 private and public companies in the U.K. covering the past 10 years. Data is supplied by ICC Online Ltd. Updated monthly.

-- CD/Corporate: U.K. comprises financial and textual information on 5,000 publicly traded U.K. companies. Data is supplied by Extel Financial Ltd. through their U.K. Card Service. Updated monthly.

-- CD/M&A: Europe contains in-depth information on more than 10,000 U.K. and European mergers and acquisitions, including target and acquiror company information, deal terms, advisors and target company financials dating back to January 1987. Data is supplied from the IDD U.K. Mergers and Acquisitions and IDD European Mergers and Acquisitions databases. Updated monthly.

CD/Private+: U.K. is available immediately at a standalone price of $15,000 per year. CD/Corporate: U.K. and CD/M&A: Europe will be available in the second quarter of this year at standalone prices of $20,000 and $15,000, respectively. Discounts are available with more than one subscription or when the products are purchased in combination with other One Source offerings.

Lotus One Source products use proprietary Lotus software for screening, analysis and reporting and are fully integrated with Lotus 1-2-3. System requirements for all Lotus One Source products are an 80286- or 80386-based IBM, Compaq or compatible personal computer, 1 MB RAM and DOS 3.2 or 3.3. A CD-ROM reader is included as part of the subscription. A network version of all Lotus One Source products is available.

Lotus Development Corp. is the leading developer of application software for personal computers and information services delivered on CD-ROM.

GARDEN CITY, NY (FEB. 21) BUSINESS WIRE - Esselte Business Systems Inc. (NYSE:ESB) Wednesday said that it has been advised by its Sweden based parent comapny, Esselte AB, of the following information, as a result of which Esselte Business Systems is considering when a meeting of its shareholders to act upon the porposed merger of Esselte Business Systems with a subsidiary of its parent can be scheduled.

The Esselte AB release is as follows:

''On Wednesday morning, February 21, the Esselte AB board of directors reconvened the meeting adjourned on February 8. At that meeting, the prinicapal shareholders in the company, Mobilia and Ratos, presented terms for a possible offer to acquire all shares outstanding in Esselte AB, following which Esselte's president and CEO, Hans Larsson, presented an alternative action plan formulated by Group Exectuive Management.

Esselte's Board of Directors subsequently engaged Handelsbanken's Corporate Finance to make an analysis of the company, the Possible Offer and Executive Management's action plan. The analysis was presented on Sunday, Feburary 18, to the Board's independent representatives, who are not associated with the parties making the offer. Based on the analysis, the independent representatives had concluded that the Executive Management's plan of action should be as valuable to the comapny's shareholders as the terms of the possible offer made by the major shareholders, and that it warrants a share price that is not lower than the price offered by Mobilia and Ratos.

Accordingly, the Mobilia and Ratos representatives consider that the conditions for making an offer to acquire the Esselte shares no longer exist.

The action plan formulated by Esselte's Executive Management is based on concentrating the company's operations on products and services for the office, namely for Group companies active within the Business Systems and Information Systems sectors.

Accordingly, the company intends to divest its real estate and the operations in the Media business sector.

With respect to Esselte's decision, in the autumn 1989, to acquire the minority shares of Esselte Business Systems Inc. (EBS) in New York, the board wishes to note that the five EBS divisions are in no way affected by Executive Management's divestment plans.

BEAVERTON, OR (FEB. 21) BUSINESS WIRE - Tektronix Inc. (NYSE: TEK) Wednesday forecast its results for its third fiscal quarter, and announced steps to streamline its operations and improve profitability.

Prior to any charges associated with the changes being announced today, operating income for the fiscal third quarter (ending on March 3, 1990) is expected to be close to breakeven.

After interest expense, non-operating income, and a tax provision of approximately $9 million, the company expects to record a net loss for the quarter. Sales in the quarter are likely to be slightly below last year's third quarter total of $434.1 million.

The company also announced that it expects to reduce employment by about 600 people by the end of the fiscal year on May 26. This is in addition to reductions of about 600 employees which have occurred since the beginning of the fiscal year last May.

A further reduction of 200 employees will occur as a result of the previously announced closure of a manufacturing plant on Guernsey in The Channel Islands. The latest employment reductions will occur in various parts of the company. They will include further consolidation of Test and Measurement operations and steps to reduce costs and increase effectiveness in U.S. and international distribution.

Charges for severance pay and other costs related to the changes planned have not been finalized, but they are not expected to be greater than $20 million. These charges are expected to be recorded in the third quarter.

"We expected our new product flow would provide us with enough growth to begin to show earnings improvement," said David P. Friedley, Tektronix' president and chief executive. "That is not happening, partly because of weak industry demand in the defense, computer, and semiconductor businesses. Our product line and market positions remain strong, but we must get our expenses into line with our revenue."

Tektronix plans to report third quarter results on March 23. In last year's third quarter, sales were $434.1 million and earnings were $6.4 million or 22 cents per share.

Tektronix is a leading supplier of equipment and systems in the areas of test and measurement, communications and visual systems. Sales in fiscal 1989 were $1.433 billion. At the end of the second quarter on Nov. 11, 1989, the company had 15,136 employees.

#90052b0742 02/21/1990 ~Business Wire

RICHMOND, VA (FEB. 21) BUSINESS WIRE - James River Corp. (NYSE: JR), and Holzstoff Holding AG (Switzerland) announced Wednesday that they have entered into an agreement for Holzstoff to buy the Nonwovens Group of James River for approximately $175 million in cash.

The sale includes nonwoven manufacturing operations located in Simpsonville, S.C.; Washougal, Washington; Milford, N.J.; and Cantonment, Fla. as well as James River's interest in HJR Fiberweb, AB, a Swedish operation.

Sales of the U.S. Nonwovens Business are approximately $100 million. The transaction is scheduled to close before the end of March.

Holzstoff Holding AG, headquartered in Basel, Switzerland, is a manufacturer and distributor of paper and synthetic nonwovens with operations in Switzerland, Germany, France, Italy, and Belgium with a current sales rate of $600 million.

Holzstoff has been interested in becoming a worldwide producer of nonwovens and believes the addition of the James River operations is a significant element of that strategy. Holzstoff plans to continue operations at all locations and to honor existing customer and supplier agreements.

After careful study, James River has concluded that the Nonwovens Group no longer fits its long-term strategies and the resources allocated to this

area should be redirected toward its core businesses. James River believes that the Nonwovens Group, along with its customers and suppliers, will benefit from the strong committment and substantial investment planned by Holzstoff. James River is an integrated manufacturer of pulp, paper, and converted paper and plastic products and has a current annual sales rate of approximately $6 billion.

TOLEDO, OH (FEB. 21) BUSINESS WIRE - Owens-Corning Fiberglas Corp. Wednesday announced that in the first two months of 1990, it made the

first purchases of its Senior Subordinated Debentures Due 2001, and continued the repurchase of its Junior Subordinated Discount Debentures Due 2006, the company's highest-cost debt.

Owens-Corning purchased $60 million face amount of its Senior Debentures, or 20 percent of the $300 million which had been issued in 1986. The company also purchased $17 million face amount of the Junior Subordinated Debentures, bringing the total amount retired to $683 million, or 68 percent of the original $1 billion issued in 1986.

Owens-Corning said this early retirement of debt would result in a one-time after tax charge to earnings in the first quarter of $.4 million, or one cent per share. The company's total debt now stands at $1.5 billion, down from a high of $2.5 billion in 1986.

#90052b0755 02/21/1990 ~Business Wire

PORTLAND, MAINE (FEB. 21) BUSINESS WIRE - ImmuCell Corp. (NASDAQ:ICCC) Wednesday announced the results of operations for the 12 months ended Dec. 31, 1989.

Total revenues for the 12 month period ended Dec. 31, 1989, increased 38 percent to $2,775,990 compared with $2,016,473 for the same period in 1988.

The increase is attributable primarily to increased contract research revenue in 1989 and to increased product revenue resulting from the inclusion of a full year's results of Kamar Marketing Group, the company's marketing subsidiary, acquired effective April 1, 1988.

The net loss for the 12 and three month periods ended Dec. 31, 1989, was approximately $971,000 and $219,000, respectively, compared with $1,188,000 and $636,000 for the same periods in 1988.

The company's net working capital decreased to approximately $3,075,000 at Dec. 31, 1989, from approximately $3,864,000 at Dec. 31, 1988. Cash, cash equivalents, and investments totalled $2,970,967 at Dec. 31, 1989, as compared to $3,679,215 at Dec. 31, 1988. The decreases resulted primarily from losses incurred during 1989.

ImmuCell is a biotechnology company that develops, manufactures, and markets products for the animal and human health care markets. Its

products include bovine and human diagnostic kits and reagents. Currently in development are products for the prevention of enteric disease in humans, livestock and companion animals.

A public company since May of 1987, ImmuCell's stock is traded in the over-the-counter market on the automated quotations system of NASDAQ, under the symbol ICCC.

#90052b0760 02/21/1990 ~Business Wire

HADDONFIELD, NJ (FEB. 21) BUSINESS WIRE - United Medical Corp.'s (ASE: UM) income from continuing operations for the year ended Dec. 31, 1989 was $1,419,000, or 49 cents per share, based upon 2,908,000 outstanding shares versus income of $781,000, or 25 cents per share based upon 3,163,000 outstanding shares in 1988.

Revenues from continuing operations rose to $37,316,000 in 1989 from $34,344,000 in 1988. Operating income more than tripled to $2,433,000 in 1989 compared to $756,000 in 1988. The net income for the year ended Dec. 31, 1989 was $9,919,000, or $3.41 per share, compared with $1,934,000, or 61 cents per share in 1988.

Income from discontinued operations was $8,834,000, or $3.03 per share, in 1989 and $831,000, or 26 cents per share in 1988. Discontinued results in 1989 mainly reflect the gain on the sale of Renal Care Centers Corp.

Income from continuing operations include currency translation gains relating to United Medical's Swiss note issue of $161,000 in 1989 and $908,000 in 1988.

Income from continuing operations for the quarter ended Dec. 31, 1989 was $776,000, or 28 cents per share, versus $258,000, or 9 cents per share, a year ago. Revenue for the quarter was $10,252,000 in 1989 compared to $9,589,000 in 1988.

Net income for the fourth quarter of 1989 was $811,000, or 29 cents per share, versus $580,000, or 19 cents per share, on 2,810,000 shares and 3,113,000 shares, respectively. For the quarter, operating income increased to $1,238,000 in 1989 from $421,000 in 1988.

Results for the fourth quarter of 1989 reflect a charge of $571,000 to reduce the carrying value of United Medical's investment in Maxicare Health Plans Inc. United Medical has agreed to purchase 4,950,000 Swiss franc notes pursuant to an offer the company made to buy the remaining

5,100,000 Swiss franc notes at par.

This note purchase will equate to approximately $3.2 million and will not result in a significant gain or loss for the first quarter of 1990. As previously announced, the acquisition by United Medical's Cardio Data Systems division of Clinical Data Inc.'s clinical Holter monitoring business was consummated on Feb. 7. The purchase price for the acquisition was $4.5 million.

STAMFORD, CT (FEB. 21) BUSINESS WIRE - CUC International Inc. (NYSE:CU) announced Wednesday that its board of directors has authorized the repurchase of up to two million shares of the company's common stock.

CUC said the repurchase plan is designed to be flexible, and provide the company with the opportunity to purchase shares from time to time in the open market as it sees fit.

Walter A. Forbes, chairman and CEO of CUC, said, ''CUC's strong cash flow from its shopping, travel and enhancement businesses, and the continued excellent prospects for growth from our auto, dining and other businesses, encouraged us to look for additional ways to increase shareholder value.

''Our decision to purchase our stock offers what we judge to be the highest return to shareholders and is the strategy that best meets that goal.''

He added, ''it is a testament to the cash-generative powers of the company that we have been able to prepay our recapitalization debt ahead of schedule, and can now purchase shares in the open market without affecting our strategic expenditures to grow our business.''

CUC International is a leading membership services company, presently providing more than 13 millon consumers with access to a variety of services including home shopping, travel, insurance, auto, dining, checking account enhancements, and extended warranties.

#90052b0773 02/21/1990 ~Business Wire

PHILADELPHIA (FEB. 21) BUSINESS WIRE - American Integrity Corp. (NASDAQ:AIIC) Wednesday reported fourth quarter and 1989 results.

For the year ended Dec. 31, 1989, operating gain was $5,645,000 or 84 cents per share, up from an operating loss in 1988 of $9,933,000, or $1.48 per share. Net income for 1989 was also $5,645,000 or 84 cents per share, compared to a 1988 net loss of $11,413,000 or $1.70 per share.

Total revenues for 1989 were $69,360,000, up from $60,038,000 in 1988. The unearned premium reserve which is future revenue to be earned as the business matures, rose 73 percent to $26,296,000 up from $15,232,000 in 1988. Total new annualized premium written in 1989 equaled 259 percent of total new annualized premium written in 1988. Written premium for the month of December, 1989 was the largest in the company's history.

Net investment income increased 15 percent to $4,274,000 from $3,714,000. Net realized gains on sales of investments contributed $630,000 and $447,000, respectively, to revenues and net income in 1989. Total assets of the company grew to $107,817,000, a 27 percent increase since year end 1988. Book value rose 16 percent in the same period to $6.03 per share.

The fourth quarter of 1989 saw revenues grow 44 percent to $20,490,000 compared to $14,246,000 in the same period in 1988. Fourth quarter gain from operations was $1,113,000 or 17 cents per share up 59 percent over the 1988 fourth quarter gain of $698,000 or 10 cents per share. Net investment income increased 19 percent to $1,126,000 from $943,000 in the fourth quarter of 1988.

As of Dec. 31, 1989, the company had 139,000 policies in force, representing $90 million of annualized premium, a 64 percent increase over the $55 million in force as of Dec. 31, 1988. The company, through its insurance company subsidiary, sells supplemental accident and health insurance policies in 48 states and the District of Columbia.

#90052b0784 02/21/1990 ~Business Wire

MINNEAPOLIS (FEB. 21) BUSINESS WIRE - MOCON (Modern Controls Inc.) Wednesday announced record quarterly and year end sales and earnings for the period ending Dec. 31, 1989.

During the fourth quarter of 1989 sales rose 15 percent to a record $2,637,000 compared to $2,297,000 for the fourth quarter of 1988. Net income increased 24 percent to an all-time-high of $563,000, or 26 cents a share, compared to $453,000, or 21 cents a share, for the fourth quarter

of 1988.

Twelve month sales amounted to $9,798,000 up 15 percent from the previous year's sales of $8,551,000. Net income for the 12 months rose 28 percent to $2,137,000, or 99 cents a share, compared with $1,676,000 or 79 cents a share, for 1988.

MOCON Chief Executive Officer William N. Mayer said the sales increase was due to ''the expanded use of MOCON measurement systems for barrier material assessment used in packaging applications in the food industry, and increasing sales of our gauging systems used in prodution and quality control of thin films.''

''1989's favorable net income percentage of 21.8 percent was due primarily to the occurence of a very favorable product mix and under budget spending in several areas. We anticipate more typical spending in 1990, which would result in net margins more in line with those experienced in fiscal 1988.

''Our 1989 results typify our consistent commitment to earnings growth and our goal of averaging 20 percent growth over any five year period,'' Mayer said.

Mayer reported that the Company's liquidity was reflected in its current ratio of 7.7:1. Stockholders' Equity rose to $9,123,000 or $4.33 a share at year end 1989, from $7,588,000, or $3.60 a share, at year end of 1988.

MOCON is a leading developer, manufacturer and marketer of high technology instrumentation designed to test packages and packaging materials for permeation of gases and water vapor. The Company also has a new line of thickness gauging systems used to measure plastics and coatings on and off the production line.

MOCON testing instrumentation is used in quality control and research laboratories in the food and pharmaceutical industries, to test plastic packaging materials for cost effective protection against loss of color, flavor, fragrance, texture, potency and freshness.

The Company also manufactures weighing and sorting instrumentation that helps the pharmaceutical industry maintain the rigid weight tolerances needed in producing drugs in capsule and tablet form.

MOCON's shares are traded over-the-counter and are listed on the NASDAQ National Market System. The Company's electronic NASDAQ trading synmbol is MOCO.

HOUSTON (FEB. 21) BUSINESS WIRE - The board of directors of Cooper Industries Inc. (NYSE: CBE) Wednesday increased the quarterly dividend rate on the company's common stock to 27 cents from 25 cents, or to $1.08 on an annualized basis.

The first quarterly dividend on the common shares at the new rate is payable April 2. A quarterly dividend of 62.5 cents on each Series B Preferred share is payable March 31. A quarterly dividend of $2 on each

$8 Convertible Exchangeable Preferred share is payable April 1. The record date for all three dividends is March 5.

''The increased dividend reflects the company's commitment to raise common dividend payments as earnings increase,'' said Robert Cizik, chairman and president. Late in January, the company reported a 13 percent increase in fully diluted share earnings for 1989, to $2.49 from $2.20 in 1988.

The board also established March 5 as the record date for voting at the annual shareholders' meeting, to be held in Houston on April 24. Cooper Industries, with 1989 revenues of $5.1 billion, is a diversified, worldwide manufacturer of electrical products, electrical power equipment, tools and hardware, automotive products, and petroleum and industrial equipment.

NEW YORK (FEB. 21) BUSINESS WIRE - Cable television systems affiliated with Time Warner in New York City have formed a new combined local advertising division to sell and administer local ad sales in the city's cable systems.

Announcement of the new division, to be known as Time Warner Citycable Advertising, was made by Richard Aurelio, president of Time Warner's New York City Cable Group, which encompasses cable systems in Manhattan, Queens and Brooklyn now serving more than 625,000 households and is expected to grow to 700,000 by the end of 1990.

''This new entity is a natural synergistic outgrowth of the Time Warner merger,'' Aurelio said. ''Local ad sales are an important part of cable television's future, and this new combined operation will position us to serve the advertising community more effectively.''

Aurelio also announced the appointment of Larry J. Fischer as president and Drew R. Flynt as senior vice president of the new division. Fischer previously headed American Television and Communication Corp.'s Cable Advertising Manhattan and Flynt had directed cable advertising for Warner's Brooklyn Queens Cable Television. ''Both are proven veterans in the field of local advertising sales and are thoroughly familiar with the New York City cable market,'' Aurelio said.

The new division will be selling combined or targeted advertising for the five Time Warner affiliated cable systems in New York City: Manhattan Cable Television, Paragon Cable Manhattan, American Cablevision of Queens,

Brooklyn Queens Cable Television and Queens Inner Unity Cable. These systems serve the entire boroughs of Manhattan and Queens, and approximately one quarter of Brooklyn.

According to Fischer, Time Warner Citycable Advertising has the capability of inserting local commercials on 14 cable program networks, including CNN ESPN, MTV, USA, MSG, SportsChannel and others.

He said the new entity will establish central headquarters at 141 Fifth Avenue in Manhattan, with a second sales office in Queens.

LOUISVILLE, KY. (FEB. 21) BUSINESS WIRE - Kentucky Medical Insurance Co. (NASDAQ/NMS:KYMDA) stock ranked as the nation's best-performing stock in the property and casualty insurance field during 1989, according to a New Jersey-based insurance research firm.

The findings are reported in the current issue of the Firemark Insurance Review.

The market price for Louisville-based Kentucky Medical Insurance common stock rose 425 percent from $3.67 at Jan. 1, 1989, to $19.25 per share through Dec. 31, 1989. Kentucky Medical, which provides medical professional liability insurance to approximately 2,000 physicians in Kentucky, is classified among property and casualty insurers.

Kentucky Medical's percentage increase surpassed all but two of the 200 insurance stocks followed by Firemark Consultants Inc. The best performing insurance stocks were life-and-health insurers Provident American, up 500 percent in 1989, and American Integrity, up 426 percent. The second-best performing property and casualty insurance company was Rockwood Holding Co., which gained 267 percent.

Among over-the-counter stocks, Kentucky Medical also ranked among the top performers. The company's stock was the second-highest performer among NASDAQ stocks priced above $3 at the beginning of the year. NASDAQ's top-performing stock in that category gained 543 percent.

Chief Operating Officer David W. Lester said the rapid growth in Kentucky Medical's market valuation reflects increased operating earnings, as well as the national investment community's greater awareness of the company and its appropriate market value. ''We're pleased with the gains Kentucky Medical achieved during 1989,'' said Lester. ''We intend to continue building upon those accomplishments in 1990 as we pursue our strategies for steady, consistent growth.''

For the first three quarters of 1989, the company reported net income of $3.1 million, or $3.29 per share, versus $1.7 million, or $2.27 per share. The company previously announced that it expects to report 1989 per-share net income of $3.80 to $4.10 when the year's revenues and earnings are released expected in late February.

Kentucky Medical Insurance Co. offers medical professional liability insurance to Kentucky physicians, dentists, oral surgeons, other health care professionals, hospitals and other health care facilities. The company also offers investment, leasing and other insurance services to the Kentucky medical community. Its stock trades on the NASDAQ National Market System.

#90052b0853 02/21/1990 ~Business Wire
RICHMOND, VA. (FEB. 21) BUSINESS WIRE - James River Corp. (NYSE: JR) reported net income of $46.9 million for its third quarter which ended Jan. 28, 1990, compared with $59 million a year ago.

Net sales increased by 3.4 percent to $1.4 billion. Earnings per share were 51 cents compared with 66 cents reported in the like quarter last year.

For the quarter, results for food and consumer packaging, Dixie Products, and Towel and Tissue were improved over last year. Communication Papers and Specialty Papers both continued to experience cyclical market downturns coupled with continued high costs primarily for wood fiber and market pulp.

Operations were adversely affected by extreme weather conditions both in the South and the Northwest resulting in lost production at four of the company's major integrated pulp and paper mills. In addition, as James River continued to enhance its operational focus, additional costs were incurred for early retirement programs and the shutdown of a paper machine.

Management estimates that these weather-related and other costs totaled 7 cents per share.

For the nine months which ended Jan. 28, 1990, net income was $170.7 million, off 5.6 percent from the prior year. Net sales for the like period were $4.4 billion compared with $4.2 billion in the prior year, representing a 4.7 percent increase. Earnings per share were $1.90, down

from $2.03.

On Feb. 20, the formation of a pan-European tissue and related disposable hygienics products group with Montedison of Italy and Nokia Corp. of Finland was consummated. The group has operating locations in eight European countries. The operations of the group will be conducted through two holding companies, J/Mont N.V. and J/Mont-Nokia N.V., which are headquartered in Brussels, Belgium. The combined annual sales of the operations are expected to be approximately $1.3 billion.

In addition, James River announced that it entered into an agreement with Holzstoff Holding AG of Basel, Switzerland to sell its Nonwovens Group for approximately $175 million in cash. The company has concluded, after careful study, that the Nonwovens Group no longer fits its long-term strategies. The disposition will include four domestic manufacturing locations, as well as the company's interest in HJR Fiberweb AB, a Swedish operation.

Sales for these operations, including HJR Fiberweb AB, totaled approximately $90 million in the first nine months of this year. The transaction is expected to close before the end of March. While this sale will result in a significant capital gain in the fourth quarter, other expected asset dispositions and personnel costs related to further concentration of the company's resources are likely to largely offset this gain.

James River remains committed to its core businesses and is continuing its long-term strategy of focusing on their development. Looking ahead to the remainder of the calendar year, management sees only gradual relief from the cyclical downturns affecting its communication papers and specialty papers businesses.

Cost pressures from wood fiber and market pulp are expected to diminish as modest reductions are currently being experienced. The outlook for its noncyclical businesses continues to be favorable.

GARDEN CITY, NY (FEB. 21) BUSINESS WIRE - Cable Applications Inc. (NASDAQ Symbols: CBLE, CBLEU, CBLEW) Wednesday reported its operating results for its third quarter and nine months ended December 31, 1989. For the 1989 third quarter, revenues were $3,720,329 compared to $4,680,161 reported for the same quarter of year ago. Net income reflected a loss of $487,326 or $.11 per share, versus net income of $316,697, or $.13 per share for

the 1988 quarter. For the nine months ended Dec. 31, 1989, total revenues were $12,058,244 compared to $12,864,016 for the same period 1988. Net income showed a loss of $311,971, or $.10 per share compared to $1,510,414 or $.60 per share for the nine months ended 1988.

The nine months ended December 31, 1988 included an extraordinary item of approximately $1,010,376, or $.43 per share, relating principally to the reduction of liabilities, as specified in a May, 1988 Plan of Reorganization.

Richard Capaldo, CBLE Chairman, President and Chief Executive Officer, commented, ''The current loss was primarily attributable to the company's telecommunications segment which incurred losses on two contracts completed in the third quarter and one contract in process of completion. In addition, the Company incurred costs to train new employees and current employees in new areas in order to expand and enhance the skills of its telecommunications workforce. The Company also expended substantial dollars to submit bid proposals for new contracts, the awards of which will be determined in the future.''

Cable Applications Inc. is engaged in the design, installation and maintenance of cable, microwave, fibre optic devices and telecommunication systems. The Company also supplies temporary, technical and clerical personnel to industry.

CHARLOTTE, NC (FEB. 21) BUSINESS WIRE - Brad Ragan Inc. (ASE: BRD) reports record revenues of $225,936,000 for year 1989.

Fourth quarter revenues of $54,343,000 were off 4.4 percent from a year earlier.

''Increases in Tire, Service and Home Produce sales generated a 5 percent improvement in revenues for the year. In the fourth quarter, increases in Commercial and Retail Tire and Service sales were more than offset by a decline in Home Products and Rubber Processing sales volume. The market for consumer durable goods has been soft since the beginning of the second half of 1989.

''Rubber processing volume continues at lower levels than a year earlier due to reduced demand for mixing from our major customer in the tire

industry.

''Balanced sales growth through customer satisfaction and outlet productivity activities generated through ever improved processes and personnel development will continue to drive the company's volume upward '' said W.P. Brophey, president and chief executive officer.

A net loss of $1,004,000, or (46 cents) per share for the fourth quarter of 1989 compared favorably with a net loss of $1,839,000, or (84 cents) per share in the like period a year earlier.

The fourth quarter of 1988 included $1,700,000 unusual year end inventory costing and other adjustments whereas the fourth quarter of 1989 included a $300,000 additional reserve for product liability.

For the year ended Dec. 31, 1989, a net loss of $814,000, or (37 cents) per share was recorded compared to a net loss of $485,000, or (22 cents) per share for 1988.

Brad Ragan Inc. is the largest United States producer of retreaded tires for off-highway vehicles and distributes new and retreaded off-the-road and truck tires through a network of 51 commercial tire centers in 20 states. The company also operates a chain of 137 retail stores in the Southeast, featuring products for the auto and home.

#90052b0872 02/21/1990 ~Business Wire

NORTH CANTON, OH (FEB. 21) BUSINESS WIRE - Bleden & Blake Energy Co., a publicly traded master limited partnership (AMEX:BBE), today declared a quarterly cash distribution of 5 cents per unit, payable April 20, 1990, to unitholders of record on March 31, 1990.

Belden & Blake is resuming quarterly cash distributions which had been suspended since the fourth quarter of 1988. In announcing the distribution, Henry S. Belden IV, co-general partner of the company said: ''The company's objectives are to provide unitholders with cash distributions while expanding its reserve base. Our projections of net income -- based on current oil and gas prices -- indicate that this level of quarterly cash distribution can be sustained throughout 1990. Since cash flow is expected to exceed distributions, we believe the company will also achieve its reserve replacement objective.''

The company also announced that it will take a one-time write-down in the fourth quarter of 1989 on certain marginal Pennsylvania producing

properties in anticipation of their disposal. The amount of the write-down is expected to be approximately $1,100,000. When combined with operating results and other items, the company expects to report a loss for 1989 totaling $1,200,000 to $1,300,000.

In order to enlarge the capital of the company and to further internationalize its investor base, the board of directors of the company's corporate general partner authorized management to proceed with plans to offer up to $10,000,000 of convertible debentures in a European private placement. Half of the net proceeds of the offering -- if completed -- are expected to be used to reduce more expensive long-term debt. The balance will be used to replace and expand the company's oil and gas reserve base -- through developmental drilling for natural gas and the acquisition of additional producing properties.

Acting on other matters, the board authorized management to purchase up to $1,000,000 in company units from time to time on the open market.

Belden & Blake Co. is engaged in exploration, development, production and marketing of oil and natural gas in the Appalachian Basin.

#90052b0874 02/21/1990 ~Business Wire

NEW YORK (FEB. 21) BUSINESS WIRE - Belvedere Corp. (AMEX: BLV), Wednesday announced results for the three month and twelve month periods ended Dec. 31, 1989.

Total revenues for the fourth quarter decreased to $13,439,000 from $21,777,000 in the fourth quarter of 1988, as a result of decreased revenues in the former Bermuda subsidiaries.

There was a net loss for the quarter of $(4,941,000) compared to net income of $1,193,000 in the same period last year. The net loss per share for the three month period was (83 cents), compared to net income of 21 cents in the comparable period of 1988.

The sale of the corporation's Bermuda subsidiaries generated a net loss of $(5,109,000), or (86 cents) per share. Results for the quarter were also impacted by the California earthquake, an explosion at a petrochemical plant in Texas, and extensive freezing weather in late December, all of which reduced net income by $1,191,000, and earnings per share by 20 cents.

Total revenues for the twelve month period decreased to $59,410,000 from $62,269,000 in 1988. The net loss for the year was $(4,274,000) compared to net income of $3,974,000 a year ago. The net loss per share for 1989

was (72 cents) compared to net income per share of 69 cents for 1988.

Belvedere Corp., through its major subsidiary, Belvedere America Reinsurance Co., a U.S. company, is engaged primarily in the writing of property and casualty reinsurance.

COSTA MESA, CA (FEB. 21) BUSINESS WIRE - As part of PDA Engineering's international expansion program, the company (NASDAQ:PDAS) has promoted Richard Caselli to vice president and general manager of international operations for the PATRAN Software Products division, a newly created position reporting to the division's vice president and general manager.

Caselli was previously vice president of sales for the division.

Caselli will be responsible for the general management of all international operations, including business planning, profit and loss, marketing, sales, distributor relations, international hardware partner relations and product planning to meet international requirements.

''Rick Caselli brings an outstanding track record in the industry to this new position,'' said Tom Curry, PATRAN division vice president and general manager. ''His experience in building an organization committed to excellence and growth will significantly improve our position in the international arena.''

PDA Engineering, based in Costa Mesa, designs, develops and markets leading mechanical engineering software under the PATRAN brand name. The software provides pre- and post-processing capabilities, modeling, finite element analysis, and other specialty analysis software used in the product development process.

PDA Engineering distributes its products through sales offices in eight U.S. cities and company-owned subsidiaries in the United Kingdom, France, Germany, Italy and the Netherlands, and independent distributors elsewhere.

Formed in 1972, the company provides advanced technology products and specialized engineering services to both commercial and government market segments through its Engineering Services division. PDA is a publicly owned company.

HOUSTON, TX (FEB. 21) BUSINESS WIRE - Smith International Inc. (NYSE/PSE:SII) Wednesday announced that its board of directors, upon the recommendation of the special committee of independent directors, has determined to terminate the process whereby offers to acquire the company had been solicited from third parties.

The decision to terminate all discussions with third parties was based upon the board's belief that the long-term benefits which stockholders may realize through their investment in the company exceed the value which may be realizable through a sale of the company at this time.

Smith International is a worldwide supplier of products and services to the oil and gas drilling industries.

KENNER, LA (FEB. 21) BUSINESS WIRE - Realty Acquisition Corp., a wholly owned subsidiary of Sizeler Property Investors Inc. (NYSE:SIZ), announced that it has succeeded in obtaining Property Trust of America's (NYSE:PTR) shareholder list pursuant to a court-sanctioned settlement.

Access to the shareholder list will assist Realty should it seek to obtain shareholder approval to remove any remaining impediments to the consummation of Realty's tender offer. The settlement will eliminate the need to proceed with the trial in the Circuit Court for Baltimore City, Md., which was scheduled to commence on Feb. 20, 1990.

Realty initiated the lawsuit against PTR to enforce its right to obtain a copy of PTR's shareholder list under both PTR's Declaration of Trust and Maryland State law. Under the terms of the settlement, PTR must deliver its shareholder list to Realty immediately.

The settlement agreement also requires PTR to provide Realty with an updated list as of the Record Date for its next scheduled annual shareholders meeting. Under the terms of the settlement, Realty is only required to give PTR a list of shareholders who have tendered their shares in connection with Realty's tender offer 45 days prior to PTR's annual shareholders meeting.

Sizeler Property Investors Inc. is an equity real estate investment trust engaged in acquiring and holding real estate interests, principally shopping centers, for investment. Sizeler is based in Kenner, a suburb of New Orleans.

Property Trust of America is a Maryland real estate investment trust headquartered in El Paso, Texas, with investment properties located primarily in the southwestern region of the United States.

Tokyo (FEB. 21) - Toyota Motor Corp. plans to start making passenger cars in Turkey jointly with the Sabanci company, a Toyota spokesman confirmed Wednesday.

The spokesman was commenting on a report by the Tokyo daily Shimbun newspaper which said the Turkish government was expected to approve the project early next month.

He said Toyota was ''positively considering'' a joint venture to produce ''1.6-litre passenger cars'' in Turkey, but declined to specify the type of cars.

Shimbun reported that Toyota and Sabanci were planning to produce 80,000 ''Corolla'' sedans and vans per year starting around 1993.

Of the total, 40,000 cars would be exported to the Soviet Union in exchange for natural gas and crude oil because of a foreign currency reserve shortage in the Soviet Union, the paper said.

One of the candidate sites for the project is the Bursa industrial complex, some 100 kilometres south of Istanbul, the newspaper said.

TOKYO (FEB. 21) - Japanese electronics giant Sony Corp. is to reduce its stake in a satellite consortium, allowing trading company Nissho Iwai Corp. to become its biggest shareholder, the consortium said Wednesday.

"As Sony is now in a position to supply software to broadcast and satellite companies, it does not feel it is appropriate to continue as the main shareholder," Satellite Japan Corp. said in a statement.

The reduction in Sony's stake to 8.5 percent coincides with a capital expansion by the five-member consortium from 100 million yen (0.7 million dollars) to 400 million yen (2.8 million dollars), the statement said.

Nissho Iwai, which is buying some of Sony's shares, will emerge with 48.5 percent after the capital expansion. Rival trading firm Marubeni Corp. will hold 22 percent and leasing company Orix Corp. will hold 11 per cent and Japan Leasing Corp the remaining 10 percent.

Satellite Japan, established by the five companies in 1985, said it would use the capital expansion to "enhance its market research activities and feasability studies towards establishing a domestic satellite enterprise."

TOKYO (FEB. 21) KYODO - MITSUBISHI MOTORS CORP. AND SUZUKI MOTOR CO. UNVEILED WEDNESDAY NEW MINICAR MODELS WHICH MEET THE NEW STANDARDS SET BY THE GOVERNMENT FOR SUCH VEHICLES, MAKING THEM THE FIRST AUTOMAKERS TO DO SO.

OTHER COMPANIES MAKING SUCH VEHICLES SUCH AS HONDA MOTOR CO., DAIHATSU MOTOR CO., FUJI HEAVY INDUSTRIES LTD. AND MAZDA MOTOR CORP. ARE EXPECTED TO FOLLOW SUIT, ANALYSTS SAID.

THE MOVE CAME IN RESPONSE TO A CHANGE IN STANDARDS ON SO-CALLED MINIVEHICLES FOLLOWING SLACK SALES OF SUCH VEHICLES DUE TO SWEEPING REFORM IN THE TAX SYSTEM LAST APRIL, MAKING SUCH CARS LESS ATTRACTIVE ON THE TAX FRONT.

THE NEW STANDARDS STIPULATE MINIVEHICLES HAVE AN ENGINE DISPLACEMENT OF UP TO 600 CC AND A LENGTH OF UP TO 3.3 METERS, COMPARED WITH 550 CC AND 3.2 METERS UNDER THE PREVIOUS STANDARDS.

THE NEW MODELS FROM MITSUBISHI AND SUZUKI, ALL BASED ON THEIR EXISTING MODELS UNDER THE PREVIOUS STANDARDS, WILL BE AVAILABLE FROM MARCH 1 WITH STANDARD MODELS CARRYING PRICE TAGS OF 708,000 TO 899,900 YEN, THE TWO COMPANIES SAID.

SUZUKI PRESIDENT OSAMU SUZUKI SAID HE HOPES THE NEW PRODUCTS WILL LURE USERS WHO WOULD HAVE BOUGHT LARGER CARS WITH AN ENGINE DISPLACEMENT OF MORE THAN 660 CC.

SUZUKI SAID HE EXPECTS DOMESTIC SALES OF MINIVEHICLES TO EXCEED THE 1.75 MILLION UNITS IN 1988 BECAUSE OF THE NEW STANDARDS.

#90052p0025 02/21/1990 ~PR Newswire
SAN JOSE, CA (FEB. 21) PR NEWSWIRE - Sony Corporation of America today announced full availability of its high performance SDT- 1000 DDS (Digital Data Storage) DAT tape drives. The drives, which are ideal for high capacity data back-up applications in minicomputer, microcomputer and LAN environments, as well as for data distribution and archival mass storage, provide up to 1.3 gigabytes of storage capacity.

Sony's SDT-1000 drives, together with Sony DDS media and DDS head cleaning cassettes, are being marketed to VARs, systems integrators and manufacturers at a quantity one price of about $2,000 per drive, and are backed by Sony application engineering, field service and repair.

"With this announcement we are ready to push our sales efforts into high gear," said Bo Larsson, DDS marketing manager. "As co-developer of the DDS format, pioneer of the helical scan technology integral to DAT and the only manufacturer offering DDS components, finished drives and media, Sony is uniquely positioned to offer its customers reliable, economical DDS drives for a variety of applications."

Industry Standard, High Reliability By employing highly efficient helical scan technology, the SDT-1000 achieves high speed search and average random access time of 20 seconds and a data transfer rate of 183Kbytes per second. Advanced error correction methods and read after write capability ensure data integrity.

The SDT-1000 is a standard 5.25-inch form factor, full height drive with embedded SCSI controller. It is compatible with both 1/2-inch tape and QIC command sets. Sony's advanced DDS data cartridge utilizes metal particle media technology, developed specifically for demanding DDS applications, to minimize the dropout and achieve even greater reliability.

With the addition of the SDT-1000 DDS product, Sony rounds out its family of mass storage products, including 3.5-inch microfloppy disk drives, hard disk drives, 12-inch WORM, 5.25-inch rewritable, and CD-ROM drives, and a full range of media. "Our commitment to the peripherals marketplace is clear," Larsson said. "The addition of DDS drives, with their strong price/performance qualifications, further strengthens our ability to meet the mass storage needs of our OEM customers."

Sony has established full sales, service, and engineering support functions at its San Jose facility.

MIAMI (FEB. 21) PR NEWSWIRE - Hoteleticket, the leading computerized ticketing distribution network that books reservations and prints airline tickets with boarding passes within minutes of a call to its 800 hotline, has signed an agreement with Hickory Travel Systems to deliver tickets to that company's clients on the road.

According to Hoteleticket President, Edd Helms, Hickory has more than 60 subsidiary agencies worldwide and is the first 24-hour travel service to sign with Hoteleticket.

Hoteleticket is a subsidiary of Miami-based Hotelecopy, Inc. (NASDAQ-NMS: FAXM), the world's largest public access FaxMail network, operating in nearly 2,000 hotels, airports and U.S. Post Offices nationwide. Hotelecopy is endorsed by the American Hotel and Motel Association as "the FaxMail network of the lodging industry."

Helms pointed out that Hoteleticket is providing a ticket delivery service only, via its Satellite Ticket Printer Network to clients of Hickory's subscribing agencies. Through its 24-hour reservations desk that services all of its subscribers, Hickory is responsible for accurate reservation and faring information.

All service requests will be generated from Hickory's reservation center in Saddle Brook, N.J. and tickets will be available for pickup by client travelers at front desks of Hoteleticket member hotels.

Helms termed the agreement with Hickory as an "outstanding opportunity" for both participants. "We're pleased to be associated with such a fine organization as Hickory Travel Systems," said Helms. "Working together,

we're confident the result will be a beneficial program that bonds Hickory's subscribing agencies, their client travlers, hotels and our product."

EL SEGUNDO, CA (FEB. 21) PR NEWSWIRE - Farr Co. (NASDAQ: FARC) posted record fourth quarter results and also achieved a 33 percent improvement in operating profits for 1989 as a whole.

Net income for the quarter climbed to $1,032,000, equal to 36 cents per share, from $484,000, or 17 cents per share, a year ago. Fourth quarter sales advanced to $20,795,000 from $18,667,000 in the 1988 quarter.

Allan B. Foy, chairman and president, said: "We were certainly pleased to bring the year to a positive close with the best quarterly results in our history. The increase in fourth quarter profits reflects the higher sales volume coupled with the succesful cost reduction program we implemented during the third quarter.

"The sales increase occurred primarily in two markets: heating, ventilating and air conditioning filters, and gas turbine filter houses. The resurgence in domestic sales momentum is very encouraging as is the fact that the sales gains were spread across all of our operating units."

Net income for 1989 amounted to $2,949,000, equal to $1.03 per share, compared to net operating earnings of $2,211,000, or 78 cents per share, before a real estate gain in 1988. The sale of excess, undeveloped land in Canada in the first quarter of 1988 produced an after-tax gain of $347,000, or 12 cents per share, which lifted total net income for 1988 to $2,558,000, or 90 cents per share. Sales for 1989 totaled $77,243,000, up from $72,605,000 in the prior year.

He continued: "The heating, ventilating and air conditioning market was the primary contributor to sales growth in 1989. We also enjoyed very good profit improvement in both Canada and Europe.

"Assuming no significant downturn in the world economy, we are optimistic about our prospects in 1990. Our enthusiasm reflects the sales strength that we saw in our domestic operations during the fourth quarter, plus a substantial increase in our backlog of gas turbine jobs."

Farr Co. is a leading producer of filters for particulate, liquid and gaseous filtration systems. The company has nine manufacturing facilities in the United States as well as plants in Canada and England.

HOUSTON (FEB. 21) PR NEWSWIRE - ENSR Operations, a division of ENSR Corporation (AMEX: ENX), has been awarded a $4.9 million contract to perform PCB transformer services for Great Northern Paper Company in Millinocket, Maine. This 18-month project will complete Great Northern Paper's multi-year program to eliminate transformers containing PCB (polychlorinated biphenyls).

ENSR will provide services for nine askarel-filled and 24 mineral-oil-filled transformers located at several Great Northern sites within the State of Maine.

"We chose to eliminate the risk of PCB incidents such as leaks, spills or fires," said Tom Wark, GNP's senior electrical instrumentation engineer. "It is our policy and commitment to eliminate potentially severe PCB financial liabilities, and this demonstrates our intention to remain a responsible corporate citizen in the communities where we have operations."

"We have been pleased with ENSR Operations' performance," Wark added. ENSR Operations specializes in providing PCB transformer services, including the mobile PCBX(SM) service for reclassifying mineral oil filled transformers and the System 50(R) service for reclassifying askarel filled transformers. These reclassification technologies represent significant up-front cost savings and preserve the useful life of a transformer.

ENSR Corporation (pronounced "N-Sir") is an environmental services company with more than 20 years of experience solving complex environmental problems for America's leading industrial companies.

KALAMAZOO, MI (FEB. 21) PR NEWSWIRE - The Board of Directors of The Upjohn Company (NYSE: UPJ) today approved formation of Upjohn Laboratories a new corporate entity that combines the company's pharmaceutical research and medical affairs functions.

The board also approved the election of Jerry R. Mitchell, M.D., Ph.D., formerly vice president for pharmaceutical research, to the position of senior vice president and president, Upjohn Laboratories.

Some functions formerly contained in the Division of Medical Affairs will become part of the Pharmaceutical Regulatory Affairs Division. As a result of the increased responsibility in this division, the board approved the election of George H. Ishler, M.D., to the position of vice president for pharmaceutical regulatory affairs.

In addition, Raymond M. DeHaan, M.D., vice president for medical affairs, has elected to retire, effective April 1, 1990.

Mitchell and Ishler will continue to report to Mark Novitch, M.D., executive vice president.

Upjohn Laboratories will include major facilities in Kalamazoo, Tsukuba, Japan, and Crawley, England. In addition, the expanded research and development activities the company has put in place in Europe through its European Discovery Center agreements will be part of Upjohn Laboratories. The division's primary acitivities will include: discovery research; preclinical development functions, including pathology and toxicology; clinical development programs; project management; animal health research, which continues also to report to the Agricultural Division; and administrative support activities.

Mitchell was director of the Center for Experimental Therapeutics at the Baylor College of Medicine in Houston before joining Upjohn in March 1989. His long research career also includes seven years in a number of positions at the National Heart, Lung and Blood Institute.

Ishler joined The Upjohn Company in 1975 as a staff physician. Prior to joining Upjohn he was a lieutenant colonel serving at the Armed Forces Institute of Pathology. He served on research teams in Vietnam in 1968 and 1969 and was awarded the Bronze Star in 1969. At Upjohn, Ishler held a number of positions between 1975 and 1985, when he became executive director, U.S. pharmaceutical regulatory affairs. He was named vice president, pharmaceutical regulatory affairs division in 1988.

DeHaan received his M.D. degree from the University of Michigan and worked as a senior assistant surgeon in the U.S. Public Health Service and also practiced internal medicine in Denver before joining The Upjohn Company in 1964 as a clinical monitor. He was appointed director of infectious diseases research in 1967, medical director of the Bronson Clinical Investigational Unit in 1972, executive director of clinical research in 1985, and vice president, clinical and drug safety research in 1986. He was elected to his current position in 1987.

The Upjohn Company is a worldwide, research-based provider of human health care products and services, animal health products, agronomic and vegetable seeds and specialty chemicals. Headquartered in Kalamazoo, the company has been dedicated to improving health and nutrition for more than a century.

ROCHESTER, NY (FEB. 21) PR NEWSWIRE - Rochester Telephone Corp. (NYSE: RTC) announced today that it has signed a letter of intent to purchase Monroeville Telephone Co. of Monroeville, Ala. It represents the Rochester-based company's first acquisition in the Southeast.

The announcement was made in Rochester by David C. Mitchell, president of Rochester Tel's Telephone Group, and in Monroeville by Gayle Kennedy, president of the Monroeville company.

Monroeville is the third largest independent telephone company in Alabama, serving more than 10,300 access lines in parts of five counties in the southwestern area of the state. It's located about 90 miles southwest of Montgomery and 110 miles northeast of Mobile.

The company has 12 exchanges, with approximately 80 percent of its access lines converted to digital technology.

Monroeville also has an interest in two of Alabama's cellular Rural Service Area territories.

In announcing the latest acquisition, Mitchell said Rochester Tel has been seeking to establish itself in the South for several years.

According to the letter of intent, Rochester Tel will exchange shares of its common stock for all of Monroeville's outstanding stock. The purchase price was not disclosed.

The purchase is subject to the approval of certain regulatory agencies. Rochester Tel's principal operating territory is a six-county area in Western-Central New York State. It operates four other telephone companies in New York, five in Pennsylvania, five in Illinois, three in Michigan, three in Wisconsin and two in Indiana. Three other acquisitions in Illinois and Wisconsin, are pending.

Rochester Tel also owns three unregulated subsidiaries: RCI Long Distance a regional long distance carrier; Rotelcom Network Systems, which provides competitive telecommunications equipment and services; and Rochester Tel Mobile Communications, which manages its cellular operations.

CONTACT: John K. Purcell, vice president-staff and subsidiary operations, 716-777-7944, or Gary L. Sugarman, business development director, 716-777-7757, both of Rochester Telephone

RICHMOND, VA (FEB. 20) PR NEWSWIRE - Richfood Holdings, Inc. (NASDAQ: RCHFA) today announced the successful refinancing of its senior debt. As announced last July, the Company has been out of compliance with certain limits on short-term debt under its loan agreement with The Prudential Insurance Company of America. Prudential had previously agreed not to accelerate payment of its loan during the period when bids were being solicited for the sale of the Company. Following the termination of the

solicitation of bids, the Company obtained from Crestar Bank a commitment for a bridge loan in the amount of $39,500,000. Proceeds of the bridge loan, secured by accounts receivable and fixed assets, will be used to repay the Prudential indebtedness on February 21, 1990, together with a negotiated $1 million payment in full satisfaction of the $3.6 million yield maintenance premium due Prudential. Crestar and Richfood have agreed to commence negotiations immediately with respect to a new long-term debt facility to replace the bridge loan.

The negotiated payment to Prudential is being reflected in the third quarter results as an extraordinary item of $.6 million ($.06 per share) after related tax benefits.

The Company also announced that excluding certain non-recurring expenses and the extraordinary item related to repayment of the Prudential loan, the Company would have recorded net earnings for the third quarter ended January 6, 1990 of $1.0 million, or $.10 per share. After these non-recurring expenses and the extraordinary item, the Company recorded a net loss of $270,000 or $.03 per share, for its third quarter. This compares with net earnings of $1.8 million, or $.17 per share, for the comparable period last year.

For the thirty-six week period ended January 6, 1990, the Company recorded a net loss of $470,000, or $.05 per share, after non-recurring expenses and the extraordinary item. This compares with net earnings of $4.5 million, or $.44 per share, for the comparable period last year. Non-recurring expenses during the thirty-six week period ended January 6, 1990, totaled $.8 million, or $.08 per share, after related tax benefits.

Net sales for the quarter ended January 6, 1990 were $253.7 million compared to $296.2 million for the same period last year. A substantial portion of the sales decline resulted from the previously announced loss of a supply relationship with A & P.

Richfood is the largest wholesale food distributor serving its Mid-Atlantic operating region. It supplies over 600 supermarkets with a complete line of grocery products, frozen foods, dairy, fresh produce and meats.

KALAMAZOO, MI (FEB. 21) PR NEWSWIRE - The Board of Directors of The Upjohn Company (NYSE: UPJ) Tuesday elected two vice presidents whose appointments are effective April 2, 1990.

Roy D. Hudson, Ph.D., formerly vice president, pharmaceutical research and development, Europe, was elected vice president for public relations. He succeeds John D. Martin, who has elected to retire, effective April 1, 1990, after 32 years of service with the company.

Richard G. Tomlinson, formerly vice president, corporate compensation, benefits and employee information resource management, was elected vice president for human resources. Tomlinson succeeds Cass S. Hough Jr., who has elected to retire April 1, 1990, after 36 years of service with the company.

Tomlinson joined Upjohn in 1956 after serving in the U.S. Air Force from 1952-1956. He received a B.A. in psychology/speech pathology from Grinnell College, Grinnell, Iowa, in 1951 and an M.A. in experimental psychology/statistics from the University of Nebraska in 1952. Tomlinson held a number of positions in the employee relations division and was named vice president, corporate compensation, benefits and employee information resource management in 1981.

Martin joined The Upjohn Company in 1958 and was assigned to the personnel area of Upjohn International Inc. His career included a number of management positions at subsidiaries in Mexico and Puerto Rico. He was appointed general manager and vice president of the Upjohn Manufacturing Company in 1973. Martin was elected vice president for Puerto Rico manufacturing in 1974 and to his present position in 1988.

Hough joined The Upjohn Company in 1954 after graduating from the University of Michigan. He held a number of positions in the company's employee relations unit, culminating in his appointment as vice president for employee relations in 1970.

The Upjohn Company is a worldwide, research-based provider of human health care products and services, animal health products, agronomic and vegetable seeds and specialty chemicals. Headquartered in Kalamazoo, the company has been dedicated to improving health and nutrition for more than a century.

MONROE, MI (FEB. 21) PR NEWSWIRE - Record sales by La-Z-Boy Chair Company (NYSE, PSE: LZB) during the firm's fiscal 1990 third quarter, ended Jan. 27, show that the nation's leading producer of upholstered furniture continues to outpace the industry's overall sales performance.

For the quarter, La-Z-Boy net sales reached $146.1 million, up 8 percent from prior-year third-quarter sales of $134.8 million. Net income in the quarter reached $6.1 million, or $.34 per share. This was 14 percent above the company's earnings of $5.4 million or $.30 per share in the fiscal 1989 third quarter.

For the first nine months of fiscal 1990, net sales increased to $423.0 million, which is 7 percent above the $394.0 million recorded for the first nine months of fiscal 1989. Net income was $17.2 million, or $.96 per share, slightly above earnings of $17.0 million, or $.95 per share, in the first nine months of fiscal 1989. Dividends per share increased 18 percent.

As reported earlier, higher production and material costs accompanied by an industrywide softening of demand led to a decline in first-quarter earnings. However, earnings improved quickly, rising 7 percent in the second quarter, and 14 percent in the third quarter on a comparable quarter basis. Knabusch said, "Even without an upturn in furniture industry sales overall, we expect our third- and fourth- quarter results, combined, to equal or possibly exceed last year's excellent second half."

Market observers forecast that furniture industry sales will increase 4 to 6 percent in calendar 1990. Knabusch said, "This augurs well for La-Z-Boy as we work to keep increasing our sales at a rate higher than the industrywide average, and as we continue to improve our earnings ratios."

La-Z-Boy Chair Company is the country's largest producer of upholstered furniture, and operates 19 manufacturing facilities in the United States and Canada through seven separate divisions. These divisions include: La-Z-Boy Residential, La-Z-Boy Contract, Burris, RoseJohnson, Kincaid, Hammary and La-Z-Boy Canada.

WOBURN, MA (FEB. 21) PR NEWSWIRE - Thermedics Inc. (AMEX: TMD) today reported revenues of $23,484,000 for the year ended Dec. 30, 1989, compared with $25,360,000 for 1988. Net income was $2,072,000, compared with $1,620,000 last year.

"We started production of our EGIS(r) explosives detectors during the fourth quarter and shipped the first units to our distributors overseas," said John W. Wood Jr., president of Thermedics. "We were also extremely pleased with the performance of EGIS in recent extensive testing in five foreign countries and have received the first orders as a result of these successful field trials."

Thermedics develops, manufactures, and markets biomaterials, biomedical products, analytical instruments, and explosives- and drug-detection devices, and provides analytical laboratory services. Thermedics is a public subsidiary of Thermo Electron Corporation (NYSE: TMO).

WHIPPANY, NJ (FEB. 21) PR NEWSWIRE - Isomedix Inc. (NASDAQ: ISMX), the nation's leader in contract sterilization services, announced today the opening of a new facility in El Paso, Texas. This is the company's second facility to offer both gamma radiation and ethylene oxide for the sterilization of disposable medical products and consumer items.

Isomedix is expanding into ethylene oxide (EtO) sterilization -- a form of gas sterilization -- since many medical products now on the market, including custom tray and procedure kits, and certain drugs, cannot be gamma sterilized. In addition, recent federal legislation is encouraging companies to shift their EtO sterilization needs from in-house facilities

to contract sterilization. The current market for contract EtO sterilization is estimated to be $100 million.

Isomedix operates a network of nine contract sterilization facilities in seven states and Canada. Isomedix Inc. also provides validation services through its Skyland Scientific Services subsidiary located in Montana.

CONTACT: John Masefield, chairman of Isomedix, 201-887-4700; or Susan A. Noonan or Anthony J. Russo of Noonan/Russo Communications, 212-979-9180, for Isomedix

SANTA MONICA, CA (FEB. 21) PR NEWSWIRE - Telos Corp. (NASDAQ: TLOS) announced the completion today of the acquisition of Telos by Contel Federal Systems Inc., a subsidiary of Contel Corp. (NYSE: CTC). The acquisition was accomplished by a merger of a wholly owned subsidiary of Contel Federal Systems into Telos.

In a special meeting held yesterday, holders of in excess of a majority of the outstanding shares of Telos voted in favor of the agreement and plan of merger. Under the terms of the agreement, Telos shareholders will be entitled to receive $15.50 per share, in cash. All options to acquire Telos stock from the company are cancelled and will be paid the difference between $15.50 cash and the option exercise price. Trust Company Bank of Atlanta, Ga., will be acting as the exchange agent and will be sending out letters of transmittal to all shareholders explaining the procedures for receiving their portion of the merger proceeds.

As a result of the merger, which was approved by shareholders on Feb. 20, 1990, Telos will be operated as a wholly owned subsidiary of Contel Federal Systems Inc. Telos is a nationwide technology services firm that provides software and hardware services to the public and private sectors. The company relies on 1,800 employees to serve clients in aerospace, defense, electronics, communications and other computer intensive industries, principally agencies of the U.S. government.

Contel Federal Systems Inc., headquartered in Chantilly, Va., and a wholly owned subsidiary of Contel Corp., provides life cycle management of integrated telecommunications and information networks and systems to government agencies. Contel Corp., a Forbes 500 company with three billion dollars in revenues, provides a broad range of telecommunications products and services.

CINCINNATI (FEB. 21) PR NEWSWIRE - Zonic Corporation (NASDAQ: ZNIC) maintained its forward momentum as earnings increased 78 percent and sales increased 46 percent for its fiscal third quarter ended Dec. 31, 1989.

Gerald J. Zobrist, president and chief executive officer, said that orders were up substantially, backlog was strong, and the company's outlook for the future was excellent.

He noted that Zonic has now had nine consecutive quarters of profit and said the company expected to maintain its current growth rate for the foreseeable future.

For the 1990 fiscal third quarter, Zonic had net earnings of $78,000 or 3 cents per share, compared with restated earnings of $44,000 or 1 cents per share for the year ago period.

Sales for the 1990 fiscal third quarter were $1,615,000 compared with $1,105,000 in the 1989 fiscal period.

New orders for the 1990 fiscal third quarter were $1,187,000, almost double last year's fiscal third quarter figure of $617,000.

Backlog at the end of the 1990 third quarter was $2,782,000 compared with $2,710,000 at the end of last year's fiscal third quarter.

For the fiscal 1990 first nine months ended Dec. 31, 1989, earnings were $203,000 or 7 cents per share compared to a restated $105,000 or 4 cents per share in the year ago period.

Sales for the 1990 fiscal nine month period were $4,196,000 compared with $2,882,000 in the previous fiscal year nine month period.

Zonic Corporation manufactures, markets and services data acquisition and computer graphic systems which are used in industrial applications utilizing computer-aided engineering, computerized machinery monitoring and maintenance systems. The company headquarters in the greater Cincinnati metropolitan area and has sales and service facilities in North America, Western Europe and the Pacific Rim.

TROY, NC (FEB. 21) PR NEWSWIRE - First Bancorp (NASDAQ: FBNC) announced today that consolidated net income for the year ended December 31, 1989 was $1,909,623, or $1.40 per share, compared to $1,901,193, or $1.39 per share, for 1988. Earnings per share have been restated to reflect a 10 percent stock dividend paid January 26, 1990 to shareholders of record January 1, 1990.

Net interest income increased 14 percent to $9,118,397 in 1989 from $7,985,384 in 1988. In addition, non-interest expenses for 1989 increased 12 percent compared to 1988, primarily as a result of the increased costs associated with the enhancement and growth of loan operations.

Mr. John Wallace, President, attributed the level earnings for 1989 to the combination of (1) additional provisions for possible loan losses based on management's evaluation of the loan portfolio, current economic conditions and other risk factors and (2) increased personnel costs associated with anticipated growth of operations.

First Bancorp is a bank holding company based in Troy, North Carolina. Its principal activity is the ownership and operation of First Bank, a state chartered bank that operates twenty-five branch offices in an eight-county market area centered in Troy.

FARMINGTON HILLS, MI (FEB. 21) PR NEWSWIRE - Douglas & Lomason Company (NASDAQ-NMS: DOUG) reported 1989 sales continued at near record levels for both the fourth quarter ($107.2 million vs. $86.3 million in 1988, a 24.2-percent increase) and the year ($424.9 million vs. $325.5 million in 1988, a 30.5-percent increase).

The fourth-quarter 1989 loss was $1.4 million, or $.70 per share, compared to $5.3 million or $2.62 per share in 1988. A loss of $3.4 million, or $1.68 per share, was recorded for 1989 as compared with $4.0 million, or $1.96 per share in 1988. The fourth-quarter loss in 1989 is directly related to substantially lower December sales attributable to customer shutdowns. Sales in December 1989 were 26 percent below the average automotive sales for the first 11 months of 1989. The continued start-up costs at Havre de Grace, Md., and La Grange, Ga., in 1989 reduced net earnings by $.05 per share for the fourth quarter and $2.81 per share for the year of 1989 compared to $1.09 per share and $2.79, respectively, for the fourth quarter and year of 1988. Interest costs in 1989 contributed to the net loss by $2.46 per share compared to $1.04 per share in 1988.

First-quarter 1990 sales continue to be affected by customer shutdowns and are expected to be below the levels in the first quarter 1989.

SAN DIEGO (FEB. 21) PR NEWSWIRE - IRT Corp. (AMEX: IX) today announced that Motorola Inc. (NYSE: MOT) has ordered two IRT CXI x-ray systems, which combine high-quality real-time x-ray imaging with computerized analysis for process monitoring and control in electronics manufacturing.

The systems were ordered by two Motorola divisions -- the Portable Products Division in Fort Lauderdale, Fla., and the Government Electronics Division in Scottsdale, Ariz. -- for a combined total approaching $750,000.

"The selection of IRT x-ray systems by Motorola, a recognized leader in high-quality electronics manufacturing, is a significant milestone for us " said John W. Battin, IRT president and chief operating officer. "We're pleased to take this step in supporting Motorola's well-known drive for total customer satisfaction."

Matthew J. Tummillo, Motorola account executive at IRT, said, "Motorola's orders underscore the benefits of real-time x-ray technology in advanced manufacturing, and they attest to IRT's leadership position in applying x-ray in the electronics industry."

IRT's CXI systems are used in high-volume electronics production environments for in-line process monitoring, and in quality and product development laboratories for off-line research, development, and inspection applications. The CXI product line includes the CXI-1100,

which provides high-quality imaging and analysis of electronic components or assemblies at a low price; the CXI-4100, which offers flexible, five-axis manipulation of electronic assemblies for off-line process engineering and quality- control analysis; and the CXI-5400, for the demanding requirements of high-volume production process monitoring and inspection in printed-wiring assembly facilities.

IRT Corp. is a major supplier of industrial real-time x-ray systems, with more than 500 systems installed, and is the technology leader in automated x-ray inspection systems with computerized defect recognition capability. The company develops and manufactures inspection and process monitoring systems, including integrated systems for electronics, automotive, aerospace, and defense applications. IRT also operates a commercial radiation processing facility, which provides high- energy electron-beam processing for a number of commercial applications. Company headquarters are in San Diego.

#90052p0077 02/21/1990 ~PR Newswire

BOSTON (FEB. 21) PR NEWSWIRE - The Boston Five Bancorp, Inc. (NASDAQ: BFCS), holding company for The Boston Five Cents Savings Bank FSB, reported earnings of $993,000, or 14 cents per share (fully diluted), in

the quarter ended Jan. 31, 1990. This compares with earnings of $2.5 million, or 35 cents per share, in the quarter ended Jan. 31, 1989.

Peter J. Blampied, president and chief executive officer, said, "The Boston Five's earnings in the first quarter of fiscal 1990 were reduced, largely due to non-performing assets related to condominium construction projects. Events of recent months have continued to weaken that segment of the real estate market."

"Efforts to work out non-performers remain our first priority," Blampied continued. "However, in this real estate and economic environment, progress is likely to continue to be slow at best."

"Two encouraging aspects of our first quarter results were mortgage production and operating expenses," Blampied noted. "The 31 percent first quarter increase in residential mortgage production reflects the strength of our correspondent and loan center networks, while our efforts to control operating costs kept their level slightly below that of last year's first quarter."

Residential mortgage production for the three months ended Jan. 31, 1990, was $285.6 million, compared with $217.5 million in the first quarter of 1989. Total loan production for the quarter was $326.9 million, compared with $259.2 million for first quarter 1989.

In the first of 1990, The Boston Five had net interest income of $11.7 million, compared with $14.5 million a year earlier.

The provision for loan losses in the first quarter was $698,000, net charge-offs were $1.9 million, resulting in a reserve at Jan. 31, 1990, of $33.2 million. The loan loss provision in the first quarter of 1989 was $1.9 million. There was a provision for securities losses of $133,000 in the first quarter of 1990 and of $250,000 in the first quarter a year ago.

Non-interest income for the first quarter of 1990 totalled $3.5 million, compared with $4.1 million a year ago. Real estate operations generated a net loss of $978,000 in the first quarter of 1990, compared with a net loss of $2.6 million in the comparable period of 1989. These losses are due mostly to the persisting weakness of the New England condominium market. The bank realized an $84,000 net gain on securities in 1990, compared with a $4.4 million net gain in 1989. In the first quarter of 1990 the bank realized a $1.2 million net gain on sales of loans, compared with a net loss of $1.3 million in the comparable period of 1989. The bank sold no servicing in either period.

Operating expenses for the quarter ended Jan. 31, 1990, were $13.1 million flat with those of the first quarter of 1989.

The Boston Five Bancorp, Inc. is the holding company of The Boston Five Cents Savings Bank FSB. With total assets of almost $2.3 billion, The Boston Five is one of the largest savings banks headquartered in Massachusetts. Deposits of the Boston Five are insured by the Bank Insurance Fund (BIF) of the Federal Deposit Insurance Corporation (FDIC).

GAITHERSBURG, MD. (FEB. 21) PR NEWSWIRE - Optelecom, Inc. was selected by the Missile Systems Division of Rockwell International Corporation (NYSE:

ROK) as its "Subcontractor of the Year" among their small business suppliers and subcontractors.

The award is a result of work performed by Optelecom in developing an optical fiber communication link for the GBU-15 missile manufactured by Rockwell. The optical fiber link connects the GBU-15 air launched missile with its launching aircraft by an optical fiber that is payed out simultaneously from two fiber spools, one mounted on the missile and one mounted on the aircraft. The bi-directional link transmits TV imagery from a TV camera on the missile to a control display on the aircraft and simultaneously transmits command signals from the aircraft to the missile.

Rockwell's selection of Optelecom as "Subcontractor of the Year" makes Optelecom a candidate for the Small Business Administration's National Subcontractor of the Year Award.

CASS CITY, MI (FEB. 21) PR NEWSWIRE - Walbro Corporation (NASDAQ: WALB), a manufacturer of fuel system products for automotive and small-engine applications, has announced plans to establish a European Automotive Headquarters and Technical Center in Compiegne, Oise, France, in 1990.

The announcement was made by Louis E. Horner, corporate vice president, Automotive Division, Walbro Corporation.

"The establishment of this new facility in France demonstrates the growing importance of Europe in Walbro's automotive future," according to Horner.

"In 1990, we will be shipping fuel-system products to six European automakers. The new facility will allow us to better serve those customers and to allow continued growth in this important market," he said.

"Initially, the Compiegne operations will include a new European headquarters and technical facility. However, we intend to establish manufacturing operations there in the future," Horner noted.

"We are pleased to be establishing operations in Compiegne. This historical city offers a pleasant environment along with the resources of a renowned technical university. Equally important, Compiegne's location one hour north of Paris provides excellent communications and good connections to the rest of Europe, allowing us to better serve our customers throughout the European community," Horner added.

Currently, Walbro's European automotive and small-engine operations are based at Walbro's West German subsidiary, Walbro GmbH, in Nurtingen, West Germany, near Stuttgart. Walbro's European automotive activities will move to France next year, after the Compiegne facility is completed. The company's small-engine activities in Europe will continue to be based at Walbro GmbH in Nurtingen.

Walbro Corporation is headquartered in Cass City. In addition to the United States and West Germany, the company has facilities in Japan, Singapore and Mexico. Walbro common stock is traded on the NASDAQ National Market System under the symbol WALB.

CINCINNATI (FEB. 21) PR NEWSWIRE - Meridian Diagnostics, Inc. (NASDAQ/NMS: KITS), Cincinnati, Ohio, reported that all five current directors were re-elected at its annual shareholders' meeting held in Cincinnati Tuesday, namely William J. Motto, Jerry L. Ruyan, Frank Seurkamp, Robert J. Ready and Bart A. Brown Jr.

Meridian also reported that it is studying various ways to maximize shareholder value. The company has engaged J. Jeffrey Brausch & Company to assist it in this endeavor. Possible corporate actions that are being examined include a merger, sales of all or parts of the company, or acquisitions of additional product lines or related businesses.

Meridian Diagnostics, Inc. develops, manufactures and markets a variety of immunodiagnostic test kits, reagents and related products for use in

physicians' offices and in hospital, commercial and research laboratories. The company pioneered one of the most successful rapid strep tests on the market, is a leader in parasite and bacterial collection, preservation and transportation systems, and has a leading market position in fungal serology testing in clinical laboratories. The company's shares are traded through NASDAQ/NMS (Symbol: KITS).

ALAMEDA, CA (FEB. 21) PR NEWSWIRE - Aquanautics Corporation (NASDAQ: AQNT) today announced it has received notice of selection for funding of its proposal entitled "Introducing Liquid Oxygen-Carriers Directly into Fuel Cells."

The program is expected to be funded for a total of $250,000 over the next two years, under the Federal "Small Business Innovative Research" program administered by the Defense Advanced Research Projects Agency (DARPA). The research, directed by John Kerr, one of Aquanautics' senior scientists will investigate possible use of Aquanautics' patented oxygen-carrying compounds to increase the efficiency of fuel cells that use oxygen in generating electricity.

Aquanautics Corporation is a development stage separations and specialty chemical company producing new oxygen control technologies. Aquanautics' proprietary synthetic oxygen-binding molecules can be structured into a variety of systems for extracting, concentrating and/or eliminating oxygen. The company is currently developing applications for food, medical, industrial and defense markets.

HAMILTON, MT (FEB. 21) PR NEWSWIRE - Ribi ImmunoChem Research Inc. (NASDAQ: RIBI) announced today that the U.S. Patent and Trademark Office has awarded it a patent containing broad claims covering the company's cancer theraccine (therapeutic vaccine) concept.

The patent, No. 4,877,611, covers the composition, processes of preparation and methods of use of vaccines containing tumor antigens and adjuvants. John L. Cantrell, Ph.D., executive vice president, director of Cancer Immunology and a co-founder of the company, is the inventor. The company now has 19 United States patents issued or allowed.

"This patent provides fundamental proprietary protection for our MELACINE(TM) melanoma theraccine," said Robert E. Ivy, chief executive officer, president and chairman. "Moreover, it becomes a keystone in our patent portfolio covering the broader theraccine concept.

"This concept, known also as active specific immunotherapy, has been studied in theory for some 30 years, but only recently have we overcome some obstacles preventing practical application of theraccines," Ivy said. "Leading the progress has been the development by Ribi ImmunoChem of safe and effective adjuvants to enhance the specific immunostimulatory activity of tumor-associated antigens. Showing tumor-associated antigen to the immune system is like letting a bloodhound sniff a sock so the hostile element can be tracked. Our products enhance the tracking ability of the immune system."

MELACINE melanoma theraccine, which was recently designated an orphan drug by the U.S. Food and Drug Administration (FDA), is now in Phase II human clinical testing at six sites. Ribi ImmunoChem is preparing to meet with the FDA to discuss a plan to conduct controlled clinical testing of MELACINE, which is required to seek marketing approval from the FDA.

Additionally, the company's immunostimulant products are being tested clinically in theraccines for colorectal cancer and renal-cell (kidney) cancer and are being considered for experimental use in theraccines for breast, lung and ovarian cancers.

"MELACINE melanoma theraccine to date has produced very exciting results," said Ivy. "The broad application of the theraccine concept in these other areas of cancer treatment puts us on the cutting edge of developing a new class of pharmaceutical products with the potential to provide the efficacy of chemotherapeutics but without the side effects."

Ribi ImmunoChem Research Inc., a biopharmaceutical company founded in 1981 is a leader in the development of immunostimulants for use in preventing and treating human and animal diseases.

BRENTWOOD, TN (FEB. 21) PR NEWSWIRE - United Cities Gas Co. (NASDAQ: UCIT), the Nashville area-based natural and propane gas distributor, today reported financial results for 1989.

Revenues for the 12 months ended December 31, 1989, totaled $195,612,000 with common stock earnings of $10,008,000 or $1.52 per common share. This compares to revenues of $186,190,000 and common stock earnings of $6,946,000, or $1.24 per common share, for the comparable period in 1988.

UCG Energy Corporation, one of United Cities' subsidiaries, contributed $2,790,000 to the 1989 net income, representing 28 percent of the company's consolidated earnings for the year.

Koonce pointed out that the company's multi-state service area is a major advantage for shareholders and that 1989 results were evidence of the success of the company's growth during the 1980's.

United Cities Gas Company distributes natural and propane gas to approximately 290,000 customers in eleven states. The company is also engaged in other energy related businesses.

OTTAWA, CANADA (FEB. 21) PR NEWSWIRE - Martin Marietta Canada Ltd. has been awarded a $10.7 million contract for additional engineering and technical assistance to the Canadian Automated Air Traffic Control System.

Martin Marietta Canada Ltd. is teamed with Thompson-Hickling Aviation Inc. and Protocols Standards Communication Inc. to provide software verification, system design assessment, and technical review of the automated air traffic system. The project is a major component of Transport Canada's $5 billion, 15-year Canadian Aerospace Systems Plan.

The six-year contract was awarded by Supply and Services Canada on behalf of Transport Canada, the agency responsible for regulation of the Canadian air traffic system.

Since 1988, Martin Marietta Canada Ltd. has been the systems engineering and integration project contractor, providing overall technical and management support to Transport Canada in implementing a new, highly automated air traffic control and communications system.

Martin Marietta Canada Ltd. is teamed with five other Canadian companies in supporting this comprehensive plan, including Canadian Marconi Company, I.M.P. Group Limited, Lavalin, MacDonald Dettwiler and Associates Ltd., and Thompson-Hickling Aviation Inc.

#90052p0103 02/21/1990 ~PR Newswire
ANNAPOLIS, MD (FEB. 21) PR NEWSWIRE - UNC Incorporated (NYSE: UNC) said today sales for 1989 were 18 percent higher than 1988, but that net earnings for the year were at a breakeven due to previously announced writedowns taken in the fourth quarter.

The 18 percent increase in annual revenues resulted primarily from new contracts awarded to businesses in the company's technology segment and

the acquisition of the TSS Group in its aerospace/aviation segment. The writedowns were associated with a consolidation in the company's Aerospace Group and start-up expenses in its Technology Group.

Sales for calendar year 1989 were $471 million compared with 1988 sales of $400 million. Operating income for the year, after a $1.9 million pretax charge connected with the startup of its Florida subsidiary UNC Reclamation, was $24.3 million. Without this charge, operating income would have been $26.2 million in 1989, up 6 percent when compared with $24.8 million in 1988.

After a $4.4 million pretax writedown associated with the consolidation of its Norwich operation, earnings from continuing operations for the full year 1989 were $11 thousand, or $.00 per share, as compared to $7.7 million, or $.46 per share, in 1988. Net earnings in 1989 were $11 thousand, or $.00 per share, vs. $23.9 million, or $1.42 per share, in 1988. The 1988 net earnings figure included $12.2 million, or $.73 per share, from discontinued operations and $3.9 million, or $.23 per share, from extraordinary items.

Sales for the fourth quarter of 1989 were $120 million, a 17 percent increase over 1988 fourth quarter sales of $103 million. Operating income in the quarter, after the $1.9 million pretax charge, was $4 million. Without this charge, operating income for the quarter would have been $5.9 million compared with $6.8 million in the 1988 fourth quarter.

After the $4.4 million pretax writedown, the company reported a loss from continuing operations of $5.5 million, or $.33 per share, in the fourth quarter of 1989 compared with earnings from continuing operations of $1.4 million, or $.08 per share, in the same period of 1988. For the quarter, the company reported a net loss of $5.5 million, or $.33 per share, compared with net earnings of $10.3 million, or $.61 per share, in the 1988 quarter. The 1988 net earnings figure included $8.9 million, or $.53 per share, of earnings from discontinued operations.

The fourth quarter sales increase, like the increase in annual sales, was primarily due to higher sales in the company's technology segment and additional sales provided by the second quarter acquisition in the aerospace/aviation segment.

UNC Incorporated, listed on the New York Stock Exchange, is engaged in providing high technology products and services in the aerospace/aviation, defense and environmental industries.

HOUSTON (FEB. 20) PR NEWSWIRE - Global Marine Inc. (NYSE: GLM) announced today that it has entered into an agreement in principle relating to the settlement of surety bond litigation between the company and two insurance companies. Under the agreement, Global Marine will receive consideration valued at approximately 30 million U.S. dollars. Of this amount, 6 million U.S. dollars will be paid to the company in cash and the remainder will consist of 4.4 million shares of Global Marine Inc. common stock and 1.7 million Global Marine Drilling Company Series B note units that had been reserved under the company's plan of reorganization for issuance to the insurance companies. Based upon current values for the stock and B note units, the settlement will result in a recovery by Global Marine of substantially all of its contract claim in the litigation. The company noted that the settlement was subject to, among other things, definitive documentation and under certain circumstances to court approval.

In an unrelated matter, Global Marine announced today that it is in receipt of a 13D Securities Exchange Act filing by Norsk Vikingolje A/S confirming that they have accumulated 4,987,200 shares of Global Marine Inc. common stock or 5.28 percent of the outstanding shares.

Global Marine is a major international offshore drilling contractor with interests in oil and gas development and production.

WARRINGTON, PA (FEB. 21) PR NEWSWIRE - American Travellers Corp. (NASDAQ: ATVC) today announced its financial results for the fourth quarter of 1989.

During the quarter, revenues increased 105.1 percent to $15.26 million from $7.44 million in the fourth quarter of 1988. For the 12 months ending Dec. 31, 1989, revenues increased 68.9 percent to $47.95 million from $28.39 million for the 12 months ended Dec. 31, 1988. Net income during the company's 1989 fourth quarter increased 150 percent to $1,985,000 from $794,000 in the corresponding 1988 period. For the 12 months ended Dec. 31 1989, net income increased 180.2 percent to $6.36 million from $3.53 million during the 12 months ended Dec. 31, 1988.

The company's earnings per share is $.53 for the fourth quarter of 1989 and $.23 during the fourth quarter of 1988. For the 12 months ending Dec. 31, 1989 and 1988, earnings per share increased 75 percent to $1.75 from $1.00, respectively.

According to American Travellers' Chairman John A. Powell, the company's continued growth and strong earnings during 1989 is a result of the company's continuing expansion efforts in newly licensed states; its increasing market penetration and its continuing strategy to invest its excess cash in only investments that are rated "A" or better. In 1989, the company was licensed in four additional states bringing the total number of licensed jurisdictions to 37.

CHARLOTTE, NC (FEB. 21) PR NEWSWIRE - Emery Worldwide, one of the world's

leading air freight carriers, has expanded its cargo operations in North Carolina by upgrading two of its facilities - Fayetteville and Wilson - into full-service terminals linked to the company's global computer network.

According to Lewis H. Bowers, southeastern area vice president, the two cargo facilities were upgraded to improve air freight service. The new terminals, previously substations used to transfer cargo to Emery Worldwide's Raleigh terminal, will now be able to process their own freight and handle their own customer accounts.

The Fayetteville terminal services Cumberland, Hoke, Harnett, Sampson, Bladen and Robeson counties. The service territory for the Wilson facility extends from the Wilson-Rocky Mount area as far north as Roanoke Rapids and as far south as Goldsboro, and stretches eastward to the Atlantic Coast from Morehead City north to Edenton.

Both Fayetteville and Wilson are now linked to EMCON, the carrier's computerized freight tracking and tracing network. With EMCON, the local terminals can arrange direct pick-ups, answer questions about shipment status and provide rate and delivery commitments at the touch of a button.

With the expansion, William Timms was named Fayetteville terminal manager and Richard Rhame was appointed manager of the Wilson terminal.

Both terminals transport their outbound shipments to Raleigh-Durham International Airport, where they are loaded aboard Emery Worldwide's DC-8 aircraft. The 90,000 pound capacity plane flies directly into the company's international hub in Dayton, Ohio, where cargo is sorted for delivery anywhere in the United States and around the world.

With one of the world's largest freighter fleets, Emery Worldwide delivers any size or weight shipment - including envelopes, parcels and heavy freight - to any business address in the world. The carrier provides Same Day, Next Day A.M. and P.M., and Second Day delivery in the United States and Canada, and door-to-door and airport-to-airport service overseas.

Emery Worldwide, based in Palo Alto, Calif., is a subsidiary of Consolidated Freightways, Inc.(NYSE: CNF), a $4 billion diversified transportation company with businesses in long-haul and regional trucking, air freight, ocean container freight and intermodal rail service.

#90052p0137 02/21/1990 ~PR Newswire

MALVERN, PA (FEB. 21) PR NEWSWIRE - Aloette Cosmetics Inc. (NASDAQ: ALET) announced an earnings increase of 38 percent to a record $3.7 million or $1.27 per share, on revenues of $19.6 million for the year ended Dec. 31, 1989.

This compares with earnings of $2.7 million, or $.92 per share, on 1988 revenues of $17.7 million.

For the fourth quarter ended Dec. 31, 1989, Aloette reported earnings of $1.2 million, or $.40 per share, on total revenues of $5.3 million. This represents a 25 percent increase over fourth quarter 1988 earnings of $934,000, or $.32 per share, on revenues of $4.7 million.

President and Chief Operating Officer John E. Defibaugh stated, "We are very pleased with our performance this year. Our operating results continue to show strong growth in both revenues and earnings. We attribute the revenue gains to several factors, including higher franchise sales and increased productivity resulting from the company's expansion of its franchise support programs. Our franchises continued to attain record worldwide retail sales in 1989 reaching $64.4 million compared to $58.8 million in 1988.

"Our continued focus for 1990 is top-line revenue growth and the expansion of our core business. Since the implementation of the franchise incentive program introduced in late August, the company has sold eight franchises which opened in late 1989. The addition of these franchises is expected to contribute significantly to revenue growth in the latter part of 1990."

The company recently announced the acquisitions of Superior Products Inc. and the manufacturing assets of The Makeup Lab Inc., which will enable Aloette to produce its skin care and glamour product lines, respectively. Defibaugh also stated, "We are looking forward to enhancing our profitability by vertical expansion into manufacturing through our recent acquisitions. As we embark upon this new venture, we believe Aloette is even better positioned to achieve greater success in the 1990s."

Aloette Cosmetics, a franchisor and direct marketer of skin care products and cosmetics, is headquartered in Malvern. As of Dec. 31, the company's products were being sold by more than 100 franchises worldwide.

PHILADELPHIA, PA. (FEB. 21) PR NEWSWIRE - Consolidated Rail Corp. (NYSE: CRR) has honored 10 shippers of hazardous materials with its second annual Chairman's Transportation Quality Awards.

The awards recognize companies that shipped at least 1,000 carloads of hazardous materials via Conrail in 1989, without a shipper-caused incident.

Companies receiving the Chairman's Transportation Quality Award for 1989 were:

-- Amoco Corp., Chicago, for its Amoco Chemical Co. and Amoco Oil Co. subsidiaries.

-- Aristech Chemical Corp., Pittsburgh.
-- The BFGoodrich Co., Akron, Ohio.
-- Dow Chemical USA, Midland, Mich.
-- Exxon Chemical Americas, Houston.
-- Georgia Gulf Corp., Atlanta.
-- Hoechst Celanese Chemical Group, Dallas.
-- Ohio Oil Gathering Corp., Frazeysburg, Ohio.
-- PPG Industries, Inc., Pittsburgh.
-- Shell Oil Co., Houston.

Companies receiving the Chairman's Transportation Quality Award for the second time in two years were Amoco Corp., Aristech Chemical Corp., The BFGoodrich Co., Georgia Gulf Corp. and Hoechst Celanese Chemical Group.

"Conrail recognizes the important role shippers play in the safe transportation of hazardous materials, and through this award we commend the commitment to safety exhibited by these 10 companies," said James A. Hagen, Conrail's chairman, president and chief executive officer. "Since

the overwhelming majority of rail cars used in the transportation of hazardous materials is supplied by the shippers, the careful attention to detail displayed in the maintenance of equipment, loading and preparation for movement contributes to Conrail's extraordinary safety record. For that reason, Conrail is proud to commend the efforts of these companies."

Conrail operates a rail freight transportation network in 14 Northeastern and Midwestern states, the District of Columbia, and the Province of Quebec.

MILWAUKEE (FEB. 21) PR NEWSWIRE - Harnischfeger Industries, Inc. (NYSE: HPH) today reported strong first-quarter results for the period ended Jan. 31, including significant increases in sales and income from operations over the first quarter of 1989 and a record backlog.

Sales rose 32 percent over the first quarter of 1989, to $419 million. Income from operations jumped 61 percent, to $14.5 million (45 cents per share), compared to $9.1 million (28 cents per share) for the same period in 1989.

Net income climbed 42 percent, to $17.6 million (54 cents per share), up from $12.4 million (38 cents per share) in last year's first quarter.

First-quarter bookings also were strong, rising to $470.2 million. Backlog at the end of the first quarter stood at $1.9 billion -- the diversified holding company's largest backlog ever.

"Our first-quarter results were highlighted by continuing strength in our

papermaking machinery and mining equipment business segments," said William W. Goessel, chairman and chief executive officer of Harnischfeger Industries.

"Surface mining equipment sales climbed 24 percent over the same period last year, to $71.7 million -- a record for a single quarter. Bookings rose 48 percent over the same period last year, to $93.4 million, and backlog stands at a record $192.7 million," he noted.

"In our papermaking machinery segment, sales rose 42 percent over the first quarter of 1989, to $266 million - another record for a single quarter. With bookings of $261.2 million, backlog at the end of the first quarter remained strong at close to $1 billion."

"As we anticipated, Harnischfeger Industries is on track for another record year," Goessel said.

Harnischfeger Industries is a holding company for four subsidiaries involved in paper-making equipment manufacturing (Beloit Corporation), surface mining and material handling equipment manufacturing (Harnischfeger Corporation), and automated integration services (Harnischfeger Engineers, Inc. and Syscon Corporation).

PHOENIX, AZ (FEB. 21) PR NEWSWIRE - StatesWest Airlines Inc. (NASDAQ: SWAL) today reported its first quarter revenue of $1,644,998 up 23.7 percent compared to 1989 first quarter revenue of $1,329,597, along with a first quarter net loss of $737,287, as compared to last year's net loss of $684,534, and a first period net loss of $.03 per share versus a corresponding quarter loss of $.04 per share.

W. James Lane, president and chief operating officer said, "Fuel cost increased by $198,426 (94.5 percent) for the first quarter of this fiscal year versus the first quarter of the prior fiscal year." Lane added, "A second major cost was incurred in the first quarter associated with damage sustained to an aircraft from a bird strike. The Company lost an estimated 1,000 pre-booked passengers over a period of 10 days, including the busy Thanksgiving weekend. After insurance recoveries and lost passenger revenue, the Company estimated the financial negative impact to be approximately $120,000 for the quarter."

StatesWest is one of the largest regional air carriers in the country not owned or totally affiliated with a major carrier. The company owns 7.34

percent of Mesa Airlines Inc. (NASDAQ: MESA), a regional airline carrier headquartered in New Mexico. The company operates one of the newest fleets of regional prop- jet aircraft in the United States. Present destinations include the Southern California locations of Burbank, Los Angeles, Orange County and San Diego, along with the Arizona cities of Phoenix, Tucson, Lake Havasu City, Sierra Vista/Ft. Huachuca, and Laughlin, Nev./Bullhead City, Ariz., and Telluride, Colo. StatesWest operates 63 daily departures between these locations.

The following is a summary of the first quarter results for 1990 and 1989.

#90052p0149 02/21/1990 ~PR Newswire

HARLEYSVILLE, PA (FEB. 21) PR NEWSWIRE - Harleysville Group Inc. (NASDAQ: HGIC), a regional insurance holding company, today reported record revenues and operating income for the fourth quarter and for the year 1989.

Net income for the fourth quarter increased 5 percent to $6.3 million. For the year, net income rose 13 percent to $22.7 million, compared with $20 million in 1988. On a per-share basis, net income was up 2 percent to $.85 in the fourth quarter, vs. $.83 in the same period of 1988. For the full year, net income totalled $3.08 per share, an 11 percent increase compared with the $2.77 per share earned in 1988. On an operating income basis, excluding realized investment gains, 1989 earnings rose 11 percent to $3.05 per share, compared with $2.76 per share for 1988.

"Our fourth quarter and year-to-date earnings were driven by increases in investment income resulting from the strong growth in our investable assets," commented Bradford W. Mitchell, chairman of the board and chief executive officer of Harleysville Group. "These record operating earnings were achieved despite a $.17 per share charge resulting from net losses due to Hurricane Hugo and a considerably higher effective tax rate in 1989."

Fourth quarter investment income rose 51 percent to $10.6 million, compared with $7.1 million in the fourth quarter of 1988. For 12 months, investment income increased 47 percent to $37.4 million in 1989 from $25.4 million in 1988. The growth in investment income is attributable to strong cash flow from operations and a higher income yield from investments. The higher yield is primarily due to a greater portion of the investment portfolio being invested in taxable securities.

Total revenues for the fourth quarter rose 27 percent to $84.4 million, compared with $66.6 million in 1988's fourth quarter. For the year, total

revenues climbed 24 percent to $319 million from $256.8 million in 1988.

Earned premiums in the fourth quarter increased 24 percent to $72.5 million, compared with $58.4 million during the same quarter one year ago. For the 12-month periods, earned premiums were up 22 percent to $278.3 million in 1989, from $227.3 million in 1988.

"I think it is important to point out in this highly competitive environment that our premium growth has not been achieved through price cutting," explained Mitchell. "Instead, premium growth was driven by two factors.

"First, we amended the intercompany pooling agreement between Harleysville Group and Harleysville Mutual Insurance Company to incorporate Worcester Insurance Company, a New England subsidiary, into the underwriting pool, effective Jan. 1, 1989," Mitchell continued. "By pooling all premiums, losses and expenses, our companies are afforded a geographic spread of risk that greatly softens the impact of a major loss, like Hurricane Hugo.

"Secondly, the termination of a four-year-old reinsurance agreement enabled Harleysville Group to retain additional written premiums of approximately $19 million of profitable commercial lines business," Mitchell added.

Stockholders' equity rose 16 percent to $160.3 million ($21.50 per share) at Dec. 31, 1989, compared with $138.3 million ($18.94 per share) at Dec. 31, 1988, while return on average stockholders' equity was 15.2 percent in 1989, compared with 15.5 percent in 1988.

Harleysville Group's statutory combined ratio for the fourth quarter of 1989 was 104.7 percent, compared with 102.1 percent for the same period in 1988. For the year, the combined ratio was 103.2 percent in 1989, compared with 101.7 percent in 1988. For the year, Hurricane Hugo increased the combined ratio by 0.7 points. The additional increase in the combined ratio was attributed to lower profitability in commercial lines.

"Our combined ratio, although higher than the same periods last year, was more than seven points better than the industry's estimated 110.4 percent ratio," said Mitchell. "The fact that we have outperformed the industry by such a wide margin underscores our ability to maintain superior performance by striving for adequate pricing and using more selective underwriting criteria in commercial lines.

"Looking ahead, we would expect a moderation in 1990 premium growth, given current market conditions. However, Harleysville Group will make every effort to outperform the industry again in terms of combined ratio and return on equity," Mitchell continued. "We believe our pricing discipline, coupled with our emphasis on superior customer service, will place us in

an excellent position when an upturn in the market occurs."

Harleysville Group Inc. is a regional holding company for four property and casualty insurers whose marketing territory encompasses the entire East Coast. The companies include: Atlantic Insurance Company of Savannah, Harleysville Insurance Company of New Jersey, Huron Insurance Co. and Worcester Insurance Co. Harleysville Group plans to make its 1989 Annual Report available March 21, 1990.

WILTON, CT (FEB. 21) PR NEWSWIRE - Preferred Health Care, Ltd. (AMEX: PY) today reported record operating revenues and earnings for the year ended Dec. 31, 1989. "Revenues for the year were up 71 percent over 1988, and our net income for 1989 showed more than a 33 percent gain over the previous year. With the addition of Federal Express Corporation, the Episcopal Church Clergy and Employees' Benefit Fund and Maricopa County, Ariz., as new clients, we anticipate continued growth in 1990," David J.

McDonnell, D.S.W, Preferred's president, said.

For the fourth quarter ended Dec. 31, 1989, operating revenues were $7,295,388, more than a 60 percent gain over the $4,534,568 registered for the same period last year. Net income was $925,199, or $.09 per share, against $785,136, or $.07 per share, for the fourth quarter of 1988. Per-share earnings have been restated to recognize a 10 percent stock dividend.

For the year ended Dec. 31, 1989, revenues were $24,986,019, in contrast to $14,593,707 in 1988. Net income was $3,857,394, or $.36 per share, as compared with $2,881,794, or $.27 per share, in 1988. Per- share earnings have been restated to recognize the 10 percent stock dividend.

"With the three new clients we have added so far this year, our PsychCare service now covers more than 1,000,000 employees and their families," McDonnell said. Also, our provider network is now national in scope and includes 50 primary metropolitan statistical areas in the United States. We are the first and only manager of mental health and substance abuse services to have a network of this range." he added.

Preferred Health Care is the nation's leader in managed mental health and substance abuse care.

RED BANK, NJ (FEB. 21) PR NEWSWIRE - Alejandro De Tomaso, chairman of the board of De Tomaso Industries, Inc. (NASDAQ: DTOM) announced today that the company's majority-owned Italian subsidiary, Officine Alfieri Maserati S.p.A. had organized a new subsidiary, Maserati S.r.L.

Pursuant to its recent agreement with Fiat, O.A. Maserati contributed certain of its assets to Maserati S.r.L., including the Maserati name. Fiat acquired a 49 percent interest in the new entity, and is required to pay to O.A. Maserati Lit. 132,670,000,000 ($104,769,499). Maserati S.r.L. also assumerd Maserati's obligations relating to deferred severance pay for retired employees amounting to approximately Lit. 29,000,000,000 ($23,165,200).

Separately, Fiat paid Lit. 15,300,000,000 ($12,082,444) to O.A. Maserati for a 51 percent interest in another O.A. Maserati subsidiary, Innocenti Milano S.p.A., which maintains the Innocenti dealer network and owns certain other intangible rights, including the Innocenti trademark.

Maserati S.r.L. will manufacture and distribute Maserati cars and will produce 30,000 "Panda" model cars for Fiat annually for three years beginning in 1990. Additionally, it, with Alfa Romeo, a Fiat subsidiary, will develop, engineer and produce two new limited production vehicles.

Howard E. Chase, vice president and general counsel to De Tomaso Industries stated "our entire management is very please with Maserati's new association with Fiat. The 'Panda' production agreement and the new car development agreement hold the promise of a bright future for Maserati."

HERZLIA, ISRAEL (FEB. 21) PR NEWSWIRE - Scitex Corporation Ltd. (NASDAQ: SCIXF) announced that is has entered into a definitive agreement to acquire Iris Graphics Inc. for $24 million in cash with an additional earnout amount linked to Iris's future performance. Closing of the transaction, which is subject to regulatory approvals, is expected to occur within 30 days.

Based in Bedford, Mass., Iris Graphics is a world leader in the manufacture and sales of high-quality digital color printers. Iris's line of continuous flow color ink jet devices are primarily used as peripherals for high resolution color electronic pre-press systems preparing pages for printing and publishing. As such, Iris printers are often used by Scitex customers to generate digital filmless proofs.

Further applications for Iris technology exist in graphic design, scientific data plotting, engineering, architectural design, textile and fabric design, aerial and seismic mapping, personal-identification, and manufacturing environments.

Iris employs over 90 people and will operate as a wholly owned subsidiary of Scitex, under its present management.

"Scitex has the highest regard for Iris's management under president and CEO Alphonse M. Lucchese. Its people and technology have created a position of leadership in the market, with excellent growth potential," says Arie Rosenfeld, Scitex president and CEO. "Digital color proofing is of strategic importance to Scitex and its customers and significant technology and distribution synergies will be obtained from the Iris acquisition."

Scitex Corporation Ltd. designs, develops, manufactures, markets and services interactive computer imaging systems used primarily in the printing and publishing industries. Scitex products are also used in the cartographic and textile industries, as well as for certain applications in the printed circuit board manufacturing and seismic exploration industries. Scitex operates marketing, sales and service divisions in North America, Europe and Japan.

DEERFIELD, IL (FEB. 21) PR NEWSWIRE - Baxter Healthcare Corp. and Mercy National Purchasing, Inc., announced today they have signed a five-year Corporate Program supply-and-service agreement, effective Jan. 1, 1990. Projected Baxter sales to the 102 hospitals in the Mercy system are expected to reach $700 million to $800 million over the period.

The agreement will make available the whole range of Baxter products, including medical and surgical supplies, intravenous fluids and diagnostic equipment. Baxter provides more than 120,000 products to health-care providers worldwide.

Baxter's Corporate Program offers unique value-added services and long-term savings on programs designed to help hospitals cut costs and improve the quality of patient care. Individual hospitals participating in the Corporate Program have reported significant annual savings through Baxter's value-added programs in inventory management and financial and strategic planning.

"The value-added services feature is one of the keys to this agreement," said Warren Rhodes, president of Mercy National Purchasing, Inc. "With Baxter's help in logistics and inventory management, as well as strategic consulting and other areas, we can better define and control our expenses and provide more cost-effective patient care." Rhodes noted that this is the first long-term supply agreement the Mercy group has ever signed.

"We're delighted to be working with Mercy National Purchasing, Inc., one of the very finest hospital systems in the country," said Terry Mulligan, corporate vice president, Corporate Sales and Marketing, for Baxter. "Through our high-quality products and programs, we expect to create significant mutual value for both Mercy and Baxter."

Mercy National Purchasing, Inc., is owned by Mercy Health Services, Farmington Hills, Mich.; Mercy Chicago-Province Healthcare System, Oakbrook Terrace, Ill.; Mercy Health System, Cincinnati, Ohio; Eastern Mercy Health System, Radnor, Pa.; and Sisters of Charity of Nazareth Health Corp., Louisville, Ky. The Mercy system consists of 102 hospitals nationwide with a total of 19,551 beds.

Baxter Healthcare Corp. is the principal U.S. operating subsidiary of Baxter International Inc. Baxter is the leading worldwide manufacturer and marketer of health-care products, systems and services. The company

had 1989 revenues of $7.4 billion.

NEW YORK (FEB. 21) PR NEWSWIRE - Chevron (NYSE: CHV) is a participant in four crude oil discoveries off the coast of Australia, the company announced today at a meeting of security analysts in New York.

Chevron, through a unit of its wholly owned subsidiary, Chevron Overseas Petroleum, Inc., holds interests in four separate discoveries and a new producing oil field, all within a 100-mile radius in the waters off northwestern Australia.

Two of the discovery wells, designated Cossack No. 1 and Wanaea No. 1, are located approximately 930 miles north of Perth, in the WA-28-P permit area operated by Woodside Offshore Petroleum Limited.

Cossack No. 1: The Cossack No. 1 discovery well, spudded on Nov. 16, 1989, tested at a rate of 7,200 barrels of 49-degree API gravity crude oil per day through a one-inch choke with flowing tubing pressure of 360 pounds per square inch through perforations between 9,482 and 9,515 feet in Jurassic Tithonian sandstone. The well, which is located about 85 miles offshore the northwest Australian coast about 50 miles north of Barrow Island and 4.6 miles northeast of a second discovery, Wanaea No. 1, was drilled to a total depth of 9,941 feet in 270 feet of water.

Testing was completed in late January following a brief hiatus when the drilling vessel, "Margie," was evacuated because of Cyclone Sam.

Wanaea No. 1: The Wanaea No. 1 discovery, located 4.6 miles to the southwest of Cossack No. 1, flowed at a stabilized rate of 5,480 barrels a day of 48.8-degrees API gravity crude oil and 3.65 million cubic feet of natural gas per day through a one-inch choke with 650 pounds per square inch tubing pressure through perforations between 9,521 and 9,548 feet in the Jurassic Tithonian sandstone during production testing in June, 1989.

Although Wanaea No. 1 and Cossack No. 1 are geographically close, they are believed to be on separate geologic structures. Further delineation drilling and testing of both structures is required before reserve estimates can be confirmed. Additional information on the Cossack/Wanaea structures will be obtained through two appraisal wells and additional seismic surveys which are being conducted in the area.

#90052p0179 02/21/1990 ~PR Newswire

SOMERVILLE, NJ (FEB. 21) PR NEWSWIRE - Stockholders at the annual meeting of Unimed, Inc. (NASDAQ: UMED) were told that management has the goal of breakeven performance in fiscal 1991 and expects to have significantly lower losses in the third and fourth quarters of the current fiscal year ending Sept. 30, 1990.

Harold J. Tenoso, Ph.D., president and chief executive officer, said that the goal of breakeven performance is based on continued growth of revenues

of both the pharmaceutical and chemical segments as well as progress in negotiations for strategic alliances, acquisitions and joint ventures.

He also reported highly encouraging results from Phase II human clinical studies of Spiro-32(R) (spirogermanium HC1), with approximately 75 percent of rheumatoid arthritis patients being treated with an optimal dose of the drug showing objective improvement in one or more of four parameters: number of swollen joints; number of painful joints; morning stiffness; and sedimentation rate. The patients had not responded to other disease modifying antirheumatic drugs.

"These studies have shown the unique advantages of Spiro-32 in comparison to other disease-modifying antirheumatic drugs, notably its low toxicity as well as speed and mechanism of activity," Tenoso said. "Unimed has recently initiated discussions with several potential partners in the U.S. Europe and Japan to accelerate development of Spiro-32."

The company currently markets two pharmaceuticals: Marinol(R) (dronabinol) a treatment for patients experiencing nausea or vomiting following cancer chemotherapy, and Serc(R) (betahistine HC1), for the treatment of recurrent vertigo. Both products are benefiting from expanded distribution, according to Tenoso.

Andos Chemical, AB, Sweden, in which Unimed holds a majority interest, produces chemical catalysts for the plastics industry and has generated rising revenues in recent months.

At the annual meeting stockholders elected Tenoso, Ralph T. Lilore and Roland Weiser to the board of directors for terms of three years.

Unimed is a pharmaceutical company specializing in the early acquisition, development and marketing of new cancer therapeutic compounds. With its unique "technology management" strategy, the company bridges the gap between university research centers and pharmaceutical manufacturers to bring promising new therapeutics to the market.

DALLAS, (FEB. 21) PR NEWSWIRE - Edisto Resources Corporation (AMEX: EDS) today reported a net loss of $13.8 million for the fourth quarter of 1989 compared with net income of $320,000 for the fourth quarter of 1988. Total revenues for the quarter ended Dec. 31, 1989, were $14.5 million, compared with revenues of $18.6 million for the previous year fourth quarter.

The net loss for the year ended Dec. 31, 1989, was $57.7 million and includes a $22 million noncash charge to earnings attributable to the April 1989 property sale. The net loss for 1988 was $17.4 million. For 1989, revenues were $58.6 million versus revenues of $70.4 million for 1988.

Revenues for the fourth quarter and year ended Dec. 31, 1989, were affected by decreased oil and gas sales attributable to the April 1989 property sale and lower natural gas prices.

The net loss for the three months ended Dec. 31, 1989, increased compared to the same period of the previous year primarily because of decreased revenues, increased exploration and abandonment costs, increased interest expense and losses on investments. The net loss for the year ended Dec. 31, 1989, increased compared to the prior year primarily because of increased exploration and abandonment costs, increased interest expense and a $22 million noncash loss incurred with the April 1989 property sale. General and administrative costs for the fourth quarter and year ended Dec. 31, 1989, declined 10 percent and 21 percent, respectively, when compared with the same periods of the previous year.

Certain items have been reclassified and financial statements for both 1989 and 1988 have been restated in accordance with these changes.

Edisto Resources Corporation is a Dallas-based, Delaware corporation

incorporated in 1970. Edisto's consolidated activities include the production of oil and gas, the exploration for, and development of, oil and gas reserves and the acquisition of oil and gas properties.

INDIANAPOLIS (FEB. 21) PR NEWSWIRE - William E. Bindley, chairman and CEO of Bindley Western Industries, Inc. (NASDAQ: BIND), today announced that Michael D. McCormick and William F. Bindley II were appointed to the company's board of directors, increasing the number to nine.

McCormick (41) currently serves as executive vice president, general counsel and secretary of the company and has been with Bindley Western since April 1987. He is a graduate of Duke University and received his law degree from Indiana University. He was formerly an executive with several motor carrier companies and was a partner in an Indianapolis law firm.

William F. Bindley II (28) is the son of William E. Bindley. He is president of Short Sleeve Productions, a Los Angeles-based firm engaged in the production of motion pictures, industrial films and business publications. His clients include Arthur Andersen & Co. and Sharp Electronics. He was formerly with Paramount Pictures and the IBM Corporation. Bindley wrote and produced Bindley Western's 1987 and 1988 annual reports, which were selected to be among the best in America. He received his undergraduate degree in economics and radio, TV and film from Northwestern University and his M.B.A. from Harvard Business School.

Bindley Western, with 1989 sales of $1.6 billion, is one of the largest drug wholesalers in the United States and specializes in the distribution of ethical pharmaceuticals and related products.

JACKSONVILLE, FL (FEB. 21) PR NEWSWIRE - The board of directors of Barnett Banks, Inc. (NYSE: BBI) today announced adoption of a shareholder rights plan providing a dividend distribution of one right for each outstanding common share of the company.

Each right entitles the holder to purchase one unit of a new series of preferred stock essentially equivalent to one common share at a per-unit price that reflects views of the company and its financial advisors as to the potential long-term value of the common shares. The distribution will be made to shareholders of record on March 12, 1990.

Shareholder rights plans, which have been adopted by a large number of public companies, are designed to enable the board of directors to protect the stockholders' interests in the face of unsolicited attempts to acquire the company. The Barnett plan is not being implemented in response to any known plan to acquire the company.

Details of the shareholder rights plan are outlined in a letter that will be mailed to all shareholders.

Barnett is a $29-billion-asset, two-state banking organization and the leading financial institution in Florida.

DEARBORN, MI (FEB. 21) PR NEWSWIRE - CMS Gas Transmission Company, a natural gas pipeline unit of CMS Energy Corporation (NYSE: CMS), today announced it will become a partner with an 18- percent ownership interest in the Oklahoma-Arkansas Pipeline. The proposed pipeline will transport new natural gas supplies from the Arkoma Basin of Oklahoma and Arkansas to several major interstate pipelines which serve the Midwest and the Northeast.

The 352-mile, 36- and 30-inch diameter pipeline will extend from Pittsburg County, Okla., to Tate County, Miss. A request to the Federal Energy Regulatory Commission for an optional expedited certificate to construct the $273 million project was submitted on Oct. 31, 1989. Given timely FERC approval, construction is expected to begin in early 1991, with first volumes to flow in the fall of 1991.

"This project will provide a competitive transportation route for the prolific gas supplies in the Arkoma Basin. We're pleased to become a partner," said Karl R. Wittbold, CMS Gas Transmission vice president. "Through this pipeline, gas producers in the Arkoma Basin will gain significantly improved access to Midwest and Eastern U.S. gas markets," Wittbold added.

Firm natural gas transportation nominations for the new pipeline, submitted during its "open season" which ended Jan. 12, 1990, totaled 975 million cubic feet per day, far greater than the pipeline's initial projected capacity of 500 million cubic feet per day. The project is, however, expandable to about 1 billion cubic feet of capacity per day by the addition of compressor units along the pipeline. Interruptible transportation nominations were over 8 billion cubic feet per day. The Oklahoma-Arkansas Pipeline partnership is now obtaining precedent agreements for those nominating firm transportation.

Other partners in the project include: Panhandle Eastern Corp., which will operate the pipeline; International Paper Co.; National Fuel Gas Supply Corp.; Reliance Pipeline Co. and The Williams Companies, Inc.

CMS Energy Corporation is a $3 billion (sales) diversified energy company with businesses engaged in the distribution of electricity and natural gas interstate storage and transmission of natural gas, oil and gas exploration and production, independent power generation and utility services. CMS Energy Corporation's principal subsidiary is Consumers

Power Company, Michigan's largest and the nation's fourth-largest combination utility.

#90052p0211 02/21/1990 ~PR Newswire

CLARENDON HILLS, IL (FEB. 21) PR NEWSWIRE - MAF Bancorp, Inc. (NASDAQ-NMS: MAFB), the holding company for Mid America Federal Savings Bank, announced today the bank's results of operations for the quarter and six months ended Dec. 31, 1989. The bank completed its conversion from a mutual to a stock savings bank on Jan. 19, 1990. Results for all periods reflect the operation of the bank as a mutual savings institution and therefore per share earnings are not reported for any period.

Net income for the bank's second quarter ended Dec. 31, 1989 was $1,105,000, compared with $1,950,000 for the quarter ended Dec. 31, 1988. The bank's net interest income after provision for loan losses improved by 10.7 percent to $6,444,000 in the 1989 quarter from $5,828,000 in the year earlier period. Non-interest income declined to $2,547,000 in the 1989 quarter from $3,894,000 in the year earlier period. This decline was comprised of increases in servicing fee income and gains on sale of loans which were more than offset by a $993,000 decrease in income from real estate operations and a decrease in gains on sale of investment and trading account securities. Non-interest expense increased sightly to $7,333,000 in the 1989 quarter from $7,068,000 in the year earlier period.

For the six months ended Dec. 31, 1989, net income was $2,130,000, compared to $3,233,000 for the six months ended Dec. 31, 1988. The bank's net interest income after provision for loan losses increased to $12,731,000 in the 1989 6-month period from $12,282,000 in the same period a year ago. Non-interest expense increased moderately to $14,465,000 in the 1989 6-month period from $13,998,000 in the same period a year ago. A decline in pre-tax income from real estate operations of $1,832,000 from the year earlier period was the principal factor in the decrease in the 6-month net income totals, although this decline was partially offset by increases in servicing fee income and gains on sale of loans and trading account securities. The decrease in income from real estate for both the 3 month and 6 month reporting periods was due in part to a decline in improved lot sales in 1989 from 1988 and a decrease in overall profit margins. The sales and margin declines were primarily attributable to the substantial completion of older, higher-margin development projects in 1988 and the startup of new developments in 1989 which provide smaller profit margins.

Allen Koranda, chairman and chief executive officer of the bank, commented "We are pleased with the improvement in our fiscal 1990 quarterly and

year-to-date core earnings over the same periods for fiscal 1989. The reported prior year results reflect significant income from real estate which tends to overshadow the period-to period improvement in core earnings. We are continuing to strive to improve the quality of our earnings and we believe those effort are reflected in the reported fiscal 1990 results. Additionally, the investment of the stock conversion proceeds will have a positive impact on net interest income."

Koranda also announced today that the underwriters in the company's recently completed public offering have exercised an option to purchase an additional 275,000 shares of common stock from the company, as part of the stock conversion, to cover over-allotments. The transaction, which was consummated on Feb. 15, 1990, resulted in approximately $2.1 million of additional equity capital for the company. At Feb. 15, 1990, the company had 3,525,000 shares of common stock outstanding which includes the additional 275,000 shares issued to cover over-allotments. Commenting on the additional stock purchase, Koranda stated, "This additional capital, along with the $24.5 million of net proceeds from the initial sale of stock, increases the company's capital to over $51.5 million, all of which is tangible capital. In light of the unprecedented negative publicity for the thrift industry and the recent weakness in the financial markets, the overall results from Mid America's stock conversion were excellent, reflecting the investment community's view of Mid America as a sound and quality institution." Mid America Federal Savings Bank presently meets its tangible and core capital requirements. The Office of Thrift Supervision, as a condition to its approval of the company's holding company application, requires the bank to meet its current risk-based capital requirement by March 20, 1990. The bank expects to comply with such requirement by that date.

Mid America Federal Savings Bank is a federally chartered stock savings bank with total assets of $1.6 billion. The bank operates a network of 13 retail banking offices primarily in the western suburbs of Chicago.

PITTSBURGH (FEB. 21) PR NEWSWIRE - Genix Enterprises has won a new three-year, $14 million computer operations outsourcing contract from National Steel Corp., the company announced.

National Steel, the sixth largest integrated steel producer in the United States, has been a customer since Genix was formed in 1984.

Under the agreement, Genix will operate and manage National Steel Corp.-owned mainframe computer and telecommunications equipment, and provide all necessary technical support through Genix's facility in Pittsburgh. National Steel Corp. will continue to perform all applications development and maintenance in-house.

National Steel Corp. is a joint venture company that is 50 percent owned by Japan-based Nippon Kokan K.K. and 50 percent owned by National Intergroup Inc. (NYSE: NII). National Intergroup is a diversified distribution and services firm that also owns Genix Enterprises.

According to National Steel's Vice President of MIS Richard Brzenk, the new contract provides National Steel with an effective approach to continue utilizing Genix as a provider of computer facilities management.

"We are pleased," says Genix Enterprises President and Chief Executive Officer Thomas Mavor, "to be able to retain the National Steel business after going through a competitive bidding process. We believe strongly that outsourcing computer operations functions is a key ingredient in

helping firms concentrate their efforts on value-added applications development activities."

Genix Enterprises is a leading provider of computer operations outsourcing services that serves customers throughout North America. The company operates a large computer processing facility in Pittsburgh, through which it provides services to customers in a wide variety of industries.

#90052p0233 02/21/1990 ~PR Newswire

FAIRFIELD, CT (FEB. 21) PR NEWSWIRE - Barry Blau & Partners, Inc. (NASDAQ: BLAU) today reported the following results:

Gross agency income appreciated substantially from $2,402,808 for the three-month period ended Dec. 31, 1988 to $3,253,036 for the three- month period ended Dec. 31, 1989. However, selling, general and administrative expenses also increased substantially during this period from $2,189,946 for the period ended in fiscal 1988 as against $3,022,937 for the three months ended Dec. 31, 1989.

The company's results for this period have been materially affected by the company's decision to write off certain costs ($565,040) incurred in a special merchandise program associated with Citicorp, a major client of the company. The company has made this decision to write off these costs despite the fact that the program may continue to develop productively. The company's results for this period have also been impacted by substantial continuing investment in personnel and facilities designed to service new clients gained over the past 18 months and maximize the opportunities for growth presented. This investment in personnel and facilities, while having positively impacted the company's gross agency income, has not yet been fully realized in the company's income before taxes.

On Feb. 19, 1990, the company dismissed Coopers & Lybrand, which had served as the company's certified public accountants since 1985. Coopers & Lybrand's reports on the company's consolidated financial statements for the fiscal year ended June 30, 1989, and June 30, 1988, respectively, did not contain any adverse opinion nor disclaimer of an opinion nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles. In connection with a recent review by Coopers & Lybrand of its previously issued audit reports since June 30, 1985, including its reports for the fiscal years ended June 30, 1989, and June 30, 1988, Coopers & Lybrand has informed the company that its has questions concerning the proper accounting treatment for reporting purposes of several matters with respect to such prior audit years and the possibility

of restatement of previously issued financial statements.

The company intends to review such issues as soon as practical with BDO Siedman, which has been retained by the company to serve as its independent accountants. Although the company cannot, at this point, predict the results of such review, the company does not believe that these matters will have a material adverse effect on the company's operations and prospects. The company's quarterly report on Form 10-Q for the second quarter ended Dec. 31, 1989, on file with the Securities and Exchange Commission, includes details on these matters.

MUSKEGON, MI (FEB. 21) PR NEWSWIRE - SPX Corporation (NYSE: SPW) announced today that the company's board of directors, at the regularly scheduled February meeting, has elected Dale A. Johnson as the company's president and chief executive officer, effective immediately. Johnson, who is 52, has been president and chief operating officer of SPX since January of 1988. He succeeds Robert D. Tuttle, 64, who continues as chairman.

In a statement issued by the board of directors, it was noted that "Since Robert Tuttle joined SPX in 1980, sales have more than tripled and the company has positioned itself as a world leader in the aftermarket repair and maintenance segment of the motor vehicle service industry. Robert Tuttle and his management team have been a dynamic force for the company's growth and this planned management transition is a well-timed step in the company's evolution."

Johnson joined SPX Corporation in 1985 when the Owatonna Tool Company, of which he was then president and chief executive officer, was acquired by SPX. He had served with Owatonna Tool since 1974, holding several different management positions there.

A native of Minnesota, Johnson received a B.S. degree from Mankato State University, and M.A. and Ph.D. degrees from the University of Minnesota. He currently serves on several civic and community organizations in the Muskegon area and is a member of the board of directors of the Michigan Manufacturers Association and the Motor Equipment Manufacturers Association.

SPX Corporation, a Fortune 500 company, is a world leader in the production and distribution of specialty repair tools, diagnostic instruments and repair components to the motor vehicle service industry.

LOS ANGELES (FEB. 21) PR NEWSWIRE - Unocal Corporation (NYSE: UCL) today said that it replaced 123 percent of its crude oil and natural gas production on a crude-equivalent (converted on a Btu basis) basis in 1989. Total worldwide reserves increased 2 percent.

This marked the third consecutive year that Unocal recorded an increase in total worldwide crude oil and natural gas reserves on a crude-equivalent basis.

Richard J. Stegemeier, Unocal chairman, president and chief executive officer, said the reserve numbers show that the company is successfully expanding its resource base, one of its key operating goals.

Proved reserves of crude oil and condensate increased 4.3 percent to 797 million barrels at year end 1989, up from 764 million barrels a year ago. The increase included 104 million barrels from discoveries and extensions 22 million barrels from improved recovery and 12 million barrels from revisions of estimates and purchases. The company produced 87 million barrels and sold 18 million barrels of reserves.

The new crude oil reserves from discoveries came principally in the United States (53 million barrels) and the booking of Unocal's interest in the Veslefrikk field, offshore Norway (35 million barrels).

Proved reserves of natural gas increased 1 percent to 6,186 billion cubic feet at year end 1989, up from 6,137 billion cubic feet at the end of 1988.

The additions to natural gas reserves included 698 billion cubic feet of gas from discoveries and extensions, primarily in the Gulf of Mexico and offshore Thailand, and purchased reserves of 17 billion cubic feet. During 1989, Unocal produced 481 billion cubic feet of natural gas, sold 48 billion cubic feet of reserves and revised reserve estimates downward by 137 billion cubic feet. These downward revisions were principally associated with remotely located gas accumulations in Alaska and Canada which are not presently served by gas pipelines.

WASHINGTON (FEB. 21) PR NEWSWIRE - USA Today Radio and ABC Radio Networks today launched a new exclusive morning show script service for radio stations that program to an 18-34 year old audience.

This announcement was made in conjunction with a new, four-year exclusive agreement to provide the USA Today Radio service to the 1,200 ABC Radio

affiliates across the United States. This is a continuation and expansion of the current three-year relationship.

USA Today Radio consists of a script service which contains the best lifestyle, trend and entertainment stories from USA Today and an audio service -- 15-second, fact-packed stories from the newspaper -- that people across the United States will be talking about the next day.

"USA Today Radio is an outstanding, and successful, example of how radio networks can provide a value-added programming edge that radio stations could not otherwise achieve or duplicate," said Aaron Daniels, president, ABC Radio Networks.

Program directors praise the service as a boon to their on-air talent. Air personalities across the United States use the script for their morning shows. Radio news anchors use USA Today stories to integrate into their morning and afternoon newscasts.

The service is fed over ABC Radio Network's data and satellite delivery systems before the morning paper hits the newsstands.

USA Today Radio is produced by Gannett News Media, the research and development unit of the Gannett Co., Inc. (NYSE: GCI).

"Our relationship with ABC Radio Networks is important in helping USA Today to communicate with its readers in a different, yet complementary way -- through radio," said Nancy Woodhull, president, Gannett News Media.

USA Today, with 6.3 million readers daily, is available in all 50 states. USA Today's International Edition is available in more than 80 countries.

Gannett Co., Inc. is a nationwide news and information company that publishes 82 daily newspapers, including USA Today and 52 non-daily publications, including USA Weekend, a newspaper magazine. It operates 10 television stations, 16 radio stations, Gannett News Services and the largest outdoor advertising company in North America.

#90052p0254 02/21/1990 ~PR Newswire

PLAINVIEW, NY (FEB. 21) PR NEWSWIRE - Geraghty & Miller, Inc. (NASDAQ: GMGW), today announced results for the year and fourth quarter ended Dec. 31, 1989.

For the year ended Dec. 31, 1989, gross revenue increased 61 percent to $82.7 million compared to the same period of 1988. Net revenue from services, the company's primary measure of business performance, also rose 61 percent to $54.4 million. Net income of $3.2 million for the year represents a 41 percent increase from 1988 and net income per share increased 31 percent to $0.55 per share.

For the fourth quarter of 1989, gross revenue was $23.8 million, an increase of 82 percent from the fourth quarter of 1988, while net revenue from services reached $15.3 million, a 70 percent increase from the 1988 period. Fourth quarter 1989 net income was $820,000 or $0.14 per share compared to $87,000 or $0.02 per share in the 1988 fourth quarter.

David W. Miller, president and chief executive officer, stated: "We are pleased with the firm's strong increase in revenues and record earnings for 1989. Our net revenue from engineering and hydrocarbon activities more than doubled in 1989 compared to 1988 and in the fourth quarter those activities operated at an $11 million annual rate. We believe we have set the stage for further progress throughout the company in 1990 with the major changes in organization, improved management depth and expanded service offerings accomplished in 1989."

Geraghty & Miller, Inc., provides a wide spectrum of environmental services with special emphasis on the development, management and protection of ground-water resources and the correction of ground-water contamination.

#90052p0255 02/21/1990 ~PR Newswire

CARROLLTON, TX (FEB. 21) PR NEWSWIRE - Computer Language Research Inc. (NASDAQ: CLRI) today announced results for the fourth quarter and year ended Dec. 31, 1989. Revenues for the fourth quarter increased 6.4 percent from $31.4 million in 1988 to $33.4 million in 1989. Net income for the quarter was $286,000, or 2 cents per share, in 1988, compared to a net loss of $219,000, or 2 cents per share, in 1989.

For the year ended Dec. 31, 1989, revenues increased $8.7 million or 7.4 percent from the $117.4 million in 1988 to $126.1 million this year. Results of operations for 1989 improved from a $1.9 million net loss, or 14 cents per share loss, in 1988 to a $650,000 net income, or 5 cents per share, profit in 1989.

Revenues in the fourth quarter and 12 months ended Dec. 31, 1989, primarily reflect increased sales of tax processing, microcomputer software, and equipment to large CPA firms.

Operating expenses for the fourth quarter and year ended in 1989 were higher than in 1988 primarily because of higher equipment sales and product development costs for microcomputing software products. Partially offsetting these increases were slightly lower costs for marketing, training and administrative expenses compared to 1988.

Interest expense in 1989 continued higher than in 1988 principally reflecting the additional long-term debt acquired in the third quarter of 1988 and higher average short-term borrowings in 1989. Such costs increased from $1.2 million in 1988 to $2.7 million in 1989.

At the Feb. 21 meeting, the board of directors declared the dividend for the second quarter of 1990 at the rate of 3 cents per share. The dividend is payable April 3, 1990, to shareholders of record on March 16, 1990.

Computer Language Research, Inc. is headquartered in Carrollton and maintains sales and support facilities in 27 cities throughout the United States. The company provides tax automation systems to accounting firms, corporations, partnerships, and financial service organizations under the trade name Fast-Tax. The company also develops and markets electronic form systems for use in its tax markets and for sale to other

forms-intensive businesses such as insurance companies, banks, financial service organizations, and the federal government.

MADISON, WI (FEB. 21) PR NEWSWIRE - Madison Gas and Electric Co. (MGE) (NASDAQ: MDSN) today reported earnings per share of $2.92 for the year ended Dec. 31, 1989, as compared to the $2.98 earned in 1988. Revenues in 1989 were $218 million, up $4 million from the $214 million reported in 1988. Operating expenses in 1989 rose just $1 million to total $184 million.

Operating revenues for the last quarter of 1989 were $58.7 million, as compared to $57.5 million in the fourth quarter of 1988. During the same period, operating expenses increased by $0.3 million to $48.5 million. Per-share earnings for the fourth quarter were 97 cents, compared to 93 cents in the same period in 1988.

"Earnings for the year 1989 reflected overall normal weather patterns," said G. Howard Phipps, senior vice president-finance. "Although last summer's temperatures were quite normal, as compared to the hot summers of 1988 and 1987, sales of electricity continued to rise. On the gas side, the warm weather in January 1989 was more than offset by the very cold temperatures experienced in the Madison area this past December. That cold weather resulted in the amount of gas sold and transported increasing 1.7 percent for the entire year 1989 as compared to 1988. It also contributed to the fourth-quarter earnings of 97 cents per share -- the highest quarterly earnings ever reported by MGE.

"Interest costs had a major impact on earnings," Phipps continued. "Somewhat higher rates and more debt outstanding caused interest costs to go up $1.8 million over the prior year. On the other hand, total operating expenses rose only 0.5 percent in 1989 as compared to 1988, reflecting our continuing efforts to control costs."

MGE is a public utility engaged in generation and transmission of electric energy and in its distribution over 250 square miles in and around Madison.

The common stock of MGE is traded over-the-counter, is reported through NASD National Market System and is quoted in the NASD Automated Quotation System.

BOSTON (FEB. 21) PR NEWSWIRE - Richard R. Laine, president and chief executive officer of the Boston Bancorp (NASDAQ: SBOS), announced today that Boston Bancorp has adopted a stock repurchase program for up to 300,000 shares, or approximately 4 percent, of its outstanding common stock. Repurchases will be made from time to time over the next six months in open market (and privately negotiated) transactions based on then current market prices.

Laine stated, "The board of directors considers Boston Bancorp's stock to be an attractive investment. Its objective in authorizing the repurchase program is to increase the earnings per share of those shares of Boston Bancorp stock that remain outstanding after the repurchases, as well as shareholder market value generally."

Boston Bancorp, which presently has 6,974,622 shares of common stock outstanding, is the holding company for South Boston Savings Bank, a Massachusetts-chartered, FDIC-insured savings bank headquartered in South Boston. On Oct. 31, 1989, Boston Bancorp had total assets of $1.480 billion and stockholders' equity of $98.1 million. Boston Bancorp reported consolidated net income of $19.4 million for the fiscal year ended Oct. 31, 1989.

#90052p0269 02/21/1990 ~PR Newswire
NEW YORK (FEB. 21) PR NEWSWIRE - Texas Air Corporation (AMEX: TEX) and EDS today announced an unprecedented multi-level partnership agreement designed to improve the airline and travel industries by providing them with a wide range of state-of-the-art computer and telecommunications services. Central to the agreement is the formation by EDS (Electronic Data Systems) and Texas Air of joint ventures to build and develop the existing businesses of Texas Air's System One Corporation. Texas Air and EDS will each own 50 percent of the joint ventures.

A major element in the transaction is a 10-year information technology services contract to be performed by EDS, valued at approximately $4 billion. EDS will furnish information technology (IT) services to Continental Airlines and Eastern Air Lines. The EDS/System One Partnership will provide computer reservations system (CRS) services to nearly 8,000 travel agents.

Additionally, EDS will acquire System One's Airline Services Division, the largest third-party provider of airline services in the world. Airline Services provides reservations, passenger processing and flight management services for nearly 200 air carriers and other customers around the world.

EDS will pay Texas Air in excess of $250 million for Texas Air's contribution to the transaction, which includes numerous facilities, software capabilities, and marketable services developed since its acquisition of System One. The EDS/System One Partnership will enter into long-term contracts with Continental and Eastern, which will give them substantial savings versus prevailing costs for data processing and telecommunications services.

"Of the potential partners that we have considered with regard to forming an alliance with System One over the last several years, EDS was chosen because it has set a benchmark for excellence in the data processing and telecommunications industries," said Texas Air Chairman Frank Lorenzo. "A new competitive force will emerge from our shared vision of an interconnected global transportation marketplace, which can better serve the public particularly through CRS system improvements."

EDS will become the largest provider of third-party information technology services to the airline industry and will have the capability to leverage its travel-related information management services to customers in other fields. The EDS and System One networks, which are heavily invested in fiber-optic technology, together form one of the nation's largest communications concerns, rivaling the size of major communications networks.

The new partnership investment strategically positions EDS to focus the strength of its worldwide technological infrastructure and expertise on the airline service and CRS markets, domestically and internationally.

Murray will assume the responsibilities and role of chairman and CEO for EDS/System One CRS Partnership. A new EDS transportation business unit will become responsible for four technology centers and two regional telecommunications facilities.

NEW YORK (FEB. 21) PR NEWSWIRE - Monsanto Chemical Co. (NYSE: MTC) and Vista Chemical Co. (NYSE: VC) have formed a strategic alliance to develop styrenic and polyvinyl chloride (PVC) based alloys and polyblends, the companies announced today.

This alliance supports Monsanto's objective of developing new products and opening new markets via strategic cooperative efforts. Through this strategic alliance, Vista will broaden its customer base even further as a full-service supplier of PVC and other related compounds, with a wider

variety of products moving into highly specialized, value-added markets.

All products resulting from the alliance will be marketed independently by each company. Uihlein believes that market-driven alliances and other similar ventures may dominate alloy development strategies entering the 1990s.

The alliance has already produced a new flame retardant alloy to be marketed by Monsanto as Triax CBE/1, an extension of its broad line of Triax alloys. This alloy targets business machine enclosures and combines Vista's PVC with ingredients from Monsanto's high-heat acrylonitrile butadiene styrene (ABS) family.

Monsanto Chemical Co. is a unit of Monsanto Co. The company's Plastics Division is a leading provider of performance plastics to the automotive, lawn and garden, medical, houseware and business machine enclosure markets.

Vista Chemical Co. is a major integrated producer of commodity and specialty chemicals, including surfactant intermediates, PVC resins and compounds and industrial specialty chemicals. Vista's products are sold worldwide into such diverse markets as household detergents, cosmetics and other personal care products, automobile interior trim and fittings, vinyl packing materials, home siding, wire coverings, pipe, catalysts and printing inks.

#90052p0282 02/21/1990 ~PR Newswire

MOONACHIE, N.J. (FEB. 21) PR NEWSWIRE - The Vader Group, Inc. (AMEX: VDR) today reported a net loss (applicable to common shares) of $59,768 (or $.03 per share) for the fiscal year ended Sept. 30, 1989, compared to net income of $2,094,848 (or $.97 per share) a year earlier.

Per-share earnings for fiscal 1989 include a gain of 18 cents from continuing operations, a charge of $.08 from common stock accretion attributable to put options, a loss of $.16 from discontinued operations, and an extraordinary gain of $.03 per share from a tax loss carryforward.

The gain from continuing operations related primarily to the sale of marketable securities.

It should be noted that the fiscal 1988 earnings resulted primarily from a one-time gain from the April 1988 sale of the artificial flower and plant business.

Since the sale of the artificial flower and plant business in April 1988, management has met with, and reviewed a number of, potential acquisition candidates. The company is presently examining two potential acquisition candidates, but there is no assurance of any transaction being completed.

HOUSTON, (FEB. 21) PR NEWSWIRE - Robert C. Calafell today was named president - GTE Airfone, according to Terry S. Parker, president of GTE Mobile Communications Group.

Calafell, who will report to Parker, will be responsible for the planning, construction, marketing and operation of GTE Airfone's air-to-ground public telephone service as well as for GTE Railfone. His appointment is effective immediately.

He succeeds C. Sumpter Logan, who is being transferred to an executive position within GTE Telephone Operations. That appointment will be announced at a later date.

"Bob's experience in planning and business development brings to GTE Airfone an additional dimension that we believe will enhance our long-term strategy to link that business unit with our other Mobile Communications businesses," said Parker.

Parker highlighted Logan's contributions, noting that it was during Logan's guidance that GTE Airfone service grew from installations on just a few hundred airplanes to more than 1,200 today.

Calafell began his GTE career in 1966 as an engineer with General Telephone of Florida, where he held a number of positions of increasing responsibility in the engineering and network planning areas.

In 1978, he was named network planning director for GTE Service Corp. In 1980, he was appointed assistant vice president-network planning and development. He subsequently held a number of executive- level positions in planning and analysis areas for various business units, including GTE Sprint and GTE Communications Services. He was named vice president-area general manager, GTE Telephone Operations South Area in 1988.

Calafell earned a bachelor's degree in business administration and an MBA from the University of Tampa. He and his family will relocate to the Oak Brook, Ill., area in the near future.

MIDLAND, TX (FEB. 21) PR NEWSWIRE - P&P Equity Co. Ltd., the general partner of Parker & Parsley Development Partners L.P. (AMEX: PDP), today announced the completion of the repurchase of units from Southmark Corp. Parker & Parsley Petroleum Co., a wholly owned subsidiary of the partnership, on Feb. 13, 1990, purchased 307,693 units from Southmark Corp.

This purchase complemented an earlier purchase by Parker & Parsley Petroleum Co. of 231,562 units from Pacific Standard Life Insurance Co., an affiliate of Southmark Corp. A total of 539,255 units have been purchased from Southmark Corp. and affiliates and such total represents all of the units previously owned or controlled by Southmark Corp.

In accordance with the previously announced unit repurchase Plan, Parker & Parsley Petroleum Co. has purchased 16,000 units in open market transactions between Jan. 19, 1990, and Feb. 6, 1990. The company will continue to purchase units from time to time in either private or open market transactions as a continuation of the unit repurchase plan.

Through the two purchases from Southmark Corp., open market purchases, and units previously owned Parker & Parsley Petroleum Co. now owns a total of 584,039 units which represents over 10 percent of the total units outstanding. The general partner believes these unit purchases are an attractive investment for the partnership and represent an excellent enhancement of value for unitholders given the prevailing per unit price relative to the per unit oil and gas reserve value.

#90052p0286 02/21/1990 ~PR Newswire

TORRANCE, CA (FEB. 21) PR NEWSWIRE - Operations at the Mobil Torrance Refinery during 1989 demonstrated more than a 90 percent reduction in emissions of sulfur oxides (SOX) compared to 1988 levels of that pollutant according to data released by the refinery.

This dramatic reduction is due to the refinery's bringing on line in December 1988 a new facility which removes sulfur from hydrocarbon feedstocks in the inital stages of the refining process. This equipment,

the FCC Feed Hydrotreater, was constructed over a 24-month period during 1987 and 1988 at a cost of more than $200 million.

According to a report recently released by the South Coast Air Quality Management District (SCAQMD), the Mobil Refinery had been high on the list of the top 20 emitters of SOX in 1988. In compiling the list, the district utilized data provided by businesses to whom it issues permits to operate.

"Our current FCC SOX emissions are now less than two percent of the level allowed by SCAQMD regulations, and we do not expect the refinery to even be on the SCAQMD's 1989 list," said Wyman Robb, refinery manager.

In addition to lessening the amount of SOX being emitted at the refinery, the Hydrotreater has enabled the refinery to dramatically reduce the sulfur content of the gasoline it produces making it cleaner burning. All gasolines produced at the Mobil Torrance Refinery now typically contain less than half of the sulfur content allowed by the state.

It is estimated that these cleaner burning gasolines are reducing SOX emissions from automobile exhaust in the Los Angeles basin by over 500 tons per year. The Mobil Torrance Refinery supplies 12 percent of the gasoline sold in Southern California.

#90052p0296 02/21/1990 ~PR Newswire

CONSHOHOCKEN, PA. (FEB. 21) PR NEWSWIRE - Peter A. Benoliel, chairman of the board of Quaker Chemical Corp. (NASDAQ: QCHM), a producer of industrial chemical specialty products, today announced operating results for the periods ended Dec. 31 as follows:

QUAKER CHEMICAL CORP.
(Thousands of dollars, except per-share figures)

Periods ended	Fourth quarter		12 months	
	1989	1988	1989	1988
Net sales	$46,018	$40,903	$181,660	$166,662
Income before taxes	4,671	4,279	19,647	18,939
Taxes on income	1,529	1,410	6,807	7,208
Net income	3,142	2,869	12,840	11,731
Net income per share based on weighted average number of shares outstanding: 1989-6,351,553 1988-6,437,547	$.50	$.44	$2.02	$1.82

Benoliel noted that the results for 1989 represent a fourth straight year of record sales and net income. He also pointed out that volume and selling price increases in the domestic traditional product lines were a major driving force behind the improved results. Unfavorable foreign currency fluctuations penalized net income in excess of $700,000 for the year and somewhat masked another year of fine performance from the international affiliates. Business development expenses in the Quaker Sealants & Coatings group, as well as charges to net income of approximately $350,000 relating to the consolidation of that group's operations in Oklahoma, negatively affected the operating results.

CHICAGO, (FEB. 21) PR NEWSWIRE - Methode Electronics, Inc. (NASDAQ: METHB) today announced sales for the third quarter ended Jan. 31, 1990, of $32,861,000, up 16 percent from $28,427,000 a year ago. Earnings showed significant improvement, increasing to $1,304,000 from $214,000 last year. Earnings per share were up sixfold to $.12 from the weak $.02 reported a year ago.

Results for the nine months were also much improved with sales up 8 percent to a record $96,548,000 vs. $89,344,000 last year. Net income rose to $3,159,000 from $1,374,000, and earnings per share more than doubled to $.29 as compared to $.13 a year earlier.

President William J. McGinley said, "Third quarter results were helped appreciably by the performances of our connectors and controls group. Both our Far East and domestic connector operations continued to show strength with year-to-date bookings of about 1.1 to 1. Recent industry forecasts for this portion of our business have been very encouraging for the foreseeable future.

"The automotive segment enjoyed the best November and December sales ever,

but the results for the quarter were somewhat dampened by a precipitous decline in January as the automotive manufacturers' cutbacks took hold. Based upon current automotive releases, shipments for the months of February and March will be substantially ahead of January's levels.

"Our combined printed circuit activities enjoyed earnings this year as compared to substantial losses during last year's third quarter. Bookings at both our facilities have tailed off lately as orders from defense contractors have slowed in recent months. We have seen a flurry of activity from several new potential customers, but the cycle from plant survey, approval, quote, etc. can require a long period of time. We are not anticipating any significant strengthening of our new order rate in the near future."

"Overall, the outlook for the fourth quarter is for continued reasonable profitability," McGinley concluded.

METHODE ELECTRONICS, INC.

Three months ended Jan. 31	1990	1989

#90052p0302 02/21/1990 ~PR Newswire

NEWPORT NEWS, VA (FEB. 21) PR NEWSWIRE - Noland Co. (NASDAQ-NMS: NOLD) today reported that 1989 net income totaled $5,027,000, or $1.36 per share -- 5.7 percent less than 1988's $5,329,000, or $1.44 per share.

As previously reported, the wholesale distribution firm's 1989 sales totaled $454,629,000, a decline of 1.4 percent from the $461,255,000 total for the year-earlier period.

The LIFO adjustment, along with others that are not determinable until year-end, dramatically boosted fourth-quarter results. Net income for the fourth quarter of 1989 was $1,696,000, or 46 cents per share, compared to the year-earlier period's $154,000, or four cents per share.

Noland said current economic forecasts indicate total construction activity will be flat during the first six months of 1990. "Housing construction (and Noland's sales) rose in January," he said, "but that was due largley to unseasonably warm weather and the 'catch-up' work by builders whose projects were stalled by December's crippling cold. January should not be taken as a bellwether for robust homebuilding in 1990.

"However," he added, "we are expecting a rise in construction activity -- particularly in housing -- in the second six months of the year, which should provide us with opportunities for sales growth in that time period."

Noland operates 94 branches in 13 southeastern states, and distributes products in the plumbing, heating, electrical, air conditioning, refrigeration and industrial fields, as well as water well drilling equipment. The company's stock is traded over the counter, as part of NASDAQ's National Market System. Its trading symbol is NOLD.

SAN RAMON, CA (FEB. 21) PR NEWSWIRE - Chevron Chemical Company today announced that it is planning to build a 280 million pound expansion project at one of its Texas polyethylene plants. A decision on where to locate the plant will be made after discussions with local authorities have been completed. When constructed, the expansion would increase the

company's production of high-density polyethylene (HDPE) to 850 million pounds per year.

Chevron is currently soliciting bids on the 15-month project, which would employ approximately 650 workers during construction. When completed, the expansion will provide more than 40 permanent positions.

"This project is another step in our commitment to the growing polyethylene business," George T. Scott, vice president of Chevron Chemicals' olefins division, said. "Once completed, the additional HDPE production will play a major part in meeting increasing customer demand for these products. This expansion together with the 1990 completion of the Cedar Bayou, Texas, linear low-density polyethylene (LLDPE) plant will increase Chevron's polyethylene capacity to over 2.2 billion pounds."

High-density polyethylene is used in the manufacture of a variety of products from bottles, pipes, pails, and various sizes and grades of plastic bags. LLDPE is used in the manufacture of plastic wrap, shrink packaging, coatings for milk cartons and overlids for cans.

HOUSTON (FEB. 21) PR NEWSWIRE - Global Natural Resources Inc. (AMEX: GNR) today reported the completion of a series of purchases of oil and gas assets for an aggregate price of approximately $8.67 million. The assets purchased include 13 Cotton Valley Wells at essentially 100 percent working interest, in Rusk County, Texas, an interest in one Frio Well in Brazoria County, Texas, several non-operated wells, various pipeline and gathering system assets and a drilling rig.

Global estimates that the purchased interests in these properties have proved net developed reserves of approximately 21 billion cubic feet of natural gas and 138,000 barrels of oil. In addition to the developed reserves, the property includes substantial proved undeveloped locations for in-fill drilling.

The additional rig will increase the number of Global rigs operating in East Texas to five. Global operates as a contract driller in East Texas under the name GNR Drilling Co.

Global Natural Resources Inc. is a Houston based energy company engaged in the exploration, development and production of oil and gas in North America and owns an interest in long-term oil and gas production sharing contracts in Indonesia.

ERIE, PA (FEB. 21) PR NEWSWIRE - American Sterilizer Co. (AMSCO) and TRW Inc. (NYSE: TRW) have signed an agreement for AMSCO to purchase TRW Medical Electronics.

The Medical Electronics division of TRW is a leading supplier of clinical engineering services to the healthcare community. In 1985, they created the full service market and have grown to a $25 million business unit. Medical Electronics is headquartered in Northbrook, Ill., and employs approximately 300 people in 14 major locations throughout the United States.

AMSCO is a 95-year-old, $300 million medical manufacturing and service company. AMSCO believes the clinical engineering marketplace is one that represents an excellent strategic fit and offers exceptional growth potential. AMSCO views the acquisition of Medical Electronics as a key component of its strategic plans. AMSCO will operate the Medical Electronics business as a stand-alone division and will retain the management and employees of Medical Electronics. Financial terms were not disclosed.

HOUSTON (FEB. 21) PR NEWSWIRE - Robert C. Calafell today was named president - GTE Airfone, according to Terry S. Parker, president of GTE Mobile Communications Group.

Calafell, who will report to Parker, will be responsible for the planning, construction, marketing and operation of GTE Airfone's air-to-ground public telephone service as well as for GTE Railfone. His appointment is effective immediately.

He succeeds C. Sumpter Logan, who is being transferred to an executive position within GTE Telephone Operations. That appointment will be announced at a later date.

"Bob's experience in planning and business development brings to GTE Airfone an additional dimension that we believe will enhance our long-term strategy to link that business unit with our other Mobile

Communications businesses," said Parker.

Parker highlighted Logan's contributions, noting that it was during Logan's guidance that GTE Airfone service grew from installations on just a few hundred airplanes to more than 1,200 today.

Calafell began his GTE career in 1966 as an engineer with General Telephone of Florida, where he held a number of positions of increasing responsibility in the engineering and network planning areas.

In 1978, he was named network planning director for GTE Service Corp. In 1980, he was appointed assistant vice president-network planning and development. He subsequently held a number of executive- level positions in planning and analysis areas for various business units, including GTE Sprint and GTE Communications Services. He was named vice president-area general manager, GTE Telephone Operations South Area in 1988.

Calafell earned a bachelor's degree in business administration and an MBA from the University of Tampa. He and his family will relocate to the Oak Brook, Ill., area in the near future.

NEW YORK (FEB. 21) PR NEWSWIRE - Woolworth Corporation (NYSE: Z) said it has appointed S. William Manteria to the new position of corporate director of environmental management.

In this new position, Manteria will coordinate Woolworth's corporate and subsidiary environmental education programs and responses to environmental issues and he will review corporate and subsidiary environmental activities and plans.

In announcing Manteria's appointment, Harold E. Sells, chairman and chief executive officer of Woolworth, stated, "We are all aware of the growing importance that environmental concerns will have on our lives, families and businesses in the years to come. It is of the utmost importance that we remain environmentally good citizens. Our customers will continue to judge us on how well we serve them, and our responses to environmental issues constitute part of that service."

As director of environmental management, Manteria will report to Arnold S. Anderson, Woolworth's executive vice president - administration and general counsel. Manteria will also continue to serve as an associate general counsel and assistant secretary of Woolworth.

Manteria, 44, has been associated with Woolworth since 1974. Prior to that time, he was a lieutenant in the United States Navy serving in the judge advocate general's corps. Manteria, who resides in Rockville Centre, N.Y., with his wife and family, received his bachelor of arts and law degrees from St. John's University.

WILMINGTON, DE (FEB. 21) PR NEWSWIRE - Former Governor of New Jersey Thomas H. Kean, president of Drew University, has been named to the board of directors of Beneficial Corporation (NYSE: BNL) as announced today by Finn M. W. Caspersen, chairman and chief executive officer.

The appointment, effective immediately, brings the board total to 17. Kean became governor of New Jersey in 1981, winning the election by a narrow 1,700 votes, the closest election in the state's history.

In 1985, Kean was reelected by almost 800,000 votes, the biggest landslide in New Jersey history. He won every major city in New Jersey, garnering 60 percent of the black vote and more than two-thirds the support of union households.

Kean was ranked by Newsweek as one of the five most effective governors in 1986. In 1988, U.S. News and World Report called him "clearly the consensus MVP of the GOP."

President George Bush named Kean chairman of the Points of Light Initiative Foundation Advisory Committee in 1989.

Kean earned an undergraduate degree from Princeton University in 1957, began teaching American history at a Massachusetts high school and spent his summers running a camp in New Hampshire for economically disadvantaged children. In 1964, he earned a masters degree from Columbia University Teachers College.

He began his political career in 1967 with his election to the New Jersey State Assembly. He rose quickly in the Assembly, holding every major leadership position: minority leader, majority leader, and speaker. Kean left the Assembly in 1977.

During and after his Assembly service, Kean ran a small business, taught political science at Rutgers University in New Jersey, and was a political commentator on "New Jersey Nightly News."

Following his two terms as governor of New Jersey, Kean became the tenth president of Drew University, a 2,200-student independent university in Madison, N.J. Drew comprises a college of liberal arts, a graduate school, and a theological school, historically affiliated with the United Methodist Church.

Beneficial Corporation provides consumer financial services through a network of over 1,000 offices located across the United States, and in Canada, the United Kingdom and West Germany.

PONTIAC, MI (FEB. 21) PR NEWSWIRE - First Federal Savings Bank and Trust (FFSBT) has obtained $3.5 million of a $6.5 million loan it has been seeking to recover from a fraudulent real estate loan last year.

The Pontiac-based bank will continue to seek recovery of the remaining $3 million from Lawyers Title Insurance Company which insured the loan for the bank and from Henry L. Ewald to whom the money was loaned. FFSBT has sued Lawyers Title for $50 million over collection of the insurance.

The announcement was made by Leo D. Ottoni, president and CEO of FFSBT. FFSBT is a wholly owned subsidiary of First Federal Bancorp (AMEX: FFS). It is traded on the American Stock Exchange.

The $3.5 million is being recovered in partial settlement of a lawsuit by FFSBT against Michigan Selective Insurance Company (MSIC) and others.

Ewald received a $6.5 million commercial loan from FFSBT last year, using as collateral an apartment building he claimed to own. It was subsequently learned that Ewald forged the deeds and never owned the building.

FFSBT obtained an injunction against MSIC and the other defendants when the fraud was discovered last October.

The $3.5 million recovery is part of a partial settlement agreement approved by the Oakland County Circuit Court today (Wednesday, Feb. 21).

"We are pleased to recover more than half of this loan today," Ottoni said. "We intend to vigorously pursue recovery of the remaining $3 million from Lawyers Title as part of our $50 million lawsuit against them. After all, that's why we buy title insurance on real estate loans. We will also continue our litigation against Henry Ewald."

FFSBT is the fifth-largest thrift institution in Michigan. It has 31 branches in six southeastern Michigan counties and employs approximately 450 people. The bank was chartered more than 54 years ago. First Federal Bancorp, Inc. had assets of $1.45 billion on Dec. 31, 1989.

DETROIT (FEB. 21) PR NEWSWIRE - The appointment of Jay C. Wilber as executive director of the Quality Network, effective March 1, was announced today by General Motors President Robert C. Stempel.

Stempel said that Wilber, who has been director of Human Resources Management for the Automotive Components Group since July 1988, will report to Edward P. Czapor, vice president and group executive in charge of the Quality, Reliability and Service Parts Group.

The Quality Network is key to GM's continued progress in improving quality and customer satisfaction, Stempel said. "Jay Wilber's experience will enhance efforts already under way to involve every GM employee in the Quality Network process."

Wilber succeeds Robert E. Boruff, who was named business team leader, Vehicle Systems Operations for Saturn Corporation in Spring Hill, Tenn.

Born July 19, 1946, in Flint, Mich., Wilber holds a bachelor's degree in business administration from the University of Michigan - Flint. He has also completed the University of Toronto's advanced program in Human Resources Management.

Wilber began his General Motors career as an hourly production employee with Chevrolet Motor Division's Flint Engine plant in 1965. From 1965 to 1968, he was enrolled in a toolmaker apprentice program and successfully attained journeyman status. In 1969, he became a junior engineer and, in 1970, was promoted to foreman. In 1972, he became labor relations representative and three years later was promoted to supervisor, Labor Relations.

In 1978, Wilber was named senior staff assistant on the GM Industrial Relations Staff at corporate headquarters in Detroit. While there, he served in several different capacities until being promoted to manager of

Industrial Relations for the Buick-Oldsmobile-Cadillac Group in 1984.

In 1985, Wilber was named director of Labor Relations for GM of Canada, headquartered in Oshawa, Ontario, working with the car and truck assembly operations. He was named to his current position in July 1988.

CHICAGO (FEB. 21) PR NEWSWIRE - It was announced today that First Colonial Bankshares Corp. (NASDAQ: FCOLA) has purchased the $67-million-asset Fox Lake State Bank. The acquisition is the fourth announced by the $1.25-billion-asset holding company in the past two months.

"Fox Lake State Bank continues First Colonial's expansion in Lake County and complements our already strong presence in the Chicago area," commented C. Paul Johnson, First Colonial chairman and chief executive officer.

"We have managed, through careful planning, to establish or acquire well-managed banks in most of the key markets in the major metropolitan Chicago area," he continued. "The result is that we are one of the most aggressive players of our size today."

Johnson said the purchase should be completed, pending regulatory approval by late April.

First Colonial Bankshares Corp. established a de novo bank, First Colonial Bank of Lake County, in August of 1988. The bank's assets as of Dec. 31, 1989 are $33 million. The holding company also owns 10 other banks with 15 locations throughout the Chicago area.

In addition to First Colonial Bank of Lake County, First Colonial banks include All American Bank, Colonial Bank, Community Bank of Edgewater, Michigan Avenue National Bank, all in Chicago; First Colonial Bank of Elk Grove, Elk Grove Village; Avenue Bank of Oak Park, Oak Park; First Colonial Bank Northwest, Niles and Wheeling; First Colonial Bank of DuPage County, Glendale Heights and Naperville; Northlake Bank, Northlake, and Northwest Commerce Bank, Rosemont. Acquisitions pending regulatory approval include American National Bank of DuPage, Downers Grove; Burbank State Bank, Burbank; and York State Bank, Elmhurst.

First Colonial Bankshares Corp. also operates several non-bank subsidiaries including Mid-States Financial Corp., a commercial leasing company located in Schaumburg and First Colonial Trust Co., Oak Park.

LOS ANGELES (FEB. 21) PR NEWSWIRE - Kerr Glass Manufacturing Corporation (NYSE: KGM) today reported net earnings of $281,000 (prior to preferred stock dividends) for the year ended Dec. 31, 1989, compared to a net loss of $1,369,000 for the year ended Dec. 31, 1988.

Kerr had a net loss applicable to common stockholders (after deduction for preferred stock dividends) of $548,000, or 15 cents per common share (primary and fully diluted), for the year ended Dec. 31, 1989, compared to a net loss applicable to common stockholders of $2,198,000, or 60 cents per common share (primary and fully diluted), in 1988.

Roger W. Norian, chairman, president and chief executive officer, said that the plastic products, consumer products and metal crown businesses all contributed to the improved results in 1989. Although the company benefitted from glass container price increases announced in early 1989, Norian stated that these price increases did not fully offset continuing cost increases.

Net sales for the year ended Dec. 31, 1989, were $284,316,000, compared to $276,135,000 in the prior year. The increased sales were primarily attributable to higher unit sales of plastic products and metal crowns.

Net loss (prior to preferred stock dividends) for the three months ended Dec. 31, 1989, was $1,779,000, compared to a net loss of $1,915,000 for the three months ended Dec. 31, 1988. Net loss applicable to common stockholders (after deduction for preferred stock dividends) in the three months ended Dec. 31, 1989 was $1,987,000, or 54 cents per common share (primary and fully diluted), compared to a net loss of $2,123,000, or 58 cents per common share (primary and fully diluted), in the three months ended Dec. 31, 1988.

Net sales for the three months ended Dec. 31, 1989, were $59,381,000, compared to $57,367,000 in the same 1988 period. The increase in net sales in the fourth quarter was attributable to higher unit sales of plastic products and metal crowns.

Kerr, headquartered in Los Angeles, is a major producer of glass containers, plastic products, metal crowns, and home canning supplies.

REGINA, Saskatchewan (FEB. 21) PR NEWSWIRE - A donation from Shell Canada Limited (Toronto: SHC) today swelled Saskatchewan Indian Federated College's (SIFC) "Realizing the Dream" fund by $50,000.

The check, presented by Shell senior vice-president Bob MacDonell, is the first installment in the company's two year $100,000 pledge to the college.

The money will be used to help build, furnish and equip a building for SIFC on the campus of the University of Regina.

In presenting the check MacDonell, a member of the college's national fundraising committee, said, "I'm pleased that Shell is supporting the Saskatchewan Indian Federated College. We have been involved over the years in many activities in support of native employment and entrepreneurial endeavors, and we know that the key to success is education. We're happy to be able to help SIFC students in 'Realizing the Dream.'"

SIFC was founded in 1976 with nine students. Its total enrollment now exceeds 800 and is expected to grow to 1,200 by 1992.

It is the only Indian-controlled university in North America and the only Indian institute in Canada permanently funded by the federal government. Its mission is to preserve, protect and interpret the history, language, culture and artistic heritage of the Indian people.

Some 25 percent of all Canadian Indian university students attend SIFC.

It attracts students from every province and territory in the country.

The college is fully accredited and offers courses in fine arts, business and public administration, social work, Indian language and literature, Indian studies, education and English.

LOS ANGELES (FEB. 21) PR NEWSWIRE - Northrop Corporation (NYSE: NOC) today reported a decrease in sales and a net loss of $63.5 million in 1989. The net loss was due to provisions for increased costs on a number of fixed-price research and development contracts, the large majority of which were reported previously during the year. Since early 1988, Northrop has refused to accept fixed-price contracts for research and development.

At Dec. 31, 1989, Northrop's business backlog stood at $5.6 billion, compared with the $4.9 billion recorded at the end of 1988.

The company yesterday concluded the sale and partial lease-back of its headquarters complex in Century City. Proceeds of $218 million were received in cash and were used to reduce short-term debt to $424 million. Of the total pretax gain of $136 million resulting from the sale, $102 million will be recognized in 1990, with the balance to be deferred and amortized into income over the 10-year lease of Northrop's corporate space in the building it now occupies. After-tax earnings and shareholders' equity during the first quarter of 1990 will benefit by $67 million or $1.42 per share.

For the year ended Dec. 31, 1989, Northrop's sales declined to $5.2 billion from the $5.8 billion recorded in 1988. The $63.5 million net loss in 1989 compares to net income of $104.2 million in 1988, which had included a favorable one-time $135.1 million tax adjustment--$2.87 per share. The 1989 loss per share amounted to $1.35, versus earnings per share of $2.22 reported a year ago.

Northrop's fourth quarter sales decreased to $1.33 billion from the $1.73 billion in the corresponding quarter of last year. The net loss for the final quarter of 1989 was $16.6 million, or $.35 per share, compared with a net loss of $86.1 million in the fourth quarter of 1988, equivalent to $1.83 per share. In the fourth quarter the company made provisions of $28 million on fixed-price research and development programs.

Northrop had an average of 46,985,586 shares outstanding during 1989, compared with 46,966,122 during 1988.

HOUSTON (FEB. 21) PR NEWSWIRE - The board of directors of Service Corporation International (SCI) (NYSE: SRV) and Robert L. Waltrip, chairman and chief executive officer, announced today the appointment of L. William Heiligbrodt as president and chief operating officer of SCI.

Heiligbrodt has served on SCI's board of directors since 1975. He joined the company in 1988 and subsequently was named executive vice president of SCI and president and chief executive officer of Provident Services Inc., a wholly owned subsidiary of SCI.

Heiligbrodt, 48, previously was chief executive officer of WEDGE Group Incorporated, a Houston based multi-industry holding company. He was formerly chairman of Texas Commerce Bank and vice chairman of Texas Commerce Bancshares, Inc., the parent of Texas Commerce Bank.

Today, the board also named Samuel W. Rizzo, 54, executive vice president and chief financial officer of SCI. Rizzo joined SCI in 1987 as vice president and executive assistant to the chairman. He is a Certified Public Accountant.

In the company's funeral division, the board named W. Blair Waltrip, 35, chief executive officer, and John W. Morrow, 54, president of the division.

Victor M. Evans, 50, was named president of the company's cemetery division.

Henry M. Nelly III, 45, was named president of Provident Services Inc. SCI is the largest owner and operator of funeral homes and cemeteries in North America. The company owns 560 funeral homes in the United States and Canada. It also owns and operates 130 cemeteries in North America. SCI's wholly owned subsidiary, Provident Services Inc., serves the financial needs of the funeral industry. The company has assets in excess of $1.5 billion.

LOS ANGELES (FEB. 21) PR NEWSWIRE - R.J. Stegemeier, chairman, president

and chief executive officer of Unocal Corp. (NYSE: UCL) today was elected a member of the board of directors of Northrop Corp. (NYSE: NOC).

Stegemeier's election coincides with the retirement today of Earle M. Jorgensen, 91, after 36 years of service on the Northrop board.

Stegemeier joined Unocal in 1951 and served during his career as president of the company's Science & Technology Division and, from 1980-85, as senior vice president of corporate development. He was named president and chief operating officer in 1985, chief executive officer in 1988 and chairman last year.

Jorgensen, founder of the steel company which bears his name and a major figure in the Los Angeles business, cultural and philanthropic community, has established a distinguished record of service on Northrop's board since he became a member in 1954.

CHAPEL HILL, NC (FEB. 21) PR NEWSWIRE - J. Allen Fine, President and Chairman of the Board of Investors Title Company (NASDAQ-NMS: ITIC), announced that for the three months ended December 31, 1989, premiums written increased 7 percent from $2,096,371 to $2,248,725, investment income increased 19 percent from $189,672 to $225,984, revenues increased 8 percent from $2,290,541 to $2,468,589, and net income increased 6

percent from $336,712 to $358,280, all compared to the same quarter in 1988. Net income per share totaled $.13 for the fourth quarter, an increase of 8 percent from $.12 per share in the fourth quarter last year.

Fine noted that the company was very pleased with progress made in the fourth quarter as volume increased every month compared to last year. Fine believes these increases are the result of intensified sales efforts in traditional markets and increased penetration in new markets.

For the twelve months ended December 31, 1989, premiums written decreased 3 percent from $8,309,417 to $8,048,122, revenues decreased 2 percent from $9,051,586 to $8,914,851, and net income decreased 16 percent from $1,677,890 to $1,417,700, all compared to the same twelve month period in 1988. Net income per share totaled $.50, a decrease of 15 percent compared to $.59 for the same period in 1988.

Investors Title Company is a publicly held North Carolina company whose stock is traded on the NASDAQ National Market (Symbol: ITIC). The Company's two title insurance subsidiaries write title insurance in the states of North Carolina, South Carolina, Virginia, Tennessee, Illinois, Oklahoma, New York, Florida, Pennsylvania, Louisiana and Indiana.

Another subsidiary, Investors Title Exchange Corporation, provides assistance to attorneys and certified public accountants in structuring delayed tax-free exchanges for their clients.

#90052p0374 02/21/1990 ~PR Newswire

MINNEAPOLIS (FEB. 21) PR NEWSWIRE - Diversified Energies Inc. (NYSE: DEI) said today that its energy measurement unit has signed a contract to sell a package of its AccuRead(R) automated meter reading system to Philadelphia Gas Works (PGW) -- one of the largest municipally owned natural gas distribution utilities in the United States.

PGW is owned by the City of Philadelphia and is privately operated by the non-profit Phildelphia Facilities Management Corp. It serves nearly 530,000 customers within the 129-square-mile city limits of Philadelphia. PGW completed testing of the AccuRead system on its meters in November of 1988.

PGW is the first municipally owned natural gas utility to begin using the AccuRead system.

Under its contract with DEI's Minneapolis-based EnScan company, PGW will purchase 2,000 units of the AccuRead system. PGW will install the units

on meters of customers who will participate in a new payment assistance program. Guidelines of the payment assistance program require monitoring of consumption on actual meter readings.

"However, because most of PGW's meters are located inside the homes, lack of access would make it more difficult for PGW to get those actual monthly readings," said John D. Somrock, chief executive officer of EnScan. "The AccuRead system will enable PGW to cost-effectively do that."

Fourteen investor-owned and public utilities in the United States and Great Britain are currently doing large-scale installations of the AccuRead system or are testing the system on their gas, electric or waters meters.

EnScan's parent company, Diversified Energies Inc. is a Minneapolis-based energy services, products and communications corporation that is traded on the New York Stock Exchange under the symbol: DEI.

#90052p0377 02/21/1990 ~PR Newswire

FT. LAUDERDALE, FL (FEB. 21) PR NEWSWIRE - Golden Valley Microwave Foods, Inc. (NYSE: GVF) today told a gathering of financial analysts that it has granted three packaging companies non-exclusive licenses for Golden Valley's patents regarding flexible microwave- reactive materials to manufacture microwave popcorn packages.

The licenses include both initial fees and ongoing royalties, which will be shared by Golden Valley and General Mills, under an earlier license agreement between these two companies. The licensees receive non-exclusive rights to manufacture microwave popcorn packages incorporating Golden Valley's patents, as well as a full release from past infringement.

Royalties may, at the option of the licensee, be put into an escrow account, until such time as a pending lawsuit against two other sellers of microwave popcorn products is resolved. In that litigation, management is vigorously asserting the company's rights under patents issued in 1988 and 1989.

In making the announcement, Golden Valley reaffirmed its previous statements that it intends to enforce its patents vigorously and to take appropriate legal action when necessary to stop unlicensed infringement of its patent rights.

The patents issued April 5, 1988, and Nov. 7, 1989, cover the flexible packaging material used by Golden Valley and General Mills in their microwave popcorn products. The material consists of a strip of metallized film (or heating strip) which is laminated inside a stabilizing envelope consisting of a food-safe paper sheet on each side of the heating strip.

At the gathering of analysts, Golden Valley also reported on current developments regarding ACT II microwave french fries which utilize the company's patented microwave reactive packaging. The product is currently in limited selected regional markets -- the states of Minnesota, Wisconsin and, most recently, Washington -- and customer response has been exceptionally strong.

While production capacity is limited currently, the company is exploring available alternatives with equipment vendors to supply production equipment that will allow Golden Valley to expand into additional markets.

Anticipated dates for further expansion cannot be determined at this time, but sales to Golden Valley from ACT II french fries will be less than 5 percent of the company's net sales in 1990. Based upon preliminary discussion with all affected parties, microwave french fries could generate annualized sales to the company in excess of $50 million by the end of 1991.

Golden Valley Microwave Foods markets food products that it develops and produces specifically for preparation in microwave ovens.

BALTIMORE (FEB. 21) PR NEWSWIRE - The board of directors of Baltimore Bancorp (NYSE: BBB), the parent company of The Bank of Baltimore and Municipal Savings Bank, F.S.B., today announced a 9 percent increase in the company's regular quarterly dividend from $.1375 per share to $.15 per share.

This is the sixth time the company has increased its regular quarterly dividends since becoming a public corporation in late 1984.

The dividend is payable April 1, 1990, to stockholders of record as of the close of business March 16.

The company also announced today that its board of directors had authorized the repurchase of up to 500,000 shares of common stock. The

shares would be purchased in open market transactions on the New York Stock Exchange, block purchases, or otherwise, and would be used to fund issuances of stock under the corporation's stock option and incentive plans.

In commenting on the board's action, Harry L. Robinson, chairman and chief executive officer of the corporation, stated that while purchases of Baltimore Bancorp's common stock would not necessarily be made at current share price levels, the corporation wished to have the flexibility to make opportunistic purchases of stock in circumstances where such purchases would be advantageous to the corporation and its stockholders.

Baltimore Bancorp had consolidated total assets of $3.5 billion at Dec. 31 1989.

#90052p0394 02/21/1990 ~PR Newswire

NEW YORK (FEB. 21) PR NEWSWIRE - Chevron Corporation today announced that its wholly owned subsidiary, Chevron Overseas Petroleum, Inc., through its operating unit in Papua New Guinea, Chevron Niugini Pty. Ltd., has proposed to the joint venture participants to file for a development license for its Iagifu/Hedinia and Agogo fields on May 1. The development of these fields has been designed the Kutubu Project, named for the region in which the fields are located, some 350 miles north of the coastal capital of Port Moresby.

Chevron Niugini, as operator of the PPL 100 exploration permit in the Southern Highlands Province of Papua New Guinea, and on behalf of the joint venture, has been drilling appraisal wells beyond its license requirements since the Iagifu discovery in 1986.

Ken Derr, chairman and chief executive officer of Chevron Corporation, told a meeting of security analysts in New York today that appraisal drilling indicates that the reserves established to date might well justify commercial development.

The current plan is viewed as a cost-effective, safe, and environmentally sensitive development plan for the fields. Throughout all operations in Papua New Guinea, as elsewhere around the world, Chevron is committed to preserving the environment.

To date, the PPL 100 joint venture has made investments of about $250 million on the evaluation of the Iagifu/Hedinia and Agogo fields, including about $40 million in engineering studies alone.

Chevron believes that the development of the Iagifu/Hedinia and Agogo fields as a combined project will prove economically feasible. The Hedinia 9X and Agogo 4X wells are currently drilling, and, subject to positive results, are expected to complete the current appraisal program for the Iagifu/Hedinia and Agogo fields.

Chevron is in the process of preparing to submit a petroleum development license application for final approval by the joint venture participants. Subject to approval, the application will be submitted in May. Current proposals anticipate development expenditures of over $800 million with a target of production start-up in mid-1992 at a rate of about 100,000 barrels of oil per day.

TROY, MI (FEB. 21) PR NEWSWIRE - The Bendix Safety Restraints Group of Allied-Signal Automotive and Morton International's Automotive Safety Products Group today announced the creation of a 50/50 joint venture partnership to assemble automotive airbag modules for the passenger side.

The joint venture, to be called Morton Bendix, will have a facility in Maryville, Tenn. Morton Bendix expects to supply automobile manufacturers beginning with model year 1992 vehicles and plans to be able to supply up to 1.8 million passenger side airbags as demand for the product grows.

"Behind Morton Bendix are the resources of two major U.S. corporations, Morton International and Allied-Signal Inc.," said Robert L. Cox, vice president and group executive, Bendix Safety Restraints, and K.D. Holmgren president of Morton's Automotive Safety Products Group.

"We have had a teaming arrangement between Morton and Bendix since April 1988 to provide the automotive industry with a systems approach to their passive restraint needs. With this joint venture, we have committed additional resources to provide customers with an optimally located source of passenger airbag modules," they added.

Bendix Safety Restraints is one of the largest independent suppliers of occupant restraint systems in North America and it has a growing presence in the European market. The Bendix Group's products include seat belts, airbags and motorized passive restraints.

Allied-Signal Automotive is part of Allied-Signal Inc. (NYSE: ALD), an advanced technology company with businesses in aerospace, automotive and engineered materials.

Morton's Automotive Safety Products, Ogden, Utah, has been developing airbag inflators since 1968, and is the leading manufacturer of inflators for airbag systems in the world, supplying 12 automobile manufacturers. Since 1988, it has been Chrysler Motors Corporation's sole supplier of inflators. Automotive Safety Products expects to triple revenues this fiscal year to $150 million.

Morton International (NYSE: MII) is a Chicago-based manufacturer and marketer of specialty chemicals, salt and automotive inflatable restraint systems.

NEWTOWN, PA (FEB. 21) PR NEWSWIRE - SPS Technologies (NYSE: ST) today reported revised 1989 earnings of $16,080,000 or $3.21 per share, which are lower than the originally reported 1989 earnings of $18,090,000 or $3.62 per share.

The revised earnings reflect adjustments related to inventory at one of the company's plants, determined subsequent to the original earnings release on Feb. 1, 1990.

The revised earnings are up 34 percent from the previous year's net earnings of $11,975,000 or $2.42 per share, which included losses related to the materials handling segment discontinued in 1988. On the basis of continuing operations, 1989 earnings were down 15 percent from $18,980,000 or $3.84 per share, reported in 1988.

Net sales for 1989 were $423,190,000, a 1 percent decrease from the 1988 level of $427,327,000.

Revised net earnings for the fourth quarter of 1989 were $1,366,000 or $.27 per share, which are lower than the originally reported fourth quarter earnings of $3,376,000 or $.67 per share. Fourth quarter 1988 net earnings were $5,041,000 or $1.02 per share, and earnings before extraordinary item in the fourth quarter of 1988 were $4,807,000, or $.97 per share.

Net sales for the fourth quarter of 1989 were $99,778,000, compared to $109,292,000 for 1988.

NAPERVILLE, IL (FEB. 21) PR NEWSWIRE - Nalco Chemical Co. (NYSE: NLC) announced that Christian L. Campbell will join the specialty chemicals manufacturer as its new general counsel and secretary on March 1.

Campbell, a partner since 1983 in the Chicago law firm of Sidley & Austin, will replace Louis H. LeMieux, Nalco's vice president, secretary and general counsel. LeMieux is retiring after 30 years of service with the company.

Campbell received his law degree from Harvard University in 1975, the same year he joined Sidley & Austin. He has experience in litigation, acquisitions, patents, joint venture formations and international distributorships. He earned an undergraduate degree and a master's degree in economics both from Northwestern University in 1972.

Campbell currently resides on Chicago's Near North Side with his wife, Heather, and daughter, Amelia.

HARTFORD, CT (FEB. 21) PR NEWSWIRE - Loctite Corporation (NYSE: LOC) today announced the acquisition of Banite Inc. of Buffalo, N.Y., effective Feb. 9, 1990.

Banite is a leading manufacturer of specialized, branded waterless hand cleaners for the industrial user, the professional mechanic and the do-it-yourself consumer. The acquisition of Banite will add a family of specialized, branded products that are synergistic to Loctite's current product offering and distribution. The combined strengths of Loctite's distribution and Banite's brand name will enhance growth opportunities throughout consumer and automotive aftermarket channels. Terms of the transaction are not disclosed.

Loctite Corporation, worldwide market-driven specialty chemical company, ranks among the leading suppliers of proprietary, high- performance adhesives, sealants, coatings, specialized brand-name chemicals and electroluminescent lamps and lighting systems. Principal markets include industrial, electronics, specialized medical, professional automotive and consumer.

#90052p0432 02/21/1990 ~PR Newswire

STAMFORD, CT (FEB. 21) PR NEWSWIRE - Sprague Technologies, Inc. (NYSE: SPG) today reported a net loss for the year 1989 of $96.8 million, or $5.31 per share, compared to net income of $13.2 million, or $.72 per share, for 1988. Included in the results for 1989 are provisions for restructuring totalling $79.7 million ($67 million for continuing operations) due to the planned disposition of the company's ceramic capacitor and filters and magnetics businesses, certain plant closings and the reorganization of the company's semiconductor group.

The loss from continuing operations before income taxes for 1989 was $75.4 million compared to income from continuing operations before income taxes of $21.4 million for 1988. Net sales from continuing operations for the period were $344.2 million, vs. $387.4 million for the similar period in 1988.

Kosnik reaffirmed that the company was continuing to evaluate the spin-off of the semiconductor group, but there was nothing further to report at this time. He noted that in the interim the semiconductor group would be treated as a discontinued operation for accounting purposes. The year-end restructuring provision included $12.7 million to accommodate the reorganization of the semiconductor group.

For the fourth quarter of 1989 Sprague reported a net loss of $51.5 million, or $2.82 per share, compared to net income of $1.1 million, or $0.06 per share, for the fourth quarter of 1988. Included in the 1989 fourth quarter is a provision for restructuring of $40 million.

The loss from continuing operations before income taxes was $34.9 million in the fourth quarter of 1989 compared to income from continuing operations before income taxes of $1.7 million for the same period in 1988. Net sales for the period were $71.3 million, vs. $95.3 million for the similar quarter in 1988. Excluded in the fourth quarter of 1989 are the results of the company's ceramic capacitor operations and filters and magnetics business units which were classified as businesses held for sale as of July 1, 1989. These operations accounted for $12.2 million in sales and $1.6 million in operating losses in the fourth quarter of 1988.

Sprague Technologies is a worldwide manufacturer of capacitors and other electronic components.

#90052p0438 02/21/1990 ~PR Newswire

PITMAN, N.J. (FEB. 21) PR NEWSWIRE - K-Tron International Inc. (NASDAQ: KTII) today reported that revenues reached record levels while new product launch costs and an unfavorable foreign exchange rate were primarily responsible for reduced profits for 1989.

For the fourth quarter of 1989, revenues increased by 10 percent to $15.7 million compared to $14.4 million in 1988. Net earnings for the latest quarter were $.5 million or $.17 per share compared to $1.3 million or $.45 per share in 1988.

For the year, revenues increased 4 percent to $57.6 million and net earnings declined by 33 percent to $3.2 million or $1.08 per share. In 1988 revenues were $55.3 million and net earnings were $4.7 million or $1.60 per share.

In making the announcement, Chairman and Chief Executive Officer Leo C. Beebe described the results for the year and particularly the fourth quarter as disappointing. He said the company underestimated the investment required to penetrate the plastics blending market. "However," he added, "we continue to believe that the investment we are making to launch the new Graviblend(TM) product positions K-Tron well for the future."

Beebe stated that the company's feeder business remained strong in Europe and the Far East during the year but was off somewhat in the United States a condition he attributed to the lagging manufacturing sector and softening U.S. economy.

Results were also depressed by non-recurring inventory adjustments and costs associated with staff reductions during the fourth quarter. The domestic workforce was reduced by 12 percent late in 1989, primarily in overhead positions, to position the U.S. feeder business for improved profitability in the future.

Beebe indicated that shipments of its carton merchandising security system to R.J. Reynolds Tobacco had increased during 1989 and that the Company is actively seeking additional market possibilities for a newly developed universal security system.

The company also made good progress during the past year in strengthening its balance sheet, reducing inventories, improving cash flows and reducing debt by approximately $3 million, according to Beebe.

Summarizing the outlook for K-Tron, Beebe said, "We are controlling our expenses and improving productivity to offset reduced U.S. manufacturing momentum, while sustaining growth and progress in world feeder and blender markets and insecurity systems. We have the human, financial and technical resources to maintain our leadership position in 1990 and beyond."

K-Tron International Inc., through its subsidiaries, is a major producer of gravimetric feeders, blenders and security systems with facilities in the United States and Europe, and customers throughout the world.

CHICAGO (FEB. 21) PR NEWSWIRE - EAC Industries, Inc. (AMEX: EAC), announced today that a class action lawsuit by the owner of 100 shares has been filed against the company and its board of directors in the Federal District Court in Chicago. The lawsuit alleges that the company and its board of directors violated the federal securities laws by misleading the public about the financial conditions and prospects of EAC during the period from May 19, 1989 through Feb. 8, 1990.

Daniel E. Virnich, president and CEO of the company since September, 1989, said today that "the lawsuit is completely without merit. The company has kept the market informed of all material developments in a timely fashion."

EAC is a manufacturing company serving the hardware industry and point-of-purchase advertising market.

GREEN BAY, WI (FEB. 21) PR NEWSWIRE - Terex Corporation (NASDAQ: TERX) announced today that its Fruehauf Trailer division broke ground for a manufacturing facility designed and dedicated specifically for the production of refrigerated vans.

The approximately 100,000-square-foot plant, to be built in Indianola, Iowa, will employ an estimated 130 people. The facility will replace a 700,000-square-foot van production facility in Harrisburg, Pa., that the company previously announced it would close.

The Indianola plant will substantially increase the efficiency of Fruehauf Trailer's refrigerated van manufacturing operations. In addition, the location of the new plant, in America's heartland, will facilitate lower-cost distribution to the company's national customer base.

Construction of the Indianola plant is expected to be completed by Aug. 1, and the first trailers produced by the facility are expected to be shipped to customers by mid-November. The trailers being developed for production at this plant will incorporate numerous design elements resulting from customer response and careful attention to the demands of this market.

T. Neal Combs, president and chief executive officer of Fruehauf Trailer, said, "Fruehauf maintains its industry leadership by continually enhancing the quality of its products and plants. This new facility will use advanced state-of-the-art industrial engineering techniques to both maximize production efficiency and ensure the high standards of quality that our customers have come to expect."

Randolph W. Lenz, chairman of Terex, noted, "Our decision to build this new plant is but one of the many steps we have taken to enhance Fruehauf's manufacturing and distribution operations. The move to Indianola will allow us to better respond to the needs of Fruehauf's customers and incorporate their suggestions into a strengthened product line."

He added, "The Indianola plant demonstrates our willingness to make capital investments that increase our productive capabilities and operating efficiency, particularly when they increase the quality of our

products and reduce operating costs."

Fruehauf Trailer is the world's leading manufacturer of truck trailers, making a wide range of van, refrigerated, platform, tank, dump trailer and other models. Terex's heavy equipment group -- which includes Terex Equipment Limited, Koehring Cranes & Excavators, Unit Rig, and Northwest Engineering Company -- designs, manufactures and markets heavy-duty, off-highway, earthmoving, construction, and material handling equipment for the mining, construction, logging and other industries.

#90052p0472 02/21/1990 ~PR Newswire

BURBANK, CA (FEB. 21) PR NEWSWIRE - Richard Frank, president of The Walt Disney Studios, announced today that Buena Vista Television (BVT), the television syndication subsidiary of The Walt Disney Co. (NYSE: DIS), has filed an antitrust lawsuit against Fox Broadcasting Co., Fox Television Stations Inc., the Fox Television Affiliates Assoc. and the Fox Children's

Network.

In a separate action, The Walt Disney Co. formally requested the Federal Communications Commission to deny Fox's recent request for a waiver from major restrictions governing television networks.

Disney's actions were prompted primarily by Fox's efforts to prevent independently owned Fox affiliate stations from carrying "The Disney Afternoon," a syndicated two-hour afternoon children's program service distributed by BVT.

"Fox has undeniably earned its status as a fourth television network," Frank said. "But now it wants to bypass laws governing network behavior in its effort to monopolize the children's television market and force its affiliates into a conspiracy to achieve this end.

"American kids have voted through their viewing habits and have consistently and unarguably determined that Disney animated programming is their number one choice for afternoon viewing. Having lost this battle, Fox now wants to deprive children of these shows by coercing its affiliates to buy Fox's programming rather than Disney's.

"Fox's effort to win a waiver from FCC rules governing the networks underscores the broader issues at stake. In seeking the waiver, Fox has made clear that it wants to play by its own rules -- or, rather, no rules at all -- in order to gain unfair advantage over its competition. Make no mistake about it, the waiver request, if granted, would give Fox unprecedented power as both a network and syndicator -- something that should be deeply troubling to producers of television programming and, to no less extent, viewers of television programming.

"It is remarkable that in requesting such extraordinary relief, Fox has offered no financial evidence whatsover to document why the waiver is needed. This lack of evidence is really not suprising when one considers the fact that the Fox Broadcasting Co. is, in fact, a self-described 'Goliath.' It has achieved this status in part thanks to the extraordinary success it has already achieved in three short years. Furthermore, it is the flagship of Newscorp, a media conglomerate with assets greater than two of the three established networks.

"But even if its finances were not so robust, Fox's behavior in the market should clearly disqualify it from any consideration of such governmental favoritism.

"We do not take these actions lightly, but we feel we have been left no other choice."

In the suit, filed in United States District Court in Los Angeles BVT

charges that Fox is acting in restraint of trade by coercing its affiliates to carry Fox's children's programming. BVT claims in the lawsuit that the defendants have intimidated their affiliate stations with threats that, if they sign contracts to air the popular Disney programming the stations will be dropped from the Fox network. BVT demands compensatory damages in an unspecified amount, punitive damages and a permanent injunction against Fox's wrongful practices.

#90052p0474 02/21/1990 ~PR Newswire

WICHITA, KS (FEB. 21) PR NEWSWIRE - The United States Air Force has chosen the team of McDonnell Douglas, Beech Aircraft Corporation and Quintron to provide a Tanker Transport Training System (TTTS) that will be used for specialized undergraduate pilot training.

If all of the TTTS contract options are exercised, Beech Aircraft will provide 211 Beechjets to the Air Force beginning in 1991 through 1997. They will be used to train Air Force pilots who will one day crew in-flight refueling tanker aircraft such as the KC-10 and KC-135, and transport aircraft such as the C-5, C-141 and C-17.

Beech's portion, including acquisition of the aircraft and logistics support, could amount to approximately $1 billion throughout the life of the program. "This could simply be the largest government acquisition of general aviation aircraft in our industry's history," said Max Bleck, Beech president. "We are very pleased to have been selected by the Air Force," he added.

In order to meet aircraft delivery schedules Beech will begin adding people to the payroll for TTTS in 1991. Eventually, more than 500 manufacturing jobs will be created to support the program.

The additional employees will be located at Beech facilities in Wichita and Salina, Kansas. Beech will continue with plans to add approximately 300 employees to its workforce this year to accommodate planned production increases in its existing commercial and military business.

If the options are exercised, deliveries of the TTTS Beechjet are scheduled to occur as follows:

1991	1
1992	28
1993	36
1994	48
1995	39

1996	43
1997	16
Total	211

Beech will expand its Wichita Plant IV facility by more than 100,000 square feet, doubling the size of the existing facilities over the next 18 months to accommodate the increased Beechjet production requirements.

In addition to providing aircraft, Beech, through its wholly owned subsidiary Beech Aerospace Services, Inc. (BASI), will provide contractor logistic support for the Beechjets when they enter service. BASI, based in Jackson, Miss., has a long- established reputation for providing aircraft support service to all four branches of the military.

McDonnell Douglas, the team leader for the TTTS contract, will coordinate the training system and syllabus, and is responsible for system integration, while Virginia-based Quintron will provide the flight simulators. The Beechjets the Air Force will receive are designated 400T models and are similar to the Beechjet 400A which Beech sells to the commercial market for use as corporate transports.

As configured for the Air Force, the Beechjet will have cockpit seating for a student who will fly in the left seat, an instructor in the right seat, plus a third crew seat for another student immediately behind. In addition, the Air Force version will receive structural enhancements to accommodate a high number of landings per flight hour, increased bird strike capability and an additional fuselage fuel tank for longer flight endurance. The 400T will also have single point pressure fueling capability, and fewer cabin windows.

The TTTS Beechjets will be equipped with Rockwell Collins avionics packages, including a 5-tube EFIS (Electronic Flight Instrumentation System), a turbulence detection radar system, a digital autopilot, a central diagnostics and maintenance system, and a TACAN with air-to-air capability. The avionics will be housed in the pressurized cabin environment.

In developing specifications for the TTTS airplane, the Air Force specifically requested an off-the-shelf FAA-certified business jet to reduce development costs and provide the most training value for the tax dollar.

The TTTS Beechjet is the latest in a long line of Beechcraft airplanes which have served in the military training role. During World War II the majority of bomber pilots and navigators trained in Beechcraft AT-10 and AT-11 aircraft. Thousands of Air Force and Navy pilots received their initial flight training in Beech T-34A and T-34Bs in the 1950s and 60s. Today all U.S. Navy pilots receive their primary flight training in Beech

T-34C aircraft, and multi-engine Navy pilots further develop their skills in Beech T-44As. Many Air Force, Navy, Army and Marine pilots today maintain proficiency in C-12 versions of the Beechcraft Super King Air.

Beech Aircraft Corporation is a subsidiary of Raytheon Company, (NYSE: RTN) an international technology-based company active in electronics, aviation, appliances, industry services, construction and publishing.

DALLAS (FEB. 21) PR NEWSWIRE - Motel 6 L.P. (NYSE: SIX) today announced the acquisition of six motels with a total of 690 rooms which previously had been operated by Texian Inns.

Two of the motels are in the San Antonio area, two in the Dallas market, one in Austin, and one in Houston.

''The motels were converted to our operation today,'' said Motel 6 President and Chief Executive Officer Joseph W. McCarthy, ''and provide us with an excellent opportunity to expand our market share in these resurging Texas markets.''

According to McCarthy, the transaction was an all-cash purchase of land and buildings from Gill Savings Association of San Antonio. The sale was supervised by the Resolution Trust Corportion.

Motel 6 L.P., whose partnership units trade on the New York Stock Exchange is the nation's largest chain exclusively company-operated economy motels with 532 locations and 61,107 rooms in 42 states.

#90052u0448 02/21/1990 ~United Press International

ANCHORAGE, ALASKA (FEB. 21) UPI - Exxon must return to the oily shores of Alaska this spring and summer to finish mopping up the nation's worst oil spill, extending a cleanup operation that cost an estimated $2 billion, the Coast Guard said.

Exxon cleanup crews will be back on the beaches by May 1, Coast Guard Rear Adm. David Ciancaglini announced Tuesday night at a meeting of Exxon and government agencies involved in the massive oil spill.

''We've always said we're going to do whatever the Coast Guard asks,'' said Otto Harrison, Exxon general manager for the cleanup.

Exxon won't return with last summer's army of 12,000 workers and barges mounted with high-pressure hot-water hoses, Harrison and Ciancaglini said.

The admiral said he expected a smaller force of Exxon workers to attack remaining oil with shovels, tilling, excavation, booms, oil-eating bacteria and whatever else will work on the crude left in the environment.

The announcement was greeted with cautious optimism by the state of Alaska, which has long clamored for Exxon to return to the job, but environmental officials were uncertain just how much cleaning Exxon was going to do.

''This will not be just an exercise,'' Ciancaglini insisted. ''There's no question about it. There will be a cleanup.''

The 987-foot Exxon Valdez crashed into Bligh Reef a few minutes after midnight last March 24, ripping itself open on the rocks and spewing nearly 11 million gallons of crude oil into Prince William Sound - killing up to 270,000 sea birds and thousands of otters, causing eagles to abandon nests, ruining fishing and leaving native villagers with deep uncertainty about their future survival off the sea.

By the time the oil industry mounted any meaningful response to the spill, winds and waves had carried crude far and wide. Exxon eventually mounted a massive cleanup, spending an estimated $2 billion, but the job was incomplete when Exxon called off its crews for the winter Sept. 15.

In the stormy winter months since then, Mother Nature has scoured some exposed beaches, but oil lingers on unexposed shores and below the surface, and Ciancaglini said Exxon's job will be to remove as much of it as possible.

There has been considerable speculation about Exxon's future plans ever since last July, when an internal memo written by Harrison to Exxon managers, and later leaked, stated that Exxon was unwilling to commit to a spring cleanup and further unwilling to negotiate that.

Exxon softened its stance under pressure and agreed to follow whatever reasonable orders the Coast Guard issued.

''Exxon works for us, for the FOSC,'' said Ciancaglini, the federal on-scene coordinator, or FOSC, for the spill and the top Coast Guardsman in Alaska. ''There is going to be a cleanup.''

Now the commitment is made.

''The decision was obvious,'' the admiral said. ''We all knew there was going to be oil out there... There was no question in anybody's mind we had to come back here.''

The purpose of the renewed cleanup, he said, ''is to return the environment as close to the state it was in before the spill occurred. But it's probably never going to be the way it was.''

Under Ciancaglini's orders, Exxon must submit a general cleanup plan by mid-March for Coast Guard comment by March 25, a year and a day after the big spill. In April, an ambitious beach survey walkathon will help determine cleanup methods for each site and Exxon will submit a work plan. Work will start in May and continue until weather stops it, Ciancaglini said.

"It's extremely important to pick up as much oil as possible," the admiral said. "We're going to do the best job we can to clean up this spring and summer."

State and federal officials are especially concerned about marine mammal pupping areas and subsurface oil.

Prince William Sound still has ''hot spots'' of oil, said John Whitney, a scientist for the National Oceanic and Atmospheric Administration. Those spots are larger "hot areas" of oil, said Steve Provant, state on-scene coordinator.

Exxon, the Coast Guard, NOAA and the state Department of Environmental Conservation all agreed that winter storms have worked on the oil in

exposed high-energy areas, but sheltered bays are oily and subsurface crude remains.

LONDON (FEB. 21) UPI - Stock prices were broadly lower in moderate trading at midday Wednesday on the London International stock exchange dragged down by the sharp decline earlier in Tokyo.

The blue-chip Financial Times 100-stock index, which fell 20.1 points Tuesday, was off 29.7 points at 2,247.3. The narrower top 30 industrial average was down 20.7 points at 1,778.3.

Volume amounted to around 265 million shares, compared with 230 million shares traded during the same period Tuesday. Analysts reported general, broad-based selling following the 3.15 percent decline on the Japanese stock market.

Among the most widely traded stocks, Shell Transport & Trading lost 15 cents to $7.44 after reporting fourth-quarter results and a lower-than-expected final dividend.

Imperial Chemical Industries fell 18 cents to $16.43 as analysts suggested that investors remain cautious on the stock.

#90052u0966 02/21/1990 ~United Press International

MIAMI (FEB. 21) UPI - Eastern Airlines's exclusive right to submit a bankruptcy reorganization plan ended at midnight without a company filing, opening the way Wednesday for anyone to submit a plan to reorganize the crippled carrier.

Eastern spokesman Bob Hunter said the airline still expected to file a reorganization plan in a New York bankruptcy court soon, but did not know exactly when. "We're all sitting on pins and needles right now," Hunter said. There was no indication that anyone else was prepared to file a plan he said.

Texas Air, Eastern's parent company, announced Chairman Frank Lorenzo would hold a 1:30 p.m. news conference in New York Wednesday. A Texas Air spokesman would not comment on the subject of the news conference, except to say it concerned "a major development at a Texas Air subsidiary."

Texas Air was believed to have agreed to sell half of its System One computer reservation subsidiary to a General Motors Corp. unit for around $250 million, the Wall Street Journal reported Wednesday.

Eastern filed for Chapter 11 bankruptcy protection from creditors March 9, 1989, five days after the start of a bitter strike. Eastern spokeswoman Karen Ceremsak said Tuesday the airline still was negotiating with creditors over terms of the reorganization plan.

A Wednesday report in The Miami Herald said Eastern creditors were clammoring for a better deal from Eastern, but that Texas Air was reluctant to put up any more money.

Last month, Eastern offered creditors ten cents on the dollar in cash and 90 cents in notes and stock backed by the airline. At a two-day meeting that ended Tuesday, the creditors sought a better cash settlement and the assurance that Texas Air, rather than the weaker Eastern, would back the notes, the newspaper said.

"The creditors want Texas Air to come in and support the paper and they want Eastern to increase their cash offer and to work out a package where (Eastern) can continue to operate the airline," the newspaper quoted an unidentified source close to the creditors comimttee as saying.

Aslo quoting unidentified sources, The Washington Post said the proposals included giving the creditors 30 cents to 33 cents on the dollar, an ownership interest in Texas Air and securities from Continental Airline, another Texas Air subsidiary.

Texas Air said it could not extend a better offer, pointing to Eastern's low passenger loads, increased fuel costs and difficulties in convincing travel agents that the airline is reliable, The Herald report said. "They are bad-mouthing their own operation ... so they can give a lower price to creditors," the Herald source said.

Joel Zweibel, an attorney for the creditors committee, said the committee had filed a motion with the court allowing its financial adviser, Goldman Sachs, to seek a buyer for the airline. The committee represents Boeing, General Electric, Airbus, and other companies owed about $3 billion by Eastern.

Earlier this month, Eastern posted losses of $852.3 million for 1989 after asset sales. The airline expects to lose another $155 million in the first six months of 1990.

#90052u0984 02/21/1990 ~United Press International

TOKYO (FEB. 21) UPI - U.S. and Japanese aircraft manufacturers reached a basic agreement on joint development of Japan's FSX jet fighter, paving the way for the two companies to launch the long-delayed $7 billion project,

Mitsubishi Heavy Industries said Wednesday.

Mitsubishi, main contractor on the project, said the agreement was signed Tuesday with General Dynamics Corp., its U.S. partner. Based on the agreement, the two companies will form a joint team with two other Japanese sub-contractors - Kawasaki Heavy Industries Ltd. and Fuji Heavy Industries Ltd. - to launch the project at Mitsubishi's aerospace systems works in Nagoya, Japan.

The project calls for the development of a sophisticated support fighter, which will serve as Japan's mainstay defense aircraft in the early 21st century. The FSX will be based on the F-16 Falcon manufactured by General Dynamics for the U.S. Air Force.

Bowing to strong U.S. pressure, Japan abandoned its original plan to develop the jet domestically and agreed on the joint development formula. The project spawned controversy in the United States over the transfer of highly sensitive U.S. military technology to Japan. Some critics also expressed concern that the joint undertaking might jeopardize U.S. supremacy in the military aircraft industry.

General Dynamics has already provided Mitsubishi with the basic design and some technical data on the F-16 to help the joint team design the FSX, sources in the Japanese partner said.

They said major revisions are planned in the main wing and in electronic equipment aimed at making the FSX one of the world's most advanced and sophisticated fighters.

Japanese electronic firms and the Defense Agency's Technology Research Institute will together develop and manufacture most of electronic equipment for the project, the sources said.

Japan originally planned to complete the first prototype in fiscal 1993 and start deploying the fighters in fiscal 1997, but a new schedule will have to be set because the signing of the contract was delayed.

The government has set aside $238 million to cover initial costs of FSX development in fiscal 1990, beginning next April 1. The budget has yet to be approved by the Diet, Japan's parliament.

#90052u0995 02/21/1990 ~United Press International

NEW YORK (FEB. 21) UPI - NBC said Wednesday it was launching a joint venture with three other communications corporations to bring the first high-power direct broadcasting satellite service to United States by 1993.

"Cablevision Systems Corp., NBC, and The News Corp. Ltd., companies with experience in producing and marketing video programs, are joining with Hughes Communications Inc. to launch the high-power service to be called Sky Cable," NBC said.

Direct Broadcast System, or DBS, allows viewers to receive a wide range of programs in remote locations or areas where regular signals are blocked off. The companies said they expect the total investments to be about $1 billion.

The News Corp. is part of the media empire of Australian-born Rupert Murdoch. Murdoch's media interests include Twentieth Century Fox Films, Fox Broadcasting and the TV Guide weekly magazine.

The system will make 108 new channels available through digital video delivery and be used for high-definition television, a system expected to debut in the United States in the current decade.

NBC, a subsidiary of General Electric Co., last month announced a joint venture with several high-technology companies to bid for federal regulatory approval for an advanced television system, likely to be introduced in 1993, as a intermediary step before HDTV.

"The companies anticipate that this satellite venture will be the first to introduce HDTV to the United States on a broad consumer scale," NBC said. The direct broadcast system will be received by viewers through dishes less than ten inches wide that will sell for about $300, NBC said. Current dishes are ten-foot wide and sell for $2,000 to $3,000.

"Pursuing the DBS business, bolstered by the Hughes financing commitment, allows us to participate in an attractive new business, while continuing to concentrate on our core, free, over-the-air broadcasting business, which clearly remains the heart of NBC," Bob Wright, president and chief executive officer at the network said.

"At The News Corp., we have been busy launching, selling and delivering a new programming service in the United Kingdom," Murdoch said. "That service, Sky Television, utilizes direct broadcast satellite technology ... We expect to apply our experience to the development of Sky Cable."

Hughes Communications Inc. is a unit of GM Hughes Electronics Corp. Cablevision Systems is a leading cable programming and distribution company with more than 1.5 million subscribers.

#90052u1505 02/21/1990 ~United Press International

DALLAS (FEB. 21) UPI - Texas Instruments Inc. said Wednesday it has produced an experimental super memory chip able to store 16 million bits of information, the second such computer component to be unveiled in the United States within a week.

The semiconductor manufacturer, a leading U.S. manufacturer of chips for dynamic random access memory or DRAM, said it expects to begin commercial production of the new chip within 12 to 18 months.

TI disclosed the production of its superchip a week after International Business Machines Corp. announced it has produced a 16-million-bit superchip, which can hold the equivalent of 1,600 pages of text on a surface smaller than a postal stamp and retrieve information at the speed of 1/25th of a second.

In 1988, IBM invested close to $6 billion in research efforts, including about the superchip. The Armonk, N.Y., -based giant computer manufacturer, introduced four-million-bit chips last year, and is using them in all nine workstations and computers the company launched on the market last week.

TI said the new chips, when they come on line, will be used in TI products but will also be sold to other computer manufacturers. TI said it "believes it is at an equivalent stage with its major competitors, including IBM, in the 16-million-bit development effort."

Asked why TI didn't make its announcement earlier, TI spokesman Stan Victor said, "I don't think it is necessary to show who is first. It is good that both are in the early race for the 16-megabit."

TI and Hitachi Ltd., a major Japanese chip manufacturer, have a joint technology development agreement, but TI did not say whether the new superchip resulted from a joint research effort. Hitachi and several other Japanese competitors have their own 16-million-bit chip development program. They are also working on the next generation, the 64-million-bit superchip.

Victor said TI was solely responsible for designing the new chip and added that the computer component might incorporate some of the technology derived from its research efforts within the partnership with Hitachi.

However, TI did not disclose specifications about the chip's speed or architecture, nor did it say whether the experimental chip was produced on a standard line. The company wouldn't discuss the status of Hitachi's research for its own 16-million-bit superchip.

Victor said it had not been determined which TI plant would produce the new chip. TI has plants in Dallas as well as in Japan, Taiwan and Italy.

CHICAGO (FEB. 21) UPI - Kim Basinger, star of such movies as "9 1/2 Weeks" and "Batman," and Ameritech Corp.'s $14 billion pension fund have become partners in the actress' $20 million purchase of the town of Braselton, Ga.

Basinger announced last year she planned to turn Braselton, a family-owned

town near Atlanta with a population of 500, into a residential and commercial development that also could become a film production site.

Ameritech spokesman Steve Ford Wednesday said Ameritech's pension fund - not Ameritech, the communication giant - will be involved with Basinger. "Ameritech's pension fund is a very large fund," said Ford. "We have assets of $14 billion and use those assets to invest in a wide variety of things, including real estate."

Ford said $1.5 billion of the fund is in real estate but would not say how much money would be invested in the Basinger project. "In the grand scheme of things, it's a relatively small investment," he said. Ford said Basinger's brother, Mick, chief executive of the Braselton Basinger Limited Partnership, will manage the 1,800 acres.

WASHINGTON (FEB. 21) UPI - The Defense Department told Congress Wednesday it has offered to sell West Germany four MK-41 missile vertical launcher systems for $65 million and that they will be installed on Bonn's new F-123 frigates.

''This case will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Germany ...,'' the Pentagon said.

The prime contractor for the sale will be the Martin Marietta Corp. of Baltimore.

#90052u1692 02/21/1990 ~United Press International

BAL HARBOUR, FL (FEB. 21) UPI - New York labor leaders asked the AFL-CIO Wednesday for support in contract negotiations between the New York Daily News and 10 employee unions.

''The important thing is that we're getting support going in, instead of afterwards like happened in the Eastern Airlines and the Pittston coal strike,'' Edward Cleary, president of the New York State AFL-CIO, told reporters at the labor federation's executive council meeting.

Cleary said he was confident the organization's executive council would approve at its mid-winter meeting Thursday a resolution promising support for unions negotiating with the Daily News.

In other action, the AFL-CIO was to release later Wednesday a poll reflecting public image of labor in the post-Reagan era.

Cleary said the News, owned by the Tribune Co., appears bent on breaking the New York unions.

He pointed to the hiring of John Scanlon, who also was brought in to handle media relations for Eastern Airlines at the start of an employee strike last March, as well as the hiring of King and Ballow, a Nashville law firm with a union-busting reputation, as evidence of the newspaper's intent.

''We wouldn't be doing this (getting council support) if they were sitting down like normal people and negotiating a three-year contract, but they're not,'' Cleary said. ''They're engaging in extracurricular activities like hiring King and Ballow.''

George McDonald, president of Allied Printing Trades Council, said each of the 10 unions is negotiating independently, but their four-page list of proposals is ''modest'' and asks primarily for cost-of-living increases.

He said the Daily News has a 36-page proposal seeking a number of concessions from the unions in exchange for a one-year contract. The current contract expires Mar. 30.

''Their proposals tear into everything negotiated with unions since 1919 - welfare, hospitalization and pensions,'' McDonald said. ''The Tribune is not interested in staying in New York. They want to do a job on the unions.''

He charged the Tribune Co. with looking for a way out of the New York market because it does not want to invest the estimated $500 million needed to make the News competitive with The New York Times, Newsday and the New York Post.

During the last two contract negotiations in 1982 and 1987 the unions gave up $30 million on each occasion, McDonald said. They did so in 1987 at the request of Daily News officials, who wanted the paper to become profitable so it could go public, he said.

''All the officers became millionaires or multimillionaires after the Daily News went public, thanks to the union's $30 million in concessions '' McDonald said.

Meanwhile, the council called for the extension of most-favored nation status to the Soviet Union and separately to Lithuania, Latvia and Estonia for a one-year trial period. The classification would allow more trade with the Soviet Union and the three Soviet republics.

Closer to home, the council issued a statement that said the United States

has a morel obligation to fully implement the Panama Canal Treaty and to help rebuild trade unions suppressed under the dictatorship of deposed Panamanian strongman Manuel Noriega.

The AFL-CIO also selected Fang Lizhi, a labor leader in China, as the recipient of its 1990 George Meany Human Rights Award. Lizhi was not able to accept the award in person, but in a letter to AFL-CIO President Lane Kirkland he said his selection was a symbol of the strong support to the ''pro-democratic and pro-workers rights movement of China's workers from their counterpart in the United States.''

#90052u1699 02/21/1990 ~United Press International

DETROIT (FEB. 21) UPI - The head of General Motors Corp.'s International Operations said Wednesday that China, Southeast Asia and India offer the largest long-range growth potential for the carmaker, while getting into Eastern Europe is a near-term priority.

GM Executive Vice President John F. Smith Jr. also told the Automotive Press Association that countries like Spain and Portugal could suffer as their potential business is diverted through new associations made in Eastern and Central Europe.

"But companies will not go to Eastern Europe for low wage rates alone," Smith said, adding that he believed wages, which in some cases were less than 20 percent of Western pay levels, would rise quickly and that the six-year wait for cars by consumers in Eastern bloc countries would eventually disappear.

He said one of the top priorities of GM's International Operations is to reestablish itself in East Germany after an absence of more than 40 years, and to explore the possibilities of expanding into Czechoslovakia. "But it's still too early to tell," Smith said, adding several other automakers have already lined up to talk with Czech automaker Skoda.

"Our priority is to go it alone if we can," Smith said, although he conceded that GM would most likely have to negotiate any business in those countries under some sort of partnership. Service replacement parts would also be a lucrative business for GM as sales of used Western European cars grew in Eastern Europe, Smith noted.

GM of Europe announced last month an agreement with Hungarian truck maker RABA to build engines and cars by 1992, with GM holding a 67 percent interest. GM is also planning to establish a private sales network in Hungary in about five years' time, Smith said.

"The events of Eastern Europe have really taken the focus off EC92," Smith

said, referring to the economic integration of Western Europe in 1992. "But we feel that even without any involvement in Eastern Europe, our market will expand."

The Western European car market is now expected to grow at record levels, surpassing the 13.4 million units sold in 1989, which was about 3.5 million more cars than were sold in the United States last year.

GM ranked fifth in overseas sales, with an 11.2 percent slice of the car market in 1989, Smith said. Italy and France, however, remained its weakest markets because of high loyalty to national brands like Fiat and Renault. Profits of GM's total European operations including non-automotive businesses last year reached a record $1.8 billion on sales of about $19.7 billion.

Still, Smith said Japanese automakers, now establishing manufacturing operations in England, posed the greatest concern for European carmakers just as they do in the United States.

"The Japanese are coming. There's no doubt about it," Smith said, although he said GM "is in good shape" for the competition and that he expected national brand loyalty to diminish slowly.

#90052u1723 02/21/1990 ~United Press International

WASHINGTON (FEB. 21) UPI - Lee Iacocca, chairman of the beleaguered Chrysler Corp., Wednesday kicked off a six-city tour to bolster the carmaker's image by showing sleek, technologically advanced vehicles it plans to produce in the next decade.

The new campaign, which showcases 20 present and future Chrysler products, is in part aimed at showing America that "made overseas" does not mean better, and that Chrysler can compete with Japanese produced cars, company executives said.

The new approach came in reaction to big gains in the U.S. market by Japanese-based automobile companies, which increased their market shares in the United States by 1.5 percent in 1989 and accounted for 21.9 percent of all cars and light trucks sold here.

Chrysler's 1989 share of the new car and light truck market, meanwhile, dropped half a percentage point to 13.8 percent, a loss expected to cost Chrysler about $1 billion.

Industry analysts say Chrysler is the most vulnerable of the nation's Big Three automakers to imports or Japanese cars built in the United States. Many of the new Chrysler products are aimed at changing the company's image

as a builder primarily of large luxury cars, Iacocca said.

Some of the new cars are sporty, and directed toward younger, professional buyers, many of whom have owned imported vehicles, he said. The company also has plans to expand its popular line of minivans and jeeps.

"The bottom line is, Chrysler is going to be competitive with the Japanese and with everybody else," Iacocca said. "We have strong corporate and product advantages over the competition and we intend to exploit them. It comes down to two things: having the most satisfied customers and being the highest-quality, lowest cost auto producer in the world."

Chrysler closed out the decade much the same way it came in, posting a $664 million loss for the 1989 fourth quarter, its first red ink since 1982. Iacocca, 65, who said he's optimistic about Chrysler's financial future, asked that the public give the company a "fair shot."

Chrysler has committed $15 billion over the next five years to assure the company remains competitive, he said, adding that most Americans don't know that "world class" cars are built here.

Iacocca blasted the U.S. industrial policy as being unfocused and said "we do not have an economic game plan," to counter foreign car imports. "We can't keep running a $60 billion deficit," he said.

The vehicles displayed on the "90s" tour include the new $28,000 Imperial sedan and the Lamborghini Diablo, a powerful, $190,000 Italian-built car with a top speed of 202 mph, making it the fastest production car on the road. Chrysler bought Lamborghini in 1987.

Other cars include the Dodge Spirit LE sedan, and the Chrysler LeBaron Coupe. The Dodge Stealth R/T is powered by a 24-valve 3.0-liter DOHC V-6 engine that generates 280 horsepower.

Future vehicles include the Voyager III, which is really two vehicles in one. A rear unit will attach to a compact car to transform it into a van capable of carrying eight passengers.

"We're ready. We're going to be competitive in the U.S. and we're going to be a factor in Europe and other foreign markets," Iacocca said. "Chrysler in the '90s will show people why we're so confident about our future." The six-city tour will continue through May in Dallas, Atlanta, New York, Chicago, and Los Angeles.

#90052u1959 02/21/1990 ~United Press International

WASHINGTON (FEB. 22) UPI - The Federal Home Loan Mortgage Corp., a

Congress-chartered organization that invests in home mortgages, Wednesday said it has enough capital to weather a 10-year depression without cost to taxpayers.

Freddie Mac's capital ''provides a reasonable level of taxpayer protection at a reasonable cost,'' a study by the auditing firm Price Waterhouse said. Freddie Mac commissioned the study.

Mindful of the thrift crisis, Congress is currently looking into the financial solvency of government-sponsored financial institutions such as Freddie Mac and the Federal National Mortgage Association.

According to the Price Waterhouse report, Freddie Mac's capital could keep the corporation solvent for approximately 10 years in the event of a severe economic downturn like the Great Depression of the 1930s.

Freddie Mac's risks are different from those of other financial entities since the corporation's sole business of purchasing and securitizing residential mortgages implies no interest rate risk, Price Waterhouse noted.

Also, Price Waterhouse said that ''only about 5 percent of Freddie Mac's almost $280 billion loan portfolio is retained'' and that this ''eliminates vulnerability to sharp or prolonged movements in interest rates.''

Separately, Freddie Mac said the estimated net market value of its assets at year's end was $5.1 billion before taxes and $4 billion after taxes, while stockholders' equity was $1.9 billion.

The net estimated market value of Freddie Mac's assets in the third quarter was $5 billion before taxes and $3.9 billion after taxes, while stockholders' equity was $1.8 billion.

#90052u2159 02/21/1990 ~United Press International

ROCHESTER, NY (FEB. 21) UPI - Eastman Kodak Co. told its executives Wednesday that they will have to pass on $1.1 million in performance bonuses.

Kodak officials Wednesday said Chairman and Chief Executive Officer Colby Chandler shared the news with employees during a labor-management meeting this week.

''This reduction shows our sense of personal accountability for the company's performance in 1989,'' Chandler said, referring to Kodak's

reduced earnings for the year.

''Doing this is consistent with our view of Kodak's future,'' he said. ''This is an expression of our confidence in the company.''

The action represents a reduction in incentive awards to Chandler, Vice Chairman J. Phillip Samper, who retired Jan. 1, and President Kay Whitmore. He is to take over the reigns of Kodak when Chandler retires June 1.

The giant film and chemicals maker has undertaken an ambitious reorganization and cost-cutting campaign that has seen jobs lost and wages frozen among Kodak rank-and-file workers.

Kodak announced last August that regular pay increases in 1990 would be withheld and last month said the ''wage dividend'' employee bonus plan was being restructured.

In addition to reducing their bonuses, the three top executives said they are foregoing their ''wage dividends'' this time around. That bonus will be paid out next month.

''As leaders of the company, we have been asking Kodak people to join us in the drive for growth,'' Whitmore told the meeting. ''This action underscores our strong belief that, together, we will achieve improved performance.''

Kodak spokeswoman Darlene Aiken said the bonuses were to be paid under two performance award plans.

#90052u2270 02/21/1990 ~United Press International

STRATFORD, CT (FEB. 21) UPI - Sikorsky Aircraft plans to lay off 300 salaried employees this week because of decreased defense spending and a shrinking world market for helicopters, the company said Wednesday.

The majority of the layoffs Friday would be at facilities in Stratford, Bridgeport, Trumbull and West Haven, with a few planned in Florida, said Sikorsky spokesman Larry Bingaman.

''This is essentially a Connecticut layoff,'' Bingaman said. ''There are just a handful in Florida.''

Bingaman said the layoffs followed an assessment of the defense contractor's actual business over the next year. He said the company, with about 90 percent of its revenues tied to defense spending, was cutting jobs to be more competitive.

''We're having to become more responsive to the market and this is a reflection of that,'' Bingaman said.

The cuts were the second wave of white-collar layoffs at the subsidiary of Hartford-based United Technologies Corp. in less than a year.

In July, Sikorsky laid off about 350 salaried employees, citing decreased military spending and a slow world market. The company also laid off 150 blue-collar workers in November 1989.

Sikorsky settled a new three-year contract with Teamsters Local 1150 last week that provides about 6,200 blue-collar employees with a 3 percent annual wage increase.

Under Secretary of Defense Dick Cheney's proposed budget for fiscal year 1991, Sikorsky would build 123 helicopters worth about $1.5 billion.

Sikorsky also is in the running this year to build the Army's LHX, a $30 billion high-technology lightweight helicopter. Sikorsky is teamed with Boeing Co. against the team of Bell Helicopter and McDonnell Douglas.

#90052u2310 02/21/1990 ~United Press International

DETROIT (FEB. 22) UPI - The National Highway Traffic Safety Administration said Wednesday it has upgraded a probe involving possibly defective rear disc brakes in nearly half a million 1982-86 model General Motors Corp. cars.

The investigation by the government safety agency involves about 175,000 1982-86 Chevrolet Camaros and Pontiac Firebirds and 273,000 1984-86 Pontiac Fieros.

NHTSA said the cars may have rear disc brakes that do not automatically adjust as they wear, allowing them to become less effective with little or no advance warning to drivers, even on cars with relatively low mileage.

GM has so far refused to initiate a safety recall, said the agency, which requested one by letter in May. NHTSA has the power to order a manufacturer to conduct a safety recall.

GM spokesman Tom Pyden said the automaker ''will continue to cooperate with NHTSA'' and ''the investigation will offer both parties the opportunity to exchange and review additional technical data on this subject.''

NHTSA, which has already conducted an engineering analysis of the problem,

has received 42 complaints from owners, including reports of 14 accidents and five injuries.

But it said GM has furnished it with an additional 2,950 owner complaints including 129 accidents, 13 injuries and two deaths allegedly linked to the brake problem.

#90052u2665 02/21/1990 ~United Press International

LOS ANGELES (FEB. 22) UPI - Texas investor Harold Simmons said Wednesday he will propose his own slate of candidates as directors of Lockheed Corp. at the aerospace giant's annual meeting next month.

Simmons made the disclosure in an amended filing with the Securities and Exchange Commission.

Simmons holds an 18.94 percent stake in Lockheed and has indicated in previous SEC filings that he may seek control of the company.

Lockheed turned down his requests last month for control of six of the 15 seats on the company's board, along with the company agreeing to drop provisions of its anti-takeover ''poison pill'' plan.

Lockheed, which normally holds its annual meeting in early May, has set the meeting date for March 29 and said it did so to dispel uncertainty over a possible takeover by Simmons.

Lockheed stock rose $1.25 to $36 a share Wednesday on the New York Stock Exchange.

#90053b0005 02/22/1990 ~Business Wire

COLUMBUS, OH (FEB. 22) BUSINESS WIRE - Columbus Southern Power Co. Thursday announced that on May 1 it will redeem $5,483,400 or ten percent of its originally issued $15.25 preference stock, $1,500,000 or ten percent of its originally issued $3.75 cumulative preferred stock and $3,200,000 or ten percent of its originally issued 9.50 percent cumulative preferred stock. The shares were issued in the name of Columbus and Southern Ohio Electric Co., renamed Columbus Southern Power Co. in 1987.

The three redemptions are being made under terms of the sinking funds established for the retirement of the respective issues. Columbus Southern Power is required to redeem five percent of each series on May 1 each year (beginning in 1984 for the 9.50 percent preferred stock, in 1985 for the preference stock and in 1986 for the $3.75 preferred) and has the non-cumulative option of redeeming another five percent at the same time.

In the case of the preference stock, the company will redeem 27,417 shares as required and another 27,417 shares by exercising its option. The redemption price is $100 per share, to be paid by check upon presentation of the shares called for redemption. The quarterly dividend of $3.8125 per share, payable May 1, will be paid separately by check mailed in the usual manner.

As for the $3.75 preferred, the company will redeem, at $25 per share, 30,000 shares as required and another 30,000 via the option. The redemption price will be paid by check upon presentation of the shares to be redeemed. The quarterly dividend of $0.9375 will be paid separately by check mailed in the usual manner.

As for the 9.50 percent preferred, the company will redeem, at $100 per share, 16,000 shares as required and another 16,000 via the option. The redemption price will be paid by check upon presentation of the shares to be redeemed. The quarterly dividend of $2.375 will be paid separately by check mailed in the usual manner.

Transfer books for all series will be closed at the close of business on March 9 to allow for selection by lot of the shares to be called for redemption. They will be opened on or about March 23, when the notice of redemption is expected to be mailed to holders of record of the shares to be redeemed.

The Ameritrust Company National Association, Cleveland, is the sinking fund agent for the preference stock; The Huntington National Bank, Cleveland, is the sinking fund agent for both of the preferred stock issues.

Columbus Southern Power is an operating electric utility subsidiary of American Electric Power Co., Columbus.

PHOENIX (FEB. 22) BUSINESS WIRE - Valley National Corp. announced that Richard M. Greenwood, executive vice president and chief financial officer will leave Valley National to join CalFed Inc. (Los Angeles), as executive vice president and chief financial officer of that $28 billion financial institution.

In this new position at the holding-company level, Greenwood will be responsible for financial, treasury, accounting, audit and tax functions for CalFed Inc. and its principal subsidiary, California Federal Bank.

In addition, he will have corporate oversight responsibilities for CalFed's other key subsidiaries.

Greenwood joined Valley National in 1988 as chief financial officer, coming to the corporation from CitiCorp. He is originally from California and this move will allow him to return.

''We have put together a top-flight team of managers here at Valley National and Rick was part of that team,'' said Richard J. Lehmann, chairman. ''You have to expect that the caliber of managers we have will occasionally receive offers from other institutions. We are sorry to see Rick leave, but this was a tailor-made offer that he felt he could not reject. We wish him all the best.''

Greenwood had responsibility for the controller's and investment functions of Valley National Corp. Strong organizations are in place and each area will continue to effectively support the corporation's efforts. The Controller's Division will report directly to Lehmann and the Treasury Division and Capital Markets Division will report to Robert F.B. Logan, the corporation's president.

SANTA CLARA, CA (FEB. 22) BUSINESS WIRE - Intel Corp. Thursday announced that employees earned an additional $84.2 million in 1989 from two company programs.

One program, the Sheltered Employee Retirement Plan, received $56.8 million in 1989 contributions. Retirement plan participants received amounts equivalent to approximately 12.2 percent of their 1989 eligible earnings as a result of this contribution.

The other program, the Employee Cash Bonus Plan, returned a 1989 total of $27.4 million, or 9.4 days' pay per employee, in cash payouts over the year.

''We are pleased that employees can directly benefit from the prosperity Intel enjoyed in 1989,'' said Richard A. Sermone, vice president, Administration Group, director, Human Resources. ''The Employee Cash Bonus Plan and the Sheltered Employee Retirement Plan are key elements to Intel's total compensation approach. These plans allow Intel to share its successes with the people who made them happen.''

Intel had 1989 revenues of $3.1 billion and net income was $391 million.

Intel manufactures microcomputer components, modules and systems.

#90053b0045 02/22/1990 ~Business Wire

INDIANAPOLIS (FEB. 22) BUSINESS WIRE - INB Financial Corp. (NASDAQ:INBF) Thursday announced that its board of directors approved the addition of an Employee Stock Ownership Plan (ESOP) feature to its existing employee 401(k) plan.

U.S. Trust Co. of California will be the independent trustee of all the corporation's shares held in the 401(k) plan, including those acquired under the ESOP feature. INB Trust Co. will continue to serve as trustee for all other investment funds in the 401(k) plan.

The corporation has agreed to loan $33 million to the trustee from internal sources, which the trustee will use to acquire approximately 1.1 million shares of the corporation's common stock prior to Dec. 1, 1990. It is expected that the trustee will purchase shares on the open market or in negotiated transactions. Any loan proceeds not used to acquire shares prior to Dec. 1, 1990, will be used to purchase shares directly from the corporation. Should it be necessary for the trustee to purchase shares directly from the corporation, the corporation intends to purchase shares in the open market equivalent to those sold to the trustee.

The shares acquired under the ESOP feature will be applied towards meeting the corporation's commitment for future matching contributions to participants in the 401(k) plan.

Thomas M. Miller, chairman of INB Financial Corp., said, ''The ESOP feature will enable our employees to have a greater ownership stake in the company and will benefit shareholders by reducing the cost of providing future employee benefits. Over time, the ESOP should result in an enhanced after-tax cash flow as well as a modest improvement to earnings per share.''

The shares to be purchased by the trustee, together with those presently held in the 401(k) plan, will equal approximately 9 percent of the current outstanding common shares of the corporation.

INB Financial Corp. is a multi-bank holding company headquartered in Indianapolis with 1989 year-end assets of $6.01 billion and 98 banking centers located throughout Indiana.

#90053b0049 02/22/1990 ~Business Wire

HOUSTON (FEB. 22) BUSINESS WIRE - Serv-Tech Inc., a Houston-based provider of specialty maintenance services to the refining and petrochemicals industries, Thursday announced its results for the fiscal year and fourth quarter ended Dec. 31, 1989.

Due to continuing strong demand for its services, the company reported record earnings for both its fiscal year and fourth quarter. For the year ended Dec. 31, 1989, revenues were $31.6 million, an increase of 59 percent from 1988 revenues of $19.9 million. Income before tax benefits, resulting from utilization of operating loss carryforwards, increased by 89 percent to $2,206,000 in 1989.

Net income was $2,967,000 for the year, compared to net income of $1,807,000 in 1988. In 1989 the company utilized all of its operating loss carryforwards that were available to offset its taxable income.

For the fourth quarter 1989, revenues totaled $8.6 million, approximately equal to the year-earlier period. Income before tax benefits, however, increased by 68 percent from $534,000 to $897,000 in the fourth quarter 1989, due to improved operating margins, higher interest income and reduced interest expense.

Net income for the fourth quarter 1989 was $975,000, after tax benefits, reflecting the utilization of remaining operating loss carryforwards during the quarter.

Earnings per share comparisons for the year were affected by the increase in average shares outstanding resulting from equity offerings in 1988 and 1989. For the year, fully diluted earnings per share were 60 cents, before utilization of operating loss carryforwards, and 80 cents after tax benefits.

This compares to 62 cents and 96 cents, respectively, for 1988, as average shares outstanding, on a fully diluted basis, were 3,814,000 during 1989 compared to 2,098,000 in 1988.

For the fourth quarter 1989, earnings per share were 20 cents before utilization of operating loss carryforwards, with net income of 22 cents per share. Comparable fully diluted earnings per share in 1988 were 18 cents and 28 cents, respectively.

Richard W. Krajicek, chairman of the board of directors, commented: ''We are pleased with the progress achieved by Serv-Tech in 1989, as evidenced by the growth in our revenues and earnings. We expect that our business will remain strong through 1990 because we anticipate our primary customers -- major U.S. oil refiners -- will continue to operate at high utilization rates, which emphasizes the need for the timely, cost effective maintenance services provided by Serv-Tech.''

SEATTLE (FEB. 22) BUSINESS WIRE - Alaska Air Group Inc. (NYSE, PSE) announced Thursday that it has accepted for purchase 3 million shares of its common stock at $22-7/8 per share in accordance with the terms of its ''Dutch Auction'' self-tender offer.

The preliminary proration factor is 89.245862 percent. The final proration factor will be announced by Monday, March 5, 1990. The tender offer expired at midnight (New York City time) on Wednesday, Feb. 21, 1990. Under the self-tender offer, Alaska Air Group offered to purchase up to 3 million of its shares at prices specified by shareholders ranging from $20 to $24 per share.

Payment for shares will be made promptly. After the purchase of the

shares, the company will have approximately 12,483,422 shares of common stock issued and outstanding. As previously announced, the company may repurchase up to 500,000 additional shares in the open market or other transactions under its previously approved board authorization to purchase up to an aggregate of 3.5 million shares.

Alaska Air Group financed the tender offer primarily through the sale of the company's Series B Redeemable Preferred Stock to International Lease Finance Corp.

Alaska Air Group is the parent company of Alaska Airlines Inc. and Horizon Air Industries Inc.

SAUSALITO, CA. (FEB. 22) BUSINESS WIRE - Alvar J. Green, president, chief executive officer and chairman of the board of Autodesk Inc. (NASDAQ, NMS:ACAD), has been selected one of the 25 Top CEO's of the Decade by the editorial advisory board of California Business Magazine, it was announced Thursday.

The recipients of the award will be honored at a black-tie gala at the Tower of the Century Plaza Hotel in Los Angeles on Thursday, April 26. Former President Ronald Reagan will be the distinguished guest and keynote speaker.

In selecting Green, California Business magazine's editorial advisory board noted that, ''Capitalizing on the importance of the personal computer industry, Autodesk brought mainframe computer technology in CAD/CAM software to the PC market and now controls the majority of the world market for this product.''

Michael Kolbenschlag, publisher and editorial director of the magazine, said, ''It's truly a pleasure to recognize leaders like Alvar Green, Robert Hass, Carl Reichardt, Scott McNealy and the other award recipients in this way. Through the leadership of their respective companies, the honorees have played a critical role in making California the world's sixth largest economic power -- and that helps all of us.''

Green has served Autodesk as chief financial officer from 1984 until 1989, as president and chief executive officer since November 1986 and as chairman of the board since June 1988.

Autodesk Inc. develops, markets and supports a family of computer-aided design, engineering and animation software products for desktop computers and workstations. For more information please call 415/331-0356 or GO ADESK on CompuServe.

#90053b0061 02/22/1990 ~Business Wire
CUPERTINO, CA. (FEB. 22) BUSINESS WIRE - Apple Computer Inc. announced the following product update:

Product Description: The Macintosh Communications Toolbox is system software that provides applications with access to standard communications services including data connections, terminal emulators and file transfer protocols. An extension of the Macintosh Toolbox, it consists of managers and tools that work together to provide communications capabilities.

The Communications Toolbox is made up of four managers: the Connection Manager, the Terminal Manager, the File Transfer Manager and the Communications Resource Manager. The Communications Toolbox open architecture allows Apple or third-party developers to support new or specialized communications functions without rewriting the entire application.

Users can add new functions to their existing applications by adding only a small piece of software to their system.

Significance: The Macintosh Communications Toolbox provides developers with standard application programming interfaces, protocol independence and standard communication tools. Users benefit from the consistent user interfaces and extensibility that the Communications Toolbox provides across applications.

Third-Party Support: The following are some of the companies supporting the Communications Toolbox to date: Alisa Systems Inc., Farallon Computing, Hayes Microcomputer, LAMIR Software Corp., Pacer Software Inc., Synergy Products Inc. (Abelbeck Software), Tymlabs Corp. and White Pines Software Inc.

Availability: Available immediately from APDA. Support: Assistance provided by Apple's Developer Technical Support Group.

Pricing: $80 (single-use license from APDA). $50 per year for license to redistribute the Communications Toolbox.

Distribution Channels: Orders will be distributed through Apple Programmers and Developers Association (APDA). For information, contact APDA at 800/282-2732 or 408/562-3910.

Apple, the Apple logo and Macintosh are registered trademarks, and APDA is a service mark, of Apple Computer Inc. VAX is a trademark of Digital Equipment Corp.

SOUTH SAN FRANCISCO, CA (FEB. 22) BUSINESS WIRE - Guy F. Atkinson Company of California (NASDAQ:ATKN) Thursday announced the appointment of Therese Ambrusko, 41, as general counsel.

She replaces James C. Ingwersen who retired from Atkinson in 1989.

Ambrusko joined Atkinson, a diversified construction and manufacturing company, in 1989. Prior to this affiliation, she was corporate counsel for food and drug law and product liability litigation at General Mills of Minneapolis from 1983 through 1988. Before this, she was an associate with the law firm of Popham, Haik, Schnobrich, Kaufman & Doty in Minneapolis.

Ambrusko received her J.D. degree from Northwestern University in Chicago. She has a B.A. degree in history from St. Mary's College in South Bend, Indiana and an M.A. degree in college administration from University of Wisconsin. She is a resident of San Francisco.

Guy F. Atkinson Company of California is a diversified corporation whose operations include construction, manufacturing, distribution of industrial pipe, and oil and gas exploration and production.

SAN ANTONIO, TX (FEB. 22) BUSINESS WIRE - La Quinta Motor Inns Inc. (NYSE:LQM) reported earnings for its seven-month transition period ended Dec. 31, 1989, increased 34 percent to $5,639,000 (43 cents per share) from $4,218,000 (32 cents per share) in the comparable 1988 period.

Revenues in the period were $126,578,000 compared with $112,816,000 in last year's comparable seven-month period and operating income was $26,946,000 compared with $23,941,000 for the seven months ended Dec. 31, 1988. Earnings before property and investment transactions improved to $3,965,000 from $1,838,000 in last year's comparable seven-month period.

Sam Barshop, president and chairman, reported: ''The improved performance resulted from increases in both the percentage of occupancy and the average room rate. The percentage of occupancy increased to 67.1 percent in the seven-month period from 66.4 percent in the comparable 1988 period. The average room rate increased $2.31, or 6.3 percent, to $39.15, compared with $36.84 in last year's seven-month period.

''We are encouraged by the improved performance achieved during the period and have seen similar results thus far in 1990, particularly in Texas and its contiguous states where we are benefiting from a regional economic turnaround and an adjustment in the oversupply situation.''

For the three-month period ended Dec. 31, 1989, La Quinta reported a net loss of $847,000, or 6 cents per share, compared with a net loss of $930,000, or 8 cents per share, in the comparable quarter of 1988.

''Even in the seasonally weak fourth quarter the occupancy and average room rates were strong, with occupancy improving 1.3 percentage points to 59.7 percent and the average room rate improving 5.2 percent to $38.31,'' reported Barshop.

Revenues were $47,981,000 in the three-month period compared with $43,282,000 in the comparable 1988 quarter. Operating income was $6,224,000 compared with $5,495,000 and the net loss before property and investment transactions was $2,676,000 in the quarter compared with $3,179,000 in last year's comparable quarter. La Quinta Motor Inns Inc. owns, manages or licenses over 200 inns in 29 states.

IRVINE, CA (FEB. 22) BUSINESS WIRE - Wall Street Financial Corp. (NASDAQ:WSFC) received approval to offer memberships in its network for independent banks and other financial institutions on Feb. 14, 1990 from the California Department of Corporations.

The Wall Street Financial Centers network offers independent financial institutions competitive advantages to compete successfully in the deregulated banking environment. Banks, generally those with assets under $300 million, join the network to expand their access to customer-desired products and services.

Kenneth A. Ziskin, president of the Wall Street Financial Centers, said: ''With the state's approval and a strong portfolio of services, we are now actively responding to those institutions who expressed initial interest in our network.

The program includes an initial signing commitment of $5,000. In addition all new members will immediately receive an extensive staff and management training program and business development review by TRAC Systems, Wall Street Financial's training subsidiary.

The company's initial large-scale marketing efforts will be made at the Western Independent Bankers' Association President's Seminar in San Francisco, March 18 to March 21. The senior marketing team will be present at the meeting and will maintain the company's exhibit at the meeting. Wall Street Financial anticipates initial contact with over 300

attending bank executives from 14 Western states.

The portfolio of financial products and services WSFC intends to offer includes: automobile leasing, accounts receivable financing, equipment leasing, government-backed home improvement loans, annuities, life insurance and securities instruments. In addition, Wall Street Financial has made arrangements with a number of vendors which will offer discounts to member institutions.

BFN offers its members discounted workers' compensation insurance, office supplies and equipment, deferred compensation programs for senior executives, and construction loan inspection and disbursement. Acquired in January 1990, BFN has approximately 45 financial institutions as members.

Wall Street Financial Corp.'s international headquarters is in Honolulu; its national operations are in Irvine; and it has affiliates in Seattle and Tokyo.

RENO, NE (FEB. 22) BUSINESS WIRE - Itronics Inc. Thursday announced an agreement by its subsidiary, Itronics Recycling of Colorado Inc., to purchase the assets of a Denver recycling firm.

The assets of Compuform Exchange of Denver will be used to establish a photographic waste and wastepaper recycling operation in the Denver metropolitan area.

''We expect that our photowaste management technology will give Itronics Recycling of Colorado an immediate competitive edge,'' said John Whitney, president of Itronics Inc.

Itronics is a Reno-based firm specializing in photowaste recycling, waste paper recyling, precious metals recovery and refining, mineral economics and mining consulting.

It is the only firm in the United States presently involved in full recycling of photowaste, metal recovery, silver recovery and refining, and the manufacture of a fertilizer product using treated photo solution as a component.

Itronics Recycling of Colorado Inc. is expected to be operational by April 1. The purchase price was not disclosed.

It will focus on photoscrap collection and photosolution processing, recycling of high quality paper products, and collection and recycling of over two dozen other materials.

''Colorado is a national leader in solid waste recycling and Itronics' technology, which allows a full recycle of hazardous photochemical waste, should be a welcome addition,'' Whitney said.

#90053b0099 02/22/1990 ~Business Wire

SAN FRANCISCO (FEB. 22) BUSINESS WIRE - BankAmerica Corp. Thursday announced that its application to establish a separate state-chartered bank has been approved by the Federal Reserve Board.

The proposed state-chartered bank also has received deposit insurance approval from the FDIC and preliminary charter approval from the State Superintendent of Banks.

The new bank, called Bank of America State Bank, principally will focus on specialized community development lending and cash management services. In addition, the state-chartered bank will provide a vehicle to engage in insurance agency activities, although there are no final plans to announce at this time.

Bank of America State Bank will be headquartered in Concord, with community development field staff located in Los Angeles, San Diego and San Francisco. "Community development and cash management are areas of opportunity for the bank where we can expand our business profitably and increase our service to two important customer groups," said Thomas E. Peterson, vice chairman and head of the Consumer Banking Group.

"We've had the idea of a community development bank on the drawing boards for a long time, and felt that we could provide a broader range of specialized products and services to the communities we serve," said Peterson. "In the cash management area, we see good opportunities to increase the value we provide to corporate and other institutional customers."

In the community development area, a state-chartered bank will enable the bank to offer more individually tailored loans to further economic and neighborhood revitalization and production of housing for low- and

moderate-income households.

The state charter also will enable the bank to improve cash management services to corporate and other institutional customers. Bank of America currently offers corporate customers controlled disbursement services with checks drawn on an East Coast correspondent bank.

Bank of America State Bank will be able to offer cash management services to California companies with checks drawn on a California bank. This gives companies the ability to manage their cash more efficiently, while still paying their commercial and consumer customers with local checks.

BankAmerica also announced the appointment of Mike Mantle, 33, as president of Bank of America State Bank. Mantle, a 16-year Bank of America veteran, most recently served as vice president and manager of the bank's Chula Vista main office.

OAKLAND, CA. (FEB. 22) BUSINESS WIRE - Dreyer's Grand Ice Cream Inc. (OTC:DRYR) Thursday announced that it has entered into an agreement with The NutraSweet Co. to be the primary distributor of Simple Pleasures, NutraSweet's recently announced frozen dairy dessert made with Simplesse -- an all-natural fat substitute.

Dreyer's will be the exclusive distributor of Simple Pleasures in all of California, Oregon, Washington, Arizona and Nevada, and in Chicago, Minneapolis, Milwaukee, Kansas City and St. Louis. Dreyer's will use its extensive direct store distribution system to deliver six flavors of Simple Pleasures to the ice cream section of supermarkets throughout these distribution territories.

The distribution of Simple Pleasures, a product designed for a growing consumer segment that prefers low-fat yet indulgent desserts, will complement Dreyer's existing distribution of its Dreyer's and Edy's premium ice creams and frozen yogurts, as well as the company's distribution of premium novelty and superpremium ice cream products manufactured by others.

Dreyer's Grand Ice Cream Inc. manufactures and distributes a line of premium quality ice creams and other premium frozen dairy products made only from the finest ingredients available.

SAN FRANCISCO (FEB. 22) BUSINESS WIRE - The Bay Area Air Quality Management District has filed an accusation with the District's Hearing Board against the Shell Oil Company for violations of district rules of the California Health and Safety code.

The accusation comes after the district issued Notices of Violation for infractions of its rules for limiting hydrogen sulfide (H2S) emissions and prohibiting odor public nuisances and for California Health and Safety Code, section 41700. In this action the district will ask the hearing board to issue an order for abatement requiring Shell to comply with district rules and state law.

The district contends that the hydrogen sulfide excesses and odor nuisances are the result of emissions form Shell's effluent treatment facility at its Martinez refinery. The district asserts that unless remedial action is taken, the violations will continue to occur.

A date for the hearing will be set in the near future.

DENVER (FEB. 22) BUSINESS WIRE - CoCa Mines will proceed with development of its Grouse Creek Project in Custer County, Idaho.

Construction of the project will begin when permits are received and financing arrangements are negotiated. The company has a 100 percent operating interest in the project.

Proven reserves, as defined in a recently completed feasibility study and verified by an independent engineering firm, total 8 million tons of ore at an average grade of .059 ounces of gold and 1.39 ounces of silver. Annual production is expected to average 75,000 ounces of gold and 350,000 ounces of silver over the first three years of operation.

Total development costs are estimated to be $46 million. The project will include open pit mining from two deposits, truck haulage, crushing, grinding and cyanide agitation leaching. The plant will process 1 million tons of ore per year.

A Supplemental Environmental Impact Statement is being prepared by the U.S. Forest Service, Challis National Forest, as lead agency for all groups involved in the permitting process. Pending completion of the study and receipt of all permits, construction is expected to begin in early 1991 with production commencing in 1992.

Hugh Matheson, president of CoCa Mines, said: ''The development of Grouse Creek is a major step towards meeting our annual production goal of 100,000 ounces of gold. The project will provide a stable source of earnings for a number of years. Our large land position in the mine area also offers several excellent exploration opportunities.''

CoCa Mines is a North American gold producer. Its shares are listed on NASDAQ:CoCa and the Toronto Stock Exchange:CMI.

SAN FRANCISCO (FEB. 22) BUSINESS WIRE - Directors of Potlatch Corp. Thursday approved $95 million to construct a new tissue machine for the company's consumer products manufacturing plant in Lewiston, Idaho.

This 204 inch trim, twin-wire tissue machine, will replace an existing older machine. The tissue mill project also includes installation of a two-ply winder, a parent roll storage building, office additions, and an upgrade of the existing broke handling system.

The new equipment, coupled with a 204 inch trim, twin-wire machine installed in 1980, will result in cost savings and increase annual tissue-making production at Lewiston from 85,700 tons to 124,300 tons.

Richard B. Madden, Potlatch chairman and chief executive officer, stated that the board's action is consistent with the company's overall fiber-based strategy and objectives for the Lewiston complex. ''The additional production will enable Potlatch to continue to participate in the growth of the private label tissue market in the West,'' Madden said.

The new tissue machine is scheduled to be operational in 1992.

#90053b0147 02/22/1990 ~Business Wire
SAN FRANCISCO (FEB. 22) BUSINESS WIRE - The board of directors of Potlatch Corp. elected three new directors at its meeting Thursday.

The new directors are:

-- Allen F. Jacobson, 63, chairman and chief executive officer of Minnesota Mining & Manufacturing Co. (3M) in St. Paul, Minn. Jacobson joined the diversified manufacturing company in 1947, holding a succession of managerial positions before being elected president of U.S. operations in 1984 and to his current post in 1986.

Jacobson also is a director of Mobil Oil Corp., Northern States Power Co., U.S. West Inc., and Valmont Industries Inc.

-- Richard M. Morrow, 63, chairman and chief executive officer of Amoco Corp. in Chicago. Morrow joined the petroleum and chemical company in 1948 and rose to the rank of president in 1978 and to his current position in 1983. Morrow is also a director of First Chicago Corp., First National Bank of Chicago and Westinghouse Electric Corp.

-- Dr. William T. Weyerhaeuser, 46, a clinical psychologist in private practice since 1975 and owner/chairman of the board of Yelm Telephone Co. in Tacoma, Wash.

The addition of three directors expands the board membership to 17 and fills two vacancies caused by the deaths last year of directors Frederick W. Davis and Roderick M. Steele.

Potlatch is a diversified forest products company with principal manufacturing facilities and more than 1.5 million acres of timberlands in Arkansas, Idaho and Minnesota.

REDMOND, WA. (FEB. 22) BUSINESS WIRE - Interpoint Corp. (NASDAQ:INTP), Thursday reported that a one-time charge of $533,000 relating to the integration of Micra Corp. operations, acquired July 1989, resulted in a loss of $357,000, or 15 cents per share, for the company's first quarter

ended Jan. 31.

Revenues for the period were $6.2 million vs. $6.1 million in first quarter 1989. Year ago earnings were $92,000, or 4 cents per share. 1989 first quarter earnings included $170,000, or 7 cents per share, in income resulting from an accounting change.

Peter van Oppen, president and chief executive officer, said: ''we believe this charge puts Micra integration costs behind us so we can get on with what we expect will be another excellent year.

''Backlog, which is the best indication of future health in our business, reached an all-time record $16.3 million as of Jan. 31,'' according to van Oppen.

All revenue and earnings numbers for 1989 are restated to reflect the acquisition of Micra Corp. on a pooling-of-interests basis and comparisons assume the two companies were combined in the first quarter of both years. The integration charge reflects management's best estimate of expenses required to consolidate Micra's Long Island, N.Y., administrative, marketing, accounting, engineering and quality assurance functions into Interpoint's Redmond facility.

Founded in 1969, Interpoint designs, manufactures and markets a broad range of proprietary power converters and custom hybrid microcircuits for aerospace and industrial applications with headquarters in Redmond. Production facilities are located in Redmond and in Kaohsiung, Taiwan. Sales offices are located in Minneapolis, Long Island, N.Y., and London.

SAUSALITO, CA. (FEB. 22) BUSINESS WIRE - Autodesk announced that after-tax earnings for the fourth quarter and for fiscal year ended Jan. 31, 1990 were $12,527,000 and $46,378,000 respectively, an increase of 34 percent and 42 percent over the fourth quarter and yearly after-tax earnings for the previous year, which were $9,344,000 and $32,695,000.

The company also announced that net revenues were $50,013,000 for the fourth quarter and $178,591,000 for fiscal year 1990, compared to net revenues of $34 million for the fourth quarter and $117,302,000 for fiscal year 1989, an increase of 47 percent and 52 percent respectively.

Earnings per share for the quarter and year were 51 cents and $1.91

respectively, compared to 39 cents and $1.35 for the like periods last year.

EL SEGUNDO, CA. (FEB. 22) BUSINESS WIRE - Rockwell International Corp. Thursday dedicated a building at its Science Center in Thousand Oaks, Calif., in honor of John Leland ''Lee'' Atwood, former president of North American Rockwell.

''Lee Atwood had a vision of the importance of a central research facility to the company and mobilized the necessary resources to make it happen,'' said Sam F. Iacobellis, executive vice president and chief operating officer, during dedication ceremonies.

Iacobellis added that Atwood's achievements extend far beyond Rockwell, ''We must also remember his significant contributions to our country -- from producing an airplane critical to the Allied forces in World War II, to playing a key role in the Apollo program that put man on the moon.''

As one of the nation's most knowledgeable aircraft design engineers, Atwood has been associated with the development of a wide variety of military airplanes and other aerospace products.

He is best known for the production of the P-51 Mustang, which was designed, built and flown in record time and gave the Allies air supremacy over the German Luftwaffe in Europe during World War II; for the F-86 Sabrejet, which established air supremacy for the United States during the Korean conflict; and for the X-15, the most successful research aircraft in history.

Joining North American Aviation in 1934, Atwood held positions ranging from chief engineer to chairman of the board. He retired in 1970 as president and chief executive officer of North American Rockwell Corporation, a predecessor company of Rockwell International.

Various honors have been bestowed upon him by U.S. presidents, government agencies, technical societies, and civic organizations.

In 1988, Atwood was awarded the National Technology Medal of Honor by former President Ronald Reagan for his distinguished leadership, technical competence and integrity in the advancement of avionics and space travel. That same year, he was given the Pioneer of the Year Award by the Los Angeles Section of the American Institute of Aeronautics and Astronautics.

He has also been inducted in the OX5 Aviation Pioneers Hall of Fame, the International Aerospace Hall of Fame in San Diego, and the National Aviation Hall of Fame in Dayton, Ohio.

The Rockwell Science Center presently specializes in the research and development of computational and information sciences, high speed electronics, imaging, materials science, optics and silicon devices. Rockwell International is a $12 billion, multi-industry company applying advanced technology to a wide range of products in its aerospace, electronics, automotive and graphics businesses.

DENVER (FEB. 22) BUSINESS WIRE - Richard D. Heiserman, chairman of the board and president, First Capital Financial Corp., has announced that the Office of Thrift Supervision (OTS) has issued its principal subsidiary, Capitol Federal Savings and Loan Association of Denver, a capital directive which places restrictions on certain lending, finance and operating activities.

The directive, which is effective immediately, restricts various operations of the Association such as engaging in forward commitments, granting or refinancing loans in excess of $500,000, investing in consumer or commercial loans which exceed $50,000, contracting for the purchase or sale of major assets, and engaging in contractual agreements other than in the ordinary course of business.

''As previously mentioned, we have been expecting a directive of this type for several weeks,'' said Heiserman. ''This is a routine procedure for thrifts in our net worth position.''

The company has entered into a non-binding arbitration process with the OTS disputing certain asset classifications of approximately $53 million. The process is expected to be completed some time in March. However as the Association would be inadequately capitalized per regulatory minimum requirements regardless of the outcome of the arbitration, the OTS deemed it appropriate to proceed with the capital directive.

''The directive should have very little significant operating impact upon the Association,'' Heiserman said. ''Many of the restrictions contained within the directive are already in place, and have been for some time, due in part to the suppressed real estate economy and our resultant financial situation.''

Customers should discern virtually no difference in day-to-day operations.
''We're doing everything possible to maintain business as usual at Capitol Federal,'' assured Heiserman.

''Continuing quality service to our customers is our primary focus. We want to emphasize to our existing and potential customers that every FDIC-insured deposit is absolutely safe,'' Heiserman concluded.

First Capital Financial Corp. is a Colorado-based holding company. Its principal subsidiary, Capitol Federal Savings and Loan Association of Denver, employing 475, operates 18 branches along the Front Range serving more than 100,000 customers and has been in business for 64 years. Deposits are insured up to $100,000 per account ownership by the FDIC.

#90053b0176 02/22/1990 ~Business Wire

SAN MARCOS, TX (FEB. 22) BUSINESS WIRE - Rohr Industries, a Fortune 500 aerospace company, will build a facility in San Marcos to manufacture high-temperature aerospace structures.

The 140,000-square-foot facility will provide these advanced technology metallic structures for commercial and military aircraft and engines and for future advanced aircraft, such as the National Aero-Space Plane.

Products will include jet engine nozzle assemblies, in-flight thrust reversers, flaps, fairings, fan-exit ducts, doors and panels made from conventional materials as well as superalloys.

Rohr's high-temperature aerostructures (HTA) facility will be located north of San Marcos and east of I-35 in the San Marcos technology park. Rohr's HTA operation is scheduled to begin production in late October with approximately 50 employees, growing to an estimated 250 within a few years. Production activities include metal bonding, fabrication, machining and assembly.

"This facility will manufacture products incorporating some of the highest technology used in aerospace today," said Dr. Alek Mikolajczak, Rohr's vice president, technology and new business.

"In addition, the facility itself will use the most up-to-date manufacturing technology available. Employees will be multiskilled and will contribute in several areas of production as well as in manufacturing administrative functions."

The expansion is based on the company's objective of developing new products technologically related to its core products - nacelle systems (the aerodynamic structures which surround jet engines); thrust reversers and pylons (the structures which attach the propulsion system either under the wing or to the fuselage).

"We're extremely pleased with the reception we've had in San Marcos and with the community spirit and enthusiasm we've seen here," Mikolajczak said. "We look forward to making this facility a productive member of the Rohr manufacturing network as we become an active contributor to Hays County."

Hays County Judge G. Don Rains said, "Having Rohr return today represents a great cooperative effort among the commissioners of Hays County, the Hays Consolidated School District and the City of San Marcos, with special credit going to the Pedernales Electric Cooperative, whose initiative in securing an industrial incentive rate has made this project possible."

#90053b0195 02/22/1990 ~Business Wire

CHULA VISTA, CA (FEB. 22) BUSINESS WIRE - Rohr Industries Inc. reported ''break-even'' performance for its fiscal year 1990 second quarter, which ended Jan. 28.

The company noted that it had made operating improvements in the quarter and is now positioned for increased deliveries in the balance of the year.

Operating income improved in the second quarter to $11 million, compared with a $4.4 million loss in the first quarter. Operating income in the second quarter last year was $19 million.

Operating margin in the second quarter was 4.8 percent, compared with an operating loss in the previous quarter and 7.6 percent for the like quarter last year.

Net income in the quarter was at ''break-even'' ($32,000), as interest expense offset the operating income. This compares with an $11.4 million loss in the first quarter and $9.1 million net income during the second quarter last year.

Rohr said significant progress had been made in re-establishing production flow to improve government product deliveries that had been impacted by redefined acceptance criteria.

Sales in the quarter were $227.9 million, compared with $251.2 million for the like period the previous year and with $234.5 million in the first quarter. The decline in second-quarter sales as compared with the like period last year is attributable to reduced deliveries on government programs.

Commercial programs accounted for 75 percent of sales. Government programs were 25 percent.

Three commercial programs were the biggest contributors to second-quarter sales. These were nacelle systems for the Airbus Industrie A310 and A320 and the Boeing 747 and 757 airliners.

Rohr has been notified that Grumman F-14 production will likely end in fiscal year 1992, although spare parts sales for that aircraft are expected to continue.

Rohr designs, integrates, manufactures and supports aircraft engine nacelle systems and components for commercial, military and business aircraft. The company also manufactures solid rocket motor casings and nozzles for space programs.

#90053b0208 02/22/1990 ~Business Wire

DENVER (FEB. 23) BUSINESS WIRE - Resources Trust Co., one of the nation's largest self-directed retirement trust companies, is in its strongest position for future growth since its founding in 1983.

This according to Matthew Autterson, president, who said that as a part of Broad Inc.'s SunAmerica family of financial services companies, Resources Trust will continue to build exciting enhancements to the trust services currently offered to support financial planners.

Formerly a subsidiary of Integrated Resources, the company was acquired by Broad Inc., an $11 billion corporation and the parent of SunAmerica on Jan. 18.

''We are now affiliated with a fast-growing financial organization with strong capital resources, highly profitable operations and conservative investment philosophies,'' Autterson said.

''That combined with its marketing of an extensive variety of investment-oriented products, including mutual funds, annuities and limited partnerships through 15,000 sales representatives nationwide,

provides avenues for previously untapped business expansion and increased service to the financial planning community,'' he said.

''As one of the nation's top trust companies -- 116,000 trust accounts with over $3 billion in assets -- we remain committed to continually improving our service and expanding our operations to accommodate new business.''

Broad Inc.'s SunAmerica Corp. is a financial services group which markets investment-oriented long-term savings products. Together its insurance companies, Sun Life of America, Anchor National and First SunAmerica, rank in the top 2 percent of all U.S. life insurance companies in both assets and annuity premiums.

Combined with SunAmerica's broker-dealers, Anchor National Financial Services and SunAmerica Securities, and a registered investment advisor, SunAmerica Planning Centers, they generate approximately $1.2 billion of gross sales volume throughout 50 states and the District of Columbia.

CARROLLTON, TX (FEB. 23) BUSINESS WIRE - Westcott Communications Inc. (NASDAQ:WCTV), operator of the Law Enforcement Television Network and the Automotive Satellite Television Network, Thursday reported a loss of $830,000, or 12 cents per share, for the 12 months ended Dec. 31, 1989, as compared to income of $2,891,000, or 46 cents per share, for the year ended Dec. 31, 1988.

Revenues for the year of 1989 were $15,830,000 as compared to $13,146,000 for 1988. For the three months ended Dec. 31, 1989, Westcott Communications had a loss of $383,000, or 5 cents per share, on revenues of $4,489,000, as compared to net income of $749,000, or 12 cents per share, on revenues of $3,598,000 for the three months ended Dec. 31, 1988.

As of Dec. 31, 1989, approximately 4,200 and 925 subscriber sites were equipped with the necessary hardware to receive programming for ASTN and LETN, respectively.

The company attributes the annual and fourth quarter loss to the start-up expenses associated with the new LETN. LETN was formed in December 1988, began trial broadcasting on May 5, 1989, and on July 3, 1989, began

transmission on its regular 24-hour per weekday schedule. No fees were charged to subscribers until full time broadcasting commenced.

As of Dec. 31, 1989, approximately 1,150 law enforcement agencies had agreed to subscribe to LETN. Subscription fees which range from $288 to $588 per month depending on the size of the agency commence from the date subscribers begin receiving the programming.

As of Dec. 31, 1989, approximately 5,100 dealerships have agreed to subscribe to ASTN.

SOLANA BEACH, CA (FEB. 23) BUSINESS WIRE - Thursday, Kaypro Corp.'s (OTC:KPRO) newly appointed President and Chief Executive Officer Roy Salisbury announced a contractual agreement with Trade Debt Specialists (TDS) of San Clemente, Calif.

Under the agreement, TDS will assist Kaypro with debt restructuring and creditor relations.

Established in 1984, TDS is a group of trade debt specialists trained to resolve business differences between company and creditor. They have serviced a diverse clientele that includes aerospace, design, construction manufacturing, communications and computer firms.

Dana Mackie, vice president of marketing for TDS, explained the company's ''hands-on'' approach to creditor relations: ''With every client we institute a proven, three-step process. First, we contact each creditor, assuring them of our personal attention. Next, we work with our client to devise a strategic plan of repayment. Finally, we inform the creditor of the client's plan to pay down any debt and establish a favorable business relationship.''

From Kaypro's corporate headquarters, Salisbury said: ''Kaypro's creditors have been quite patient and deserve to be treated fairly and openly. Also, a process such as Kaypro's debt restructuring is handled far more efficiently by a third-party firm. This proactive approach allows Kaypro's new management team to concentrate on sales, production and distribution.

''I chose TDS because of its solid track record. They have a reputation for dealing with creditors fairly and honestly. TDS analyzed our preliminary business plans and agreed to join the Kaypro team,'' Salisbury

said.

With more than 38 years of industry experience in electronics, Kaypro designs, manufactures and distributes a full line of personal microcomputers. These products are sold through a worldwide network of independent retailers.

#90053b0229 02/22/1990 ~Business Wire

PASADENA, CA (FEB. 23) BUSINESS WIRE - Beverly Enterprises Inc. (NYSE:BEV) President and Chief Financial Officer David Banks announced Thursday a new company-wide quality of care program for rank and file employees at all levels who help provide care for approximately 100,000 patients and residents in Beverly long-term care facilities around the country.

The company's new program is similar to the work-based quality care concept that originated in the Japanese auto industry and has since taken hold in many industries in other countries.

''In brief, the new program seeks to motivate every one of our employees while it simultaneously recognizes their achievements and calls upon them to work towards maintaining an entire system which extends well beyond their personal area of activity,'' Banks said.

In the new program, which is being implemented for the first time this month, groups of five Beverly employees, selected randomly to represent different operating areas, will meet with the administrators of each Beverly facility. The purpose of the meeting is to select the ''Beverly Quality Care Employee of the Month.'' The selection process is based on applications from individual employees proposing themselves as candidates for recognition.

The application form asks the employee to state briefly what he or she has done in his or her individual area of responsibility to improve quality of care at the facility and how they would make further improvements.

The administrator participates with the employee panel in selecting a group of three nominees from which the panel chooses one individual to be designated for recognition during the month. A cash award accompanies the citation. Group members are eligible to be considered for recognition during months they do not serve on review panels.

''The new program enhances the vital role the employee plays in providing

high quality care by emphasizing that the employees can and should serve also in evaluating who is doing a good job,'' Banks said.

He added that the program is expected to create a new dynamism between individual disciplines within each facility and also between those disciplines and the facility's administration.

''This is a continuation of a process of streamlining and opening up communications that we began some time ago when we reduced to two the number of levels between any facility administrator and Beverly corporate management. Our latest initiative streamlines communication within the individual facility.

''Consumer expectations about long-term care are rising constantly. This new program is one way we are going to keep up with those rising expectations. As general healthcare standards advance, our ways of providing long-term care will advance also.

''We intend to meet the unique needs of each community we serve, so that we can become the long-term care provider of first choice in every one of those communities,'' said Banks.

Beverly Enterprises Inc. is a long-term health care company, operating nursing facilities, pharmacies, retirement living centers and home health centers. Its mission is to be the provider of choice in the communities where it operates, by delivering high quality health care services that meet the unique needs of each of those communities.

#90053b0246 02/22/1990 ~Business Wire

IUKA, MS (FEB. 23) BUSINESS WIRE - Lockheed plans to lease an 80,000-square-foot office and engineering building in Iuka Industrial Park to house the first major personnel contingent in NASA's Advanced Solid Rocket Motor (ASRM) program.

The Tishomingo County Board of Supervisors will have the building ready for occupancy by June 1. It will include engineering and computer areas and conference rooms and will have parking for 500 cars.

Terms of the lease are being negotiated, according to Howard Trudeau, vice president-ASRM for Lockheed Missiles & Space Co. of Sunnyvale, Calif., the prime contractor.

Trudeau said the Iuka building will house the Lockheed and Aerojet

engineers and support staff now doing preliminary ASRM design at Aerojet Space Boosters Co. in Sacramento, Calif. By year's end occupancy will approach 500 employees, many hired from the tri-state region.

The ASRM team will move next year from Iuka to the ASRM manufacturing site at Yellow Creek, 15 miles north of Iuka, when plant construction there is finished. Lockheed and Aerojet will employ up to 1,000 persons at Yellow Creek to design and produce the ASRMs.

As for the newly leased site, Trudeau said: ''Competition was very close. We met with officials and thoroughly considered sites in Iuka and Corinth as well as at Yellow Creek itself.

The Lockheed-led team was selected last April to negotiate for the ASRM contract, and final negotiations are going on now with NASA-Marshall in Huntsville, Ala.

ASRMs will replace the twin solid boosters that help lift each space shuttle from the launch pad. NASA wants ASRMs in order to lift heavier payloads with greater safety and reliability.

A key to the Lockheed team's selection was Aerojet's highly automated continuous-mix process which insures the highest quality of propellant and features direct pour into motor casings, improved motor joints and fewer mechanical functions.

The Yellow Creek plant will be the most advanced in the aerospace motor industry and will provide the first ASRMs for shuttle flights in 1995.

Besides Lockheed and Aerojet, other team members are BUST International of Birmingham, Ala., which will do site construction at Yellow Creek; Thiokol Corp., which will product motor nozzles at Michoud, La.; and Babcock & Wilcox, headquartered in New Orleans, which will make motor casings.

#90053b0247 02/22/1990 ~Business Wire

SAN FRANCISCO (FEB. 23) BUSINESS WIRE - Homestake Mining Co. (NYSE:HM) today reported 1989 net income of $53.3 million, or 55 cents per share, compared with $66.4 million, or 68 cents per share, in 1988.

Homestake's consolidated share of gold production exceeded one million ounces for the first time in the company's 114-year history. This milestone was accomplished with a 4 percent reduction in cash production costs to $264 per ounce. However, gold realizations dropped to $382 per

ounce in 1989 from $437 the prior year. Net income in 1989 was buoyed by Homestake's share of earnings from The Doe Run Company and gains from discontinued oil and gas operations.

Net income for the fourth quarter of 1989 from continuing operations was $4.7 million versus $15.4 million in the prior year's fourth quarter. Income for the quarter was adversely effected by a lower average realized gold price of $393 per ounce compared with $416 in the prior year. Total fourth quarter net income was $23.3 million or 24 cents per share including $18.5 million from discontinued operations.

Income from continuing operations in 1989 was $17.5 million compared with $65.1 million from 1988. Income from discontinued oil and gas operations was $35.8 million for 1989 (including an after-tax gain on the sale of oil and gas assets of $34.2 million) versus a loss of $1.8 million for the prior year.

Operating earnings from continuing operations for 1989 were $72.7 million, a drop of 36 percent from $114.3 million in 1988.

Early in 1989, Homestake Gold of Australia Limited (HGAL), an 80 percent-owned subsidiary, closed a transaction giving it a 50 percent interest in a portion of the Western Australia gold mining district of Kalgoorlie. The company accounts for these operations using pro-rata consolidation and has reclassified prior results of Kalgoorlie Mining Associates for comparability.

Revenues totaled $129.6 million in the fourth quarter of 1989 and $452.8 million for the full year. Comparable figures for the prior year were $121.8 million and $427.5 million.

#90053b0271 02/22/1990 ~Business Wire

SAN DIEGO (FEB. 23) BUSINESS WIRE - Furnishings 2000 Inc. (NASDAQ:FURN), which operates 41 retail furniture and home furnishings stores throughout California, has agreed to settle a class action lawsuit brought in 1988 that alleged discrimination on the basis of gender.

The Superior Court in Hayward on Wednesday gave its tentative approval to the proposed settlement as a result of a joint petition by counsel for Furnishings 2000 and a class action counsel.

''We are very pleased that the court has tentatively approved our settlement,'' said Ron Phillips, president and chief executive officer of

Furnishings 2000. ''Furnishings 2000 strongly believes in equal employment opportunity.

''This settlement will further this commitment while at the same time permitting the company and its new management to concentrate on selling quality furniture at competitive prices and providing excellent service to its customers.''

In September 1989, GF Holdings Inc. acquired 63.1 percent of Furnishings 2000 and restructured the company's board of directors and senior management. The company now operates 41 retail furniture and home furnishings stores throughout California.

The company entered into the settlement in order to avoid the inconvenience and expense of protracted litigation and to permit it to concentrate its resources on developing its home furnishing business.

Phillips said the company ''strongly denied'' that it discriminated against the plaintiffs or any other women: ''This denial is an integral part of the settlement, which was reached without a trial or any finding of fault by the court. We would have not entered into this settlement but for its acknowledgment we were not admitting discrimination,'' said Phillips.

Furnishings 2000 Inc. employs over 700 employees in its 42 retail stores and its Hayward and Mira Loma warehouses that service these stores. ''We are committed to the excellence of all of our people and believe this settlement will further that commitment and our commitment to equal employment,'' said Phillips.

INGLEWOOD, CA (FEB. 23) BUSINESS WIRE - Softsel Computer Products Inc. (NASADAQ/NMS:SOFS) Thursday reported net income of $3,375,000 for the fourth quarter, up 21 percent from the same period in 1988, while earnings per share grew to 27 cents.

Net income for the calendar year 1989 increased to $10,246,000, up 32 percent from the same period in 1988, while earnings per share grew to 81 cents.

Net sales for the fourth quarter were $188,030,000 up 34 percent from the same period in 1988. Net sales for the calendar year 1989 increased to $629,362,000, up 35 percent from the same period in 1988.

''While much of the computer industry is experiencing slower growth, Softsel's growth and performance has remained consistently strong,'' said Softsel President and Chief Executive Officer Michael D. Pickett. ''We believe the long-term effects of the merger with Microamerica will allow us to continue this strong performance.''

Softsel Computer Products is one of the largest worldwide computer products distributors, serving more than 19,000 resellers worldwide from 13 distribution centers and 23 sales offices located throughout the U.S., Canada, Europe and Australia.

It supplies approximately 3,500 hardware and software products from more than 275 vendors for systems such as Apple/Macintosh, AST, Compaq, Everex and IBM.

#90053b0306 02/22/1990 ~Business Wire

MARLBOROUGH, MA (FEB. 23) BUSINESS WIRE - Microamerica Inc. (NASDAQ:MRAC) Thursday reported net income of $5,307,000, or 39 cents per share, for the fiscal year ended Dec. 31, 1989, compared with $8,315,000, or 62 cents per share, for the fiscal year ended Dec. 31, 1988.

Net sales for the year increased 30 percent to $529,209,000, compared to $405,587,000 for fiscal 1988. The report was made concurrently with Microamerica's announcement of revisions to its merger plans with Softsel Computer Products Inc. (NASDAQ:SOFS).

For the three months ended Dec. 31, 1989, net income was $76,000 compared to $2,365,000 for the like quarter the previous year. Net sales for the period increased to $142,657,000 from $111,127,000, a 28 percent increase.

''Sales continued to grow at an excellent rate during the year and quarter '' said Gordon B. Hoffstein, Microamerica's chairman and chief executive officer. ''However, a decline in gross margins caused by competitive pressure, and increases in interest and freight costs associated with bringing our new replenishment center on-line, affected our performance.

''We are continuing to implement programs that will improve our performance,'' continued Hoffstein. ''Our just-in-time replenishment strategy is designed to decrease inventory levels while improving local availability of product. Since December 31, 1989, we have begun to realize a reduction in inventory, in conjunction with improved coverage/fill rates.''

Microamerica is one of the premier value-added distributors of microcomputer products in the United States, Canada, Latin America, the Caribbean and Europe.

MARLBOROUGH, MA (FEB. 23) BUSINESS WIRE - Softsel Computer Products Inc. (NASDAQ:SOFS) and Microamerica Inc. (NASDAQ:MRAC) Thursday announced the signing of a revised definitive agreement providing for a merger of Microamerica with a wholly owned subsidiary of Softsel.

The merger, as revised, has been approved by the boards of directors of each company and will be subject to the approval of Microamerica and Softsel stockholders, regulatory approvals and other typical conditions to closing.

Approval under Hart-Scott Antitrust Improvements Act has been received. The merger is expected to be completed in the first quarter of 1990.

Under the revised terms of the merger, each outstanding share of Microamerica Common Stock will be exchanged for 0.9 shares of newly issued Softsel stock plus cash in an amount determined according to a formula which is based on the Softsel Common Stock Price, as measured by the average last sale price for the ten consecutive trading days ending on the day immediately prior to the Microamerica stockholder vote.

The merger would combine two leading wholesale distributors of microcomputer products with the expectation of providing superior service, product selection and price to Softsel and Microamerica customers worldwide. After the merger, the combined company intends to adopt a new, but as yet undetermined, corporate name that properly reflects its worldwide presence and diversity of products and services.

Softsel and Microamerica have set Feb. 20, 1990, as the record date for the stockholders who shall be entitled to vote on the merger at the stockholder meetings, which are scheduled for March 28, 1990.

Smith Barney, Harris Upham & Company Inc. and Alex. Brown & Sons Inc. are acting as financial advisors to Softsel in this transaction. William Blair and Co. is representing Microamerica

MALVERN, Pa. (FEB.22) BUSINESS WIRE - Surgical Laser Technologies (NASDAQ:SLTI), developer and manufacturer of the Contact Laser delivery system, announced it has been awarded two patents from the United States Patent Office.

The company now holds six patents covering its proprietary Contact Laser delivery technology.

Patent 4,895,144 covers the system which delivers sterile gases and fluids from the laser through the SLT fibers and handpieces to the Contact Laser Probes and Contact Laser Scalpels. The second patent awarded, 4,895,145, involves the connection between the quartz fiber and the source of laser energy.

Surgical Laser Technologies is engaged in the development, manufacture and sale of proprietary contact laser systems for surgery. The SLT Contact Laser system channels laser energy through the patented delivery system to interchangeable probes and scalpels, providing the surgeon with tactile feedback lost in conventional laser surgery and heightening control over the delivery of the laser energy.

SLT's Contact Laser system has been cleared by the United States Food and Drug Administration for a variety of uses and procedures in most general and specialty surgical procedures.

#90053b0613 02/22/1990 ~Business Wire
SAN JOSE, CA (FEB. 22) BUSINESS WIRE - The board of directors of VMX has declared a dividend distribution of one common share purchase right on each outstanding share of its common stock.

The purchase rights are designed to assure that all stockholders receive fair and equal treatment in the event of any proposed takeover of the company and to guard against partial tender offers, open market accumulations and other abusive tactics to gain control of the company without paying all stockholders a fair price for all shares.

The purchase rights are intended to enable all stockholders to realize the

long-term value of their investment in the company. The purchase rights are not intended to prevent a takeover of the company, nor will they have that effect.

Rather, the purpose for issuing the purchase rights is to encourage anyone seeking to acquire the company to negotiate with the board of directors prior to attempting a takeover.

The purchase rights will be exercisable only if a person or group acquires 20 percent or more of VMX's common stock or announces a tender offer, the consummation of which would result in ownership of 20 percent or more of the common stock by the person or group.

Each purchase right will entitle stockholders to buy one-half of a share of VMX common stock at an exercise price of $12 per share if certain events occur.

If VMX is acquired in a merger or other business combination transaction or sells 50 percent or more of its assets or earnings power to a person or group, each purchase right will entitle its holder to purchase, at the purchase right's then-current exercise price, a number of the acquiring company's common shares having a market value, at the time, of twice the purchase right's exercise price.

In addition, if a person or group acquires 30 percent or more of VMX's outstanding common stock, each purchase right will entitle its holder (other than such person or members of such group) to purchase, at the purchase right's then-current exercise price, a number of VMX's common shares (or cash, other securities or property) having a market value of twice the purchase right's exercise price.

The only exception is if the offer is a cash tender offer for all outstanding shares and the person or group acquires 85 percent or more of the outstanding shares (in which case the purchase rights are not exercisable).

Following the acquisition by a person or group of beneficial ownership of 30 percent or more of the company's common stock, the board of directors may exchange the purchase rights (other than purchase rights owned by such person or group), in whole or in part, at an exchange ratio of one-half of a share of common stock per purchase right.

Prior to the acquisition by a person or group of beneficial ownership of 20 percent or more of the company's common stock, the purchase rights are redeemable for $0.001 per purchase right payable in stock or cash at the option of the board of directors. The purchase rights are also redeemable thereafter in certain specified circumstances.

The dividend distribution will be made on Feb. 28, payable to stockholders of record on that date. The purchase rights will expire on Feb. 14, 2000.

PHOENIX (FEB. 22) BUSINESS WIRE - For the calendar year 1989, Pinnacle West Capital Corp. recorded a loss of $6.36 per share of common stock, or a net loss of approximately $551 million, Chairman Richard Snell said Thursday.

Snell said the loss is primarily due to the effect of discontinued operations representing MeraBank and Malapai Resources Co., Pinnacle West's uranium mining subsidiary.

For the year, income from continuing Pinnacle West operations was approximately $125 million, or $1.44 per share, compared to approximately $153 million, or $1.76 per share, for the same period in 1988.

Pinnacle West is pursuing the sale of Malapai. For accounting purposes, both Malapai and MeraBank are considered discontinued operations. In MeraBank's case, that includes the impact of Pinnacle West's $450 million capital infusion into the bank to be completed on or before March 31.

Under an agreement reached with the Office of Thrift Supervision on Dec. 6 1989, upon infusion of the $450 million, Pinnacle West will be released from any further financial obligations under a 1986 keep-well agreement. Federal regulators placed MeraBank into receivership on Jan. 31, 1990.

The capital infusion is recorded as a one-time, non-recurring loss taken in the fourth quarter of 1989. No tax benefit is provided in connection with this loss because the company is uncertain when or to what degree the benefit can be realized, Snell said.

For the fourth quarter of 1989, Pinnacle West's loss was $6.53 per share compared with a loss of $1.45 per share in 1988. The fourth quarter net loss of approximately $566 million compared with a net loss of $126 million for the same period in 1988.

For the calender year 1988, Pinnacle West earnings were 5 cents per share of common stock. Net income for 1988 was $4 million.

Arizona Public Service Co. earnings for 1989, after payment of preferred dividends, were $180 million on revenues of $1.4 billion, a decrease from 1988 earnings of $238 million. APS' earnings were impacted by outages in

1989 at the Palo Verde Nuclear Generating Station. Two of the three Palo Verde units were off line most of the year.

Pinnacle West's smaller subsidiaries, SunCor Development Co. and El Dorado Investment Co., recorded combined losses for the year of approximately $28 million.

STATEN ISLAND, NY (FEB. 22) BUSINESS WIRE - ATLANTIC EXPRESS INC. (NASDAQ Symbol: ATEX) Thursday announced its plan to offer holders of its Class C and D Warrants the right to exchange their Warrants for new Class E Warrants, the exchange rate will be two (2) Class C or D Warrants for each Class E Warrant.

The Class E Warrant will entitle the holder to purchase one (1) share of common stock for a price of $4.50 before Oct. 1, 1990 and at a price of $7.00 from Oct. 2, 1990 through March 30, 1992. The exchange offer, which will require no consideration from the Class C or D Warrant holders, will be made pursuant to the terms of a registration statement which the company expects to file prior to the

expiration of the C and D Warrants.

The company also announced the extension of the expiration date of the Class C and D Warrants from March 10, 1990 to April 1, 1990, in order to give Warrant holders the opportunity to take advantage of the exchange offer.

ATLANTIC EXPRESS, INC. is one of the largest contract bus carriers in New York City with a fleet of 1,400 buses currently transporting approximately 65,000 school children daily. The company also provides charter and commuter bus transportation services.

ATLANTIC EXPRESS, INC. operates an entertainment division presently consisting of the Showplace Bowling Center and joint venture interest in a 10-plex theatre complex in Staten Island and an upscale restaurant in Piscataway, N.J. The Showplace center encompasses a 64-lane bowling facility with computerized, state-of-the-art equipment, an upscale restaurant, two cocktail lounges and additional retail space.

HAUPPAUGE, NY (FEB. 22) BUSINESS WIRE - EAGLE TELEPHONICS INC. (NASDAQ Symbol: EGLA) Thursday announced that Bell Atlantic Business Supplies Corp. has executed a three year agreement to distribute Eagle CLASS (Custom Local Area Signalling System) equipment.

EAGLE has designed a family of CLASS products including two ancillary boxes that connect to customers' present telephones, and three feature telephones that integrate CLASS functionality. Bell Atlantic Business Supplies Corp. will distribute these products to consumers in connection with its new services, known as IQ Services, being offered by the Bell Atlantic Operating Companies.

These services include Caller ID, Call Waiting Three-Way Calling, Speed Calling, Call Block, Select Forward, Call Forwarding, Repeat Call, Return Call, and Priority Call. The products will be supplied to Bell Atlantic Business Supplies Corp. and are intended for distribution to residential and commercial customers in connection with these new services which are emerging from the Bell Operating Companies.

Bell Atlantic Business Supplies Corp. is a subsidiary of Bell Atlantic Corp. which distributes computer and office supplies to small businesses and telephone equipment to consumers from its Exton, Pennsylvania location.

EAGLE TELEPHONICS INC. produces business electronic telephone keyset systems that are unique in their compatibility with standard ''1A2'' type telephone equipment, and unique in their ability to interface with Centrex services networks of the RBOC's as well as switchboards that handle conventional phones.

#90053b0622 02/22/1990 ~Business Wire

FREMONT, CA (FEB. 21) BUSINESS WIRE - Logitech Inc., a worldwide market leader in input technology, is now shipping CatchWord Intelligent Character Recognition software, an OCR package that has been optimized for use with the Logitech family of Scanman Hand-Held Scanners for IBM and compatible PCs.

The CatchWord product will be available through Logitech's dealer channel at a suggested retail price of $249, with a special introductory price of $199.

''CatchWord brings tremendous potential for quick and easy data input to the desktop of every user,'' stated Logitech president, Pierluigi Zappacosta. ''In the past, if you wanted to import and manipulate text while using a hand-held scanner, you had to purchase an expensive, memory-intensive OCR package that often functioned awkwardly with output from hand scanners.

The outlook for hand scanners and OCR software is extremely favorable, with several trends converging to make this an especially attractive market segment, in spite of analyst forecasts of overall slowdown in the microcomputer arena.

For example, BIS CAP International predicts a worldwide cumulative growth rate for hand-held scanners of approximately 100 percent from 1990 through 1993. Logitech believes that affordable, high-performance OCR capability may result in an even higher figure than this.

In addition to its role on the desktop, the hand-held scanner is well suited for use with portable computers, a market segment that also promises to show high growth over the next few years.

Logitech achieved its initial reputation as a software consulting company and a pioneer in computer mouse technology. More recently, the company has broadened its product line to include a variety of desktop tools, including pointing devices, hand-held scanners for both IBM and Macintosh platforms, and stand-alone software applications. In addition to its Fremont, facilities, the company maintains manufacturing operations in Ireland and Taiwan, and sales offices in major U.S. and European cities.

NEW YORK (FEB. 22) BUSINESS WIRE - Nantucket Industries, Inc. (ASE:NAN) announced Thursday that it has recommenced its program to purchase shares of Nantucket's common stock in the open market and privately negotiated transactions.

In November 1988, the Board of Directors authorized such purchases from time to time, provided the shares are available on terms considered favorable to the Company. Since that time, the Company has purchased approximately 80,000 shares.

Commenting, George J. Gold, Chairman of the Board, stated, ''Our original decision to repurchase our own common stock was based on our strong belief in the long-term growth prospects of our Company. Now, more than ever, we are confident that our ownership of the Company stock at current price levels is an opportune investment of corporate assets.''

Nantucket Industries, Inc. manufactures and sells men's, ladies' and children's undergarments and women's and men's socks.

#90053b0626 02/22/1990 ~Business Wire

KENT, WA (FEB. 22) BUSINESS WIRE - Sun Sportswear Inc. (NASDAQ: SSPW) Thursday announced record net sales and proforma net income for the fourth quarter ended Dec. 31, 1989, of $14.8 million and $0.5 million, respectively.

This compares to net sales and proforma net income for fourth quarter ended Dec. 31, 1988, of $12.4 million and of $0.4 million, respectively. Proforma earnings per share were 10 cents for the 1989 fourth quarter as compared to 8 cents for the comparable 1988 quarter.

Net sales in 1989 were $73.3 million, a 24 percent increase over 1988 net sales of $59.2 million. Proforma net income and proforma earnings per share were $4.1 million and 90 cents, respectively, for calendar year 1989 compared to $4.4 million and 98 cents, respectively, for calendar year 1988.

The overall decrease in 1989 resulted from significantly higher operating expenses in the first half of 1989 due to costs associated with actual and anticipated growth in sales, a decrease in the gross margin percentage associated with lower sales of higher margin licensed products and higher interest expenses due to higher borrowings. In the last half of 1989, however, net income improved from the comparable 1988 period because significantly increased net sales resulted in operating efficiencies, which more than offset increased operating and interest expenses.

Prior to the company's initial public offering, it did not pay federal income taxes because its income was included in the personal tax return of its then sole shareholder. For purposes of presenting net income and earnings per share, the company includes a proforma provision for income taxes at the marginal corporate tax rate of 34 percent.

#90053b0633 02/22/1990 ~Business Wire

REDONDO BEACH, CA (FEB. 22) BUSINESS WIRE - The TRW-built Pioneer 11 spacecraft, which made history's first trip to Saturn in 1979, will cross Neptune's orbit and leave the solar system Friday, Feb. 23.

Pioneer 11 has had a spectacular mission. It roared through the heart of Jupiter's huge radiation belts at 107,373 mph, by far the fastest speed ever traveled by a man-made object. The resulting gravity assist by the giant planet threw it high above the plane of the planets and 1.5 billion miles completely across the solar system to Saturn.

Because Pioneer 11 travels far above the plane of the planets' orbits (currently 780 million miles above), it has had a key role in charting the structure of the outer parts of the sun's atmosphere (the heliosphere). Recently it showed that often a majority of the ''solar cosmic rays'' in the heliosphere actually originate outside the sun's atmosphere in the intersteller gas, or the space between the stars.

On Feb. 23, Pioneer 11 will be about 2.8 billion (2,807,364,100) miles from the sun. It will leave all the planets behind on that day because Pluto is currently inside Neptune's orbit and will remain there for 12 more years. The Neptune orbit crossing will make Pioneer the fourth spacecraft to leave the solar system. The other three were also U.S. spacecraft. The first was Pioneer 10, Pioneer 11's sistership, also built by TRW. The second and third to leave were Voyagers 1 and 2.

Pioneer 10 made history by passing beyond the planets in June 1983. At 4.5 billion (4,504,368,800) miles away on Feb. 23, Pioneer 10 is the most distant human-made object. Light time for its radio signal to travel from earth to the spacecraft is six hours and 36 minutes.

Pioneer 10 continues to return new scientific information on the far reaches of the solar atmosphere as it plows through unexplored space. In its journey, Pioneer 10 continues to seek the boundary between the solar atmosphere and true intersteller space, and to search for very long wavelength gravity waves confirming Einstein's Theory of Relativity and for possible data on a tenth planet.

The Pioneer project is managed by NASA's Ames Research Center, Mountain View, Calif. The Pioneers were built by TRW Space & Technology Group in Redondo Beach.

TRW Space & Technology Group, based in Redondo Beach is an operation group of Cleveland-based TRW Inc. The group has built more than 175 communications, defense and scientific spacecraft, developed over 200 advanced space instruments and integrated some 550 experiments into their host spacecraft.

MOUNTAIN VIEW, CA (FEB. 22) BUSINESS WIRE - DataTrak Inc. announced Thursday that it has sold its electronic lockbox system product line to Supra Products Inc. of Salem, Ore., including DataTrak's patent rights.

Supra has granted back to DataTrak certain licenses to use the patents sold in connection with other products. DataTrak received $100,000 upon closing and will receive royalty payments of $10 per lockbox and $5 per entry card for all electronic lockboxes and entry cards manufactured and sold by Supra during the two years following the closing date and for three years thereafter will receive royalty payments equal to the greater of 5 percent on Supra's gross sales of electronic lockboxes and entry cards or $3 per lockbox and $2 per entry card.

Supra assumed approximately $450,000 in accounts payable and will guarantee royalty payments during the first two years of no less than $1,030,000. DataTrak will seek ratification of the transaction from its shareholders at a meeting to be held in May. A majority of the shareholders has agreed to vote in favor of the transaction.

Supra has been selling the electronic lockbox system to real estate boards under an exclusive distribution agreement with DataTrak. Supra is the leading manufacturer and distributor of lockboxes for the real estate and automobile dealer markets.

#90053b0640 02/22/1990 ~Business Wire

CUPERTINO, CA (FEB. 22) BUSINESS WIRE - Apple Computer Inc. announced Thursday that it will decrease the suggested retail price in the United States on all models of its Macintosh SE and SE/30 personal computers and LaserWriter IINT and IINTX printers.

''We are lowering prices in the U.S. so that we can bring the Macintosh personal computing experience to more people,'' said David Hancock, senior vice president of marketing, Apple USA. ''These actions further improve the value to our customers for our mainstream personal computers and our LaserWriter II family. The pricing changes will allow us to reach more people in price/performance categories where customer demand is growing,'' said Hancock.

''We expect many of our customers, particularly in education and small business, to combine Macintosh SE and LaserWriters for productivity, publishing and connectivity applications,'' Hancock said.

''Macintosh is unique in the industry because its the only personal computer that lets the customer pick the best entry point and then grow with the same software as their needs grow,'' said Hancock. ''Thats why customers can buy an SE or SE/30 today and take advantage of the powerful features of System 7.0 when it ships later this year.''

A small footprint, transportability and affordable pricing characterize Apples best selling compact product line. The expandable Macintosh SE is the most popular Macintosh computer yet developed. The SE/30 is the highest performance compact Macintosh.

The LaserWriter II family is the premier printer product line in the personal computer industry. The combination of PostScript image quality, ease of use, connectivity and award winning industrial design make the LaserWriter IINT and LaserWriter IINTX printers the standard against which all laser printers are compared. The LaserWriter IINT is Apples most popular LaserWriter printer. The NTX is the highest performance and most expandable LaserWriter yet.

The new U.S. pricing structure will be effective immediately. Current and previous suggested retail prices for the computers and printers are listed below.

#90053b0643 02/22/1990 ~Business Wire
CARMEL, IN (FEB. 22) BUSINESS WIRE - Conseco Inc. (NYSE:CNC), a financial services company headquartered in Carmel, Thursday reported record fourth quarter and year-end earnings for the periods ended Dec. 31, 1989.

Fourth quarter 1989 net income was $10.2 million, or $1.00 per share fully diluted, up 35 percent on a per share basis from $7.9 million, or 74 cents per share, in the like period last year. Net income for all of 1989 was $47.2 million, or $5.04 per share fully diluted, up 94 percent per share from $30.3 million, or $2.60 per share, in 1988.

Stephen C. Hilbert, chairman, president and chief executive officer of Conseco, said, ''The quarter and year were highlighted by significant achievements in three key areas: in marketing-where record levels of premiums were written, contributing to a sharp increase in assets; in investment management-where our 'active management' philosophy produced outstanding investment returns; and in operations-where we continued to maintain a firm control on operating expenses even as the company grew significantly. These achievements came together to produce record earnings, a stronger balance sheet and a superior total return to shareholders in 1989. We're seeing the same business trends carry forward into 1990, and we're looking forward to another excellent year.''

Dividend. Conseco Thursday announced the regular quarterly dividend on its common stock. Common shareholders of record on March 20, 1990, will receive a cash dividend of 5 cents per share, to be paid on April 2, 1990.

#90053b0653 02/22/1990 ~Business Wire
SAN DIEGO (FEB. 22) BUSINESS WIRE - U S WEST Communications and IBM announced Thursday at the Western Communications Forum in San Diego that they are conducting a pilot that brings the high-speed, high-capacity benefits of Integrated Services Digital Network (ISDN) to the home.

U S WEST and IBM employees involved in the pilot are able to work at home and use their telephones to access business applications on their office computers through the IBM Information Network.

The pilot, which began earlier this month, is another step toward opening the door to potential users who need a high-speed connection to a host computer at their offices. The trial will test the technical feasibility of delivering ISDN to the home, utilizing IBM's 7820 ISDN Terminal Adapter.

The 7820 allows installed IBM equipment to be connected without modifications to ISDN. This basic rate interface terminal adapter, used in conjunction with NetView/PC, an IBM Network Management product, provides a central overview of both the Systems Network Architecture (SNA) and ISDN environments.

ISDN is an all-digital transport system that transmits voice, data, facsimile, telemetry, image, video and signaling information simultaneously over telephone lines. The trial explores the possibility of delivering these services to the home over the public switched telephone network.

Initially selected IBM employees in Boulder and Denver, Colo., will use the ISDN interconnection to access electronic mail, marketing programs, information and other business applications through the IBM Information Network. In addition, a U S WEST employee in Englewood, a suburb of Denver, will install, maintain and debug program products running at U S WEST's Englewood data center.

Access from home computers/terminals to office computers traditionally involves modems that transmit data at 1.2 or 2.4 kilobits per second. Employees in the pilot will be able to transmit documents at 19.2 kbps initially, and eventually at 64 kbps -- the speed of ISDN.

U S WEST Communications, owned by U S WEST Inc., serves the communications needs of more than 12 million customers in 14 western and northern states.

The IBM Information Network, IBM's commercial, value-added network, offers nationwide and international connectivity. The network provides inter-enterprise electronic mail, electronic data interchange and interactive access to commercial databases as well as integrated industry applications.

TROY, MI (FEB. 22) BUSINESS WIRE - Handleman Company (NYSE:HDL) Thursday announced net sales for the third quarter ended Jan. 27, 1990, of $224.6 million, compared with $194.6 million in the third quarter ended Jan. 31, 1989, an increase of $30.0 million or 15 percent. This represents the highest quarterly sales volume in the company's history.

Prerecorded video sales were $96.2 million vs. $67.5 million last year, an increase of $28.7 million or 43 percent. The third quarter included the release of the box office hit ''Batman'' to the sell-through market, and also included reorders for ''Bambi,'' ''Who Framed Roger Rabbit,'' ''Land Before Time,'' and "Wizard of Oz.''

Music sales of $111.4 million were essentially unchanged from a year ago; the third quarter had a relatively good schedule of new releases, but sales were flat when being compared with the third quarter of last year, which contained many strong releases. Book division sales this year increased 41 percent to $13.7 million and home computer software sales of $3.3 million were down $2.8 million from last year.

Net income for the third quarter this year was $15.1 million, or $.46 per share, compared to $13.5 million, or $.42 per share, last year, an increase of 12 percent. The gross profit margin for the third quarter this year was 25.6 percent, compared to 26.0 percent last year.

For the first nine months of this year, sales increased 12 percent to $556.9 million from $495.3 million for the same period last year. Net income for the first nine months of this year increased 12 percent to $34.2 million, or $1.05 per share, from $30.6 million, or $.95 per share, last year.

All common share and per share data have been adjusted for the 3-for-2 stock split distributed Aug. 10, 1989.

Handleman Company is the largest rack jobber of home entertainment products to mass merchandisers in North America. Products include prerecorded music, prerecorded video, books and home computer software.

ATLANTA (FEB. 22) BUSINESS WIRE - American Software's (NASDAQ:AMSWA) revenues and net earnings for the quarter ended Jan. 31 are the highest quarterly revenues and net earnings in the company's history.

The comparison of revenues and net earnings for the nine month period ended Jan. 31, 1990, over the corresponding nine month period ended Jan. 31, 1989, shows growth in revenues of 29 percent and net earnings of 26

percent.

American Software's revenues for the third quarter of fiscal 1990 were $23,556,000, up from $19,736,000 in the same period last fiscal year. Net earnings for the third quarter increased $5,638,000 from $4,540,000 a year ago.

Fiscal 1990 third quarter earnings per share were 37 cents, up from 31 cents per share on 15,143,826 and 14,890,815 weighted average shares outstanding, respectively.

For the first nine months of fiscal 1990, revenues were $64,586,000, compared to $49,930,000 for the corresponding period last year. Net earnings for the same period were $13,120,000, compared to $10,434,000 last year (excluding any impact from SFAS96 ''Accounting for Income Taxes''), a 26 percent increase.

Earnings per share for the nine month period were 87 cents compared to 69 cents (excluding a 5 cent per share impact from the change in accounting for income taxes) last year on 15,110,870 and 15,038,790 weighted average shares outstanding, respectively.

American Software, headquartered in Atlanta, develops, markets and supports business application software for a wide range of end-users, including manufacturing companies, public utilities, financial institutions, healthcare facilities and distribution concerns.

#90053b0668 02/22/1990 ~Business Wire

CANTON, MA (FEB. 22) BUSINESS WIRE - Instron Corp. Thursday reported quarterly sales and earnings for the fourth quarter of 1989.

Net sales for the quarter ended Dec. 31, 1989 were $30,135,000, compared with $32,061,000 for the fourth quarter of 1988. Net income was $1,360,000, or 22 cents per share, compared with $536,000, or 9 cents per share in 1988.

Net sales for the year ended Dec. 31, 1989 totaled $111,398,000, compared with $111,537,000 in 1988. Net income for the year was $3,245,000, or 53 cents per share, compared with $2,446,000, or 40 cents per share in 1988.

Although bookings and shipments were below expectations, earnings have increased year to year by 33 percent. Bookings in the fourth quarter were 4 percent less than last year, but year-end backlog of $30,749,000 million

remained approximately the same as in 1988. Bookings activity in the U.S. was strong in the first half of 1989 and somewhat weaker in the second half, but this trend was offset by stronger international business.

Harold Hindman, chairman of Instron, said that, ''Although the 1989 fiscal results were below plan, a combination of cost reduction programs in manufacturing operations coupled with tight expense controls resulted in increased profitability with only a small volume change over 1988. In addition, the company's overall debt was reduced as inventories were lowered and an important company goal, return-on-equity, also showed improvement.''

Hindman also stated that, while he was pleased with the earnings improvement considering flat sales, the effort to control costs and improve revenues would continue to be addressed.

Instron Corp., listed on the American Stock Exchange (ISN), is a leading producer of instruments and systems for advanced materials testing.

SPARTA, NJ (FEB. 22) BUSINESS WIRE - Laser Recording Systems Inc. (''LRS'') (NASDAQ:LRSIU) (Boston Stock Exchange:LRSU) Thursday announced that Fred H. Miller has been appointed Chief Financial Officer, a newly created position.

Prior to joining Laser Recording Systems, Miller was vice president, finance of Blue Arrow Services Inc., a $250 million American subsidiary of an international employment services firm.

Miller had served as treasurer/vice president of Worms Inc., a U.S. based investment banking and asset management subsidiary of an international firm. Before that, he was Director of Corporate Planning at the American Broadcasting Company. Miller began his career with the accounting firm Arthur Young & Company

Carver Washburn, president of LRS commented, ''The need for a chief financial officer reflects our rapid growth to date and our plans for future expansion. Mr. Miller is a skilled executive with diversified financial experience in senior management positions. His considerable experience will significantly enhance our financial management capabilities.''

The company also announced that it has signed a new contract with Ciba

Geigy and additional contracts expanding the services it provides to The Upjohn Company, American Cyanamid/Lederle Labs, and a division of Warner-Lambert. These contracts should begin to contribute to revenues in the first quarter of fiscal 1991 which ends April 30, 1990.

Washburn noted, ''These contracts represent a key element in our strategy for growth which includes expanding the services we offer to existing customers. Since we initiated marketing efforts in the second half of fiscal 1990, we have built a customer base of corporate clients including Glaxo, Hoffman LaRoche, American Cyanamid/Lederle Labs, Merck and Sandoz among others. In the months ahead, we will continue to penetrate the industry.''

Laser Recording Systems Inc. offers an integrated optical disk-based systems solution through the application of proprietary software, data base management, local area networking and optical technologies.

LRS's first product line is designed to significantly reduce the time and expense to the pharmaceutical industry and the FDA in processing new drug applications.

ORLANDO, FL (FEB. 22) BUSINESS WIRE - Laser Photonics Inc. (NASDAQ:LAZR) announced Thursday that it has entered into a worldwide distribution agreement with Metalaser Technologies Inc. for scientific copper vapor lasers.

With industry sales for scientific lasers anticipated to exceed $243 million in 1990, this move further enhances Laser Photonics' position in the scientific marketplace.

The copper vapor technology is used for a variety of scientific applications among which include dye laser pumping (commonly used for spectroscopy), airborne mapping/LIDAR (''laser radar''), high speed photography and videography.

This agreement is exclusive except for copper vapor lasers used in femtosecond research which will continue to be handled by Clark Instrumentation Inc.

Laser Photonics Inc. designs, manufacturers, and markets solid state and gas laser systems, components and other peripheral equipment for applications in the medical and scientific markets.

STOCKHOLM, Sweden (FEB. 22) BUSINESS WIRE - Ericsson has received a $28 million order from Mauritius for equipment to expand the telecommunications network on the island.

Mauritius, located in the Indian Ocean about 500 miles off the coast of east Africa, is an independent constitutional monarchy within the British Commonwealth.

The contract covers project management and expansion of the total telecommunications network in 17 cities. Ericsson plans to use personnel resources from its own network engineering companies in Sweden and Southeast Asia on the project. Nokia, the Finnish company, will supply the cable.

The entire project is scheduled to be completed in late 1991.

Headquartered in Stockholm, Ericsson is one of the world's leading manufacturers of telecommunications equipment. Its wholly owned North American subsidiary is based in Richardson, Texas.

NEW YORK (FEB. 22) BUSINESS WIRE - Overseas Shipholding Group, Inc. (OSG) Thursday reported net income for the year ended December 31, 1989, of $51,976,000, or $1.46 per share, up from $46,404,000, or $1.29 per share, for the previous year.

For the fourth quarter of 1989, net income was $11,091,000, or $.32 per share, compared to $12,516,000, or $.35 per share, for the fourth quarter of 1988. Gains from disposal of vessels for 1989 amounted to $1,294,000 ($.04 per share), compared with $2,190,000 ($.06 per share) for 1988, including $516,000 ($.01 per share) for the 1988 fourth quarter.

In early 1990, the Company took delivery of a 254,000 deadweight ton (dwt) tanker newbuilding, which immediately commenced an 18-month charter. OSG's current newbuilding program, consisting of 12 vessels aggregating 1.3 million dwt, will be completed with the delivery of two new 120,000 dwt dry bulk carriers in the first half of 1990.

The Company also announced that it has recently concluded a $500 million unsecured credit facility with a syndicate of leading U.S. and international banks, which consolidates and expands several existing credit agreements.

OSG, one of the largest bulk shipping companies in the world, owns and operates a fleet of 67 vessels with a total carrying capacity of 6.3 million dwt.

FITCHBURG, MA (FEB. 22) BUSINESS WIRE - Earnings of Fitchburg Gas and Electric Light Co. (AMEX:FGE) for the 12 months ended Dec. 31, 1989, were

approximately $3.1 million, or $2.35 per share, the company announced Thursday.

This compares to earnings of $3.36 per share for the comparable 12 months a year earlier.

According to Peter J. Stulgis, chief financial officer, ''While we are not entirely pleased with the earnings for 1989, the company has achieved solid results, including a gain in book value, despite the extraordinary expenses incurred in relation to the ongoing 10 month old hostile tender offer by Eastern Utilities Associates and the proposed merger with UNITIL Corp.

''More importantly, Stulgis added, ''we expect earnings in 1990 to be relatively unaffected by such extraordinary expenses, even if Eastern Utilities Associates decides to continue to pursue its hostile tender offer through the coming year.''

Per share earnings were positvely impacted by a slight growth in firm gas sales, cost-saving measures adopted by the company during the course of the year and a recognition of delivered but unbilled energy sales.

Fitchburg Gas and Electric Light Co. is an operating public utility providing electric services to 25,170 customers and natural gas service to 15,640 customers in north central Massachusetts.

#90053b0692 02/22/1990 ~Business Wire

WESTFIELD, MA (FEB. 22) BUSINESS WIRE - Stanhome Inc. (NYSE:STH) announced Thursday that 1989 sales and earnings achieved new highs for the fourth quarter and full year.

1989 represents the sixth year in succession that operating profit and earnings per share have achieved new highs. Fourth quarter sales increased 28 percent to $181,204,000, operating profit increased 9 percent to $30,791,000, net income increased 7 percent to $17,116,000 and earnings per share fully diluted increased 13 percent to 86 cents compared to 76 cents per share in 1988.

For the full year 1989, sales increased 19 percent to $571,380,000, operating profit increased 8 percent to $80,290,000, net income increased 10 percent to $44,624,000 and earnings per share fully diluted increased 14 percent to $2.23 compared to $1.96 per share in 1988. 1989 results include the operations of the Hamilton Group Ltd., Inc., which was

purchased in May, 1989. Average shares fully diluted are less in 1989 compared to 1988 due to treasury stock repurchases in 1989.

Sales and operating profit for the Enesco Worldwide Giftware Group increased for the fourth quarter and full year, with 1989 sales up 16 percent and operating profit up 13 percent. Worldwide direct selling sales increased for the quarter but operating profit decreased slightly.

For the year, worldwide direct selling sales increased 2 percent but operating profit decreased 6 percent. 1989 European direct selling results were unfavorably impacted by lower currency translation rates compared to 1988, as sales increased slightly but operating profit declined.

MIAMI (FEB. 22) BUSINESS WIRE - MetalBanc Corp.(NASDAQ: MBAN), headquartered in Miami, Thursday reported increased revenues and earnings for the third quarter of fiscal year l990 ending December 31, 1989.

The announcement was made by President Howard M. Glicken, who said that ''the Company continues to maintain a high degree of liquidity in the short-term as it seeks to diversify operations through the acquisition of one or more businesses. As of December 31, MetalBanc had total current assets in excess of $6.2 million.''

For the third quarter, the company had total revenues of $979,000, compared with $477,000 in l988. Net income for the quarter was $147,000, vs. a net loss of $24,000 in the previous year's quarter, which included a loss from MetalBanc's discontinued precious metals operations.

On the basis of continuing operations alone, the company posted third quarter earnings of $147,000, compared with $3,000 for the same quarter last year.

The primary component in third quarter revenues was a $582,000 gain on the sale of investment securities. The balance came from interest income and sales of real estate by the Groshire Development Group, a wholly owned subsidiary active in building and development in South Florida.

For the first nine months of fiscal year l990, the company had revenues of $3.1 million versus $2.0 million in l988. Net income was $31,000 ($.01 per share) compared with $122,000 ($.01 per share) in the same period last year. On a continuing operations basis, income for the nine month period totaled $31,000, compared with $38,000 in l988.

Groshire has provided approximately two-thirds of the company's revenues for the nine month period, primarily through the sale of a portion of the 64 single-family lots purchased in April l989.

During the third quarter, MetalBanc also announced board approval of a stock buyback program, a purchase of 827,300 shares of the company's common stock by an investor who ''fully supports the Company's strategy,'' and the breakup of its trading units into common stock and warrants.

''All of these actions are consistent with our program to maximize shareholder value,'' Glicken concluded.

SOMERVILLE, NJ (FEB. 22) BUSINESS WIRE - Beatrice D'Agostino, president and chief executive officer of Bancorp New Jersey Inc. (OTC/NASDAQ:BCNJ), announced Thursday the approval by the board of directors of a quarterly dividend of 10 cents per share, payable March 15, to shareholders of record on March 1.

''This cash dividend represents the seventh quarterly payment since a dividend program was first instituted in 1988,'' commented D'Agostino.

''The quarterly dividend, on an annualized basis, represents approximately one-third of Bancorp's 1989 earnings of $3.53 million, underscoring our strong commitment to providing shareholder return.''

D'Agostino also highlighted the rapid implementation of Bancorp's five year stock repurchase program, announced in December, 1989.

''Of the 500,000 shares authorized, Bancorp has purchased to date approximately 2.5 percent of outstanding shares. We will continue to actively invest in Bancorp through the repurchase program whenever market conditions are favorable.''

Bancorp New Jersey, located in Somerville, is the parent company of the 118-year old New Jersey Savings Bank, a wholly owned subsidiary with six banking offices in Somerset, Hunterdon and Mercer counties.

Required applications for the acquisition of a seventh branch office, located in Bridgewater Township, are currently being finalized. New Jersey Savings Bank is a member of the Federal Deposit Insurance Corp. (FDIC).

EXETER, NH (FEB. 22) BUSINESS WIRE - Consolidated earnings of Uniti Corp. (AMEX: UTL) for the twelve months ended Dec. 31, 1989 were approximately $2.6 million, or $3.52 per share, the company announced Thursday. This compares to consolidated earnings of $3.72 per share for the comparable 12 months a year earlier.

According to Peter J. Stulgis, chief financial officer, "Unitil is pleased with the earnings results achieved for 1989, especially in light of the extraordinary expenses incurred in relation to the ongoing ten-month-old hostile tender offer by Eastern Utilities Associates and the proposed merger with Fitchburg Gas and Electric Light Co.

"In spite of those expenses, the company has come close to matching last year's all-time high earnings and achieved an approximately six percent increase in the book value of the company."

Stulgis added, "More importantly, we expect earnings in 1990 to be relatively unaffected by such extraordinary expenses, even if Eastern Utilities Associates decides to continue to pursue its hostile tender offer through the coming year."

Per share earnings were positively impacted by a slight growth in sales, cost-savings attributable to a number of operating consolidations which came to fruition during the year and a recognition of delivered but unbilled energy sales.

Unitil Corp. is a New Hampshire-based utility holding company. Its subsidiaries are Concord Electric Co., Exeter and Hampton Electric Co., Unitil Power Corp., Unitil Realty Corp., and Unitil Service Corp.

#90053b0707 02/22/1990 ~Business Wire
TOLEDO, OH (FEB. 22) BUSINESS WIRE - Society Bank & Trust has introduced ''HomeAssist,'' a program to help low to moderate income families realize the dream of owning their own homes, in its Toledo and Findlay districts.

''Turning the dream of owning your own home into reality is hard work,'' Frederick A. Deal, chairman and chief executive officer of Society Bank & Trust said Thursday, ''and Society stands ready to work with those individuals and families whose efforts have put them within reach of

owning their own home.''

Society's HomeAssist, which requires only a 5 percent down payment, includes these features:

- Society will match 50 percent of the required down payment up to $1000 with no repayment necessary.

- Each year, buyers and potential buyers will have the benefit of two one-on-one financial planning sessions to discuss budgeting, personal savings planning and credit strategies. Individuals not immediately qualifying for HomeAssist financing can use the sessions to organize budgets to improve their ability to qualify in the future.

- Term of the mortgage can range from 10 - 30 years at a fixed interest rate.

- Mortgage insurance is not required (as it is with FHA financing or with conventional mortgages where buyers make less than a 20 percent down payment), thereby allowing the home buyer to enjoy significant savings.

- More favorable debt-to-income approval ratios have been established as part of the program.

- Society's HomeAssist program will be coordinated with various city and county home mortgage grant programs as applicable and available.

To qualify for HomeAssist, prospective owners must meet varying income levels based on family size (if any). The owner must live in the house, which can be up to a four-family dwelling. HomeAssist is not limited to first-time homebuyers. It may be used to purchase a property the owner intends to rehabilitate.

Structures must meet city code approvals and be certified in heating, electrical and plumbing systems. The roof and structure must also be certified.

Society's HomeAssist may not be used to refinance existing mortgages. However, those using seller financing such as land contracts or purchase money mortgages may participate in HomeAssist. Individuals who plan to buy houses and then rehabilitate them should present plans, a contract or estimates, specifications, costs and other relevant information as part of the package they submit for HomeAssist consideration.

Loan payments must include escrow amounts for real estate taxes and home owner property insurance.

Society Bank & Trust is a $3 billion banking company headquartered in

Toledo. It is an affiliate of Society Corp., one of the largest bank holding companies in Ohio with assets of $16.2 billion and banking regions in Cleveland; Columbus, Ohio; Dayton, Ohio; Ann Arbor, Mich.; and South Bend, Ind. A trust affiliate is located in Naples, Fla.

NEW YORK (FEB. 22) BUSINESS WIRE - Hasbro Inc. (ASE:HAS) announced that its board of directors has declard a quarterly cash dividend of 5 cents per common share, a 25 percent increase from the 4 cent quarterly cash dividend per common share previously in effect.

The dividend, which will be payable on May 18, 1990, to shareholders of record on May 4, 1990, reflects the company's increased earnings and strong financial position.

Hasbro Inc., also announced that its board had authorized the repurchase of 940,000 common shares from the estate of Stephen Hassenfeld, its late chairman of the board and chief executive officer, at $18.85 per share, pursuant to the formula established by an agreement originally entered into by the company and members of the Hassenfeld family in 1983.

The aggregate purchase price of $17,719,000 will be funded from working capital of the company and used by the estate for the payment of taxes and certain other expenses.

NEW YORK (FEB. 22) BUSINESS WIRE - United Industrial Corp. reported Thursday preliminary results for 1989.

For the year ended Dec. 31, 1989 net income was $8,004,000, or 61 cents per share, which includes a non-cash charge in the first quarter against earnings of $6,595,000 (50 cents per share) resulting from settlement during trial of an action by the company's subsidiary, AAI Corp. against the Harris Corp.

Pursuant to such settlement, the parties have agreed to present a joint claim for their damages against the Navy. This compared with net income

of $16,869,000, or $1.29 per share in the same period last year. Consolidated sales were $280,783,000 as compared with sales of $314,986,000 in the same period last year.

Net income for the fourth quarter ended Dec. 31, 1989 was $2,545,000, or 19 cents per share as compared with net income of $5,591,000, or 43 cents per share in the same period last year.

Consolidated sales in the fourth quarter were $65,335,000 as compared with sales of $81,455,000 for the same period last year.

Backlog at the end of the year was $268 million as compared to $271 million a year ago.

CHICAGO (FEB. 22) BUSINESS WIRE - Aon Corporation Thursday announced that W. Clement Stone has decided not to stand for re- election to the Board at the Annual Meeting of Stockholders.

Patrick G. Ryan, President and Chief Executive Officer, said, ''I have known and admired Mr. Stone for many years and we are indeed fortunate that he will serve as Aon's Chairman Emeritus and continue as Chairman of Combined Insurance Company of America.

''Mr. Stone has been Chairman of Aon and its principal predecessor company, Combined Insurance, for more than 60 years. His crowning achievement in business has been the building of Combined as this country's foremost direct writer of individual accident and health insurance. Combined today has operations in all 50 states and eight foreign countries and is Aon's largest subsidiary. Of course, Mr. Stone is widely respected for the books he has written in the motivational field his P.M.A. philosophy and his continuing philanthropic activities.''

Mr. Stone commented, ''After more than 60 years, it is time for this change. I feel very positive about Aon and its future prospects. I look forward to spending more time with my favorite charities, my writing, and, of course, my family. My health is terrific and I am confident that I can contribute to the continuing success of Combined Insurance Company of America.''

Mr. Ryan concluded, ''The directors, officers and employees of Aon companies join me in thanking Mr. Stone for his many years of energetic service and thoughtful, enthusiastic leadership. We are especially

pleased that his longstanding productive relationship with the Combined Insurance sales organization will continue.''

BIRMINGHAM, AL (FEB. 22) BUSINESS WIRE - Michael E. Corrigan, president of Protective Financial Corp., (NASDAQ:PROT) a subsidiary of Protective Life Corp., a Birmingham based life insurance holding company, and Joseph R. Williams, the president of Westmark Inc. of Beaverton, Ore., announced Thursday that an agreement in principle has been reached for Protective to acquire Westmark for an undisclosed sum.

The acquisition is subject to negotiation of a definitive agreement.

Westmark markets insurance products, travel services, and data processing services to financial institutions primarily in the Pacific Northwest and the Mid-Atlantic regions.

The acquisition should significantly enhance the future growth of Protective's marketing efforts through financial institutions.

LOS ANGELES (FEB. 22) BUSINESS WIRE - Calprop Corp., one of California's leading residential builders, Thursday reported that revenues and earnings for the fourth quarter and year ending Dec. 31, 1989, were above initial projections but slightly below last year.

Bill Rattazzi, president and chief executive officer, addressing the company's prospects in 1990, said, ''Calprop is adjusting its tactics in response to a softening of California's real estate market. We are widening our product line, repositioning some of our land holdings and keeping an eye out for attractively priced land in both northern and southern California.''

For the year just ended, the company reported earnings of $5,106,633, or $1.08 per share, compared to $5,185,316, or $1.11 per share in 1988. Revenues were $62,234,539 vs. $75,269,480 for the prior year. Unit sales for the year included 152 homes and 135 fully developed lots compared with unit sales of 315 homes and 14 developed lots in 1988.

For the fourth quarter, the company reported earnings of $2,086,988, or 44 cents per share, vs. the prior year's $2,151,842, or 46 cents per share. Revenues were $21,761,179 vs. $25,031,831 in 1988. Unit sales included 45 homes and 117 developed lots compared with unit sales in 1988 of 77 homes.

At year end, Calprop had 14 projects in various stages of development, which included approximately 3,200 units. This was up sharply from 11 projects, involving only 1,500 units, a year ago.

Calprop is quickly becoming one of California's leading residential builders and developers as it has expanded into land development and moved into additional California markets. Building and marketing homes for over 28 years, Calprop is a conservatively managed company providing architecturally award winning, quality homes in some of the state's most desirable communities in the San Francisco Bay Area, the greater Los Angeles region and the Inland Empire of Riverside and San Bernardino counties.

NEW YORK (FEB. 22) BUSINESS WIRE - Sophisticated upmarket products and a powerful distribution network have enabled Sharp Electronics Corp. to maintain the position as no. 1 in domestic facsimile sales for the third consecutive year, it was announced Thursday at a press conference in New York.

According to preliminary figures just released by Dataquest, a leading independent industry research firm, Sharp captured a 21.5 percent share of the domestic facsimile market in 1989. Actual Sharp figures were approximately 350,000 units for the year.

The Mahwah, New Jersey-based company first moved into the no. 1 spot in 1987, less than four years after introducing its first facsimile machine.

The overall fax market grew to 1,350,000 units in 1989, according to Dataquest preliminary findings. Sharp achieved its third year in a row at no. 1 with a 21.5 percent market share, far outpacing second-place Murata, followed by Canon and Panasonic.

Mahmarian attributes Sharp's ''triple crown'' in fax to a sophisticated product line-up covering all price points, advanced R&D capabilities and a strong, diverse distribution network of authorized dealers, select upscale retailers and mass merchants.

he ability to accurately anticipate trends has also been a factor behind Sharp's continued market dominance. Realizing that the future of the fax industry is in upmarket systems products, for instance, the company strengthened its mid-range line-up last year by introducing the sophisticated FO-550 and FO-750 models. To meet today's growing demand for plain paper fax, Sharp has just unveiled the next generation of laser technology, the affordable FO-5200 model.

Sharp research shows a cost per copy of just 3 cents with the new FO-5200 as compared with 5-to-7 cents for thermal fax and 12-to-15 cents with thermal transfer units. The model also features a cassette tray which can be easily upgraded to legal size as an option.

To complement the upmarket systems models, Sharp will continue to offer a comprehensive line-up of low-end fax for home office and small business use.

Leading the way is the value-packed FO-510 with, among a host of other features, a 13-page memory and auto cover sheet. Just introduced are the FO-333 with auto cutter and proprietary DIALCARD autodialing based on Wizard technology, and the FO-215 with auto cutter.

Sharp Electronics Corp., the $2 billion U.S. subsidiary of Japan's Sharp Corp., is a recognized leader in consumer, office and industrial electronics products, marketing more than 35 product lines and some 1,000 technology-driven products under the Sharp brand name in America.

Founded in 1962, Sharp Electronics employs 2,000 nationwide and is headquartered in Mahwah.

NEW YORK--(BUSINESS WIRE)--Commodore Environmental Services, Inc. (NASDAQ: COES) Thursday announced that it has signed a letter of intent to sell its wholly-owned subsidiary, Allwash of Syracuse, Inc., to members of the management team of Allwash and other investors. The proposed sale of Allwash is part of Commodore's continuing efforts to reduce its outstanding debt to its lending institution.

The consummation of the sale is contingent upon several matters, including negotiation of definitive agreements, a favorable due diligence investigation, approval by Commodore's Board of Directors, and the availability of sufficient financing. Commodore anticipates the closing of the transaction by April 1, 1990, concurrent with the previously-announced sale of Hesco Environmental Safety Co., Inc.

LISLE, IL (FEB. 22) BUSINESS WIRE - The board of directors of Molex Inc., an international electronic components company, Thursday called a special meeting of stockholders to ask for approval to authorize 60 million shares of a new class of non-voting common stock, par value 5 cents per share (the ''Class A Common Stock'').

The board intends to declare a dividend of one share of Class A Common Stock for each share of its Common Stock, par value 5 cents per share, and Class B Common Stock, par value 5 cents per share, outstanding. Molex intends to also have the Class A Common Stock listed on NASDAQ.

The company's board of directors also approved, subject to the approval of the company's stockholders, fair price provisions which amend the company's Certificate of Incorporation to provide for certain minimum price and procedural requirements, or alternatively, higher voting requirements, in connection with certain business combinations. In addition, the board of directors approved, subject to the approval of the company's stockholders, 25 million shares of a new class of so-called ''blank check'' preferred stock.

The company's common stock is listed on NASDAQ under the symbol MOLX. It is also traded on the Second Market of the Paris Stock Exchange and on the London Stock Exchange.

LAWRENCEVILLE, NJ (FEB. 22) BUSINESS WIRE - Multi Soft Inc., developer and marketer of cooperative processing software, and GE Capital, provider of financial services, Thursday announced the signing of a licensing agreement.

The agreement allows GE Capital to provide significantly enhanced services to users of their Credit Application system.

Multi Soft's INFRONT product allows GE Capital to provide a production strength solution for their credit system which also employs the latest in user interface and communications technology. The new system also controls integrity of the PC application as well as employing high efficiency peer-to-peer communication techniques to improve response time and minimize communication costs.

''The PC interface is designed following IBM's SAA/CUA guidelines while taking into account all production difficulties associated with limited experience users and the uncertainties of asynchronous communications'' stated Joe Coletti, manager of Systems Development at GE Capital.

Coletti continued by saying, ''testing of the new INFRONT-based system has shown a high degree of user approval and will make the operation of the credit system easily accessible to a much wider audience of retail

establishments for GE Capital.''

All aspects of the new system -- PC-based user interface, PC integrity and change management, and peer-to-peer communications -- are provided through Multi Soft's INFRONT products, Coletti noted that ''minimal development time was required on the mainframe in order to take advantage of the peer-to-peer processing within the existing mainframe code.''

Multi Soft Inc. (NASDAQ: MSOF) is a subsidiary of Multi Solutions Inc. (NASDAQ: MULT) and since 1984 has provided consulting, training, and productivity tools for the development and support of production cooperative processing applications.

For additional information on Multi Soft and its products, please contact Ray Ingram at Multi Soft, 609/896-4100

#90053b0773 02/22/1990 ~Business Wire

ROCHESTER, NY (FEB. 22) BUSINESS WIRE - Gleason Corporation (NYSE: GLE) Thursday reported income from continuing operations for the fourth quarter ended Dec. 31, 1989, of $4,578,000, or $.80 per share, compared with $4,081,000, or $.71 per share, for the fourth quarter of 1988.

The 1988 fourth-quarter results included an after-tax gain of $2,000,000, or $.35 per share, on the sale of certain land and buildings. Sales from continuing operations increased 29 percent to $51,184,000 in the fourth quarter 1989 from $39,668,000 in 1988. Net income for the 1989 fourth quarter was $4,980,000, or $.87 per share, vs. $3,757,000, or $.65 per

share, for the comparable 1988 quarter.

For the full year ended Dec. 31, 1989, income from continuing operations was $9,790,000, or $1.71 per share, vs. $1,605,000, or $.28 per share, for the 1988 year. Sales for the year from continuing operations increased 40 percent to $162,241,000 vs. $116,206,000 for 1988.

Net income for 1989 was $15,419,000, or $2.69 per share, vs. a net loss of $4,234,000, or $.74 per share, for 1988. Net income for 1989 included an after-tax gain of $7,725,000, or $1.35 per share, on the sale of the company's Power Systems Division.

The company's gear production equipment and technology business ended 1989 with a record high year-end backlog of $137 million. The comparable 1988 year-end backlog was $109.5 million.

Order activity remained high due to the favorable market acceptance of the newly introduced Phoenix gear production machines, increased worldwide demand for CNC equipment related to replacement and modernization programs and expansion of customers' manufacturing capacity in certain European and Pacific Rim markets.

The company said that its board of directors has declared a quarterly dividend of five cents a share, payable on May 24, 1990, to stockholders of record on May 11.

This marks the first dividend paid by the company since August 1982, after which dividends were omitted by the board because of losses sustained by the company. The May payment date is the next date on which a dividend would be payable under the schedule on which they were paid prior to their suspension in 1982.

James S. Gleason, chairman and president, said the dividend was warranted in the board's view by the marked improvement in operating results and return to profitability of the company in 1989.

Mr. Gleason also said: "The improved 1989 operating results reflect many positive events both internal and external to the company. Our company, like many producers in the machine tool industry, experienced higher sales in 1989 due to increased worldwide demand for capital goods."

#90053b0776 02/22/1990 ~Business Wire

TULSA, OK. (FEB. 22) BUSINESS WIRE - Hinderliter Industries Inc.

(ASE:HND), announced Thursday that it has received regulatory approval from the Securities and Exchange Commission to offer 14.75 percent Convertible Subordinated Debentures due 2000.

The company is offering through its selling agent, Great American Securities Inc., a minimum of $5 million aggregate principal amount of Debentures up to a maximum of $7,500,000 aggregate principal amount of Debentures. The Debentures have been preapproved for listing on the American Stock Exchange, subject to their issuance.

The Debentures will bear interest at the rate of 14.75 percent per annum, interest payable quarterly and mature on April 30, 2000. Each Debenture will be convertible at the option of the Debentureholder at any time on or prior to maturity or redemption, into Common Stock of the company at the conversion rate of one share of Common Stock for each $5 principal amount of Debentures surrendered for conversion.

The Debentures are redeemable, in whole or in part, at the option of the company, at a premium during the first seven years and at par thereafter, plus accrued interest to the redemption date.

The Debentures will be unsecured and subordinated to the company's senior indebtedness.

The offering will terminate on June 13, 1990, unless the minimum of $5 million principal amount of Debentures is sold prior thereto, in which event the selling agent may elect to extend the offering period an additional 30 days.

The offering will only be made by means of a written Prospectus, a copy of which may be obtained from the selling agent, Great American Securities Inc., located at 699 Hampshire Road, Suite 101, Westlake Village, California, 91361 or from the company at its principal executive offices in Tulsa.

The company, through its 83 percent owned subsidiary, Corken International Corp. (NASDAQ:CORK), headquartered in Tulsa, is a leading worldwide supplier of component parts for the transfer of alternative fuels and other volatile liquids and gases such as liquified petroleum gas (LPG) and compressed natural gas (CNG).

Hinderliter's Common Stock is listed on the American Stock Exchange (ASE:HND) while its Preferred Stock and Warrants are quoted NASDAQ (NASDAQ:HNDIP, HNDIZ respectively).

WORCESTER, MA (FEB. 22) BUSINESS WIRE - The board of directors of Peoples Bancorp of Worcester Inc. (NASDAQ:PEBW) Thursday voted to increase the regular quarterly dividend on the company's common stock from 28 cents to 29 cents per share.

The dividend is payable on April 20, 1990, to shareholders of record on April 3, 1990.

''This is the 13th consecutive dividend increase since the bank's initial dividend payment of 10 cents per share in January 1987,'' said Woodbury C. Titcomb, president and chief executive officer. ''The latest increase in our quarterly dividend is a direct result of a combination of positive factors. These include high asset quality, earnings strength and above-average capital adequacy and liquidity, all of which contribute to a sound financial condition.''

Through its principal subsidiary, Peoples Savings Bank, the company provides a wide range of retail and commercial banking services to a broad customer base throughout 24 offices located in central and northwestern Massachusetts.

#90053b0780 02/22/1990 ~Business Wire
WESTON, MA (FEB. 22) BUSINESS WIRE - The board of trustees of Eastern Enterprises (NYSE:EFU) Thursday adopted a shareholder rights plan and declared a dividend of one common share purchase right for each outstanding share of Eastern's common stock.

Each right would entitle shareholders to buy one share of Eastern common stock at an exercise price specified in the plan.

The rights are designed to protect shareholders of Eastern from attempts to acquire the company on terms or using tactics that could deny shareholders the opportunity to realize the full value of their investment.

Eastern's trustees also approved an employee salary continuation plan to protect its employees and those of its subsidiaries from unfair termination in the event of a takeover.

Robert W. Weinig, Eastern Enterprises president and chief executive officer, said, ''These measures were not adopted in response to any known

effort to acquire control of the company. The shareholder rights plan will not prevent a takeover, but is intended to encourage anyone seeking to acquire Eastern to negotiate with the company prior to attempting a takeover.''

Initially, the rights issued under the rights plan will not be exercisable and will trade only with the common stock. The rights would become exercisable at a substantial discount to market ten business days after a person or group acquired 20 percent or more of Eastern's common stock or was determined by the board to be an ''adverse person'' under criteria specified in the plan.

In addition, in the event Eastern were subsequently acquired in a merger or other business combination, each right would entitle its holder to acquire, at a substantial discount to market, common stock of the acquiring or surviving company.

The dividend distribution will be made to shareholders of record March 5, 1990. Unless exercised or redeemed, the rights will expire in ten years. The rights distribution is not taxable to shareholders of Eastern.

Details of the shareholder rights plan are outlined in a letter that will be mailed to all Eastern shareholders.

Eastern Enterprises is the parent company of Midland Enterprises Inc., leading barge operator on the nation's inland waterways; Boston Gas Co., New England's largest distributor of natural gas; and Water Products Group serving municipal, commercial and industrial markets with water system components and purification systems. Eastern's net income for 1989 was $56.6 million or $2.43 per share on revenues of $840 million.

#90053b0782 02/22/1990 ~Business Wire

ROCHESTER, NY (FEB. 22) BUSINESS WIRE - Eastman Kodak Co. Thursday introduced an electronic image enhancement system geared to the professional photography market, in addition to two new films for amateur and professional use, at the Photo Marketing Association (PMA) International convention in Las Vegas, Nev.

The Kodak Premier image enhancement system is an electronic tool designed to help commercial and industrial photo labs achieve new levels of quality and productivity. The system consists of three components: a film reader

an imaging workstation, and a film writer. Designed by Kodak, the system incorporates proprietary Kodak technology, including Kodak-developed software.

It can be operated in a standard office environment and enables the user to do photocomposition and retouching electronically, generating a continuous-tone film negative. Numerous functions can be handled electronically, from cropping and merging images to changing color balance or contrast, achieving precision and accuracy levels virtually impossible to reach manually.

Ektachrome 50 HC film is a new 35 mm color slide film for amateur photographers that features higher color saturation and very high sharpness. It will be available to consumers in Europe and Japan in March and elsewhere in the world at a later date.

The company also introduced its ultra-sharp Ektar 25 film in the 120 format for professional photographers. Ektar 25 film has very high resolving power, extremely high sharpness and the finest grain of any color negative film on the market.

Introducing the Premier image enhancement system at a press conference held at PMA, Raymond H. DeMoulin, Kodak vice-president and general manager Professional Photography Division, noted ''The Premier system reaffirms Kodak's commitment to developing state-of-the-art hybrid imaging systems for the professional photography market.

''Hybrid imaging technology is here to stay,'' DeMoulin said. ''The Premier system is an excellent example of how electronic imaging and silver-halide based technologies can be combined effectively. Since the system's 'language' is geared to photography, it fits smoothly into photo lab and photo retouching environments.''

The Premier system is priced at less than $500,000. Depending on how owners position the system to customers, and what volume increases the system's use may generate, DeMoulin said the system can pay for itself at a fairly rapid rate.

#90053b0788 02/22/1990 ~Business Wire

BOSTON (FEB. 22) BUSINESS WIRE - ''The global company of the 90's approaches the world as if it were one single market,'' said Don Peterson, group vice president, Meridian Business Systems, Northern Telecom Inc., to the New England - Canada Business Council here Thursday.

''Today, organizations large and small are engaged in business transactions that scan the world,'' he said. ''Leadership in the international business arena means incorporating the systems, people and presence to provide global services to customers with consistency, quality and speed.

''Successful companies must become, in effect, 'local' companies in every corner of the world.''

Peterson said that Northern Telecom had announced the first truly global communication system, the Meridian 1, in January in a live broadcast to customer audiences around the world via satellite from New York and London.

Meridan 1 communication systems offer a common, global hardware and software platform to deliver premises-based business solutions worldwide. Meridian 1 maintains Northern Telecom's 'evergreen' commitment, a commitment to evolve and still preserve customers' current equipment investments.

''Telecommunications leadership means supporting international standards '' said Peterson. ''We can simply pick up a phone and talk with someone halfway around the world. We need that same simplicity for speeding data and even video around the globe.

''That ease will come from embracing international standards, the essential pavement of 'information super highways' that, in the years just ahead, will stretch and intersect to every corner of the globe,'' he said.

''At Northern Telecom, we have a vision of an all-fiber broadband network we call FiberWorld,'' he added. ''Fiber provides at least 1,000 times the capacity of today's copper wire. It will eventually provide as much as a 3,000-fold increase in communications speed through the pubic telephone network.

''We'll be able to connect geographically dispersed supercomputers into a nationwide network, allowing scientists to share resources and data quickly and easily,'' Peterson said.

''Fiber will allow the network to expand to multimedia communications through voice, data, image and video, with advanced services like dial-up video networking, on-line retrieval of x-rays and interactive college lectures.

''The rules of the game have been changed by information technology,'' said Peterson. ''For business to succeed in such a world requires a global vision. Northern Telecom is a global company with a commitment to provide the products, support and service our customers require, anywhere

in the world.''

The New England - Canada Business Council serves as a forum for members of the New England business community to learn about developments between the two countries and to form contacts with other businesses interested in stimulating the continued growth of New England's relationship with Canada. More than 100 businesses from New England are members of the council.

Northern Telecom is the leading global supplier of fully digital telecommunications systems. The company provides products and services to the telecommunications industry, businesses, universities, governments and other institutions worldwide.

Northern Telecom Inc., with its headquarters in Nashville, Tenn., employs more than 22,000 people across the country.

OMAHA, NE. (FEB. 22) BUSINESS WIRE - ValCom Inc. has repurchased all 441,000 shares of its common stock owned by Drexel Burnham Lambert, annoucned David C. Guenthner, ValCom senior vice president and chief financial officer.

Drexel managed the initial public offering of ValCom Inc. stock in September 1987 and has held the stock since that time. The terms of the purchase were not disclosed.

''We were pleased with the opportunity to reinvest in this company and in this industry,'' said Guenthner. ''For the past three years we have shown a return on beginning equity in excess of 20 percent. We believe the share repurchase presented an excellent opportunity for us and our shareholders.''

Following the purchase, ValCom has 3,809,000 shares outstanding.

ValCom recently announced 1989 revenues of $359,111,000 with net earnings of $6,265,000.

ValCom Inc. is one of the largest computer chains in the country with more than 180 business centers in 46 states. The company provides computer systems, support services and training to business customers through franchised and company-owned stores.

Major computer lines include IBM, Compaq, NEC and Epson along with related computer products from Hewlett-Packard, Novell, Micro D and others.

ValCom shares are traded over the counter under the NASDAQ trading symbol VLCM.

NEW YORK (FEB. 22) BUSINESS WIRE - The following is a summary of a presentation Thursday at the New York Society of Security Analysts by Victor G. Incendy, chairman and chief executive officer of Cascade International.

Cascade International, Inc. (KOSM:NASDAQ), in a meeting Thursday at the New York Society of Security Analysts said that the company's sales and earnings are on target for the fiscal year ending June 30, 1990.

Victor G. Incendy, Chairman and Chief Executive Officer of Cascade, told analysts that the company's strategy of retailing cosmetics in women's apparel stores combined with the recent moves to control the stores by acquiring small chains of fashion boutiques is proving profitable and meeting expectations.

He said Cascade sales are currently running at an annual rate in excess of $50 million. He noted, ''At a time when many of our competitors are struggling, we have demonstrated an ability to sustain 20 percent pretax margins and close to 30 percent return of average stockholders equity.''

He added, ''In this day of mountainous financial leverage, we have achieved these results without the use of long-term debt.''

The chairman summarized Cascade as fast-growing with sales and earnings increasing at compound rates over the past three years of 52 percent and 67 percent, respectively, and financially conservative emphasizing equity financing with no long-term debt.

BEVERLY HILLS, CA (FEB. 22) BUSINESS WIRE - Clayton A. Williams has been appointed president of Litton's Applied Technology division, San Jose, Calif., and Bruce B. Whitehead has been named president of Litton Korea Limited, Seoul, Korea.

Williams, who had been president of Litton Korea Limited (LITKOR), succeeds Thomas A. Michalski, who resigned from Applied Technology to pursue other business interests. Whitehead had been vice president of business development at LITKOR.

Applied Technology is a unit of Litton's Electronic Warfare Systems group. It develops and produces threat warning systems, military and space computers, electro-optical systems and simulation and test equipment.

LITKOR, a division of Litton's Navigation, Guidance & Control Systems group, provides manufacturing, marketing and support services in Korea associated with Litton-designed advanced electronic systems.

Williams has more than 30 years of industrial experience including 18 years in operating management positions at Litton. He had been president of LITKOR since 1987. He holds a bachelor of science degree in

aeronautical engineering from the Northrop Institute of Technology, Inglewood, Calif.

Whitehead has 23 years of industrial business development, engineering and management experience. Prior to joining Litton in 1989, he held positions with the Raytheon Co., ITT, Technology Service Corp. and PAR Government Systems Corp. He has a bachelor of science degree in mathematics from Stevens Institute of Technology, Hoboken, N.J.

Litton is a technology-based company providing advanced electronic and defense systems, resource exploration services and industrial automation systems to U.S. and world markets.

#90053b0803 02/22/1990 ~Business Wire

CHARLOTTE, NC (FEB. 22) BUSINESS WIRE - Lance Inc. (OTC: LNCE), Charlotte republishes the following results of its consolidated operations for the 52 weeks of 1989, as compared with the 53 weeks of 1988, to correct its ''income before income taxes'' for the 16 weeks ended Dec. 30, 1989, which was previously reported as $19,519 in thousands except per share data:

LANCE INC.
Consolidated Operations

	16 Weeks 12/30/89	17 Weeks 12/31/88	52 Weeks 12/30/89	53 Weeks 12/31/88
Net sales and other operating revenue	$ 131,571	$ 133,542	$ 432,140	$ 407,683
Income before income taxes	21,884	15,277	69,864	60,381
Net income	$ 14,235	$ 9,753	$ 44,863	$ 39,143
Net income per share outstanding	45 cents	31 cents	$ 1.42	$ 1.23
Common shares outstanding at end of period	31,592,177	31,609,772	31,592,177	31,609,772

Even though there was one less week in 1989 than 1988, net sales and other operating revenue for the year was up 6 percent, or $24.5 million as compared with 1988.

After discounting the effect of the closing of Nutrition-Pak Corp. in January 1989, approximately 60 percent of the sales increase came from price increases instituted in the summer of 1989 on snack foods and bakery products.

After taking into account the recording in the fourth quarter of 1988 of the loss on the closing of Nutrition-Pak Corp. of $2.8 million, or 9 cents per share, net income was up $2.9 million, or 10 cents per share for the year due primarily to the product price increase in the summer of 1989.

#90053b0806 02/22/1990 ~Business Wire

HARTFORD, CT. (FEB. 22) BUSINESS WIRE - The continued soft property-casualty insurance market, record catastrophe losses and the write-down of an investment in a New York brokerage firm caused a decline in ITT Hartford's net income in 1989.

A solid performance from The Hartford's life operations and improved net income from international property-casualty operations helped to offset the decline in domestic property-casualty operations. In particular, Hartford Life's asset management services continued its very strong performance as deposit premiums grew to $1.5 billion, up 19 percent from 1988.

Full-year net investment income (after tax) for international property-casualty operations grew 33 percent to $146 million, due primarily to realized capital gains.

In the fourth quarter, net income for The Hartford's worldwide insurance operations declined 27 percent to $80 million, while dropping 31 percent to $271 million for the year, compared with the same periods in 1988.

The Hartford experienced a $133 million (before tax and after reinsurance) loss due to catastrophes in 1989, including $51 million from Hurricane Hugo and $10 million as a result of the San Francisco area earthquake.

Because of the soft commercial insurance marketplace, The Hartford's emphasis on renewing accounts at responsible rate levels became an essential priority. ''Our renewal retention in commercial lines is at an all-time high,'' said Donald R. Frahm, chairman and chief executive officer of The Hartford.

''Our renewal strategy, along with our policy of cautious underwriting and sound pricing, has helped us to maintain a competitive position in the deteriorating commercial lines market. This approach will allow us to take advantage of opportunities in the marketplace when it does turn around,'' noted Frahm.

The Hartford's net investment income (after tax) for worldwide

property-casualty operations, which grew 11 percent to $642 million for the year, also contributed significantly to the company's 1989 results. In the fourth quarter, net investment income (after tax) grew 15 percent to $171 million from the same period a year ago. At the end of 1989, The Hartford's total assets were more than $27 billion.

Compared with the same periods in 1988, written premiums for worldwide operations decreased 2 percent for the quarter and 1 percent for the year to $7.2 billion. The Hartford's combined ratio--claims and other expenses as a percentage of property-casualty premiums--was 110.5 percent for the quarter and 107.7 percent for the year.

ITT Hartford Insurance Group, a subsidiary of ITT Corp., is one of the nation's oldest and largest international insurance and financial services operations. Member companies offer commercial property and casualty insurance, automobile and homeowners coverages, and a variety of life insurance, employee benefit and asset management plans.

ITT Corp. is a diversified enterprise engaged principally in a variety of product and service businesses that includes insurance, finance, automotive, electronic components and hotels.

To strengthen its identity as a member company of ITT Corp., the company now identifies itself publicly as "ITT Hartford." The legal names of the companies that comprise ITT Hartford Insurance Group have not changed.

WYOMISSING, PA. (FEB. 22) BUSINESS WIRE - Prior to the elimination of the Pennsylvania Blue Laws, it was hard to imagine going shopping on a Sunday afternoon.

Today, its a very common Sunday activity. Now, Penn Savings Bank is experimenting with the success of Sunday hours.

According to Jay Sidhu, president and chief executive officer of Penn, the company's three indoor mall offices and its telephone banking center will be opened on Sunday, Feb. 25, for anyone interested in applying for a Penn Home Equity Line of Credit.

''We're trying to adapt to customers' hours,'' said Sidhu. With many two-income households, most families must take care of their personal matters on the weekends. Banking is one of those items. Penn's Berkshire Mall office, Park City Mall office, Coventry Mall office and telephone banking center will be open from 12 p.m. to 5 p.m. on the 25th.

''From a customer's standpoint, Sunday hours make a lot of sense, however, we didn't want to permanently commit to anything before testing the waters '' Sidhu said.

''One of the worst things a company can do is announce an expanded service only to find out that six months later it has to be eliminated because there is no demand.''

This happened to several banks in the California area who used big advertising campaigns to announce permanent Sunday hours, only to close them after a few months.

Because Penn will only be opened to answer questions and take applications for the popular tax deductible home equity lines of credit, management staff will be working on Sunday.

''Right now we have no plans to offer permanent Sunday hours,'' said Sidhu. ''But who knows? -- if it's a tremendous success, it is certainly something we will have to investigate further.''

WOODLAND HILLS, CA (FEB. 22) BUSINESS WIRE - 20th Century Industries (NASDAQ:TWEN), the Woodland Hills-based insurance holding company, reported earnings per share for the 12 months ending Dec. 31, 1989, of $3.55, according to Louis W. Foster, chairman.

Net income for the same period was $91 million and revenues were $705.8 million. Corresponding figures for the year ended Dec. 31, 1988, were earnings per share of $2.29, net income of $58.5 million and revenues of $626.1 million. Reported earnings per share included pretax realized investment gains of 6 cents for the 12 months of 1989 and 15 cents for 1988.

For the fourth quarter, the company reported net income of $22.2 million on revenues of $183.1 million with earnings per share of 87 cents. This compared with net income of $14.8 million on revenues of $165.6 million and earnings per share of 58 cents in the fourth quarter of 1988. Per-share quarterly earnings include a pretax realized investment loss of 2 cents, compared with a realized investment loss of 7 cents for the quarter in 1988.

Foster attributed the strong 1989 performance to automobile and homeowners policy growth, solid investment performance and improved underwriting results. Total policies in force rose 12.2 percent from 801,175 to 898,543.

20th Century Industries is a publicly held company traded on the NASDAQ National Market System under the trading symbol TWEN. Wholly owned subsidiaries are 20th Century Insurance Co., which markets automobile, homeowners and excess liability insurance; and 21st Century Casualty Co., which markets automobile and condominium insurance. Both insurance subsidiaries sell directly to consumers without agents.

LATHAM, NY (FEB. 22) BUSINESS WIRE - Mechanical Technology Inc. (OTC:MTIXE) announced Thursday that it has successfully reached agreement with its bank lenders on a restructuring of its financing.

Harry Apkarian, chairman and chief executive officer, said the negotiations with the lending institutions have been satisfactorily concluded and the agreement has been signed.

Under the restructuring accord, the lenders waived MTI's non-compliance with certain financial covenants as of 9/30/89. Revised covenants were agreed on for future periods, and adjustments were made to the repayment schedule for the loans and to the collateral provided to the lenders as security. The restructuring agreement expires in October, 1991.

In conjunction with completion of the restructuring of its existing debt, which totals approximately $22 million, MTI also secured a new line of credit. Under this arrangement, which expires in December 1991, MTI may borrow up to an additional $4 million as needed from time to time.

Apkarian also noted that, as previously announced, MTI's annual shareholders' meeting will be held on March 15 at 2:30 p.m. at the Mohawk Golf Club, Schenectady, N.Y.

MTI, located in Latham, N.Y., is a science-based, growth enterprise dedicated to the development and manufacture of high-technology products and systems serving the test/measurement and defense/aerospace markets. MTI had sales of $73.2 million in fiscal 1989.

DAYTON, OH (FEB. 22) BUSINESS WIRE - L.W. Ladehoff, chairman and chief executive officer of Amcast Industrial Corp. announced Thursday that two vacant board seats created by director retirements have been filled.

Shareholders filled one vacancy in December 1989 with the election of William G. Roth, 51, chairman and chief executive officer, Dravo Corp., Pittsburgh. At a meeting today, the company's board of directors appointed Ivan W. Gorr, 60, to the second seat. Gorr is chairman and chief executive officer of Cooper Tire and Rubber Co., Findlay, Ohio.

The board also declared the company's 114th consecutive quarterly dividend. The dividend of 12 cents per share on the common stock is payable March 30, 1990 to shareholders of record at the close of business March 12.

Amcast is listed on the New York Stock Exchange under the symbol ''AIZ.''

Amcast Industrial Corp. is a manufacturer of technology- intensive metal products. Its two primary businesses are proprietary flow control products marketed through national distribution channels, and engineered components for original equipment manufacturers. The company serves four major sectors of the economy: aerospace/aviation/defense, construction, automotive and general industry.

#90053b0829 02/22/1990 ~Business Wire

WOBURN, MA. (FEB. 22) BUSINESS WIRE - Alpha Industries Inc. (AMEX:AHA) Thursday announced that the company is proceeding with plans to restructure certain operations in line with the declining defense environment and the decision to emphasize Alpha's growing commercial businesses, which presently constitute over 50 percent of its volume.

In announcing the company's action, Alpha Chairman George S. Kariotis said ''The restructuring represents decisive responses by the company to the declining defense business as well as provisions for full cost recovery on certain contracts. The restructure should be the final step in the cost realignment actions initiated last quarter and will include consolidation of facilities and work force reductions.''

The company indicated that a significant loss will be incurred for the fourth quarter ending April 1, 1990. In addition to the provision for the restructuring decisions, results will include an operating loss for the period, and the aggregate pretax loss is expected to be approximately $15.5 million. Kariotis noted, ''While there is no such thing in this industry as a certainty, we have crafted this realignment to position the company for profitable operations as we enter FY 1991. Also, once the expenditures associated with the restructure are completed, Alpha should return to positive cash generation.''

Separately, the company reported developments regarding the environmental law suit involving its wholly-owned subsidiary, Trans-Tech Inc. Trans-Tech was prepared for trial to begin on Feb. 5, 1990; however, Judge Clater W. Smith postponed the trial indefinitely because of plaintiff's failure to have completed pre-trial discovery. The company is unable to predict when the trial will begin, but anticipates that it will be at least several months.

Alpha is a leading supplier of microwave semiconductor, ceramic, and ferrite devices, microwave and millimeter wave components, and

multifunction subsystems that are sold to manufacturers of sophisticated electronic systems.

ARLINGTON, VA (FEB. 22) BUSINESS WIRE - Westwood One Inc. (NASDAQ:WONE) announced Thursday that its NBC Radio Network unit has signed a five-year exclusive contract to broadcast the annual New Year's Day Rose Bowl game, the nation's premier college football contest.

The NBC Radio Network has entered into an exclusive agreement with the Pasadena Tournament of Roses Association and the Pacific 10 Conference to broadcast play-by-play radio coverage, according to Westwood One Sports Director, Larry Michael.

The agreement will permit the network to sell up to 25 minutes of advertising availabilities during each broadcast.

''We are extremely pleased that the Rose Bowl tradition will continue on NBC Radio Sports well into the 90s,'' said Michael. ''Our Rose Bowl broadcasts are the cornerstone of the network's comprehensive bowl game coverage. In fact, the Rose Bowl was one of the first events carried by NBC Radio, more than 60 years ago.''

NBC Radio Sports will broadcast the Rose Bowl live from Pasadena, Calif. each January 1 for the next five years.

The Rose Bowl, affectionately known as the ''Grandaddy of them all,'' pits the champion of the Big Ten Conference against the champion of the PAC 10, in what is traditionally one of the most exciting games of the college football season.

Last season, Westwood One's NBC Radio Network and Mutual Broadcasting System provided coverage of eight of the biggest and best college football bowl games. NBC Radio aired the Rose Bowl, Orange Bowl, Liberty Bowl and Fiesta Bowl. Mutual Broadcasting carried the Sugar Bowl, Holiday Bowl, Aloha Bowl and All-American Bowl.

Westwood One is America's largest producer and distributor of radio programming and the parent company of the NBC Radio Networks and the Mutual Broadcasting System.

Westwood One's award-winning news, talk, sports and entertainment programming is heard on more than 6,000 radio stations around the world.

#90053b0852 02/22/1990 ~Business Wire

BRENTWOOD, TN (FEB. 22) BUSINESS WIRE - Republic Automotive Parts Inc. (NASDAQ/NMS:RAUT) Thursday reported that net income for 1989 totaled $627,000, or 22 cents per share, vs. a net loss of $206,000, or 7 cents per share, in 1988.

Net sales for the year amounted to $77,672,000 compared with $84,983,000 a year ago.

Net income for the fourth quarter totaled $93,000, or 3 cents per share, vs. $160,000, or 6 cents per share, in the year-earlier period. Net sales for the fourth quarter were $18,335,000 compared with $18,544,000 a year ago.

Keith M. Thompson, president, noted that the primary reason for the lower revenues for 1989 was the sale in 1988 of the company's repackaging

division. He said: ''Republic's sound turnaround in profitability is especially gratifying during a year that was not strong throughout the industry. This resulted from our continued efforts at improving operating efficiency.''

Thompson remarked: ''The primary trends underlying demand for automotive replacement products appear favorable. Our focus now is to build the profitability of Republic's current operations, while taking advantage of opportunities to expand the company's distribution network.''

Republic Automotive Parts Inc. distributes replacement parts for the automotive aftermarket. The company operates nine distribution centers and 72 auto parts stores in 13 states. The company's common shares are traded in the NASDAQ National Market System under the symbol RAUT.

ROSELAND, NJ (FEB. 22) BUSINESS WIRE - On Feb. 16, 1990 Automatic Data Processing Inc., Richard J. Daly, Charles Weber and ADP Financial Information Services Inc. brought an action against the Independent Election Corporation of America, John P. Fahy, John C. Jansing and Kenneth W. Akeson in the United States District Court for the Eastern District of New York in which they assert various claims against the defendants,

including violations of the federal and state antitrust laws.

On Feb. 1, 1990 ADP received a summons and complaint naming it, Richard J. Daly and Charles Weber as defendants in a lawsuit initiated by the Independent Election Corporation of America in the Supreme Court in the County of Nassau.

This complaint refers to ADP's entry into the proxy services processing business. The allegations contained within the complaint are similar to allegations contained in a complaint which the Independent Election Corporation of America brought against Richard J. Daly and Charles Weber in March 1989 in the United States District Court of the Eastern District of New York. That action was voluntarily dismissed by IECA in January 1990.

ADP has retained the firm of Paul, Weiss, Rifkind, Wharton & Garrison to defend it. ADP and its counsel, after reviewing the contents of the complaint, believe that the allegations as they relate to ADP are without merit.

ADP, with over $1.6 billion dollars in revenues and 200,000 clients, is the largest independent computing services firm in the United States.

#90053b0860 02/22/1990 ~Business Wire

BOSTON (FEB. 22) BUSINESS WIRE - 1st American Bancorp Inc. (NASDAQ:FAMB), the holding company for 1st American Bank for Savings, Thursday announced a loss for the fourth quarter ended Dec. 31, 1989 of $42.1 million or $4.12 per share compared to a loss of $19.0 million or $1.86 per share for the fourth quarter of 1988.

The company lost $105.9 million for the year ended Dec. 31, 1989 compared to a loss of $23.1 million for the year ended Dec. 31, 1988. David A. Tapley, chairman and chief executive officer, stated that the losses were the result of increases in nonperforming asests and related expenses at 1st American Bank for Savings.

The majority of the bank's nonperforming assests are construction and commercial real estate loans and foreclosed properties. During the fourth quarter, the bank made provisions of $34.5 million to its loss reserves for nonperforming loans and Other Real Estate Owned (OREO).

Tapley said that 1st American Bancorp has retained BEI Golembe to assist the company in seeking to effect a capital restructuring plan which may

include further expense reductions, downsizing of the company through assest sales, capital infusion or possible sale of the company.

Capital restructuring efforts during 1989 included the sale of a building owned by 1st American Bank for Savings, which resulted in a gain of $3.8 million during the first quarter. The company sold approximately $22.0 million in nonperforming assets during 1989. An additional $6.8 million in nonperforming assets has been sold since year-end and $25.2 million are under purchase and sale agreements. The company implemented an expense reduction program in 1989 which included the consolidation of departments and a reduction in the company's work force of 10 percent.

Charge-offs against the loss reserve of $85.8 million during the fourth quarter were higher than estimated in early January. For the year ended Dec. 31, 1989 charge-offs totaled $103.0 million.

The company's loan portfolio at year-end was comprised of $176.7 million (41.0 percent) commercial real estate and contruction, $165.7 million (38.4 percent) residential, $70.5 million (16.3 percent) consumer and $18.4 million (4.3 percent) business loans.

1st American Bancorp Inc. is a bank holding company with assets of $561.2 million. Its sole subsidiary, 1st American Bank for Savings, is a state-chartered savings bank with 11 offices in greater Boston.

OAK BROOK, IL. (FEB. 22) BUSINESS WIRE - The board of directors of McDonald's Corp. Thursday promoted Jack M. Greenberg, executive vice president and chief financial officer, to the position of senior executive vice president. He continues as chief financial officer and a member of the board of directors.

McDonald's chairman-elect and CEO, Mike Quinlan commented, ''This promotion recognizes the outstanding contribution Jack has made to McDonald's in his financial and overall corporate management responsibilities.''

Before joining McDonald's in l982, Greenberg was director of tax services for both the Midwest region and the Chicago office of Arthur Young & Company. He joined Arthur Young & Co. in l964, became a partner in l974, and was named director of tax services for the Chicago office and for the Midwest region in l975 and l977, respectively. He was elected to the firm's management committee in l98l.

A graduate of DePaul University School of Commerce, Greenberg also earned a juris doctor degree from DePaul University School of Law. He is a certified public accountant and a member of the American Institute of Certified Public Accountants, the Illinois CPA Society and the Chicago Bar Association, where he served as former chairman of the federal tax committee and currently serves on the board of trustees of the Chicago Bar Foundation and was its president.

Greenberg also serves on the board of directors of Arthur J. Gallagher and Co., the Chicago Association of Commerce and Industry, and the National Planning Association. He also serves on the Law School Advisory Board of the Illinois Institute of Technology-Chicago Kent College of Law and its graduate tax program advisory board.

In addition, he has lectured at DePaul University Law School and in the DePaul University College of Commerce masters in taxation program. He currently serves on the Law School's advisory board. Greenberg and his wife Donna have one son and two daughters.

ST. LOUIS (FEB. 22) BUSINESS WIRE - In response to TWA's announced agreements to sell two Boeing 747s and to sell and lease back six Boeing 767s, Kent Scott, Master Chairman of the Air Line Pilot Association's TWA group, Thursday issued the following statement:

''The news of this transaction, which follows Icahn's recent sale of the Chicago-London route and agreement to sell and lease back 11 widebody aircraft, comes as little surprise to the TWA pilots.

This sale simply further demonstrates Carl Icahn's continuing breakup of TWA to generate more cash windfalls for investment in non-airline ventures. It also reveals his total disregard for the airline, its employees and the communities it serves.

''The two pilots believe it is inappropriate for an individual to dismantle a vital international transportation franchise for the sole purpose of exercising other, unrelated business interests. We will strongly resist Icahn's attempts to obliterate TWA with every bit of our collective energy.

''In accordance with his recent campaign of misinformation in the press, Icahn will probably try to blame this and other asset sales on the pilots' unwillingness to grant additional concessions to him.

''Despite Icahn's assertions, TWA's financial woes have nothing to do with the company's labor costs, which are among the lowest in the industry. The contract provisions to which the pilots agreed in 1985 and 1986, and which extend until 1992, granted Icahn the competitive advantage he said he needed to build a 'premier airline' - at a cost of more than half a billion dollars to the TWA pilots alone.

''Icahn instead chose, however, to squander the $1.5 billion in total concessions that TWA's labor groups gave him by crippling the company with debt in his privatization transaction of 1988.

''It is patently misleading for Icahn to imply that further labor concessions can correct the devastating financial aftermath of this ill-conceived transaction.

''Only Icahn himself can correct TWA's finances by reinvesting a portion of the money he has extracted from the company, including the $469 million

he paid directly to himself in the privatization and the $580 million he earned by diverting the proceeds from the sale of TWA's shares of Texaco stock to himself.

#90053b0897 02/22/1990 ~Business Wire

LONDON (FEB. 22) BUSINESS WIRE - British Gas (NYSE:BRG) is to increase gas prices and standing charges form March 1st - but most customers face gas price increases no higher than current rates of inflation.

For some tariff users in industry and commerce, the rise in the cost of gas will be below inflation levels.

Most of the company's 17 million domestic customers will pay an additional 7.5 percent for their gas, and standing charges will go up by 70 pence a quarter to 9.40 pounds sterling. The increase in gas prices will add around 60 pence a week to the cost of central heating and cooking in an average three-bedroom semi.

The increases are necessary to cover the higher costs of producing and supplying gas from the North Sea. British Gas is continuing to reduce administration and other costs and this has enabled increases to be kept largely in line with inflation. The last tariff increase averaging 3.3 percent took effect from the first meter reading after April 1, 1989.

The increase in gas tariffs is less than the amount permitted under the regulatory formula agreed with the Office of Gas Supply.

British Gas says that since the privatization of the company in 1986, gas prices to domestic customers, after the current rise, will still be around 10 percent below the inflation rate over the period.

British Gas, headquartered in London, is the largest integrated gas company in the Western world and is primarily involved in the purchase, transmission, and sale of natural gas to domestic, industrial and commercial customers in Great Britain. Important support activities to its marketing efforts include appliance trading and customer services to domestic gas customers.

British Gas is also active in the exploration for and production of hydrocarbons both offshore and onshore. Expertise developed in the gas business is offered for sale overseas through the British Gas

International Consultancy Service. British Gas American Depositary Receipts are traded on the New York Stock Exchange. One ADR is equivalent to ten ordinary shares.

PACIFIC SOUTHWEST CORP OWNS 659,900 SHARES (6.00%) OF FAIRFIELD COMMUNITIES INC (TICKER: FCI) OF LITTLE ROCK, AR.

ANNOUNCEMENT:

Pacific Southwest is acting as a group together with Industrial Equity (Pacific) Ltd. with respect to the shares which are beneficially owned by Industrial Equity.

In December 1989 the chairman of Pacific and representatives of Industrial Equity engaged in discussions with Fairfield concerning a proposal for the issuance to Industrial Equity of common stock and convertible and nonconvertible debt securities for cash in the amount of $32.5 million.

Proceeds of this investment were intended to retire Fairfield's 14.25 percent subordinated notes due Dec. 31, 1989.

In addition, Industrial Equity would not acquire equity securities without Fairfield's consent and the company would use its best efforts to elect an IE representative to the board.

The terms of the proposed transaction were not finalized so the transactions were not consummated.

LATEST TRANSACTION:

Between Jan. 3, 1990 and Feb. 14, 1990 Pacific purchased 467,100 shares at $4.31 to $5.56 per share.

GROUP LED BY SEA CONTAINERS HOUSE LTD OF GROUP LED BY HAMILTON, BERMUDA OWNS 3,597,448 SHARES (25.28%) OF SEA CONTAINERS LTD (TICKER: SCR) OF HAMILTON, BERMUDA.

ANNOUNCEMENT:

This filing also represents the 12th amendment to the schedule 13D dated May 19, 1987 filed by James B. Sherwood with respect to the shares of Sea Containers Ltd.

On Feb. 8, 1990 Sea Containers Ltd. decided to recommend a recapitalization program to its shareholders at an annual meeting to be held on March 15, 1990 calling for Sea Containers Ltd. to purchase up to 7,000,000 common shares at $70.00 per share.

Sea Containers Ltd. will recommend that certain of its subsidiaries participate in the offer as co-offerors.

On Feb. 15, 1990 SC House determined to purchase up to 250,000 shares, MarCon up to 450,000 shares, and Sealink 3,300,000 shares.

On Feb. 20, 1990 SC House, MarCon, and Sealink entered into a tender offer agreement pursuant to which the companies agreed to make the offer.

The recapitalization program includes certain asset sales, repayment of certain indebtedness, and amendments to Sea Container Ltd.'s bylaws which may impede certain attempts by third parties to gain control of Sea Containers Ltd.

PURPOSE:

Recapitalization.

#90053c0087 02/22/1990 ~Comtex
SCHEDULE 13D

SEC - AMENDMENT NUMBER: 3

ANNOUNCEMENT:

On Feb. 13, 1990 BFS Bankorp filed a complaint naming Richard Kazan, Jack Durliat, Gary M. Jacobs, James B. Rosenwald III, William B. Patton Jr. and First Capital as defendants in U.S. District Court.

The complaint alleges that the defendants violated federal securities and banking laws in connection with First's proxy solicitation in opposition to the management and First's proposals to BFS Bankorp's board to acquire all of the issued and outstanding shares of BFS.

The defendants are considering counterclaims against BFS arising from BFS' actions taken in connection with its solicitation of proxies prior to the annual meeting.

On Feb. 16, 1990 a representative from the Corporation Trust Co., acting as the independent inspector of the election for the annual meeting, informed First's counsel that First' shareholder proposals and nominees for election received approximately 59 percent of the vote at the meeting at which a quarum was present.

TOKYO (FEB. 22) - Japanese electronics giant Sony Corp. said Thursday its net consolidated profit jumped 44.8 percent from a year earlier to 41.9 billion yen (292 million dollars) in the three months to December.

Sales rose 41.8 percent from a year earlier to 871 billion yen (6.1 billion dollars) in the same period, the company said in a statement. The results included those of Columbia Pictures Entertainment Inc. of the United States

which it acquired in November for 3.4 billion dollars.

In the nine months to December, the company's net consolidated profit jumped 56.5 percent to 90.9 billion yen (636 million dollars) while sales climbed 30.7 percent to 2,099 billion yen (14.7 billion dollars).

In the third quarter alone, video-equipment sales rose 34.6 percent to 226 billion yen (1.58 billion dollars) while sales of audio equipment grew 32 per cent to 224 billion yen (1.56 billion dollars).

Record sales soared 71.5 percent to 144 billion yen (one billion dollars) and television sales rose 32.1 percent to 138 billion yen (961 million dollars).

Japanese sales were 29.6 percent higher at 278 billion yen (1.95 billion dollars). Sales in the United States surged 58.5 percent to 258 billion yen (1.8 billion dollars) and European sales advanced 47.8 percent to 222 billion yen (1.55 billion dollars).

#90053d8000 02/22/1990 ~French/German News Agency

LONDON (FEB. 22) - WPP on Thursday was confirmed as the world's biggest advertising group, toppling chief executive Martin Sorrell's former employer Saatchi and Saatchi from the top spot in the rankings of Campaign the advertising industry journal published here.

The former supermarket trolley manufacturer transformed in the past four years by Mr. Sorrell, the former Saatchi finance director, accumulated a total 9.97 billion pounds worth (17.05 billion dollars) of billings to clients in 1989, 157 million pounds (268 million dollars) more than Saatchi.

A year ago Saatchi was at the top of the Campaign total billings list, two billion pounds (3.42 billion dollars) clear of WPP.

But Mr. Sorrell changed all that last year with the bold 864 million dollar acquisition of U.S. group Ogilvy.

The acquisition followed the absorption of J. Walter Thompson, another Madison Avenue giant, two years earlier, the first major foray into the takeover market since the start of WPP's transformation.

Saatchi and Saatchi had a troubled year in 1989. Overexpansion and diversification including an abortive foray into the world of management consultancy culminated in a sharp pre-tax annual profits dive in December, the first in its 19-year history, by 84 per cent to 21.8 million pounds (37.3 million dollars).

WPP's interim profits statement announced in August showed a 60 per cent improvement to 26 million pounds (44.5 million dollars).

But brokers Hoare Govett expect a seven per cent earnings dilution this year due to accumulated debts of some 300 million pounds (513 million dollars) following the company's acquisitions.

OSAKA (FEB. 22) KYODO - TOYOTA MOTOR CORP. THURSDAY ANNOUNCED IT HAS CHOSEN THREE NEW JAPANESE FACTORY SITES, THE FIRST OUTSIDE THE FIRM'S AICHI PREFECTURE HEADQUARTERS IN CENTRAL JAPAN.

TOYOTA PRESIDENT SHOICHIRO TOYODA TOLD REPORTERS IN OSAKA THAT THE FIRM LIKELY WILL BUILD AN ENGINE PLANT IN TOMAKOMAI, HOKKAIDO, AN ELECTRONICS PARTS FACTORY IN TAIWA IN MIYAGI PREFECTURE AND AN AUTO ASSEMBLY PLANT IN MIYATA IN FUKUOKA PREFECTURE.

TOYODA DENIED ALLEGATIONS THAT TOYOTA MAY BOOST EXPORTS AS A RESULT OF ITS PRODUCTION EXPANSION. HE SAID RISING DOMESTIC DEMAND IS THE REASON FOR THE NEW PLANTS.

CONSTRUCTION OF THE FACTORIES IS SLATED TO BEGIN EARLY NEXT YEAR, WITH OPERATION EXPECTED FROM 1993.

TOYODA SAID THE AICHI PREFECTURE FACILITIES HAVE BEEN HURT BY A LABOR SHORTAGE AND ACQUISITION OF REAL ESTATE IN THE PREFECTURE HAS BECOME DIFFICULT DUE TO SOARING LAND PRICES.

TOYOTA, BASED IN THE CITY OF TOYOTA, PLANS TO MAKE 4.5 MILLION AUTOS IN 1994, 500,000 MORE THAN LAST YEAR.

LAS VEGAS, NEV (FEB. 22) PR NEWSWIRE - Polaroid Corporation (NYSE: PRD) today launched a major, multi-million-dollar campaign to expand its instant photography markets significantly.

The campaign, "Nothing Works Like Polaroid," is based on the company's worldwide marketing strategy of positioning Polaroid's instant photography as a visual communications tool for home and business. The campaign was announced today at the Photo Marketing Association's 66th Annual Convention and Trade Show at Las Vegas.

It kicks off with a $60 million, year-long advertising and promotional

program aimed at expanding instant photography from Polaroid's traditional consumer base to thousands of business and professional, technical, personal and home users identified by the company.

The company also introduced a sophisticated new instant camera, the Spectra Pro, which is an advanced, state-of-the-art extension of the popular Spectra system camera. The features of this new model complement the extended uses of instant photography.

The new "Nothing Works Like Polaroid," marketing campaign identifies specific consumer uses, such as shopping, decorating, renovating, insuring valuables, house hunting and gardening. In business, the campaign features applied uses in such fields as architecture, construction, engineering, art and graphic design, retail sales, insurance, real estate, shipping/receiving and general office. In both areas, extensive research has identified hundreds of uses of instant photography for documentation, communications, record keeping, efficiency and productivity.

The marketing campaign will include national print and television advertising, special promotions, direct mail and related point-of-purchase materials and activities. As part of the campaign, Polaroid has created new designs for instant camera and film packaging, featuring suggested new extended uses.

Polaroid Corporation, with sales of almost $2 billion, is the worldwide leader in high quality, instant imaging. The company supplies instant photography cameras and film, conventional film and electronic visual communication products to consumer, business, industrial and scientific markets.

MEMPHIS, TN (FEB. 22) PR NEWSWIRE - The Promus Companies Incorporated today announced that it has completed its bank financing of approximately $1.01 billion and has removed the conditions on its previously announced declaration of a special $30 per share cash dividend.

The dividend is payable to stockholders of record at the time of the spin-off of Promus stock by Holiday Corporation. The checks for the special dividend will be mailed today, February 22, 1990, with new Promus stock certificates.

The managing agents for the bank facility are Bankers Trust Company, The Bank of New York, Citibank, N.A., Credit Lyonnais and The Sumitomo Bank,

Limited. Proceeds from the loan will be used to fund the special cash dividend and to provide a working capital and capital expenditure facility. As previously announced, the components of the debt include a $400 million letter of credit which supports currently outstanding bonds, a $410 million seven-year reducing term loan and a $200 million revolving credit/term loan facility.

The Promus Companies was spun-off on February 7, 1990, as part of a major reorganization of Holiday Corporation led by Promus' senior management. Promus is a leading hospitality company consisting of Harrah's casinos and hotels, and Embassy Suites, Hampton Inn and Homewood Suites hotels.

LOS ANGELES (FEB. 22) PR NEWSWIRE - Caesars World Inc. (NYSE: CAW) today announced net income for its fiscal 1990 second quarter was $1,427,000, or six cents per share, confirming the company's announcement earlier this month that the quarterly earnings would range between three and 10 cents per share. In the comparable quarter of fiscal 1989, the company's net income was $10,383,000, or 42 cents per share.

Revenue for the quarter ended Jan. 31, 1990, amounted to $202,897,000, compared with $213,848,000 in the same fiscal 1989 period.

The company's net income for the first six months of fiscal 1990 was $18,937,000, or 77 cents per share, compared with $33,096,000, or $1.35 per share, for the fiscal 1989 six-month period. Revenue for the fiscal 1990 six months totaled $428,641,000, compared with $444,599,000 in the same six months of fiscal 1989.

The primary factor in the second quarter earnings decline was substantially lower win percentages at the company's hotel/casino operations in Nevada. The earnings decrease occurred despite the fact that table-game play (including baccarat) increased 25 percent over the same prior-year quarter. For the six months, the most important factor causing the earnings and revenue declines was lower overall win percentages in both Nevada and New Jersey.

In Nevada, during the fiscal 1990 second quarter, both Caesars Palace and Caesars Tahoe each established records for table-game play (including baccarat) for any quarter in their respective histories. The company pointed out that the record at Caesars Palace was achieved even though there was a substantial increase in casino capacity on the Las Vegas Strip during the fiscal 1990 second quarter.

Higher casino payroll and operating costs and higher provisions for bad debts also impacted Nevada results during the fiscal 1990 reporting periods. In addition, the company said it was completing its major expansion and renovation program at Caesars Palace and disruptions from this activity also had a negative influence on the resort's performance during the first six months of fiscal 1990.

#90053p0038 02/22/1990 ~PR Newswire

NEW YORK (FEB. 22) PR NEWSWIRE - Bio-Technology General Corp. (NASDAQ: BTGC) announced today that it sold on Feb. 21, 1990, 2.1 million shares of common stock to David Blech at $1.35 per share.

In connection with the sale, Blech received warrants to acquire 800,000 shares at $3 per share over the next three years and 400,000 shares at $6 per share over the next four years. The exercisability of the warrants is conditioned on approval by shareholders to increase Bio- Technology General Corp.'s authorized number of shares. Blech will have two seats on the board, one of which he himself will fill.

As a result of an associated transaction, Bio-Technology General Corp. received an additional $272,000 for the BTG shares held by Neurogenetic Corporation and sold to Blech. The 2.45 million shares purchased by Blech in these two transactions, from which BTG recieved a total of $3.1 million represent approximately 18 percent of BTG's outstanding common stock.

"David Blech has an outstanding track record in the founding of successful biotechnology companies such as Genetic Systems, Nova Pharmaceutical, Celgene, Cambridge Bioscience and DNA Plant Technology. We beleive that Mr. Blech's investment in Bio-Technology General Corp. represents a highly valuable and constructive step in the company's future growth and commercial success, and we are all enormously enthused about this development," stated Sim Fass, president and chief executive officer of BTG.

Bio-Technology General Corp., a Delaware corporation, is engaged in the research, development and manufacture of genetically engineered products for human and animal health care.

#90053p0039 02/22/1990 ~PR Newswire

LOS ANGELES (FEB. 22) PR NEWSWIRE - Caesars New Jersey Inc. (AMEX: CJN) today announced net income of $4,482,000, or 28 cents per share, for the fiscal quarter ended Jan. 31, 1990. In the compararble quarter of fiscal 1989, net income was $5,732,000, or 35 cents per share.

Revenue for the fiscal 1990 second quarter totaled $72,722,000 compared with revenue of $77,525,000 in the same quarter of fiscal 1989.

Net income for the first six months of fiscal 1990 was $15,586,000, or 96 cents per share, compared with $18,782,000 or $1.15 per share, in the fiscal 1989 six-month period. Revenue for the six months of fiscal 1990 amounted to $159,791,000, compared with $170,835,000 in the fiscal 1989 six months.

Caesars New Jersey is an 86.6-percent-owned subsidiary of Caesars World Inc.

The company said lower win percentages and higher marketing and special event costs at Caesars Atlantic City were primarily responsible for the earnings declines, when compared with the same periods of fiscal 1989. Lower lease rental costs and provisions for bad debts partially offset the effect of these factors on the financial results.

Caesars Atlantic City again led its marketplace in table-game play (including baccarat), a leadership position it has held 19 of the past 21 fiscal quarters.

#90053p0041 02/22/1990 ~PR Newswire

NEW YORK (FEB. 22) PR NEWSWIRE - Ply Gem Industries, Inc. (AMEX: PGI), today announced its results for the fourth quarter and year ended Dec. 31, 1989.

Net sales for 1989 advanced to $506,845,000, up 32 percent from last year's record revenues of $383,699,000. Operating earnings increased 31 percent to $35,985,000 from $27,485,000 a year ago. Interest expense, while nearly double 1988 levels, includes $3.9 million of non-cash interest on Ply Gem's zero coupon convertible debentures. Net income was $10,100,000 or $.90 per share fully diluted. This compared to last year's $10,105,000 or $.88 per share fully diluted before a $2,786,000 or $.23 per share tax benefit from the adoption of SFAS 96 and a $2,959,000 or $.25 per share gain from investment transactions.

"The outstanding increase in sales and operating profits for 1989 is primarily attributable to the acquisition of SNE Enterprises. Equally

important, SNE was a positive contributor to bottom line earnings in its very first year with Ply Gem. This acquisition, our largest to date, affirms our belief that adherence to stringent selection criteria ensures our successful track record. Internal growth by the Ply Gem Companies was hampered by a marked slowdown in the Northeast economic and building markets," said Jeffrey S. Silverman, chairman.

For the quarter ended Dec. 31, 1989, sales increased 49 percent to $127,369,000 from $85,680,000 a year ago. Operating profits also advanced 27 percent to $6,899,000 from $5,421,000 in 1988. Higher interest expense in the quarter includes $1,028,000 of non-cash interest on Ply Gem's zero coupon convertible debentures. Start-up expenses associated with development programs and the inherent seasonality of the remodeling market impacted earnings growth for the Ply Gem Companies. Investment & other income was also markedly lower in fourth quarter 1989 than the $552,000 earned a year ago. As a result, net income for the quarter declined to $917,000 or $.08 per share from $2,077,000 or $.19 per share a year ago.

Ply Gem is a national manufacturer and distributor of specialty products for the home improvement industry.

MINNEAPOLIS (FEB. 22) PR NEWSWIRE - Country Lake Foods Inc. (NASDAQ: CLFI) announced today that it is delaying its acquisition of Superior-Dairy Fresh Milk Co. of Minneapolis because of notification by the United States Department of Justice that an order temporarily restraining the parties from closing will be entered by the court today.

Thomas N. Packard, president of Country Lake Foods said, "We are making every effort to resolve the issues raised by the Justice Department, as quickly as possible, because we are confident that our transaction does not violate the anti-trust laws."

Superior-Dairy Fresh, based in Minneapolis, has annual sales of more than $40 million and employs about 100 people. Country Lake's Norris Division, based in St. Paul, has annual sales of $55 million.

Country Lake Foods, with 1989 sales of $155 million, was formed in 1987 to consolidate and focus the development of the packaged fluid milk and ice cream business of Land O'Lakes, Inc. The company became publicly held in 1988. Country Lake processes and distributes fresh packaged milk, ice cream, other dairy products and fruit juices in a six-state region.

ATLANTA (FEB. 22) PR NEWSWIRE - The Home Depot (NYSE: HD), the Atlanta-based home center retailer, today announced the appointment of Andy McKenna as senior vice president - Corporate Information Systems.

McKenna starts work on March 19. He comes to The Home Depot from the Management Consulting Division of Deloitte & Touche where has been Partner-in-Charge. He has been a partner at that firm for the past 10 years and has specialized in service industry clients, particularly in the retail industry. In that role, he has worked with a number of major retailers -- including The Home Depot -- improving their information systems.

A Georgia native, McKenna received his undergraduate degree from Georgia Tech and his masters degree from Purdue University. He and his wife, Margaret, live in Dunwoody and have two daughters, Megan and Kristin.

McKenna succeeds Dennis Ross, senior vice president - Corporate Information Systems, who is leaving The Home Depot to pursue new business interests. "Dennis and I have been planning for this transition for several months now and I truly regret his departure," said Home Depot President and Chief Operating Officer, Arthur Blank.

"Since joining the company in mid-1983, Dennis has played an important role in enabling us to grow from 12 stores to 118 stores and from $256 million to $2.7 billion in annual sales. Aside from his information systems expertise, you would be hard pressed to find a finer, more likeable human being anywhere. We will miss him."

#90053p0058 02/22/1990 ~PR Newswire

HUDSON, NH (FEB. 22) PR NEWSWIRE - Howtek, Inc. (AMEX: HTK) today announced summary results of its operations for the fourth quarter ended Dec. 31, 1989. The company recorded fourth quarter revenues of $5,228,000 an increase of 56 percent over the $3,355,000 recorded in the same period in 1988; and revenues for the year ended Dec. 31, 1989 of $18,363,000, and increase of 64 percent over the $11,231,000 recorded in 1988. The company also announced profitability for the fourth quarter of $70,000, or 1 cent per share, an increase of 113 percent over the net loss of ($541,000) or (7 cents) per share for the same period last year; and a net loss for the year ended Dec. 31, 1989 of ($3,481,000) or (50 cents) per share, a decrease of 51 percent over the net loss for the corresponding period in 1988 of ($5,262,000) or (88 cents) per share.

The strength of its color computer peripherals and electronic prepress system helped the company record the first quarter of profitability in its

six year histroy. The company noted that the improvement in performance resulted from the increase in sales, improvements in product margins, and an expense containment program initiated in the last half of 1989. The increase in sales was achieved in both of its primary business lines -- color peripheral products and its color prepress page make-up system. Bob Howard, the company chairman, stated that, "This milestone reflects the growing acceptance of Howtek's color products in the marketplace and the success of its management team in achieving its objectives. We are now profitable and are looking forward to a long period of continued growth in revenues and profits."

Howtek was founded in 1984 by Robert Howard, who was also founder and president of Centronics Data Computer Corp. from 1969 to 1980. Howtek's product offering includes: COLORSCAN, a complete prepress color separation and page make-up system for newspapers, publishers and graphics arts markets; SCANMASTER, a series of reflective and transmitive copy and 35mm film scanners; and the PIXELMASTER, a full color plain paper high resolution solid ink jet printer. The company also offers workstations for design, composition, image capture and output, which operate interactively on local area networks incorporating various Howtek peripherals and proprietary software.

Howtek is a publicly held corporation whose stock is traded on the American Stock Exchange under the symbol HTK.

NEW YORK (FEB. 22) PR NEWSWIRE - Unity Healthcare Holding Company, Inc. (NASDAQ: UNTY), today announced that the merger of American Healthcare Services of Florida, Inc., a Medicare-certified home health agency, into a subsidiary of Unity Healthcare has become effective as of 4:00 p.m., Feb. 21, 1990.

The owners of American Health Care received $240,000 in cash and 49,656 shares of Unity Healthcare Holding Company's common stock.

The acquisition of American Health Care, together with the receipt of approximately $5 million from the recent first closing of Unity's private placement offering, will allow Unity to enter the Medicare home health market in south Florida, significantly expanding Unity's presence in Dade and Broward Counties.

Unity has been providing supplemental staffing of nurses and therapists for hospitals and home care through its branch office in Hollywood, Fla., since October 1988.

Unity primarily engages in providing temporary and permanent healthcare personnel to health care institutions in the United States through its offices in New York, New Jersey, Florida and California. Unity also provides home care patients with temporary health care personnel and medical supplies and equipment.

ST. PETERSBURG, FL (FEB. 22) PR NEWSWIRE - Milton Roy Company (NYSE: MRC) today announced that fourth quarter net income showed a 47 percent increase over the similar period in 1988. The company further stated that its net income and earnings per share for the year were the highest in the company's history.

Net income for the fourth quarter of 1989 increased to $1,985,000 or 34 cents per share compared with $1,347,000 or 25 cents per share reported for the similar period in 1988. Revenues for the fourth quarter were $31,115,000 compared with $34,423,000 reported for the similar period a year ago. Fourth quarter revenues in 1988 include $6,415,000 in sales of liquid chromatography instruments, a product line which was sold in April 1989.

Net income for the year was $8,634,000 or $1.52 per share and includes a 44 cents per share gain associated with the 1989 sale of the company's liquid chromatography product line. This compared with 1988 net income of $5,686,000 or $1.06 per share. Sales for the year were $125,398,000 and included $4,541,000 in revenues from liquid chromatography products. Revenues in 1988 were $140,715,000 which included $23,915,000 of liquid chromatography products.

Milton Roy Company President and Chairman, Richard E. Schmidt, stated, "Our operating performance in the fourth quarter reflects continued strong demand for the products of our Fluid Control group. Shipments during this period were 11 percent ahead of last year. This demand is on a worldwide basis and is continuing into 1990.

"Our Analytical Instruments group is also experiencing good new order activity. Sales of spectrophotometer products are running strong, and we are highly encouraged by the market reception for the new retail color matching instrument."

Mr. Schmidt further stated, "We are very optimistic about the prospects for the company in the year ahead. Demand for our products is strong, and we enter the year with a healthy backlog of orders. We plan to continue to

closely monitor cost and expenses and to invest in new programs to improve productivity and product quality. In 1990, we expect to continue the positive trend in earnings we have produced over the last three years."

Milton Roy Company manufacturers a broad range of analytical instrumentation and process control products for use in industrial, educational and laboratory applications.

MORRISTOWN, NJ (FEB. 22) PR NEWSWIRE - Pitney, Hardin, Kipp & Szuch, one of the largest law firms in New Jersey, today formally announced the establishment of an Environmental Department, according to Clyde A. Szuch, chairman of the management committee.

The new department will be headed by William H. Hyatt, Jr., a nationally recognized expert in Superfund litigation, who will direct a department of 14 experienced partners and associates specializing in environmental law.

In making the announcement, Szuch said, "We're delighted to have someone with the qualifications of Bill Hyatt to chair our firm's outstanding environmental capability, which encompasses nearly 75 cumulative years of experience in handling complex Superfund and private cost recovery litigation, as well as ECRA and general environmental counseling. The rapid growth of our environmental practice in the last five years has led to the formation of one of the largest, most capable and successful staffs of legal experts in the environmental counseling and litigation field."

Landmark environmental cases for which Pitney, Hardin, Kipp & Szuch has provided counsel included U.S. v. Price, as one of the lead defense counsel in this, the first Superfund claim filed by the EPA in the nation, State v. Exxon, one of the first cases brought by the NJDEP under the Spill Act, Kenney v. Scientific, where as lead counsel PHK&S represented over 100 defendants in one of the largest state toxic tort actions. Woodland Private Study Group v. State, where PHK&S succeeded in challenging the NJDEP's procedures and changing the way the state enforces the Spill Act today. The firm is currently involved in major Superfund and hazardous waste sites throughout the state, including BROS, Renora, Duane Marine and Helen Kramer Landfill.

Pitney, Hardin, Kipp & Szuch, based in Morristown, provides full service legal practice for leading national and New Jersey-based corporations.

#90053p0064 02/22/1990 ~PR Newswire

NEW YORK (FEB. 22) PR NEWSWIRE - Avon Products Inc. (NYSE: AVP) expects higher earnings and another significant reduction in its debt in 1990, James E. Preston, chairman and chief executive officer, told securities analysts today.

"We're expecting substantial improvement in earnings for the company in 1990 on a modest increase in sales," Preston said. "Again this year, cash flow and improved profitability will take precedence over sales growth."

Avon reported 1989 earnings from continuing operations of $152.4 million, or $2.10 per share, on sales of $3.3 billion.

After reducing its debt by about a half-billion dollars in the last year, Avon currently has approximately $630 million in debt. Preston expects that by year-end 1990 debt would be approximately $275 million, assuming completion of the sales of Avon-Japan and Mediplex.

Net proceeds from the pending sale of the company's Avon-Japan unit for $408 million, including pre-paid royalties of $70 million, will be used to reduce debt. In addition, the net proceeds from the pending $100 million sale of Avon's discontinued Mediplex health care operations will also be used to reduce debt.

In other highlights of the meeting, Preston told the audience of securities analysts and institutional investors:

-- "We're going to continue to reduce our expenses as a percent of sales, which were 54 percent in 1988 and 50.7 percent in 1989. Our objective, over time, is 47 percent."

-- "Interest expense was $132 million in 1989. With the sales of Japan and Mediplex it would be in the range of $60 million to $70 million in 1990."

-- "From our U.S. direct selling business this year, we're looking for a substantial increase in pre-tax profits on a modest increase in sales."

-- "From our international direct selling business in 1990, we're expecting modest increases in both pre-tax profits and sales. Europe is expected to rebound strongly, especially the U.K. The Americas region is projecting a modest increase, not surprising considering the 59 percent increase it delivered in pre-tax profits in 1989.

WALTHAM, MA (FEB. 22) PR NEWSWIRE - NAPCO, Inc., a subsidiary of Thermo Electron Corporation (NYSE: TMO), has signed a joint-venture agreement with Toyo Giken Co., Ltd. to provide electroplating systems and related equipment to mutual customers in Japan, the Far East, and the United States.

In addition to electroplating systems, the agreement includes waste treatment systems for heavy-metal wastes, anodizing systems, chemical recovery systems, and computerized controls.

NAPCO, headquartered in Terryville, Conn., is a leading supplier of complex systems for the surface treatment of materials and the treatment of wastes generated in the processes. The systems are used in the automotive, electronic, aerospace and defense industries for cleaning, plating and chemical treatment of components.

Toyo Giken, a privately held corporation headquatered in Tokyo, is the Pacific Basin's leading supplier of computerized controls, anodizing systems, plating systems, chemical milling systems, and chemical recovery systems of heavy-metal wastes, providing approximately 80 percent of such equipment sold in Japan.

The systems are used by a wide range of multinational corporations for producing components for the electronic, automotive, and aerospace industries.

Thermo Electron develops, manufactures, and markets environmental and analytical instruments, custom-engineered and pre-packaged cogeneration systems, industrial process equipment, biomedical materials and products, and fabricated biomedical and aerospace components. The company also provides metallurgical heat treating, water quality engineering, and analytical laboratory services.

EATONTOWN, NJ (FEB. 22) PR NEWSWIRE - In simultaneous announcements made earlier today in the United Kingdom and the United States, officials of Roberts Pharmaceutical Corporation (NASDAQ-NMS: RPCX, BSE: RPC) and its U.K. subsidiary, Monmouth Pharmaceuticals, Ltd., of Guildford, England, announced that an agreement has been reached with Rowa Pharmaceuticals, Ltd., of the Republic of Ireland providing exclusive U.K. rights to two fully approved drug product lines. Rowachol(R) capsules and oral solution are indicated for the adjunctive treatment of gallstones, a common hepatobiliary disorder. Rowatinex(R) capsules and oral solution are used for the treatment of urinary tract stones. Both products are approved for marketing in the United Kingdom and Monmouth expects to launch both products during the next business quarter, after the establishment of product inventories and U.K. distribution channels. Under the terms of the agreement, Rowa Pharmaceuticals will manufacture all of Roberts' requirements for finished goods.

With the introduction of Rowachol and Rowatinex in the United Kingdom, this brings to four the number of products sold by the company. The others are Midon(TM) tablets for hypotension in Ireland and Somagard(TM) injection for precocious puberty in the U.S. (sold under cost recovery provisions of the Food Drug and Cosmetic Act).

Roberts Pharmaceutical Corporation is engaged in the development of drugs for use in the treatment of cancer, asthma, cardiovascular disease, endocrine disorders, acute and chronic pain, urinary incontinence and iron overload conditions in the United States and abroad.

ORRVILLE, OH (FEB. 22) PR NEWSWIRE - The J.M. Smucker Co., (NYSE: SJM) Orrville, Ohio, announced today that sales for the third quarter ended Jan. 31, 1990, were $95,427,000, up 12 percent over the $84,980,000 for the same period last year.

Net income for the quarter was $6,084,000, 2 percent higher than the $5,959,000 in the comparable period last year. Earnings per share were $.82 in the third quarter, compared to $.81 last year.

For the nine months ended Jan. 31, 1990, sales and net income were up 15 percent and 8 percent, respectively, over the prior year. Sales were $313,854,000, up from $273,332,000 last year, and net income was $22,394,000 vs. $20,739,000 a year ago. Earnings per share were $3.04, compared to $2.82 for the same period last year.

The company stated that the increase in sales was due primarily to continued growth in the consumer, foodservice and international business areas. Within the consumer area, fruit spreads and beverages showed the largest unit growth. The acquisitions during the current fiscal year of the "Vitari" product line (marketed in foodservice) and the Henry Jones Foods business in Australia were also cited as factors in the sales growth.

The lower rate of growth in earnings compared to sales during both the third quarter and for the year-to-date were attributed by the company to investment spending in connection with its recent acquisitions, the effect of increased amounts of what are presently lower-margin international sales, and the adverse impact of raw material cost increases.

WASHINGTON (FEB. 22) PR NEWSWIRE - Atlantic Coast Airlines/United Express announced today that it will substantially increase its operations by inaugurating non-stop service to both Syracuse, N.Y. and Wilkes-Barre/Scranton, Pa. from Washington-Dulles International Airport.

The service will begin April 1 to Syracuse and April 15 to Wilkes-Barre/Scranton.

"We're very pleased to be entering both the Syracuse and Wilkes-Barre/Scranton markets, and are looking forward to providing our brand of quality, on-time service that we provide to all our cities up and down the East Coast," said Kerry Skeen, president of Atlantic Coast Airlines. Washington-based United Express, which is operated by Atlantic Coast Airlines, will offer four daily roundtrips to both Syracuse and Wilkes-Barre/Scranton.

In a previous announcement, United Express said that it would begin service in March from both White Plains and Binghamton, N.Y. to Washington-Dulles. This, combined with today's announcement, represents an increase in service of 57 percent.

This additional service will bring to 84 the total number of flights Atlantic Coast Airlines/United Express offers every business day. Both additions to the United Express schedule will allow customers in the region convenient access to the rapidly growing Washington-Dulles area and also timely connections from Dulles to more than 100 daily flights on United Airlines to destinations across the country and around the world.

As a marketing partner with United Airlines, United Express offers its customers many United Airlines benefits, including worldwide reservations, advance seat selection and boarding passes. Members of United's popular Mileage Plus frequent flier program earn a minimum of 500 miles on all United Express flights, and senior citizens may participate in United's Silver Wings program which offers a variety of travel-related discounts.

Washington Dulles-based Atlantic Coast Airlines/United Express began service in December 1989 and is a division of WestAir Holding, Inc. (AMEX: WAH), headquartered in Fresno, Calif. WestAir Holding, Inc. is the largest regional airline company in the U.S., operating 780 daily flights to 50 cities in 12 states and the District of Columbia. In early 1989, the company was named "Regional Airline of the Year" by Air Transport World Magazine.

OAKLAND, NJ (FEB. 22) PR NEWSWIRE - Russ Berrie and Company, Inc. (NYSE: RUS) announced today operating results for the fourth quarter and year ending Dec. 31, 1989.

For the twelve months ended Dec. 31, 1989, net sales totaled $246,373,000 compared to $277,574,000 in 1988. Net income was $9,784,000 or $0.65 per share, versus $27,840,000 or $1.85 per share in 1988. However, after excluding the restructuring charge of $9,500,000 before taxes (or $6,200,000 after taxes) announced in April, net income for the year would have been $15,984,000 equal to $1.06 per share.

Net sales for the fourth quarter ended Dec. 31, 1989, were $56,621,000 compared to the prior year sales of $63,139,000. Net income for the fourth quarter of 1989 was $2,980,000 or $0.20 per share, compared to $6,213,000 or $0.41 per share in 1988.

Russell Berrie, board chairman and chief executive officer, stated that the fourth quarter figures were in line with expectations and reflected a continued general softness in the retail market.

Russ Berrie and Company, Inc. designs and markets an extensive variety of everyday and seasonal impulse gifts to retail stores. Products include stuffed animals, ceramic mugs, porcelain gifts, picture frames, greeting cards, candles, figurines, keyrings, magnets, school and stationary merchandise, and collectible dolls. The company has a direct sales force of approximately 800 men and women. Distribution centers throughout the United States, Canada, and England provide strategically located regional facilities to serve customers.

#90053p0093 02/22/1990 ~PR Newswire

FORT LAUDERDALE, FL (FEB. 22) PR NEWSWIRE - CPC International President Charles R. Shoemate said today that the coming unification of the European Market would provide many growth opportunities for CPC, a worldwide consumer foods company with sales of $5.1 billion in 1989.

Speaking here at the annual convention of the Consumer Analysts Group of New York, Shoemate said, "CPC has sales of $1.7 billion in Europe, derived from seventeen countries, twelve of which are part of the unified market. We are one of the most profitable food companies in Europe and surpassed only by Nestle and Unilever in geographical coverage. Given this presence CPC's businesses and pan-European brands can only benefit from open borders, greater movement of people, increasing affluence, and

intensification of current consumer trends."

CPC's Knorr brand, which currently accounts for revenues of over $1 billion in sales worldwide and more than $800 million in Europe, will be an important vehicle for growth in the unified market, Shoemate stated.

Shoemate also said CPC is currently pursuing various opportunities for growth in the newly opened markets of Eastern Europe. "The widespread knowledge of our products, our strong European infrastructure, and our 150-year history in western Europe all position us to do well."

Mayonnaise Category Resumes Growth in Fourth Quarter Robert J. Gillespie, president of CPC's Best Foods division, who also addressed the meeting, said that several of CPC's North American businesses are also expected to produce good growth in the future: Hellmann's and Best Foods mayonnaise; Best Foods specialty baking; Knorr sauces, soups, and bouillons; CPC's foodservice operations; and a number of CPC products targeted to Hispanic consumers in the United States.

Discussing growth prospects for Hellmann's and Best Foods mayonnaise, Gillespie said that the mayonnaise category has reacted strongly to the introductions of cholesterol free and light mayonnaises. These products have helped revitalize the entire mayonnaise category, which has grown 2 percent in the last three-month period versus the same period last year, Gillespie said.

With sales in 1989 of $5.1 billion, CPC International ranks as one of the largest and most international food companies in the U.S. CPC's worldwide consumer foods business accounts for approximately 80 percent of the company's total sales. Best known among its U.S. brands are: Hellmann's and Best Foods mayonnaise, Mazola corn oil and margarine, Skippy peanut butter, Thomas' English muffins, Arnold breads, Mueller's pasta products, Karo and Golden Griddle syrups, and Knorr sauces, soups, and bouillons. CPC is also one of the largest corn refiners, with operations in North America and Latin America.

#90053p0094 02/22/1990 ~PR Newswire

CINCINNATI (FEB 22) PR NEWSWIRE - Jacor Communications, Inc. (NASDAQ: JCOR) reported financial results for the fourth quarter and full year ended Dec. 31, 1989.

For the three months ended Dec. 31, 1989, the company had broadcast revenue of $22,943,000, and broadcast cash flow (profit from broadcast

operations before depreciation, amortization, corporate expenses, interest expense and income taxes) of $4,723,000. The company had a net loss for the fourth quarter of $2,691,000, compared to a net loss of $2,806,000 for the same period in 1988. Although fourth quarter revenue increased more than broadcast operating expenses, it was not sufficient to offset increased broadcast depreciation and amortization and interest expenses associated with the continued expansion of the company. This led to a fourth-quarter loss for 1989 greater than that experienced in 1988 (after adjusting the 1988 loss for a non-recurring provision of $799,000 for uncollectible notes receivable).

For the full calendar year 1989, the company had broadcast revenue of $86,260,000 and broadcast cash flow of $16,611,000. The company experienced a net loss of $15,371,000, which represents a net loss per common share (including the $.44 per share effect of an extraordinary item) of $1.77, compared to a net loss of $.87 per share for 1988. Larger non-cash charges, an increase in interest expense, and the extraordinary item related to the company's 1989 senior debt refinancing led to the larger loss for 1989 than that for 1988.

In comparing these results to 1988, Terry S. Jacobs, chairman and chief executive officer of Jacor, commented that 1989 results were affected by a general slowdown of advertising revenue experienced by the radio industry during the year and by the costs associated with the company's senior debt refinancing and "turnaround" efforts at its Denver and Tampa stations. Jacobs explained that in the third quarter of the year, Jacor began to experience the softness in advertising revenue that seemed to affect the broadcasting industry in general. The problems of the automotive and retail industries were reflected in fewer dollars being spent in all advertising media, including radio. Even with this, however, Jacobs stated that with the exclusion from 1988 revenue of one unusually large buy-out of an Eastman Radio representation contract, which otherwise would affect the comparability of results of operations, "We were able to generate for 1989 a small increase in net revenue and broadcast cash flow over our 1988 levels."

Jacobs also noted that the charges recorded by the company during 1989 for prepayment premiums and the write-off of previously deferred finance charges, both reflected as extraordinary items associated with the senior debt refinancing, accounted for nearly half of the company's increase in reported losses for the periods. "While this negatively impacted the company's current operating results, our new credit agreement provided us with the financing capacity to acquire Telesat Cable TV and redeem our outstanding 11 1/4 percent preferred stock," Jacobs stated. "It also provides sufficient funds to allow for the retirement of the company's zero coupon notes which mature in August 1990," he added.

"As in the past years, Jacor's focus in 1989 was on building long- term

value for our shareholders," Jacobs explained. "In the broadcasting industry, companies that experience the rapid growth that Jacor has must reflect very large non-cash charges for depreciation and amortization. As a result, standard reported losses can be expected of broadcast companies that are in the midst of rapid expansion. This is especially true when the expansion includes the acquisition of 'turnaround' properties. These acquisitions generally affect financial results adversely at the front end because it often takes 24 to 36 months to bring the properties to their operating potential. For example, during 1989 we made significant long-term investments related to changing formats on our 'turnaround' FM stations in Denver and Tampa. Whenever a format is changed, revenues from the existing format are often sacrificed and significant advertising dollars are commonly spent to promote the new format. This, however, is part of the cost of a 'turnaround'. These up-front investments should pay dividends down the road.

"In Tampa, we have already experienced one of the more extraordinary success stories in all of radio. With its new format, Jacor's WFLZ-FM moved from eighth place to the number one position in the market in its very first rating period. If we can turn these ratings into increased revenue and achieve the same results in Denver, we will have been very successful. We remain confident in our belief that we are building value in our properties which will produce increased value for our shareholders."

Jacor Communications, Inc., headquartered in Cincinnati, Ohio, currently owns 13 radio stations, a cable television system, the Georgia Network, Eastman Radio, Inc. and Critical Mass Media, Inc. The company's stations are located in Atlanta, Cincinnati, Cleveland, Denver, Jacksonville, Knoxville, Nashville and Tampa.

ADDISON, IL (FEB. 22) PR NEWSWIRE - Hako Minuteman, Inc. (NASDAQ-NMS: HAKO), today reported the ninth consecutive year of record sales and net income despite lower fourth quarter earnings.

For the year ended Dec. 31, 1989, the company's net income was up 4 percent to $2,844,000, or 78 cents per share, from $2,734,000, or 75 cents per share, in 1988. Net sales rose 11.7 percent to $31,116,000 from $27,865,000 last year.

Net income for the 1989 fourth quarter was down 32 percent to $513,000, or 14 cents per share, from $756,000, or 21 cents per share, in the quarter ended Dec. 31, 1988. Net sales for the 1989 fourth quarter increased 4 percent to $6,362,000 from $6,111,000 in the year- earlier period.

Jerome E. Rau, president and chief executive officer, said results for the 1989 fourth quarter were adversely affected by a less favorable product mix, higher sales promotion expenses, additional personnel and benefit costs, and increased health and liability insurance expenses.

He noted that demand for the company's products was soft industrywide, reflecting a general slowdown in the U.S. economy.

According to Rau, many of the expenses which impacted fourth quarter

earnings are expected to result in favorable long-term effects for the company.

"We spent much time and effort in the quarter laying the groundwork for future growth. During the period we increased our research and development staff by 40 percent in order to enhance our reputation as a highly innovative company and added a national account sales manager and export manager to increase sales penetration."

Headquartered in Addison, Ill., Hako Minuteman, Inc., manufactures one of the most complete lines of commercial and industrial vacuums, floor and carpet care equipment, and chemical cleaning and coating products in the United States and Canada.

COLUMBUS, OH (FEB. 22) PR NEWSWIRE - The board of directors of Lancaster Colony Corporation (NASDAQ: LANC) today declared a quarterly cash dividend of 19 cents per share payable March 31, 1990, to shareholders of record on March 9, 1990.

John B. Gerlach, president of Lancaster Colony, said, "This board action

continues the higher dividend rate set three months ago and reflects the board's confidence in the company's earnings trend and future prospects."

Gerlach noted that the indicated annual payout for the current fiscal year which began July 1, 1989 is 75 cents per share. For the most recent fiscal year ended June 30, 1989, the company paid cash dividends totaling 71 cents per share.

Lancaster Colony has paid consecutive quarterly cash dividends since Sept. 1963 and has increased the cash dividend every year for more than 20 years. Common shares currently outstanding are 11,787,992.

LOS ANGELES (FEB. 22) PR NEWSWIRE - CalFed Inc. (NYSE: CAL) today said its board of directors elected Richard M. Greenwood executive vice president and chief financial officer of the company. He fills a vacancy created when Jerry St. Dennis was named president and chief operating officer of CalFed in July 1989.

Greenwood, 42, joins the company from Valley National Corp. of Phoenix, Ariz., where since mid-1988 he served as executive vice president, chief financial officer and treasurer. Valley National Corp.'s principal subsidiary is Valley National Bank.

In his new position at the holding-company level, Greenwood will be responsible for financial, treasury, accounting, audit and tax functions for CalFed Inc. and its principal subsidiary, California Federal Bank. In addition, he will have corporate oversight responsibilities for CalFed's other key subsidiaries.

Greenwood began his banking career in 1974 as a credit analyst with North Carolina National Bank in Charlotte and later served as a loan officer in the bank's New York offices. Four years later he joined Citibank, New York, and subsequently became vice president and treasurer of Citibank's European, Middle Eastern and African consumer-bank division, headquartered in London. He also was senior vice president of Person to Person/Homeowners Inc., Citicorp's mortgage-banking subsidiary.

CalFed Inc. is a consumer-based financial services company.

FORT WAYNE, IN (FEB. 22) PR NEWSWIRE - Lincoln Foodservice Products, Inc. (NASDAQ: LINN) today announced operating results for the fourth quarter and year ended Dec. 31, 1989.

For the fourth quarter of 1989, Lincoln incurred a net loss of $14,000, or $.00 per share, on net sales of $11,945,000. This compares with 1988 fourth quarter net income of $543,000, or $.17 per share, on net sales of $11,598,000.

For the full-year 1989, Lincoln reported net income of $785,000, or $.24 per share, on net sales of $47,480,000. For 1988, Lincoln's net income was $2,091,000, or $.64 per share, on net sales of $46,596,000.

Results for the fourth quarter benefited from a change in the manner the company allocates to interim periods the estimated annual adjustment to value inventories at LIFO cost. Had the method been used in 1988, net income for the three-month period ended Dec. 31, 1988 would have been lower by $352,000 or $.11 per share. The change in method does not affect the results reported for the year ended Dec. 31, 1988.

During the fourth quarter, Lincoln recorded a loss of $136,000, or $.04 per share, as a result of its 32.5 percent interest in Bay-Lea Industries Limited, a Canadian holding company with foodservice cookware and equipment divisions. The loss was attributed to downtime associated with moving to new manufacturing facilities and softening in Canadian foodservice markets, which resulted in reduced sales at reduced margins.

Bay-Lea Industries Limited has the Wear-Ever(R) trademark rights in Canada for the foodservice industry. "Our interest in this venture illustrates our commitment to international growth, reinforcing our links to Wear-Ever worldwide and solidifying our market share in Canada," said Thomas C. Griffith, chairman and chief executive officer.

Shift in Product Mix "Two broad foodservice industry trends had a negative affect on Lincoln's 1989 net income," commented Griffith. "Flat growth in the industry and increased competition among the major pizza chains resulted in a shift in our product sales mix.

"We experienced a decrease in higher-margin equipment sales, particularly Impinger(R) I and III Ovens. Two product lines -- Redco(R) food slicers, cutters and wedgers and Impinger II Ovens -- had strong sales increases over 1988. However, these two products have lower margins than our Impinger I and III Ovens. As a result, we experienced a significant increase in cost of goods sold; the net effect was a reduction in overall profit margins."

Griffith continued, "As a result of no growth in the industry, the dominant chains are buying less equipment and concentrating on menu enhancement, not new store openings. This trend has led to softer sales in foodservice equipment lines across-the-board; however, we believe this situation is an opportunity to develop new uses of air-impingement technology with the non-pizza chains' new menus."

"Impinger I and III Oven sales were affected primarily by competition among pizza chains. The major chains -- who need ovens that have more capacity than our three-foot model -- have dominated the market this past year. In 1990, we will introduce an oven that will address the capacity preferences of this growing customer base, and we believe that we will regain lost market share in this industry segment during the next two years."

Selling, General and Administrative Expenses Selling, general and administrative expenses increased by 8 percent during 1989. "We view the bulk of these costs as an investment in our business -- increased expenditures for advertising, promotions, and research and development. Additional investments associated with an upgrade in our computer system and the opening of our West Coast demonstration center resulted in higher rental expenses during the year," stated Griffith.

"To contain selling expenses, we tightened our credit and discount policies substantially during 1989. In 1989, these benefits were offset, in part, by slightly higher startup and checkout costs associated with new co-ventures; however, we believe we have made significant progress in managing these expenses, said Griffith."

Employee health care costs, which Lincoln self-insures, increased in 1989 by 36 percent. Management believes that 1989 was a unique year -- further increases are not anticipated for 1990.

Strong Cash Position "During 1989, we continued to demonstrate our ability to manage for cash. Our year-end cash position was $4,214,000, compared to $2,707,000 at the beginning of the year. During 1990, we will increase our inventory because we believe it is our strongest investment option right now. We are in a position to take full advantage of any growth opportunity," stated Griffith.

International Growth Earns Presidential Award Over the past five years, Lincoln has built an international distribution network that has increased sales by 732 percent. Lincoln products are now sold in 56 countries, and that number has grown by one or two countries monthly.

Lincoln's achievements were acknowledged this year by the U.S. Department of Commerce with the Presidential "E" Award. The "E" stands for exports,

expansion, excellence and effort. The award has been bestowed upon 1,800 U.S. corporations since its inception in 1961.

Outlook -- Favorable Trends in Product Mix and the Foodservice Industry "We are optimistic heading into 1990," said Griffith. "Investments we have made in 1988 and 1989 should begin to show results in 1990, particularly in our gross margins, which we believe will rise as a result of product mix improvement in the second-half of the year."

"The foodservice industry is expected to show improved sales growth in 1990. Restaurant and Institutions magazine predicts the industry will grow to $230.0 billion in 1990 from $218.2 billion in 1989. The strongest growing segments in commercial foodservice will include fast- food sandwich shops and convenience stores -- significant end-users of Lincoln products."

In an update on a co-development project with Kentucky Fried Chicken, Lincoln announced that KFC had chosen not to use prototype Impinger grills for a menu expansion program into nonfried foods. Lincoln indicated that it is studying a grill co-production effort with KFC.

Griffith concluded, "We are pleased with our sales performance during a flat industry year. We are confident that the positive trends we see in the industry will enable us to realize earnings growth in 1990."

Lincoln Foodservice Products, Inc. designs, manufactures, and markets commercial and institutional foodservice cooking equipment and utensils. The Company, which produces Impinger conveyor ovens, Steam'r Oven(R) combi-cookers, Wear-Ever and Centurion(R) foodservice utensils, Redco(R) food slicers, cutters, and wedgers, Galley(R) food serving equipment, and Fresh-O-Matic(R) food warmers, markets its products internationally through its own sales force and a network of 1,500 distributors worldwide.

LINCOLN FOODSERVICE PRODUCTS, INC.
(Unaudited, in thousands, except per share data)

Periods ended	Three Months		Twelve Months	
Dec. 31	1989	1988 (A)	1989	1988

ANAHEIM, CA (FEB. 22) PR NEWSWIRE - Standard Logic Inc. (OTC) today announced the results for its first fiscal quarter ended Jan. 27, 1990.

Revenues for the first quarter were $187,850 which resulted in a net loss of $99,485. This compares to revenues of $232,595 and a net loss of $474,428 for the same period last year.

Wes Baumgardner commented on the first quarter, stating "that the resulting loss was a function of lower bookings during the period and the return to profitability should occur in the third quarter."

Standard Logic Inc. manufactures and distributes electronic packaging assemblies and systems for commercial and government applications.

JACKSON, MS (FEB. 22) PR NEWSWIRE - Curtis Strange, the top- ranked U.S. golfer in the world and winner of two consecutive U.S. Open championships, has signed a three-year agreement with SkyTel Corp. of Washington to represent the company's "SkyPager" nationwide messaging system on the PGA tour and in advertising.

"Curtis is a world-class competitor and has an outstanding image for our company. We could not be more pleased with this new relationship," said Jim Phillips, president of SkyTel Corp., a subsidiary of Mobile Telecommunication Technologies Corp. (NASDAQ-NMS: MTTL) of Jackson.

"I'm delighted to have this agreement with SkyTel Corp.," said Strange.

"As someone who travels constantly on the PGA tour, I need a product to stay in touch with my business associates and family. SkyPager meets that need beautifully."

Phillips said that the company decided to sponsor golf based on research that showed golfers have the demographic profile most similar to the business traveler.

"SkyPagers are used by executives to stay in touch on a nationwide basis, especially during travel," said Phillips. "Over half the Fortune 1000 use SkyPager and SkyTalk, the companion voice mail system."

Strange, 35, joined the PGA tour in 1977. In 12 seasons as a professional golfer, he has won 17 tournaments and earned over $5 million in prize money, plus numerous international victories.

Strange was named PGA Player of the Year in 1985, 1987 and 1988 and was the tour's number one money-winner in those three seasons. In 1988, he became the first golfer to earn $1 million in prize money in a single season and in 1989 became the first golfer to win consecutive U.S. Opens since Ben Hogan in 1950-51.

Strange is a native of Virginia Beach, Va., and a graduate of Wake Forest University. He and his wife, Sarah, have two sons Thomas, 7, and David, 4.

With coverage of 175 top markets in 1990, SkyTel Corp. has the most effective and deepest coverage of any nationwide paging company in the United States.

Mtel, headquartered in Jackson, is engaged in businesses that include nationwide paging and voice messaging systems; interests in other satellite-based telecommunications systems; air-to-ground and marine telecommunication systems; telephone answering service operations, and a microwave relay system in southern California.

BUFFALO, N.Y. (FEB. 22) PR NEWSWIRE - Pratt & Lambert, Inc. (AMEX: PM) today reported that its consolidated net sales in 1989 rose 5.4 percent to a record $245,536 from $232,939,000 a year earlier. Net income of $6,445,000 declined 11 percent from $7,243,000 in 1988 which included an after-tax gain of $285,000 on the sale of property. Were it not for that transaction, the reduction would have been 7.4 percent. Earnings per share were $1.06 vs. $1.18 in 1988, of which 5 cents represented the

non-recurring gain.

Fourth quarter sales were $56,419,000, up 6.6 percent from $52,923,000 in 1988. Net income for the period was $593,000 compared with $613,000 a year earlier. Reflecting a 4.6 percent reduction in average shares outstanding in the 1989 fourth quarter, due largely to an authorized stock repurchase program, earnings per share were 10 cents in both periods.

R.D. Stevens Jr., chairman of the paint, coatings and adhesives manufacturer, attributed the year's sales improvement to price increases, the contribution of recent acquisitions and higher unit volume in several sectors of the business.

Pratt & Lambert President and CEO J.J. Castiglia, added that the company's Canadian operations were particularly strong and that, overall, above-average growth was experienced in demand for environmentally compliant formulations. He said that this trend is expected to accelerate.

Earnings softness in 1989 reflected increased raw material costs, higher interest charges and an unfavorable product-mix shift in several industrial lines. Castiglia noted that partial relief has been obtained through selling-price increases and cost-containment efforts, both of which are ongoing programs.

The company announced that it has formed a new marketing group to supervise a line of specialty coatings and adhesives that were previously administered separately within the organization. The centralization will place stronger emphasis on products reaching the user through functional distributors.

At its meeting today, the firm's board of directors declared a first quarter dividend on its common stock of 13 cents, payable April 2 to holders of record March 15, 1990.

DALLAS (FEB. 22) PR NEWSWIRE - Continental Mortgage and Equity Trust (NASDAQ: CMETS), National Income Realty Trust (NASDAQ: NIRTS), Income Opportunity Realty Trust (AMEX: IOT) and Transcontinental Realty Investors (NYSE: TCI) today announced a settlement, subject to the approval of a California Federal Court, of a class and derivative action relating to the operation and management of each of the trusts. These actions, which had been previously reported with respect to CMETS and NIRTS, have been

expanded to include IOT and TCI.

Under the terms of the settlement, among other things, the four trusts will be distributing dividends over approximately the next 16 months as follows: CMETS -- $10 million; IOT -- $2.5 million; NIRTS -- $10 million; TCI -- $7 million. These amounts include the previously announced distributions that were paid on Feb. 10 for CMETS and NIRTS, and that will be paid on Feb. 26, 1990, for IOT and TCI. The next distribution will be payable to shareholders of record as of May 1, 1990. The payment date will be established by the court. Management expects it will be within approximately one month after the record date. Each trust will distribute in this distribution (in per share amounts): CMETS -- $0.44; IOT -- $0.22; NIRTS -- $0.11; TCI -- $0.18.

Additionally, pursuant to the settlement, each of the trusts have announced that a management trustee, Richard Lapp, will be resigning from, and three additional outside trustees will be appointed to, the boards of trustees. The new trustees will be Dan Johnston, Bennett B. Sims, and Ted P. Stokely.

"We believe this is a positive settlement for the trusts as it does not adversely impact the financial positions of the trusts, will provide a substantial distribution to shareholders in accordance with the trusts' announced dividend policies, and will allow management to devote full attention to the business of the trusts," said a spokesperson for the trusts.

Continental Mortgage and Equity Trust, Income Opportunity Realty Trust, National Income Realty Trust and Transcontinental Realty Investors are combination mortgage and equity real estate investment trusts which operate nationwide.

SOUTH PLAINFIELD, NJ (FEB. 22) PR NEWSWIRE - Enzon, Inc. (NASDAQ: ENZN) today reported a net loss of $1.4 million, or 11 cents per share, for the six months ended Dec. 31, 1989, versus a net loss of $2.8 million, or 26 cents per share, for the same period last year.

Revenues totaled $2.1 million versus $2.0 million in the previous fiscal year. Results for the second quarter indicated a net loss of $2.7 million or 22 cents per share, on sales of $16,000, compared with a net loss of $1.7 million, or 16 cents per share, on sales of $944,000 in the prior period.

Gail Wasilewski, Enzon's vice president of finance, said that lower sales for the second quarter reflected the prior fulfillment of Sterling Drug's clinical research requirements for 1989 by the end of the September quarter. Other factors contributing to the $1 million increase in net loss for the quarter were higher research and development, selling, general and administrative expenses.

According to Ms. Wasilewski, Enzon's research and development expenses for the quarter ended in December 1989 increased by 21 percent compared with the same period a year ago, primarily due to higher research costs for new products, the manufacture of product for use in clinical research, and the preparation of a Product License Application for PEG-L-asparaginase, a drug used in the treatment of acute lymphoblastic leukemia (ALL).

"Our R&D expenses associated with PEG-SOD decreased significantly from previously expected levels as a result of the transfer (June 1989) of all clinical research responsibility for the product to Sterling," she added.

Other general and administrative costs rose 46 percent from $811,000 to $1.2 million for the quarter ended in December 1989 compared with the same period last year as the company continued to expaand into a fully integrated pharmaceutical company.

Enzon is a pharmaceutical company developing therapies for life-threatening diseases through the application of its proprietary technology Pegnology, to enhance the delivery of protein-based drugs. Currently, four Pegnology-based therapeutic agents developed by the company are in human clinical trials. The company is awaiting Food and Drug Administration approval of its first product, Adagen (PEG-ADA), for the treatment of severe combined immunodeficiency disease, also known as "bubble boy" disease.

OAK BROOK, IL (FEB. 22) PR NEWSWIRE - Waste Management, Inc. (NYSE: WMX) today announced a new program designed to encourage its thousands of employees to increase their support of environmental organizations.

Under the innovative program, Waste Management will match contributions made by employees to environmental groups up to $5,000 per year on a two-for-one basis for a maximum match of $10,000 per year per employee.

"Our business is based on protecting and improving our environment, and we want to do all we can to encourage our employees to assist the work of environmental groups," said Dean L. Buntrock, chairman and chief executive officer. "This program is a new means to enable our employees to use our company's resources to enhance the contributions they make to the many worthwhile organizations committed to the environment."

The Waste Management, Inc. Environmental Matching Gift Program will apply to active employees who have completed one year of service at the time the gift is made and to retired employees who at the time of their retirement were 55 or older and had ten years of continuous service, or 65 or older with five years of continuous service. Eligible environmental organizations must be tax exempt and be organized for the purpose of advancing the preservation or conservation of the environment.

The Environmental Matching Gift Program for employees is in addition to Waste Management's corporate grant program for national and international not-for-profit environmental organizations.

"Waste Management's corporate grant program priorities include strengthening recycling policies, enhancing environmental protection programs in developing countries and protecting biological diversity," said Bill Brown, Waste Management's director of environmental affairs.

"More than 30 environmental organizations or environmental programs of other service organizations received grants in 1989 totaling about $800,000. We expect a larger formal commitment in 1990."

Waste Management is the world's largest provider of comprehensive waste services, including recycling, collection, treatment, and disposal of solid, chemical, and hazardous wastes. Based in Oak Brook, the company operates through more than 450 subsidiaries and divisions in 46 states, Canada and about a dozen countries overseas.

CAMBRIDGE, MA (FEB. 22) PR NEWSWIRE - T Cell Sciences, Inc., (NASDAQ: TCEL) announced today the release of its CELLFREER CD4 Test Kit to the scientific research community. The CELLFREER CD4 Test Kit measures soluble CD4, a receptor on the surface of T cells, which is released into the bloodstream.

The role of the CD4 receptor in AIDS has been the subject of considerable research, and investigators are now beginning to study the role of soluble CD4. This new test kit enables researchers to quantify levels of this soluble receptor to examine its role in AIDS as well as other diseases. Elevated levels of the soluble CD4 receptor have been seen in the blood of patients experiencing organ rejections, rheumatoid arthritis and certain types of T cell leukemia.

"Measuring the levels of CD4 positive cells and the level of the soluble CD4 receptor may be important indicators for evaluating the progression of AIDS," said James D. Grant, chairman and chief executive officer of T Cell Sciences. "This is the first commercially available test kit that measures soluble CD4 and, therefore, may be an important tool to researchers studying many types of T cell-related disorders, including AIDS."

The CD4 test kit is the third product to be added to the CELLFREER product line, which now consists of an FDA-approved product for use as an aid in monitoring response to treatment in hairy cell leukemia patients (CELLFREER Interleukin 2 Receptor Bead Assay Kit) and two test kits marketed to the scientific research community. The CELLFREER test kits measure soluble T cell receptors, receptors which detach from the cell surface and circulate in the blood.

Utilizing proprietary T cell receptor and soluble receptor technology, T Cell Sciences, Inc. is developing pharmaceutical products to treat heart disease and autoimmune diseases as well as products for diagnosing and monitoring immune system disorders and cancer. Located in Cambridge, the company currently markets products to the scientific community and an FDA-approved test kit to the diagnostic market.

CLEVELAND (FEB. 22) PR NEWSWIRE - The board of directors of Society Corporation (NASADQ: SOCI) today declared a quarterly cash dividend of $0.44 per common share. This represents a 10 percent increase over the 1989 quarterly dividend of $0.40 per common share.

The dividend is payable March 15, 1990, to shareholders of record on March 6, 1990.

Based on the quarterly rate, the dividend for 1990 will be $1.76 per share compared to $1.60 in 1989.

The board's action marked the 25th consecutive year that Society's directors have increased the dividend on common shares. Over the past five years, the corporation's dividend has increased at a compounded annual rate of 13.9 percent.

Society Corporation is one of the largest bank holding companies in the Midwest with assets of $16.2 billion. Through its affiliates, the holding company has 370 offices in Ohio, Michigan, Indiana and Florida. Society engages in commercial banking, consumer banking, mortgage banking and leasing, and provides trust and investment banking services.

NEW ORLEANS (FEB. 22) PR NEWSWIRE - Vincent J. Liuzza Jr., president of Cucos Inc. (NASDAQ: CUCO), announced today that the company recorded increased revenues and earnings for the second quarter ended Jan. 14.

Earnings advanced to $40,246 from $27,399 recorded in the comparable prior year quarter. Revenues for the current quarter were $2,934,522, up 4.3 percent from $2,813,782 recorded for the second quarter of fiscal 1989.

While total corporate earnings continued to increase, sales per restaurant and restaurant profits declined slightly during the quarter, primarily due to the record-setting cold weather experienced across the Southeast in December. The opening of a new company-owned restaurant in Pascagoula, Miss., in December helped offset the sales and profit shortfall. Also, a franchised restaurant opened in Tallahassee, Fla., and construction began on a company-owned restaurant which will be located in Columbus, Ga.

"Two additional franchised restaurants, one in Atlanta, and a second in Greenville, S.C., have opened since the end of the quarter. In addition, we have subleased the existing company-owned restaurant in Cutler Ridge, Fla., to a former employee of the company in conjunction with the sale of additional franchise development territory," said Liuzza.

DETROIT (FEB. 22) PR NEWSWIRE - The opening of a UAW-Chrysler jointly operated satellite training center to assist workers from the Jefferson Assembly plant (Locals 7, 889 and 412) and Detroit Trim (Locals 212, 889 and 412) has been announced by UAW Vice President Stan Marshall, who directs the union's Chrysler Department, and Chrysler Corporation Vice President for Employee Relations Anthony P. St. John.

The satellite training center will be housed at the Local 212 union hall and operated under the auspices of the UAW-Chrysler National Training Center. Later, this center will accommodate all UAW- represented Chrysler workers living in Wayne County.

"The UAW stands by its members -- that's why I'm proud that these union-negotiated programs are available to assist them when they most need help," said Marshall.

"The company strongly supports the activities of the satellite training

center in meeting the development needs of our employees during their difficult and extended period of joblessness. The center is yet another example of how our employees benefit from a spirit of joint company-union cooperation," added St. John.

The center will initially offer career guidance counseling, work- related skills training, technical training, communications skills training as well as other topic areas designed to meet the educational skill development needs and desires of the eligible workers. In addition to educational training programs, the center will offer a full- time job development and placement service and offer supportive services designed to help workers adjust to the myriad of problems associated with unemployment.

To deliver high-quality services and training, the National Training Center has contracted with a variety of public and private educational service providers.

PITTSBURGH (FEB. 22) PR NEWSWIRE - Alcoa Foundation made about 2,500 grants in 1989 totaling a record $11.40 million, a gain of 6 percent over grants of $10.76 million made in 1988, the previous record year, it was announced today.

The foundation's endowment increased $27 million in 1989 to close the year at $250.5 million. The endowment continues to make Alcoa Foundation the largest asset-based corporate foundation in the world.

In the Pittsburgh area in 1989, Alcoa Foundation made grants totaling $3.6 million. These dollars of support went to a wide range of charitable institutions and projects in the area and represented 31.7 percent of the foundation's total giving.

On a worldwide basis, Alcoa Foundation grants for education were $5.04 million and were the largest share of the foundation's giving in 1989, accounting for 44.2 percent of all grants.

Health and welfare grants were $2.71 million, or 23.8 percent of the total followed by cultural grants of $1.61 million, or 14.1 percent of the total, and civic and community grants of $1.17 million, or 10.3 percent of the 1989 total. Youth organizations received $499,175, or 4.4 percent of the total.

Reviewing the year, Earl L. Gadbery, president of Alcoa Foundation, said:

"Grants made in 1989 reflect our continuing emphasis on aid to education. We are seeing clear shifts of interest, however, within educational funding. For example, we expect our support of literacy programs in 1990 to be more than double those made in 1989. There is also greater demand for financial support for tutoring, math and science, and teacher incentive programs among public elementary and secondary schools.

"Civic and community support requests also are showing shifts in emphasis. More grants are being approved to support day care for the young and the elderly, and for substance abuse programs," he said.

Gadbery said that the largest single grant made in the 37-year history of Alcoa Foundation was made in 1989. A seven-year, $2 million grant to The Carnegie in Pittsburgh, principally for a capital program for a new Native Americans Hall in the institution's museum.

MILFORD, MA (FEB. 22) PR NEWSWIRE - Roger W. Robbins announced today that he has tendered his resignation as chairman of the board, president and CEO of Home National Corporation (NASDAQ: HNCP) and chairman of the board and CEO of the company's major subsidiary Home National Bank. The resignation is effective immediately.

The announcement ends a long association of more than a quarter of a century during which time Robbins rose from a bank teller to bank president. During his tenure the bank expanded its branch network into five new communities and company assets climbed over $500 million.

Peter S. Ellis, a bank director since 1972 and president of Karl A. Bright Insurance Agency, has been elected as chairman of the board of Home National Corporation and Home National Bank. His father, George Ellis served as chairman of the board until his retirement in Sept. 1988.

Brian A. Elsden has been elected as president and CEO of the Home National Corporation and its subsidiary Home National Bank. Elsden joined the bank in July 1989 as chief operating officer and was named the bank's president in December. He was elected a director in October 1989.

Elsden's professional career includes over 20 years with Shawmut where he held numerous management positions including president of Shawmut's Melrose-Wakefield Bank and later as president of Shawmut County Bank in Cambridge. His educational background includes a B.A. in English from Northeastern and a law degree from Suffolk University.

MELBOURNE, FL (FEB. 22) PR NEWSWIRE - DBA Systems, Inc. (NASDAQ: DBAS) announced today that Howard N. Hebert resigned as chairman of the board of directors effective Feb. 21, 1990. The DBA board unanimously voted to appoint John L. Slack, president and CEO of the company, to the additional position of chairman. Hebert will continue to serve as a director of the company.

In announcing his resignation, Hebert stated: "Since his appointment as president and CEO, Mr. Slack has become completely and thoroughly familiar with the challenges and opportunities facing DBA. His appointment as chairman will send a clear message to our shareholders, employees and customers that an orderly transition of top management has been completed, and that DBA's future remains in capable hands."

Slack, in accepting his appointment as chairman of the board, stated: "Mr. Hebert's contributions to the growth and success of DBA are numerous, and DBA has benefited greatly from his leadership. I appreciate the faith and confidence he and the board has placed in me and will do my best to fulfill their trust."

PLYMOUTH MEETING, PA (FEB. 22) PR NEWSWIRE - CenterCore, Inc. (NASDAQ: CCOR) an office environments company which provides office furniture workstations and high density filing systems, today announced operating results for the quarter and year ended Dec. 31, 1989.

Net sales for the fourth quarter of 1989 were $14,622,200 compared to $9,717,000 for the comparable period in 1988. The company reported net earnings for the fourth quarter of $1,020,300 or $0.09 per share, compared to $25,400 from continuing operations in 1988.

Net sales for the twelve months ended Dec. 31, 1989 were $42,829,200 compared to $39,241,800 in 1988. Net earnings for the year were $1,403,900 or $0.13 per share, compared to $1,133,500 or $0.12 per share from continuing operations in 1988. Net earnings for 1988 including discontinued operations were $382,500 or $0.04 per share.

"We are pleased with the record sales and earnings achieved in both the fourth quarter and full year 1989," said George E. Mitchell, president of CenterCore. "We attribute these results to strong sales and operational gains in both our domestic furniture and Canadian operations."

He continued, "In addition to this record performance, 1989 was an important year for CenterCore due to the year-end acquisition of Microdyne an ergonomic seating manufacturer. Microdyne not only adds substantially to our future revenue base, but independent testing has concluded its products are among the most durable in the industry. This was an important factor in our decision to acquire the company, as customer satisfaction has always been CenterCore's primary goal."

Mitchell added that, barring any serious economic downturn, this momentum is expected to continue into 1990. In addition, a number of new product enhancements are planned for introduction in mid-year which will address critical market needs, while continuing to broaden CenterCore's product line.

MINNEAPOLIS, (FEB. 22) PR NEWSWIRE - Cray Research, Inc. (NYSE: CYR), announced today that the National Aeronautics and Space Administration (NASA)'s Goddard Space Flight Center has ordered a CRAY Y-MP8/432 supercomputer for Goddard's Space and Earth Sciences Computing Center in Greenbelt, Md., and a CRAY Y-MP8/464 system for NASA's Lewis Research Center in Cleveland, Ohio. The systems are valued at approximately $34.9 million.

"This is the first time NASA has placed an order with us for two systems," said John A. Rollwagen, chairman and chief executive officer of Cray Research. "Once the CRAY Y-MP system is installed at Goddard, all major NASA research and operational centers will have Cray Research supercomputers. NASA is a long-time customer, and we're very pleased to be the supercomputer supplier for all of their centers."

The CRAY Y-MP system at Lewis will be installed in June and will supplement a CRAY X-MP/24 system that was installed in January 1986. NASA Lewis focuses on research, development, and project activities related to aeropropulsion, space propulsion, and power systems.

Dr. John Adamczyk, NASA senior aerospace scientist at Lewis, said, "The turbomachinery of a modern jet engine contains one of the most complex flow fields of engineering interest. The CRAY Y-MP system makes it possible to conduct three-dimensional simulations to uncover the flow physics that control the performance of these components. The simulations combined with an experimental flow physics program, are bringing about a revolutionary change in the design of turbomachinery in the foreseeable future."

The CRAY Y-MP8/432 system, which is Goddard's first Cray Research supercomputer, will replace a Control Data CYBER 205. It is scheduled to be installed and ready for customer use by June. Goddard will use its new supercomputer in areas such as global warming, earth observing systems, space physics, astronomy and solar physics and terrestrial and ocean modeling. One significant use will be by scientists working on geodynamic earth surface models. Goddard is responsible for taking the lead on NASA's global change studies.

"The Cray Y-MP supercomputer will allow us for the first time to seriously begin modeling the complex interdisciplinary process governing the coupled ocean and earth atmosphere system," said Dr. Milton Halem, chief of Goddard's space and computing division. "This new supercomputer procurement should keep NASA at the forefront of computational sciences until the end of the decade."

Goddard's Space and Earth Sciences Computing Center supports approximately 1,400 users, including users at about 55 affiliated universities doing NASA-supported research, according to Halem. Both local and remote users

will share the benefits of an open system interconnection capability through access to the centers supercomputer via high-speed network interfaces.

Cray Research, Inc., designs, manufactures, markets, and supports large-scale, high-speed computer systems for scientific and engineering applications.

MINNEAPOLIS (FEB. 22) PR NEWSWIRE - Grand Metropolitan Food Sector, a subsidiary of Grand Metropolitan PLC, announced today that Rebecca Chou has joined the company as director of Cultural Diversity, a new position, effective immediately. She reports to Charles V. Wilson, the Food Sector's vice president, Cultural Diversity and Management Development.

In making the announcement, Wilson noted, "Establishing this position underscores the commitment Grand Metropolitan has to building a culturally diverse workforce across the Food Sector, with a special focus on Pillsbury. We are dedicated to creating a company that -- at all levels in the organization -- reflects the diversity of our customer base. By doing so, we will benefit from the talents of women and people of color and, in the process, gain understanding of new markets that are developing rapidly."

Chou's specific responsibilities include: creating and implementing programs to ensure diversity and establishing measurements to assess progress. She will also identify processes to assist minorities, women and other groups on advancement.

Grand Metropolitan Food Sector, with annual sales of approximately $8 billion, includes Pillsbury Inc., Alpo Petfoods, Burger King, Grand Metropolitan Foodservice USA and Haagen-Dazs, all headquartered in the United States, and Grand Metropolitan Foods Europe (Express Foods Group International and Pillsbury Europe) headquartered in the United Kingdom. Grand Metropolitan PLC, a leading international food, drinks and retailing company has annual sales of approximately $15 billion. In addition to the food sector companies, its U.S. subsidiaries include Carillon Importers, Heublein, Paddington and Pearle Inc.

JERSEY CITY, NJ (FEB. 22) PR NEWSWIRE - Siggi B. Wilzig, chairman and president of The Trustcompany Bancorporation (NASDAQ-NMS: TCBC), parent company of The Trust Company of New Jersey, announced that the bank reported a 19 percent increase in net income for the year ended Dec. 31, 1989.

Net income for the year increased from $16,323,000 to $19,467,000. During the same period, deposits increased from 12.6 percent to a record $1.7 billion and assets increased 11.5 percent to a record $1.8 billion.

Wilzig stated, "The bank's excellent earnings performance is in sharp contrast with the New Jersey banking industry. The Trust Company's conservative investment and loan policies have resulted in unparalleled growth over the past five years." Wilzig continued, "We have never held any 'junk bonds' nor made any joint venture real estate loans."

The Trust Company is the only bank in the history of New Jersey to reach $1.8 billion in assets without costly mergers or acquisition.

DETROIT (FEB. 22) PR NEWSWIRE - MCN Corporation (NYSE: MCN), parent company of Michigan Consolidated Gas Company (MichCon) of Detroit, today said it plans to acquire Citizens Gas Fuel Company in Adrian, Mich.

Citizens Gas Fuel Company (Citizens) is a natural gas distribution utility serving approximately 11,400 residential, commercial and industrial customers in Lenawee County.

"We see opportunities for growth in Lenawee County," said MCN Chairman and Chief Executive Officer Alfred R. Glancy III, in announcing the signing of a letter of intent on the acquisition. "Citizens will become a separate subsidiary of MCN Corporation and not become part of MichCon," he said. The acquisition process is expected to take several months.

MCN will acquire Citizens by exchanging approximately $14.6 million in MCN stock for all the outstanding stock of Citizens. Citizens earned a $1 million profit for its fiscal year ending March 31, 1989, on total

operating revenues of $14.3 million.

"Citizens is a solid natural gas utility company, located in a growing part of southeastern Michigan," explained Glancy. "As part of MCN Corporation, Citizens will help us meet our commitment to continue to expand in energy-related businesses, and strengthen our natural gas distribution position in Michigan," he said.

MCN Corporation is a holding company for Michigan Consolidated Gas Company a natural gas distribution, transmission and storage company serving more than 1 million customers in 440 communities throughout Michigan, and for MCN Investment Corporation which owns subsidiaries involved in data processing, natural gas technology and energy services.

#90053p0447 02/22/1990 ~PR Newswire

OTTAWA, ONTARIO (FEB. 22) PR NEWSWIRE - SHL Systemhouse Inc. (NASDAQ: SHKIF) of Ottawa today announced that its U.K. subsidiary, ComputerGroup Limited of Manchester, has been selected by the British Post Office as its exclusive supplier of Compaq 80386 Personal Computers. Under terms of the multimillion-dollar contract, ComputerGroup will supply Compaq 386 microcomputers and related services over a three-year period.

The British Post Office has used Compaq Personal Computers since 1987 and had already made a decision to standardize on the Compaq 80386 for its systems for the future. Many of these 386 PC Systems will be interfaced to IBM AS/400 mainframe systems used in the Post Office with ComputerGroup having demonstrated its ability to handle the associated networking and connectivity issues.

According to Mike McGoun, ComputerGroup's managing director, several factors were important in the selection of ComputerGroup as the organization to supply and install these systems.

"First, we had to show that we had the size, the funding and the distribution capability to meet the product supply requirement of the Post Office," said McGoun. "Secondly, it was important to the Post Office that we also had the service resources to provide the necessary support and backup to their user departments. Also playing an important part was our ability to support and work with the key industry architectures through our Systemhouse connections."

The contract between ComputerGroup and the British Post Office is similar to the agreement between Systemhouse's ComputerLand Canada subsidiary and

Canada Post Corporation.

Additionally, Systemhouse is undertaking the design and implementation of Canada Post's Trace Mail system using computerized scanning and tracking devices.

Jim Yeates, president of ComputerLand Canada, said, "We are pleased to be working with both postal organizations as they strive to increase productivity through automation. Today's announcement also, once again, demonstrates the effectiveness of the Systemhouse/ComputerLand union in offering micro-based systems integration products and services."

Acquired by Systemhouse in September 1989, ComputerGroup is the largest ComputerLand franchisee in Europe with 14 locations throughout the U.K., 350 employees and FY 1989 revenues of $61.6 million.

#90053p0451 02/22/1990 ~PR Newswire

HOUSTON (FEB. 22) PR NEWSWIRE - Quanex Corporation (NYSE: NX) today reported net earnings of $3.9 million, or 25 cents per common share, for the first quarter ended Jan. 31, 1990. This compares to net earnings of $7.2 million, or 52 cents per primary common share, in the first quarter of fiscal 1989. The $3.3 million decline in net earnings was primarily due to lower operating earnings and higher interest expense.

Operating earnings were reduced by the strike at Michigan Seamless Tube (MST) and a normal seasonal decline in first quarter business activity, which were partially offset by the operating earnings from Nichols Homeshield which were not in results for the first quarter of 1989. Interest expense was $1.5 million higher primarily because of debt used to acquire Nichols-Homeshield (NH) in August 1989.

Carl E. Pfeiffer, chairman and chief executive officer said, "In spite of a soft economy and cutbacks in the production of autos and heavy trucks, steel bar operating earnings were $8.7 million for the quarter, just under the $8.9 million earned in the same quarter of last year when the economy was much stronger. The MacSteel plants are currently running at full capacity and are experiencing strong demand in their markets."

Pfeiffer continued, "As we announced on Feb. 19, the union members of the Progressive Steelworkers of Hammond (Indiana) at LaSalle Steel voted against the company's proposed contract and the union is on strike. The union employees at LaSalle already have the highest wage and benefit package in the cold finished bar industry, and the offer they rejected was

higher than any of the known settlements of our competitors. Our proposal asked for no concessions and offered increases in both wages and pension benefits. We hope to resolve this matter as soon as possible."

Pfeiffer said, "This quarter NH contributed its first full quarter of results since we acquired it. NH's first quarter earnings are normally the lowest of the year because winter weather reduces building and home remodeling activities. However, their operating results did exceed our plan primarily because of better than expected margins."

"Most of the decline in first quarter operating earnings resulted from the strike at MST which ran through November and ended in early December 1989. Our earlier estimates indicated the MST strike directly reduced earnings about 10 cents per primary common share for each month of the strike's duration. The strike also had a carryover effect that hurt our market position for the rest of December and most of January. We estimate the direct and indirect impact totaled more than 20 cents per share for this first quarter," Pfeiffer said.

In other business, Pfeiffer said that the Quanex board of directors declared a regular quarterly dividend of 10 cents per share of Quanex common stock and it declared a quarterly dividend of 57 cents per share of depositary convertible exchangeable preferred stock. The common and preferred dividends are payable April 2, 1990, to shareholders of record on March 19.

Quanex is a technological leader in the manufacture of specialty metals including steel, aluminum and titanium products for transportation, capital equipment, home building and remodeling and energy processing markets.

SEATTLE (FEB. 22) PR NEWSWIRE - Thai Airways International Ltd. yesterday took delivery of its first advanced-technology Boeing 747-400, Boeing Commercial Airplane Group announced.

Air Chief Marshal Weera Kitchathorn, president of Thai Airways International, accepted the new airliner from Richard R. Albrecht, Boeing Commercial Airplane Group executive vice president, in a delivery ceremony at the Museum of Flight in Seattle. Also on hand were a number of ranking officials from the airline and the Thai government.

Powered by four General Electric engines, the airline's -400 will carry 405 passengers on international flights. This is the first of three 747-400s scheduled to be delivered to the airline by early 1991.

Celebrating its 30th anniversary this year, Thai Airways International has received 14 Boeing jetliners since 1977. Thailand's national carrier is the fastest growing airline in Southeast Asia, serving 72 cities in Asia, Europe, North America, Australia, New Zealand and the Middle East. It operates a fleet of 49 aircraft and has just opened a wide-body airliner maintenance center in Bangkok. The airline also is waiting delivery of seven 737-400s, the first of which will be completed this year.

With this delivery, Thai Airways International becomes the 16th airline to operate a 747-400. Fifty-one 747-400s have now been accepted since the first of the new model was delivered at the Everett assembly facility on Jan. 26, 1989. Firm orders for the 747 family total 981, of which 259 are for the 747-400.

#90053p0467 02/22/1990 ~PR Newswire

COLUMBUS, OH (FEB. 22) PR NEWSWIRE - The board of directors of Huntington Bancshares Incorporated (NASDAQ/NMS: HBAN) yesterday declared a first quarter dividend of $.185 per common share payable April 2, 1990 to shareholders of record on March 12, 1990.

The board also adopted a shareholder rights plan. The plan is designed to provide fair and equal treatment for all shareholders in the event of an attempted takeover of the company.

"Huntington has a history of providing a solid return to its investors," said Frank Wobst, chairman and chief executive officer of Huntington Bancshares. "The rights plan will help the board ensure that all of Huntington's shareholders realize the long-term value of their investment in the company."

The plan is designed to enhance the company's ability to protect shareholders against abusive acquisition tactics and to respond to any situation that might arise. The company is not aware of any effort on the part of any person or other company to acquire control of Huntington.

The plan provides for the distribution of one preferred stock purchase right as a dividend for each share of common stock. Each right entitles the shareholder to buy one one-hundredth of a share of a new series of preferred stock for $90. Each one one-hundredth of a share of preferred stock is intended to be the practical economic equivalent of a share of common stock. The rights may be exercised only if a person or group acquires 20 percent or more, or announces a tender offer that would result in ownership of 20 percent or more, of the common stock. In general, Huntington may redeem the rights at $.01 each at any time before a buyer

acquires 20 percent of the common stock.

Under certain circumstances, including the acquisition of 20 percent of the common stock, all rights holders except the acquiror may purchase Huntington preferred stock having a value of twice the exercise price of the rights. If Huntington is acquired in a merger after the acquisition of 20 percent of the common stock, rights holders except the acquiror may purchase the acquiror's shares at a similar discount.

The rights will be distributed to shareholders of record at April 24 and will be represented by existing certificates for common shares. Additional information concerning the rights will be mailed to shareholders.

Huntington Bancshares is an $11.7 billion regional bank holding company headquartered in Columbus, Ohio.

NEW YORK (FEB. 22) PR NEWSWIRE - Woolworth Corporation (NYSE: Z) today announced the promotion of Sandra Emde to executive vice president and general merchandise manager of Holtzman's Little Folk Shop, Inc., a 435-store Woolworth subsidiary selling brand-name infant's and children's apparel. Emde previously served as senior vice president and general merchandise manager of Little Folk. She succeeds Robert F. Butler, who, as previously announced, has been named president and chief executive officer of Little Folk.

In her new position, Emde, who will report to Butler, will be responsible for all merchandising, advertising, planning and distribution for Little Folk, whose stores operate under the names of Kids Mart and Little Folk Shop in 21 states, principally in the West, Southwest and Midwest. Little Folk is headquartered in City of Industry, Calif.

Woolworth announced at the same time that Diane Tarrango and Peggy Cornett have each been promoted to vice president and divisional merchandise manager of Little Folk, to assume Emde's prior responsibilities.

In his new position, Butler succeeds Ronald J. Berens who was elected last fall as senior vice president of Woolworth Corporation in charge of its newly formed U.S. Apparel Group.

Emde, 41, has been associated with Little Folk since November 1981 in various buying and merchandising positions, and she has been a member of Little Folk's board of directors since January 1988. Prior to joining

Little Folk, Emde was employed by Los Angeles-based Broadway Department Stores in various buying and merchandising positions.

Emde, who resides in Los Angeles, received a bachelor of arts from the University of California at Santa Barbara in 1971. In 1975, she received a professional designation in retail management from the University of California at Los Angeles.

TULSA, OK (FEB. 22) PR NEWSWIRE - Hinderliter Industries Inc. (AMEX: HND) announced today that it has received regulatory approval from the Securities and Exchange Commission to offer 14.75 percent Convertible Subordinated Debentures due 2000. The company is offering through its selling agent, Great American Securities Inc., a minimum of $5 million aggregate principal amount of Debentures up to a maximum of $7,500,000 aggregate principal amount of Debentures. The Debentures have been preapproved for listing on the American Stock Exchange, subject to their issuance.

The Debentures will bear interest at the rate of 14.75 percent per annum, interest payable quarterly and mature on April 30, 2000. Each Debenture will be convertible at the option of the Debentureholder at any time on or prior to maturity or redemption, into Common Stock of the company at the conversion rate of one share of Common Stock for each $5 principal amount of Debentures surrendered for conversion. The Debentures are redeemable, in whole or in part, at the option of the company, at a premium during the first seven years and at par thereafter, plus accrued interest to the redemption date.

The Debentures will be unsecured and subordinated to the company's senior indebtedness.

The offering will terminate on June 13, 1990, unless the minimum of $5 million principal amount of Debentures is sold prior thereto, in which event the selling agent may elect to extend the offering period an additional 30 days. The offering will only be made by means of a written Prospectus, a copy of which may be obtained from the selling agent, Great American Securities Inc., located at 699 Hampshire Road, Suite 101, Westlake Village, Calif. 91361 or from the company at its principal executive offices in Tulsa.

The company, through its 83 percent owned subsidiary, Corken International Corp. (NASDAQ: CORK), headquartered in Tulsa, is a leading worldwide supplier of component parts for the transfer of alternative fuels and

other volatile liquids and gases such as liquified petroleum gas (LPG) and compressed natural gas (CNG). Hinderliter's Common Stock is listed on the American Stock Exchange (AMEX: HND) while its Preferred Stock and Warrants are quoted NASDAQ (NASDAQ: HNDIP and HNDIZ, respectively).

#90053p0487 02/22/1990 ~PR Newswire

CHICAGO (FEB. 22) PR NEWSWIRE - The NutraSweet Co. today introduced Simple Pleasures(R) frozen dairy dessert, an ice-cream-like product and the first of many to contain Simplesse(R) all natural fat substitute. The announcement follows FDA affirmation that Simplesse all natural fat substitute is "generally recognized as safe" (GRAS) for use in frozen desserts.

Simplesse will be marketed as a branded ingredient, the same strategy that helped make the company's NutraSweet(R) brand sweetener a household word.

Simple Pleasures is the first of a wide variety of products that can be made with Simplesse. Other traditionally high-fat foods in which Simplesse can be used to replace fat include products like salad dressings mayonnaise, yogurt, sour cream, dips, margarine, butter, cheese and cheese spreads.

Today, the company also unveiled its new logo, which will identify all products made with Simplesse. The red and blue logo will be displayed on all packages and in product advertising to help consumers identify products that taste as rich and creamy as their high-fat counterparts but are made with all natural Simplesse instead of fat. To the consumer, the logo will signify great-tasting products that are fat- free or low in fat with substantially reduced calories and cholesterol.

Simple Pleasures, the first product to bear the Simplesse logo, is entering the large and growing frozen dessert category. According to the International Ice Cream Association (Latest Scoop, 1989), more than 1.4 billion gallons of ice cream products were produced last year in the United States. Total category sales reached $9 billion in 1988, with superpremium and premium ice creams representing about 64 percent of total

production (or 40 percent of total packaged ice cream dollar sales). Simple Pleasures will be positioned as a healthful, great- tasting alternative to these products.

After exploring a variety of options for marketing the first product made with Simplesse, The NutraSweet Co. will produce and market Simple Pleasures under a newly formed subsidiary, The Simplesse Co. "We believe Simple Pleasures represents an outstanding opportunity for the company to meet consumer needs by providing better food choices through innovation," said Morley. "And, by marketing the product ourselves, we can ensure rapid consumer availability and high quality control of the first product to be made with Simplesse all natural fat substitute."

Simple Pleasures, which will be sold in pints, will be rolling out nationally. Introductory Simple Pleasures flavors will include chocolate, strawberry, rum raisin, coffee, peach and toffee crunch. Over time, additional flavors will be added.

Because Simplesse is made from natural foods, regulatory authorities in West Germany, the United Kingdom, Switzerland, Japan, Belgium, the Netherlands and Luxembourg have also recognized Simplesse as a food that can be marketed immediately.

Simplesse and Simple Pleasures are products of The Simplesse Co., a subsidiary of The NutraSweet Co., headquartered in Deerfield, Ill. The NutraSweet Co. is a wholly owned subsidiary of Monsanto Co. (NYSE: MTC).

#90053p0489 02/22/1990 ~PR Newswire

WASHINGTON (FEB. 22) PR NEWSWIRE - British Aerospace, Inc. today announced the first firm order for the new Jetstream 41 regional airliner with a commitment from Pan Am Express for 10 of the aircraft with options on an additional 10.

The order also includes commitments for 10 Jetstream Super 31s with 10 options, deliveries of which will begin this month and be completed by the end of the year. Deliveries of the 29-seat Jetstream 41 will be made from February through December 1993.

The Jetstream 31/41 combination will be utilized by Pan Am Express to support the development of Pan Am's Miami hub. The order confirms Pan Am Express's November 1989 announcement of its intention to acquire the aircraft. Service with the first of the 19-seat Jetstream Super 31s will begin in May.

The Jetstream 31 is currently the largest selling regional airliner in its class, capturing more than 50 percent of its market in 1989. More than 270 of the aircraft are in service with 36 operators worldwide with over 220 of those in North America.

The Jetstream 41 is a new stretched version of the 31 introduced by British Aerospace last year with more seating and baggage capacity and enhanced passenger amenities.

Alan Hughes, senior vice president - marketing, pointed out the significance of the fleet order. "The order by Pan Am Express is a testament to the appeal of the Jetstream 31/41 combination. With an established market base for the J31, commonality of equipment, and a natural avenue for airline growth, we see tremendous opportunities for the Jetstream 41 and for additional combination fleet sales."

Bill Lange, president and chief operating officer of Pan Am Express, noted the importance of the aircraft order. "We are very excited by our entry into Florida which will further strengthen Pan Am's commitment to Miami. The two aircraft will play a vital role in providing us with flexibility while giving our customers the benefits of enhanced air service."

NEW YORK (FEB. 22) PR NEWSWIRE - McGraw-Hill, Inc. (NYSE: MHP), today announced that it completed the acquisition of all the outstanding shares of J.J. Kenny Co., Inc., a provider of information and portfolio evaluations and brokerage services for the municipal securities market. The agreement to purchase J.J. Kenny for an undisclosed cash sum was signed on Nov. 22, 1989.

Kenny operates through two principal businesses: Kenny Information Systems Inc. (KIS), the industry leader in providing municipal securities information, and J.J. Kenny Drake, Inc., a brokerage firm servicing registered dealers and dealer banks in the purchase and sale of municipal securities.

J.J. Kenny Co., Inc., will operate as a separate market focus group under the direction of J. Kevin Kenny, president, J.J. Kenny Co., who reports to Harold W. McGraw III, executive vice president of McGraw- Hill, Inc.

McGraw-Hill, Inc., headquartered in New York, is one of the world's leading publishing and information services companies. The company, which celebrated its 100th anniversary in 1988, provides information in print,

on line, and over the air. Sales for 1989 were $1.67 billion.

#90053p0497 02/22/1990 ~PR Newswire

LAKE SUCCESS, NY (FEB. 22) PR NEWSWIRE - Alleging unfair competition and the misuse of trade secrets, the Independent Election Corporation of America (IECA), a small, privately held company specializing in the distribution of proxy materials and the tabulation of shareholder votes, has filed suit against Automatic Data Processing, Inc. in New York State Supreme Court in Mineola, N.Y., seeking $100 million and triple damages.

Co-defendants in the suit are two former IECA executives now employed by ADP and who, according to the suit, violated their confidentiality agreements with IECA.

IECA, which serves a unique niche in the brokerage services industry, said that the two former executives who were closely involved with the development of IECA's proprietary system breached their confidentiality agreements with IECA by providing information about the system to ADP.

One of the former IECA employees is currently an executive with the brokerage information service group (BISG) of ADP, and the other serves as a consultant to BISG.

ADP, a $1.5 billion company, has provided essential services to IECA for 14 years. As IECA's principal supplier of essential services, ADP was intimately familiar with IECA's operations, customers and personnel.

"This is a 'David versus Goliath' situation, where the giant ADP, the dominant factor in the brokerage processing industry, is now getting into the shareholder communications services niche served by the much smaller IECA. IECA's complaint alleges that ADP didn't try to develop its own systems but collaborated wtih former IECA executives who violated their confidentiality agreements, and used IECA trade secrets," said Thomas A. Butler of the law firm of Butler, Fitzgerald & Potter, attorneys for IECA.

Butler also noted that a subsequent suit filed by ADP against IECA in U.S. District Court, Eastern District of New York, is a "diversionary tactic" designed to draw attention away from the real issues, and "has nothing to do with the true merits of the IECA case."

Founded in 1976, IECA provides shareholder communications, serving the needs of brokerage firms and banks. Its primary role is the distribution of proxy materials and the tabulation of shareholder votes.

NEW YORK (FEB. 22) PR NEWSWIRE - Pan American World Airways is offering free helicopter transfers to First and Clipper Class passengers between Manhattan and John F. Kennedy International Airport.

The service, in conjunction with New York Helicopter, will be operated between the 34th Street Heliport and Kennedy Airport for all full-fare First and Clipper Class passengers traveling on Pan Am transcontinental, transatlantic and South American flights.

"The addition of this service is in line with Pan Am's recent $200 million investment in product service enhancement," said Peter McHugh, senior vice president-marketing at Pan Am. "Traveling to the airport should be considered part of the total travel experience, and the convenience of helicopter transfers is indicative of Pan Am's commitment to the highest level of customer service in all areas."

Upon arrival at Kennedy, passengers will be taken by van directly to Pan Am's First Class Terminal for convenient flight check-in. The ride between the heliport and the terminal takes approximately 10-15 minutes, with flights operating every half hour during the afternoon and evening peak hours.

Passengers arriving on any of the aforementioned Pan Am flights will see signs directing them to the New York Helicopter desk located in Baggage Claim Area C, where agents will arrange for them to be transferred to the helicopter for the flight back to Manhattan. These flights also will operate every half hour during the peak hours.

In the event of a cancellation, New York Helicopter will provide limousine service between the two locations.

Pan Am will continue to operate its own complimentary limousine service between the 60th Street Heliport and Pan Am's WorldPort at Kennedy for First and Clipper Class passengers traveling on Pan Am transcontinental, transatlantic and South American flights.

Helicopter reservations must be made and tickets issued prior to the beginning of travel.

#90053p0508 02/22/1990 ~PR Newswire

TORONTO (FEB. 22) PR NEWSWIRE - Bramalea Limited today announced that for the three months ended Jan. 31, 1990, cash flow rose 11 percent to $44.9 million, compared with $40.3 million for the same period a year earlier. On a per common share basis, cash flow was 61 cents for the first quarter of 1990 compared with 59 cents in the corresponding three months of 1989.

Earnings for the first quarter increased to $19 million, up from $18.1 million for the first quarter of 1989. This translates into earnings per common share of 25 cents.

Revenues totaled $249 million, compared with $284 million for the corresponding period in 1989.

Cash flow and earnings, per common share, are calculated after providing for preference share dividend requirements and are based on the weighted average number of common shares outstanding during each period (1990 - 71.7 million; 1989 - 66.9 million).

Book value assets totaled $5.6 billion on Jan. 31, 1990, compared with $4.7 billion on the same date in 1989. The increase in assets is a result of the completion of new commercial developments, the acquisition and development of office, retail and industrial projects, and the purchase of land for residential and commercial development.

Bramalea Limited ranks among the top property developers and landlords in North America. A substantial portion of the company's cash flow and earnings are derived from office properties, shopping centers, hotels, business parks and residential rental properties -- containing a total area of 40 million square feet. While the development and management of its income-producing properties is a significant focus of corporate activities, Bramalea is also actively involved in home building and community development, with major projects in Ontario and southern California.

TULSA, OK (FEB. 22) PR NEWSWIRE - Hinderliter Industries Inc. (AMEX: HND) through its 83 percent owned subsidiary, Corken International Corp. (NASDAQ: CORK), a leading worldwide supplier of component parts for the transfer of alternative fuels and other volatile liquids and gases such as LPG, propane, and compressed natural gas, headquartered in Tulsa, today announced net income from continuing operations of $42,000 or 1 cent per share on revenues of $6,313,000 for the six months ended Dec. 31, 1989. This compares with a loss from continuing operations of $302,000 or 8 cents per share on revenues of $5,525,000 for the like period last year.

After giving effect to accrued dividend on the company's Preferred Stock, tax adjustments, and the effect of discontinued operations, the company reported a loss of $207,000, or 6 cents per common share. This compares with a gain of $371,000, or 10 cents per share for the six months ended Dec. 31, 1988.

#90053p0514 02/22/1990 ~PR Newswire

TORONTO (FEB. 22) PR NEWSWIRE - Bramalea Limited is well-positioned for continued growth in slower markets, the annual meeting of shareholders was told today, by Benjamin Swirsky, the company's president and chief executive officer. In particular, Swirsky focused on Bramalea's diversification -- as a developer of income properties as well as housing -- as one of the company's major strengths in maintaining orderly and sustainable growth.

Swirsky explained that Bramalea has two core businesses which allowed the company to withstand some of the vagaries of economic downturns. According to Swirsky, "The profits and cash flow generated by housing have historically helped to fund the development of our income property

portfolio."

Another factor in the company's continuing success is its attention to risk management. Swirsky reiterated that Bramalea does not begin construction of an income property unless it has a substantial amount of pre-leasing in pace and is convinced that a project makes financial sense as a long-term investment. This prudent approach also applies to Bramalea's housing operations. All single-family projects are pre-sold before any construction begins and in the case of condominiums, Bramalea pre-sells 40-50 percent of a project before committing to construction.

Bramalea Limited currently has development plans for the first half of the 1990s that will produce more than 12 million square feet of new leasable space -- representing a 30 percent expansion in the size of the company's existing income-property portfolio, and at the same time doubling the size of its Canadian office properties portfolio.

The renovation and expansion of the company's shopping centers will account for approximately two million square feet of this growth. Over the past few years Bramalea has renovated and revitalized centers across Canada, including Yorkdale Shopping Centre and Scarborough Town Centre in Toronto, Bramalea City Centre in Brampton, Carlingwood Mall in Ottawa, Marlborough Mall in Calgary, and Brentwood Mall in Vancouver.

Bramalea Limited ranks among the top property developers and landlords in North America. The company's income-property portfolio contains 40 million square feet of leased space in approximately 150 office, retail, multi-use, industrial, residential and hotel properties. These properties represent 70 percent of corporate assets, which have a total book value exceeding $5.6 billion. Bramalea's successful housing organizations design, build and market homes in Ontario and California.

DEER PARK, NY (FEB. 22) PR NEWSWIRE - Biomechanics Corporation of America (NASDAQ: BCAM) and Steelcase Inc. have signed a three-year agreement for Biomechanics to supply its ergonomic technologies to the design, manufacture and marketing of Steelcase's office furniture systems, it was announced today. Steelcase is the largest designer and manufacturer of office furniture systems in the United States.

Using biomechanics -- the integration of engineering and medical science -- Biomechanics Corporation will evaluate Steelcase's existing and conceptual office furniture, workstations and seating systems, develop new

design concepts for improving suitability of office furniture, workstations and seating to end-user needs and provide office ergonomics training for Steelcase's staff and its customers.

Biomechanics Corporation of America (BCA), headquartered in Deer Park, combines engineering and medical technologies to develop ergonomic solutions for improved productivity, injury prevention and optimal design of products, workplaces and tools. The company's customers include General Motors, Procter & Gamble, Du Pont, Grumman and Union Carbide, among others. BCA successfully completed an initial public offering on Jan. 17, 1990.

#90053p0519 02/22/1990 ~PR Newswire

DALLAS (FEB. 22) PR NEWSWIRE - Southmark Corporation (NYSE: SM) today reported results for the first quarter of fiscal 1990.

For the three months ended Sept. 30, 1989, net loss was $56.8 million, compared with net income of $1.1 million for the first quarter of fiscal 1989. The prior year's results included a $26.4 million after-tax gain from the early retirement of debt. Revenues for the 1990 quarter totaled $267.0 million, vs. $560.8 million a year earlier.

The first quarter loss was attributable to a combination of factors, including reduced real estate sales; reduced revenue from management fees and lease payments from rental properties as a result of sales and foreclosures; and reduced interest income.

These revenue reductions were partially offset by reductions in general and administrative expenses due to reductions in staff and consolidations of business operations, as well as the benefit derived from the non-accrual of $31 million of interest on Southmark's unsecured indebtedness during its bankruptcy proceeding. Southmark also incurred costs associated with its reorganization activities, including increased financial advisory, accounting and legal expenses arising from Southmark's bankruptcy proceeding.

As previously reported, in mid-January Southmark filed a Plan of Reorganization with the United States Bankruptcy Court for the Northern District of Texas. The Plan calls for the liquidation of most of the company's assets, except for its wholly owned thrift San Jacinto Savings Association. Southmark is currently in discussions with its creditors and other interested parties to explain the benefits of the Plan and to enlist support for rapid completion of the bankruptcy process.

Southmark, headquartered in Dallas, is a real estate and financial services company operating under Chapter 11 of the U.S. Bankruptcy Code.

NEW YORK (FEB. 22) PR NEWSWIRE - Maurits E. Edersheim, former deputy chairman of the board of Drexel Burnham Lambert Incorporated, has joined Smith Barney Harris Upham International Incorporated, it was announced today by Frank G. Zarb, Smith Barney's chairman and chief executive officer.

Edersheim, who had been with Drexel and its predecessor firms since 1950, founded Burnham and Company's foreign department. He and a group of 20 associates also joining Smith Barney manage three offshore and two domestic mutual funds, as well as a substantial number of individual investor accounts.

"We are extremely pleased that Maurits has joined us, bringing his considerable expertise and experience to an area that is a large part of our plans for the 1990s," said Zarb. "The international arena is one in which we plan to expand substantially in the new decade." Smith Barney currently operates out of nine offices in Europe, the Mideast and Japan, and 96 U.S. offices.

Edersheim and his associates currently manage three offshore funds: The Worldwide Special Fund, The Worldwide Securities Fund, and Winchester Reserves Ltd., with a combined value in excess of $200 million; and the Fenimore Equity Series Fund and the Fenimore Income Series Fund, with a combined value in excess of $60 million. The funds will be managed under (the auspices of) Smith Barney.

Edersheim was born and educated in Holland, where his family had been in the banking business for many years. He later attended L'Ecole des Sciences Politiques in Paris. To further his knowledge of the banking business, he came to the United States just before the outbreak of World War II as a trainee. The war prevented his return to Holland, and in 1942 he joined the U.S. Army, first in an armored division, then later as a member of the Office of Strategic Services, where he was in charge of political intelligence in Holland.

He is a member of the advisory committee on international capital markets of the New York Stock Exchange; a director of the Banque Internationale a Luxembourg, the FGH Realty Credit Corp., Sefinco, the Netherlands America Foundation, and the Netherlands Chamber of Commerce. He is also an

advisory director of the I.A.M. Flagship Fund. Edersheim was decorated by the queen of the Netherlands for his services to the Dutch government. He and his wife reside in New York City.

Smith Barney is a wholly owned subsidiary of Primerica Corporation (NYSE: PA), the diversified financial services company, with assets of approximately $18 billion.

#90053p0527 02/22/1990 ~PR Newswire

PALO ALTO, CA (FEB. 22) PR NEWSWIRE - Syntex Corporation (NYSE: SYN) today reported that earnings per share in the fiscal 1990 second quarter, which ended Jan. 31, 1990, decreased 12 percent to $.64, compared with $.73 in the second quarter a year ago. Sales increased 4 percent to $342.7 million, up from $330.9 million in the year ago quarter.

SECOND QUARTER RESULTS
($ in millions except per-share data)

	2Q FY90	2Q FY89	Percent Change
Net Sales	$342.7	$330.9	+4
Operating Income	$ 76.0	$86.5	-12
Net Income	$ 72.0	$83.5	-14
Earnings Per Share	$.64	$.73	-12

The decrease in earnings was primarily due to significant investments in marketing to support the company's human pharmaceutical products, higher research expenses, and a lower tax rate in the second quarter a year ago. Results also reflected a decrease in United States pharmaceutical sales in the fiscal 1990 second quarter, following a particularly strong first quarter in which wholesalers built inventories in anticipation of price increases that went into effect in October 1989.

For the first six months of fiscal 1990, earnings per share increased 2 percent to $1.57, compared with $1.54 in the first half of 1989. Sales were up 8 percent to $733.4 million and net income decreased 1 percent to $175.7 million from the year-earlier period. Net income and earnings per share changed at different rates due to the repurchase of shares of the company's common stock in fiscal 1989. These repurchases have not had a material impact on net income or earnings per share.

#90053p0529 02/22/1990 ~PR Newswire
BALTIMORE (FEB. 22) PR NEWSWIRE - Crown Central Petroleum Corp. (AMEX: CNP) today announced net income for 1989 of $21 million ($2.09 per share), compared to net income of $38.4 million ($3.83 per share) for 1988.

Sales and operating revenues were $1.4 billion in 1989, compared to $1.15 billion in 1988. For the fourth quarter of 1989, the company reported net income of $3.1 million ($.32 per share), compared to net income of $8.8 million ($.88 per share) in the third quarter of 1989 and net income of $15.5 million ($1.54 per share) in the fourth quarter of 1988.

Henry A. Rosenberg Jr., chairman of the board, said while the results were lower than 1988's near-record highs, they represented solid growth and performance. "The substantial increase in revenues was due principally to the acquisition in October 1989 of the La Gloria Oil and Gas Company from Texas Eastern Corporation," Rosenberg said. "The decrease in earnings was due to significantly lower refining margins for the fourth quarter and for the year, reflecting the failure of product prices to increase at the same rate as prices for crude oil. Our 1989 statements also reflect a reserve for future environmental expenses of approximately $5 million, of which $1.5 million was recorded in the fourth quarter." Rosenberg noted that refining margins, which had improved in January over the fourth quarter of 1989, have slipped considerably in February as the result of sharply lower product prices.

"Crown continues in a very strong financial position," Rosenberg added. "The $109.7 million La Gloria acquisition was funded from available cash and approximately $40 million in borrowings under the company's existing credit agreement. At year-end our long-term debt was only slightly more than our cash reserve and short-term investments. This positions us to consider other growth opportunities in the future."

MINNEAPOLIS, (FEB. 22) PR NEWSWIRE - Final results for the quarter ended Jan. 31, 1990 (the company's first fiscal quarter) were announced by ADC Telecommunications Inc. (NASDAQ: ADCT), today. Those results, compared to first quarter 1989, were as follows:

	1/31/90	1/31/89	Percent Increase
Orders	$62,502,000	$38,058,000	64.2
Net sales	62,043,000	41,595,000	49.2
Net income	$5,823,000	$3,116,000	86.9
EPS	$.44	$.24	83.3

"Our very strong first quarter 1990 results reflect significant contributions from Kentrox Industries Inc., which was acquired on July 1, 1989, a favorable sales mix of ADC products, and factory efficiencies achieved as a result of the high sales volume during the quarter," said Charles M. Denny, Jr., chairman and CEO.

ADC Telecommunications Inc., designs, manufactures and markets a wide variety of electronic and electromechanical circuit management devices used by telephone companies and in large private telecommunications networks.

Net sales for the quarters ended Jan. 31, 1990 and 1989, classified by product group, detailed statements of income for the quarters ended Jan. 31, 1990 and 1989, and balance sheets as of Jan. 31, 1990, and Oct. 31, 1989, follow.

#90053p0535 02/22/1990 ~PR Newswire

BOSTON (FEB. 22) PR NEWSWIRE - As a result of the previously announced addition to the corporation's allowance for credit losses and other real estate owned, Bank of New England Corporation (NYSE: NEB) has reported a net loss of $1.11 billion for 1989, or $16.11 per share, compared with net income of $281.7 million, or $4.06 per share, in 1988. After a 1989 provision for possible loan losses of $1.61 billion and net charge-offs of $417.5 million, the year-end allowance for credit losses was $1.52 billion or 6.39 percent of total loans and leases outstanding and 79 percent of nonaccrual and renegotiated loans. Additionally, a charge of $96.4 million in the "income (loss) from asset sales" category was taken during 1989 to establish a reserve for possible write-downs on assets acquired in foreclosure amounting to 25 percent of the $385.4 million in this category at year end. Total nonperforming assets were $2.30 billion, or 9.50 percent of loans and leases plus assets acquired in foreclosure at Dec. 31.

Year-end loans and leases decreased 5 percent to $23.81 billion, and year-end deposits grew 4 percent to $25.53 billion. Net interest income for 1989 was $981 million. The net interest margin was 3.49 percent for the year, compared with 4.14 percent a year earlier. Noninterest income was $308 million, down 26 percent from 1988. Securities gains totaled $24.9 million for the year, and foreign exchange profits were $37.8 million. Noninterest expenses were $1.02 billion, up 6 percent over 1988, or 4 percent excluding the writeoff of goodwill at one subsidiary.

The company is not reporting separately the results of operations for the fourth quarter of 1989, as it is in the process of reviewing the provision for loan losses to determine how its should be allocated among the 1989 quarters.

As of Feb. 15, 1990, assets were approximately $26.1 billion, a decline of

$3.7 billion since year end. The lower level of assets reflects progress in the company's announced plan to reduce assets, including sales of approximately $650 million in credit card receivables to Citicorp, $450 million in leasing assets of McCullagh Leasing to GE Capital, and $275 million in commercial loans. Short-term investments also declined by approximately $1.4 billion.

Bank of New England Corporation is a regional bank holding company with banking affiliates in four New England states and assets of $26 billion. The company's common stock is listed on the New York Stock Exchange and traded under the symbol NEB.

ARLINGTON, TX (FEB. 22) PR NEWSWIRE - BizMart Inc., (NASDAQ: BZMT) one of the nation's fastest-growing office products superstore retailers, today reported it has reached profitability only 20 months after opening its first superstore. Substantial sales gains in the company's 27 stores and effective cost controls were the prime contributors to results for the fiscal 1990 third quarter ended Jan. 27.

Sales for the third quarter jumped 236.6 percent to $38.8 million from $11.6 million for the like period a year ago. Net earnings were $435,000 or 5 cents per share, compared with a net loss of $692,000 or 11 cents per share for the third quarter of fiscal 1989.

For the nine months of fiscal 1990, BizMart's sales increased almost five-fold to $87.7 million from $18.7 million the prior year's nine months. The company reduced its net loss to $1.7 million or 20 cents per share from a net loss of $3.1 million or 66 cents per share for the first nine months of fiscal 1989.

"BizMart became profitable in the third quarter well ahead of most investors' expectations primarily because of our extremely strong sales growth this year," said Ron Stegall, president and chief executive officer of BizMart. "In addition, expenses continued to decline dramatically as a percent of sales at both the store and corporate levels.

"While we focus much of our attention on store expansion and sales growth, we have continued to place strong emphasis on expense controls at all levels of the company," said Stegall. "As a result, store operating and selling expenses as a percent of sales dropped to the lowest level in BizMart's history in the third quarter, and corporate G&A expenses were

well in line.

BizMart Inc., operates a chain of high-volume office products superstores in Texas, Missouri, Kansas, Colorado, New Mexico, Arizona, Utah and Nevada. Over 7,000 brand-name, high-quality products are sold to small and large businesses at everyday low prices that are discounted 40 to 60 percent from manufacturers' suggested retail prices.

#90053p0548 02/22/1990 ~PR Newswire

HOUSTON (FEB. 22) PR NEWSWIRE - Eastex Energy Inc. (NASDAQ: ETEX) today announced the private placement of $5 million of the company's 12 percent, 10-year secured notes. In addition to the 12 percent coupon, the notes will pay an additional interest factor in an amount up to 1.5 percent per annum based on the storage activities at the company's Rotherwood Natural Gas Storage and Interchange Facility located in Harris County, Texas. The lenders also purchased warrants to acquire 650,000 shares of the company's common stock (representing approximately 11.6 percent of the total when fully exercised) at an exercise price of $2 per share. Proceeds will be used to retire approximately $1.9 million of debt and to expand the development of Rotherwood. The notes are secured by a mortgage on the Rotherwood facility.

Eastex's Chairman and Chief Executive Officer, Robert G. Phillips, said, "The sale of the notes represents a significant milestone in the history of the company and recognition of the underlying value of the company's Rotherwood gas storage facility. Eastex management has for several years recognized the need to move into asset based businesses complementary to its gas marketing and gas gathering businesses, and the Rotherwood gas storage facility is an important move in that direction."

Lovett Underwood Neuhaus & Webb acted as financial advisor and exclusive placement agent for the company. Resource Investment Management Co. (RIMCO) represented the purchasers.

Eastex Energy Inc. is involved in the storage, marketing and transportation of natural gas.

MALVERN, PA. (FEB. 22) PR NEWSWIRE - Tocor Inc. (NASDAQ: TOCRZ) today reported 1989 results of operations.

Tocor was founded to initiate development programs directed toward the

search for therapeutic products for use in the treatment of rheumatoid arthritis, multiple sclerosis and systemic lupus erythematosus. Tocor commenced operations in July 1989, and in August 1989, Tocor and Centocor Inc. (NASDAQ: CNTO), completed a public offering of 2,875,000 units, each unit consisting of one share of Tocor Callable common stock and one warrant to purchase one share of Centocor common stock. Tocor has a contract with Centocor to perform all of its development activities and the proceeds from the public offering are being used by Tocor to fund this contract.

Tocor reported research and development expenditures of $7,105,000, and a net loss of $6,516,000 or $2.32 per share, for the 10 months from inception to Dec. 31, 1989. For the fourth quarter of 1989, Tocor incurred a loss of $2,141,000 or $.74 per share.

"As indicated by the level of research and development expenditures in 1989, the Tocor development program is proceeding aggressively, and preliminary results are encouraging," said Hubert J.P. Schoemaker, vice chairman. "Our first product for the treatment of rheumatoid arthritis is already in clinical trials."

TOCOR INC.

CHARLOTTE, NC (FEB. 22) PR NEWSWIRE - Health Systems Group, a unit of American Express Information Services Co. and Tech:Time Inc., announced today that it has entered into a preferred vendor arrangement with Tech:Time Inc. of Sarasota, Fla.

Under terms of the agreement, Health Systems Group will utilize an automated system from Tech:Time to provide time and attendance, security, job costing and labor management applications for the group's hospital information system offerings.

Totally electronic data collection terminals and personal computer-based hospital-specific software serve as the main elements of the Tech:Time system. This system will be used in conjunction with Health Systems Group's SAINT and Host-Based Systems to provide hospital management with automatic access to payroll and labor management data.

SAINT is a comprehensive in-house system providing clinical and financial applications. Operating on Digital Equipment Corp. minicomputers, the system combines more than 38 integrated patient care and financial software modules to ensure the smooth flow of information throughout the hospital.

Health Systems Group's Host-Based Solution provides a cooperative processing environment, wherein healthcare institution's patient care and clinical applications are handled in-house, and financial applications are processed through the company's data center.

With over 200 healthcare clients nationwide, Tech:Time is a recognized leader in automated time and attendance systems for the hospital industry. The company manufactures electronic data collection terminals; designs, programs and support hospital-specific software modules; and provides custom interfaces to payroll and resources scheduling systems that are modified to reflect individual work rules. Other offerings include labor productivity, meal and pharmacy charging, and security access.

Based in Charlotte, N.C., Health Systems Group develops, installs and supports in-house and host-based information systems for the healthcare industry. The group employs 1,100 people nationwide and is part of American Express Information Services Co. (ISC), a leading provider of high-quality information processing and communications services to a variety of industries. ISC is a wholly owned operating unit of American Express Co.

TUSTIN, CA (FEB. 22.) PR NEWSWIRE - Luther Medical Products Inc. (NASDAQ: LUTH) announced today a second quarter fiscal 1990 loss of $187,875 on improved revenues of $588,961.

The loss for the period ended Dec. 31, 1989, compares with a loss of $149,166, on revenues of $463,532, for the second quarter of last fiscal year.

Luther's sales of its ProtectIV(tm) catheter product to Critikon Inc., a Johnson & Johnson company, amounted to $209,808 as compared to $114,630 for the second quarter last year. Ronald B. Luther, Luther Medical's chairman and president, said "While sales of Protect IV have grown, they have only scratched the surface of this product's market potential."

Luther's wholly owned subsidiary, Neuro Diagnostics Inc. (NDI) contributed revenues of $114,432, a decrease of 41 percent over the prior year's period. Luther indicated that the decrease is due to a change in NDI's product line and the delayed delivery of a $506,625 backorder to the Department of Defense, which is expected to be shipped by March 31, 1990. NDI's new series of EMG instruments (LEM-4) is expected to be available for sale in the third quarter of fiscal 1990.

Luther reported year-to-date revenues of $1,141,780 with a loss of $238,180 compared with $1,071,393 and a $113,201 loss for last year's six month period.

Luther Medical Products Inc. designs and manufactures unique catheters (its president holds more current patents involving catheter technology than any other individual in the world) including the stickless catheter created to minimize the risks of transmittable diseases to health caregivers.

HOUSTON (FEB. 22) PR NEWSWIRE - Service Corporation International (NYSE: SRV) announced today that it has entered into an agreement in principle with an industry group to purchase SCI's funeral supply division for $55 million in cash and $7.5 million principal amount of subordinated notes. The group is negotiating a financing proposal with a major financial institution to provide the financing.

SCI said that its funeral supply division is carried on its books at approximately $133 million, including approximately $62 million in intangible assets, and that for the year just ended the division incurred a small operating loss. Under the agreement in principle, in addition to the $62.5 million in cash and notes to be received, SCI will retain securities and other assets held by the division having a book value of

approximately $10 million.

Consummation of the transaction is subject to the execution of a definitive agreement, approval of the boards of directors of all parties, receipt by the buyer of the necessary financing and other customary conditions.

SCI is the largest owner and operator of funeral homes and cemeteries in North America. The company owns 560 funeral homes in the United States and Canada. It also owns and operates 130 cemeteries in North America. SCI's wholly owned subsidiary, Provident Services, Inc., serves the financial needs of the funeral industry. The company has assets in excess of $1.5 billion.

NEW YORK (FEB. 22) PR NEWSWIRE - Corroon & Black Company of New York, Inc., a wholly owned subsidiary of Corroon and Black Corporation (NYSE: CBL), announced today that James R. Watkins has been appointed senior vice president and production manager.

Watkins will be reporting directly to John J. Kelly, president and chief executive officer of Corroon & Black Company of New York, Inc. Watkins joined Corroon & Black in 1985 as vice president, human resources for the Brokerage Services Group. He assumed the position of senior vice president for the production and professional development division of the Group in 1988.

In making the announcement, Kelly said, "Our corporation has publicly announced an ambitious plan for the 1990s. Jim's background in training, development, and strategic planning, as well as his prior experience with a multinational corporation, will be a major contributing factor to the New York company meeting its objective of increasing our market share in the tristate area."

Prior to joining the firm, Watkins spent ten years with Trans World Airlines, Inc. in various positions. He received a B.S. in physics and mathematics from the University of California at Santa Barbara and an MBA from Loyola University of Chicago.

Corroon & Black Corporation, headquartered in New York City, is one of the world's largest full-service insurance intermediaries, providing insurance brokerage, risk management services, reinsurance brokerage, and employee benefits, compensation, and actuarial consulting to individuals, local

governments, professions, business, and industry. It has subsidiaries across the United States and affiliated offices throughout the world. The Corporation was founded in 1905 in New York City.

CHICAGO (FEB. 22) PR NEWSWIRE - John D. Nichols, chairman and CEO of Illinois Tool Works Inc. (NYSE: ITW), today announced that he received a letter late yesterday afternoon from Burke E. Roche, president and CEO of Binks Manufacturing Co. (AMEX: BIN), indicating that the board of directors of Binks will meet this weekend to consider the offer by Ransburg Corp., a wholly owned subsidiary of ITW. On February 20, Ransburg proposed a transaction in which each stockholder of Binks would receive $45 per share in cash or, if the Binks board prefers, in a combination of cash and ITW stock.

Nichols said that, encouraged by that response, Ransburg initiated further contact through its financial advisors, who told the financial advisors of Binks of their availability to provide any additional information or clarification regarding Ransburg's offer. Also, they assured Binks that representatives of Ransburg would be available to meet with representatives of Binks if so requested.

Nichols emphasized Ransburg's continued willingness to negotiate with Binks in order to achieve the objective of entering into a negotiated transaction which would benefit all parties.

JACKSONVILLE, FL (FEB. 22) PR NEWSWIRE - Billy J. Walker, First Union National Bank of Florida's chairman and chief executive officer, announced that Byron E. Hodnett will become CEO of the Florida bank and of First Union Corporation of Florida in March 1991.

Walker will continue to serve as chairman of First Union National Bank and First Union Corporation of Florida. He will also remain vice chairman and a member of the board of directors of First Union Corporation (NYSE: FTU), the Charlotte, N.C.-based holding company for the five-state banking organization. Hodnett has served since 1987 as president of First Union National Bank of Florida and will retain that title.

Walker was president and CEO of Atlantic Bancorporation prior to First Union's 1985 merger with the $3.8 billion asset bank holding company based in Jacksonville, Fla.

He joined Atlantic in 1948 and held a variety of managerial positions before being named president and CEO of the bank in 1974 and president and CEO of Atlantic Bancorporation in 1976.

Walker attended Jacksonville University and graduated from the Advanced Management Program, Harvard Business School at Harvard University and the School of Banking of the South at Louisiana State University. He served in the Finance Corps of the U.S. Army during the Korean War.

Hodnett joined First Union National Bank of North Carolina in 1972 and held a variety of management positions. He also served as executive vice president of Northwestern Financial Corporation from 1982-85, when Northwestern merged with First Union. He was named executive vice president of First Union's General Banking Group in 1986 and was named president of the Florida Bank in 1987.

Hodnett earned a bachelor's degree in industrial engineering from Georgia Institute of Technology and a master's degree in business administration from the University of North Carolina at Charlotte.

First Union National Bank of Florida, headquartered in Jacksonville, has assets of $17.1 billion and 393 branches in 33 counties. It is a subsidiary of Charlotte, N.C.-based First Union Corportion. Following its Jan. 29, 1990 merger with Florida National Banks of Florida, Inc. (NASDAQ: FNBF), First Union has assets of approximately $40 billion.

PITTSBURGH (FEB. 22) PR NEWSWIRE - Copperweld Corp. (NYSE: COS) announced today that it is raising base prices $.05/pound on all copper clad aluminum wire.

The base price increase will go into effect on April 1, 1990, with all shipments. The increase is needed to cover higher costs which include raw material fabrication increases, wages increases and utility increases.

The base price for copper clad aluminum has declined sharply since the early 1980s. Copper and aluminum content will continue to be price indexed monthly for price changes in these raw materials.

Copper clad aluminum is used primarily as center conductor wire for CATV coaxial cables. Copper clad aluminum is an economical alternative to copper in coaxial cables. It offers equivalent electrical performance to solid copper at CATV frequencies but is 65 percent lighter due to the aluminum core.

The market for CATV coaxial cables has been strong since 1987 and is expected to remain strong into the 1990s. CATV systems are being upgraded and expanded which requires large quantities of coaxial cable.

LOS ANGELES (FEB. 22) PR NEWSWIRE - Angeles Housing Concepts Inc. (AHC), a wholly owned Angeles Corp. (AMEX: ANG) subsidiary that specializes in retirement housing for the independent elderly, announced that it has acquired two fully operational congregate care properties in the Midwest for a total consideration, including reserves, of $14.8 million, and has taken over management of those facilities as of Feb. 15.

Purchased were Crown Pointe, a 134-unit property located in the West Center area of Omaha, Neb., and Sedgewick Plaza, 151-unit facility in the

northeastern part of Wichita, Kan. Crown Pointe is 95 percent occupied and Sedgewick Plaza 82 percent. The seller was Heritage Centers of America Inc. Financing was providing by PaineWebber Independent Living Mortgage Fund Inc., a PaineWebber-sponsored and managed real estate investment trust.

Angeles Housing Concepts has developed, owns and operates the "Independence Village" congregate-style properties in East Lansing, Mich., and Winston-Salem, N.C., and currently has two new Independence Villages under construction in Peoria, Ill., and Raleigh, N.C. The PaineWebber mortgage REIT has provided construction and/or mortgage loans for all of these AHC retirement housing properties.

"Through Angeles Housing Concepts, Angeles Corporation is creating a nationwide network of congregate-style retirement properties by means of both development and acquisition," Angeles Corporation Chairman and Chief Executive Officer William H. Elliot stated.

William E. Tuthill, AHC chairman and president, said, "We are currently at various stages of selecting sites and obtaining building permits to develop new properties in other locations, and we are in negotiations to acquire additional facilities already in operation."

Tuthill, who has more than 15 years experience in this field, explained the Angeles concept of congregate retirement housing: "Our congregate-style properties are specialized apartment complexes designed to provide a warm, comfortable, secure environment and an active lifestyle. Our people are the elderly who want to be independent without having to take care of a house, but who enjoy having a home where their children and friends can visit them.

"The monthly rental includes a private apartment, central dining service, linen and cleaning service, parking space for cars, scheduled transportation, unrestricted use of recreation rooms, library and other common areas, a program of scheduled activities, 24-hour management on-site and other amenities," he said.

Angeles Corporation is a diversified investment management company whose subsidiaries manage in excess of $4 billion of real estate, securities, mutual fund and leased equipment investment assets for corporations and institutions, and for more than 130,000 individual investors.

#90053p0614 02/22/1990 ~PR Newswire

CHICAGO (FEB. 22) PR NEWSWIRE - Boulevard Bancorp, Inc. (NASDAQ-NMS: BLVD) today told a group of security analysts that it expects to report earnings per share in the range of $1.80 to $2.00 for the fiscal year ending Dec. 31, 1990. Earning assets are forecast to rise 6 to 9 percent, and non-interest income is projected to grow 9 to 14 percent. In addition the four-bank holding company expects operating expenses to increase in the range of 4 to 5 percent and to make a loan loss provision of $5.5 to $6.0 million.

"This forecast is based on an assessment of current conditions of our markets and our business," George H. Cook, senior vice president and chief financial officer, told the group. "These include stronger management of our credit risk, continued integration and leveraging of the company's centralized administrative and operational facility (Boulevard Technical Services), improved liquidity, and lower funding costs."

Cook also noted that while preliminary January results were on target, first-quarter 1990 results will not exceed last year's strong first-quarter results.

Cook said the forecast was being released publicly to give the investment community a set of benchmarks for measuring the company's progress. "We believe we should be judged by our performance against realistic, conservative standards, and we believe our internal forecasts are the best standards for that purpose," he said.

For the year ended Dec. 31, 1989, the four-bank holding company reported net income of $8.7 million or $1.20 per share, versus the year- earlier record level of $13.5 million or $1.79 per share. The reduction in earnings was primarily the result of a $6.3 million increase to $10.6 million in the provision for loan losses and the decrease of $1.7 million in gains on sale of other real estate owned which benefited net income a year earlier.

Net interest income was up 7.3 percent to $64.14 million from $59.78 million a year ago, resulting from a 5.4 percent increase in earning assets. In 1989, operating expenses increased 8.0 percent to $55.7 million from $51.6 million a year earlier.

Boulevard Bancorp, Inc. is a $1.7-billion holding company which owns Boulevard Bank in Chicago, First National Bank of Des Plaines, National Security Bank of Chicago, and Citizens National Bank of Downers Grove.

MCCONNELLSBURG, PA (FEB. 22) PR NEWSWIRE - JLG Industries Inc. (NASDAQ-NMS: JLGI) today reported record second quarter and first six months sales for its fiscal periods ended Jan. 31, 1990.

Second quarter sales were $32.3 million, an increase of 21 percent from sales of $26.6 million reported in the previous fiscal year's second quarter. Net income for the period was $1.4 million compared to net income of $1.5 million for the comparable period of fiscal 1989. Earnings per share were $.41 for the 1990 quarter, compared to $.43 in the previous year's second quarter.

Revenues during the first six months of the current fiscal year also set a record, rising 20 percent to $65.2 million from $54.4 million in the first half of fiscal 1989. Net income during the current six months was $3.3 million, or $.94 per share, compared to net income of $3.5 million, or $1.00 per share, in the first six months of fiscal 1989.

JLG Industries Inc. is an international manufacturer and marketer of specialized hydraulic machinery, including mobile aerial work platforms and cranes. Sales are made principally to independent distributors which sell and rent the company's products to a broad customer base, including users in the construction and industrial markets.

The company is headquartered in McConnellsburg, Pa., with additional manufacturing facilities in Fort Littleton, Bedford and York, Pa.; Cumbernauld, Scotland; and Port Macquarie, Australia.

MONTREAL (FEB. 22) PR NEWSWIRE - Alcan Aluminium Limited (NYSE: AL) issued its 1989 annual report today. In his message to shareholders, David Morton, chairman and chief executive officer, said: "Nineteen eighty nine was a year of satisfactory earnings; while not equalling the record of 1988, net income of US$835 million was almost double that of 1987."

Earnings were well spread throughout the group and in all areas there are moves to higher valued-added products and improved cost competitiveness. He added: "The process developments necessary to achieve this are being systematically introduced worldwide through our technology network and are an essential constituent of our capital investment program."

The company's balance sheet and cash generation continued to be strong. Dividends were increased in February 1989 for the fifth time in two years

and capital expenditures increased to $1.47 billion from 1988's $676 million. Major capital projects included the Laterriere smelter, progressively replacing less environmentally sound and less efficient capacity in Qubec, and the expansion of the Kemano hydroelectric facilities in British Columbia. A $600 million expansion and upgrading program is underway in the North American rolling system, including the expansion of Alcan's capacity at the Logan County, Kentucky facility, jointly owned with Atlantic Richfield Company. Investment in recycling plants in the U.S. and the U.K. indicated the importance attached to recycling, both as a source of metal and a contributor to the improvement of the environment.

Looking at 1990, Morton recognized that there are some signs of weakness in the market in the first few months of the year, but he added that the fundamentals of the aluminum industry appeared to be sound. "However, we may face some short-term turbulence. If this happens, the leanness and flexibility we have built up in earlier years will be in place to respond to the challenge," he concluded.

Alcan believes the private sector should support its fair share of community activities, as governments reduce their involvement. By providing funds for projects in education, the arts, health care and welfare Alcan is telling the communities in which it operates that it cares. From the restoration of architectural masterpieces in Brazil and Italy to the endowment of a chair on sustainable development at the University of the West Indies or the establishment of an occupational health centre shared with the community of Alupuram, India, Alcan is a welcome and active partner in the countries in which it operates and it continues to demonstrate its long-held belief that "it is in striking the right balance between all its stakeholders that true corporate responsibility lies".

MCLEAN, VA. (FEB. 22) PR NEWSWIRE - Merle Garvis, chief executive officer of Cordatum (NASDAQ: CDAT), announced that Dr. Lawrence J. Fedewa, will be promoted to president and chief executive officer.

Garvis said, "Dr. Fedewa has been with Cordatum since 1981, is intimately familiar with the day-to-day operations of Cordatum and has brought our CASE (Computer Assisted Software Engineering) training and consulting products to market." Garvis will concentrate his primary efforts on expanding Garvis Architectural Millwork Inc., which he recently purchased.

Dr. Fedewa announced the company's intention to continue providing the high quality training and computer support services for which it is well known. He said, "With the support of our investment bankers we are entering into an aggressive acquisition program in the areas we know best. We are especially looking for mergers and acquisitions that enhance our technical training and CASE capabilities, and which will enable us to match and exceed the very dramatic growth which is taking place in that portion of the data processing industry."

Garvis revealed that Cordatum developed a long range plan last summer, which included engaging an investment banker, restructuring the capitalization of the company, expanding the board with highly qualified business leaders, and launching an aggressive acquisition program. Lawrence J. Trautman, chairman of the private investment banking firm of Trautman and Company, and Timothy W. Bell, president of Commonwealth Acquisition, Inc. led a group which recently filed with the SEC a demand for recall of the Cordatum board of directors because, Trautman stated, his group was unable to communicate with the board. Subsequently, after extensive discussions with the Cordatum board, Bell said, "Our group has determined that the long range plan developed last summer is still in place and that the Cordatum board shares with us common goals regarding the future of the company. Therefore the demand for recall of the board of directors is inappropriate and has today been withdrawn." Both Bell and Trautman went on to express their delight at the rapid resolution of the issues surrounding the future of the company.

Garvis said, "J. William Graff, a director of the company and former publisher of the Washington Business Review, served as the key to reaching an agreement that is enthusiastically supported by all concerned." Trautman said, "Mr. Graff has unusual, highly developed, conflict resolution skills that allowed quick solutions to very complex issues."

Cordatum is based in McLean, Va., and is a leader in technical and support services in the software industry. Its common stock is traded on the NASDAQ national market under the symbol CDAT.

RICHMOND, VA. (FEB. 22) PR NEWSWIRE - The UCLA Medical Center in Los Angeles and Owens & Minor, Inc. (NYSE:OMI), one of the country's largest hospital supply distributors, jointly announce entering into a two-year supply agreement that could reach $60 million in purchases by UCLA over the two-year period. The agreement features a daily inventory replenishment system from O&M's distribution center in Los Angeles to the UCLA Medical Center. The two facilities will be linked by computer to facilitate ordering and customer service requirements. The UCLA Medical Center will be able to substantially reduce its investment in and cost associated with carrying inventory. The objective of the agreement is to lower the delivered cost of product to the UCLA Medical Center patients.

According to Robert A. LeWinter, Associate Director of Support Services at the UCLA Medical Center: "Owens & Minor, Inc. was chosen to be our partner after a year-long search to determine which distributor could guarantee the highest level of service. We are confident that Owens & Minor, Inc. can deliver a comprehensive program that will meet our goals of improving asset management and lowering our delivered costs of patient care supplies and other products."

G. Gilmer Minor, III, President and CEO of Owens & Minor, Inc., said: "We are very excited and proud to have been chosen by UCLA to supply all of their medical/surgical needs. We look forward to working with one of the nation's most respected medical institutions to fulfill our part of this creative and innovative agreement."

The UCLA Medical Center is a non-profit 711 bed academic Medical Center that offers a full spectrum of medical and surgical services from primary to sub-specialty care. Opened in 1955, the Medical Center serves as the primary teaching site for the UCLA School of Medicine. In July of 1990 a new ambulatory care center will open to consolidate 300,000+ outpatient visits in one central building. In 1989 the Medical Center spent $42 million for medical supplies.

Owens & Minor, Inc. is a wholesale distributor of medical and surgical supplies, pharmaceutical and other related products.

CONTACT: Robert A. LeWinter, Pharm., Associate Director of Support Services at UCLA Medical Center, 213-206-6555, or G. Gilmer Minor, III, President and CEO of Owens & Minor, Inc., 804-747-9794

WICHITA, KS (FEB. 22) PR NEWSWIRE - Brite Voice Systems Inc. (NASDAQ: BVSI) has signed agreements to install five TeleCare(R) systems in hospitals in Florida, Louisiana, New York, Texas and the District of Columbia.

The hospitals include: Florida Hospital in Orlando, Fla.; Hotel Dieu in New Orleans; Wyckoff Heights Medical Center in Brooklyn, N.Y.; Mother Frances Hospital in Tyler, Texas; and Inter+Net Health System, a 13-hospital network serving metropolitan Washington D.C.

TeleCare provides hospitals with a unique marketing opportunity to provide healthcare information to its community. This information is available 24 hours a day to anyone with a touch-tone telephone. Health topics ranging from alcoholism to cancer, heart disease to women's health concerns, are made available free of charge to persons within the free calling area. Patient and visitor information such as where to park, visiting hours and rules, and admission and discharge procedures are available through TeleCare. The hospital is also able to promote a variety of fitness and wellness classes it offers as well as special programs for arthritis, cancer, and diabetes patients. In addition, TeleCare offers a variety of interactive health quizzes on subjects ranging from AIDS awareness to weight control. Callers whose responses indicate that they may be at risk for a particular health problem are encouraged to be directly connected to a specific hospital program.

TeleCare also provides information for physicians and hospital staff. This information can range from education classes to seminars to patient specific data such as test results. New programs specifically designed for physicians and their practices, and hospital staff members are currently under development at St. Paul Medical Center in Dallas.

"Our TeleCare product has been well received in the healthcare community and I am optimistic about its future," stated Stan Brannan, president and CEO at Brite. "TeleCare is a unique marketing tool which provides an excellent way for hospitals to reach their target audience and increase calls into special programs such as centers of excellence and physician referral programs. It also allows hospitals to track the performance of their marketing programs."

Hotel Dieu is the second system sold to a hospital in the Daughters of Charity National Health System. Florida Hospital is the largest of the more than 500 hospitals in the Adventist Health System. Florida Hospital, along with Inter+Net Health System, operates two of the largest physician referral programs in the United States. Wyckoff Heights Medical Center is a voluntary, not-for-profit teaching center serving Brooklyn and Queens and was established in 1889. Mother Frances Hospital is a leading regional medical center which operates a Heart Institute for a Heart Emergency Network of hospitals in Eastern Texas.

WESTLAKE, OH (FEB. 22) PR NEWSWIRE - Nordson Corporation (NASDAQ: NDSN) announced today that sales for the first quarter ended Jan. 28, 1990 were $77.5 million, a 19 percent increase over first quarter 1989 sales of $65.0 million. Earnings per share for the first quarter were $.70 compared to $.84 per share reported for first quarter 1989.

In commenting on Nordson's performance, William P. Madar, president and chief executive officer, stated, "Looking more closely at first quarter performance, earnings were impacted by lower sales of core products traced to a general slowdown in economic activity. This decrease was offset by sales of products in the early stages of their life cycle. The resulting sales-mix change, combined with spending increases geared towards market development activities in North America, squeezed operating profit margins. These factors were further compounded by the effects of a stronger U.S. dollar relative to the first quarter of 1989. We are very pleased with the progress made in integrating the recently acquired Meltex business with our Nordson organization. Overall, the level of business activity leads us to be optimistic as we look out over the rest of the year."

Nordson Corporation is a manufacturer of industrial equipment and systems used to apply materials including liquid and powder coatings, thermoplastic adhesives and sealants. Nordson application systems work hand in hand with advanced technology materials developed by manufacturers throughout the world.

A summary of sales, income and earnings is presented in the following table.

NEW YORK (FEB. 22) PR NEWSWIRE - Exxon Corporation (NYSE: XON) today revised its previously announced estimate of 1989 net income from $3,810 million, $2.98 per common share, to $3,510 million, $2.74 per common share. New developments and assessments subsequent to the initial fourth quarter 1989 earnings release led to the revised estimate of future costs associated with the Valdez accident. The revision includes anticipated additional clean-up and environmental restoration provisions, as well as litigation and related costs. This added provision of $300 million, $0.24 per share, brings the full year 1989 provision for the Valdez accident to $1,680 million. The table below presents the revised fourth quarter and full year 1989 earnings results.

RESTON, VA (FEB. 22) PR NEWSWIRE - DynCorp, formerly Dynalectron Corporation, announced today the acquisition of the assets of Combustion Engineering's subsidiary, Bell Technical Operations Corporation.

The purchase will add approximately $32 million to DynCorp's annual revenues and approximately 700 employees. Specific terms of the transaction were not disclosed.

With the acquisition, DynCorp will take over U.S. government service contracts that involve highly technical operations in Automated Intelligence and Electronic Warfare Test Systems, Test Support Augmentation Services, the operation of an Instrumented Test Range, and Electromagnetic Environmental Test Facility at the U.S. Army Electronic Proving Ground, Fort Huachuca, Ariz.; a technical services contract for the U.S. Air Force Foreign Technology Division at Wright-Patterson Air Force Base, Ohio; and base support services at the Charles Melvin Price Support Center, U.S. Army -- AVSCOM, Granite City, Ill.

DynCorp President Dan R. Bannister said: "The Bell Technical acquisition is a strategic move for the company. It complements our current business base and strengthens our growth in high technology service areas." Bannister explained that the majority of the new contracts involve services in highly technical and scientific areas, including: scientific research and development services, development and operation of sophisticated engineering data bases, development of battlefield technology, precision tracking and surveillance radar support, research and development in hardware and software engineering systems, and communication network support.

Bannister added that DynCorp is planning a continued expansion of its defense high tech service business as well as non-Department of Defense services. He noted that additional acquisitions could be considered to achieve expansion and diversification.

Headquartered in Reston, DynCorp is an employee-owned, aviation and technical services firm providing a wide range of services to government and commercial clients worldwide.

#90053p0644 02/22/1990 ~PR Newswire

PANAMA CITY, FL (FEB. 22) PR NEWSWIRE - Florida First Federal Savings Bank (NASDAQ-NMS: FFPC) announced that for the year ended Dec. 31, 1989, the Savings Bank posted a loss of $1.6 million or $.83 per share compared to a loss of $5.5 million or $2.92 per share for the year ended Dec. 31, 1989 and 1988. For the quarters ended Dec. 31, 1989 and 1988, the Savings Bank recorded losses of $394,000 or $.21 per share and $4.6 million or $2.45 per share, respectively. The significant losses recorded for the quarter and year ended Dec. 31, 1988, resulted from the establishment of

substantial additional provisions for possible losses on loans and real estate owned (REO).

Andrew W. Stein, president and chief executive officer, stated that "the 1989 results are a substantial improvement over the Savings Bank's losses recorded in 1988. In the last 12 months, we have successfully reduced real estate owned and non-accrual loans by $3.1 million and restructured our operations in the second quarter of 1989 in order to realize over $600,000 in annualized operating expense reductions. We reviewed and modified our operations again in the fourth quarter of 1989 in order to obtain further annualized expense reductions totalling $300,000 as well as annualized increases in non-interest income of $250,000.

"In addition," said Stein, "I am happy to report that Florida First Federal met all three capital requirements recently promulgated to implement the provisions of the Financial Institutions Reform, Recovery and Enforcement Act. Our core and tangible capital were both 4.5 percent of total adjusted assets at Dec. 31, 1989 while risk-based capital was 7.1 percent of total risk-based assets. The regulation currently requires 1.5 percent, 3.0 percent and 6.4 percent, respectively.

Real estate owned (including in-substance foreclosures) and non-accrual loans (before valuation allowances) totalled $25.4 million at Dec. 31, 1989, a decrease of $3.1 million from a total of $28.5 million at Dec. 31, 1988. Due to the negative effect of non-performing assets (including troubled debt restructurings), a decrease in total interest-earning assets and the compression on the Savings Bank's interest rate spread caused by market conditions, net interest income before provisions for loan losses decreased $756,000 from $4.7 million for the year ended Dec. 31, 1988 to $4.0 million for the year ended Dec. 31, 1989.

Improvements were evident in many areas of the Savings Bank's operations when comparing fiscal 1989 to fiscal 1988. For the year ended Dec. 31, 1989, $1.2 million was provided for possible loan losses compared to $5.0 million for the year ended Dec. 31, 1988. Similarly, for the years ended Dec. 31, 1989 and 1988, the writedown of real estate owned was $123,000 and $1.5 million, respectively. Management believes that the significant reduction in these amounts is indicative of the Savings Bank's efforts to identify problem assets and quantify the magnitude of any potential losses as early as possible.

Decreases occurred in virtually all operating expense categories. Total operating expenses (not including writedowns on real estate owned) decreased $684,000 from $7.6 million for the year ended Dec. 31, 1988 to $6.9 million for 1989. Compensation and benefits decreased by $426,000, occupancy and equipment decreased by $143,000, advertising was down by $26,000, insurance expense decreased $64,000, professional fees were down $99,000 and other operating expenses reflected a decrease of $117,000.

Partially offsetting these decreases was an increase of $190,000 in the only category to experience an increase: real estate owned operating expenses. This was primarily due to a signficant number of REO properties requiring one-time repairs and improvements.

Total assets decreased from $318.7 million at Dec. 31, 1988 to $284.4 million at Dec. 31, 1989. This $34.3 million decrease primarily reflected decreases in cash and cash equivalents, investments and net loans receivable. Cash was needed to fund maturing public deposits and brokered deposits. Total deposits concurrently decreased from $237.6 million at Dec. 31, 1988 to $208.1 million at Dec. 31, 1989. Stockholders' equity at Dec. 31, 1989 was $12.9 million or $6.92 per share compared to $14.5 million or $7.75 per share at Dec. 31, 1988 reflecting the loss incurred for 1989.

The Savings Bank conducts business through nine full-service offices and is the largest thrift institution headquartered in the Florida Panhandle. Florida First Federal's common shares trade under the symbol "FFPC" on the NASDAQ National Market System.

PITTSBURGH (FEB. 22) PR NEWSWIRE - What do you give an astronaut with a stuffed up head and sore throat? If you're SmithKline Beecham, world's third largest drug manufacturer, you send him Contac Cold Capsules and

Sucrets Throat Lozenges.

That was the company's response upon learning that the Atlantis space shuttle commander had fallen sick with sore throat and congestion, forcing a delay in the launch, so far for two days.

SmithKline Beecham shipped boxes of Contac and Sucrets because "we wanted to do our part in helping get America's space program back on course," said a company spokesman.

SmithKline Beecham also manufactures Aqua-fresh toothpaste, Tums and Oxy acne treatments.

RICHMOND, VA. (FEB. 22) PR NEWSWIRE - Media General, Inc. (AMEX: MEG.A) today reported 1989 net income of $20.7 million, or $0.80 per share, compared with net income of $8.8 million, or $0.31 per share in 1988.

Revenues for the year were $606 million compared with 1988 revenues of $756 million, which included $137 million from operations sold and discontinued at year-end 1988.

In February, 1990, a lawsuit against William B. Tanner and others was settled, representing the final disposition of the matter. Following the settlement, Media General recorded a nonrecurring pretax special charge of $10.3 million ($6.5 million after-tax), or $0.25 per share, involving costs and expenses related to that lawsuit which no longer are considered recoverable.

This $10.3 million pretax charge is included in the 1989 full year and fourth quarter results, along with other year-end charges totaling $9.5 million after-tax, or $0.37 per share, which include a write-off of discontinued printing equipment and revisions to certain estimated liabilities and reserves.

Also reflected in 1989 net income is a gain of $5.7 million, or $0.22 per share, from the sale of a newsprint mill in March, 1989, and a gain of $9.9 million, or $0.38 per share, relating to Media General's equity in a

gain from the sale of a newspaper by Garden State Newspapers. Excluding the $6.5 million after-tax special charge, net income in 1989 would have been $27.2 million, or $1.05 per share.

Net income in 1988 included a special nonrecurring charge of $41.5 million after-taxes, or $1.44 per share, principally related to the divestiture of the Company's broadcast services operation, as well as write-downs related to television and weekly newspaper units. Also reflected in 1988 net income was a gain of $4.5 million, or $0.16 per share, relating to the sale of newspaper properties by Garden State Newspapers, which was partially offset by $2.3 million in after-tax expense, or $0.08 per share incurred in connection with a proxy contest. Excluding the $41.5 million special charge, net income in 1988 would have been $50.3 million, or $1.75 per share.

Revenues from operations in 1989's fourth quarter were $165 million versus $191 million in the quarter a year earlier, which included $33 million from operations discontinued at year-end 1988.

As a result of the special charge and other adjustments, Media General reported a 1989 fourth quarter loss of $1.2 million, or $0.04 per share. Excluding the special charge, net income for the quarter would have been $5.3 million, or $0.21 per share.

Fourth quarter 1988 operations also reflected a special charge and resulted in a loss of $29.6 million, or $1.03 per share. Excluding the special charge, 1988 fourth quarter net income would have been $11.9 million, or $0.41 per share.

TAMPA, FL (FEB. 22) PR NEWSWIRE - Therapeutic Technologies, Inc. (NASDAQ: TTII) today reported that the company achieved sales for first fiscal quarter ended Dec. 31, 1990 of $440,353 compared to $627,170 reported in the same quarter last year. There was a net loss of $206,053 for the quarter.

The company completed the consolidation and relocation of its operations to Tampa, Fla. from Dayton, Ohio in January 1990. This resulted in disruption in sales and marketing efforts during the quarter. However, the company anticipates long-term benefits from the move including lower costs, a more favorable business environment and improved communications with major markets.

Additionally, the company announced that Charles T. Orsatti became president on Jan. 2, 1990. Orsatti, 46, has 21 years of experience as a health care executive. He was previously executive vice president of the Glasrock Home Health Care subsidiary of British Oxygen Corporation.

The company has agreed to sell to Martin Ergas, chairman and majority shareholder, up to 3,000,000 shares of common stock at $.10 per share to fund near-term working capital requirements. One million shares have already been purchased. The company is also seeking additional sources of equity and debt financing to meet longer-term goals.

Therapeutic Technologies, Inc. is a leader in the design of medical equipment for the treatment of patients with spinal cord injuries and neuromuscular disorders.

BOSTON (FEB. 22) PR NEWSWIRE - The board of directors of Home Owners Savings Bank F.S.B. (NYSE: HFS), today announced that Home Owners has concluded the negotiations which were announced on Dec. 22, 1989 and reached agreement with the Office of Thrift Supervision ("OTS") regarding Home Owners' consent to a cease and desist order. The order, effective Feb. 15, 1990, imposes, among other things, additional recordkeeping and reporting obligations and operating restrictions which prohibit Home Owners, without the prior approval of the OTS, from acquiring or disposing of certain assets, purchasing or selling certain off-balance sheet items, growing its liabilities beyond certain levels and paying dividends on its capital stock. The board of directors noted that the business plan submitted by Home Owners to OTS in January 1990 anticipated these restrictions and Home Owners has since been operating in conformity with these restrictions. The board stated that Home Owners will continue its core business activities of making home mortgage loans and accepting deposits, subject to growth limitations.

The board of directors also announced that, as required by OTS guidelines promulgated in accordance with the Financial Institutions Reform, Recovery and Enforcement Act of 1989, it has determined not to pay the dividend on Home Owners' preferred stock (NASDAQ: HFSLP) for the quarter ending March 31, 1990, which otherwise would have been payable in May 1990.

#90053p0688 02/22/1990 ~PR Newswire

LOS ANGELES (FEB. 22) PR NEWSWIRE - Unocal Corp. (NYSE: UCL) said today that it has reached an agreement with the California Regional Water Quality Control Board for the San Francisco Bay region, and the Sierra Club Legal Defense Fund, to settle two lawsuits regarding alleged violations of Unocal's wastewater discharge permit at the company's San Francisco Refinery. A related lawsuit, in the Third District Court of Appeal in Sacramento, will also be dismissed.

A consent decree and order has been signed by all three parties and was lodged earlier today with Judge Samuel Conti of the United States District Court of Northern California.

Following a public comment period, the Court is expected to approve the decree.

Under the conditions of the decree, Unocal has agreed to pay $500,000 to the State of California Water Pollution Cleanup and Abatement Account, $1.0 million to the State of California Department of Justice, and $2.72 million to the Trust for Public Land.

The $500,000 payable to the California Water Pollution Cleanup and Abatement Account will be directed to the State Water Quality Control Fund to defray the cost of responses to pollution of State waters.

The California Department of Justice will establish an Ocean Site Designation Fund and utilize the $1 million from Unocal for studies relating to disposal of dredge spoils from San Francisco Bay.

The Trust for Public Land will be directed to utilize the $2.72 million for the acquisition, interim protection, restoration and enhancement of wetlands and uplands adjacent to San Francisco Bay.

In addition, Unocal will pay the Sierra Club Legal Defense Fund $1.33 million to cover its costs for this litigation.

As part of the settlement, the Sierra Club Legal Defense Fund and the Regional Water Board have agreed to dismiss their complaints and release Unocal from all claims arising out of the case. The decree constitutes a full settlement of the claims for declaratory, injunctive and monetary relief arising from the case.

The decree does not constitute an admission of liability or fault, or an adjudication with respect to any allegation of the complaint, nor may it be used as evidence of any wrongdoing, misconduct or liability on the part of Unocal.

In addition, Unocal completed a new, $64-million, state-of- the-art

wastewater treatment plant at the San Francisco Refinery last year. The new plant, which went into operation in February of 1989, was built to meet still more stringent NPDES permit requirements.

The plant's new biological treatment system makes use of the best available technology, and has a capacity nearly three times that of the old system. Unocal has also doubled its storage capacity for untreated water at the San Francisco Refinery.

FORT WORTH, TX (FEB. 22) PR NEWSWIRE - Pengo Industries Inc., ("Pengo") (PSE: PGO.P) of Fort Worth announced today that it had filed a motion with the U.S. Bankruptcy Court in Fort Worth where the consolidated bankruptcy proceeding of Pengo and Pengo Finance N.V. is pending requesting the court to extend until April 30, 1990, the time to close its First Amended Plan of Reorganization ("the plan"). The plan, approved by the Bankruptcy Court on Oct. 2, 1989, and through subsequent motion granted by the court on Jan. 12, 1990, was set to close by Feb. 28, 1990. The motion sets out that in the due diligence procedures attendant to the closing, some issues regarding environmental matters have been raised. In this regard, Pengo has employed an environmental consultant firm to conduct a review of certain real properties and operations of the company and its subsidiaries. The environmental report is not expected to be completed for four to six weeks. Therefore it is necessary to allow more time to close the plan so that Pengo can address the necessary environmental representations attendant to the closing.

On Dec. 27, 1989, Pengo executed a loan commitment with the Bank of New England (the "bank") whereby the latter agreed to provide $14 million of the approximate $17.2 million needed to fund the plan. The commitment of the bank which runs through Feb. 28, 1990, is contingent upon certain pre-conditions. The bank has indicated that it may not extend the commitment beyond Feb. 28, 1990.

Additionally in a related development Pengo has received a notice from the Thomas Group, who are participants in the plan and headed by Wilmer J. Thomas Jr. of Palm Beach, Fla., that as a result of their analysis of certain economic and environmental matters a material adverse change in the company has occurred. Pengo has formally notified the Thomas Group that it disputes such contentions. Pengo is informed by its senior secured lenders that the Thomas Group is in dialogue with them and has proposed some modifications in the plan. The company has requested that the Thomas Group clarify its intentions regarding its participation in the plan.

Further information regarding the environmental matters will not be known until the environmental report is completed, at which time Pengo will take remediation steps if called for and make whatever disclosures that may be called for. Based upon present information Pengo does not believe that the nature of any of the environmental matters poses a health hazard to any of its employees or to third parties.

#90053p0708 02/22/1990 ~PR Newswire

HOUSTON, (FEB. 22) PR NEWSWIRE - CRSS Inc. (NYSE: CRX) today announced that the team of Parsons Brinckerhoff of New York and Morrison Knudsen of Boise, Idaho, in association with CRSS, Inc. has been selected for negotiations to be the architect, engineer and construction manager (A-E/CM) for the Superconducting Super Collider, the high-energy physics particle accelerator and associated laboratory to be built in Ellis County approximately 30 miles south of Dallas, it was announced today by Roy Schwitters, director of the Superconducting Super Collider Laboratory.

CRSS is a diversified design and construction services company and is involved in the independent power/co-generation industry. CRSS has also expanded through its interest in NaTec Resources, Inc., into the acid rain pollution control market.

A copy of the full release by the Department of Energy announcing this selection follows:

DALLAS, Feb. 22 -- The team of Parsons Brinckerhoff of New York and Morrison Knudsen of Boise, Idaho, in association with CRSS, Inc., of Houston, has been selected for negotiations to be the architect, engineer and construction manager (A-E/CM) for the Superconducting Super Collider, the high-energy physics particle accelerator and associated laboratory to be built in Ellis County, approximately 30 miles south of Dallas, it was announced today by Roy Schwitters, director of the Superconducting Super Collider Laboratory.

Schwitters said that the A-E/CM will be responsible for design and construction of physical facilities for the Superconducting Super Collider Laboratory. These facilities include more than 60 miles of tunnels, four underground halls where experimental apparatus will be located, a campus complex on the western side of the accelerator ring near Waxahachie, Texas and another on the east side of the accelerator ring near Ennis, Texas.

The tunnels will house the main accelerator ring, 54 miles in circumference, and a series of four booster accelerators. The A-E/CM will

not be responsible for the accelerator's technical systems, including magnets, refrigeration systems and detectors.

To design, engineer and build these facilities will take about eight-and-one-half years and cost about $1 billion, Schwitters said. Much of this funding will eventually flow through the A-E/CM to construction firms.

With the team selected, he said the next step is ssubmission of a cost proposal by the team and negotiation of a formal contract between the team and Universities Research Association (URA), the laboratory contractor. The negotiations for the contract are expected to be completed in the spring, according to Schwitters. The team will also undergo an audit by the Defense Contract Audit Agency to insure that sound financial controls and procedures are in place. If URA and the team can agree to terms, a definitive contract is expected to be awarded in early summer. By that time, the A-E/CM will be provided all existing preliminary design and geotechnical data and briefed fully on program needs.

"It is our intent that the A-E/CM will be a full member of the laboratory team," Schwitters said. "The A-E/CM is expected to establish its offices near to the laboratory so that we may work closely together to accomplish a very challenging program."

The selection of the team culminates a process that began in October of 1988 when the Department of Energy asked interested firms to submit their qualifications for the project. Fourteen firms responded.

"It is an outstanding selection from a field of well-qualified, indeed excellent companies," Schwitters said. "I want to thank everyone who competed for this award for their competitive energy and the excellent way they presented themselves to our evaluation panel."

Universities Research Association manages the SSC laboratory for the Department of Energy. The A-E/CM will be a contractor to URA.

ST. LOUIS (Feb. 22) PR Newswire - Wetterau Properties Inc. (NASDAQ: WTPR) reported increased revenues and net earnings for the real estate investment trust company's fourth quarter and 1989 fiscal year, it was announced today by Robert K. Crutsinger, chairman of the board and chief executive officer.

For the quarter ended Dec. 31, 1989, Wetterau Properties reported revenues

of $1,923,000, an increase of 55.6 percent compared with revenues of $1,236,000 for the like period the prior year. Net earnings for the quarter reached $229,000, an increase of 30.1 percent compared with net earnings of $176,000 the year before. Earnings per share were 16 cents, an increase of 14.3 percent compared with earnings per share of 14 cents the previous year.

For the company's 1989 fiscal year, revenues were $7,017,000, an increase of 50.3 percent compared with revenues of $4,669,000 the prior year. Net earnings for the year reached $874,000, an increase of 45.4 percent compared with net earnings of $601,000 the year before. Earnings per common share were 59 cents, an increase of 20.4 percent compared with earnings per share of 49 cents the previous year.

Earnings per common share for both the quarter and fiscal year reflect an accrual of the dividend requirements on the preferred stock.

Wetterau Properties added three distribution facilities totaling approximately 560,000 square feet of building area situated on some 76 acres of land during fiscal 1989. Subsequent to year end, the company acquired four free-standing retail stores and 12 strip shopping centers situated in Rhode Island and southeastern Massachusetts representing approximately 640,000 square feet of building space on nearly 78 acres of land.

At the close of the fourth quarter, the company paid shareholders a semi-annual cash dividend of 26 cents per share, bringing the total dividend for the year to 50 cents, an increase of 19 percent over the previous year's dividend payment.

Wetterau Properties, a real estate investment trust company traded on the NASDAQ National Market System, currently owns a total of 27 properties representing 3.0 million square feet of building space situated on more than 335 acres of land.

OVERLAND PARK, KS (FEB. 22) PR NEWSWIRE - Passport Travel Inc. (NASDAQ: PPTI) today announced record sales for its 1989 fiscal year, which ended Nov. 30.

However, due largely to increased cost of sales and the September, 1989 bankruptcy of a major airline in the Kansas City market, the company recorded a net loss of $272,288, or 30 cents per share, on sales of

$40,113,000. In 1988, Passport Travel recorded net income of $301,160, or 25 cents per share, on sales of $39,613,000.

Passport Travel recorded a net loss of $349,000, or 39 cents per share, on sales of $10,567,000 in the fourth quarter of fiscal 1989. In the fourth quarter fiscal 1988, Passport reported net income of $37,809, or 3 cents per share, on sales of $9,306,000.

"The September bankruptcy of Braniff Airlines coupled with increased automation and employee related expenses, resulted in a very disappointing fourth quarter," said Leonard Hershman, president of Passport Travel. "However, Passport Travel continues to maintain a strong financial position, and with continued growth in sales, we are optimistic that the company will be profitable in 1990."

#90053p0718 02/22/1990 ~PR Newswire

TINTON FALLS, N.J. (FEB. 22) PR NEWSWIRE - Concurrent Computer Corporation (NASDAQ-NMS: CCUR) announced today that it has completed the definitive contract with a potential value in excess of $60 million to supply its high-performance Series 3200 real-time processing systems to Unisys Corporation, the prime contractor for a new national weather forecasting program known as NEXRAD (Next Generation Weather Radar).

The NEXRAD program, jointly sponsored by the U.S. Departments of Commerce, Defense and Transportation, with Commerce serving as the lead agency, significantly improves the ability of weather forecasters to provide more accurate and timely warnings than in the past. The program calls for the installation of 175 NEXRAD Doppler weather radar sites throughout the United States, the Caribbean, and at military bases in Western Europe and the Pacific.

Commenting on the agreement, James K. Sims, chairman, president and chief executive officer of Concurrent, said, "We are delighted that Unisys shares our confidence in the ability of our products to meet the demands of this major long-term program. We are especially pleased to participate in NEXRAD because it will benefit the everyday lives of millions of people."

Concurrent has worked with Unisys in the development of NEXRAD since 1983. The contract Concurrent announced today covers both the limited and full-scale production phases. In 1988, Concurrent began the limited production phase for the delivery of computer systems for installation at 10 NEXRAD sites. A prototype system is now operating at the Federal

government's NEXRAD Operation Support Facility in Norman, Okla.

The contract provides for Concurrent to supply hardware and system software for the entire program, and contains options for service support and possible system enhancements which could raise the total value beyond the $60 million level.

As presently configured, each NEXRAD system will use Concurrent's Model 3280 real-time processor to gather and process Doppler radar data at high speeds. In addition, Concurrent's Model 3212 will be used to interface the radar equipment with the rest of the system and to pipeline processed data to individual user terminals.

Concurrent Computer Corporation is the leading supplier of high-performance, real-time computer systems worldwide. With systems ranging in price from $10,000 to more than $1 million, the company is focused on the real-time simulation, measurement and control, C4I, and the transaction processing markets.

#90053p0736 02/22/1990 ~PR Newswire

SHREVEPORT, LA. (FEB. 22) PR NEWSWIRE - TGX Corporation (NASDAQ: XTGX) filed for reorganization in a Chapter 11 Petition filed in the U.S. Bankruptcy Court for the Western District of Louisiana. TGX's subsidiaries, LEDCO, Inc., TGX Finance Corporation, and Templeton Energy Income Corporation, are not included in this filing, nor are any of the limited partnerships of which TGX serves as general partner. LEDCO, Inc. is in the business of natural gas marketing and transmission activities. TGX Finance Corporation invests the proceeds from its short auction rate preferred stock in short term money market instruments. Templeton Energy Income Corporation is co-general partner for eight income fund partnerships. None of the operations of these subsidiaries will be affected by the filing.

Although TGX has been and continues to be optimistic about the long-term future of the oil and gas industry, this action has become necessary due to the extended duration of the downturn in the industry and a continuing dispute involving a longstanding default by National Fuel Gas Distribution a large utility, in its obligations under a natural gas purchase contract with TGX which covers more than 50 percent of the TGX gas reserves.

TGX is not now in default on any of its debt obligations. However, due to unusually warm winter weather in January and February, natural gas prices have declined more sharply than anticipated and demand for natural gas volumes has decreased. This decrease in revenues from oil and gas

production together with the substantial sums National Fuel Gas has refused to pay under its contract, will cause TGX to be in default on at least one of its debt obligations in the near future.

In addition to its contract claims, TGX has investigated and will pursue antitrust and tort claims against National Fuel Gas, based upon the monopoly position of National Fuel Gas in the relevant area, and upon loss of business opportunities suffered by TGX as a result of the conduct of National Fuel Gas.

TGX feels that its Chapter 11 filing is a prudent move to maintain its economic viability while its claims against National Fuel Gas are being resolved. TGX expects the reorganization to enable it to meet the challenges of the future on a sound and progressive basis.

TGX is a balanced energy company headquartered in Shreveport, La. engaged in the production of oil and gas reserves and in natural gas marketing and transmission. TGX's common stock is traded in the NASDAQ National Market System under the symbol "XTGX".

#90053p0739 02/22/1990 ~PR Newswire

BATON ROUGE, LA (FEB. 23) PR NEWSWIRE - Gulf States Utilities Co. said that the Louisiana Public Service Commission today granted the company a $28 million base rate increase, effective March 1.

Company officials said that, while there appear to be positive elements in the LPSC decision, they would have to study the written order before deciding if some aspects should be appealed to a district court.

The increase is the third step in a rate phase-in plan related to GSU's River Bend nuclear power plant. The phase-in plan was initially ordered by a state district judge in early 1988 and was affirmed by another state district judge last fall.

The phase-in plan covers the $1.6 billion in River Bend investment that has been declared prudent and allowed in rate base by the LPSC. A $92 million increase took effect in February of 1988 and a $38 million increase was implemented in February of 1989.

In recommending the $28 million increase granted today, the LPSC special counsel also said that, if current conditions hold, the company should receive a $19.6 million increase in 1991 as the fourth step in the phase-in plan. The $28 million base rate increase is based on a 12.79

percent return on equity.

#90053p0741 02/22/1990 ~PR Newswire

EL PASO, TX (FEB. 22) PR NEWSWIRE - El Paso Refinery L.P. (NYSE: ELP) announced net income for its first two months of operations ended Dec. 31, 1989 of $815,000 on sales of $39,273,000 as compared with net income of its predecessor entity of $1,645,000 on sales of $36,087,000 for the corresponding period of 1988. Net income for the year ended Dec. 31, 1989 totaled $9,329,000 on sales of $244,125,000 as compared with net income of $10,186,000 on sales of $198,433,000 for 1988. Net income per limited partner unit for the partnership's first two months of operations totaled 6 cents on total outstanding units of 12,720,000 comprised of 5,520,000 cumulative participating convertible preferred units ("preference units") and 7,200,000 common units.

Results for the two months ended Dec. 31, 1989 were reflective of increases in crude oil costs in excess of increases in the selling prices of refined products, particularly gasoline, in the partnership's market. Gasoline prices have improved significantly from late 1989 levels, and management believes the outlook for operating margins in 1990 remains positive. Operating income for fiscal 1989 exceeded 1988 by approximately 10.4 percent, primarily as a result of a 7.1 percent increase in the volume of refined products sold. Net income for 1989 was 8.4 percent below 1988 as a result of increased levels of interest expense which more than offset increased interest income. Comparability of results between periods has been impacted primarily by changes in the refinery's capitalization structure resulting from the May 1, 1989 acquisition of a previous limited partner and the Nov. 1, 1989 public offering.

As previously announced, a 50 cent per unit distribution on the preference units is payable Feb. 28, 1990 to holders of record as of Dec. 29, 1989.

On Nov. 1, 1989, the partnership assumed the refining and operating assets of El Paso Refining, Inc. in connection with the sale to the public of a 43 percent limited partnership interest in the partnership. The partnership raised net proceeds from the offering of approximately $127 million which are being utilized primarily for the expansion of the partnership's El Paso refinery from 26,000 barrels per day to 55,000 barrels per day. Expansion of the refinery is progressing on schedule with field construction activities scheduled to commence during the second quarter of 1990.

ORANGE, CA (FEB. 23) PR NEWSWIRE - Varco International Inc. (NYSE: VRC) today reported net income of $2.4 million, $.09 per share, for the fiscal year ended Dec. 31, 1989. This compares to net income of $2.3 million, $.10 per share, for fiscal 1988.

Net sales and other income was $86.6 million for 1989 as compared to $68.9 million for the previous 12 months. Most of this increase resulted from including, for the full 12 months of 1989, sales of products acquired with the BJ Machinery Division at the end of the third quarter of 1988. Revenue generated by the Varco BJ Oil Tools segment totaled $38.0 million in 1989, as compared to $22.3 million for the previous year. Sales of the Drilling Systems products were $42.6 million in 1989, versus $40.8 million one year ago; and sales of Flow Products were $4.5 million in 1989, down from $4.9 million in 1988.

For the fourth quarter of 1989, net income was $1.1 million, $.04 per share, on net sales and other income of $21.3 million. In the fourth quarter of 1988, net income was $220,000 on revenue of $20.2 million.

In commenting on the financial results Chairman W.B. Reinhold said, "Our financial performance for the year was particularly gratifying when viewed in light of relatively weak drilling activity. During 1989 we saw an approximate 11 percent decline in the average number of active drilling rigs worldwide when contrasted to the average for 1988."

"However, the fourth quarter of 1989 was the strongest of the year in terms of incoming orders, enabling us to enter the decade of the 1990s on a positive note," Reinhold concluded.

SALT LAKE CITY, (FEB. 22) PR NEWSWIRE - GCI Industries Inc. (NASDAQ: GCI) announced today that it had accepted the financing commitment provided to it by PG Acquisition Inc. (PG) under the terms of the previously announced merger agreement between the two companies. GCI also announced that PG had completed its due diligence to its satisfaction and had deposited $100,000 into escrow as required under the merger agreement. In addition PG has agreed to deposit approximately $4,600,000 into escrow representing the aggregate amount payable under option agreements between PG and the principal shareholders of GCI, upon delivery into escrow of the 2,052,901 shares subject to the option agreements.

Pursuant to the terms of an agreement between GCI and PG, GCI received an offer today from Fairway Acquisition Inc. (FAI), a newly formed company wholly owned by George Rohr of New York. The FAI offer is for $2.45 per share, payable in cash at the closing of the merger, and is subject to a number of contingencies. The GCI's board of directors will review this alternative offer and, within five days either reject the offer or notify PG that it intends to accept the offer. If the board notifies PG of its intent to accept the offer, then a pre-established bidding procedure will commence between PG and FAI. GCI will provide further information regarding the offer and bidding process as it becomes available.

GCI's Golf Card subsidiary provides its membership, for an annual fee, the opportunity to play two 18-hole rounds of golf, without payment of green fees, at each of over 1,600 golf courses in the United States and abroad and to stay at over 360 country club golf resorts throughout the United States at special rates discounted from the resorts' regular golf packages.

#90053p0764 02/22/1990 ~PR Newswire

HOUSTON (FEB. 23) PR NEWSWIRE - Southern Mineral Corp. (NASDAQ: SMIN) announced today 1989 net income of $932,000, or $.23 per share, compared to 1988 net income of $1,096,000 or $.27 per share. Despite a 40 percent decline production from the company's interest in the Poplarville Field, total oil and gas revenues were down only 4 percent due to the company's interest in the expanding Trimble Field and from improved oil and gas prices. The company has an interest in 12 producing wells in the Trimble Field and two additional wells scheduled to be drilled next month.

For the three months ending Dec. 31, 1989, net income of $22,000, declined from $284,000, or a decline of approximately $.07 per share, for the same period last year due primarily to higher depreciation and depletion expenses.

Southern Mineral Corp. is an exploration company with production in the states of Alabama, Mississippi, Texas and Wyoming. In addition, the company owns in perpetuity approximately 239,000 net mineral acres underlying some 401,000 gross surface acres located primarily in Wisconsin and southern Mississippi.

Summary of operating data for the three months and twelve months ending Dec. 31, 1989 and 1988 and balance sheet data as of Dec. 31, 1989 and 1988 are below.

NEW YORK (FEB. 22) UPI - The chairman and chief executive officer of Avon Products Inc. said Thursday that thousands of the company's sales representatives would leave the door-to-door cosmetics company in the event of a hostile takeover.

James E. Preston told an analysts meeting that about 90,000 of the company's 500,000 U.S. sales representatives had written letters to Chartwell Associates, an investor group that has been buying up stock in New York-based Avon with an eye toward a possible acquisition, "indicating that if there was a successful takeover attempt, they'd quit."

Avon, which has said it wants to remain independent despite several takeover overtures in the past year, faces a proxy fight with Chartwell, which includes a member of the Getty oil family, members of the Fisher real estate family and executives of rival beauty-products peddler Mary Kay Cosmetics Corp.

Chartwell, which holds about a ten percent stake in the company, stands to land at least one and possibly two seats on Avon's 12-member board this spring.

Preston said he met with Chartwell representatives last December and told them it was a "serious mistake" to assume anyone from Dallas-based Mary Kay would be welcomed by Avon's representatives, who form the core of the company's operations.

"For years, Mary Kay has been saying, 'We're going to overtake Avon. Our system is better.' The net of all this is that Mary Kay has become the enemy to Avon representatives."

Avon, which has struggled under a heavy debt burden since an unsuccessful

foray into health care during the 1980s, fought off a $2.1 billion takeover proposal by Amway Corp. last May and a $2.85 billion offer from Minneapolis investor Irwin Jacobs last August, announcing an ambitious plan to sharply increase earnings and improve shareholder equity.

The plan hinged on Avon's ability to generate sales growth of eight percent annually in the United States, which Preston said was "proving more complex and taking longer than we anticipated."

Nevertheless, Preston said first-quarter earnings "will be up nicely" despite a decrease in sales due to the diversitutre of Parfums Stern and slow direct sales in the early part of the quarter. "Our cost reduction programs and lower interest expenses and taxes will still produce strong bottom line improvement," he said.

Preston said the company has reduced its debt, which now stands at $630 million, by about $500 million in the past year. Proceeds from the $408 million sale of the company's Avon Japan division, announced Wednesday, and from the pending $100 million sale of its Mediplex health care operations will be used to further reduce debt and contribute to working capital, he said.

#90053u1277 02/22/1990 ~United Press International

WASHINGTON (FEB. 22) UPI - Hungary expects the approval of a $210 million International Monetary Fund loan before its national elections on March 25 and will negotiate this year another $1 billion loan from the institution, the president of the National Bank of Hungary said Thursday.

Ferenc Bartha told a news conference that the IMF's $210 million 12-month operation will unlock an European Community $1 billion bridge loan for economic structural reforms in the country. The EC conditioned the loan to an agreement between the Budapest government and the IMF.

The combined funds will tide Hungary over a period of adjustment until the IMF approves a medium-term loan for about $1 billion to be negotiated in the second half of the year, while the World Bank, the new European Investment Bank and other lenders grant the country additional credit, Bartha said. The IMF board will discuss the $210 million loan in the second week of March and approval is expected, a fund official said.

Afterwards, the EC would "hopefully disburse in March $400 million from its $1 billion loan," Bartha said, adding that the community is inviting other industrial countries to join it in helping Hungary.

The World Bank, which has been lending about $300 million a year to Hungary, could increase its assistance to $350 to $400 million,

supplemented by cofinancing from private lenders, Bartha said.

World Bank President Barber B. Conable Thursday announced in Warsaw a $5 billion three-year lending program for Eastern Europe, with half of the amount going to Poland.

Yugoslavia and Hungary, both members of the bank, will get the lion's share of the other $2.5 billion. Romania, also a bank member, is experiencing political troubles that make it difficult for its government to outline an economic program in support of the multilateral organization's lending program.

IMF endorsement of the Hungarian loan before a national election is unusual, as the multilateral organization usually avoids lending to lame-duck governments whose commitments might not be implemented by successors. Bartha contended that all the major political parties in Hungary stand behind the government's 1990 austerity program, assuring its continuity.

In its credit negotiations, the Hungarian central bank had as its main objectives to convince both the IMF and the country's authorities that the fund's loan and the country's adjustments were "absolutely necessary" before the elections to maintain the confidence of financial markets in Hungary.

Hungary is seeking massive foreign investments in new ventures as well as in the privatization of its state companies, for which investors confidence is essential, Bartha noted.

The banker said that Hungary will not have problems servicing its $20 billion foreign debt this year, and that it expects its $600 million 1989 trade surplus to expand in 1990 to about $750 million, with higher receipts in tourism and services.

Since investment flows into Hungary are expected to reach $400 million to $600 million annually, the balance of payments' current account, which will be $550 million in the red for 1990, should become balanced in 1991-92 "with non-debt related capital investments," he said.

Bartha claimed that Hungarian trade prospects will be helped by closer ties with the European Community, the European Free Trade Association, and the United States, which has included Hungary in its Generalized System of Preference, giving the country easier access to the U.S. market.

#90053u1575 02/22/1990 ~United Press International

BOSTON (FEB. 22) UPI - The Bank of New England Corp. said Thursday it lost $1.11 billion in the region's foundering real estate market last year but, in a highly unusual move, the company did not report results for the fourth

quarter.

The company said it "is in the process of reviewing the provision for loan losses to determine how it should be allocated among the 1989 quarters" and may have to restate the first three quarters' figures.

The annual loss is about $63 million more than the company predicted in January, when it first disclosed its expected enormous losses. But the new, interim chairman, H. Ridgely Bullock, termed the new figure "in line" with the earlier estimate.

Meanwhile, such withholding of quarterly results and a possible restatement of earlier figures is highly unusual and surprised stock analysts who follow the company.

Bullock told United Press International the decision to review earlier reports is an effort "to make sure it's been properly handled." Also, he said, "the fact that we're looking doesn't mean we think it wasn't properly allocated."

The company, until recently the nation's 18th biggest bank holding company originally reported total profits of about $121.5 million for the first three quarters. Combined with its January estimate of a $1.2 billion loss for the fourth quarter that ended Dec. 31, the numbers resulted in approximately $1.05 billion in red ink for the year.

Now, the revision of earlier quarters's figures could open the company to suits from stockholders who might claim they had been mislead about Bank of New England's prospects. Several such suits were filed after the company disclosed its estimates in January. Bullock, himself a lawyer, declined to speculate on the bank's possible exposure to more suits, except to say "we live in a litigious world."

As for the $63 million increase in losses for the year from the earlier estimate, Bullock said the review of the bank's problem loans "was continuing and ongoing." "I'm not unmindful that the difference is a lot of money, but given the enormity of the losses" the reported numbers were in line, he said.

Stock analysts were surprised by Thursday's announcement. "To see that the auditors were caught off guard comes as a surprise," said Gerard Cassidy, an analyst with Tucker, Anthony.

A spokesman for the bank's independent auditors, Ernst & Young, declined comment. "The news confirms that the senior management that has been asked to leave misjudged the (real estate) market and made a serious in judging the market," Cassidy added.

Since the company disclosed the magnitude of its expected losses, it has purged top management, including Walter J. Connolly Jr., the former chairman and chief executive who was widely regarded as the architect of the company's fast growth in recent years. Vice Chairman Richard D. Driscoll and other top executives also were forced out.

Another analyst, Lacy Shockley of Smith Barney, said, "I guess what they're saying (in withholding quarterly numbers) is that some regulator told them to go back and restate it. I've never heard of any of the (troubled) Texas banks doing that."

Leonora Cross, a spokeswoman for the Office of the Comptroller of the Currency, said a cease-and-desist order, to which the bank is expected to agree and which will detail what actions it needs to take to correct its problems, will be issued early next week. As for the company's prospects of survival, Shockley said Bullock has "a tremendously difficult task ahead of him.... Only time will tell."

Bank of New England, with subsidiary banks in Connecticut, Rhode Island, and Maine, was until recently the region's second largest banking company, behind only Bank of Boston Corp. However, the company said assets have fallen to $26.1 billion as of Feb. 15. As recently as September, assets were $33.5 billion.

NEW YORK (FEB. 22) UPI - Merrill Lynch & Co.has launched a financial consultant telephone service for deaf and hard-of-hearing clients, the company said Thursday. Merrill Lynch is the first full-service investment firm to offer the service on a national basis, the company said.

By dialing one of two 800 numbers, deaf or hard-of-hearing investors can request information on a product or service and be referred to a financial consultant who is equipped to communicate with them directly. Once of the 800 numbers is designed for deaf clients and the other for those who are hard-of-hearing, the company said.

More than 50 Merrill Lynch financial consultants in 26 states are equipped with the service, which the firm expects will be available in almost every state by the end of the year.

#90053u1666 02/22/1990 ~United Press International

NEW YORK (FEB. 22) UPI - The plan by four media giants to jointly launch a 108-channel satellite television system by 1993 could hurt multi-system cable operators by diluting their monopolies, analysts said Thursday.

Sky Cable, a $1 billion direct broadcast system under development by NBC, Hughes Communication, Cablevision Systems Co. and The News Corp., would beam television programs directly into homes equipped with a new 12-by-18-inch dish antenna.

The direct broadcast system, announced Wednesday, would compete with cable and network television for viewers and advertisers, but just how much of a threat it would pose depends on the type of programming Sky Cable provides, said Julia Turner, an analyst with Moody's Investors Service.

"The key to this is what programming will be available on the satellite, how attractive it is to the viewer and whether it is complementary or competitive with programming available on cable systems," she said.

Sky Cable representatives said the system would draw on the resources of NBC and Fox Television, a division of Rupert Murdoch's News Corp., for programming.

Sky Cable would augment wired cable systems by increasing channel capacity and also give viewers in areas not served by cable an alternative to backyard dish satellites, its developers said.

However, Turner noted that "any additional channels which provide programming to viewers that supplement the programming available over their cable system works to reduce multi-system operators' perceived monopoly."

Alvin Mirman, an analyst with Hanifen Imhoff, said that cable system operators who cooperate with direct broacast systems by providing service and technical support can generate incremental revenues.

Meanwhile, he said, the networks will always have a franchise since their affiliates are "the local point men" that draw in viewers and advertisers. George Bryant, director of communications for Satellite TV Week magazine, said direct broadcast systems remain "a technology that's looking for a market."

Satellite dishes today provide their viewers with 256 channels, while a direct broadcast system such as Sky Cable remains several years off and relies on technology that is still under development, he said.

Sky Cable representatives said that the system needed about three million subscribers willing to pay the projected $25 to $30 monthly users fee in order to break even.

#90053u1694 02/22/1990 ~United Press International

DALLAS (FEB. 22) UPI - The team of Parsons Brinckerhoff of New York, Morrison Knudsen of Boise, Idaho, and CRSS Inc. of Houston was selected as architect, engineer, and construction manager, respectively, for the Superconducting Super Collider project.

The firms, bidding as one of 14 teams, will be responsible for designing and building the physical facilities of the collider laboratory over the next eight and a half years at a cost of $1 billion. Much of the money will go to subcontractors.

Their selection was announced by Roy Schwitters, director of the high-energy physics particle acclerator lab to be built in Ellis County, 30 miles south of Dallas.

The team will be responsible for building more than 60 miles of tunnels, four underground chambers for experimental equipment, a campus complex on the western side of the acclerator ring near Waxahachie, Texas, and another on the east side near Ennis, Texas. The tunnels will house the main acclerator ring, measuring 54 miles in circumference, and a series of four booster acclerators.

The team, Schwitters said, will next submit a cost proposal and negotiate a formal contract with the Universities Research Association, which manages the lab for the Department of Energy. This is expected to be completed by summer.

Scientists hope the collider, the cost of which was originally estimated at about $5.9 billion over nine years, will enable them to unlock secrets of the small building blocks of matter.

The project's cost could perhaps go as high as $8 billion if suggested design modifications are implemented. Much of the money would be spent to acquire sophisticated and large-scale technical systems, including a series of giant magnets.

#90053u1728 02/22/1990 ~United Press International

CHICAGO (FEB. 22) UPI - Farley Inc. expects to finalize the long-stalled sale of Cluett, Peabody & Co. to a French clothier next month, providing a much-needed infusion of cash for its troubled $1.6 billion acquisition of West Point-Pepperell Inc., a Farley source said Thursday.

"It's my understanding that a tentative agreement has been reached and that a contract will be signed in early March," the source indicated. He refused to disclose the expected sale price but acknowledged it will be "somewhat less" than the $600 million figure Farley Chairman William

Farley quoted last November when he announced plans to sell Cluett, Peabody to France's Biddermann S.A.

Farley, pinched for cash to complete his acquisition of West Point-Pepperell, has been under pressure to complete the Cluett, Peabody sale. West Point stock nosedived earlier this year - falling to a 52-week low of $28.125 amid reports the Cluett, Peabody sale had hit a snag and that Biddermann had reduced its offer to $520 million.

Farley had been banking on the sale of Cluett, Peabody, a West Point-Pepperell subsidiary and maker of Arrow shirts, to help pay off high-interest bridge loans used to make the acquisition.

Farley Inc.'s takeover vehicle, West Point Acquisitions Corp., acquired 95 percent of West Point, Ga.-based West Point-Pepperell last April in a bitter takeover battle that dragged on for six months.

That step in the takeover was financed by $1.4 billion in bridge loans, a mix of high-interest bank loans and junk bonds. Farley was to obtain permanent financing to pay off those loans and acquire the remaining five percent of West Point stock by last November. But hard times in the junk-bond market made it impossible for Farley to put together workable permanent financing.

A consortium of banks that provided more than $1 billion of the bridge financing for Farley's acquisition of West Point - including Wells Fargo Bank and Bankers Trust Co. - agreed to extend the financing until March for higher interest rates.

The banks have indicated they will grant another extension, until June, if necessary to complete the sale of Cluett, Peabody. Analysts said problems in the junk-bond market and softness in the menswear industry have eroded the value of Cluett, Peabody.

West Point-Pepperell paid $513 million for the company in 1986 but several analysts have said that, given current market conditions, the sale could bring Farley less than that.

Chicago-based Farley Inc., is a diversified, privately owned company with assets of $1.5 billion, operating such manufacturing businesses as Fruit of the Loom, in which it holds a controlling 19.5 percent interest, Acme Boot and Doehler-Jarvis.

Farley officials said that, upon completion of the West Point-Pepperell takeover, West Point would be held as a wholly owned subsidiary of Farley Inc. and kept separate from Fruit of the Loom, which is publicly held.

Farley has insisted West Point-Pepperell is a natural addition to Farley

Inc.'s textile holdings, which include Fruit of the Loom. But analysts have questioned the fit, saying there is little common ground between Fruit of the Loom's underwear business and the Pepperell's line, which aside from Arrow shirts, consists primarily of bed and bath textiles.

#90053u1799 02/22/1990 ~United Press International

WASHINGTON (FEB. 22) UPI - Work on the B-2 stealth bomber should be slowed to see if testing reveals any expensive flaws, a senior congressional official said Thursday, and the program will cost more than the $70 billion now advertised.

Frank Conahan, in charge of national security programs for the General Accounting Office, the investigative arm of Congress, also said cost estimates for the plane's electronic defenses have tripled in three years because of inflation, price changes, manufacturing problems and design changes.

Conahan's testimony spelled more bad news for the bat-winged plane designed to be nearly invisible to radar because of its shape and composite material construction.

Costs will go up ''several billion dollars,'' he said, because a new inflation figure being calculated in the latest five-year defense plan has added $51 billion to defense costs, some of which will affect the B-2. The estimate also will go up because of a recent strike at the Boeing Co., a subcontractor to Northrop on the project.

The administration wants about $5.5 billion in fiscal 1991 for five planes and research on the novel program.

The question facing Congress is whether to stick with the spending plan developed by the Air Force, which would devote $5.5 billion to the plane this year and $8 billion or more a year over the next few years, or to slow production to await more testing or even halt it entirely to await test results.

Conahan testimony came before the House Armed Services Committee's defense policy panel at a jammed hearing also attended by members of Congress who are not on the panel but whose districts have thousands of B-2 jobs at stake.

Those members said Northrop, the prime contractor, estimates that halting production will drive the overall cost of the plane up $4.2 billion a year. But Conahan said the firm had suggested a week ago it might be $1 billion a year.

''Under the current acquisition plan, 31 aircraft will be on order and over $48 billion appropriated before anyone knows whether the B-2 can actually do its job,'' he said.

''We believe that it would be prudent to reduce the pace of funding and production for the B-2, to limit up-front investment until the critical performance elements of the aircraft are adequately evaluated,'' said Conahan, acknowledging any delay will boost the overall program cost, and cutting back on the number built would boost the per-plane figure.

Conahan suggested that the Pentagon and Northrop produce a study of what various options would do to the cost of the plane. Congress then could use the information when it finishes this year's defense bill.

Committee Chairman Les Aspin, D-Wis., said Conahan's testimony ''comes as close as I can see to saying we shouldn't buy any airplanes this year. ... That's coming right up to the edge of saying stop production.''

Conahan testified that proving the need for the bomber is not a GAO matter but from a cost standpoint, ''We would be in a much better position if we knew what we were buying at this time.

''I'm suggesting that if we took some period of time and have the Department of Defense work with the contractor to find out what the real cost would be to delay, and if it isn't an awful lot, then I think I would concur in a decision to delay this airplane,'' he said.

At the Pentagon, spokesman Bob Hall said the GAO report had not been examined, but noted that the Defense Department has a review underway on the B-2 and three other aircraft programs. Those are expected to be completed by April.

Congress is edgy about the B-2 not only because of its cost but also because its predecessor, the B-1, was only halfway through testing when the final plane was bought. Subsequent testing has found serious deficiencies in the plane's offensive and defensive electronics equipment, leading to costly additional spending to improve the plane's ability to penetrate Soviet airspace.

One B-2 has been delivered and has logged just 1 percent of the program's flight test hours. Congress already has approved $26.8 billion for six developmental and 10 production aircraft. Overall, 133 are to be built, with five of the six developmental planes later converted to operational use.

#90053u1904 02/22/1990 ~United Press International

AKRON, OH (FEB. 22) UPI - Uniroyal Goodrich Tire Co. reported Thursday fourth-quarter earnings of $9.8 million, up 85 percent from $5.3 million in the fourth quarter of 1988.

The company, which is not publicly traded, reported fourth-quarter revenues of $580 million, down from $589.8 million in the comparable quarter of 1988.

For 1989, the company reported a dramatic fall in earnings, down to $1.1 million from $11.8 million in 1988, reflecting partly the pending acquisiton of the company by Michelin & Co., based in Clermont-Ferrand, France.

Sales in 1989 rose to $2.27 billion from $2.19 billion in 1988.

Uniroyal Goodrich said 1989 income was adversely affected by increased interest expenses of $30.7 million on additional debt related to the company's June 1988 recapitalization, and a $29 million one-time charge for deferred employee compensation relating to the proposed purchase of the company by Michelin.

#90053u2037 02/22/1990 ~United Press International

DETROIT (FEB. 23) UPI - The nation's auto producers are expected to build 12.4 percent more cars this week, although truck production will decline 0.8 percent from last week, Ward's Automotive Reports said Thursday.

Manufacturers plan to build an estimated 137,805 cars through this Saturday, up from 122,618 cars last week but below the 146,691 cars built during the year-ago week, Ward's said.

Ford Motor Co.'s luxury car plant in Wixom, Mich., is scheduled to work daily and weekend overtime, while General Motors Corp. Cadillac Allante roadster production at its Detroit-Hamtramck plant has been suspended due to a customs strike in Italy, where the car bodies are built and shipped from.

U.S. truck production is estimated to slip 0.8 percent this week to 82,034 units, from 82,692 units built in the previous week, the statistical service said. Truck production in the year-ago week totaled 93,667 trucks.

All domestic trucks plants are in operation this week, Ward's said.

Total 1990 U.S. car production through the end of the week is estimated at 765,189 units, down 35.4 percent from 1,184,011 cars built in the year-ago period because of widespread plant closings last month to trim bloated inventories due to lackluster sales.

Truck production so far this year is down 31.1 percent to 495,683 units, from 719,172 trucks made in the comparable 1989 period, Ward's said.

-30- 1570

#90053u2065 02/22/1990 ~United Press International

NEW YORK (FEB. 22) UPI - Exxon Corp. said Thursday it was charging $300 million more than previously reported against its 1989 earnings as a result of additional anticipated costs related to the Alaska oil spill cleanup.

As a result, the company said it was revising its recently reported earnings of $3.81 billion, or $2.98 a share for 1989, down from $3.51 billion, or $2.74 a share in 1988.

"The provision includes anticipated additional cleanup and environmental restoration provisions, as well as litigation and related costs," said a company statement.

It said "new developments and assessments," which came after the 1989 earnings were reported last month, led to the revised estimate of future costs related to the cleanup of the March 24, 11 million-gallon spill caused by the Exxon Valdez tanker.

The company said Wednesday it agreed to resume cleaning the remnants of the spill still fouling Alaska shores. The cleanup operations are to resume in May.

At one time, there were doubts that the company would resume the cleanup operations, which were halted in September with the onset of winter weather. Company executives had expressed hope that rough winter seas would scour shores and complete the cleanup.

The company said the latest charge brings the total writeoff against 1989 earnings to $1.68 billion. Taking tax deductions into account, this would bring the company's total cost to more than $2.5 billion.

Allowing for at least an additional $400 million covered by insurance, the total cleanup cost could total about $3 billion. Surveys showed that up to 117 miles of the 350 miles of Alaska shoreline affected by the spill still remained covered with oil to some extent.

The announcement Wednesday in Anchorage that Exxon would resume the cleanup beginning May 1 was made by Coast Guard Rear Adm. David Ciancaglini at a meeting of Exxon and government agencies involved in the massive oil spill.

"We've always said we're going to do whatever the Coast Guard asks," said

Otto Harrison, Exxon general manager for the cleanup. Exxon, however, won't return with last summer's army of 12,000 workers and barges mounted with high-pressure hot-water hoses, Harrison and Ciancaglini said.

A smaller force of Exxon workers is expected to attack remaining oil with shovels, tilling, excavation, booms, oil-eating bacteria and whatever else will work on the crude left in the environment, the admiral said.

Alaska state officials greeted the announcement with cautious optimism. They have long clamored for Exxon to return to the job, but were uncertain just how much cleaning Exxon was going to do.

-30- 2883

#90053u2081 02/22/1990 ~United Press International

ANCHORAGE, AK (FEB. 22) UPI - A Coast Guard officer testified Thursday in the trial of fired Exxon Valdez Capt. Joseph Hazelwood that the skipper violated regulations by leaving the ship controls during the tanker's fateful trip out of Prince William Sound.

Lt. Cmdr. Thomas Falkenstein also testified that when he reached the grounded tanker shortly after it hit Bligh Reef early March 24 that he smelled alcohol on Hazelwood's breath.

Falkenstein said every vessel traveling through Prince William Sound must have an officer on board with a special endorsement on his mariner's license that allows him to command a vessel through those waters.

Since Hazelwood was the only officer aboard the Exxon Valdez with a Prince William Sound pilotage endorsement on his license, he was required to be in control of the tanker, Falkenstein said.

Falkenstein testified that it was improper for Hazelwood to leave the bridge to do paperwork while the third mate and a helmsman took over and wrecked the ship.

Prosecutors maintain that Hazelwood's absence from the controls during a detour around icebergs was reckless and set the stage for the ship's collision with underwater rocks, resulting in the nation's worst oil spill.

Defense lawyers sought to show that the Coast Guard had taken several steps to ease Prince William Sound license requirements and that the third mate running the ship knew everything a licensed officer for those waters needed to know anyhow.

But Falkenstein was unflappable, refusing to budge from his insistence that the Exxon Valdez was being operated in violation of Coast Guard standards when it crashed into Bligh Reef and released nearly 11 million

gallons of oil into the pristine waters.

Despite constant hammering by the defense, Falkenstein presented himself as a solid wall supporting the prosecution.

Vessels traveling without licensed officers must notify the Coast Guard in advance and arrange to have a local ship pilot on board during the transit through the sound, the Coast Guardsman said.

Falkenstein also testified that Prince William Sound ice conditions were worse than usual last March and were the subject of complaint by at least one other Exxon tanker, but that the Coast Guard never closed the oil port because of icebergs.

Although the Coast Guard manual used by the vessel traffic control center in Valdez states that ships are being monitored by radar arriving and departing Valdez, Falkenstein said, radar does not always reach to Bligh Reef, where the tanker ran aground.

The Exxon Valdez was off radar at the time of the wreck, but soon suddenly popped up on radar again.

Hazelwood, 43, of Huntington, N.Y., is charged with reckless endangerment, operating the Exxon Valdez while intoxicated, negligent discharge of oil and criminal mischief. The three misdemeanors and a felony carry a maximum punishment of seven years and three months in jail and a $61,000 fine.

#90053u2106 02/22/1990 ~United Press International

NEW YORK (FEB. 22) UPI - Integrated Resources, Inc., the nationwide financial services company that filed for bankruptcy last week, reported Friday a third-quarter deficit of $183.8 million as a result of businesses being sold below value, bringing its nine-month deficit to $1.22 billion.

In the third quarter of 1988, the company reported a $3.8 million profit on paper.

''Integrated's losses for the third quarter resulted primarly form write-downs in the carrying value of assets relating to certain publicly-offered investment programs which Integrated has recently determined to sell,'' the company said.

Revenues declined from $104.3 million in 1988's third quarter to $33.4 million in 1989, Integrated said in its unaudited statement.

The nine-month loss of $1.22 billion compares with a profit of $23.7 million in the comparable period of 1988.

Nine-month revenues were $214.2 million compared to $318.2 million in the same 1988 period, Integrated said.

Integrated chairman Stephen Weinroth last week said the company currently has outstanding debts of $1.6 billion and assets of a little more than $700 million.

Several years ago, Integrated was forced to move away from is main business of tax shelters as changes in the tax laws made these investments less profitable.

The company incurred substantial debt, much of it financed by junk-bond dealer Drexel Burnham Lambert, in an attempt to move further into other financial services such as insurance, mutual funds and real estate partnerships.

#90053u2247 02/22/1990 ~United Press International

CHICAGO (FEB. 22) UPI - UAL Corp. directors got a status report Thursday on progress toward a new buyout proposal by United Airlines employees, but a board spokesman said no proposal was presented.

The board authorized the release of proprietary financial information to representatives of the employee groups for use in developing the expected bid.

''The entire board stands ready to receive a fair and financed offer from employee groups and will give any such offer prompt consideration,'' UAL Chairman Stephen Wolf said following the board's regular monthly meeting Thursday.

A UAL statement, however, emphasized: ''There can be no assurance that any acquisition proposal will be made by employee groups or any other party or that, if made, the board will determine that such proposal is in the best interest of UAL shareholders.''

Wolf, who engineered a $6.75 billion, $300 a share employee-led buyout bid that collapsed last fall for lack of financing, has been left out of the new efforts to mount an employee buyout.

The Wall Street Journal reported Thursday that Wolf was lobbying against any employee bid in which he was not a participant, but that report could not be independently confirmed.

Under last fall's failed proposal, a management group led by Wolf would have taken a 15 percent stake in UAL, with employees getting 75 percent and British Airways 10 percent.

UAL stock crashed when that deal collapsed, dropping from more than $290 a share to around $120 before new buyout talk perked market interest. But it was down again Thursday in trading on the New York Stock Exchange, shedding $5.75 to close at $126.50.

Neither Wolf nor British Airways has any role in the new buyout plan, as presently envisioned, company and UAL union sources said.

Wolf last week joined the panel of UAL directors assigned to review buyout bids.

And all three United unions - the Airline Pilots Association, the Association of Flight Attendants and the International Association of Machinists - have indicated they would rather not have Wolf at the helm of an employee-owned UAL.

Employee representatives have since interviewed several prospective candidates for Wolf's job.

Union officials and associates of Wolf both said it was unlikely he would remain with UAL following an employee buyout unless he had some personal stake in the company.

Analysts, however, have suggested that employees might find it difficult to get financing for their bid without Wolf.

And Fred Dubinsky, chairman of the United chapter of the pilots' union, has said ALPA, the flight attendants union and even the machinists - who most vehemently opposed Wolf - all were willing to give him a stake in the deal if necessary to get it financed.

No price estimated has been placed on the expected employee proposal, but investment banking sources have suggested lenders are likely to use a worst-case scenario in determining the company's market value - and determining how much they would be willing to lend.

That would mean employees could have problems coming up with bank financing for a deal even at $180 a share. The impact of the collapse of Drexel Burnam Lambert on the ''junk bond'' market would also tend to reduce chances of raising some of the financing in the bond market.

One analyst said, off the record, that he doubted employees could come up with enough equity to make an all-cash bid of more than $150 a share. He

suggested any offer higher than $150 would likely be a combination of cash and preferred stock, unless the employee group managed to line up an outside equity partner.

#90053u2396 02/22/1990 ~United Press International

NEW YORK (FEB. 23) UPI - Eastern Airlines and its unsecured creditors said Thursday they have agreed on a reorganization plan that includes participation by the carrier's parent Texas Air Corp. to enable Eastern to emerge from bankruptcy protection in several months.

Under the agreement, the unsecured creditors, who were owed an estimated $980 million by Eastern, would receive $490 million, or about 50 cents on the dollar.

The settlement includes $300 million in cash to be paid by Eastern and $190 million in secured notes, half of which would be issued by Eastern and the remainder by Continental Airlines, its sister carrier, the committee said.

The Eastern notes also would be unconditionally guaranteed by Continental. Both carriers are owned by Texas Air. The unsecured creditors had been seeking assurance that Continental or Texas Air would back the notes, rather than the weaker Eastern.

"Texas Air Corp. and Continental... as a result of today's agreement would in effect, assist in the recapitalization of Eastern and provide a fresh start for the airline," Eastern said in a statement.

The unsecured creditors committee said, in its statement, that the "agreement with Eastern and its affiliates provides a solid foundation for a successful and prompt reorganization."

Last month, Eastern offered to pay creditors ten cents on the dollar initially, and an additional 70 cents on the dollar over ten years, without interest. In addition, Eastern said those creditors would share in a new issue of preferred stock with a liquidation value of $80 million, convertible into 40 percent of the common stock of the company. Eastern's earlier plan received a chilly reception from creditors.

Under the new plan, all of the equity in the newly recapitalized Eastern would be acquired and held by Texas Air or Continental, Eastern said. The unsecured creditors include Boeing, General Electric, Airbus and other companies owed money by Eastern, which filed for Chapter 11 bankruptcy protection in March after unions for its machinists, pilots and flight attendants launched crippling strikes.

The agreement announced Thursday was denounced as "woefully inadequate" by

the Air Line Pilots Association, which represents Eastern's pilots. "We are surprised that the creditors would entertain a proposal whereby they would sell out so easily at less than 50 cents on the dollar," the pilots' union said. "Eastern workers will be particularly hard hit as this would include their claims."

Eastern's agreement with the unsecured creditors was reached late Wednesday and approved by the full committee Thursday, Eastern said. The $190 million in non-convertible notes will pay 15 percent interest over eight years, and no principal payments would be made on the notes during the first two years, Eastern said.

Eastern's reorganization plan also must be approved by the carrier's other creditors before it is submitted to the bankruptcy court. Eastern's secured creditors are owed $1.175 billion. The carrier also owes $1 billion in claims such as pre-petition ticketholders, health benefits to retired employees, pension plan obligations and outstanding employee wage claims.

The agreement with the unsecured creditors is conditional upon the sale of Eastern's South American routes and related facilities to American Airlines, and on the carrier reaching a "satisfactory resolution" of its labor disputes with the pilots' and flight attendants' unions. Both unions abandoned their walkouts in November, although the International Assocation of Machinists remains on strike.

The agreement also is contingent upon Eastern reaching an agreement with the bankruptcy court-appointed examiner, who is conducting an investigation of the carrier's pre-petition transactions. The examiner's report is scheduled to be presented to the bankruptcy court by March 1.

Earlier this month, Eastern posted losses of $852.3 million for 1989 after asset sales. The airline expects to lose another $155 million in the first six months of 1990.

#90053u2429 02/22/1990 ~United Press International

ORLANDO, FL (FEB. 22) UPI - Braniff Inc. agreed Thursday to surrender its 29 gates at Kansas City International Airport, sell the lease to three others in Orlando and conceded that it is now liquidating its assets.

''Although nobody's saying it, what this says is, 'Ain't gonna be no more airline,''' said U.S. Bankruptcy Judge C. Timothy Corcoran III.

''And that is so, your honor,'' said Braniff attorney Joel Shapiro. ''We accept that as fact.''

The gates at its former hub had gone unused since Braniff halted

commercial passenger traffic on Nov. 7.

Braniff owes Kansas City $2.4 million in lease payments on the gates, plus $500,000 in other expenses, city officials said.

In a settlement reached Thursday, the city agreed to reduce its priority payment claim to $500,000 and allow the remaining $2.4 million to be classified as unsecured debt, meaning the city would likely recover a very small portion of that once Braniff assets are sold and the cash is dispersed among creditors.

Full payment of priority claims is not certain, but David Murchison, Braniff's chief executive officer, said Kansas City ''would have every reasonable expectation of getting the $500,000.''

The settlement must still be approved by Corcoran. A hearing is scheduled Mar. 1.

Braniff filed for Chapter 11 bankruptcy protection on Sept. 28. Its shutdown crippled air travel in Kansas City. The carrier had offered 93 daily flights from Kansas City. Other airlines have since introduced new flights, and 35 flights have been added or planned to fill the void.

Kansas City attorney James Mordy said it was impossible to say how much of the $2.4 million KCI would collect.

''It's all a shot in the dark,'' he said.

''Let's just say we won't be spending the money,'' said Delbert Karmeier, the city's director of aviation.

During discussions about a deadline for claims, Corcoran suggested Braniff might end up as a ''non-asset case.''

''For unsecured creditors it could be,'' he said.

United Airlines agreed to buy Braniff's lease for three gates at Orlando International Airport for $2.5 million.

Midway Airlines, which has no gates in Orlando, had been negotiating for the lease since last fall and had finalized its $2.25 million contract with Braniff attorneys when United made the higher offer Wednesday evening Shapiro said.

Midway did not boost its offer and Corcoran agreed to sell the gates to United, which already has three gates at Orlando.

United executive Michael Matthews said the Chicago carrier expected to add

flights to Orlando and begin using the gates in September.

Attorneys for the Teamsters and Airline Pilots Association urged Corcoran to block the sale.

''There are deals being discussed in the background. ... This is the type of asset that should be preserved and should not be sold,'' said Teamsters attorney Sanford Denison. ''It should be preserved with the hope that a deal can be completed very shortly that could create jobs for the debtor.''

However, Corcoran said, ''There doesn't appear to be much hope of rehabilitaiton.''

#90053u2454 02/22/1990 ~United Press International

TORONTO (FEB. 23) UPI - Communications giant Southam Inc. reported Thursday annual earnings for 1989 of $75.1 million, or $1.28 a share, down from $170.3 million, or $2.86 a share, in 1988.

Revenues for the year rose 7 percent to $1.38 billion from $1.31 billion in 1988.

Southam said its earnings actually improved close to 21 percent in 1989 from 1988 if an extraordinary gain of $109.8 million in 1988 from the sale of its investment in Selkirk Communications Ltd. is taken into account.

The Southam newspaper group and a chain of retail book stores combined with lower debt interest payments to push earnings up, Southam said.

Southam said its newspaper group benefited from lower newsprint prices and cost controls despite soft advertising linage and a decline in run-of-press linage.

The Southam business information and communications group reported a 20 percent increase in revenues compared with 1988 resulting from an aggressive acquisitions program.

On Feb. 1, Southam announced its board of directors adopted a shareholders rights plan. A five-year old standstill agreement between Southam and Toronto-based publisher Torstar Corp. is set to expire June 30.

Southam is a communications company with interests in daily and community newspapers, book retailing and business information products and services.

The dailies are published in cities throughout Canada, including Montreal, Ottawa, Edmonton, Calgary and Vancouver.

#90053u2540 02/22/1990 ~United Press International

FULTON, Mo. (FEB. 23) UPI - Officials of Union Electric Co. will meet next week with officials of the federal Nuclear Regulatory Commission to discuss allegations the utility committed security violations at its Callaway nuclear plant near Fulton, an NRC spokesman said Thursday.

The meeting will be held next Tuesay in Glen Ellyn, Ill., a suburb of Chicago, Jan Strasma, the NRC spokesman, said in a telephone interview.

Federal officials allege that Union Electric on three separate occasions last year left cabinets containing security information unlocked at the nuclear plant. The company notified the NRC of the lapses, Strasma said.

''The utility during its own internal inspection activities found that a storage cabinet containing security plant information was unlocked,'' he said, noting the incidents occurred on three separate occasions between October and December of last year.

As a result of its investigation, the NRC could impose penalties on Union Electric ranging from a censure and notice of violation up to a possible fine of $100,000. The incidents probably will be grouped together and considered as one violation, Strasma said.

The information that was left unlocked contained details about the plant's security system, including combinations to door locks in restricted areas of the plant, information about alarm systems and other sensitive security documents, federal officials said.

''The problem would be its detailed information on the security systems at the plant,'' Strasma said. ''In the hands of someone seeking to damage the plant, it would be detrimental.''

The NRC has acknowledged that no material was missing from the area and that there was no indication of unauthorized personnel in the area at the time the cabinets were unlocked.

''The actual impact of the cabinets being unlocked is small but clearly a breakdown in the control of security information,'' Strasma said.

Union Electric officials also emphasized that no materials were missing.

''We don't see that information as all that sensitive,'' said Tom Dehner, a spokesman for the utility. ''First of all, none of those documents in those files were missing. All those documents were in a restricted area, so not just anyone and everyone had access to it.

''We took quick action to remedy the situation,'' he said. ''We identified it and reported it to the NRC. We've taken some steps to make sure that situation won't occur in the future.''

Dehner said Union Electric officials would attend next week's meeting. Strasma said the meeting would be used to review the findings of the agency's inspection into the matter and the utility's responses to eliminate such problems in the future.

Strasma said the problem was unusual because ''Callaway has been one of the better-performing plants in the region.''

The meeting between utility officials and the NRC will be the first in more than a year to formally discuss potential violations, Strasma said.

The Callaway plant in Callaway County, about 95 miles west of St. Louis, is the only nuclear power facility in Missouri. It provides 25 percent of the electric power for the city of St. Louis, and also supplies power to areas of Illinois and Iowa.

#90053u2568 02/22/1990 ~United Press International

LOS ANGELES (FEB. 23) UPI - Stock in First Interstate Bancorp rose $1 a share Thursday after the bank holding company disclosed it has right of first refusal on stock owned by its largest shareholder, a partnership affiliated with Kohlberg Kravis Roberts & Co.

The right of first refusal makes it more difficult for a bidder to mount a takeover bid for First Interstate, which is viewed as vulnerable to such offers.

First Interstate said in a filing with the Securities and Exchange Commission that it has a two-year right of refusal on the sale of the KKR shares, which amount to slightly less than a 10 percent stake.

The partnership bought 3.5 million shares of First Interstate last week in a 7.5 million share stock offering, which First Interstate designed to bring its capital level up to required levels after a series of setbacks at its Arizona and Texas banks.

First Interstate's stock rose $1 to $36 a share Thursday on the New York Stock Exchange.

KKR is an investment firm specializing in leveraged buyouts.

#90054b0005 02/23/1990 ~Business Wire

OSHKOSH, WI (FEB. 23) BUSINESS WIRE - OshKosh B'Gosh Inc. (NASDAQ: GOSHA) Friday announced an agreement in principle to acquire Poron's Absorba business for the purpose of licensing and manufacturing the Absorba brand of children's apparel in the United States.

Absorba Inc. is the U.S. subsidiary of Poron, a leading manufacturer of children's clothing based in Troyes, France. Poron's brands, including Absorba, are sold worldwide.

Absorba has two manufacturing plants in the United States. Under the agreement, the Absorba business will be conducted by a wholly owned subsidiary of OshKosh B'Gosh.

The new agreement coincides with OshKosh B'Gosh and Poron's previously announced plans to form a joint European venture, to be called OshKosh B'Gosh Europe. Both agreements are to become effective in March.

OshKosh B'Gosh Europe, to be majority controlled by OshKosh B'Gosh Inc., will make children's and youth wear with the OshKosh B'Gosh label in European sizes corresponding to U.S. boys and girls sizes 0-14. The clothing, to be sold throughout Europe, will debut in the spring season of 1991.

When the initial joint venture agreement between OshKosh B'Gosh and Poron was announced last November, it was anticipated that OshKosh B'Gosh would take a minority interest in Absorba Inc. However, C.F. Hyde, chairman and chief executive officer of OshKosh B'Gosh, said that as terms of the transaction were being worked out with Poron, ''We mutually agreed that OshKosh B'Gosh needed to take a more active role in Absorba's operations in the United States.''

Harry Krogh, who was named president of OshKosh B'Gosh earlier this year, said that Absorba will be maintained as an autonomous unit with separate manufacturing, sales and marketing staffs. It is also anticipated that Absorba Inc. will keep a presence in New York City, where it currently is headquartered.

Poron, publicly held and traded over the counter in France, reported 1989 sales of 753 million francs, or approximately $130 million U.S.

OshKosh B'Gosh Inc., Oshkosh, is an internationally recognized manufacturer of children's wear, adult sportswear and work wear. It reported sales of $315 million in 1989.

#90054b0010 02/23/1990 ~Business Wire
INDIANAPOLIS (FEB. 23) BUSINESS WIRE - Sprint Services, which provides operator services for US Sprint, will initiate service in Indianapolis Friday when it opens the fifth of its regional operations centers.

Sprint Services provides assistance in placing person-to-person, collect and credit-card calls for customers dialing from business, residential and pay telephones pre-subscribed to US Sprint Communications Co.

Sprint Services employees will begin accepting calls on Friday after technicians cut over the first of 14 switches on the US Sprint nationwide fiber-optic network which will route calls to the Indianapolis center.

The Indianapolis center is the fifth to be opened by Sprint Services since June 1989. The company's other four centers presently in operation are located in Overland Park, Kan.; Nashville, Tenn.; Phoenix, Ariz.; and Richmond, Va. A sixth center in Jacksonville, Fla., will begin service in May.

Sprint Services' business unit will bring up to 500 new jobs, most of which are customer agent positions, to the Indianapolis area within the next two years. ''We're creating a non-traditional work environment with well-trained customer agents,'' said Mary Hogan, director -- operations for Sprint Services' Indianapolis and Nashville centers.

''Our customer service capabilities represent the highest standards in the industry. Our participative training and leadership approach highlights professionalism, problem solving and service, enabling agents to manage their own performance and careers.''

Sprint Services initially will provide call assistance exclusively for US Sprint customers and in the future will expand its market coverage to include local exchange carriers and other telephone traffic.

Sprint Services is headquartered in Overland Park. Another division of Sprint Services, Sprint Gateways, offers a full-line of products in the ''900'' pay-per-call industry by using US Sprint's all-digital fiber-optic network.

Sprint Services and US Sprint are units of United Telecommunications Inc., a diversified international telecommunications company based in Kansas City, Mo.

DENVER (FEB. 23) BUSINESS WIRE - TRI-R Systems Corp. (NASDAQ:RRRC), a Denver-based diversified recycling firm, Friday reported increased revenues and net income for the quarter and six months ended Jan. 31, 1990.

TRI-R reported revenues of $1,929,052 for the second quarter of fiscal 1990, a 19 percent increase over revenues of $1,613,808 for the second quarter of fiscal 1989.

Net income for the second quarter of fiscal 1990 was $13,648, or zero cents per share, compared with a net loss of $141,403, or a loss of 4 cents per share for the second quarter of fiscal 1989.

For the first six months of fiscal 1990, TRI-R reported revenues of $4,307,546, a 31 percent increase over revenues of $3,284,156 for the first six months of fiscal 1989.

Net income for the first six months of fiscal 1990 was $127,143, or 4 cents per share, compared with a net loss of $227,626, or a loss of 7 cents per share, for the first six months of fiscal 1989.

Headquartered in Denver, TRI-R Systems Corp. operates in Colorado, Wyoming and Arizona. The company purchases a wide range of reusable materials from consumers, business and government, processes these materials, and

sells them to domestic and foreign manufacturers.

Commodities purchased include aluminum cans and scrap aluminum, glass, copper, brass, stainless steel, plastic containers, and a variety of paper products including computer paper, office paper, newspaper and cardboard.

The company's stock trades on the over-the-counter market (NASDAQ) under the symbol RRRC.

LAS VEGAS (FEB. 23) BUSINESS WIRE - MGM Grand Inc. Beverly Hills, Calif. (NYSE: MGG) announced the completion of its acquisition of the Tropicana Hotel Golf Course property.

The 113-acre Tropicana Golf Course, along with the previously purchased Marina Hotel & Casino, will become the site of the new MGM Grand Hotel & Theme Park.

The purchase of the Tropicana Golf Course supplements the development phase of MGM Grand's new 5,000 room hotel which will make it the largest hotel complex in the world. Construction will begin this Fall (1990) and is expected to be completed in 1992.

According to Clifford S. Perlman, chairman and chief executive officer of the MGM Grand Hotel and Theme Park, "The closing of the escrow on the Tropicana Golf Course property brings MGM Grand's plan to build the largest hotel and theme park in the world to Las Vegas, a town we've certainly known for many years."

"The MGM Grand Hotel & Theme Park will employ over 7,000 people, and will be built at an estimated cost of $700 million. We are looking to accommodate the growing and emerging visitor market to Las Vegas, ranging from high rollers and conventioneers, to tour & travel groups and families.

With MGM Grand building the first large-scale hotel & entertainment complex and theme park, we look forward to becoming an integral part of this growth," Perlman stated.

MGM Grand also operates the Desert Inn and the MGM Marina Hotel in Las Vegas as well as MGM Grand Air, the all first-class luxury airline which provides scheduled service between Los Angeles and New York.

PALO ALTO, Calif. (FEB. 23) BUSINESS WIRE - Varian TVT Ltd., a division of Varian Associates Inc. in Cambridge, England, has received a $10 million contract to supply the Independent Broadcasting Authority (IBA) in the United Kingdom with 26 solid state UHF television transmitters.

The transmitters are of a completely new design which uses solid state amplifiers in place of the electron tubes used in the units they will replace. According to John Wills, managing director of Varian TVT, ''the transmitters will bring greatly increased reliability, efficiency and ease of maintenance.''

They will be supplied in a range of sizes which allows the IBA to operate its stations with transmitter output power in the range of 10 to 20kW.

The transmitters are part of the IBA's re-engineering and modernization program and will be installed in IBA stations at Hannington, Oxford, Rowridge, Waltham, Stockland Hill, Tacolneston, Craigkelly, Heathfield, Sudbury, Dover, Belmont, Redruth, and Selkirk.

''To our knowledge, this order is the largest ever placed for solid state UHF television transmitters,'' said Wills. ''It signifies the full acceptance of this technology in the European broadcast market. The IBA are sophisticated and technically demanding customers, and we believe this contract award confirms Varian TVT as the technology leader in Europe.''

Varian Associates, Inc., a diversified, high-technology company with some 12,000 employees and 1989 sales of $1.3 billion, produces systems and components for communications, defense, scientific, medical, and industrial markets worldwide.

LAS VEGAS, NE. (FEB. 23) BUSINESS WIRE - Las Vegas Discount Golf & Tennis Friday announced its year-end earnings for the period ending Dec. 31, 1989.

For the year ended Dec. 31, 1989, the company had a net income of $248,504 or 5 cents per share, as compared to a net loss of $188,456, or 4 cents per share, for the year ended Dec. 31, 1988.

Total revenues for the year-ended Dec. 31, 1989, amounted to $8,561,040, as compared to total revenues of $8,129,990 for the year-ended Dec. 31, 1988, representing an increase in total revenues of $431,050, or 5 percent.

During the year-ended Dec. 31, 1989, the company opened 23 franchise stores, resulting in franchise fee income of $900,000 as compared to franchise fee income of $600,000 for the like period in 1988.

Las Vegas Discount Golf & Tennis Inc. is engaged in the sale of a variety of golf and tennis equipment, apparel and accessories through a nationwide chain of franchised retail stores and mail-order catalogs.

NEWPORT BEACH, CA (FEB. 23) BUSINESS WIRE - Downey Savings and Loan Association (NYSE:DSL) Friday reported a net loss of $9,419,000, or 58 cents per share, for the final quarter of 1989.

These results follow the establishment of a $20.7 million reserve on the company's real estate holdings and commitments of approximately $590 million. In addition, $1.6 million in reserves were set aside for loans. For the like quarter of 1988 a net profit of $12,851,000, or 80 cents per share was posted.

Gerald H, McQuarrie, chief executive officer of Downey Savings, in making the announcement said: ''Even after providing substantial reserves of $22.3 million in the fourth quarter, the company realized a net gain of $13,645,000, or 85 cents per share, for all of 1989. This compares to the prior year's profit of $28,959,000, or $1.80 per share.''

On Jan. 1, 1990, Butterfield Savings, a subsidiary of the company, was formally merged into Downey Savings. This merger incorporated Butterfield's two branch offices located in Bakersfield and Santa Ana into Downey's system. This action completes Downey's involvement with Butterfield both as a caretaker under the government's management consignment program and as a wholly owned subsidiary.

Downey Savings, with consolidated assets of $4.1 billion and 49 offices throughout California, is listed on the New York and Pacific Stock Exchanges under the ticker symbol DSL.

HOUSTON (FEB. 23) BUSINESS WIRE - Charles M. Oglesby, 36, has been appointed president and chief executive officer of Wyoming-California Pipeline Company (WyCal), a partnership owned by subsidiaries of The Costal Corporation.

Wycal plans to start construction later this year on an interstate pipeline that will transport natural gas from the prolific overthrust gas fields in Wyoming to local distribution companies, electric utilities and other markets in Southern California.

Oglesby will continue to serve as executive vice president of Coastal's interstate pipeline subsidiaries, ANR Pipeline Co. and Colorado Interstate Gas Co.

Oglesby joined Coastal in 1987 from Valero Transmission Co. where he was senior vice president, marketing and transportation. Earlier he served as director of marketing & transportation for Northwest Pipeline Corp. and held positions as coordinator of legislative affairs and as gas buyer for United Gas Pipeline Co.

He is a graduate of Northeast Louisiana University and holds a law degree from Louisiana State University.

Coastal subsidiaries operate more than 19,000 miles of interstate pipeline. In addition to ANR Pipeline and Colorado Interstate Gas, other

subsidiaries are engaged in gathering, storage, transmission and marketing of natural gas.

The Coastal Corporation is a Houston-based energy holding company. It has consolidated assets of $8 billion and subsidiary operations in natural gas transmission and storage, oil and gas exploration and production, refining and marketing, coal and chemicals, and independent power production.

NEW ORLEANS (FEB. 23) BUSINESS WIRE - Tidewater Inc. (NYSE:TDW) announced Friday that it has filed a registration statement under the Securities Act of 1933, as amended, with the Securities and Exchange Commission in connection with the proposed public offering by Tidewater of 5 million shares of common stock to be underwritten by Salomon Brothers Inc. and Howard, Weil, Labouisse, Friedrichs Inc.

Proceeds from the offering will be used to repay a portion of the company's outstanding indebtedness.

Tidewater Inc. owns and operates one of the largest fleets of vessels supporting the international offshore oil and gas industry. The company is also active in natural gas compression and air compression services and has modest interest in domestic oil and gas operations, real estate and insurance.

A preliminary prospectus relating to the offering will be available from

Salomon Brothers Inc. or Howard, Weil, Labouisse, Friedrichs Inc.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

FEDERAL WAY, WA. (FEB. 23) BUSINESS WIRE - Pacific Nuclear Systems Inc., Federal Way, announced that representatives of the Nuclear Regulatory Commission (NRC) visited its Nuclear Packaging Inc. division's TRUPACT Assembly Facility (TAF) in Carlsbad, N.M., on Feb. 13 and 14 to conduct a follow-up audit to their audit of September 1989.

The audit team noted improvement in the facilities used for reviewing radiographs, in the documentation system and in quality assurance in general.

The company reviewed with the NRC in the follow-up audit the material thickness of the weld joints. The NRC has indicated that certain areas near the weld joints failed to meet the minimum thickness requirements. Thickness variations at weld joints result from the grinding required to attain the required surface finish and contour. Nuclear Packaging will be required to correct the thickness variations and the repair plan and cost estimate is currently being formulated. Nuclear Packaging Inc. is currently nearing completion of nine TRUPACT-II Packages; however, none will be released until corrective actions are completed.

Pacific Nuclear Systems Inc. and its subsidiary companies (Nutech Inc.; NuPac Services Inc.; Nuclear Packaging Inc.; PNJServices Inc.; and Alaron Corp.) provide a wide range of services to the nuclear industry. The company, founded in 1983 and headquartered in Federal Way, is traded in the NASDAQ - National Market System under the symbol PACN.

ENGLEWOOD, CO. (FEB. 23) BUSINESS WIRE - Blinder, Robinson & Co. Inc., a wholly owned subsidiary of Intercontinental Enterprises Inc., (NASDAQ:ENTI) has been informed that the Justice Department has filed criminal charges against Meyer Blinder for alleged violation of federal securities laws in 1987 and 1988 in connection with the sale of stock in three companies.

The company said the charges are baseless. Blinder and his attorneys are confident that the government will fail at trial; that he will be acquitted by a jury of his peers; and that his good name and reputation in the community will be vindicated.

The company remains uncharged and unblemished. It can and will carry on its business affairs as always in accordance with the highest standards of fair play and fair dealing.

Blinder, Robinson & Co. Inc. will continue to finance small and emerging businesses. It will continue to provide investors with the opportunity to participate in the fortunes of those businesses. It will continue its role as an active and constructive market maker. And it will continue to execute all trades that come to it.

The company said that after years of unsupportable threats and unconscionable behavior, the government has finally thrown down a gauntlet. Blinder will take up the challenge and look forward to a final judgment and proclamation of his innocence in a neutral court of law.

SAN FRANCISCO (FEB. 23) BUSINESS WIRE - Wells Fargo Bank Friday announced a $10,000 reward for information leading to the arrest and prosecution of two gunmen who robbed its Plymouth branch yesterday afternoon.

Two men with handguns entered the branch, located at 9454 Main Street in Plymouth (40 miles east of Sacramento) about 2:30 p.m. Thursday afternoon demanding that the vault be opened. The gunmen then locked the two employees and two customers in a rest room while taking a substantial sum of money.

''Our bank doesn't take threats to its customers or employees lightly,'' said Tom Warren, senior vice president and manager of the bank's Capital

district. ''We're asing the community to help us locate these criminals.''

Any person with information should contact their local FBI agency, police or sheriff's department.

CHICAGO (FEB. 23) BUSINESS WIRE - Robert E. Mullane, chairman and chief executive officer of Bally Manufacturing Corp. (BLY:NYSE), announced Friday results for the year and for the fourth quarter ended Dec. 31, 1989.

For the year, income before an extraordinary item was $25,816,000 or $0.66 per share based on revenues of $2,069,234,000. This compares to $38,001,000 or $1.12 per share on revenues of $1,932,517,000 for the same period in 1988. Net results for the year were $17,405,000 or $0.35 per share as compared to net income of $38,001,000 or $1.12 per share in 1988.

For the fourth quarter, income was a loss of $12,227,000 or a loss of $0.53 per share on revenues of $503,292,000. This compares to a loss of $7,148,000 or a loss of $0.34 per share on revenues of $476,651,000 for the same period in 1988.

Each of the company's business segments, Casino Hotels, Fitness Centers, and Products and Services, reported revenue growth for the year. Earnings were negatively impacted by investments in ongoing casino hotel expansion projects.

In commenting on the company's 1989 performance, Mullane said: ''I am encouraged by the favorable fourth quarter operating results by several companies within our Products and Services Group. Our lottery, fitness equipment and European gaming divisions all posted higher than anticipated revenue and earnings results. The fourth quarter also reflected a revenue increase in our Fitness Center business after slower than expected second and third quarter growth.''

Added Mullane, ''With the completion of the 800-room tower at Bally's Park Place in Atlantic City and the ongoing remodeling at Bally's Las Vegas, we are well positioned to meet the needs of our markets as we move into the '90s.''

In conclusion Mullane said, ''Despite the recent decline of gaming industry stocks, I feel our previously reported strong cash flow position of approximately $7.00 per share after interest and taxes will reflect favorably on the company's long-term financial and stock market

performance.''

Bally Manufacturing Corp. is a world leader in the leisure industry with four casino hotels, a nationwide network of fitness centers, and a complete line of gaming equipment, fitness products and lottery products and services.

DUBLIN, OH (FEB. 23) BUSINESS WIRE - James V. Pickett, chairman of the Pickett Cos., Friday announced that PC Development Limited Partnership, managing general partner of Pickett Suite Hotel Master L.P. I, has retained Eastdil Realty Inc., a New York investment banking firm, to advise upon the disposition of the 229-suite Disney Guest Quarters Suite Resort (formerly Pickett Suite Resort).

Pickett stated that, based upon inquiries received, prospective buyers have a significant interest in the Disney property and that its value today is substantially higher than the acquisition price previously paid by Pickett Suite Hotel Master L.P. I in 1987. Management believes that a sale at this higher value would have a favorable impact for the investors of the partnership.

The partnership also announced that the annual and fourth quarter financial results for 1989 reflect increased revenues and improved operating margins at each of the partnership's hotels compared to 1988. The cash loss for 1989 (net loss before depreciation and amortization expense) declined by 95 percent to $60,429, or $.02 per unit, from a 1988

cash loss of $1,170,903, or $.38 per unit. The cash loss during the fourth quarter of 1989 was $384,522, or $.12 per unit, compared to a cash loss of $746,805, or $.24 per unit, in the last quarter of 1988.

Combined occupancy during 1989 was 69.3 percent, up from 66 percent during 1988. This increase resulted primarily from higher volume at the Raleigh/Durham hotel. Although this market demonstrated improvement during 1989, management believes that an acceptable balance of supply and demand will take another 12 to 24 months.

Operating revenues of the partnership were $20,214,092 in 1989, resulting in a net loss of $3,669,869. Comparative results for 1988 were revenues of $18,260,432 and a net loss of $4,785,154. Fourth quarter results for 1989 were operating revenues of $5,782,644 and a net loss of $1,538,809. Results for the last quarter of 1988 were revenues of $5,127,911 and a net loss of $1,821,726.

The partnership's three hotels, located in Tampa, Walt Disney World and Raleigh/Durham, are being operated by Guest Quarters Suite Hotels under an agreement announced in December 1989. Under this agreement, Pickett Suite Hotels, Resorts and Inns will be converted to Guest Quarters Suite Hotels, positioning Guest Quarters as the second largest luxury all-suite hotel chain in the United States.

MILLBRAE, CA (FEB. 23) BUSINESS WIRE - Homestead Financial Corp. (NYSE:HFL,HFLB) reported a net loss of $4.3 million, or 38 cents per share for the fourth quarter of 1989 compared to a $6.3 million, or 55 cents per share, loss for the comparable period in 1988, according to Lawrence Weissberg, chairman and chief executive officer.

For the year, the company reported a net loss of $45.9 million, or $4.06 per share, compared to a $15.6 million, or $1.34 per share, loss in 1988.

''Although a loss was reported for the year, the company successfully enacted major components of its restructuring plan with the goal of improving its future core earnings and capital ratios,'' commented Weissberg.

There were several major factors which contributed to the loss for the year. First, loss provisions of $31.3 million were recorded to provide valuation allowances on assets and to mark certain investment securities to market since these securities were reclassified in 1989 as ''held for sale.''

During the fourth quarter of 1989, the company added $10.8 million in loss reserves. The main components of the additions included:

During the quarter, the company reported a $1.5 million aftertax extraordinary gain. The primary reason for this gain was the open market purchase of $8.1 million of subordinated debentures issued by the company's thrift subsidiary. This gain was partially offset by the prepayment penalty relating to the early retirement of $100 million in collateralized borrowings.

Net interest income declined from $10.4 million for the fourth quarter in 1988 to $6.9 million for the comparable period in 1989, primarily due to the reduced levels of interest-earning assets relative to interest-bearing liabilities. In addition, the company discontinued the accrual of interest on an additional $35.5 million in assets due to their delinquent status during the fourth quarter.

Gains on real estate operations totaled $5.1 million for the fourth quarter of 1989 compared to $7.3 million for the comparable period of 1988.

Due to the strong demand, HLDC closed a record 229 homes during the fourth quarter of 1989 compared to 162 homes closed during the fourth quarter of 1988. Land sales contributed $5.1 million in gains during the fourth quarter of 1988.

At Dec. 31, 1989, Homestead Savings, the company's savings and loan subsidiary, had tangible capital of $46.8 million, or 1.6 percent, core capital of $46.8 million, or 1.6 percent, and risk-based capital of $93.7 million, or 5.3 percent.

As of such date, Homestead Savings was required to have tangible capital of $45.0 million, or 1.5 percent, core capital of $90.1 million, or 3.0 percent, and risk-based capital of $113.5 million,

or 6.4 percent. Homestead Savings filed its capital plan with the Office of Thrift Supervision on Jan. 8, indicating a proposed plan to meet its capital requirements by year-end 1990.

Homestead Financial Corp. is a financial services company specializing in savings and loan activities and residential real estate development.

EAST HANOVER, NJ (FEB. 23) BUSINESS WIRE - The Ultimate Corp. (NYSE:ULT), Friday announced that in recognition of the increasing importance of customer service to the company's overall value-added product strategy, it has promoted John D. Smith to senior vice president, customer service division.

Smith will report directly to Ultimate chairman and president, Michael J. O'Donnell.

Smith, who joined the company in February 1989, most recently served as Ultimate's vice president of customer service. In his new position, he will oversee all of the company's various customer service departments and related areas, including the Technical Assistance Center; hardware maintenance and support; maintenance billing, collections and contracts administration.; and used/refurbished equipment.

As a member of Ultimate's senior management team he will also participate in the development and implementation of the company's strategic plans and programs.

Prior to joining Ultimate, Smith spent 11 years with the TRW Corp.'s customer service division, one of the world's largest independent service organizations.

In his position as director of support operations, he managed a staff of over 400 professional, administrative and support personnel; directed the development of the service and support programs for a 1,200-item product line; and managed the technical interface to over 50 equipment manufacturers. Smith developed custom service solutions for high volume end-users and equipment manufacturers.

While at TRW, he also participated in authoring the book, ''When America Does It Right,'' a collection of case studies in service quality from the most admired companies in the United States.

In addition, he directed the software development group that produced

complete lines of diagnostic products for DEC VAX CPUs and peripheral devices, establishing TRW as the leading provider of such alternative products.

Ultimate provides business solutions to companies of all sizes by integrating system-level software and applications software on hardware platforms from premier computer vendors such as Bull HN, Hewlett-Packard, IBM and Sequoia.

#90054b0610 02/23/1990 ~Business Wire

SAN DIEGO (FEB. 23) BUSINESS WIRE - Cohu Inc. (ASE:COH) Friday reported that 1989 sales totalled $35,252,000 with net income of $2,453,000, or $1.25 per share.

This compares with 1988 sales of $33,573,000 with net income of $2,746,000 or $1.43 per share.

Fourth-quarter sales totalled $8,929,000 with net income of $472,000, or 25 cents per share, which compares with sales of $7,810,000 with net income of $793,000, or 39 cents per share, in 1988.

James W. Barnes, president and chief executive officer, said all operations were profitable during 1989 and ended the year with substantial backlogs. Order input for 1989 totalled $38,117,000 compared with $36,932,000 in 1988. Year-end backlog was $13,875,000 compared with year-earlier backlog of $11,010,000.

The company finished 1989 in the strongest position in its history. New records were established for sales, orders and year-end backlog. Net income for the fourth quarter and for the year were below the record earnings reported in the prior year, primarily due to costs associated with the introduction of new semiconductor test/handling products.

The board of directors, at a meeting on Thursday, Feb. 22, authorized a quarterly dividend of 7 cents per share, payable April 24 to shareholders of record on March 2. This is the company's 50th consecutive quarterly cash dividend.

#90054b0615 02/23/1990 ~Business Wire

TOKYO, JAPAN (FEB. 23) BUSINESS WIRE - Apple Computer Japan, Inc. Friday announced that it has been awarded a contract to supply the National

Federation of University Co-operative Associations (NFUCA) with Macintosh personal computers for sale to students and faculty through the federations 270 member outlets on university campuses throughout Japan.

In an exclusive award as an NFUCA supplier of personal computers, Apple will supply KanjiTalk versions of the Macintosh SE personal computer configured with two megabytes of RAM and a 20-megabyte internal hard disk. The one-year renewable contract is expected to result in sales of over $20 million. The NFUCA has already begun receiving shipments on the order and estimates sales of 10,000 units during the first year.

The NFUCA is a Japanese university cooperative buying group with campus store outlets in 169 member universities and university business associations nationwide. Membership in the association includes such prestigious institutions as Tokyo, Kyoto, Waseda and Keio universities, and represents over 50 percent of the total university student population in Japan.

NFUCA on-campus stores will provide service and support for the Macintosh systems. The NFUCA will also support development efforts and supply both English and Japanese language versions of academic courseware and computer-aided instruction software.

''We are extremely pleased with the momentum Apple is experiencing in Japan,'' said Ian Diery, president, Apple Pacific. ''This order represents an important endorsement of Macintosh technology by Japanese academic institutions. We believe there is a tremendous potential for the Macintosh in Japanese higher education and plan to continue our efforts in this area to expand and broaden our presence in the Japanese market.''

Apple Computer Japan, which was established in June 1983, is a wholly-owned subsidiary of Apple Computer, Inc. Apple Computer Japan markets the Macintosh personal computer, Apple peripherals and third-party software; provides customer service and support; and conducts research and development activities in Japan.

BURLINGAME, CA (FEB. 23) BUSINESS WIRE - Xiox Corp. (NASDAQ:XIOX), which designs, manufactures and markets microcomputer-based telephone-management and call accounting systems, has announced its fiscal year 1989 financial results.

Revenues in the fourth quarter ended Dec. 31, 1989, were $513,000, a 4

percent decline from revenues of $536,000 reported during the fourth quarter of 1988. However, Xiox posted its third straight profitable quarter, earning $82,000, or 8 cents per share, vs. a loss of $48,000, or 5 cents per share, recorded during the like quarter last year.

Penetration into higher margined vertical markets, together with a lower overhead expense structure, contributed to the continuing improvement in earnings.

Fiscal year 1989 annual results were dampened by the disappointing first quarter 1989 performance. Revenues for the 12 months ended Dec. 31, 1989 totaled $1,907,000, a modest increase vs. revenues of $1,902,000 reported during the year-earlier period. The year-to-date net loss for 1989 was $120,000, or 11 cents per share, vs. a net loss of $480,000, or 46 cents per share, recorded during the previous year.

Xiox's balance sheet continued to be strong, with cash and cash equivalents of $829,000 on hand as of Dec. 31, 1989.

''The realignment of our sales organization during the second quarter of 1989, together with tight cost controls, has provided the turnaround,'' noted William Welling, the company's chairman.

''However, the first quarter of each year continues to be a seasonally challenging period. This, together with planned increases in research and development, sales and marketing, may not allow for a continuation of sequential quarterly earnings improvements,'' he cautioned.

Xiox manufactures telecommunications management and call accounting systems to serve the needs of all sizes and types of businesses that need to monitor for telephone abuse and to allocate telephone costs.

Xiox systems are installed in over 1,700 hotels, professional firms, financial institutions, insurance companies, real estate firms, manufacturing and high-tech companies, as well as government and military operations. Xiox systems are available directly from the company or through business telephone systems vendors nationwide.

#90054b0623 02/23/1990 ~Business Wire

PORTLAND, OR (FEB. 23) BUSINESS WIRE - Riedel Environmental Technologies Inc. (Riedel) (ASE:RIE) announced Friday annual net income of $271,000 or 8 cents per share on revenues of $80.1 million.

While yearly revenues increased by 28 percent, fourth quarter revenues were flat when compared to the same periods a year ago. In the fourth quarter the company incurred a net loss of $813,000 or 23 cents per share on revenues of $20.2 million. The company announced in December that it expected to incur a fourth quarter loss.

John W. Reece, president and chief operating officer said ''both annual and fourth quarter results are a disappointment. But, as earlier announced, the causes are limited to current periods and are being remedied. We have taken the necessary management actions to enable us to continue our profitable growth.''

An unusual combination of losses from treatment, storage and disposal operations, lack of revenues in the solid waste management segment, and lower profit from sale of railroad crossings (OMNI) were reasons for the fourth quarter loss. Riedel's remediation business experienced lower revenues and higher overhead. Also, company interest expense increased substantially.

The remediation services business is expected to benefit from a greatly expanded marketing effort directed toward obtaining large-scale projects. Riedel expects its investments in an expanded geographic network of offices in the remediation area to pay off in additional public and private clean up work.

Reece said ''the company's waste management segment is solidly positioned. We are building one of the nation's first major municipal solid waste composting plants. There were no revenues from this segment in the last half of 1989 and none are expected in the just-begun two year transition between landfill closure and composting operation startup.'' In 1988 and the first half of 1989, Riedel operated a sanitary landfill which contributed significantly to earnings.

Reece continued, ''the composting process, for which the company holds a license in 49 states, holds enormous potential. In addition the company has developed an odorless sewage sludge processing technique that is currently being evaluated in Seattle, Washington and in several other communities around the country.''

Reece said ''the company is confident that revenues and earnings will increase substantially in 1990.'' He added, though, that the company historically experiences low first quarter revenues and profits, because of seasonal effects on remediation work.

STAMFORD, CT (FEB. 23) BUSINESS WIRE - Olin Corp.'s board of directors Thursday elected James A. Riggs to the post of senior vice president, finance, effective March 1.

He was formerly vice president and comptroller. The company also announced that Riggs will become chief financial officer, effective July 1.

C. Robert Tully, 68 years old, who joined Olin in 1988 as chief financial

officer following his retirement from Celanese Corp., will continue as a consultant to the corporation after July 1.

As chief financial officer, Riggs will be responsible for all financial activities of the corporation, reporting to John W. Johnstone Jr. chairman and chief executive officer.

In related moves in the finance department, Janet M. Pierpont, assistant treasurer since 1984, is elected corporate vice president and treasurer of the corporation. She will also assume responsibility for benefit plan assets.

Emanual J. DiTeresi is elected corporate vice president and controller of the corporation, effective July 1. He was formerly group financial officer of the Chemicals Group, Olin's single largest business unit. George B. Erensen, vice president, taxes and risk management, is elected a corporate vice president, and Frank P. Cupero, formerly director of internal audit, is appointed vice president, internal audit.

Riggs, 53 years old, joined Olin in 1965. He has held positions of increasing responsibility, first in the Winchester Group, culminating in his appointment as group financial officer in 1979. Moving to the Chemicals Group in 1981, Riggs served as its chief financial officer before being named vice president of finance for the group in 1983.

He was elected to the post of corporate vice president and comptroller in 1986.

Prior to joining Olin, Riggs was a financial analyst with Ford Motor Company for four years.

A native of Chicago, Riggs has a bachelor of science degree in management from the University of Illinois, and an M.B.A. degree from the University of New Haven.

Riggs resides with his family in Ridgefield, Conn.

BURLINGTON, MA (FEB. 23) BUSINESS WIRE - M/A-COM Inc. (NYSE:MAI) announced Friday that its board of directors has authorized additional repurchase of the company's common stock.

Dr. Thomas A. Vanderslice, chairman of the board and chief executive officer, stated that the new authorization allows the repurchase of up to 5,000,000 additional shares of the company's common stock from time to time as funds are available, depending upon market conditions, either in the open market or through block transactions.

The authorization is in addition to previously authorized share repurchase programs for which approximately 300,000 shares remain to be repurchased.

According to Dr. Vanderslice, cash generated by M/A-COM's previously announced restructuring program will be used to fund the share repurchase program as well as to reduce outstanding debt.

M/A-COM is a leading producer of radio frequency, microwave and millimeter wave semiconductors, components and subsystems for applications in telecommunications, radar, navigation, missile guidance, electronic warfare, surveillance and command-control-communications-intelligence (C3I) systems.

M/A-COM also supplies surveillance products used in intelligence collection applications. The company's products are used primarily in defense electronics systems, but also have numerous commercial applications.

SCOTTS VALLEY, CA (FEB. 23) BUSINESS WIRE - Borland International (NASDAQ:BORL) has begun shipping the Paradox Engine, its C library that opens the architecture of Paradox and gives corporate developers new ways to create and manage corporate data.

The Paradox Engine allows C programmers to build applications that access and manipulate Paradox tables. In addition, it links Borland's major business applications, including Paradox, QUATTRO PRO and SideKick for Presentation Manager.

The Paradox Engine gives users the flexibility to take advantage of the strengths of Paradox and PAL in conjunction with the strengths of the Engine and C. It enables multiuser concurrent access to live data from Paradox, PAL applications and C applications incorporating the Engine.

The Paradox Engine is available now through standard Borland distribution channels for $495. Registered Borland users can purchase the Paradox

Engine directly from Borland for $195 until May 31. Borland plans to ship a Pascal version of the Paradox Engine in the first half of 1990, with OS/2 and Windows versions also under development.

Borland International Inc. is a leading developer of high-performance software products. Borland offers in its Professional Business Series some of the world's most widely used business applications such as Paradox QUATTRO PRO, QUATTRO, SideKick Plus, Reflex and SideKick for Presentation Manager -- the first commercial application for IBM's OS/2 Presentation Manager.

Borland's Professional Language Series includes critically acclaimed developer's tools such as object-oriented Turbo C, Turbo Pascal and Turbo Debugger and Tools.

CAMARILLO, CA (FEB. 23) BUSINESS WIRE - Robert G. Sutherland, chairman of Everest & Jennings International Ltd. (E & J), Friday announced that Barre L. Rorabaugh has been named president and chief executive officer to succeed Whitney A. McFarlin, who is leaving the company to pursue other interests.

Rorabaugh, who was recently appointed a director and president of E & J's U.S. operations, will now assume full responsibility for the company's worldwide operations. Formerly chief operation officer of Weider Health and Fitness, he has also held senior management positions with Huffy Corp. Litton Industries and the 3M Co.

McFarlin, who has served as the company's president and chief executive officer since 1985, will continue as a director and will also assist E & J's new management during the transition period.

Commenting on McFarlin's decision, Sutherland said: ''Under the able leadership of Whit McFarlin over the past five years, E & J has successfully evolved from a family-controlled company to a business entity that is well positioned to compete in the global healthcare markets. We are fortunate that E & J will continue to benefit from his expertise and counsel as a director.''

Everest & Jennings International Ltd. is engaged in the design, manufacture and distribution of wheelchairs and other durable medical equipment to worldwide markets, primarily in North America and Western

Europe.

FORT WORTH, TX (FEB. 23) BUSINESS WIRE - Pier 1 Imports Inc. (NYSE: PIR) expects to report earnings of 70 cents to 73 cents per share for fiscal year 1990, ending March 3, against 70 cents per share in fiscal year 1989.

Sales for the year are expected to exceed $516 million, up 24 percent from the year earlier. For the fourth quarter earnings are expected to be in the 15 cent to 18 cent range, against 15 cents a year ago.

"The company took agressive actions in the fourth quarter to reduce its inventory levels, and as a result, has brought inventories in line with fiscal year 1991 beginning expectations. We expect gross merchandise

margins for the quarter to be approximately 50 percent, down from 52.1 percent a year ago as a direct result of this action," said Clark A. Johnson, the company's chairman and chief executive officer.

Pier 1 Imports is North America's largest and fastest growing specialty retailer of decorative home furnishings and related items. The company will open 85 new stores in fiscal year 1990, ending the year with 517 units.

VANCOUVER, WA (FEB. 23) BUSINESS WIRE - VanFed Savings Bank, the wholly-owned subsidiary of VanFed Bancorp (NASDAQ:VANF), announced Friday that as of Dec. 31, 1989, it exceeded all current minimum federal regulatory requirements imposed by the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).

''Current earnings and the successful stock conversion in January 1989 helped us exceed the stringent new federally imposed capital regulations, including the fully phased-in risk based capital requirements,'' said Loren B. Means, president and CEO.

The new capital regulations require that thrifts maintain capital ratios of at least 1-1/2 percent of tangible capital to tangible assets, 3 percent of core capital to adjusted tangible assets, and a fully phased-in requirement of 8 percent of risk based capital to risk weighted assets.

As of year end, VanFed exceeded all required ratios, with a 4.7 percent ratio for both the tangible and core capital requirements and an 8.2 percent ratio for risk based capital requirements.

VanFed, a $306 million thrift, serves its customers through seven full-service branches and a mortgage loan production office in Clark County. In the fourth quarter ended Dec. 31, 1989, VanFed earned $299,000 or 26 cents per share.

NEW YORK (FEB. 23) BUSINESS WIRE - Mizlou Communications Company, Inc. (NASDAQ Symbol:MZLU) Friday reported that it has successfully completed a $7.7 million convertible preferred unit offering through its underwriters R.H. Damon, Commonwealth Associates and Gilford Securities. The offering was 770,000 units priced at $10.00 each. Each unit consists of one convertible preferred share, convertible into six shares of common stock and yielding 13 percent in cash or common stock, plus three Class B common stock purchase warrants. The preferred units trade under the NASDAQ Symbol: MZLUL.

Mizlou also reported that it has reached agreements with TeleCable Corporation, Prime Cable and Columbia International to launch its Sports News Network (SNN) to a combined 955,000 new subscribers.

TeleCable, which owns cable systems servicing 630,000 subscribers in 15 states, is the nation's 20th largest multiple system owner (MSO). With Cablevision Systems, Adelphi and now TeleCable, SNN has corporate agreements in-place with three top 20 MSO's.

Sports News Network (SNN) is also now being distributed in Prime Cable's Las Vegas, Nevada system, which is a 52-channel addressable system servicing overr 125,000 subscribers throughout southern Nevada. Under the terms of the agreement covering cable systems throughout the course of

the term. Prime Cable presently serves more than 500,000 basic subscribers nationwide.

Columbia International owns cable systems serving a total of 190,000 subscribers in Michigan, Virginia, Oregon, Washington and Nevada and will be adding SNN to all of its systems this spring.

The nation's first and only 24 hour, seven-day-a-week basic cable sports news and information service, Mizlou Sports News Network is a division of Mizlou Communications Company, Inc. During the past 28 years only the sports divisions of the major networks have produced more hours of nationally televised sports coverage than MIZLOU.

INDIANAPOLIS (FEB. 23) BUSINESS WIRE - INB Financial Corp. (NASDAQ:INBF) and the Peoples Savings Bank of Evansville, Ind., Friday jointly announced the signing of a definitive agreement whereby Peoples will convert from an Indiana-chartered, FDIC-insured mutual savings bank to a stock, state-chartered commercial bank and will then merge with an INBF subsidiary.

Following the merger, Peoples will change its name to INB Banking Co. Southwest.

The announcement was made by INBF Chairman Thomas M. Miller in Indianapolis and by Peoples President Jerry N. Crawford in Evansville.

In accordance with Indiana law, Peoples' board of trustees has adopted a resolution to convert Peoples to a stock bank. Peoples will pay each eligible depositor a pro rata share of the surplus account which is presently $7.4 million. Peoples also will offer 370,000 new shares of stock at $20 per share. Depositors of Peoples will have the choice of receiving their pro rata portion of the $7.4 million surplus in cash, in deposits to their accounts, in new shares of Peoples stock or in some combination thereof. All shares not subscribed to by the depositors will be purchased by INB for $20 per share.

The conversion is subject to approval by the Indiana Department of Financial Institutions and the Vanderburgh Circuit Court. After the conversion is complete, Peoples will become a subsidiary of INBF in a

merger transaction whereby INBF will have paid a total of $7.4 million for all 370,000 shares of Peoples stock. INBF also will have the option to purchase 122,676 additional shares of Peoples stock. The merger is subject to approval by the shareholders of Peoples Bank, the Indiana Department of Financial Institutions, the Federal Reserve Board and the FDIC.

Peoples, located in the city of Evansville, is the fourth largest bank in Vanderburgh County. Evansville is the fourth largest city in Indiana with a total population of 137,000. The Evansville MSA grew faster than the state as a whole from 1970 through 1980. From 1980 through 2000, the Evansville MSA is projected to grow at a rate twice as fast as the state of Indiana. In December 1989, county unemployment stood at 5.5 percent vs. 5.3 percent for Indiana and 5.1 percent for the United States. Per capita income is well above Indiana's average and ranked 8th highest in the state. The county has a very low dependence on durable goods manufacturing, combined with large and growing non-durable and service sectors. Major area businesses include Whirlpool, Bristol-Meyers USP and G, General Electric, ALCOA, PPG, Industrial Contractors Inc., and Traylor Brothers Inc.

Peoples operates seven facilities in Vanderburgh County and holds a 4.7 percent share of the $2.5 billion in total county deposits.

Miller noted the strategic importance of Vanderburgh County to INBF. ''From the beginning, our expansion strategy has been to target the most attractive marketplaces. Evansville and the Vanderburgh County area is a market we've had our eye on for some time. Following this acquisition, INB will have established market presence in all four 'corners' of the state as well as throughout central Indiana. We are pleased to welcome Peoples to the INB family, and we look forward to a mututally profitable partnership with them.''

''We look forward to a dynamic future for both our bank and the southwestern area of Indiana,'' commented Crawford. ''Becoming a regional banking center will allow us opportunities to inject new resources into our community. INB's and Peoples' corporate philosophy of providing positive support to our communities was instrumental in reaching the merger agreement. With its considerable size and reputation, INB will be a welcome addition to our progressive city.''

The Peoples Savings Bank was founded in 1870 and obtained full commercial bank and trust powers in 1981.

INB Financial Corp., headquartered in Indianapolis, is Indiana's largest, independent multi-bank holding company. The corporation is parent of INB National Bank, Indianapolis; INB National Bank, Northwest, Lafayette and INB Banking Co., Jeffersonville. Two additional acquisitons, CSB Inc.

(parent of Chesterton State Bank in Chesterton, Ind.) and Peoples Mid-Illinois Corp. (parent of The Peoples Bank in Bloomington, Ill.) are pending.

#90054b0695 02/23/1990 ~Business Wire
TAMPA, FL (FEB. 23) BUSINESS WIRE - Eastern Environmental Services Inc. (NASDAQ:EESI) Friday announced that it has entered into a preliminary agreement to acquire an operating landfill in the Northeast.

The Company also has a pending transaction to acquire another landfill in the Southeast. The two pending acquisitions could occur within 90-120 days subject to Company due diligence items.

Acquiring strategically located landfills is a key element in EESI's diversification into waste disposal and hauling. The pending landfill acquisitions will accelerate EESI's expansion into the Northeast and Southeast stated EESI Chairman William C. Skuba.

As part of this diversification strategy, the Company has purchased a Pennsylvania asbestos waste hauling firm and a Mid-Atlantic asbestos and municipal waste landfill. As previously announced, the newly acquired landfill signed two multimillion dollar agreements which could provide it with $6.6 million in revenue over the next three years.

In 1990, EESI plans to have six Eastern United States landfills operating in Georgia, Illinois, Kentucky, Pennsylvania and West Virginia which will produce the bulk of its operating profits.

The Company is currently negotiating landfill acquisition agreements in five Eastern States.

WEST PATERSON, N.J. (FEB. 23) BUSINESS WIRE - Prospect Park Financial Corp. (NASDAQ:PPSA) Friday announced that it expects to record a charge of approximately $11.0 million, after taxes, for the third quarter of fiscal 1990, ended Jan. 31.

The charge primarily reflects a write-down of the value of certain real estate ventures involving wholly owned subsidiaries of Prospect Park Savings Bank, as well as increases in the Bank's reserves for possible loan and real estate losses.

As a result of the charge, Prospect Park expects to report a substantial loss for the quarter and nine months ended Jan. 31, 1990. For the same quarter of last year, the company reported net income of $1.2 million or $0.41 per share, and earned $4.2 million or $1.43 per share for the nine months ended Jan. 31, 1989. Prospect Park reported a net loss for the first six months of fiscal 1990, ended Oct. 31, 1989, of $1.3 million or $0.45 per share.

As a consequence of the anticipated loss and the company's recent operating results, the board of directors of Prospect Park Financial Corp. has determined to suspend payment of the regular quarterly cash dividend, beginning with the dividend that would normally be paid in March, 1990.

''Our actions were taken following a careful review of Prospect Park's loan portfolios and the real estate investments of our subsidiaries, and took into account the current conditions and expectations for continued weakness in the New Jersey real estate market,'' said Russell L. Frignoca, chairman, president and CEO.

''With the effect of the charge, Prospect Park Savings Bank will still have capital well in excess of current regulatory requirements. Despite the disappointing operating results, the Bank will continue to provide quality service to customers in our local communities,'' Frignoca stated.

Prospect Park Financial Corp. is the holding company for Prospect Park Savings Bank SLA. With assets of approximately $580 million, Prospect Park operates six offices in Northern New Jersey.

PORTLAND, ME (FEB. 23) BUSINESS WIRES - UNUM Corp. (NYSE:UNM) Friday announced UNUM Life Insurance Co. intends to purchase the individual disability division of Constellation Assurance Co., Toronto, Canada, for an undisclosed amount.

The sale, subject to approval by Canadian regulatory authorities, is expected to be completed by April 30.

Constellation's individual disability division is headquartered in Toronto and employs 60 people. Branch offices are located in Vancouver, Edmonton, Winnipeg, London, Montreal, Toronto, Quebec and Halifax.

The division offers non-cancellable and guaranteed renewable individual disability products, distributed through brokers and sponsored relationships with life insurance companies.

Gordon N. Tyndall, current head of Constellation's individual disability division, will continue to run the division's operations under UNUM's name and ownership.

Executive vice president of UNUM's individual disability division, Richard B. Dalbeck, said, ''We believe UNUM's large disability data base and extensive experience in individual disability insurance will be an exciting match with Constellation's individual disability division's marketing, underwriting and service expertise in the Canadian marketplace.''

UNUM Corp. is an insurance holding company with assets of $8.6 billion. Based in Portland, Maine, UNUM is the leading provider of disability insurance in the United States and also markets retirement income and long term care products.

WORCESTER, MA (FEB. 23) BUSINESS WIRE - Wyman-Gordon reported Friday that sales for 1989 totalled $372 million, up from $272 million last year, an increase of 37 percent.

All elements of the aerospace business, forgings, castings and composites contributed positively to revenues and operating profits which increased more than 50 percent over last year's level.

However, this positive sales performance was offset by two factors -- a significantly higher LIFO inventory charge and poor results from the crankshaft operations. These factors were the primary reason behind the loss for the year of $3.2 million.

Fourth quarter sales were $107.4 million, the highest quarterly sales level of the year and up from $74.3 million in the fourth quarter of 1988. The factors affecting the year's performance overall also caused a loss for the quarter of $1.4 million.

The most significant item affecting 1989 results was the $16.9 million LIFO inventory charge. The charge reflects higher levels of inventory and higher raw material prices.

Even considering the negative results from our crankshaft operations, had the company reported its inventories on the FIFO method, 1989 income would have been $7.5 million, or 42 cents per share, essentially the same as 1988 results of $7.8 million, or 43 cents per share. The 1988 figures do not reflect the accounting change implemented that year.

The backlog at Dec. 31, 1989 was $350.6 million, its highest year-end level in five years. Walsh noted that this level is a very positive sign for the future and that 1990 would see much improved performance and a return to profitability. Raw material price increases are slackening and a much reduced LIFO inventory charge is expected for 1990.

However, the production requirements of our customers focus shipments heavily in the latter part of the year so that financial results of the first quarter will be weak. The balance of the year is expected to be strong.

During the fourth quarter the 50,000 ton press at the Grafton, Mass., facility was removed from service when a crack occurred in a main structural beam. Repairs to the press are proceeding on schedule and it is expected to be back in service in April.

The expeditious repair has limited a potentially significant financial impact, but operating expense will be increased until the repair is

complete.

Wyman-Gordon is a leader in the manufacture of high quality, technically advanced forgings, high integrity investment castings and composite aerospace structures for the transportation equipment and defense equipment markets and other commercial applications.

BEVERLY HILLS, CA (FEB. 23) BUISNESS WIRE - Burt Sugarman, chairman and chief executive officer of GIANT GROUP LTD. (NYSE:GPO), announced Friday the 1989 year end and fourth quarter results.

Net income for the year ended Dec. 31, 1989 was $6,422,000 or $1.59 per share compared to a net loss of $8,492,000 for the year ended Dec. 31, 1988 or $2.04 per share.

Net loss for the three months ended Dec. 31, 1989 was $1,381,000 or 36 cents per share compared to a net loss of $2,294,000 or 57 cents per share for the fourth quarter of 1988.

GIANT GROUP LTD. owns Keystone Cement Co. and Giant Cement Co., who manufacture and sell cement products in the southeastern, northeastern, and middle atlantic regions of the United States.

GIANT is a pioneer in the Resource Recovery burning of waste materials. GIANT also owns and operates Golden State News print, a 100 percent recycled newsprint mill, and related recycling operations in southern California.

GIANT is an owner of Rally's, a publicly held franchisor of fast food ''double-drive thru'' restaurants.

DERRY, NH (FEB. 23) BUSINESS WIRE - Cornerstone Financial Corp. (NASDAQ: CSTN) has announced the successful completion of the dividend program initiated in December 1988 and the adoption of a policy of paying dividends based on current earnings beginning with the next quarterly dividend.

John Terravecchia, vice chairman, president and chief executive officer of Cornerstone, noted "While we will not determine the amount of the dividend until our next scheduled quarterly dividend declaration date of March 22, 1990, we felt it was appropriate to disclose the change in our dividend policy at this time.

Although the change in dividend policy will significantly reduce the level of dividend payout, the board of directors has reaffirmed its previous policy of paying dividends based on current earnings. The declaration, payment and level of dividends in the future will be based upon a review by the board of earnings, financial and regulatory consideration."

Terravecchia continued, "The aggressive dividend and stock repurchase program initiated in December 1988 under which we paid the dividends in excess of current earnings and repurchased stock in the open market was designed to return excess capital to our shareholders and to leverage our assets in order to provide an improved return on equity.

"We also felt that it was appropriate to share our success with our shareholders rather than to employ these funds in loans and investments that would not enhance the value of the organization. Since the beginning of 1988, we paid out dividends totalling $7,427,000, or $3.52 per share, and paid a total of $1,062,000 in connection and stock repurchases.

"However, due to earnings, conversion of debentures and other factors, stockholders equity decreased by only $2,969,000. I should note that the change in dividend policy is not due to any identified weakness in our earnings or financial condition.

"Although we originally intended to maintain the quarterly dividend at the current level of 25 cents per share for the immediate future, we now feel Cornerstone and its shareholders will be best served by retaining our capital at current levels to accommodate future growth and position the organization to take advantage of market opportunities."

Cornerstone Financial Corp. is the parent holding company of Derry Bank and Trust Co., and Cornerstone Bank. Cornerstone earned $1,027,000, or 48 cents per share, in 1989. During 1989, Cornerstone declared quarterly dividends totalling $1.00 per share and a special dividend of $1.00 per share. As of Dec. 31, 1989, Cornerstone had $161,682,000 in assets, a fully diluted capital ratio of 12.9 percent and a book value per share of $8.42.

#90054b0752 02/23/1990 ~Business Wire

CLEVELAND, OH (FEB. 23) BUSINESS WIRE - TransCapital Financial Corporation today announced a net loss of $19.4 million, or ($2.04) per share for the year ended December 31, 1989. This compares with net earnings of $17.7 million, or $1.86 per share, for the year ended December 31, 1988.

Total year-end assets were $5.4 billion compared with $6.4 billion last year. The decline in asset size is part of the Company's strategy to facilitate compliance with the capital requirements under the Financial Institutions Reform, Recovery & Enforcement Act of 1989 (''FIRREA''). ''TransCapital's wholly owned subsidiary, TRANSOHIO Savings Bank, has been and plans to remain in compliance with all of the current FIRREA capital requirements,'' said TransCapital Senior Vice President and Chief Financial Officer William D. Snider.

Commenting further on TransCapital's 1989 results, Snider said, ''TransCapital's 1989 loss is the result of three specific factors: 1) the non-recurring write-off of $14.3 million pre-tax relating to TRANSOHIO's termination of its proposed acquisition of AmeriFirst Bank in Miami, Florida; 2) $14.1 million in net losses related to our mortgage banking subsidiary, AmeriStar Financial Corporation; and 3) a $6.0 million pre-tax loss on securities primarily caused by valuation adjustments on high-yield corporate bonds.''

TransCapital also announced that it had restated its third quarter 1989 results to reflect its high-yield bond portfolio at market value (approximately $17.8 million) which was $2.9 million less than cost at September 30, 1989. This change increased its net loss for the quarter and nine months ended September 30, 1989, by $1.8 million or $0.19 per share to $2.2 million ($0.23 per share) and $15.3 million ($1.60 per

share), respectively. The FIRREA, enacted in August 1989, included the requirement that financial institutions divest such bonds by July 1, 1994. TRANSOHIO had planned to transfer these bonds to TransCapital under special provisions of FIRREA and, accordingly, at September 30, 1989, continued to classify the bonds as ''held for investment'', carried at amortized cost.

TransCapital Financial Corporation is Ohio's largest savings and loan holding company with approximately $5.4 billion in assets. It is a majority owned subsidiary of American Capital Corporation, (AMEX: ACC). Through its wholly owned subsidiary, TRANSOHIO Savings Bank, it has offices in the Cleveland, Akron, Columbus and Cincinnati markets of Ohio. Customer deposits are insured up to $100,000 by the Federal Deposit Insurance Corporation (FDIC). Through two other affiliates, AmeriStar Financial Corporation and OMNI Mortgage Company, TransCapital has additional mortgage origination offices outside Ohio. TransCapital's stock is traded on the New York Stock Exchange under the symbol, ''TFC''.

NEW YORK (FEB. 23) BUSINESS WIRE - Kuno Laren, chairman of Micron Products Inc. (ASE:PMR) announced Friday that the company has entered into an agreement to sell 55,000 shares of Series F Convertible Preferred Stock of PMR to private investment groups.

The investor groups will provide Micron with a combination of cash, mortgage participations and shares of common stock of two NASDAQ listed companies.

The transaction is valued at $5.5 million and parts of it are contingent upon the submission of certain matters to a vote of the PMR shareholders.

Upon shareholder approval, each Series F Preferred Share will be convertible into 66.67 PMR common shares. Laren said that the equity infusion will provide additional resources to finance future acquisitions and will improve the company's working capital position.

#90054b0757 02/23/1990 ~Business Wire
SOMERVILLE, MA (FEB. 23) BUSINESS WIRE - Central Co-operative Bank

(NASDAQ:CEBK) Friday reported net income of $49,000, or 3 cents a share, for the quarter ended Jan. 31, 1990, compared to net income of $346,000, or 18 cents a share, for the third quarter of fiscal 1989.

For the first nine months of fiscal 1990, net income was $391,000, or 21 cents a share, compared to $1,334,000, or 70 cents a share, reported for the nine months ended Jan. 31, 1989.

Fiscal 1990's third quarter results reflected a provision for possible loan losses of $486,000. Joseph R. Doherty, chairman and chief executive officer of Central Bank, stated that substantially all of the provision established in the third quarter related to a single commercial loan.

Doherty also noted that the bank's total non-performing assets at Jan. 31, 1990, were 1.9 percent of total assets -- a ratio that compares favorably to national and regional industry averages. Third quarter and year-to-date results also were influenced by lower net interest income, as rates paid on deposits and borrowings increased.

The bank's results for the nine months ended Jan. 31, 1990, included a $936,000 provision for possible loan losses, as well as a $300,000 write down of other real estate owned and $250,000 of accrued interest relating to an income tax refund, both of which were recorded in fiscal 1990's second quarter.

Also, the bank had non-recurring expenses for the previously announced unconsummated merger between Central Co-operative Bank and Somerset Savings Bank totaling $130,000 for the first nine months of fiscal 1990, compared to $426,000 for the same period of fiscal 1989.

At Jan. 31, 1990, the bank's total assets were $237.2 million; stockholders' equity was $29 million, or 12.22 percent of total assets; and net loans were $209.8 million.

Central Co-operative Bank is a Massachusetts chartered co-operative bank operating eiqht full-service offices in metropolitan Boston.

#90054b0775 02/23/1990 ~Business Wire

BOCA RATON, FL (FEB. 23) BUSINESS WIRE - Financial Benefit Group Inc. Friday reported that in 1989 the Company experienced increases in earnings sales and assets.

For the calendar year 1989, earnings from operations before income taxes increased to $790,000 compared to 1988's restated earnings of $171,000. Net income was $496,000 as compared to 1988's restated net income of $305,000, or 10 cents and six cents per share, respectively.

Direct premium written increased substantially in 1989 reaching $249.4 million compared with the prior year's $48.4 million. The 1989 volume set a new record for the Company and was 178 percent greater than the

total direct premium written in all prior years of the Company's operations.

This substantial rise in direct premium was attributable to the growing popularity of Financial Benefit Life Insurance Co.'s line of retirement annuity plans sold in its expanded territories. Currently Financial Benefit Life is licensed in 29 states, the District of Columbia and the U.S. Virgin Islands.

Seven jurisdictions were added in 1989. The growth of the number of licensed agents, which doubled to 4,600 in 1989, was another contributing factor. Sales in 1990 have continued on that same trend with sales in January exceeding $30 million compared with $16.1 million in January 1989, an 86.8 percent increase.

Total assets at Dec. 31, 1989 were $395.6 million compared to $138.1 million at Dec. 31, 1988.

Frank T. Crohn, chairman and chief executive officer, stated that, ''we expect to exceed $500 million in assets during the second quarter of 1990 and that reaching this benchmark will enable us to establish a strong financial base for above average earnings increases for the future.

''Further, the acceptance of our retirement savings annuities by the growing senior population and our 4,600 producers is ensuring our growth for many years to come.''

Financial Benefit Group Inc. is a publicly-held company and is the parent of Financial Benefit Life Insurance Co., which markets retirement annuity products throughout the United States through a network of independent insurance agents and financial planners.

WASHINGTON (FEB. 23) COMTEX - EuroAmerican Group Inc. filed a Form 8-K with the SEC stating it is engaged in a legal dispute with Telekurs (North America) Inc. as to the duration of its current agreement with Telekurs. EuroAmerican utilizes a datafeed of market pricing information for its market quotation services. It has been utilizing a datafeed provided by Telekurs for its datafeed requirements.

Telekurs has maintained that the current agreement between it and EuroAmerican is valid until June, 1991. EuroAmerican's position is that the agreement extends at least until June, 1993 and possibly longer.

EuroAmerican states it is currently considering legal remedies it may pursue against Telekurs so as to clarify its contractual position as well as related claims it may pursue against Standard & Poor's Corp., as a result of the purported transfer of EuroAmerican's contract with S&P to Telekurs in June, 1989.

EuroAmerican further states it is considering alternative sources of data to Telekurs at this time.

EuroAmerican's executive office is located at 50 Broad Street, Suite 516, New York, NY 10004 and its telephone number is (212) 269-6686.

WASHINGTON (FEB. 23) COMTEX - Two Count Holding Co. filed a Form 8-K with the SEC stating on Nov. 30, 1989 it engaged Mark Bailey & Co. Ltd. as its independent accountants, replacing Flegal & Harrison.

In connection with the audits of the two most recent fiscal years and the subsequent interim period, there were no disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosures, or auditing scope or procedure.

The former accountant's report on the financial statements for the past two years contained an unqualified opinion.

Two Count's executive office is located at 37590 Sycamore Street, Newark, CA 94560 and its telephone number is (415) 796-3885.

#90054d4050 02/23/1990 ~French/German News Agency
PARIS, Feb 23 (AFP) - French car maker Renault and Swedish car and aircraft group Volvo were expected to announce a deal to link their car and truck businesses Friday to launch the world's biggest trucks producer.

The linkup between Renault, the world's ninth biggest automaker, and Volvo, ranked 22, will also produce the world's fourth biggest car maker in terms of sales, behind General Motors, Ford and Toyota. It will be the sixth biggest in terms of production.

The two groups said that they would hold a joint press conference later Friday in Amsterdam.

The deal is to involve a series of cross-holdings between the two companies, financial sources said here.

Renault will take a 45 percent stake in Volvo's trucks division, while Volvo will take 45 percent of Renault Vehicules Industriels (RVI), Renault's trucks and commercial vehicles arm.

They will also link their car businesses, with Volvo-AB taking a 25 per-cent stake in Renault, formerly 100 per cent owned by the French state and Renault taking 25 per cent of Volvo-Car, the automobile subsidiary of Volvo-AB, the group's parent company.

Volvo stock was suspended from trading in Paris and Stockholm Friday morning, while trading in non-voting Renault stock was "postponed" until 15 minutes after the opening. The Renault stock then fell 0.6 per cent to 1,670 francs (298 dollars), with 210 shares changing hands by 0930 GMT.

For the deal to go through, the French government will have to change the status of Renault, currently a "regie" or 100-per-cent state-controlled company.

Although Renault's non-voting stock is traded on the stock market, the government retains total control, and parliament would have to vote a law to allow Volvo to acquire the planning holdings.

Last year the French government wiped out 12 billion francs (2.1 billion dollars) in debt owed to it by Renault in a move that drew fire from the European Economic Community (EEC), which said it was against competition rules.

The EEC's executive Commission has asked the government to reverse the decision and force Renault to pay back the money.

The debt writeoff was originally agreed by the conservative government of former prime minister Jacques Chirac, said to have approved it in return for a change in Renault's status to introduce greater private shareholding.

But the socialist government of Prime Minister Michel Rocard which came to power in 1988 approved the writeoff but blocked any partial privatization of Renault.

#90054d5620 02/23/1990 ~French/German News Agency

AMSTERDAM (FEB. 23) - A link-up between French state-controlled auto maker Renault and Swedish auto and aircraft maker Volvo announced Friday will involve a change of statute for the French group, its president said here.

Renault would become "a company with at least two shareholders," the French state and Volvo, Renault president Raymond Levy said, stressing that such a change would require a vote of the French parliament.

Informed sources in Paris said that the deal, under which Volvo and Renault will each take stakes in the other's car and truck operations, was effectively a partial privatisation.

The state would hold almost 75 percent, Volvo 25 percent and workers about one per cent, the sources said.

Although Renault's non-voting stock is currently traded on the stock market, the government retains total control and the French parliament would have to vote a law to allow Volvo to acquire the planned holdings.

Under the deal announced Friday, Renault and Volvo will each take a 45 per cent stake in the other's trucks division and 25 percent of each other's auto division, the two groups said.

The link-up will create the world's biggest trucks producer and the world's

fourth biggest car maker in terms of sales, behind General Motors, Ford and Toyota.

#90054p0027 02/23/1990 ~PR Newswire

HOUSTON (FEB. 23) PR NEWSWIRE - Compaq Computer Corp. (NYSE: CPQ) today announced the opening of a wholly owned subsidiary in Austria. Located in Vienna, Compaq Computer GesmbH will distribute COMPAQ personal computers and PC systems through a network of authorized COMPAQ computer dealers. Prior to the opening of the subsidiary, Austrian dealers were supported by Schwaighofer Computer GesmbH & Co. KG, Vienna, which was supported by Compaq Computer GmbH, Munich, West Germany.

Eckhard Pfeiffer, president of Europe and International, Compaq Computer GmbH, said, "The opening of this Compaq subsidiary is a response to the increasing demand in Austria for our high-performance PC systems, desktop, portable and laptop personal computers. According to Paris-based market research firm Dataquest Europe, more than 80,000 business PCs will be sold in 1990 in Austria."

Pfeiffer continued, "The establishment of the Austrian subsidiary ensures that Compaq will meet the growing needs of end-users as well as the needs of our high-quality dealer network. Compaq Computer GesmbH brings to 15 the number of wholly owned international subsidiaries that market the complete range of our products. In addition, the subsidiary will provide full service and technical support to the growing number of authorized COMPAQ computer dealers in Austria."

Franz Janda was appointed managing director of Compaq Computer GesmbH. Janda is an Austrian citizen with more than 20 years experience in data processing. Prior to joining the Compaq team, Janda was employed by Nixdorf Computer GmbH as managing director of sales.

Addressing an audience of dealers, major accounts and journalists in Paris Rod Canion, president and chief executive officer, Compaq Computer Corporation, said, "The increased presence of Compaq in Austria is part of a continuing international expansion program."

For the year ended Dec. 31, 1989, Compaq announced sales of $2.9 billion. Sales in Europe and other international markets contributed 46 percent of the company's revenue for 1989. Europe and international sales grew 62 percent in 1989 over 1988 and exceeded $1 billion in annual revenue for the first time. "This significant increase in sales moved Compaq to the number two market share position in the European business PC market according to Dataquest Europe," continued Canion.

Compaq Computer Corporation is a world leader in the manufacture of PC

systems, and desktop, portable, and laptop personal computers with wholly owned subsidiaries in Australia, Belgium, Canada, Denmark, West Germany, France, Great Britain, Italy, the Netherlands, Norway, Singapore, Spain, Sweden, and Switzerland. Compaq manufacturing facilities are located in Houston, Scotland and Singapore.

#90054p0028 02/23/1990 ~PR Newswire

NORCROSS, GA (FEB. 23) PR NEWSWIRE - Intelligent Systems Master, L.P. (AMEX: INP) announced today the company's financial results for the year ended Dec. 31, 1989.

The net loss from continuing operations in 1989 was $3,961,000 on revenues of $55,199,000 compared to a net loss from continuing operations of $9,018,000 on revenues of $74,884,000 in 1988.

In mid-1989, Intelligent Systems completed two previously announced transactions involving the sales of several product lines. These sales reduced the number of product lines carried by the company, thus accounting for the year-to-year decline in revenue. On Dec. 1, 1989, the company purchased the assets of OrCAD Systems Corp. Accordingly, the financial results of OrCAD are included in the company's consolidated results for the month of December 1989 only.

The 1989 results from continuing operations include a net gain on the product line sales of $4,939,000 which is reported as other income from continuing operations. The company earned net interest income of $2,037,000 in 1989 compared to interest expense of $1,291,000 in 1988. Also included in the 1989 results are expenses of approximately $1.5 million representing the company's pro rata share of the losses of Brier Technology, a development stage company in which Intelligent Systems has a significant investment.

For the 12 months ended Dec. 31, 1989, the company recorded a net loss allocable to limited partners of $3,877,000 or $.45 per unit. For the comparable period last year, the company earned $15,096,000 or $1.57 per unit. The 1988 results include a gain of $23,456,000 on the sale of discontinued operations. The average number of units outstanding in 1988 was 9,629,532 compared to 8,554,516 in 1989. The 11.2 percent decline in the average number of units outstanding is a result of a company buy-back program implemented in late 1988.

At the end of 1989, the company had $9,278,000 in cash and short-term

investments, almost triple the prior year's level. The change results from cash proceeds from the sales of product lines and interest income earned on notes receivable related to the sales of product lines and subsidiaries in the past two years. Inventory levels declined by 52 percent during 1989 due to fewer purchases, increased inventory reserves, and the sales of product lines. During the fourth quarter of 1989, the first full quarter of operations following the product line sales, the company determined that additional reserves for inventory were prudent based on domestic sales levels. Accordingly, the cost of goods sold in the fourth quarter is substantially higher than in the same quarter a year ago.

"One of the inevitable effects of a strategy which involves acquisitions and dispositions of businesses as well as investments in development stage companies is an uneven revenue and earnings stream," stated J. Leland Strange, president and CEO of Intelligent Systems. "In 1989, we had fewer product lines to sell and thus lower revenues than previously. However, we firmly believe we contributed more to the bottom line by selling certain assets than we would have made by continuing to operate them. We anticipate that the recent acquisition of OrCAD will produce revenue growth and positive cash flows while reducing consolidated operating losses."

Intelligent Systems is a diversified technology partnership whose depositary units are traded on the American and Pacific Stock Exchanges under the symbol INP. The company conducts its business through subsidiaries: Q/COR (enhancement products for microcomputers), Inter Quad (European distribution of enhancement products), OrCad (computer aided design software) and Datavue (laptop computers). The company also has investments in developing technology companies, including Brier Technology (25 Mb super floppy disk drive).

SUMMARY OF RESULTS

12 mos. ended Dec. 31	1989	1988
Revenue from cont. opers.	$55,199,000	$74,884,000
Net (loss) continuing operations	(3,961,000)(a)	(9,018,000)
Net income discontinued opers.	--	975,000(b)
Gain on sale of discont. opers.	--	23,456,000(c)
Less: General partner's interest	(84,000)	317,000
Net income (loss) allocable to limited partners	(3,877,000)	15,096,000
Avg. units outstanding(d)	8,554,516	9,629,532
Unit earnings (loss) - cont. opers.	(0.46)	(0.94)
Unit income (loss) allocable to limited partners	(0.45)	1.57

3 mos. ended Dec. 31	1989	1988
Revenue from cont. opers.	$10,594,000	$16,073,000
Net income (loss) - cont. opers.	(3,695,000)(e)	(2,925,000)

Net income - discont. opers.	--	(1,944,000)(b)
Gain on sale of discont. opers.	--	23,456,000(c)
Less: General partner's interest	(79,000)	372,000
Net income (loss) allocable to limited partners	(3,616,000)	18,215,000
Avg. units outstanding(d)	8,083,500	9,544,543
Unit (loss) - continuing opers.	(0.46)	(0.31)
Unit income (loss) allocable to limited partners	(0.45)	(1.91)

(a) Includes gain of $4,939,000 on sales of product lines and additional inventory reserves of approximately $2 million following sales of product lines.

(b) Includes charge of $1,005,000 for write-down of assets not sold with discontinued operations.

(c) Gain on sale of Peachtree Software, Princeton Graphics, and Video Seven.

(d) Units outstanding decreased due to company's repurchase program. (e) Includes additional inventory reserves of approximately $2 million following sales of product lines.

#90054p0033 02/23/1990 ~PR Newswire

TONTITOWN, AR (FEB. 23) PR NEWSWIRE - P.A.M. Transportation Services Inc. (NASDAQ: PTSI) announced today that it and its chairman, Paul A. Maestri had closed securities sales transactions with Central Transport Inc. and one of its affiliated entities resulting in a change of control of the company.

The company had previously announced at the end of December 1989 that contracts had been entered into, subject to a number of terms and conditions, to effect these transactions.

The company has issued to Central Transport Inc. 2 million shares of a newly created class of 12 percent, cumulative voting preferred stock for $3 million and has issued, for a nominal consideration, immediately exercisable seven-year warrants to purchase an aggregate of 3,092,000 shares of the company's common stock which are exercisable at prices begnning at $1.00 per share and increasing over time to $1.50 per share.

In a separate transaction, Maestri and his family sold all of their shares of common stock in the company (a total of 2,510,713 shares or approximately 52 percent of the currently outstanding shares) to a limited partnership affiliated with Central Transport Inc. Pending receipt of certain regulatory approvals, all securities of the company acquired by Central Transport and its affiliate have been deposited in a voting trust arrangement with Charles B. Collins, an independent voting trustee.

The 2 million shares of newly issued preferred stock have a stated value and liquidation preference of $1.50 per share, are redeemable at the option of the company any time at their stated value plus accumulated dividends and are redeemable at the option of the holder after five years at their full face value, plus accumulated dividends. The preferred shares will vote with the common stock on a share for share basis.

Effective with the transfer of his share, Maestri resigned as a director, officer and employee of the company, although he remains under contract to Central Transport Inc. to provide consulting services to it and the company if and when requested. Robert W. Weaver, president and chief operating officer of the company, has assumed the position of chief executive officer.

Central Transport Inc. is a privately held Detroit-based transportation company.

NEW YORK (FEB. 23) PR NEWSWIRE - American Claims Evaluation, Inc. (NASDAQ: AMCE) today announced revenues for the three months ended Dec. 31 1989 of approximately $1,150,000 and net earnings of $.16 per share as compared to revenues of approximately $665,000 and net earnings of $.07 per share for the comparable three month period in the prior fiscal year. This brings the results for the nine month period then ended to revenues of approximately $3,019,000 and net earnings per share of $.38 as compared to revenues of approximately $1,900,000 and net earnings per share of approximately $.09 for the comparable nine month period ended Dec. 31, 1988.

AMERICAN CLAIMS EVALUATION, INC.

Periods Ended:	Three months		Nine Months	
Dec. 31:	1989	1988	1089	1988
Revenues	$1,149,331	$ 665,348	$3,018,821	$1,900,136
Oper. earns. (loss)	193,024	64,375	432,174	12,639
Earns. bef. prov.				

for inc. taxes	249,629	107,912	601,318	138,127
Net earnings	151,129	69,012	360,818	87,227
Net earns. per share of common stock	$.16	.07	.38	.09

Gary Gelman, chairman of the board and chief executive officer, stated that this marks the second consecutive quarter of the company's history in which its revenues equalled or exceeded one million dollars. He added that the sales increase of nearly 60 percent from the comparable nine month period of the company's prior fiscal year and the significant growth in earnings is most gratifying.

RICHMOND, VA (FEB. 23) PR NEWSWIRE - Record profit sharing checks were presented today to Reynolds Metals Company (NYSE: RLM) employees throughout the United States. About 18,000 eligible hourly and salaried employees received more than $50 million in profit sharing awards, 11 percent higher than last year.

The company's profit sharing payout was based on worldwide 1989 financial results and averaged $2,932 for eligible employees receiving full-year shares.

"In the two years since profit sharing was initiated, our employees have received over $95 million," said William O. Bourke, chairman and chief executive officer. "Thanks to their efforts, Reynolds achieved record growth, revenues and earnings in 1989."

Reynolds, a leading aluminum, consumer products and precious metals company, last month reported record profits of $533 million on revenues of $6.2 billion.

NILES, MI (FEB. 23) PR NEWSWIRE - National-Standard Company (NYSE: NSD) announced its intent to divest the company's medical products group located in Gainesville, Fla., according to Michael B. Savitske, president and chief executive officer. This action was taken as part of the company's strategy to concentrate its resources on core businesses.

The National-Standard Medical Products group manufactures specialized medical devices for use in radiology, cardiology, and urology markets. These products include Hawkins(TM) breast localization needles utilizing the company's FlexStrand(TM) cable system, specialized coiled and high-torque catheter guidewires, aspiration needle systems, and an automated biopsy system.

Interested concerns should contact Stephen F. Spencer, National- Standard Medical products, 4445-360 S.W. 35th Terrace, Gainesville, FL 32608, 904-338-0440 or 800-333-0440, Fax, 904-338-0662; or Rene J. VanSteelandt, National-Standard Company, 1618 Terminal Road, Niles, MI 49120, 616-683-8100, or 800-777-1618, Fax, 616-683-6249.

Founded in 1907, National-Standard Company is a Niles-based company manufacturing a broad range of wire, wire-related products, and machinery systems in 19 facilities throughout the world.

MINNEAPOLIS (FEB. 23) PR NEWSWIRE - SciMed Life Systems, Inc. (NASDAQ: SMLS) announced that late yesterday afternoon it was served with a lawsuit brought by Advanced Cardiovascular Systems, Inc. (ACS), a subsidiary of Eli Lilly and Company (NYSE: LLY), alleging that SciMed is infringing ACS's reissue patent Re. 33166, issued Feb. 20, 1990. The patent is entitled "Steerable Dilatation Catheter," and relates to a fixed wire catheter.

Dale Spencer, president of SciMed, stated that "the company's policy is not to infringe the intellectual property rights of others. Since the medical device industry seems to be experiencing increasing patent litigation and because of pending litigation with ACS, we have worked closely with patent counsel to design our products to avoid such problems. Consequently, the company believes the allegations are without merit and that it has strong defenses. SciMed believes that this new lawsuit is a continuation of the same anti-competitive conduct by ACS and Eli Lilly which has lead to our counterclaims for antitrust violations, unfair competition and tortious interference with business relationships in the pending litigation. We intend to vigorously defend this lawsuit and to press our claims against ACS and Eli Lilly."

ATLANTA (FEB. 23) PR NEWSWIRE - Health Images Inc. (NASDAQ: HIMG) announced that it anticipates filing early in April with the Securities and Exchange Commission a Registration Statement for an underwritten public offering of $20 million of Senior Notes by the company.

The interet rate payable on the Senior Notes, which will have a final maturity date 10 years after issuance, may be reset by the company after five years. The net proceeds from the proposed offering are intended to be used to reduce floating rate debt and to finance the expansion of the company.

The proposed offering will be made only by means of a Prospectus. A Registration Statement relating to the proposed offering has not been filed with the Securities and Exchange Commission. The securities may not be sold nor may offers to buy be accepted prior to the time the Registration Statement becomes effective. This communication shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

ST. PAUL, MN (FEB. 23) PR NEWSWIRE - Merrill Corporation (NASDAQ: MRLL) announced today that it has purchased selected assets of Southeastern Financial Printing Corp., a financial printing firm based in Atlanta, Ga. Assets acquired include all work-in- process, equipment and office furnishings. Terms of the purchase were not disclosed.

Southeastern Financial Printing's operations will be merged with Merrill's existing Atlanta facility. The merged division, renamed Merrill/Southeastern, will be managed by 10-year industry veteran Steven W. Cook, former president of Southeastern Financial Printing.

In commenting on the acquisition, John Castro, president and chief executive officer of Merrill Corporation, said, "Southeastern's long-term presence in Atlanta's financial marketplace will increase our ability to become a major provider of financial printing services in this important market."

Merrill Corporation is a leading provider of on-demand 24-hour- a-day typesetting, printing, document reproduction and distribution services to financial, legal and corporate markets nationwide.

ATLANTA (FEB. 23) PR NEWSWIRE - First Liberty Financial Corp. (NASDAQ: FLFC) announced that it had entered into a definitive agreement with SouthTrust Corp. (Birmingham, Ala.) whereby SouthTrust Corp. will acquire First Liberty's North Georgia Banking Division which comprises 17 banking offices with deposits in excess of $200 million.

The companies had previously announced an agreement in principle on the proposed transaction.

Speaking at First Liberty's Annual Meeting of Stockholders earlier in the week, R. Gordon Rowell, the company's chairman and chief executive officer stated that he expected the agreement to be signed within a day or so and that the regulatory approval process should take three to four months.

"We hope to be able to close the transaction in June or July," Rowell said. "SouthTrust is one of the larger and stronger bank holding companies in the Southeast and we are quite pleased to have made an agreement with such a fine company."

Continuing, Rowell said, "When the SouthTrust transaction is completed, First Liberty's assets will be approximately $700 million and it will have 18 banking offices in the Middle Georgia, South Georgia and Coastal Georgia regions and will still own Liberty Mortgage Corp. The company will be a very attractive company and a strong company. Its principal subsidiary, Liberty Savings Bank, will be in compliance with and exceed all applicable regulatory capital standards."

In answer to the question "Is First Liberty for sale?" Rowell said, "If the board should receive an offer which it believes fairly represents the value of the company in today's economic and regulatory environment, we would certainly recommend acceptance of such an offer."

Commenting on the work which Goldman, Sachs & Co. had performed for the company since last summer, which included a review of strategic alternatives available to First Liberty, Rowell said, "With the assistance of Goldman, Sachs we have identified the parties which we believe might be potential acquirors of First Liberty."

Rowell mentioned that while the recently enacted Financial Institutions Reform, Recovery and Enforcement Act of 1989 had made it possible for the

first time for bank holding companies to acquire healthy thrift institutions, there have not been nearly as many such acquisitions announced as had been expected.

ARLINGTON, VA (FEB. 23) PR NEWSWIRE - CACI International Inc. (NASDAQ: CACIA), headquartered in Arlington, today announced that they have been competitively awarded a $70.8 million eight year contract (three year base period with five one year options) to provide Data Processing Support Services for the Naval Weapons Support Center, Crane, Ind.

Under this contract awarded by the Navy Automatic Data Processing Selection Office, Washington, CACI will provide software development, maintenance and site implementation services for the Ordnance Management System, Fleet Optical Scanning Ammunition Marking System, Non-Nuclear Ammunition Inventory Accuracy Program, and other related ammunitions management and accountability improvement programs. It is anticipated that approximately 75 percent of the support effort will be performed in the NWSC Crane, Ind. geographical area. The balance of the work will be performed in various other locations including Virginia, Pennsylvania and California.

Dr. J.P. London, CACI president and chief executive officer states, "This important competitive award demonstrates CACI's continued commitment to providing cost-effective, best value solutions to our customers. This is particularly important in today's resource constrained operating

environment."

CACI, in its 28th year, is an international high-technology and professional services corporation. CACI is a leader in advanced information systems, engineering, logistics, proprietary software and market analysis. CACI provides worldwide services in support of national defense agencies, civil government and commercial enterprises.

CACI offices are located in major cities in North America and Western Europe. Corporate headquarters are in the metropolitan Washington area.

EDISON, NJ (FEB. 23) PR NEWSWIRE - Dataflex Corporation (NASDAQ-NMS: DFLX) announced today that it filed a registration statement with the Securities and Exchange Commission for a public offering of 1,220,000 shares of common stock. The company also announced an agreement in principle wherein certain executive officers will assume increased responsibilities and will acquire additional ownership positions in the company.

Of the shares offered, the company will sell 900,000 shares and Jeffrey A. Lamm, chairman of the board and chief executive officer, will sell 320,000 shares. In addition, the company and Lamm will grant to the underwriters over-allotment options with respect to 33,000 and 150,000 shares, respectively. Proceeds from the offering of common stock by the company will be used to repay company indebtedness. The company will have 3,337,956 common shares outstanding when the offering is completed.

As part of a change in management responsibilities, Lamm will continue in his position as chairman of the board. Richard C. Rose, president, chief operating officer and director, will succeed Lamm as chief executive officer. Gordon J. McLenithan, while remaining chief financial officer, will become executive vice president and chief operating officer. McLenithan will also become a member of the company's board of directors. Rose and McLenithan have been employed by Dataflex since 1984.

In addition to selling shares in the offering, Lamm will sell to Rose and McLenithan $1 million of common stock at the same price per share that will be paid by the public in the offering. In addition, Lamm will sell options to Rose and McLenithan to purchase 144,000 and 96,000 shares, respectively, also at the offering price. Furthermore, in recognition of Rose and McLenithan's increased responsibilities, the company will grant options to Rose and McLenithan to purchase at the public offering price an

aggregate of 320,000 shares of common stock.

These transactions have been agreed to in principle and the closing of these transactions is subject to the execution of definitive agreements and completion of the offering.

The public offering will be underwritten by a syndicate managed by Oppenheimer & Co., Inc. The offering will be made only by a prospectus and only upon the registration statement being declared effective by the Securities and Exchange Commission and certain state securities agencies.

Dataflex is an authorized reseller of desktop computer equipment and related products supplied primarily by major manufacturers including IBM, Hewlett Packard and others.

#90054p0062 02/23/1990 ~PR Newswire

HUNT VALLEY, MD (FEB. 23) PR NEWSWIRE - Easco Hand Tools Inc. (NASDAQ: TOOL) today reported a net loss for the three-month period ended Dec. 31, 1989, of $9,788,000 or $.70 per share.

This compares with net income of $2,766,000 or $0.20 per share for the fourth quarter of 1988. Sales for the three months ended Dec. 31, 1989, were $56,453,000 as compared with $58,529,000 for the fourth quarter of 1988.

For the 12 months ended Dec. 31, 1989, the company reported a net loss of $19,435,000 or $1.39 per share as compared to net income of $10,999,000 or $.79 per share for full year 1988. Net sales for 1989 were $205,639,000 as compared with $206,815,000 in 1988.

Results in the fourth quarter were negatively affected by the previously announced charge of $13 million taken against earnings to increase the company's reserves for market declines related to its high- yield bond investment during this period. Fourth quarter 1989 sales were negatively affected by production constraints related to the conversion to production cells and just-in-time manufacturing methods.

Full year 1989 results reflect the $19 million restructuring charge taken in the second quarter, and the $13 million in additional reserves from the fourth quarter.

Operating profit for the fourth quarter was $4,661,000 as compared to $4,583,000 in the same period of 1988 and reflects cost reductions from

the company's mid-year restructuring.

The company's high-yield investment portfolio, while reduced to approximately $30 million from recent sales, continues to be subject to market volatility. If the company were to liquidate its high-yield investment today, an additional reduction in carrying value of several million dollars would be likely.

Stephen C. Perry, president and chief executive officer of Easco said, "In terms of financial results, 1989 was clearly a very disappointing year for Easco Hand Tools and its shareholders. As 1990 progresses and our employees become more acclimated to the just-in-time environment, I anticipate improvement in both productivity and response to customers."

On Feb. 20, 1990, Easco and Danaher Corp. (NYSE: DHR) announced that they had entered into a merger agreement under which Danaher would acquire Easco in a stock-for-stock transaction.

Easco Hand Tools, Inc. is one of the world's largest producers of quality mechanics hand tools and specialized automotive service tools for professional, industrial and do-it-yourself markets.

SOMERS POINT, NJ (FEB. 23) PR NEWSWIRE - Robert J. DiDomenico, chief executive officer of Action Savings Bank, SLA (NASDAQ: ANSL), stated today "There is no change in Action's business or financial condition which

provides an explanation for the recent decline in the market price of our common stock. Action's capital position remains sound."

As of Dec. 31, 1989, Action had assets of $292.8 million and shareholders' equity of $19.5 million or 6.65 percent of assets, which equates to $17.66 per share. "While Action's loan portfolio has been affected by the general downturn in the real estate market," DiDomenico added, "the management of Action is confident in the long-term prospects of the bank."

"Action meets its regulatory capital requirements and its average regulatory liquidity ratio was 9.29 percent during the month of January 1990," noted DiDomenico. "While the Board of Directors will not meet until March to determine the next quarterly dividend, I expect that the regular quarterly dividend of $0.08 per share will be continued at that time." At Dec. 31, 1989, for regulatory purposes, Action's core and tangible capital to assets ratios were 6.65 percent, and its regulatory capital to risk-weighted assets ratio was 8.92 percent.

Action Savings Bank, SLA, is headquartered in Somers Point and operates seven offices in Atlantic and Cape May counties, N.J.

BUTLER, PA (FEB. 23) PR NEWSWIRE - Armco Advanced Materials Corp. (Armco/AMC), a subsidiary of Armco Inc. (NYSE: AS), has been selected as the major supplier of special grades of stainless steel to the Toyota

Motor Manufacturing plant in Georgetown, Ky.

Armco/AMC's stainless steel will be used in exhaust system components of Toyota automobiles manufactured in North America, including the Camry produced at the Georgetown plant.

The selection of Armco/AMC as the major supplier follows an extensive evaluation of Armco's products and facilities that began more than a year ago, according to Charles A. Stitt, vice president-commercial for Armco/AMC. Stitt said initial shipments of steel to Toyota could begin within several months.

"We are very excited to have been chosen as the major supplier of stainless steel for exhaust systems in Toyota's U.S.-made automobiles," Stitt said. "Toyota has high quality and delivery standards and we are delighted to have met those requirements," he said.

Armco/AMC, with plants in Butler, Pa., Zanesville, Ohio, and Wildwood, Fla., is a world leader in production of special stainless steels for automotive exhaust system applications, and is also a major producer of other flat rolled stainless and electrical steels and stainless piping and tubing.

Toyota Motor Manufacturing USA is a subsidiary of Toyota Motor Corp., the third largest automobile manufacturer in the world. Toyota has made a $1.1 billion investment in Kentucky, including an $800 million automobile manufacturing facility and a $300 million power train plant.

NEW YORK (FEB. 23) PR NEWSWIRE - Colgate-Palmolive Company (NYSE: CL) announced today that its offer to purchase any and all common shares of Vipont Pharmaceutical, Inc. (NASDAQ: VLAB), expired pursuant to its terms at 5:00 p.m. on Feb. 22, 1990, and that all shares validly tendered have been accepted for payment. According to First Chicago Trust Company of New York, the depository for the offer, a preliminary count indicated that 6,340,833 shares had been validly tendered, constituting approximately 96 percent of the outstanding shares of Vipont. Included in this amount are 244,448 shares which were tendered by guaranteed delivery.

Colgate has notified First Chicago Trust Company of New York that it is purchasing all shares tendered and will promptly make payment for them at $14.00 per share. Colgate expects to complete a cash merger in the first quarter of 1990 to acquire the remaining outstanding shares of Vipont at $14.00 per share.

Colgate is the leader in the global oral care market with the world's number one selling tootpaste and a full line of toothbrushes, mouthrinses and dental professional products. In addition, it is one of the world's leading consumer products companies, marketing its quality products in over 160 countries. The company's internationally recognized brand names include Colgate, Palmolive, Ajax, Fab, Irish Spring, Hill's Science Diet and Hill's Prescription Diet.

Vipont Pharmaceutical, Inc., is a health care company specializing in oral hygiene, based in Ft. Collins, Colo. Its anti-plaque toothpaste and oral rinse products are sold throughout the United States under the Viadent brand name. Colgate recently launched in Europe anti-plaque products based on Vipont's technology.

DALLAS (FEB. 23) PR NEWSWIRE - ZFAX Image Corp. (NASDAQ: ZFAXF) today announced results for the third quarter and nine month periods ended Dec. 31, 1989.

Revenues for the third quarter of 1989 increased to $53,031 from $16,611 one year earlier. There was a net loss in the current period of $108,622 or $.04 per share as compared to a net loss of $37,487 or $.02 per share in the third quarter of last year.

For the first nine months of 1989, revenues rose to $118,396 from $16,611 in the nine month period one year ago. The net loss for the current period was $319,399 or $.15 per share vs. a net loss of $258,828 or $.16 per share in the comparable period.

In September 1989, the company completed an initial public offering of 1,150,000 shares of common stock. Therefore, calculations for the third quarter and nine months ended Dec. 31, 1989 were based on 2,887,250 weighted average shares outstanding as compared to 1,737,250 for the comparable periods of 1988.

According to Harmon Hardy, chief executive officer of ZFAX, "The increase in revenues in the current three and nine month periods is attributable to higher sales in our Dallas retail store which is dedicated to the sale of facsimile machines and related products. We are very encouraged by the performance of the store and we are currently scouting other locations in which additional stores would prosper."

Hardy noted, "Development of the company's ZFAX PF 4003 a ruggedized, lightweight portable fax machine will soon be completed. Letters of intent for production of the PF 4003 have already been signed. Although we are still incurring production design costs associated with the finalization of our fax machine, we have high expectations for growth in this area of our operations beginning in the second half of fiscal 1990."

ZFAX Image Corp. is completing development of its state-of-the-art portable facsimile machine. The company also operates a retail store in Dallas for the sale of facsimiles and complementary products. ZFAX completed its initial public offering in September 1989.

#90054p0079 02/23/1990 ~PR Newswire

NEW YORK (FEB. 23) PR NEWSWIRE - Edmund T. Pratt, Jr., chairman and chief executive officer of Pfizer Inc. (NYSE: PFE), said today the company believes its reserves and insurance are adequate for any potential liability related to Shiley heart valves. Pratt issued the statement in advance of Shiley's appearance before a congressional subcommittee hearing on Monday, Feb. 26.

The concerns about liability stem from fractures that have occurred in two models of Shiley valves -- the Bjork-Shilkey 60-degree and 70-degree Convexo-Concave (C/C) valves. Since 1978, more than 80,000 60-degree valves were distributed worldwide and about 5,000 70-degree valves were distributed only overseas. Fractures have been reported in fewer than 400 valves.

In litigation resulting from these events, Shiley has compensated claimants fairly and promptly, despite the availability of valid defenses.

A number of cases have been filed by people claiming anxiety because of concern that their properly-functioning valves may fail at some point in the future. Thirty-eight of these cases have already been dismissed by court order or voluntarily withdrawn by the plaintiffs. Pfizer refuses to settle such cases.

Pfizer is confident about its litigation liability because the fracture rate of the valves is extremely low.

On Monday, Feb. 26, the House Oversight and Investigations Subcommittee will hold a hearing on FDA's regulation of medical devices, and the heart valve litigation will be the primary focus of the hearing. At the hearing, Pfizer and Shiley representatives will present documentation to demonstrate that the overall risks from implanted heart valves are not significantly different from risks associated with other valves available at the same time.

In addition, Shiley will demonstrate that the strut fracture situation was handled reasonably and conscientiously. It is especially important to note that the Shiley valve presented unique benefits to recipients in that it was developed to solve the major complication from mechanical heart valves -- namely blood clotting and strokes.

Pratt said, "Pfizer is deeply committed to improving and enhancing people's health. This is our business. We believe that the Shiley valve, by reducing the complication of clotting, has made a uniquely valuable contribution to health care, and we are pleased that it has been used successfully by more than 85,000 people worldwide."

Pfizer Inc. is a diversified, research-based health care company with businesses in pharmaceuticals, hospital products, animal health, consumer products, specialty chemicals and specialty minerals. The company reported sales of approximately $5.7 billion in 1989.

NEW YORK (FEB. 23) PR NEWSWIRE - Pfizer Inc. (NYSE: PFE) today announced that its board of directors has approved the sale of the pigments portion of it specialty minerals group, subject to the completion of the current negotiations which are the result of an offer received by the company in February 1990.

Based on generally accepted accounting principles as confirmed by KPMG Peat Marwick, Pfizer's outside auditors, the audited financial results for 1989 will have to reflect the recognition of a reduced value of the assets of the pigments business, amounting to $70 million before tax. This will be charged to "other deductions" in the consolidated statement of income.

Dr. Jean-Paul Valles, senior vice president-finance, said this action has reduced previously announced results for the year to net income of $681.1 million from $727.3 million previously reported, or $4.04 per share from $4.31 per share. Therefore, the restated 1989 net income will now show a reduction of 14 percent from 1988. For the fourth quarter 1989, the restated net income is $87.1 million, as compared to $133.3 million previously reported, or $.52 per share, down from $.79 per share. Restated net income for the quarter is a decline of 38 percent from 1988.

Pfizer Inc. is a diversified, research-based health care company with businesses in pharmaceuticals, hospital products, animal health, consumer products, specialty chemicals and specialty minerals. The company reported sales of approximately $5.7 billion for 1989.

MIAMI LAKES, FL (FEB. 23) PR NEWSWIRE - Loan America Financial Corporation (NASDAQ-NMS: LAFCB), a publicly owned nationwide residential mortgage banking firm, has reported net earnings of $966,509 ($.43 per share) on total revenues of $20,264,388 for its fiscal year ended Dec. 31, 1989, compared to net earnings of $1,608,156 ($.75 per share) on total revenues of $23,790,788 for fiscal 1988.

For the three months ended Dec. 31, 1989, Loan America reported net

earnings of $25,680 ($.00 per share) on total revenues of $4,350,271, compared to net earnings of $248,165 ($.11 per share) on total revenues of $6,120,130 for the same quarter of 1988.

Loan America's residential mortgage servicing portfolio rose above $2.5 billion as of Dec. 31, 1989, compared to $2 billion a year ago.

In announcing the annual figures, John S. Kuczwanski, president of Loan America, stated, "During the fourth quarter, we made a decision to favor porfolio growth over current earnings. We chose not to sell any of the mortgage servicing we had produced because the market for such servicing was adverse at that time.

"For the full year, our residential mortgage servicing portfolio rose by a very healthy 25 percent to above $2.5 billion. This growth was fueled by a 23 percent rise in total loan originations to $874 million for the year."

NEW YORK (FEB. 23) PR NEWSWIRE - John K. Ziegler, chairman and chief executive officer of Willcox & Gibbs, Inc. (NYSE: WG), today announced record sales, net income and earnings per share for the 12 months and quarter ended Dec. 31, 1989.

Ziegler reported that for the year ended Dec. 31, 1989, sales and earnings rose to $548 million and $17,909,000, respectively, compared with sales of $381,133,000 and earnings of $14,020,000 in 1988. Earnings per share on a fully diluted basis for 1989 were $1.29 compared with $1.03 in 1988.

The 1989 results include the results for Clark Consolidated Industries, an

electrical distributor acquired in January 1989, and also the results of Data Net and Dataspan, acquired in November 1988. The sales included in 1989 for these acquisitions were $95 million.

The quarter ended Dec. 31, 1989, had earnings of $4,839,000 compared with $3,986,000 in the same quarter in 1988. This marked the 27th consecutive quarter that the company has reported higher earnings as compared to the same quarter in the prior year. Sales were $139,493,000 in the 1989 quarter compared with $107,683,000 in the same quarter in 1988.

Willcox & Gibbs is a distributor of industrial parts and supplies for the electrical, data communications, and apparel industries, and a specialty manufacturer, primarily of covered yarn. The company also manufactures and markets computer-based production planning and control systems.

#90054p0101 02/23/1990 ~PR Newswire

SCHAUMBURG, IL (FEB. 23) PR NEWSWIRE - Intercargo Corporation (NASDAQ: ICAR) today reported record earnings for the fourth quarter and year ended Dec. 31, 1989.

Net income for the 1989 fourth quarter rose 42 percent to a record $771,000, or 34 cents per share, from $542,000, or 23 cents per share, in the 1988 period. Total revenues increased 10 percent to $6,327,000 from $5,748,000 in the 1988 fourth quarter.

For the year ended Dec. 31, 1989, income was up 25 percent to a record $2,513,000 from $2,012,000 in 1988. Earnings per share were $1.09 on 2,300,000 shares outstanding compared to $1.00 on 2,008,000 average shares outstanding in 1988. The increase in the number of shares outstanding reflects the initial public offering of 700,000 shares in May 1988.

Total 1989 revenues increased 6.5 percent to $24,337,000 from $22,850,000 in 1988.

Intercargo Corporation received a $91,000, or 4 cents per share, deferred tax benefit from the adoption of FASB 96 during the first quarter of 1989.

James R. Zuhlke, president and chief executive officer, said higher fourth quarter and 1989 results were paced by significant increases in investment income which rose almost 55 percent to $2,036,000 from $1,316,000 in 1988. He said the company realized $450,000 from deposits on the disposition of two subsidiary charters in the fourth quarter of 1989.

Zuhlke noted that premium revenues have increased on all lines of the company's business. "Combined loss and expense ratios of 91.2 percent continue to outperform the general property and casualty insurance industry which posted a combined ratio of 109.1 percent for the first nine months of 1989." A combined ratio of less that 100 percent indicates an underwriting profit.

As previously reported, the company acquired a 38 percent interest in Kingsway Financial Services and its wholly owned subsidiary Kingsway General Insurance Company on Oct. 31, 1989. "In addition to participating in current profitable operations," Zuhlke said, "this acquisition facilitates the marketing of Intercargo Corporation's product lines in Canada."

Headquartered in Schaumburg, Ill. (a Chicago suburb) Intercargo Corporation is a leading provider of specialized insurance coverage for companies involved in international trade. Its market is primarily importers and exporters, customs brokers and freight forwarders and other global traders. The primary coverages it underwrites are U.S. Customs Bonds, for which it controls about 33 percent of the market, and marine cargo insurance.

SALEM, NH (FEB. 23) PR NEWSWIRE - Hadco Corporation (NASDAQ: HDCO) today announced net income of $1.2 million, or 10 cents per share, for the first quarter of fiscal 1990 ended Jan. 27, 1990, as compared to a loss of $1.6 million, or (14 cents) per share, for the first quarter of fiscal 1989. Net sales for the first quarter of fiscal 1990 were $37.4 million up 18.3 percent from the same period a year ago.

Bookings for the first qurter of fiscal 1990 were $37.3 million up 3.3 percent from the same period in fiscal 1989. Backlog at the end of the first quarter was $27.8 million, up 3.6 percent from the same point a year ago.

Jon Kropper, president and chief executive officer, stated, "We are very pleased with the 24 cents swing in earnings per share over the same point

last year. At 62 cents per share, our trailing four quarter earnings are up significantly from 14 cents at the end of the first quarter of fiscal 1989. This performance comes from good execution of a sound strategy, effective cost control, and improved manufacturing yields. Our strategy has resulted in higher revenues and our efficiency gains are reflected in our improved profitability. Our backlog and bookings continue to grow despite the flat market conditions.

"Hadco's strategy has been consistent for a number of years: Invest in the assets needed to provide advanced technology products in volume and foster an attitude devoted to quality and service. There is absolutely no substitute for quality products, delivered on schedule.

"Our assets include the largest sales force in the industry, our broad customer base, our financial strength, and our full service capabilities. Our financial strength is especially important in light of the industry consolidation. At a time when most of our competitors are forced to curtail their rate of re-investment, we have been able to consistently invest in the future. Our balance sheet remains strong, with cash and short term investments growing to $20.4 million at the end of the first quarter.

"I'm optimistic about our future. I know we're doing the right things. I think the industry consolidation will work to our benefit."

Hadco is a leading independent manufacturer of dense double-sided and multilayer printed circuits, serving customers in the computer, telecommunications, industrial automation and instrumentation industries. The company also manufactures backplanes. It operates six facilities in the United States.

#90054p0106 02/23/1990 ~PR Newswire

HARRISBURG, PA. (FEB. 23) PR NEWSWIRE - Harsco Corp. (NYSE: HSC) announced today record sales for 1989 of $1.4 billion, 6 percent above 1988's $1.3 billion.

Net income was $11.4 million, a decline from 1988's $31.1 million. Earnings per share were $.43 on 26,261,000 averages shares outstanding compared to earnings per share of $1.17 on 26,619,000 average shares outstanding for 1988. The disappointing 1989 results were principally driven by substantial loss provisions recorded on two defense contracts for Armored Combat Earthmovers (ACE) and five-ton trucks.

In the fourth quarter, sales of $325.3 million were 3 percent below the $337.1 million for the same period in 1988. The company reported a loss of $4.1 million for the quarter. A loss of $18 million was reported in 1988's fourth quarter. On a per-share basis, the company reported a $.16 loss on 26,210,000 average shares outstanding as compared with a $.67 loss on 26,435,000 average shares outstanding for last year's fourth quarter.

For the fourth quarter, sales were up slightly for both the Engineered Products and Industrial Services and Building Products Groups. Sales for the Defense Group posted a 22 percent decline. Operating profit for the Engineered Products Group was 45 percent ahead of the last quarter in 1988 due principally to a gain recorded in conjunction with the sale of a division. Results for the Industrial Services and Building Products Group increased 15 percent despite continuing adverse market conditions affecting plastic products. The Defense Group reported a significantly lower loss than in the fourth quarter of 1988 when larger adjustments for cost to complete estimates and loss contingencies were recorded.

Harsco Corp., a diversified industrial company, conducts its business through 13 divisions and has 21 varied classes of products and services, principally for defense, industrial, commercial, and construction applications.

PITTSBURGH (FEB. 23) PR NEWSWIRE - Equibank announced grand opening activities for its Robinson Township store, which will take place during the week of Feb. 25 and will feature an appearance by Pittsburgh Steelers running back, Merril Hoge.

Charles Bennett, manager of Equibank's Robinson Township store, said grand opening activities include a contest -- with prizes such as a trip for two to Florida, a Magnavox color television, a Panasonic answering machine -- and the special appearance by Hoge, who will greet fans and sign autographs from noon until 2 p.m. on Saturday, March 3.

Equibank's Robinson Township store, located at Robinson Plaza on Route 60, began operations in mid-December. The store serves customers Monday through Thursday, 9 a.m. to 4 p.m.; Friday, 9 a.m. to 8 p.m.; and Saturday

9 a.m. to noon, in the lobby area and at two drive-in lanes. In addition, the store offers a MAC 24-hour banking machine featuring Equibank's Stamp Stop -- the convenient way for customers to buy postage stamps -- and a night depository.

Equibank is a subsidiary of Equimark Corp. (NYSE: EQK), a diversified financial services institution with $3.8 billion in assets. Equibank, with assets of $3.1 billion, operates 56 offices in southwestern Pennsylvania.

JERSEY CITY, NJ (FEB. 23) PR NEWSWIRE - Mascott Corporation (NASDAQ: DINE) today announced the expected opening this spring of its second Markers Restaurant to be located in Somers Point, N.J. The company opened its first Markers Restaurant located in Jersey City, in March 1989.

The new Markers is expected to open after the complete renovation of the former Harbour Lights Restaurant. The restaurant is a 12,000 square foot free standing building, will seat over 300 persons and has two large decks overlooking the bay and Harbour Cove Marina.

Scott Gillman, vice chairman, stated that "we have found a prime waterfront location which we will be able to open for 25 percent to 30 percent of the cost of a new built facility, such as the original Markers. Despite the recent downturn in the restaurant business, generally, which has negatively affected our operations, we have encountered some excellent buy opportunities, such as Somers Point. Because of our strong management team and balance sheet, we have been approached by literally dozens of developers interested in having us operate restaurants. We are currently evaluating several new full service restaurant locations."

The company was established to own and operate restaurants and Cinnabon(A) bakery franchises. In addition to the original Markers Restaurant, the company operates a Cinabon franchise in Paramus Park Mall, Paramus, N.J.

#90054p0121 02/23/1990 ~PR Newswire

ORCHARD PARK, NY (FEB. 23) PR NEWSWIRE - Astronics Corporation (NASDAQ: ATRO) today announced the results for 1989.

FINANCIAL RESULTS Net sales for 1989 increased to $22,145,000, up 1 percent from 1988s sales of $21,883,000. In 1989, the company experienced a loss of $1,996,000, of 51 cents per share, as compared to earnings in 1988 of $20,000, or 1 cent per share.

Fourth quarter sales were $5,955,000 as compared to $6,165,000 in the fourth quarter of 1988. The company showed a nominal profit in the fourth quarter of 1989 as a result of substantial deferred tax credits calculated under Statement of Financial Accounting Standards No. 96, "Accounting for Income Taxes," adopted by the company in 1987. During the fourth quarter of 1988, the company experienced break-even results.

"The year was challenging in all respects," stated Kevin T. Keane, president and chief executive officer, "but we believe the trough has been reached and as we progress through 1990 we will see a return to profitable results. Our long-term goals for profitability and return on equity have been temporarily sidetracked, but not lost."

E-L PRODUCTS COMPANY During 1989 the company's E-L Products Company made major investments in technical research, product development and capacity expansion, as well as completing the major portion of its transition started in 1988 with the acquisition of the Grimes Electroluminescent Lighting (EL) Product Group. The costs and time to achieve these have significantly exceeded estimates and were the major cause of the loss in 1989.

"We continue to explore outside investment alternatives for E-L Products Company, but no definitive opportunities are currently under consideration " commented Keane.

BACKLOG The backlog at Dec. 31, 1989, was $10,200,000, compared to $9,200,000 at the end of 1988. The backlog increased nominally during the fourth quarter.

THE COMPANY Astronics Corporation is in niche markets where complex customer needs and other competitive barriers allow significant market differentiation. These markets are in electroluminescent lighting systems military full travel and membrane switch systems, elastomer products for industry, record handling systems, folding cartons and specialty printing.

HOUSTON (FEB. 23) PR NEWSWIRE - Charles M. Oglesby, 37, has been appointed president and chief executive officer of Wyoming-California Pipeline Company (WYCAL), a partnership owned by subsidiaries of the Coastal Corporation (NYSE: CGP).

WYCAL plans to start construction later this year on an interstate pipeline that will transport natural gas from the prolific Overthrust gas fields in Wyoming to local distribution companies, electric utilities and other markets in Southern California.

Oglesby will continue to serve as executive vice president of Coastal's interstate pipeline subsidiaries, ANR Pipeline Company and Colorado Interstate Gas Company.

Oglesby joined Coastal in 1987 from Valero Transmission Company, where he was senior vice president-marketing and transportation. Earlier he served as director of marketing and transportation for Northwest Pipeline Corporation and held positions as coordinator of legislative affairs and as gas buyer for United Gas Pipeline Company. He is a graduate of Northeast Louisiana University and holds a law degree from Louisiana State University.

Coastal subsidiaries operate more than 19,000 miles of interstate pipeline. In addition to ANR Pipeline and Colorado Interstate Gas, other subsidiaries are engaged in gathering, storage, transmission and marketing of natural gas.

The Coastal Corporation is a Houston-based energy holding company. It has consolidated assets of $8 billion and subsidiary operations in natural gas transmission and storage, oil and gas exploration and production, refining and marketing, coal and chemicals, and independent power production.

ATLANTA (FEB. 23) PR NEWSWIRE - Contel Corp. (NYSE: CTC) today announced that Jerry W. Braxton, controller, has been named vice president and treasurer, replacing Don D. Pitts, who has elected to retire.

Braxton's appointment and Pitts' retirement are effective March 31. Contel said a successor to Braxton is expected to be named prior to that date.

As treasurer of Contel, Braxton will be responsible for banking relations, cash management, debt placement, risk management, pension trust funding and corporate real estate, facilities and administration.

Braxton, 43, joined Contel in 1975 after working for Arthur Andersen & Co. as a senior auditor. Prior to being named controller for Contel in 1983, he served as controller for the company's Eastern Region Telephone Operations, where he previously held positions in financial planning and revenue requirements.

Braxton received a bachelor's degree in accounting from Delaware State College in 1972, after serving in the U.S. Navy for four years. He is a certified public accountant and is a member of the American Institute of Certified Public Accountants.

Contel, a company with $3 billion in annual revenues and sales, provides a broad range of telecommunications products and services.

FAIRFAX, VA (FEB. 23) PR NEWSWIRE - J. Mark Elliott, president of ERC Environmental and Energy Services Co., Inc. (NASDAQ-NMS: ERCE) today announced increased earnings and revenues for the fourth quarter and fiscal year ended Dec. 31, 1989.

Fourth quarter 1989 revenues increased 19 percent to $18.8 million from $15.8 million in 1988, while net earnings rose to $892,000 from $600,000 in 1988. Earnings per share (fully diluted) rose 14 percent to 16 cents from a pro forma 14 cents for the fourth quarter in 1988. Environmental and infrastructure revenues rose by some 23 percent, which contributed substantially to the company's improved margins and operating earnings in 1989.

For all of 1989, ERCE's revenues increased 15 percent to $72.3 million from $62.9 million in 1988, while net earnings rose to $3.6 million from $3.0 million in 1988. Earnings per share (fully diluted) rose 5 percent to 67 cents from a pro forma 64 cents in 1988 (before adjustment for the

1988 Comanche peak contract pre-SG&A operating contribution of $759,000). The 23 percent rise in environmental and infrastructure revenues coupled with an improvement in energy operating margins helped to substantially improve the company's operating earnings in 1989."

Elliott stated: "In 1989, our first full year as a public company, environmental and infrastructure revenues increased 23 percent and non-Comanche Peak energy revenues increased 19 percent. We are extremely pleased with this growth and the overall improvement in our operating margins. More important, we expect these positive trends to continue into 1990 and beyond as reflected in a 37 percent interest in our year- end backlog from 1988 to 1989."

ERC Environmental and Energy Services Co., Inc is a professional and technical services firm providing a comprehensive range of environmental, infrastructure, and energy consulting, engineering, and analytical services to industrial and commercial companies and governmental agencies. The company has additional principal operating offices in Nashville, Tenn., and San Diego.

NORTHBROOK, IL (FEB. 23) PR NEWSWIRE - The board of directors of International Minerals & Chemical Corporation (IMC) (NYSE: IGL) has authorized the call for redemption of all of the company's outstanding $3.25 convertible exchangeable preferred stock, Series B, at a redemption price at $52.275 per share, and fixed April 16, 1990 as the redemption date.

Holders have the alternative, until the close of business on April 16, 1990, to convert all or any part of their Series B preferred stock into IMC common stock at a conversion rate of 1.2658 shares of common stock for each Series B preferred share.

Based on present market conditions, it is contemplated that the call for redemption will be given by official written notice to be mailed March 9, 1990, to holders of record and also will be mailed to those becoming record holders after that date.

In April 1987, IMC issued 1,725,000 shares of Series B preferred stock. Since that date, 327,000 Series B shares have been repurchased, leaving 1,398,000 shares currently outstanding.

NEW YORK (FEB. 23) PR NEWSWIRE - Chartwell Associates L.P. reported today that the United States District Court for the Southern District of New York ordered Avon Products Inc. (NYSE: AVP) to provide its list of stockholders to Chartwell within three business days. Chartwell sought the list so that it can solicit proxies on behalf of its four nominees to the Avon board of directors.

On Feb. 8, 1990, Chartwell notified Avon of its intention to nominate at least four directors to the Avon board of directors at the 1990 annual meeting of shareholders, and duly requested a listing of Avon stockholders in order to solicit proxies. In a letter to Chartwell dated Feb. 14, 1990, Avon refused to comply with Chartwell's request for the stockholder list. On Feb. 20, 1990, Chartwell filed suit in the U.S. District Court for the Southern District of New York in order to compel Avon to make available to Chartwell a listing of Avon stockholders.

Chartwell Associates L.P., in its most recent 13D filing, indicated it held 9.1 percent of the common stock of Avon.

JACKSON, MI (FEB. 23) PR NEWSWIRE - On Feb. 22, 1990, the Michigan Public Service Commission denied all parties' requests for rehearing of its Dec. 21, 1989, order concerning the Midland Cogeneration Venture's (MCV) allowed avoided cost. That order called for 870 megawatts of gas-fired capacity, to be sold at an avoided cost of 3.77 cents per kilowatt-hour. The rate, however, was to be backloaded over 17.5 years, at a 40-percent discount.

As previously described by the company, this order would have resulted in the unnecessary write-off of $284 million as a result of the accounting rule FAS 92.

The company is evaluating the order but will continue to pursue its already-filed appeal of this order and will honor its existing contracts with six Michigan cogeneration projects including the MCV.

Consumers Power Company, the principal subsidiary of CMS Energy Corporation (NYSE: CMS), is Michigan's largest utility serving almost 6 million of the state's 9 million residents in 67 of the 68 Lower Peninsula counties.

ST. PAUL, MN (FEB. 23) PR NEWSWIRE - Merrill Corp. (NASDAQ: MRLL) announced today that it has acquired 100 percent of the stock of Group Web Inc., a St. Paul-based printing services company equipped with state-of-the-art printing and binding equipment. Prior to the transaction, Merrill Corporation owned 50 percent of Group Web stock.

Terms of the acquisition were not disclosed.

In commenting on the purchase, John Castro, president and chief executive officer of Merrill Corp., said, "The acquisition of Group Web will help Merrill provide enhanced service to our Twin Cities-area financial and commercial printing clients. Merrill has worked with the company for many years and knows it delivers a quality product in a timely manner."

Group Web President Leon Grabow said, "The merger represents a logical combination of Merrill's state-of-the-art, nationwide typesetting

capabilities and Group Web's ability to provide high- quality printing services to the Midwest market."

Merrill Corp. is a leading provider of on-demand 24- hour-a-day typesetting, printing, document reproduction and distribution services to financial, legal and corporate markets nationwide.

BOSTON (FEB. 23) PR NEWSWIRE - Workingmens Corporation (NASDAQ: WCBK), the parent company of Workingmens Cooperative Bank, today announced it incurred a loss of $1.7 million for the three months ended Jan. 31, 1990.

As a result of a $1.9 million addition to loan loss reserves, the corporation reported a loss of $1.7 million or $1.39 per share for the quarter and a loss of $1.5 million or $1.20 per share for the nine months ended Jan. 31, 1990. The comparable three and nine month figures at Jan. 31, 1989 were a loss of $774,000 or 61 cents per share and earnings of $36,000 or 3 cents per share.

President and Chief Executive Officer, John E. McDonald stated, "The ongoing difficulties of the real estate market continue to affect the corporation's earnings. Our nonperforming loans are currently at $15.0 million. In addition, the bank has $9.5 million in real estate owned. On the positive side, the bank continues to maintain a healthy capital position as we proceed with our efforts to resolve our non-performing assets."

Consolidated assets of Workingmens Corporation were $249.3 million on January 31, 1990. Total stockholder's equity was $22.8 million at the end of the third quarter, representing 9.16 percent of total assets. The book value per share was $19.03.

Workingmens Corporation is the holding company for Workingmens Cooperative Bank, a Massachusetts chartered co-operative bank with five full-service offices in greater Boston and a loan center in Norwell.

Workingmens Corporation is traded on the NASDAQ system under the symbol "WCBK"

ARLINGTON, VA. (FEB. 23) PR NEWSWIRE - USLICO Corporation (NYSE: USC) reported a 10 percent increase in fourth quarter earnings to $8.8 million, or 80 cents per share, compared to $8 million, or 74 cents per share, in 1988.

Life company earnings increased 15 percent for the quarter to $7.6 million while property and casualty earnings increased 37 percent for the quarter to $2.1 million.

Net earnings for the full year 1989 reached $31.3 million, or $2.87 per share, compared to $34.2 million, or $3.13 per share, for 1988. Excellent operating results in the life and property/casualty companies were offset by two negative developments that reduced overall profitability for the full year 1989.

First, the effective federal income tax rate for USLICO's insurance companies increased to 32.2 percent in 1989 from 28.6 percent in 1988. This increased tax expense of $1.8 million was caused by lower tax credits and the need to maintain higher reserves for potential future tax liabilities.

Second, USLICO discontinued recognizing its equity in the earnings from Liberian operations as of Oct. 1, 1988. As a result, net income from this source declined from $2 million in 1988 to zero in 1989.

USLICO's life insurance companies reported record pre-tax income (excluding realized investment gains) of $33.4 million, a 10.7 percent gain over 1988. Individual life sales increased by 24 percent. Group life and individual annuity sales increased by more than 100 percent. At the same time, despite significant sales growth, general operating expenses rose only 1.5 percent over the prior year.

Due to recent concern regarding the quality of assets held by the life insurance industry, USLICO also reported the following information regarding its invested assets:

-- At year-end 1989, 3 percent of the life companies bond portfolios was invested in high yield bonds. Year-end market value exceeded cost for these bonds, and USLICO believes these bonds are higher quality than the high yield market as a whole.

-- USLICO's 60-day mortgage loan delinquency rate at year-end was 0.15 percent, compared to the most recently published industry average of 2.92

percent.

An insurance holding company, USLICO Corporation is headquartered in Arlington, Va.

SEATTLE (FEB. 23) PR NEWSWIRE - The Boeing Co. (NYSE: BA) said today it has reached agreement with the U.S. Air Force Debarment and Suspension Review Board to terminate the notice of proposed debarment issued on Nov. 14, 1989, regarding the Boeing Washington, D.C.-area office in Rosslyn, Virginia.

The office and its personnel were proposed for debarment and excluded from conducting procurement activities with any agency of the Executive Branch of the U.S. Government. The action stemmed from Boeing pleading guilty to two counts of unauthorized conveyance of Government documents to the Rosslyn office.

Boeing Chairman and Chief Executive Officer Frank Shrontz said, "We firmly believe that we have demonstrated our present responsibility in obtaining and handling authorized government documents and consequently the suspension and a debarment are not warranted.

The actions that led to the suspension and proposed debarment occurred in the early 1980s and since that time we have strengthened our internal procedures and controls to protect against the occurrence of similar incidents.

"Our employee training and awareness efforts will not end with the lifting of the suspension. It is imperative that our government customers have the utmost confidence in our procedures to obtain and handle only those documents authorized for our use."

ONDON (FEB. 23) PR NEWSWIRE - Robert Louis-Dreyfus, chief executive of Saatchi & Saatchi Company PLC (ADS - NYSE: SAA), today made the following statement:

"Since our appointment with effect from January, Charles Scott, the new finance director, and I have been reviewing the operations of the company and the budgets for the current year. In the chairman's statement released earlier this week it was stated that the rate of growth in the advertising industry was slowing and that against this background the company was cautious about the short term. In the light of these conditions it is clear that the industry faces a difficult year and the company's profits are unlikely to achieve current market expectations. We remain, however, very confident in the underlying strength of the communications business.

"The company is currently in negotiations over the disposal of all or part of its interest in each of its consulting activities, but is not yet in a position to make a detailed statement.

"Legal actions have been brought in California by attorneys claiming to represent holders of the company's American Depositary Receipts. This was first reported in the press on Feb. 12. The board will defend the actions vigorously.

"The company was notified informally last night that Southeastern Asset Management has acquired a further 2.0 percent of the company which, subject to confirmation, means their total holding is now 13.2 percent of the issued ordinary share capital of the company."

PITTSBURGH (FEB. 23) PR NEWSWIRE - Dravo Corp. (NYSE: DRV) today announced that it has filed a lawsuit against Continental Energy Associates (CEA), its general partner, Continental Cogeneration Corp., and their lender, Swiss Bank Corp., seeking to recover damages related to their decision of last Friday terminating Dravo's contract to construct a coal gasification facility at CEA's cogeneration plant in Hazelton, Pa.

"We have invested a great deal of time and effort in attempting to complete our obligations under our contract with CEA," said Carl A. Torbert Jr., president and chief executive officer of Dravo. "We regard their decision last week to terminate our contract as being unwarranted, and the lawsuit we filed this week is an indication of our intention to vigorously pursue the legal remedies available to us."

While acknowledging the possibility of counter-claims or a counter-suit as a result of the action taken this week, Torbert emphasized that under the contract Dravo's cumulative total liability to CEA for breach is limited to the total value of the contract, an amount of approximately $12 million.

MADISON HEIGHTS, MI (FEB. 23) PR NEWSWIRE - Code-Alarm, Inc. (NADSAQ: CODL) announced today record sales and earnings for the year ending Dec. 31, 1989. Sales were $33,960,000, compared to $21,713,000 for 1988, an increase of 56 percent. Earnings rose to $1,914,000, a 27- percent increase from $1,512,000 in 1988, while weighted average shares outstanding increased to 2,222,666 from 2,112,200. Earnings per share increased 19 percent to $.86 from $.72 in 1988 and $.53 in 1987.

CODE-ALARM, INC.

Year ended Dec. 31	1989	1988
Net sales	$33,960,000	$21,713,000
Net income	$1,914,000	$1,512,000
Net income per share	$.86	$.72
Weighted average shares	2,222,666	2,112,200

Rand Mueller, president and CEO of the company, stated, "We were pleased with the strong earnings performance for the year and we are looking forward to a very good year in 1990 with the introduction of our new stolen-vehicle-recovery system, Intercept, and our recently acquired and revitalized subsidiary, Chapman Security Systems, Inc."

Code-Alarm, Inc. is a fast-growing manufacturer of vehicle and home-security systems, recently ranked 15th on Forbes magazine's list of the "200 Best Small Companies in America," and enjoys private-label agreements with General Motors Corporation, Ford Marketing Corporation and Chrysler Motors Corporation.

LAGRANGE, GA (FEB. 23) PR NEWSWIRE - Interface, Inc. (NASDAQ: IFSIA) today reported that the sales, net income and earnings per share for both the fourth quarter and the year ended Dec. 31, 1989 were the best in the Company's 17-year history.

Net income for the fourth quarter rose to $7.7 million, 27 percent over last year's total of $6.0 million. Fully diluted earnings were up 19 percent to $.38 per share over the $.32 reported for the same period in 1989. Net sales for the quarter were $152 million, up over last year's $150 million by 1 percent.

Ray C. Anderson, chairman and chief executive officer, stated, "The increases in net income and earnings per share resulted from solid performance North America and the United Kingdom." Anderson went on to say "The modest sales growth over an outstanding fourth quarter of 1988 reflects the strengthening of the United States dollar against our primary overseas currencies, in particular the U. K. pound sterling and the Japanese yen."

Net sales for 1989 were $582 million, a 47 percent increase from $397 million for 1988. Net income increased 22 percent to $24.5 million from $20.2 million last year. Fully diluted earnings increased 10 percent to $1.27 per share compared to $1.15 per share a year ago.

Anderson noted, "As we enter the 1990's, we are pleased with the success of our efforts to develop the Interface and Heuga synergies and secure our belief that the strategic moves we are making will positively impact future operating results."

Interface, Inc. is the world's largest manufacturer of carpet tiles under the Interface and Heuga brands, and interior fabrics under the Guilford of Maine brand, for use in offices, healthcare facilities, airports, educational and other institutions, and retail facilities. The company also manufactures carpet tiles for residential use. In addition, the company engages in the formulation and sale of chemicals used in various rubber and plastic products, markets epoxy flooring incorporating Intersept(R), the company's proprietary antimicrobial, and offers Intersept(R) under a licensing program to manufacturers of other products.

#90054p0201 02/23/1990 ~PR Newswire

BROOK PARK, OH (FEB. 23) PR NEWSWIRE - Ford Motor Company (NYSE: F) announced that it has selected its Cleveland Engine Plant Two to build a new line of engines. Employees and the leadership of UAW Local 1250 -- representing employees at Ford's Cleveland Engine Plants and Cleveland Casting Plant here -- were informed of the company's plans today.

Ford had told employees and union leadership throughout 1989 that although Cleveland Engine Plant Two was the primary site to build the new engine. A final decision as to which engine the plant would build was awaiting an evaluation by Ford of its future product plans.

In making the announcement, Alex Trotman, executive vice president, Ford North American Automotive Operations, said, "I'm delighted to confirm that

Ford has given the 'green light' to plans to build a V-6 engine at Cleveland starting in the 1994 time period. The new engine program will play an important role in helping us meet our goals of continuous quality improvement and producing 'best-in-class' engines for our customers in the 1990's."

Trotman continued, "the investment will help strengthen the company's commitment to its employees in the greater Cleveland area by providing them with a new product that will be in production at the Cleveland Engine Plant for many years to come."

Trotman said that the only development he could see which could change this important decision was "if the Clean Air legislation which emerges from the present congressional deliberations created a situation where the company was unable to proceed with its intended future product programs." He said Ford had made Cleveland employees aware of the Clean Air legislation issue.

Production of the new engine will require extensive refurbishing and retooling of the plant. The company recently approved $23 million to prepare the site for this new program.

Opened in 1955, the plant has been expanded five times and presently covers 1.8 million square feet. It employs 535 people. There are now 6,800 employees at the Brook Park complex and 17,000 Ford employees in the Greater Cleveland area.

#90054p0212 02/23/1990 ~PR Newswire

SHREVEPORT, LA (FEB. 23) PR NEWSWIRE - Arkla Exploration Co. (NYSE: ARK) today reported consolidated net income of $8,595,000, or 31 cents per share for the year ended Dec. 31, 1989, compared to $18,200,000, or 67 cents per share for 1988.

However, revenues for 1989 totaled $143,861,000, a 3.6 percent increase over 1988 revenues of $138,855,000. And net cash flow from operations also increased, to $72,515,000 in 1989, up from $71,866,000 for the previous year.

According to Carl S. Quinn, chairman and and chief executive officer of ARK, the reduction in 1989 net income can be attributed primarily to increased purchased gas costs, increased depletion and depreciation, and higher interest expense due to increased outstanding debt. The level of debt was reduced as a result of the initial public offering of ARK stock in December 1989.

For the year, the company had total sales volumes of 78.0 billion cubic feet of natural gas and gas equivalent (Bcfe) compared to 78.4 Bcfe for 1988, and the 1989 average sales price for natural gas was also basically unchanged from 1988. Average liquids prices increased to $18.35 per barrel in 1989, compared to $14.83 per barrel the previous year.

Arkla Exploration Co., which underwent an initial public offering of stock in December 1989, is one of the nation's largest independent operators in terms of proved natural gas reserves, production and wells drilled.

CONTACT: Elvis Thornton, 318-429-2090, or Lou Resweber, 713-654-5220, both of Arkla Exploration Co.

#90054p0215 02/23/1990 ~PR Newswire

CLEVELAND (FEB. 23) PR NEWSWIRE - The 1991 Ford Escort and Mercury Tracer -- on display at the Cleveland Auto Show through March 4 -- are the keys

to Ford Motor Company's success in the 1990s, confirming the company's commitment to the small-car business now and into the next century, a senior Ford executive said here today.

In the more immediate future -- "if inflation remains moderate -- then the car and truck industry outlook should improve in the second half of the year," said Robert L. Rewey, vice president - Ford North American Sales Operations. "I foresee full-year industry car sales of about 9.6 million and truck sales of about 4.9 million.

Rewey spoke to the news media at a preview of the Ford Division and Lincoln-Mercury Division exhibits at the Auto Show in the International Exposition Center. The show marks the Cleveland-area introduction of two other all-new-1991 Ford Motor Company vehicles: the Mercury Capri convertible and the Ford Explorer sporty compact utility vehicle.

Making its international debut at the Cleveland show will be Ford's newest "car of the future" -- the Shoccc Wave, "our concept vision of a two-door, performance-oriented car for the mid- to late 1990s," Rewey noted.

Other highlights of the Ford exhibit will be a unique employee display titled "UAW-Ford Working Together for Quality"; an air bag simulator that will deploy a driver's-side air bag at regular intervals throughout the show (sponsored by TRW and the American Coalition for Traffic Safety, Inc.); and a complete lineup of 1990 cars and trucks -- including the all-new Lincoln Town Car, named Motor Trend magazine's 1990 "Car of the Year."

Rewey announced that two of the 1990 cars will be given away in a drawing "to two lucky Auto Show visitors" who enter a contest at the Ford and L-M exhibits during the week. After the show, a drawing will be held to determine the winners of a new Ford Thunderbird Super Coupe and a new Mercury Cougar XR7, manufactured at Ford's Lorain, Ohio, Assembly Plant.

Rewey also told the media that the Ford Motor Company (NYSE: F) entering the decade of the 1990s is a much different company from the one of the early 1980s.

Ford worked hard through the 1980s to distinguish itself not only from foreign competitors, but from its domestic rivals as well, he said.

According to Rewey, one major difference is that Ford is the only automobile manufacturer dedicated to building small cars in North America. Ford has invested more than $2 billion in small-car production, yielding the new Escort and Tracer.

He also pointed out that major changes in the worldwide automobile business over the past decade have changed radically the way Americans

should look at the automobile business. No longer can companies be lumped together with other companies based on geographical happenstance.

Rewey, a member of the Cleveland Tomorrow Board of Trustees, said Ford is proud to be the only company not based in Cleveland to be represented on Cleveland Tomorrow, which was organized to revitalize the city's economy.

Ford is the area's largest private-sector employer, with about 17,000 employees at five plants. "So, we have a strong equity in literally everything that happens here," he said.

#90054p0219 02/23/1990 ~PR Newswire

HOUSTON (FEB. 23) PR NEWSWIRE - General Homes Corp. (NYSE: GHO) announced today that the company, subject to any necessary approvals by its secured lenders, has reduced the minimum tender condition of its exchange offers for its subordinated notes to 85 percent of the combined aggregate principal amount of both series of notes from 90 percent of the aggregate principal amount of each series of notes.

The company also announced that it has extended the expiration date of the exchange offers to midnight, New York City time, on Friday, March 2, 1990. The company stated that in view of tax considerations and other limitations, the company cannot and will not extend the offers beyond the March 2 date or further change any conditions of the offers. As of the close of business yesterday, approximately 61 percent in combined principal amount of both series of notes had been tendered.

The company announced further that its shareholders voted today at a special meeting in favor of all proposals necessary to consummate the exchange offers. The shareholders did not approve a proposed new management incentive plan.

The company has changed the minimum tender condition of the exchange offers from 90 percent of the principal amount of each series of the subordinated notes to 85 percent of the combined principal amount of both series of notes, subject to any necessary approvals of the lenders under the company's new credit agreement. The new credit agreement currently requires an exchange by noteholders of at least 90 percent of the combined principal amount of both series of notes. While the company has requested approval from the lenders to reduce this requirement from 90 percent to 85 percent, it has not yet received a response. Accordingly, without the lenders' approval, the company will be able to complete the exchange offers and accept the tenders made only if at least 90 percent of the combined principal amount of both series of notes is tendered and not

withdrawn. If the lenders' approval is received, then the minimum condition will be satisfied if at least 85 percent of the combined principal amount of both series of notes is tendered and not withdrawn.

ARLINGTON, VA (FEB. 23) PR NEWSWIRE - USAir will offer its successful, award-winning Fearful Flyers classes at Washington National Airport beginning March 15.

During the three-hour classes, which meet six consecutive Thursday evenings, participants will learn about aviation and stress management techniques to overcome their aviaphobia. The class will end on Saturday, April 21, with a one-hour graduation flight where each student is able to bring a guest.

Clinical social worker Carol Stauffer and 40-year veteran pilot Captain Frank Petee, currently USAir director-special projects and the co-pilot on USAir's first passenger flight in 1949, provide students professional expertise and instruction.

USAir's Fearful Flyer Program was developed in 1975 as a result of the number of people who are afraid of flying. Boeing Aircraft Corporation estimates that one out of every six Americans is afraid of flying.

Since the program's inception, over 2,000 participants have enrolled in the course and 97 percent have successfully overcome their phobia. Classes have been held in numerous cities throughout the United States, including Washington.

HOUSTON (FEB. 23) PR NEWSWIRE - The board of directors of Lyondell Petrochemical Co. (NYSE: LYO) today declared a special dividend of $2.50 per share of common stock, payable March 30 to stockholders of record March 9, 1990. This special dividend is in addition to the previously announced regular quarterly dividend of 40 cents per share that is payable March 15.

The company had previously stated its intention to distribute to its stockholders cash that the board of directors determined to be in excess of the company's needs. The board of directors determined the dividend amount after reviewing the company's results of operations, financial condition, cash requirements, future prospects and other factors.

IRVINE, CA (FEB. 23) PR NEWSWIRE - I-Flow Corp. (NASDAQ: IFLOW) announced the following additions and changes in the board and management structure: The company announced the appointment of Henry T. Tai, Ph.D., M.D., and John F. McNeil to two vacant seats on the board.

Tai, 46, a founder of the company, is a practicing cancer specialist and has an academic appointment at the University of Southern California Medical School. Tai rejoins the board as the initial progenitor of the company's product and business concept in multiple-drug infusion systems.

McNeil, 53, has had a long career in emerging as well as well-established companies and consults with several local and national financial institutions. He is currently president and chief executive officer of Allstar Microsystems Corp. of Irvine, and in the past was a founder and officer of Wheelabrator-Frye Inc.

Eric Brown stepped down from his position as president and chief executive officer. Brown, a founder of the company and an energetic and productive entrepreneurial force in its initial phase, continues to serve as a member of the board and to contribute to the company.

The board appointed Michael A. Pentopoulos to the offices of president and chief executive officer. Pentopoulos, 44, qualified as a chartered accountant and has a MBA degree from Fairleigh Dickinson University, New Jersey. He has had an extensive management career in large and emerging medical companies.

He was responsible for the planning and budgeting functions for the Howmedica division of Pfizer Inc., and was later the vice president of finance and administration at Intermedics Orthopedic Inc.

Subsequently he was a founder and chief executive officer of Orthomatrix Inc. of Dublin, Calif., a private biomaterials company, later merged into Lifecore Inc., and founder and director of Iatromed Inc., a venture-funded medical device corporation in Phoenix, Ariz.

CORSICANA, TX (FEB. 23) PR NEWSWIRE - Today Kentana Development, Inc. ("Kentana") announced it is planning a new lakeside residential development of nearly 1,500-acres along Richland Chambers Lake, the newest and largest inland lake in Texas. Richland Chambers Lake is approximately 60 miles south of Dallas and ten miles east of Corsicana.

Kentana's newest project includes waterfront residential, golf course residential, townhouse, condominium, hotel, marina, recreation and campground properties, in addition to 35 acres of commercial property. The company projects revenues in excess of $100 million from the development of this site over seven years, subject to obtaining adequate financing of the project. Other local developments in which Kentana and its principals are involved include Sunrise Point (49 acres), Sunrise Estates (95 acres), Sunrise West (169 acres), and Grand View Estates (132 acres).

Garret R. Quintana, chairman of Kentana Development, Inc., said, "We believe that Richland Chambers Lake will be the premier recreational lake in Texas. There are five million people living less than an hour and thirty minutes away, and given the success we've had with our other

Richland Chambers properties, we are confident about this newest project's success."

In other news, Kentana Development completed a "reverse acquisition" this week of Specialized Systems, Inc. (NASDAQ: SSII). This allows the company's stock to trade publicly, as of Feb. 27, 1990, under the symbol "KDII". Additionally, this week, a letter of intent was signed between one of the largest contractors in the state of Texas and Kentana to merge the un-named contractor into the now-public Kentana organization.

EL PASO, TX (FEB. 23) PR NEWSWIRE - Property Trust of America (NYSE: PTR) announced today that it has issued to SWRT Inc., an option to purchase up to 600,000 shares of a new issue of non-voting, convertible preferred stock. SWRT has also purchased all Trust shares owned by Realty Acquisition Corp. Realty Acquisition Corp. and its parent, Sizeler Property Investors Inc., have executed a settlement and standstill agreement with the Trust, resulting in the complete termination of the hostile $11.50 per share cash tender offer for 45 percent of the Trust's shares and the settlement of all claims and litigation between Sizeler and the Trust.

The preferred stock would be entitled to a quarterly dividend of at least 21 cents per share, which would increase if the distribution rate on Property Trust's shares of beneficial interest increases. Each share of preferred stock would have a liquidation preference of $9 and would be convertible into one share of beneficial interest, suject to certain limitations to preserve Property Trust's tax status as a real estate investment trust. In the event of a subsequent 50 percent change in control of the Trust, the option or the preferred stock could be put back to the Trust by SWRT.

SWRT has also entered into a standstill agreement with Property Trust providing, among other items, that SWRT will not acquire more than 23 percent of Property Trust's outstanding shares of beneficial interest, including shares issuable upon conversion of the non-voting preferred stock, except pursuant to an all-cash tender offer for any and all shares, commenced no earlier than approximately two years after issuance of the option and held open for 90 days. During this two-year period, SWRT could commence a tender offer without restrictions if an unrealted third party makes a tender offer. For the same two-year period, SWRT has agreed to vote all of its shares for Property Trust's nominees to the Board of Trustees and abstain from commencing a proxy contest. In connection with

the transaction, the Trust redeemed its outstanding shareholder rights plan and adopted a new shareholder rights plan to accommodate the SWRT transaction. In addition, if and when SWRT decides from time to time to increase its ownership of Property Trust up to 32 percent, Property Trust would have the opportunity, at its option, to issue newly issued shares of beneficial interest to SWRT at market prices. SWRT has agreed to certain restrictions on its resales of Property Trust shares but also received certain registration rights.

Property Trust's Board of Trustees will be increased to eight members, up to two of whom will be nominated by SWRT, depending upon its proportionate share ownership.

Property Trust of America is a real estate investment trust with equity investments in real estate properties in the southwestern United States, primarily in Texas, Colorado, California and New Mexico.

PHILADELPHIA (FEB. 23) PR NEWSWIRE - Christopher E. Clouser, vice president of corporate relations and advertising for the Bell Atlantic Corp. (NYSE: BEL), has been elected to the Bell of Pennsylvania board of directors.

He will replace Philip A. Campbell, vice chairman and chief financial officer of Bell Atlantic.

Clouser was elected to his present position in April 1988 and is responsible for all Bell Atlantic internal and external corporate communications. He also serves as president of the Bell Atlantic Charitable Foundation, maintaining offices in Washington and Philadelphia.

Before joining Bell Atlantic, Clouser, 37, was senior vice president of corporate relations and administration for US Sprint Communications Co. and also served as corporate vice president for United Telecom. Prior to US Sprint, he served as vice president of public affairs and communications for Hallmark Cards Inc. From 1973-1981, he served as executive assistant to U.S. Sen. Thomas F. Eagleton (D-Mo.).

A native of St. Louis, Clouser attended the University of Missouri, majoring in radio, television, film and political science.

Clouser serves or has served on the boards of numerous business, civic and social organizations including: the National Governing Board of Camp Fire

Inc., the Muscular Dystrophy Association, Research Medical Center, the Vote America Foundation, and National Public Radio.

He is an active member of the Public Relations Society of America, the PR Seminar, the International Association of Business Communicators, the Ad Council, the Association of National Advertisers and several other communications-related organizations.

He has received numerous awards and citations and was recognized by Business Week magazine as one of the nation's 50 most successful young managers. Most recently he was cited by Adweek's Relate magazine as a top 10 communications all-star. His honors in the field of communications include the Public Relations Society of America's Prism and President's Awards and the International Association of Business Communicator's highest honor, the Gold Quill Award.

Clouser's efforts in advertising have also brought numerous honors, including two gold and one silver OMNI awards, several Clio awards and the London International Advertising Award. In addition, Bell Atlantic advertising has been recognized by several ADDY awards and has been selected by Adweek magazine for its "best" collection. He has also received the Business/Professional Advertising Association's top award.

#90054p0264 02/23/1990 ~PR Newswire

DARIEN, CT (FEB. 23) PR NEWSWIRE - Transact International Inc. (NASDAQ: TACT) today reported profits for the third quarter and nine months ended Jan. 31, 1990.

Sales from continuing operations for the third quarter were $3,204,093 compared with $3,569,577 for the previous year. Income from continuing operations and net income for fiscal 1990's third quarter was $51,996 or 1 cent per share versus income from continuing operations of $139,954 or 2 cents per share reported for the comparable period of last year. Net income for the third quarter of last year was $16,416, which is less than 1 cent per share. This includes a loss from discontinued operations of $123,538 or 2 cent per share.

Sales from continuing operations for the nine months ended Jan. 31, 1990 were $8,160,875 compared with $8,338,530 a year earlier. Net income for the first nine months of fiscal 1990 was $56,920 or 1 cent per share, which consists of income from continuing operations of $55,812 or 1 cent per share and income from discontinued operations of $1,108 which is less than 1 cent per share. This compares to net income of $147,089 or 2 cents

per share for the first nine months of fiscal 1989, which consisted of income of $216,747 or 3 cents per share from continuing operations and a loss of $69,658 or 1 cent per share from discontinued operations.

The Telecommunications Division, which was sold in July 1989, and the Transact Services Division, sold in October 1989, are treated as discontinued operations.

As of Jan. 31, 1990, the company's backlog was approximately $5.6 million, compared with approximately $5.0 million as of Jan. 31, 1989. The Jan. 31 1990 backlog includes a $1.7 million contract from Federal Express Corporation for the design, manufacture and installation of container lifts at Memphis Airport's East Ramp, which was received at the end of January. This project is expected to be completed by the end of July 1990.

Transact International designs and manufactures customized materials handling systems and equipment at its facilities in Memphis; and markets and designs computerized robotic car parking systems through Transpark Inc., based at its corporate headquarters in Darien, Conn.

#90054p0265 02/23/1990 ~PR Newswire

WASHINGTON (FEB. 23) PR NEWSWIRE - A resurgent United Press International today announced increased news staffing and investment to expand UPI's coverage of tumultuous Eastern Europe, the Soviet Union, South Africa and the Asia-Pacific region, including Vietnam.

"UPI will add 15 newspersons by June 1 and will better equip our correspondents in order to ensure rapid transmission of a much greater volume of news," said UPI Senior Vice President Pieter VanBennekom, the general manager for UPI international businesses.

"UPI will spend more than $2 million this year to increase coverage of the nations now at the center of economic and political change," he explained.

For the first time since World War II, UPI will have full-time representation in East Germany, Hungary, Romania, Czechoslovakia and Bulgaria. UPI also is reinforcing its operations in London, Moscow, Washington, West Germany, Yugoslavia, South Africa, Hanoi, Spain and in either Hong Kong or Tokyo.

VanBennekom said he recently returned from Vietnam where he began preparations for restoring UPI operations there. Similar explorations have been underway regarding a UPI return to Cuba, where the UPI bureau closed in 1969, he said.

UPI equipment investments will increase the speed of correspondents' filing of stories. UPI is providing its international journalists laptop computers and better computer workstations. UPI is installing more advanced (X.25-standard) telecommunications equipment at editing centers in London, Paris, Rome, Brussels, Copenhagen, Bonn, Vienna and Geneva.

VanBennekom explained, "The additional correspondents in Europe will focus for some time on international economic affairs and the debate of German reunification." A new staffer in Moscow will be assigned to track perestroika reforms, specifically.

UPI's international staff expansion follows a Dec. 6, 1989, announcement that UPI had begun testing satellite news transmissions from the United States to Europe, a move that will dramatically increase the volume of news UPI provides European clients. That test continues and full satellite operations are scheduled to begin later this year.

UPI also announced earlier this month plans for a $5.5 million investment to expand services of its News Photos and Graphics division by investing in electronic picture desks for photo storage and editing, laser fax printers and in full satellite delivery of digitized photos in the United States.

"Whether in politics, economics or sports, UPI will work to report the significance of the news in terms of security, quality of life, standard of living or financial well-being," said VanBennekom, a native of the Netherlands who joined UPI in 1969.

United Press International, founded June 21, 1907, has more than 180 bureaus worldwide and is represented in 90 nations. UPI is owned by Infotechnology, Inc. (NASDAQ-NMS: ITCH), an information and communications company.

#90054p0275 02/23/1990 ~PR Newswire

VANCOUVER, BRITISH COLUMBIA (FEB. 23) PR NEWSWIRE - Hycroft Resources & Development Corp. (Vancouver: HVR) today reported that earnings from operations were $3.4 million for 1989, after allowing for more than $10 million in depreciation and depletion. This compares to a loss from operstions of $4.4 million in 1988. The turnaround reflects the increased production volume, improved operati ng methods, and lower unit costs. Fourth quarter earnings from operations were $1.9 million in 1989 compared to a loss from operations of $2.3 million in the same period in 1988.

Sales for 1989 were $41.8 million, a 47 percent increase over 1988 sales of $28.5 million. The increase is a result of improved gold production of 82,300 ounces in 1989 from 53,700 ounces in the previous year. Fourth quarter sales increased to $10.8 million in 1989 as compared with $9.4 million in 1988. Revenues in 1989 were limited by the lower gold prices as compared with 1988.

Overall, the Company reported a net loss for 1989 of $4.6 million or $0.34 per share, which included a $1.3 million write-down of several undeveloped mineral properties which were abandoned after evaluation. Comparative figures for 1988 showed a net loss of $21.9 million or $1.71 per share

including a write-down of $0.2 million.

For the fourth quarter of 1989 the company had a net loss of $0.9 million or $0.07 per share, which included the $1.3 million write-down, compared to a net loss of $17.6 million or $1.32 per share in the corresponding period in 1988.

Colin F. Kaiser, president and chief executive officer of Hycroft, congratulated the officers and employees of the company on the impressive performance for 1989 and commented: ''There has been a major turnaround in operations in the last half of 1989 in which, after allowing for substantial depreciation, depletion and write-downs, the company showed a net profit.''

#90054p0287 02/23/1990 ~PR Newswire

HOUSTON (FEB. 23) PR NEWSWIRE - LL&E Royalty Trust announced today that its monthly distribution to unit holders will be made on March 15, 1990, to unit holders of record on March 5, 1990. This distribution represents amounts payable to the trust with respect to production for the month of December 1989.

The total amount of the March distribution will be $1,086,481 or approximately $.05720 cents per unit. This distribution includes no proceeds from offshore Louisiana because total cost exceeded gross proceeds due primarily to increased capital expenditures at one offshore property. The excess expenses, amounting to approximately $155,000, will be recouped from future proceeds from offshore Louisiana. Due to the nature and timing of other operating and capital projects along with monthly production fluctuations, this distribution is not necessarily indicative of future monthly distributions.

As previously announced, the working interest owner has begun to escrow amounts for the Fort Worth Basin property in connection with the issue of recapture of intangible drilling and development costs under Section 1254 of the Internal Revenue Code. The trust's interest in the amount escrowed from the current month's distribution and the cumulative balance of such are $17,779.10 and $486,996.88 respectively. As stated last month, pending the possible appeal by the IRS of the previously announced favorable ruling rendered by the United States Tax Court on the Section 1254 issue, the working interest owner has made no decision on whether and when these amounts will be released from escrow.

The working interest owner has determined under the terms of the trust documents that it is eligible to escrow funds from all trust properties from the 1254 recapture issue. However, it has advised the trustee that it does not intend to exercise its rights to escrow funds, other than for the Fort Worth Basin, for this issue for the March 1990 distribution. However, the working interest owner intends to continue to monitor its estimates of relevant factors in order to evaluate the necessity of

escrowing funds for this issue on an ongoing basis. The working interest owner is under not obligation to give any advance notice to the trustee of the unit holders in the event it determines that funds should be escrowed. If the working interest owner does begin to escrow such funds with respect to the productive properties, other than the Fort Worth Basin, the effect on royalties paid to the trust would be significant, and in certain circumstances could eliminate distributions for a period of time.

VANCOUVER, BRITISH COLUMBIA (FEB. 23) PR NEWSWIRE - Granges Inc. (AMEX, Toronto: GXL) today reported that its 1989 earnings from operations increased to $11.3 million, after allowing for more than $12 million in depreciation and depletion. This compares to a loss from operations of $0.6 million in 1988. The improved operating performance of the company in 1989 was also reflected in its overall results which showed a reduced net loss of $8.1 million or $0.28 per share for the year ended Dec. 31, 1989, compared to the 1988 net loss of $13.5 million or $0.61 per share. These improvements reflect unit cost reductions at the Crofoot/Lewis Mine and the increased revenues from both the Trout Lake and the Crofoot/Lewis operations.

The fourth quarter earnings from operations were $4.4 million in 1989 compared with a loss from operations of $1.1 million in the same period in 1988. Fourth quarter net earnings were $0.1 million, less than one cent per share, in 1989 compared to the $13.9 million net loss or $0.62 per share in the same period in 1988.

Net sales for 1989 were $66.2 million, an increase of 45 percent over the $45.6 million in 1988. The increase was a result of increased ownership in the Trout Lake Mine, higher prices for copper and zinc, higher production volume at the Crofoot/Lewis Mine and significant forward gold sales above spot prices. Fourth quarter sales were $16.1 million compared to $14.4 million in the fourth quarter of 1988.

The $50 million infusion of cash from the MIM private placement share purchase in June of 1989 increased interest revenue to $3.6 million for 1989 versus $0.5 million in 1988.

The major improvements in operating results and interest income were partially offset by increases in 1989 expenses for personnel consulting, litigation, financing and foreign exchange and the expenses associated with the suspension of operations at the Tartan Mine.

Evaluations of several undeveloped mineral properties were completed in 1989. These properties were subsequently abandoned or placed for sale resulting in a write-down of $12.1 million in 1989 compared to $2.1 million, net of gains, in 1988. Fourth quarter write-downs were $3.0 million in 1989 compared to $2.9 million in the last quarter of 1988.

Granges Inc. is a Canadian mining company producing gold, copper and zinc. It is listed on the Toronto Stock Exchange, American Stock Exchange and London Stock Exchange under the ticker symbol "GXL." Granges has seen its consolidated gold output rise from 24,000 ounces in 1987 to 68,500 ounces in 1988 and finally, to 102,000 ounces in 1989.

NEW YORK, (FEB. 23) PR NEWSWIRE - Selectatech, Inc. announced its 1989 results today. Pro forma revenue and earnings including Selectatech and Clinical Homecare (acquired Dec. 31, 1989) were:

	SELECTATECH INC.			
Periods ended	Three months		12 months	
Dec. 31	1989	1988	1989	1988
Revenue	$2,391,348	$3,654,657	$10,772,226	$11,826,519
Net income (loss)	(59,283)	358,118	1,100,111	1,810,242

1988 results included enteral-urological sales of $259,550 for the three months and $3,010,722 for the year. These businesses were sold on Nov. 1, 1988, resulting in a one-time gain of $253,100. Three months 1989 includes extraordinary expenses in connection with the merger of Selectatech and Clinical Homecare as well as start up expenses for a new pharmacy in Cleveland. Decreased revenues resulted from the discontinuation of a major distributor as well as sale of the company's enteral-urological business in November 1988.

BATAVIA, NY (FEB. 23) PR NEWSWIRE - Graham Corporation (AMEX: GHM) today announced the establishment of a shareholder rights plan, under which shareholders will be entitled to purchase additional shares of Graham common stock upon the occurrence of certain events.

"The rights are designed to protect shareholders from tactics that do not protect the rights of all shareholders and to assure that, in the event of a takeover offer, all shareholders would receive fair value for their investment in Graham," said Graham Chairman and Chief Executive Officer Frederick D. Berkeley.

The action of the board of directors in establishing the shareholder rights plan followed consultation and review with legal counsel and financial advisers during the past year. Graham is not aware of any proposed takeover.

In general, the rights will become exercisable only if a person or group acquires 20 percent of Graham's outstanding common stock or announces a tender offer for 30 percent or more of the company's outstanding common stock. The rights will be issued to shareholders of record March 7, 1990. A full description of the plan will be mailed to shareholders.

Graham designs and manufactures vacuum and heat transfer equipment for the process industries.

ATLANTA (FEB. 23) PR NEWSWIRE - Realty South Investors Inc. (AMEX: RSI), an Atlanta-based real estate investment trust, today announced a quarterly dividend of $.08 per share of common stock payable March 16 to shareholders of record March 6.

The dividend, applicable to the fourth quarter, and the $.51 in dividends paid for the first three quarters of 1989 will equal the estimated total cash flow for the year.

Chairman Timothy J. O'Neill said: "The board of directors decided that the prudent course was to declare a dividend that was not in excess of the total cash flow for 1989. The board plans to adjust the dividend in 1990 if current cash flow will sustain a higher payout level."

O'Neill said the lower dividend for the fourth quarter was due to the decline in occupancy rate at several properties and thus lower income, resulting from the continuing softness in the real estate market.

Realty South also announced that the company's advisor, O'Neill Advisors Inc., has reduced its advisory fee to 7 percent of net adjusted income until such time as a dividend in excess of $1.00 per year is paid. Previously the fee was 10 percent of the net adjusted income. In other action, the directors approved a reduction of 50 percent in monthly retainer fees of the directors as part of the company's overall efforts to reduce expenses and maximize return to shareholders, O'Neill said.

RSI invests primarily in real estate projects in the Southeast with a $34 million portfolio.

WESTBOROUGH, MA (FEB. 23) PR NEWSWIRE - New England Power Company (NEP) today announced the filing with the Federal Energy Regulatory Commission (FERC) of a settlement of a pending rate case. NEP is the wholly owned wholesale electric generation and transmission subsidiary of New England Electric System (NYSE: NES) (NEES).

The settlement, which is subject to approval by the FERC, provides for an

increase in revenues of $39.4 million on an annual basis, with an allowed return on common equity of 12.3 percent. This rate level will go into effect, if approved by the FERC, on March 1, 1990. In addition, the settlement provides a mechanism under which, if NEP's actual sales differ from projections, NEP will recover or refund the variance, to a maximum of $17.5 million.

The settlement was reached with intervenors in the rate case filed by NEP in August 1989. In that filing, NEP had requested an increase in annual rates of $91.2 million. This increase was to go into effect March 1, 1990 subject to refund depending on the result of FERC's investigation.

The $91.2 million increase requested in the filing included approximately $22 million of costs resulting from NEP's intended purchase from an affiliated entity of a ship used to transport coal to NEP's generating stations. In December 1989, ownership of the ship was transferred to a nonaffiliate, and NEP entered into a new charter of the ship for coal transportation. As a result, the $22 million requested in the filing was no longer needed by NEP which will, instead, include about $16 million of charter hire payments in its fuel clause billings.

NEP had also filed, as a second part of the rate case, a request to collect approximately $22 million on an annual basis when Seabrook Unit 1 goes into commercial operation to recover the costs associated with the operation of the unit. The FERC rejected that portion of the filing as premature, and NEP will refile it when Seabrook receives a full-power license. The Nuclear Regulatory Commission (NRC) is scheducle to vote on the issuance of that license on March 1, 1990.

New England Electric System is a public utility holding company headquartered in Westborough, Mass.

#90054p0320 02/23/1990 ~PR Newswire

PETERSBURG, VA (FEB. 23) PR NEWSWIRE - Brenco, Incorporated (NASDAQ-NMS: BREN) announced today that as a result of an unanticipated charge to earnings taken in the fourth quarter of 1989, 1989 after-tax net income was $2,974,000, or 31 cents per share, down 16 cents per share from previously released figures for the period and down 1 cent per share from the prior year. After the charge, the company had an after-tax loss for the quarter of $911,000, or 9 cents per share, down from previously reported net income of $689,000, or 7 cents per share for the period.

Company Chairman Needham B. Whitfield stated, "The charge to earnings was occasioned by the board's decision this week to establish a $2.6 million reserve to account for estimated costs associated with remedial environmental action proposed to be taken at the company's original manufacturing site at Puddledock Road in Petersburg. This site was in use as a foundry operation during the period 1950-1979, but has not been used by Brenco for manufacturing since that time. Outside consultants engaged by the company to conduct environmental studies at the site are designing an appropriate remediation plan to be submitted to state officials for approval. Although the approval and remediation process will span several years, based on the consultants' recent cost estimates, the company believed it was appropriate to establish a reserve and to take the charge to earnings at the present time."

Net sales for the year were $70,291,000, up from $50,087,000 last year. Excluding the unanticipated charge, 1989 net income rose to $4,574,000, or 47 cents per share, compared with $3,071,000, or 32 cents per share, a year earlier. Net of income tax, the special charge decreased 1989 net income by $1.6 million.

Headquartered in Petersburg, Brenco manufactures and services roller bearings and component parts for railroad cars and manufactures specialty forgings for industrial markets.

#90054p0325 02/23/1990 ~PR Newswire

NEW YORK, (FEB. 23) PR NEWSWIRE - The board of directors of Bairnco Corporation (NYSE: BZ) today declared a quarterly dividend and stated that in the future it is anticipated that the dividend would be reduced.

The board declared a dividend of 25 cents per share of common stock, payable on March 30, 1990, to stockholders of record on the close of business on March 5, 1990.

Based on current operating problems, primarily due to loss contracts in the Shielding subsidiary and the board's concern over the near-term economic environment, the board announced that it is its current intention to reduce the future Bairnco quarterly dividend to no more than 12 cents per present share of Bairnco.

Assuming the necessary consents are received and the board gives final approval to the proposed spin-off of Keene Corporation to the stockholders it is currently intended that this dividend would consist of the following: Keene, on the basis of its past dividend policy, would pay a quarterly dividend of up to 7 cents per share and Bairnco would pay a quarterly dividend of up to 5 cents per share. However, future dividends in both cases will be determined by the respective boards. Such determinations will continue to be a function of the financial condition and prospects of each company, and general economic and other conditions.

#90054p0331 02/23/1990 ~PR Newswire

HOUSTON (FEB. 23) PR NEWSWIRE - National Asset Bank a bank in liquidation (NASDAQ: NABK) today reported its preliminary unaudited results for the year ended Dec. 31, 1989.

For the year ended Dec. 31, 1989, the bank recorded a net decrease in net assets from operations of approximately $26.1 million compared to a net decrease in net assets from operations of approximately $5.9 million for the period from Jan. 29, 1988, through Dec. 31, 1988. As of Dec. 31, 1989 the net assets of the bank totaled approximately $62.1 million or $1.50 per share compared to approximately $100.7 million or $2.43 per share of common stock as of Dec. 31, 1988.

The net decrease in net assets from operations for 1989 was primarily

attributable to unrealized decreases in the fair value for accounting purposes of assets of the bank being liquidated of approximately $24 million compared to approximately $2.5 million for the period from inception to Dec. 31, 1988. Net assets of the bank were also reduced in 1989 as a result of the payment of approximately $12.4 million in liquidating distributions.

For the year ended Dec. 31, 1989, the bank had cash receipts of approximately $23 million compared to cash receipts of approximately $25.3 million for the period from Jan. 29, 1988, through Dec. 31, 1988. For the year ended Dec. 31, 1989, cash paid out by the bank was approximately $27.4 million, compared to $11 million for the period from inception to Dec. 31, 1988. Of the $27.4 million paid out by the bank during the year ended Dec. 31, 1989, approximately $12.4 million was for the payment of liquidating distributions to stockholders in February and August 1989. No distributions were paid to stockholders in 1988.

As previously reported, the bank has recently declared an additional 15 cents per share liquidating distribution aggregating approximately $6.2 million to the holders of its common stock as of Feb. 15, 1990, and payable on Feb. 28, 1990.

The bank is currently operating under a plan of voluntary complete liquidation and its business consists solely of collecting or otherwise realizing on its loan and other assets and distrubuting the net proceeds to its stockholders. The assets of the bank are currently being managed and serviced by a subsidiary of First Interstate Bancorp, pursuant to an exclusive management and servicing agreement. Under such agreement, First Interstate Bank of Texas is currently receiving a management and servicing fee equal to approximately 12-1/2 percent of the amount of gross collections and other realizations in cash with respect to the bank's assets plus out-of-pocket expenses.

DENVER/CHICAGO (FEB. 23) PR NEWSWIRE - TSL Inc. (NASDAQ: TSLI) and Regent Enterprises Inc., (OTC) an Illinois-based corporation, jointly announced today the signing of a Letter of Intent whereby TSL will acquire Regent Enterprises.

Regent Enterprises, was formed in 1983, and from a starting sales volume of $700,000, has grown to approximately $20 million in sales for 1989.

TSL is a Colorado-based corporation specializing in antitampering technologies for the food, drug, cosmetic, security, and packaging

industries.

Regent Enterprises, is a growing manufacturer of flexible packaging with a broadly diversified product line. Manufacturing and marketing products through its flagship division, Sealcraft, Regent supplies products to a customer base of over 300 accounts, ranging from small food packagers to multinational corporations. Sealcraft currently employs 140 people, housed in a 65,000-square-foot manufacturing facility located on 6.5 acres of land located in Milwaukee. Regent's executive and sales offices are located in Carol Stream, Ill.

#90054p0344 02/23/1990 ~PR Newswire

EDISON, NJ, (FEB. 23) PR NEWSWIRE - Midlantic Corporation (NASDAQ: MIDL) announced today that its board of directors has adopted a shareholder rights plan designed to deter coercive or unfair takeover tactics and to prevent an acquiror from gaining control of Midlantic without offering a fair price to all of its shareholders. Under the plan, junior preferred stock purchase rights will be distributed as a dividend at the rate of one right for each common share held as of the close of business of March 12, 1990. The rights will expire on March 12, 2000.

Robert Van Buren, chairman and chief executive officer of Midlantic Corporation, said, "We believe this plan protects the interests of the shareholders in the event Midlantic and its shareholders are confronted with coercive or unfair takeover tactics including offers that do not treat all shareholders equally, the acquisition in the open market of shares constituting control without offering fair value to all shareholders and other tactics that could impair the board of directors' ability to represent the interests of the shareholders fully."

Van Buren stressed, however, "The plan is not intended to prevent an acquisition of Midlantic on terms that are favorable and fair to all shareholders, and will not do so. The plan is designed to deal with the very serious problem of unilateral actions by hostile acquirors that are calculated to deprive Midlantic's board and its shareholders of their ability to determine the destiny of Midlantic. The plan has not been adopted in response to any specific effort to acquire control of Midlantic."

Each right will entitle holders of Midlantic's common stock to buy one one-hundredth of a new series of junior participating preferred stock at an exercise price of $125. The rights will be exercisable if a person or

group acquires beneficial ownership of 15 percent or more of Midlantic's outstanding common stock or voting securities, or commences a tender or exchange offer that would result in such person or group acquiring beneficial ownership of 15 percent or more of Midlantic's outstanding common stock or voting securities.

In the event a person or group acquires 15 percent or more of the common stock or voting securities of Midlantic (except in transactions approved by the board of directors) or thereafter Midlantic is acquired in a merger or other business combination or more than 50 percent of its assets, earning power or cash flow is sold, each right will then entitle its holder to acquire shares of common stock of Midlantic or the acquiring person, as the case may be, having a value of twice the right's exercise price. Midlantic may redeem the rights at $.01 per right at any time until the 10th business day following public announcement that a 15 percent position has been acquired.

Details of the shareholder rights plan are outlined in a letter which is being mailed to all shareholders.

#90054p0369 02/23/1990 ~PR Newswire

WASHINGTON, (FEB. 23) PR NEWSWIRE - Imperial Savings Association, San Diego, a wholly owned subsidiary of Imperial Corporation of America (NYSE: ICA), was placed in conservatorship today by the Office of Thrift Supervision (OTS).

The Resolution Trust Corporation (RTC) was appointed conservator and will oversee the continued operation of Imperial.

Imperial Savings, a California-chartered stock savings association, will remain open for business as usual, as will all 80 of its full service branches throughout the state of California. This action was taken by OTS to protect insured depositors and the interests of the federal thrift insurance fund. Deposits remain insured to the $100,000 legal limit.

OTS initiated the conservatorship action under authority granted by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) because Imperial Savings was in an unsafe and unsound condition to transact business and was likely to continue to deteriorate. The action was taken with the concurrence of the commissioner of the California Department of Savings and Loans.

Imperial had substantially insufficient capital and failed to meet its minimum regulatory capital requirements. Due to Imperial's weak financial condition and sustained losses, there was no possibility of its replenishing capital without federal assistance, according to OTS.

At year-end 1989, Imperial had total assets of $9.68 billion, total liabilities of $9.65 billion and negative tangible capital of $60.10 million. Imperial's total deposits were $6.64 billion.

The thrift has incurred heavy losses as a result of a high level of risky or poor quality assets and non-performing consumer and mortgage loans. In addition, Imperial held more than 10 percent of its assets in junk bonds and has booked sizable losses in connection with marketing these assets to current market value. Further losses due to the need for additional mark-to-market adjustments are anticipated.

In a separate transaction earlier today, OTS added Mercury Savings and Loan Association (NYSE: MSL), Huntington Beach, Calif., to the conservatorship program, appointing the RTC as conservator. Mercury is a state-chartered, stock association, and this action also was taken with the concurrence of the California commissioner.

OTS acted under FIRREA authority because the association was operating in an unsafe and unsound condition and had substantially insufficient capital. As of Dec. 31, 1989, Mercury had total assets of $2.16 billion, total liabilities of $2.16 billion and negative tangible capital of $33.3 million. Mercury also held total deposits of $1.79 billion in 24 branches.

Mercury has sustained heavy operating losses and other losses due to asset write-downs. Given the likelihood of continued losses and the steady erosion of Mercury's capital, OTS said the thrift would be unable to replenish capital without federal assistance.

All branches of Mercury will remain open for business as usual, and deposits remain federally insured up to the $100,000 legal limit.

SALT LAKE CITY (FEB. 23) PR NEWSWIRE - American Stores Co. (NYSE: ASC) announced today that it has accrued a $32.5 million pre-tax charge to fourth quarter earnings relating to the company's Salmonella litigation. On an after-tax basis, the accrual is approximately $19.5 million, or $0.61 per common share. The litigation stems from the production and sale of milk containing salmonella typhimurium by Jewel Companies Inc., a subsidiary, in 1985.

An independent actuarial study has been recently completed regarding pending class action claims. The company has reviewed this study, as well as the remaining claims outside the class action, with outside counsel to estimate the cost of resolving these claims. Based on this analysis, the company believes that total Salmonella litigation reserves, after this addition, should be sufficient to cover the remaining claims and expenses stemming from the 1985 outbreak.

HOUSTON, (FEB. 23) PR NEWSWIRE - Global Marine Inc. (NYSE: GLM) announced today that its largest stockholder group, the 61 Associates Group, has agreed to sell approximately 16 million of its approximately 19 million shares of the company's common stock.

The shares to be sold constitute approximately 17 percent of the company's

outstanding shares. The company stated further that the shares will be sold privately in separate transactions to Salomon Brothers Inc. and approximately seven other purchasers, each of which separately will purchase less than 5 percent of the company's outstanding shares. The sales are subject to certain closing conditions.

In connection with the sales, Global Marine has entered into agreements with each of the purchasers providing for certain registration rights with respect to such shares. A shelf registration statement with respect to the purchased shares is expected to be filed within the next 30 days and any offering thereunder will be made only by means of a prospectus. Global Marine Inc. stated that, as a result of the sales, the two representatives of 61 Associates serving on the company's board of directors will resign as of the date of the closing of the sales.

Global Marine Inc. also announced that its annual meeting of stockholders will be held in Houston on Wednesday, May 9. Holders of record of the company's common stock at the close of business on March 16, 1990, will be entitled to notice of and to vote at the meeting. Stockholders will vote at the meeting to elect Class I directors and will also vote on a proposal to increase the number of authorized shares of the company's common stock from 155 million to 250 million.

Global Marine is a major international offshore drilling contractor with interests in oil and gas development and production.

CALGARY, Alberta (FEB. 23) PR NEWSWIRE - Notice is hereby given that the board of directors of NOVA Corporation of Alberta (Toronto: NVA) has declared the following quarterly dividends, payable on the 15th day of May 1990, to shareholders of record at the close of business on the 8th day of May, 1990.

PREFERRED SHARES 9 1/8 percent Series, Dividend No. 21: Dividend on the outstanding 9 1/8 percent Cumulative Redeemable Fixed/Floating Rate First Preferred Shares for the period ending May 15, 1990, will be in an amount per share equal to one-quarter of 70 percent of the average of the Prime Rate (as defined in the provisions attaching to the 9 1/8 percent Cumulative Redeemable Fixed/Floating Rate First Preferred Shares) in effect on each day during the three calendar months ended on the last day of April, 1990 (the "Calculation Period") multiplied by $25.

Such dividend is estimated to be $0.6026712 per share based on a Prime

Rate of 13 1/2 percent until Feb. 15, 1990, and a Prime Rate of 14 1/4 percent thereafter. This amount may vary depending upon the actual Prime Rate in effect for the Calculation Period and further notification will be made once the actual dividend amount is determined.

#90054p0397 02/23/1990 ~PR Newswire

MINNEAPOLIS, (FEB. 23) PR NEWSWIRE - International Broadcasting Corp. (NASDAQ: IBCA), a diversified family entertainment company, announced today that revenues for the first fiscal quarter ended Dec. 31, 1989 grew to $19,905,000, a 38 percent increase over the $14,404,000 recorded for the comparable quarter ended Jan. 1, 1989.

The company also reported a first quarter loss before interest, taxes, depreciation and amortization (LBITDA) of $2,185,000, compared to a LBITDA of $1,032,000 for the like quarter a year ago. The company said the increased loss was largely attributable to the costs associated with operating the company's two recently acquired amusement parks in their off-season, when the parks produce no offsetting revenues.

Thomas K. Scallen, president and chief executive officer, said he was "pleased with the company's substantial first quarter revenue growth. The growth was attributable to increases in the revenues of our established family entertainment enterprises, and to a first- time contribution to first quarter revenues by our recently acquired Chanhassen Dinner Theatre."

Scallen noted that the company also incurred a first quarter net loss of $6,656,000, or $1.93 per share, compared to a loss of $2,700,000, or $1.22 per share, for the comparable quarter a year ago. He said the increased loss was substantially attributable to an increase in expenses related to recent park acquisitions that the company completed in fiscal 1989. "These included higher depreciation and amortization expenses, which grew to $2.5 million from $750,000, increased interest expense and higher operating expenses related to operating our parks in a period when there are no offsetting park revenues," said Scallen.

Scallen noted that the company's cash flow measure of earnings before interest, taxes, depreciation and amortization (EBITDA) will show growth in IBC's strong second quarter, when the Ice Capades and Harlem Globetrotters are in their peak seasons. He further noted that International Broadcasting's EBITDA for the year should reach record levels, due to an anticipated strong fourth quarter, when the company's amusement parks are operating at peak levels.

Headquartered in Minneapolis, IBC owns and operates quality family entertainment properties. The company's properties include the Harlem Globetrotters, the Ice Capades and the Ice Capades Chalet centers. The Ice Capades is now in its 50th Season and the Harlem Globetrotters in its 64th season. The company also owns three regional amusement parks -- the Great Escape and Fantasy Island in upstate New York and Boblo Island near Detroit -- as well as the Chanhassen Dinner Theatre, located in suburban Minneapolis, which the company believes is the largest dinner theater in the United States.

LONDON (FEB. 23) UPI - Stock prices were sharply lower in moderate trading at midday Friday on the London International stock exchange dragged down by the selling in Tokyo.

The key Financial Times 100-stock index, which gained 9.5 points Thursday, was down 30.6 points at 2,238.6. The narrower top 30 industrial average was off 25.2 points to 1,764.6.

Volume amounted to around 264 million shares, compared with 229 million shares traded during the same period Thursday.

One analysts said it was a "down and dirty market" as initial markdowns on the part of market makers followed the sharp decline in Tokyo.

Traders said selling was not confined to any particular sector as a slew of weak economic signals undermined the market across the board.

Among the most widely traded stocks, Lloyds Bank PLC lost 11 cents to $4.63 after reporting a pretax loss of $1.14 billion in 1989. Carlton Communications tumbled 32 cents to $11.76.

Imperial Chemical Industries fell, giving back most of its gains from Thursday when the giant chemical company reported its latest pretax profit rose 4.1 percent, better than most analysts had expected.

NEW DELHI, INDIA (FEB. 23) UPI - Pepsi Foods Ltd., a joint venture involving the U.S. soft drink giant, Friday launched its first line of products for the Indian market and announced a major export deal for

involving the manufacture of tomato paste.

The new products, a line of grain- and potato-based snack foods, are now on sale at some 3,000 outlets in the country, a company executive told a press conference. He said the number of outlets would be increased to 10,000 within the next few weeks.

The food and beverage company also said it had landed a $4 million export order of tomato paste to be manufactured in the northern state of Punjab, where the joint venture is based.

Ramesh Vangal, the company's managing director, said the deal would earn $5 in export earnings for each dollar spent on the import of materials required by the enterprise. He said that his company, as part of its arrangement with the Indian government, had agreed to export 50 percent of its production turnover.

Pepsi Foods Ltd. is a joint venture company with most shares held by the state-owned Punjab Agro Industries Corp. and Voltas Limited of the Tata group of companies, one of India's largest business houses. The company, of which U.S.-based Pepsico Inc. is a minority partner, plans to produce soft drink concentrate, snacks, and processed vegetables and fruits.

Pepisco's bid to establish itself in India has encountered opposition from Indian soft drink industry and some New Delhi lawmakers who thought the move would destroy indigenous soft drink companies.

Vangal said Friday Indian soda pop manufacturers would not be hurt once Pepsico began to market soft drinks, but "thrive" through increased competition.

AKRON, OH (FEB. 23) UPI - The pending sale of the Uniroyal Goodrich Tire Co. to Michelin of Clermont-Ferrand, France, is being delayed by extensive checks by the Justice Department into possible antitrust violations, a published report said Friday.

Alan Elton, Uniroyal Goodrich vice president for law and public affairs, told the Akron Beacon Journal that Michelin delivered 306 boxes of documents to the Justice Department in January.

Michelin's purchase of Uniroyal Goodrich likely would move Michelin by the Goodyear Tire & Rubber Co. to become the world tire leader. The documents delivered by Michelin detailed company strategies and market shares.

Michelin on Sept. 22 announced an agreement to buy the second largest U.S.

tire company for $1.5 billion, but the deal cannot be completed until the government rules there would be no antitrust violations.

Elton said he expected a decision in March. "We're still positive," Michelin spokesman James Morton said of the investigation. Elton said the investigation is taking longer than a similar investigation when the Bridgestone Corp. bought the Firestone Tire & Rubber Co. because the Bush administration is taking a more critical look at mergers.

Goodyear would still be the dominant domestic producer, with production capacity of 225,000 tires a day as of 1988. The New York investment firm of Donaldson Lufkin & Jenrette said that in 1988 Michelin had a U.S. capacity of 40,000 tires a day and Uniroyal Goodrich 132,000 tires.

Uniroyal Goodrich was set up in 1986 as a joint venture equally owned by Uniroyal and Goodrich. It is now owned by Clayton & Dubilier Inc., a New York-based investment firm, which acquired B.F. Goodrich Co.'s 50 percent share in 1988 when the company moved out of the tire business.

#90054u1054 02/23/1990 ~United Press International

DETROIT (FEB. 23) UPI - General Motors Corp. said Friday it is exploring the possibility of implementing a four-day work week with longer daily hours at the company's domestic assembly plants to help cut costs and raise productivity.

GM spokesman Jim Crellin said such a system, now in use at two or three of GM's European plants, could conceivably aid the giant automaker in reaching its goal of 100 percent capacity utilization at its North American assembly plants by 1992. "We are looking at anything that will help us increase our capacity use," he said.

Crellin cautioned no decisions have been reached about putting the system into practice domestically, although GM assembly plants in Lordstown, Ohio and Janesville, Wis., are experimenting with two shifts working ten-hour days during a four-day week.

Such a work schedule has not been well received among United Auto Workers union members, who rejected it last November at Chrysler Corp.'s St. Louis No. 2 minivan plant in Fenton, Mo.

The Chrysler plant would have used three work crews, each working ten-hour shifts in a four-day week, with the plant operating six or seven days a week. Workers contended the system would have reduced opportunities to earn lucrative overtime pay, since most were already putting in ten-hour days and six-day weeks.

The one million-member UAW had no immediate comment on the revised work weeks. The union will begin negotiating new national labor agreements with GM, Ford Motor Co. and Chrysler this summer to replace existing pacts that expire Sept. 14.

#90054u1183 02/23/1990 ~United Press International

DETROIT (FEB. 23) UPI - General Motors Corp. is considering outside candidates to succeed Roger B. Smith as chairman when he retires this July the head of a New York State pension fund with major stockholdings in the automaker said Friday.

However, GM spokesman William B. Winters declined to discuss the scope of the selection process, or whether the next chairman will be announced at GM's annual meeting in Detroit this May.

''The discussions of the Board Committee are held in private and will be announced when they are concluded sometime late this spring,'' Winters said from GM's New York office.

New York State Comptroller Edward V. Regan, who manages the $43-billion pension fund and the 5 million shares of GM stock in its portfolio, said he was told by members of the GM's board of directors that outside candidates were being considered.

''My understanding is yes, there are resumes of outsiders, the whole works '' Regan told Gannett News Service.

Regan and other institutional investors, dissatisfied with GM's declining market share and stagnant stock performance, has been pressuring the company to consider someone other than a GM officer to head the carmaker into the 1990s.

But naming an outsider to head GM, still the world's largest industrial organization despite a trimming in recent years because of intense industry competition, would be a dramatic shift for the company.

Corporate records show that Lammot duPont, head of GM from 1929 to 1937, was the only outsider ever to be named chairman of the giant company.

''All others were officers of the corporation prior to being promoted to chairman,'' Winters said.

Industry analysts - as well as some ranking GM executives - believe GM President Robert C. Stempel and GM Executive Vice President F. Alan Smith are the front runners to succeed Smith, who became chairman on Jan. 1, 1981.

It is also possible GM could establish an Office of the Chairman and a Vice Chairman position similar to those now in place at Ford Motor Co. and Chrysler Corp.

#90054u1234 02/23/1990 ~United Press International

WASHINGTON (FEB. 23) UPI - The Securities and Exchange Commission Friday ordered a 10-day halt in over-the-counter trading of the stock of ASAC Corp., of Dallas, because of questionable trading in the security.

The SEC said the trading suspension started at 9:30 a.m. EST Friday and will end at 11:59 p.m. EST on March 4.

The suspension was ordered ''in view of questions that have been raised about recent market activity in the securities,'' the SEC said.

The commission said there were also questions ''about the adequacy and accuracy of the publicly disseminated information concerning, among other things, the identities of the shareholders of ASAC and the beneficial ownership and control of the company's shares.'' ASAC's principal business is the manufacture of disposal bags for lawnmowers, according to the SEC.

An SEC spokesman said shares of ASAC are listed on the ''pink sheets,'' a comprehensive list of stock quotes that include securities not usually listed in daily newspaper stock tables.

The commission cautioned that broker-dealers, shareholders and prospective purchasers of ASAC stock ''should carefully consider the foregoing information with all other currently available information and any information subsequently issued by the company.''

#90054u1376 02/23/1990 ~United Press International

WASHINGTON (FEB. 24) UPI - Justice Department officials, reacting to

criticism from Alaska officials, Friday denied having negotiated a plea bargain deal with Exxon that would undermine civil claims for damages from the nation's worst oil spill.

David Runkel, spokesman for Attorney General Dick Thornburgh, refused to confirm or deny details of the deal, but said it would not undercut legal action taken against Exxon by the state of Alaska or private citizens victimized by the 11 million-gallon spill in Prince William Sound on March 24.

But one attorney involved in spill litigation said the Justice Department already was reassessing the proposed plea bargain because of strong protests by state officials, members of Congress and environmentalists.

Alaska officials said the basic outline of the agreement calls for the government to drop all criminal charges against Exxon and its corporate executives in exchange for the company to pay up to $500 million for environmental restoration.

While saying the immediate payment of clean-up money would be beneficial, state officials rejected the deal Thursday, expressing particular concern about provisions in which the Justice Department promises not to bring civil litigation against Exxon for at least four years.

Alaska Attorney General Douglas Baily said the provisions meant the government would be abandoning its commitment to Alaska to assist with its civil claims against Exxon, making it much less likely the state will be able to pry more money out of the oil company for cleanup.

Attorneys for Alaska fishermen and other private citizens suing Exxon said the federal moratorium on civil litigation also would greatly complicate their cases, giving Exxon a huge legal loophole to exploit.

Runkel strongly denied those charges, telling reporters: ''No action taken by the federal government in the enforcement of federal criminal laws will compromise the state of Alaska's ability to pursue violations of its criminal laws or appropriate civil remedies.

''Nor will the rights of private parties, including environmental groups and Alaska residents, to pursue appropriate civil claims be adversely affected by any actions of the federal government.''

Runkel also took a slap at Alaska officials, saying federal officials were ''puzzled by comments which have been reported by persons who appear to have little grasp of what is actually involved in this case.''

Runkel refused to comment on allegations by environmentalists that Justice Department prosecutors were under intense pressure from the White House to

settle with Exxon rather than bring a criminal indictment.

Runkel would say only that the White House had been kept informed ''in very general terms'' of the criminal investigation into the oil spill.

Meanwhile, Kenneth Adams, an attorney for private citizens suing Exxon, said he had learned from sources close to federal prosecutors that the Justice Department was re-evaluating the deal.

''Justice is rethinking whether they can afford to go forward with this and they may upping the ante (for Exxon),'' Adams said. ''I don't know where this is going now, but all bets are off.''

Adams said he understood the oil company initially had been given until Friday to accept the plea bargain, but the deadline has now been pushed back to sometime next week.

Aides to Rep. George Miller, D-Calif., chairman of a House subcommittee on water, power and offshore energy resources, said a top aide to Thornburgh had informed Miller that the pace of negotiations had slowed considerably.

''It's reasonable to assume that's because the department took a lot of heat from the public and the press and they've backed off,'' said Jeff Petrich, chief counsel to the subcommittee.

On Capitol Hill, Assistant Senate Democratic leader Alan Cranston of California warned President Bush, a former Texas oil man, against going easy on Exxon.

''If the Bush administration lets Exxon Corp. off the hook it will prove once again that President Bush is an enviromentalist during election campaigns but he is still a big oil man all the rest of the time,'' Cranston said.

The most detailed criticism of the plea bargain came in a letter to the Justice Department from Baily, who said the deal could ''ultimately work to impede the full restoration of the damaged areas.''

State officials said the agreement would require Exxon to pay $100 million for restoration immediately, but stretches out additional payments over the next seven to 10 years. Furthermore, Exxon would retain the right to legally challenge the requirement for additional payments.

#90054u1562 02/23/1990 ~United Press International

WASHINGTON (FEB. 23) UPI - Rates for 30-year fixed mortgages increased by 0.21 percentage points this week while adjustable-rate mortgages fell by

0.04 percentage points, the Federal Home Loan Mortgage Corp. said Friday.

The agency, which buys mortgages from lenders and packages them as securities for sale to investors, said interest on fixed-rate loans increased to 10.31 percent this week, from 10.10 percent the week before.

Adjustable-rate mortgages averaged 8.44 percent, down from 8.48 percent last week, the agency said.

The fixed-rate average is for a 30-year loan covering 80 percent of a home's cost. The average adjustable-rate mortgage also is for 30 years but for 75 percent of the home price.

-30- 907

#90054u1584 02/23/1990 ~United Press International

DETROIT (FEB. 23) UPI - Sales of domestically made cars and light-duty trucks during mid-February slipped 12.1 percent from year-ago levels and analysts said new buyer lures were needed to jumpstart sales for the spring.

Sales of domestically built cars alone during the Feb. 11-20 period declined 11.6 percent from a year ago when measured by sales per day. Light truck sales, which account for over a third of all vehicle sales, fell 13 percent.

The annual sales rate for domestically built cars - the most common measure of industry performance - dipped to 6.5 million cars during the period, down from 7.4 million in early February and a strong 7.7 million in the year ago period.

"Sales are still slow despite the beefed up buyer campaigns in January," said industry analyst Thomas O'Grady, of Integrated Automotive Resources, in Wayne, Pa. "We need something new, something exciting. The public is just not responding."

O'Grady noted that government reports predicting higher inflation and interest rates hit the market after the latest sales period closed. "But maybe with enough publicity about interest rates rising, automakers will advertise attractive financing programs to spur sales," he said, adding that now may be a good time to buy a car.

"One could probably get a car for below invoice today if they shop around, and still make the dealer happy because of the cash incentives from the factory," O'Grady said.

Still, he expected U.S. vehicle sales to remain relatively slow throughout the rest of the year, despite industry executives' predictions of a pickup

during the second half of 1990. "We expect domestic car sales to stay below an annual sales rate of 7 million units for the rest of the year," O'Grady said.

The eight companies, General Motors Corp., Ford Motor Co., Chrysler Corp., American Honda Motor Co., Nissan Motor Manufacturing U.S.A., Toyota Motor Sales U.S.A., Mazda Motor Manufacturing (USA) Corp. and Mitsubishi Motor Sales of America Inc., reported combined sales of 164,227 cars and 93,836 trucks in the United States during the latest period. This compared with 185,672 cars and 107,822 trucks sold in the year-ago period, automakers said.

The daily selling rate of 32,258 vehicles compared with 36,687 vehicles per day for the same period last year. There were eight selling days in both the latest and year-ago period.

So far this year, the companies have sold 885,859 cars, up 1.0 percent from the almost 854,088 million units sold in the comparable 1989 period. Sales of light trucks were 545,851 units, up 5.9 percent from the 503,295 trucks sold during the same period a year ago because of gains by GM and Ford.

For the period, sales of GM's domestically made cars fell 24.6 percent, while its light truck sales declined 7.4 percent. Second-ranked Ford posted a 14.1 percent slide in car sales and a 15.4 percent decrease in truck sales.

Chrysler's car sales declined 13.7 percent, while its light truck sales including Jeeps and minivans fell 21.2 percent when compared with the combined total a year ago.

Among the smaller companies reporting sales of U.S.-built cars, Honda posted a 12.6 percent increase from a year ago. Toyota's sales soared 295.9 percent rise from low output levels a year ago.

Nissan reported a 2.1 percent dip in sales of its U.S.-built cars, while its domestically made compact truck sales rose 8.2 percent from year ago levels.

Mazda sold 1,277 of its new MX6 coupes produced at its Flat Rock, Mich., assembly plant, vs. 818 a year ago. Mitsubishi reported sales of 692 Eclipse cars built at its joint venture plant with Chrysler in Illinois, up from 433 a year ago.

MINNEAPOLIS (FEB. 23) UPI - Medtronic Inc. said Friday it earned $27.1 million, or $1 a share, in the third quarter ended Jan. 31, up from $23.8 million, or 89 cents per share, in the same period a year ago. Sales for the quarter were $207.4 million, up from $186.8 million in the year-ago period.

Net earnings for the first nine months totaled $77.66 million, or $2.88 per share, up from $71.95 million, or $2.70 per share, in the year-ago period. Revenues reached $599.89 million from $543.83 million.

The maker of biomedical devices such as heart pacemakers said all six of its businesses recorded revenues gains, both in U.S. and overseas markets. "Medtronic continued to broaden its earnings base with the expansion of its newer cardiovascular and neurological businesses," said Winston Wallin, chairman and chief executive officer.

Wallin said advances in new pacing technologies from Medtronic would continue. He said clinical evaluation has begun in England on the Micro-Minix, a single-chamber pacemaker that packs modern implantable technologies into a case not much bigger than a 25-cent coin. Clinical testing also began in January outside the United States for the new Elite dual-chamber rate-responsive pacemaker.

BEVERLY HILLS, CA (FEB. 23) UPI - Litton Industries Inc. said Friday that its Ingalls Shipbuilding division has been awarded a $614.2 million Navy contract to build three Arleigh Burke DDG-51 class Aegis guided missile destroyers.

Bath Ironworks Corp., of Bath, Me., also won a $511.9 million Navy contract for two of the destroyers.

Litton has now won contracts to build six Aegis destroyers, while Bath Ironworks has won contracts for seven.

The Aegis is the Navy's largest single on-going combat ship construction program, Litton spokesman Robert Knapp said. The Navy's current five-year plan calls for purchase of five destroyers each year.

The contract raises the backlog for Ingalls, of Pascagoula, Miss., to about $4.4 billion.

#90054u1712 02/23/1990 ~United Press International

ANCHORAGE, AK (FEB. 23) UPI - Exxon Valdez skipper Joseph Hazelwood insisted shortly after the tanker's grounding that he drank only one beer before sailing, according to a tape played for jurors Friday.

Hazelwood also told investigators that he turned control of the ship over to the third mate for a ''simple'' maneuver around ''ice bergie bits'' before the wreck, and afterwards tried to extricate the ship from a reef until he regained his senses.

Hazelwood made no mention in the interview, taped 13 hours after the grounding, of spending hours sitting at the Pipeline Club in Valdez, where two shipmates and other witnesses said the skipper drank vodka before sailing into Prince William Sound.

''I've got to accept responsibility,'' Hazelwood said told investigators shortly after the March 24 grounding and the subsequent huge oil spill, blaming himself because he ''overestimated the third mate's abilities as a ship handler.''

Hazelwood said third mate Greg Cousins, left in charge while the skipper went to his cabin to do paperwork, was ''perfectly reliable before.''

''That's a pretty simple maneuver,'' he said on the tape. ''I wouldn't have left the bridge if I didn't feel comfortable with his abilities to bring her back on course.''

Hazelwood had put the 987-foot oil tanker on a detour around icebergs in the shipping lanes.

Hazelwood described ''some big chunks. There was a big, almost a flight of ice bergie bits and brash ice hanging across'' the tanker lanes.

Hazelwood said he instructed the third mate on returning to tanker lanes after the ice detour, and got assurances from Cousins that he felt comfortable making the maneuvers.

''I went down to here,'' Hazelwood told his interrogators in his cabin. ''I was at my desk, starting to do some papers, and I felt a shudder. The vessel shuddered and I was just about to go up to the bridge when the phone rang and (Cousins) said, 'I believe we're aground.'''

Hazelwood said he raced back to the bridge.

''I tried the rudder and the engines for a few minutes to see if we could extract it from the situation, but then I got my faculties about me. I was a little upset, of course, but then I thought about it and driving her off might not be the best way to go, because it just (might) exacerbate the damage, so I just stopped the engines.''

Hazelwood said Cousins volunteered that ''he started the turn too late.''

Prosecutors say Hazelwood drank to excess in Valdez March 23 and then, sailed his loaded tanker into Prince William Sound, made a series of reckless alcohol-impaired decisions that set the stage for the wreck, such as leaving the bridge of the ship to unqualified crewmen, and then worsened the damage by trying the rock the tanker free after it went hard aground on Bligh Reef, eventually leaking 11 million gallons of oil.

The 43-year-old Exxon veteran from Huntington, N.Y., is charged with operating the tanker while intoxicated, reckless endangerment, negligent discharge of oil and criminal mischief.

Jurors Friday heard the 30-minute taped interview with Hazelwood, conducted by a Coast Guard investigator and a state trooper.

The tape quality was so poor that most of it was nearly impossible to understand, but jurors followed with a transcript. Hazelwood's voice was distinguished by its deep, slow, deliberate, almost mournful tone.

State trooper Michael Fox, a wildlife protection officer who was the only state police officer in Valdez at the time, was awakened to rush out to the stricken tanker, grabbed his gun and expected he was going to have to subdue a drunken skipper.

He said he was astonished to reach the grounded vessel and be confronted by eerie quiet with a sea of oil all around.

Fox said Hazelwood showed no signs of intoxication, but he asked the captain if he had been drinking.

Hazelwood first replied that he ''had one of these phony beers, Moussy,'' a brew with virtually no alcohol.

Pressed on the drinking, Hazelwood said he had one beer at the Harbour Club, then volunteered again that also he had one or two Moussy beers, which he described as ''an alcohol-free beer.''

Two of Hazelwood's shipmates, the chief engineer and radio operator, testified earlier in the trial that they spent about three hours drinking in the Pipeline Club with Hazelwood, who supposedly had vodka. Then the trio went to another bar, where Hazelwood allegedly continued to drink.

Before the three Exxon buddies went drinking together, Hazelwood dropped into the Pipeline Club earlier in the afternoon and started drinking vodka according to another witness who said she saw Hazelwood drinking earlier that day before he sailed.

Investigators explored Hazelwood's drinking and Valdez doings in the interview, but the captain never let on that he may have spent much of his shore time sitting in the Pipeline Club.

''Well, we went by the Pipeline Club to see if anybody off the ship was in there, if we knew anybody,'' he said, leaving it at that.

#90054u1838 02/23/1990 ~United Press International

WASHINGTON (FEB. 23) UPI - Two dozen American business leaders met with President Bush Friday on the eve of a trip to Panama where they hope to help rebuild a tattered economy, sign contracts and make money.

''We're going down there to identify private sector opportunities,'' said Fred Zeder, president of the federal Overseas Private Investment Corp., which will lead the delegation on a week-long visit.

Zeder told reporters Bush wished the business leaders well and thanked them for helping rebuild the Central American nation, wracked by almost two years of U.S. economic sanctions and a U.S.invasion to oust Gen. Manuel Noriega.

''The good news is that both Americans and Panamanians can make a profit

while rebuilding the economy of Panama,'' said Craig Fuller, a private consultant who served as Bush's chief of staff while Bush was vice president.

The OPIC mission will include Fuller and representatives from American Express, AT&T, GTE, and Pemberton Inc., a heavy equipment firm.

Bush, who ordered the Dec. 20 invasion that installed a new government commited to democratic rule, has proposed a $1 billion federal aid package for the Central American nation.

OPIC will seek to bolster the assistance by getting American businesses involved in ventures ranging from housing and communication to agriculture and banking.

Zeder said the mission will seek to familiarize American investors with the economic and political climate of Panama and match them with potential partners.

''We have some good leads on contracts,'' Zeder said. ''Our Commerce Department has been very active. We are looking for a quick startup down there.''

OPIC seeks to encourage investment in more than 110 developing nations worldwide. In the past year, it has led missions to Poland, Hungary, Bolivia and to several nations in Africa.

#90054u1938 02/23/1990 ~United Press International

DALLAS (FEB. 23) UPI - Hunt Oil Co. Friday announced a production sharing agreement with the government of Laos, covering 6.4 million acres in the southern part of the Southeast Asian country.

As part of its strategy to explore in areas not generally sought by other major oil companies, Hunt Oil is hoping the Laotian venture would be as successful as its agreement with North Yemen, which the company helped become a major oil producer.

The agreement signed with Laos ''provides for an initial two-year exploration term with options for four additional two-year terms,'' the company said.

Hunt Oil did not disclose other details of the production sharing agreement.

The company's Laotian unit will conduct geological studies in the first two years of operations and acquire seismic data in the following periods

of operations. To maintain the contract beyond the fourth year, Laos Hunt Oil will drill exploratory wells.

Laos, with a population of less than 4 million people, is poorly industrialized.

Hunt Oil began overseas ventures after Ray Hunt, one of the sons of the legendary billionaire H.L. Hunt, became chairman of the privately held company in 1974.

''This sort of fits the profile of Hunt Oil Co.'s international exploration programs,'' said spokesman James Oberwetter. ''The company seeks areas which have not had a lot of previous interest expressed by the large oil companies.''

He said his company had been discussing the agreement with Laos for about two years.

In North Yemen, Hunt Oil experts discovered the huge Alif oilfield in 1984. Since then, the company was involved in building a refinery and a 250-mile long pipeline to the Red Sea to transport North Yemen's exportable oil, now running at about 180,000 barrels a day.

Hunt Oil currently is involved in discussions on developing an area between North and South Yemen, along with Kuwait's state-owned oil company Exxon Corp. and groups from France and the Soviet Union.

#90054u2234 02/23/1990 ~United Press International

KANSAS CITY, MO. (FEB. 24) UPI - A newspaper said Friday a Federal Bureau of Investigation probe into a US Sprint bid for part of a $25 billion government contract is focused on a team of outside specialists hired to gather information about Sprint's competitors.

The Wall Street Journal, quoting unnamed sources familiar with the

investigation, said the FBI is investigating claims by former Sprint executives that Sprint hired outside consultant David Hemmings ''to gather intelligence on Sprint's rivals.''

The government's investigation began after the former employees said in a civil suit filed in the District of Columbia that Sprint illegally obtained secret bid information on American Telephone & Telegraph Co. and Martin Marietta Corp.

Those companies also sought part of the large FTS-2000 long-distance contract.

The 10-year contract was awarded to Sprint, a unit of Kansas City-based United Telecommunications Inc., and AT&T.

Sprint spokesman Syd Courson said Friday that Hemmings is a private consultant for Sprint based in Washington. Hemmings ''has involvement with government contracts,'' Courson said, but he did not elaborate.

Courson said the company hires outside consultants when preparing bids if its does not have in-house expertise in a particular field. He said Sprint opened a government sale office in Washington long before bidding for the FTS2000 contract.

Sprint said it has conducted an internal investigation of the bidding process and found no wrongdoing. The company said it has cooperated with the FBI throughout its investigation.

The civil complaint filed in U.S. District Court is sealed, as are the identities of the former Sprint employees. The suit was filed under a provision designed to protect so-called whistleblowers.

Courson said the Justice Department would neither confirm nor deny the suit was filed.

''Really, from a factual basis, we have no evidence to say a suit exists '' he said.

#90054u2339 02/23/1990 ~United Press International

ANCHORAGE, AK (FEB. 24) UPI - Exxon Valdez skipper Joseph Hazelwood insisted shortly after his tanker ran aground that he had drunk only one beer before sailing, according to a tape played for jurors at his trial Friday.

Hazelwood's taped statement is contradicted by testimony from two shipmateswho described an afternoon and evening spent in bars drinking.

Hazelwood also told investigators that he tried to extricate the ship from a reef until he regained his senses and realized that might cause more damage.

The Exxon Valdez hit a charted reef in Prince William Sound March 24, causing the nation's worst oil spill ever.

In an interview taped in his cabin aboard the grounded tanker some 13 hours after the wreck, Hazelwood took responsibility for the accident, blaming himself for overestimating the abilities of a mate left to run the ship in his absence.

The defense failed to challenge the tape. Defense lawyers who so far have waged a strong fight against prosecution evidence simply ignored the damaging tape when they cross-examined the investigator who made it.

Jurors already have heard Hazelwood's two Exxon Valdez drinking partners testify that the three spent hours in bars drinking. The two crewmen said Hazelwood drank vodka with them in the Pipeline Club for three hours. Two other witnesses said they saw Hazelwood there drinking.

Asked on tape whether he had anything to drink at the bar, Hazelwood said, ''No.''

Prosecutors say Hazelwood drank to excess in Valdez March 23, sailed his loaded tanker into Prince William Sound and made a series of reckless alcohol-impaired decisions that set the stage for the wreck, such as leaving the bridge of the ship to unqualified crewmen.

Prosecutors say he worsened the damage by trying the rock the tanker free after it went hard aground on Bligh Reef. The ship eventually leaked 11 million gallons of oil, the worst oil spill in U.S. history.

The Exxon veteran from Huntington, N.Y., is charged with operating the tanker while intoxicated, reckless endangerment, negligent discharge of oil and criminal mischief.

Jurors followed the 30-minute taped interview, conducted by a Coast Guard investigator and a state trooper, with a transcript because it was nearly impossible to understand. Hazelwood's voice was distinguished by its deep, slow, deliberate, almost mournful tone.

''I've got to accept responsibility,'' Hazelwood told investigators, blaming himself because he ''overestimated the third mate's abilities as a ship handler.''

Hazelwood said third mate Greg Cousins, left in charge while the skipper

went to his cabin to do paperwork, was ''perfectly reliable before.''

Hazelwood had put the 987-foot oil tanker on a detour around ''ice bergie bits'' in the shipping lanes.

He instructed the third mate on returning to tanker lanes after the detour and Cousins said he felt comfortable making the maneuvers.

''That's a pretty simple maneuver,'' Hazelwood said on the tape. ''I wouldn't have left the bridge if I didn't feel comfortable with his abilities to bring her back on course.

''I went down to here,'' Hazelwood told his interrogators in his cabin. ''I was at my desk, starting to do some papers, and I felt a shudder. The vessel shuddered and I was just about to go up to the bridge when the phone rang and (Cousins) said, 'I believe we're aground.'''

Cousins volunteered that ''he started the turn too late,'' Hazelwood said.

Returning to the bridge, Hazelwood said, ''I tried the rudder and the engines for a few minutes to see if we could extract it from the situation but then I got my faculties about me. I was a little upset, of course, but then I thought about it and driving her off might not be the best way to go, because it just (might) exacerbate the damage, so I just stopped the engines.''

State trooper Michael Fox, a wildlife protection officer who was the only state police officer in Valdez at the time, was awakened to rush out to the stricken tanker, grabbed his gun and expected he was going to have to subdue a drunken skipper.

He said he was astonished to reach the grounded vessel and be confronted by eerie quiet with a sea of oil all around.

Fox said Hazelwood showed no signs of intoxication.

Pressed on the drinking, Hazelwood said he had one beer at the Harbour Club and one or two Moussy beers, a low-alcohol brew that he called ''phony beers.''

Investigators pressed Hazelwood on whether he went to any other bars in Valdez and Hazelwood said, ''Well, we went by the Pipeline Club to see if anybody off the ship was in there, if we knew anybody.''

In addition to hearing the Hazelwood tape, jurors watched a video of the oil on the shores and waters of Prince William Sound.

The prosecution said it expects to finish its case Tuesday.

#90055u0894 02/24/1990 ~United Press International

SCOTTSDALE, AZ. (FEB. 24) UPI - The union for 9,000 Greyhound bus drivers and other workers threatened Saturday to stage a nationwide strike Friday and accused the bus line of failing to negotiate seriously to avert the walkout.

Edward M. Strait, president of the Amalgamated Council of Greyhound Local Unions, issued a statement accusing the company of unfair labor practices and saying the union ''may be compelled to strike'' if the company ''continues ... refusing to bargain in good faith.''

''If the Greyhound Lines Inc. management is truly concerned about the welfare of its employees and the traveling public, they will take their seats at the table,'' Strait said in a statement accusing the company of sticking to a ''take-it-or-leave-it'' proposal already rejected by almost 92 percent of union members.

P. Anthony Lannie, Greyhound executive vice president and head of the company negotiating team, sent Strait a letter Friday saying the union's latest offer was ''unrealistic'' and suggesting it make new proposals.

The union has threatened a strike at 12:01 a.m. Friday unless agreement is reached on a new three-year contract for about 6,300 drivers and 3,000 maintenance, office and telephone center workers.

The company has said it has placed help-wanted advertisements in newspapers in 36 cities, seeking permanent drivers to replace those who might go on strike. It said 600 drivers are in training school.

Greyhound spokesman George Gravley said the company had offered a contract worth about $63 million, calling for a 6.9 percent wage hike the first year and a 13.5 percent increase over three years.

The union initially wanted raises totaling $561 million over three years, but revised that to $406 million.

''We've made a point since Day One that the proposal we've put on the table is all we can afford,'' Gravley said. ''This company lost $20 million in the last three years. ... In 1989, we had a very small profit of about $1 million. The first year of our proposal would cost $14.1 million, which would be something like 15 times our 1989 earnings. That's the very best we can do under the circumstances.''

Gravley said the union did not disagree that the company has financial problems.

''They simply say that our ability to pay is irrelevant,'' Gravley said.

Gravley said buses will continue to operate if there is a strike.

''We have customers to serve and we are going to do that,'' he said. ''On March 2, we will operate as many schedules as possible, and day-by-day we will build the system back as we have more permanent replacements trained. We expect to have the whole system running again to all locations by the end of March.''

The last strike against Greyhound was in 1983. The bus company was bought from Phoenix-based Greyhound Corp. in 1987 by a group of Dallas investors headed by Fred G. Currey. After the change of ownership, the union negotiated a new contract including wage concessions.

Greyhound says the average salary of its drivers in 1989 was $24,643.

NEW YORK (FEB. 26) PR NEWSWIRE - Unilever has acquired from the Mexican government the assets of the Industrias Conasupo edible oil refinery and pasta manufacturing factory at Tultitlan, in the Mexico City valley.

Unilever will pay the equivalent of $74 million, including local taxes, part of which are recoverable, for the fixed assets, debtors and stocks.

The Tultitlan factory employs some 1,300 people and produces principally crude and refined vegetable oils, vegetable shortenings and pastas for soup.

The acquisition of Industrias Conasupo will provide needed edible oil capacity in a location which will enable Unilever to achieve better coverage of the market in the center and south of the country. Unilever will increasingly use the capacity in oils and pasta to expand its sales of branded products in both consumer and professional markets.

Unilever's interests in Mexico currently include substantial retail and industrial oil operations; oilseed crushing facilities; foods and drinks businesses producing such items as meat products, tea, sauces, desserts and dressings; and a personal products business.

#90056p0008 02/25/1990 ~PR Newswire
HOUSTON (FEB. 25) PR NEWSWIRE - Kroger employees in Houston and San Antonio have overwhelmingly ratified new contracts, ending a week-long strike.

Company officials said that with the approval of the new contracts, regular operating hours will resume today (Sunday) at all of the 72 Kroger supermarkets in Houston and 15 supermarkets in San Antonio.

The three-year contract approved by retail clerks and meat department employees in Houston, contains three major provisions:

-- Wage increases across the board spectrum of job classifications, with up to 75 cents in additional hourly pay over the three-year contract for top-rated wrappers and journeymen, meat department employees, and clerks, and up to 78.5 cents additional hourly pay for department heads over three years.

-- The continuation of existing health and welfare benefits for all current employees. Employees hired after the contract takes effect will receive a slightly lower benefits package.

-- A profit sharing plan that provides bonus cash payouts to employees based on the overall performance of the employees store.

The San Antonio contract covers meat department employees, and expires in June 1991. In addition to the continuation of health and welfare benefits for current employees and a profit sharing plan, head meat cutters and journeymen meat department employees will receive up to 25 cents additional hourly pay over the next 16 months.

Pat Kenney, vice president of Kroger's Houston division, said the company was "extremely pleased with the successful conclusion of the negotiations. We are looking forward to having our associates back on the job and serving the needs of Kroger customers."

CONTACT: Carmen Pate, 713-820-8859, or Paul Bernish, 513-772-2931, both of Kroger.

#90056u0899 02/25/1990 ~United Press International
TACOMA, Wash. (FEB. 26) UPI - Breaking with past practices The Boeing Co. for the first time will offer to help find jobs for the 2,500 employees it expects to lay off this spring.

Boeing will open two ''out placement'' centers early next month to prepare

its laid-off workers to re-enter the job market in the Puget Sound area and even out of state.

Last month Boeing announced it will trim 5,000 jobs from its payroll this year, most from its Everett plant.

Half of the reduction will come from lay-offs, the rest from attrition, the company has said.

So far Boeing has sent 60-day lay-off notices to more than 2,000 employees.

To help spread the word about new placement centers Boeing held two introductory seminars Saturday in Everett and near Seattle-Tacoma International Airport. About 50 attended the Sea-Tac area seminar and 125 attended the Everett session.

While some workers said they appreciated efforts to help them find work, others said they resented the way in which the company has selected employees to be laid off.

No amount of job counseling will make up for the fact that hundreds of employees will soon be out of work, several employees said.

In past years Boeing did little to help employees find work and the Washington State Employment Security Department typically shouldered the burden of providing job service resources to laid-off workers.

But, according to a Boeing spokesman, that will now change.

''We're now taking more of the lead,'' said Charles Reily, a Boeing human resources employee. ''The company really cares about what's happening to these people.''

The service centers will offer employees and their spouses individualized help. Employees and their families will be taught how to manage anger and ''make this situation a lot more positive than it may seem today,'' Reily told employees at the Sea-Tac session Saturday.

Laid-off emplyees will be trained in how to look for jobs, write resumes, and how to present themselves during job interviews.

The centers will be located near South Center and in Everett and are scheduled to open March 5 and March 10 respectively.

But after listening to the presentation Saturday some emplyees remained bitter.

''If I can find another employer that appreciates my skills, I'm gone for

good (permanently),'' said Laverne Shackles, a Renton electronics worker.

Shackles said she has worked at Boeing for more than four years and enjoys her $15-an-hour job. But, because Boeing has sent more of its electronics work out of state, she may be laid off even though she has more job seniority than employees in other areas of the company.

''It's unfair. We could be trained in other jobs,'' Shackles said.

Stan Kwiecen of Federal Way was philosophic about his plight.

''That's the way it goes,'' he said. ''Looking at Boeing's history, they hire and then they lay off. It's a volatile situation. You have to expect it.''

Kwiecen works on the 747-400 flight line in Everett.

A number of flight-line workers got lay-off notices he said and many already have ''jumped for jobs at other aerospace companies.''

But one Boeing worker who recently came to work for Boeing from out of state said those same workers may find themselves laid off again if Northrup Corp. loses funding for its B-2 Stealth Bomber program.

#90056u0940 02/25/1990 ~United Press International

BOISE, Idaho (FEB. 26) UPI - Carol Andrus, the governor's wife, whose recent appointment to the board of directors of Morrison Knudsen Co. had come under strong Republican attack, resigned Sunday from the post.

Mrs. Andrus said that ''certain members of the Idaho Legislature, for purely partisan reasons, have chosen to attack my appointment and have unfairly questioned the integrity of Morrison Knudsen and my husband.

''I will not ask, nor do I expect, either MK or my husband to spend their busy days defending me.''

Mrs. Andrus said both she and MK took extraordinary steps to ensure that her appointment presented no conflict of interest.

MK Chairman William M. Agee agreed.

''From the beginning, we have said that Mrs. Andrus would not be involved in decisions relating to state business,'' he said, blaming criticism on the ''political season.''

The governor and all members of the Legislature face re-election this year.

Agee called Mrs. Andrus a ''highly qualified woman'' who was subjected to ''grossly unfair comments and innuendo'' that caused her to step aside.

As a director, Mrs. Andrus would have received $20,000 a year, plus $1,000 for each day at a board meeting. The board meets about eight days per year.

MK, a worldwide construction company headquartered in Boise, often does work for state agencies.

However, Agee said one of MK's major projects in Idaho, a cleanup of uranium tailings, doesn't involve the state, since MK was selected by the U.S. Department of Energy.

Reacting to the resignation, House Majority Leader Gary Montgomery, R-Boise, said the governor was scrambling to cut his political losses. He said less arrogance by the governor would have avoided what Montgomery called a political fiasco.

Montgomery said he didn't know if there was any impropriety in the appointment, but said a perception of potential impropriety resulted.

He said he had no criticism of Mrs. Andrus.

Montgomery said he would support good conflict-of-interest legislation, which Mrs. Andrus suggested in her resignation.

Gov. Cecil Andrus is in Washington, D.C., at a national governors' meeting.

#90056u1027 02/25/1990 ~United Press International

LOS ANGELES (FEB. 26) UPI - Gas prices at the pump have dropped more than a half-cent per gallon nationwide in the past two weeks, an industry analyst said Sunday.

A survey of 13,000 retail gasoline outlets Feb. 23 shows the average price for a gallon of gas was 112.21 cents, down 0.52 cent from a similar survey Feb. 9, according to Trilby Lundberg.

''This is a reflection of prices returning to normal after very untypical price rises in January due to extremely cold weather in a great portion of the country,'' Lundberg said. ''During that period, many refineries were producing great quantities of home heating oil and other products.''

The price of a gallon of regular unleaded gasoline at self-service stations, which accounts for 80 percent of all retail gasoline sales, on Feb. 23 was 100.24 cents, while premium unleaded sold for 117.79 cents and

regular leaded was 99.02 cents.

During the same period, full service stations sold a gallon of regular unleaded for 128.77 cents, premium unleaded for 142.40 cents and regular leaded for 127.62 cents.

#90056u1248 02/25/1990 ~United Press International

WASHINGTON (FEB. 26) UPI - The National Governors' Association called for using part of any ''peace dividend'' for school spending Sunday as they adopted education goals designed to flesh out those set forth earlier by President Bush.

Bush and the governors agreed to develop goals for the nation's schools at their education summit last fall in Charlottesville, Va., and Bush announced six objectives in January ranging from making U.S. students the world leaders in math and science to cutting illiteracy and high school dropout rate.

The governors retained Bush's goals and added specifics such as reducing racial inequities, improving teacher training, ''enhancing'' prenatal and preschool programs, placing more emphasis on foreign languages, requiring community service and calling for more involvement by parents and business.

But their peace-dividend resolution could put the governors at odds with the Bush administration, which has said any savings resulting from decreased military spending will probably not be that large and in any case should be used to reduce the budget deficit.

The governors and their spouses attended a White House dinner Sunday night where President Bush, in an exchange of toasts, said they had made ''a good beginning'' at their meeting last September.

''Our work is not finished,'' he said, ''but I believe what we began in Charlottesville was an historic first step in what can be a new relationship between us.''

The peace-dividend resolution written by Gov. Mario Cuomo, D-N.Y., and approved unanimously on a voice vote ''commends'' the president for reviewing defense spending in light of the changes under way in Eastern Europe.

It acknowledges that any sizeable peace dividend could be several years away and that the savings ''should not be viewed as a panacea to all of the issues that confront our nation.''

''However, as this dividend accrues, we urge the president and the

Congress to dedicate the peace dividend in a balanced manner among the federal budget deficit; education and other productivity investments,'' the resolution said.

Republican governors minimized any differences with the president, pointing out the resolution also calls for reducing deficits that threaten ''a legacy of debt and a lower standard of living to our children.''

''I don't think it's us against the president,'' Gov. Tommy Thompson of Wisconsin said. ''The president is doing his part.''

But Democrats said the approval of the peace-dividend resolution as part of their education package signals that sacrifices will be needed to improve the quality of American schools.

''I think it's important to send a message to this country. ... You don't get there by just saying you want to go. You get there by changing behavior, by reallocating priorities and resources,'' Gov. Buddy Roemer of Louisiana said.

''I think it's not a question of if we can get it. We have to get this peace dividend or we have to make some other change in this country's policy or we're not going to close the gap.''

Although the governor's education goals are more specific than those advanced by Bush, they also do not address the question of funding. The governors will consider that subject at their July meeting in Mobile, Ala.

''America's governors receive an A-plus for rhetoric, but fail economics '' said Timothy Dyer, executive director of the National Association of Secondary School Principals. ''Their goals are lofty, patriotic, noble and certainly what we all would like. However, without resources they are merely wishes.''

Keith Geiger, president of the National Education Association, the largest teachers union, said the objectives are ''an important first step'' but that the governors ''have to get more specific'' about money.

-30- 4034

#90056u1369 02/25/1990 ~United Press International

(FEB. 26) UPI - Kansas and Missouri have been getting most of the attention, but suddenly the Big Eight's No. 3 team is making all the noise.

The No. 11 Oklahoma Sooners claimed their 44th straight home victory Sunday with a convincing 107-90 drubbing of the top-ranked Missouri Tigers.

The lopsided victory will undoubtedly propel another team into the top

spot in the polls, possibly No. 2 Kansas. But that could be a short-lived reign. Guess where the Jayhawks play Tuesday?

The Sooners welcomed the Tigers to Norman, and the Lloyd Noble Center Sunday, where Oklahoma Coach Billy Tubbs has been known to turn thermostats up over 90 degrees.

Jackie Jones, Damon Patterson, and William Davis combined for 72 points in courtside temperatures of 100 degrees.

Jones scored 28 points, grabbed 10 rebounds and blocked seven shots before an ecstatic record crowd of 12,157. Patterson had 24 points and Davis scored 20 and pulled down 15 rebounds for the Sooners, who improved to 21-4 overall and 9-3 in the conference.

''This is one of the greatest games ever played in this arena,'' said Tubbs. ''I felt that Jackie Jones had a great game with seven blocked shots and 10 rebounds.''

The Tigers closed to within two points in the early stages of the second half, but Oklahoma began a 15-2 run with a three-pointer from Henry and another from Jones seconds later. Jones then added a basket and Patterson converted a three-point play and suddenly the Sooners were ahead by 13.

''Maybe we should shoot all three-pointers,'' said Tubbs. ''I saw where we shot 50 percent (12-of-22) from behind the line and forty-something (35-of-81) in front of it,'' he said.

Missouri Coach Norm Stewart said that was the beginning of the end for the Tigers.

The loss dropped Missouri to 11-2 in the Big Eight Conference, a half game ahead of Kansas. Doug Smith led the Tigers with 27 points and Anthony Peeler scored just 10 on 3 of 16 shooting.

--- AROUND THE COLLEGE SCENE ---

In other Top 20 games, No. 4 Duke shaded Arizona 78-76, No. 9 Syracuse edged Providence 93-89, Georgia dumped No. 13 Louisiana State 86-85, No. 14 LaSalle dropped St. Peter's 74-66 in overtime, and No. 16 Michigan State clipped Indiana 72-66.

At Durham, N.C., Phil Henderson scored 28 points, including a layup after a steal with 1:47 left, to lift Duke. Henderson's steal and basket pushed Duke to a 75-72 lead, then the senior guard snak four free throws with 22 seconds left after Jud Buechler had scored for the Wildcats. The Blue Devils, 23-5, have won 56 straight at home against non-Atlantic Coast Conference teams. Brian Williams scored 19 points to lead Arizona, 19-6.

At Athens, Ga., Alec Kessler scored 30 points to lift Georgia from a 19-point second-half deficit to a victory over LSU and first place in the Southeastern Conference. Georgia, 19-6 overall, improved to 12-4 in the SEC on Neville Austin's free throw with five seconds left. LSU fell to 21-6 and 11-5. Georgia has never won an SEC title. LSU All-America guard Chris Jackson scored 31 points and helped the Tigers to a 57-38 lead with 17:30 left.

At Providence, R.I., Billy Owens scored 33 points and fueled a 22-4 second-half run that lifted Syracuse to a Big East victory. Stephen Thompson added 15 points for the Orangemen, 20-5 and 10-4. Marty Conlon scored a season-high 26 for Providence, 15-10 and 7-8.

At Jersey City, N.J., Lionel Simmons scored 18 points to lift LaSalle to its 17th straight victory in a Metro Atlantic Athletic Conference game. Simmons stands fourth on the NCAA career scoring list with 3,042 career points, 24 behind third-place Harry Kelly of Texas Southern. LaSalle improved to 25-1 and 15-0. Tony Walker scored 19 for St. Peter's, 14-13 and 7-9.

At East Lansing, Mich., Steve Smith scored 21 points and Matt Steigenga added 11 to run Michigan State's Big Ten winning streak to six games. The Spartans, 22-5 overall and 11-3 in the conference, pulled within one-half game of league-leader Purdue. Indiana fell to 16-8 and 6-8.

#90057b0018 02/26/1990 ~Business Wire

FREMONT, CA (FEB. 26) BUSINESS WIRE - Vitalink Communications Corp. (NASDAQ VITA) and FastPacket company StrataCom Inc. have announced that they are jointly developing internetworking systems based on Frame Relay

technology.

Under the new program, Vitalink will build support for StrataCom's standards-based Frame Relay Interface into its family of advanced bridges and bridge/routers. The combination of StrataCom and Vitalink capabilities will allow users to enjoy the performance and economic benefits of fast packet switching over a large wide area network.

The development underscores a continuing relationship between the two California-based companies: At the recent ComNet exhibition in Washington the pair unveiled their jointly developed network management platform, WANmanager. The WANmanager will migrate gracefully into Digital Equipment Corp.'s EMA program, of which both Vitalink and StrataCom are original members.

The new Frame Relay support program will entail software changes to Vitalink's TransLAN Ethernet bridges, TransRING token ring bridges and TransPATH bridge/routers. No new hardware or firmware is needed. Both companies will perform conformance tests to ensure the continued compatibility of their respective systems.

Frame Relay, combined with StrataCom's FastPacket technology, will offer unsurpassed time and cost advantages to networks connecting distributed LANs or carrying transaction processing traffic. It reduces the delay of such data applications by offering LAN interconnect equipment access to total bandwidth on demand and unrestricted connectivity to all other points on the network.

And as only one connection per LAN is needed into the network, there are significant equipment cost savings.

In announcing joint Frame Relay development with StrataCom, Vitalink joins a growing group of major companies who have pledged commitment to StrataCom's Frame Relay program. In September 1989, Digital Equipment announced a development program to support Frame Relay on its OSI routers, and earlier that year, US Sprint/Telenet revealed plans to support the interface on its TP4/111 packet switches.

Vitalink Communications Corp. manufactures and markets a complete family of LAN interconnection products. Vitalink is the leading supplier of Ethernet and token ring remote bridges and routers and offers network management products and service capabilities worldwide.

#90057b0033 02/26/1990 ~Business Wire

SAN FRANCISCO (FEB. 26) BUSINESS WIRE - Pacific Gas Transmission Co. and Pacific Gas and Electric Co. Monday announced that the Bechtel Corp. will manage the construction of the PGT-PG&E pipeline expansion, a $1.2 billion project to transport additional volumes of Canadian natural gas to the western United States.

"There's no better partner than Bechtel to oversee the construction of the PGT-PG&E pipeline expansion," said Jerry R. McLeod, PG&E executive vice president. "Adding their experience and reputation to the project further demonstrates our commitment to the expansion's timely completion."

Detailed engineering, design and right-of-way work covered by the PGT-PG&E contract with Bechtel will permit actual construction to begin as scheduled by the end of 1991. None of the other proposals to build new pipeline capacity to serve California includes provision to assure such a prompt construction start-up.

"Bringing Bechtel on board demonstrates out strong commitment to construct the PGT-PG&E pipeline expansion," said Stephen P. Reynolds, PGT president and chief executive officer. "We're taking advantage of Bechtel's expertise now to make sure that our customers get natural gas transportation service, as promised, in 1993."

More than 20 shippers, representing western U.S. utility companies, end users and Canadian gas producers, have signed contracts to transport a total of 755 million cubic feet a day of natural gas to California and 148 MMcf/d to the Pacific Northwest on the expansion.

Bechtel has been intimately involved with PG&E's original Alberta-to-California natural gas pipeline, with was constructed in the early 1960s and expanded in British Columbia and the Pacific Northwest in the early 1980s as part of the Alaska Natural Gas Transportation System.

"Bechtel has a long history of developing natural gas transportation systems in Canada and throughout the world," said Don Gunther, president of Bechtel Petroleum, Chemical and Industrial Co. "We're honored to continue our Canada-to-California relationship with PG&E by managing the construction of the PGT-PG&E pipeline expansion."

The PGT-PG&E expansion sponsors and Bechtel signed a two-phase construction management contract on Feb. 23. The first phase covers planning and design prior to certification of the project by the Federal Energy Regulatory Commission and the California Public Utilities

Commission. The second phase covers the actual construction.

#90057b0039 02/26/1990 ~Business Wire

CUPERTINO, CA (FEB. 26) BUSINESS WIRE - Symantec Corp. (NASDAQ: SYMC) Monday announced Time Line Version 4.0, a new version of its powerful MS-DOS project management software. Time Line Version 4.0 offers Project Presentations which produce high-quality graphical charts of project schedules.

"Time Line 4.0 expands the boundaries of project management software with sophisticated graphical presentation capabilities," said Gordon E. Eubanks, Jr., president and chief executive officer. "As with the spreadsheet and word processing markets, there is increasing demand in the project management arena for the presentation-quality output that Time Line now provides."

Time Line customers can generate presentation-quality printouts of Gantt charts and PERT charts for project proposals, status reports and actual vs. planned analysis. Design of the graphs can be customized, allowing the user to select border styles, custom titles and color schemes. Page preview allows users to view their graph on-screen prior to printing.

Interactive autoscaling is an advanced facility which enables users to specify graph size or automatically force the graph to fit on one page.

High-quality project presentations can be printed on dot matrix, laser and PostScript printers, as well as A-E size plotters. Users also can produce 35mm slides, color overheads or transparencies from graphic files.

New ease-of-use features include mouse support and a spreadsheet edit feature that enables users to short-cut menus and edit directly on screen. Resource leveling is now up to 50 times faster than in Time Line Version 3.0.

QuickPlan and QuickGraph facilities enable novice users to easily create a project schedule and produce graphical presentations in minutes. Time Line Version 4.0 also includes libraries of ready-to-use preformatted layouts, filters and colors palettes.

"Since its introduction, Time Line has been a leader in providing ease-of-use in project management," said Rod Turner, executive vice president. "In addition to the Project Presentation capabilities, we have significantly improved the performance of Time Line and enhanced its

ease-of-use."

A complete macro language, which provides users with the capabilities of an advanced programming language, has been added to Time Line Version 4.0 With macros, users can automate their standard routines to execute a variety of functions, such as generating weekly reports or graphs, and performing a mass edit.

Time Line Version 4.0 supports file-locking on local area networks which protects data integrity while allowing data to be shared. In addition, a cross project dependency feature allows managers in a work group environment to link to a specific task in another schedule.

#90057b0057 02/26/1990 ~Business Wire

MONTREAL (FEB. 26) BUSINESS WIRE - Audrey Resources Inc. (AUY:ME,TSE) announces the beginning of a new surface drilling campaign on the Mobrun Property.

This campaign, of which the first phase represents 10,000 feet of drilling will test a strong geophysical anomaly of the type that lead to the discovery of the 1100 lens, which presents actual geological reserves of 15 million metric tons of massive sulfide.

This geophysical anomaly located 2,400 feet at depth was picked up in deep holes located east of the 1100 lens by means of down-hole Pulse E.M. surveys. Drilling started Feb. 20, 1990 and first results are expected in the third week of March.

In other respects, 30 percent of the present underground diamond drilling definition campaign on the 1100 lens form the last level of the Mobrun Mine is actually completed.

Designed to define the 1100 lens on a 50-meter grid, the actual results confirm the grade and widths previously obtained from surface drilling on a larger scale. However drilling results were much more favourable than expected on the western-upper part of the lens where widths of only 35 feet had been used in estimating previous reserves.

The last two holes completed in that area, 90-11-14 and 90-11-15, encountered ore intersections in the order of 150 feet.

The Mobrun Mine is wholly owned by Audrey Resources Inc. The 1100 lens and the adjacent ground are part of a joint venture between Audrey and

Minnova.

Minnova can increase its participating interest from 30 percent to 50 percent in the joint venture area by, amongst other things, funding the first $10 million of expenses to bring the 1100 lens into production. The partners are aiming at a 3,000-ton per day production in 1992, that is 1 million tons per year.

#90057b0062 02/26/1990 ~Business Wire

LAS VEGAS, NV (FEB. 26) BUSINESS WIRE - Sierra Health Services Inc. (AMEX:SIE) Monday reported results for the fourth quarter and 12 months ended Dec. 31, 1989.

Quarter Ended Dec. 31

Revenues for the quarter were $35.8 million compared with $36.6 million for the last three months of 1988. Fourth quarter earnings for 1989 were $0.9 million or 15 cents per share compared to a net loss of $7.5 million, or $(1.30) per share, for the fourth quarter of 1988.

Year Ended Dec. 31

For the 12 months ended Dec. 31, 1989 revenues totaled $136.7 million. Net income for the year was $3.2 million, or 56 cents per share. This compares to revenues of $143 million and a net loss of $7 million, or $(1.23) per share, for 1988.

Effective Dec. 31, 1988, the company discontinued HMO operations in northern Nevada. Pro-forma comparisons from continuing operations represent an increase of revenues for the fourth quarter of $4.6 million or 15 percent and $27 million or 25 percent year-to-date for the same periods one year ago.

The 1989 earnings reflected no significant provisions for income taxes due to the utilization of certain net operating loss carryforwards available to the company. The year-to-date earnings above have been adjusted to reflect a $300,000 reduction of federal income taxes as a result of a restatement of deferred income taxes which were reported in the first quarter of 1989.

In other news, the company announced that it has reached an agreement in principle to extend its hospital contract with Humana Hospital Sunrise in Las Vegas through 1997. The current contract expires in 1992. The

contract extension must be approved by the boards of directors of both organizations before the agreement can be finalized.

#90057b0065 02/26/1990 ~Business Wire

SAN RAFAEL, CA (FEB. 26) BUSINESS WIRE - International Microcomputer Software Inc. (NASDAQ:IMSFC) Monday announced an agreement has been entered into with Software Publishing Corp. (NASDAQ:SPCO) for IMSI to license SPC's best-selling desktop publishing software program, First Publisher.

IMSI will offer First Publisher as an add-on product to the IMSI Mouse and other IMSI products and has already shipped several hundred units this month.

Geoff Koblick, chairman of IMSI, said: ''First Publisher has the largest installed base (over 600,000 users) of any desktop publishing product in the world. The program allows the user to create typeset quality newsletters, proposals, reports and documents, and has a retail price of $195.

''Software Publishing Corp. is one of the largest companies in the world in terms of its software sales for IBM personal computers. Other best-selling products from SPC include First Choice, Harvard Graphics and

PFS File.

''IMSI's licensing of First Publisher will have a dramatic impact on our sales over the next several months as it is one of the best-known products on the market today. By bundling First Publisher with the IMSI Mouse, we will increase our profit margins on each unit sold, as well as increase the overall market demand for the IMSI Mouse.''

IMSI's agreement with Software Publishing Corp. follows closely on the heels of the company's recent agreement with LucasFilm Games, wherein IMSI is also bundling LucasFilm's best-selling game, Pipe Dream, with the IMSI Mouse. IMSI is also presently negotiating yet another agreement with one of the five largest personal computer software companies in the world.

International Microcomputer Software Inc. publishes and distributes a wide variety of computer CAD and graphics software products and complementary hardware products for IBM microcomputers.

SPANISH FORK, UT (FEB. 26) BUSINESS WIRE - The board of directors of Nature's Sunshine Products Inc. (NASDAQ:NATR) Monday declared a 6 cents per common share quarterly cash dividend payable Mar. 12 to shareowners of record Mar. 2.

''This reflects management's commitment to our shareowners and our confidence in the company's continuing success,'' said Alan D. Kennedy, president of Nature's Sunshine. ''We are especially pleased with the growth in sales that we experienced in the last half of the year and expect this momentum to continue into the 90s,'' he added.

The company has now paid six consecutive quarterly cash dividends following four quarters of 10 percent stock dividends. The company continues to have virtually no long-term debt and expects to continue the quarterly cash dividends until such time that demands are made on working capital for expansion. The company currently has approximately 5,061,000 shares outstanding with 20 million shares authorized.

Nature's Sunshine Products Inc. is the nation's largest manufacturer of encapsulated, herbal products. In addition the company produces a high-quality, natural vitamin line and is involved in the rapidly growing water-purification market with its proprietary water treatment products and components.

#90057b0084 02/26/1990 ~Business Wire

FAIRLAWN, OH (FEB. 26) BUSINESS WIRE - GenCorp announced Monday that its aerospace/defense segment, Aerojet, reached final agreement with the U.S. government settling its claims under government contracts for reimbursement of a portion of costs incurred by Aerojet prior to July 1989 in connection with groundwater conditions at Aerojet's Sacramento facility.

The agreement concludes Aerojet's claims for environmental response and other costs incurred during the 10-year period preceding the entry of a partial consent decree between Aerojet and federal and state authorities in June 1989. Under the settlement, the United States will pay Aerojet $32 million and will relieve Aerojet of repayment obligations of $4.8 million. The settlement includes Aerojet's claims related to the development and operation of groundwater control and treatment systems prior to the consent decree.

Aerojet will implement the consent decree during most of this decade. On Feb. 3, 1990, Aerojet appealed to the Armed Services Board of Contract Appeals an initial claim for recovery of costs now being incurred to implement the consent decree. Representatives of the U.S. government and Aerojet have agreed to begin negotiations related to such costs. The agreement announced today is not a precedent for those negotiations.

The settlement agreement requires Aerojet to give the United States credit equal to 50 percent of any insurance recovery Aerojet may receive from its insurance carriers for costs incurred through June 1989 related to groundwater conditions at the Sacramento site, except amounts paid conditionally or under a reservation of the insurers' rights or claims.

Aerojet has operated a facility east of Sacramento since the early 1950's. Work at the facility has included research, development, production and testing of rocket engines and space exploration systems for the Air Force, Navy, Army and NASA on programs including Titan, Delta, Gemini, Apollo, Polaris, Hawk, Space Shuttle and Minuteman.

Aerojet is a segment of GenCorp, a technology-based company with strong positions in aerospace, automotive and related polymer products.

#90057b0097 02/26/1990 ~Business Wire

MOUNTAIN VIEW, CA (FEB. 25) BUSINESS WIRE - Adobe Systems Inc. (NASDAQ:ADBE) Monday announced that Hewlett-Packard Co. will offer Adobe's PostScript page description language in a cartridge for its just-announced HP LaserJet III printer as well as the HP LaserJet IID and IIP printers.

The cartridge containing a PostScript interpreter from Adobe will cost $695 and be available April 1, 1990, worldwide from HP authorized dealers and HP's direct sales force.

PostScript is a computer language that describes the layout of a page to an output device, in this case, to HP LaserJet printers. The industry-standard PostScript language dramatically improves the effectiveness and the appearance of printed documents.

The new PostScript cartridge, which replaces the original PostScript printer cartridge for the HP LaserJet IID printer includes software for 35 scalable Adobe typefaces. Users also can download to their printers font software from the Adobe Type Library, which contains more than 600 fonts.

With the introduction of the PostScript cartridge on HP LaserJet III, IID and IIP printers, buyers have a variety of choices that are especially well suited to mixed environments. Because the PostScript interpreter is device-independent, it allows users operating different hosts to share the printer easily.

This current family of LaserJet printers with the PostScript cartridge can thus be used on PC, Macintosh and UNIX-based workstation networks.

According to industry analyst Seymour Merrin, president, Merrin Information Services Inc., the prices of PostScript printers have been dropping steadily, making them more and more competitive in price with non-PostScript printers. He cites the HP LaserJet HP printer with the PostScript cartridge as another case in point.

Adobe Systems Inc. is the developer of the industry-standard PostScript page description language. To date, over 30 major computer printer and typesetter manufacturers have announced PostScript Interpreter or Display PostScript system licensing agreements with Adobe Systems.

For more information about Adobe Systems and PostScript software technology, please contact Pat Marriott, Adobe Systems Inc., P.O. Box 7900 Mountain View, CA 94039; telephone: 415/961-4400

DARIEN, CT (FEB. 26) BUSINESS WIRE - Executone Information Systems Inc. (NASDAQ: XTON) and MCI Communications Corp., announced the signing of a three-year agreement in which Executone will operate as a sales agent for MCI long-distance services.

Under the terms of the agreement, Executone will market MCI's Commercial Dial-1 Card, Prism Plus and 800 Common Business Line Services to its existing customer base and to new customers. Executone, through its company-owned direct sales and service offices and independent distributors, has a base in excess of 250,000 customers.

"We see this agreement as a win-win for both Executone and its customers," said Alan Kessman, president and chief executive officer of Executone. "We have the size and financial resources to offer savings to our customers through the agency agreement. Executone does not expect a significant increase in revenues or profits from this arrangement in 1990. However, this agreement with MCI has the potential to contribute to both revenues and profits in future years."

John J. Nunziata, vice president of MCI's Northeast Division, said, "The Executone/MCI agreement is a natural. Together, our two companies provide Executone customers with a united front of unmatched telephone equipment and long-distance services. Executone customers will realize the best of both worlds through this offering."

Marketing plans will focus on direct marketing of MCI's long-distance services to Executone's existing customer base through its company-owned direct sales and service offices and by establishing Executone'S independent distributors as sales agents for the services.

The national program will include an innovative program of computer-aided database marketing, direct mail and outbound calling to new and existing customers.

Executone Information Systems Inc. designs, manufactures, sells, installs and services voice and data communications equipment for businesses with under 300 desktops and is the leading supplier of specialized hospital communications equipment. Executone also provides products and services to the public communications marketplace.

Products are sold under the Executone, ISOETEC, and INFOSTAR brand names through a nationwide network of direct sales and service offices and independent distributors.

#90057b0105 02/26/1990 ~Business Wire

CULVER CITY, CA (FEB. 26) BUSINESS WIRE - MGM/UA Communications Co. Monday announced the formation of the MGM/UA Entertainment Business Group, which will assist in the evaluation, negotiation and execution of transactions for all MGM/UA operating groups.

In making the announcement, Kenin M. Spivak, MGM/UA executive vice president, remarked: ''The Entertainment Business Group will be instrumental in readying MGM/UA for the future and maximizing the company's potential. The group will have the comprehensive financial, business and legal talent required to analyze, structure and negotiate complex transactions in all markets and media.''

Dean Stolber, now executive vice president in the Film Group and a 20-year veteran of the company, has been named to head the unit. The group will also include Charles Cohen, vice president; Laurence Roth, vice president, Film Acquisitions; and Donald I. Mirisch, vice president, Business and Legal Affairs, who has joined the group and the company from Hanna-Barbera Productions Inc.

The MGM/UA Entertainment Business Group will be involved in analyzing, structuring and negotiating the acquisition of films in association with the MGM/UA Film Group and MGM/UA Telecommunications on an all rights and/or split rights basis. The group will also assist in negotiating major distribution-acquisition arrangements, major international transactions, joint ventures, co-productions and significant license arrangements for home video and television.

The group and MGM/UA Home Video will immediately commence negotiations with licensees to extend and upgrade these licenses.

On a project-by-project basis, the group will participate in corporate acquisitions and the analysis and negotiation of partnerships, such as MGM/UA's arrangements with Star Partners and CST. The group will also help to coordinate exploitation of MGM/UA's major properties, including James Bond, Rocky and the Pink Panther.

Dean Stolber, executive vice president, MGM/UA Business Entertainment Group, has spent virtually his entire 20-year career serving under the United Artists and MGM/UA banners, and has been closely associated with many of UA's most successful pictures, such as the Rocky, James Bond and Pink Panther films.

#90057b0108 02/26/1990 ~Business Wire

TUCSON, AZ (FEB. 26) BUSINESS WIRE - American Southwest Mortgage Investments Corp. (AMEX:ASR) announced net earnings for the fourth quarter ended Dec. 31, 1989, of $1,756,000, or 12 cents per share.

These results represent an improvement over earnings of $1,318,000, or 9 cents per share, for the previous quarter but were below the $5,041,000, or 35 cents per share, for the quarter ended Dec. 31, 1988.

Net earnings for the year ended Dec. 31, 1989 were $5,707,000, or 40 cents per share, based on 14,326,000 shares outstanding, compared with $20,129,000, or $1.60 per share, based on 12,558,000 average shares outstanding for 1988.

Jon A. Grove, chairman and chief executive officer, stated: ''As expected, the decline in net earnings from 1988 resulted from significantly higher short-term interest rates which were not matched by increases in long term interest rates and the cost of hedging protection against further increases in short-term interest rates.''

The one-month LIBOR averaged approximately 9.33 percent during 1989 compared with 7.80 percent during 1988. Despite a slight decrease in the average mortgage interest rate, the company experienced a reduction in mortgage prepayment rates. However, this positive factor could not offset the unfavorable impact of the increase in short-term rates.

Grove added, ''We are pleased with the decline in short-term rates from their peak levels in last March. As a result, we experienced improved earnings in the third and fourth quarters and were able to increase our monthly dividend to 4 cents in September and again to 5 cents in January and February 1990.''

VANCOUVER, B.C. (FEB. 26) BUSINESS WIRE - Cominco Resources issued the following report Monday:

In the fourth quarter the company's 76 percent share of revenue from the Buckhorn mine was $2,523,000 from sales of 5,400 ounces of gold. Revenue from the 50 percent share of the Glenbrook nickel smelter was $887,000

from sales of 167,000 pounds of contained nickel. The operating loss for the quarter was $348,000. After deduction of exploration and other costs the net loss was $5,028,000, or $0.13 per share.

For the year revenue from Buckhorn was $10,747,000 from sales of 22,900 ounces of gold. Revenue from Glenbrook was $1,272,000 from sales of 228,000 pounds of contained nickel. After deduction of exploration and other costs the net loss for the year was $13,145,000, or $0.35 per share.

Exploration and development costs for the year including amounts capitalized, totalled $20.9 million, of which $6.8 million was spent in the United States, $3.3 million in Europe and Turkey and $10.8 million in Latin America, including $3.1 million for the Marte gold mine and $3.6 million for the acquisition of Quebrada Blanca. Capital expenditures for the rehabilitation and start-up of the Glenbrook smelter were $11.4 million and working capital requirements at Glenbrook were $4.7 million.

At December 31 $1.4 million was due from joint venture partners in respect of 1989 expenditures and $0.5 million was held by the Quebrada Blanca operating company to fund part of the company's share of the feasibility study. The company will receive $3.5 million during the first quarter in respect of the sale of a property which was arranged in 1989. These items total $5.4 million in addition to cash on hand at year-end of $10.7 million.

SAN FRANCISCO (FEB. 26) BUSINESS WIRE - Stanley E. Bailey, president and chief executive officer of Home Federal Savings and Loan Association of San Francisco (NASDAQ:HFSF) announced Monday that Home Federal's board of directors has unanimously approved a plan providing for the formation of a holding company with Home Federal as the principal subsidiary.

Under the plan, the existing stockholders of Home Federal will exchange their shares of Home Federal's common stock for an equal number of shares of the new holding company which will thereafter own all of the outstanding shares of Home Federal. Implementation of this plan is subject to the approval of the Office of Thrift Supervision and the stockholders of Home Federal.

Bailey stated that the holding company structure has been adopted by many financial institutions because it provides more flexibility in terms of future diversification of business activities. No specific acquisitions or mergers are currently pending, nor has the proposed holding company

formulated any specific plans to engage in other lines of business after it commences operations.

Home Federal is a federal stock savings and loan association headquartered in San Francisco and operates throughout Northern California in 15 branch offices and one loan agency office. At Dec. 31, 1989, Home Federal had assets of $570.9 million, deposits of $488.4 million and stockholders' equity of $34.7 million.

PORTLAND, OR (FEB. 26) BUSINESS WIRE - The Bank of California will offer trust and investment management services to clients of Valley Community Bank and the surrounding area.

This is the result of a recent agreement between the two financial institutions.

''Our association with Valley Community Bank enables us to introduce our trust and investment management services to a new community,'' said Jess Rogerson, senior vice president of The Bank of California's Oregon Trust Division.

''This is a great opportunity to present our individualized personal and business trust services. Additionally, we're proud of our investment management record.''

Valley Community Bank, established in 1982, is located in McMinnville, Ore. It is Yamhill County's only community-owned bank.

President Bruce Bryant explained the new association: ''Members of the Bank of California's Portland office will make regularly scheduled visits to our bank to meet with clients and other interested individuals. We are confident that their expertise and knowledge of the community will be beneficial.''

The Bank of California's Trust and Investment Management Group, responsible for $22 billion in assets, serves the needs of individuals and businesses.

The bank, sixth largest in California, was the first incorporated banking institution in the West. The 125-year-old organization has $7.9 billion in assets and offices in three states -- California, Oregon and Washington.

#90057b0143 02/26/1990 ~Business Wire

TUCSON, AZ (FEB. 26) BUSINESS WIRE - Engineers have created a one-of-a-kind satellite-linked transportation system to move radioactive waste to the U.S. Department of Energy Waste Isolation Pilot Plant (WIPP) near Carlsbad, N.M.

The new system is the topic of a paper presented Monday by Westinghouse Manager Phil Gregory at a meeting of nuclear waste experts at Waste Management '90 being held in Tucson this week.

WIPP is a DOE research and development facility managed by Westinghouse Electric Corp. It is designed to demonstrate the safe handling and disposal of transuranic waste from the nation's defense program 2,155 feet below ground in dry, stable salt beds. The geologic formation has remained stable and free of ground water for 225 million years.

Transuranic waste consists of everyday items used by national defense workers -- rags, rubber gloves and other protective clothing, plastic bags and discarded glass and metal items which have been contaminated with radioactive elements heavier than uranium.

During the projected 25-year lifetime of WIPP, trucks will carry waste from 10 DOE weapons sites through 23 states. The routes cover more than 12,000 miles. To reduce the number of shipments and safeguard public health and safety, the system includes a 24-hour satellite-based tracking and two-way communications called TRANSCOM.

The tractor trailers will be dedicated solely for WIPP shipments and were designed to adhere to strict inspection and maintenance requirements of the U.S. Nuclear Regulatory Commission, Gregory stated in his document.

To maximize safety, WIPP shipments will be subjected to rigid inspection every two hours or 100 miles. By contract, each carrier can have no more than 2 percent downtime and is required to have a tractor replacement available within eight hours. The WIPP engineers were exceptionally sensitive and responsive to public concerns in their design of the transportation system, according to the author.

In concert with the carrier and TRANSCOM system designs, WIPP engineers helped develop and propose a new American National Standards Institute standard for the design, fabrication and maintenance of semitrailers used to transport heavy loads of radioactive wastes over highways, Gregory stated. The standard is under review and awaiting approval by the

institute.

SACRAMENTO, CA (FEB. 26) BUSINESS WIRE - The Board of Administration of California's Public Employees' Retirement System (CalPERS) has announced its intention to actively pursue, through all legal means, recovery of the $25 million loan to The Drexel, Burnham, Lambert Group Inc.

The 10-year loan, originally made in 1986, is at risk with the announcement by Drexel that the company has filed a petition of bankruptcy. PERS is listed as the company's sixth largest creditor.

To help ensure proper representation of its claim, PERS will seek to participate on the creditors' committee set to meet in New York City on Feb. 28.

According to Bill Ellis, president of the PERS board, ''Although PERS members will not feel the effect of this transaction regardless of the outcome, the board intends to pursue all avenues to ensure recovery and minimize any loss to the fund.''

More than 866,000 members participate in PERS. As a ''defined-benefit'' plan, the level of benefits is guaranteed by law, regardless of investment performance.

PERS is the largest public pension fund in the nation, with approximately $55 billion in assets. The retirement fund has grown at an average rate of 15 percent each year, with an annual investment return of 18 percent over the past five years.

PORTLAND, OR (FEB. 26) BUSINESS WIRE - Joseph J. Barclay, president and chief executive officer of Cascade Corp. (NASDAQ:CASC), announced that directors of Cascade Corp. have declared a special year-end cash dividend of 15 cents per share in addition to the regular quarterly cash dividend of 15 cents per share on the company's outstanding common stock, payable

March 14 to shareholders of record Feb. 23.

This will bring total dividends for the fiscal year ended Jan. 31, 1990, to 75 cents per share, compared to 70 cents per share, for the previous fiscal year.

Barclay stated that demand for Cascade products remained very strong in all of our worldwide markets throughout 1989. He noted that: ''Without the start-up and other related expenses associated with the 'Worldmast' program, our earnings would have exceeded last year's record results. However, earnings comparisons for the fourth quarter and full-year fiscal 1989 will be lower when compared to the same periods of 1988.'' Final financial results for the quarter and year will be announced in April 1990.

In commenting on the adverse effects of problems encountered in bringing Cascade's highly-automated Westminster, S.C., plant up to planned capacity levels, Barclay said: ''Although we continue to have confidence in the sophisticated robotics and other leading-edge manufacturing technologies in our Westminster plant, we were overly optimistic regarding our ability to bring the new plant and new 'Worldmast' product line on stream quickly and efficiently.''

Headquartered in Portland, Cascade Corp. is a leading international manufacturer of materials handling attachments for lift trucks and hydraulic cylinders.

HOUSTON (FEB. 26) BUSINESS WIRE - NL Industries Inc. Monday announced that its wholly owned subsidiary, GG Acquisition Corp., has waived a condition to its tender offer for all outstanding shares of Georgia Gulf Corp. at $45 per share in cash.

The condition relates to the applicability of Section 203 of the Delaware General Corporaton Law to the offer and NL's proposed second step merger in which GG would merge into Georgia Gulf and all Georgia Gulf stockholders would receive the same consideration for their shares as offered in the tender offer.

NL said that all other terms and conditions of the offer remained unchanged and unaffected by the waiver.

NL said that it learned from a filing by Georgia Gulf with the Securities and Exchange Commission that Georgia Gulf's board of directors had opted not to be governed by Section 203 in 1988. Georgia Gulf had not previously disclosed the board action. NL stated that it is continuing to seek financing to complete the offer and the subsequent merger.

NL Industries is a worldwide supplier of titanium dioxide pigments and specialty chemicals.

CHELMSFORD, MA (FEB. 26) BUSINESS WIRE - Imagraph Corp., a leading designer and manufacturer of very high resolution imaging and graphics board products, Monday introduced the first workstation-level AT-bus and VME-bus display boards designed for high performance in both graphics and imaging applications at price/performance levels unmatched in the industry.

The high performance ITX-1210 includes imaging features such as a 40 Mflop floating point processor option, image transfer rates exceeding 12 Mbytes per second and hardware zoom, pan and scroll to maximize image processing capability.

In graphics applications, the ten Mips ITX-1210 features vector draw rates exceeding 110,000 vectors per second, screen clears faster than 100 Mbyte/second and up to 16 Mbytes of off-screen memory to maximize display list redraw performance or windowing operation performance.

The ITX-1210, with landscape or portrait display resolutions of 1280 by 1024, down to 1024 by 768, and in four-bit and eight-bit per pixel versions with optional two-bit or four-bit overlay, is aimed at OEM integrators in high performance graphics or imaging applications.

Using Imagraph's TIGA environment, third party software support is available today for applications that other vendors with custom ASIC solutions can only put on a schedule "for future delivery."

"Imagraph is proud to offer the OEM Integrator a level of performance and pricing unmatched in the industry," said Bob Wang, chairman of Imagraph. "This product provides the OEM with industry standards in a highly flexible and adaptable design."

A special memory architecture provides a transparent fast block clear (exceeding 100M bytes/sec) that removes screen clear as a major bottleneck to improved graphics performance, particularly in display list redraw and in windowing environments.

A single slot configuration can contain up to 16 Mbytes of industry-standard SIMM modules configured as extra memory for display list storage, temporary window storage, downloaded fonts, animation loops or compressed image storage. Also available as options are a two or four bit per pixel overlay, external memory interface, and a serial port.

In addition to the TMS34020 from Texas Instruments, the ITX-1210's daughter board architecture permits the addition of TI's Floating Point Processor option, allowing very fast 3D graphics or image processing operations, such as 3x3 convolutions and matrix operations.

SCOTTS VALLEY, CA (FEB. 26) BUSINESS WIRE - Borland International Inc. (NASDAQ:BORL) announced it has established three business units to more closely align its product management and marketing functions with the needs of its rapidly growing customer base.

Each business unit will be headed by a general manager reporting directly to Philippe Kahn, chairman, president and chief executive officer.

The three business units are structured around Borland's key product groups: Database, which will be headed by Rob Dickerson, 33; Spreadsheet, under the direction of Stephen Kahn, 41; and Languages, to be managed by Eugene Wang, 32.

In naming the three Borland executives to general manager posts, Kahn said it is his plan to recognize and capitalize on the knowledge and expertise of Borland's managers. ''We have a great deal of talent in-house and it is in the company's best interest to use it to the fullest,'' he said.

The Database Business Unit will be responsible for Borland's award-winning family of Paradox relational database management products. The unit will place particular emphasis on software solutions that provide connectivity across different hardware and operating system platforms.

Prior to being named to head the new unit, Dickerson was Borland's vice president of product management, a position he held since 1987. Previously, he was group product marketing manager at Microsoft Corp., Bellevue, Wash.

The Spreadsheet Business Unit will oversee the continued market development of Quattro Pro which, since its introduction in October 1989, has won virtually every award for technical excellence given to software products by computer industry trade publications.

General Manager Stephen Kahn (no relation to Philippe Kahn) was previously Borland's vice president of marketing. Prior to joining Borland approximately two years ago, Kahn was director of international marketing at Lotus Development Corp., Cambridge, Mass.

The Languages Business Unit will coordinate all activities for Borland's line of Turbo programming languages and software development tools, including Turbo C, Turbo Pascal and Turbo Debugger & Tools.

Eugene Wang, formerly co-founder and vice president of marketing at Gold Hill Computers (Cambridge, Mass.) was most recently Borland's director of product management for languages.

These organizational changes at Borland are being made at a time of continued product acceptance and company recognition. In a recent review of microcomputer software products in Infoworld magazine, Borland's database, spreadsheet and language products were each rated as the best in their respective categories.

For its most recently reported fiscal quarter, ending Dec. 31, 1989, Borland reported record revenues and earnings of $30.2 million and $3.2 million, respectively.

Borland International Inc. (Scotts Valley, Calif.) is a leading developer of high-performance software products. Borland offers in its Professional Business Series some of the world's most widely used business applications such as Paradox, Quattro Pro, and SideKick for Presentation Manager--the

first application for IBM's OS/2 Presentation Manager.

Borland's Professional Language Series includes critically acclaimed developer's tools such as object-oriented Turbo Pascal, Turbo C and Turbo Debugger & Tools.

SOLANA BEACH, CA (FEB. 26) BUSINESS WIRE - Mark A. Seaver has been appointed the new vice president of operations for Kaypro Corp. (NASDAQ:KPRO), announced Roy Salisbury, president and chief executive officer of the Solana Beach-based computer manufacturing company.

Seaver will continue as director of operations for FCSGroup, a business consulting and management service firm with offices in New Hampshire, Massachusetts, Tennessee, Michigan and New York. Salisbury and Seaver co-founded the FCSGroup in 1986.

Seaver's responsibilities will include overseeing all day-to-day operations of the manufacturing company. Salisbury noted that Seaver specializes in controlling and managing systems from tracking parts purchases through to final shipping.

Seaver has a strong background in specialized computer database systems, as well as the analysis and development of specific applications and computer systems. A native of Michigan, Seaver also served as president of the high-technology division for the FCSGroup. The FCSGroup is based in Haydenville, Mass.

Kaypro Corp. designs, manufactures and distributes a full line of microcomputers for businesses and individuals.

CAMARILLO, CA (FEB. 26) BUSINESS WIRE - Alpharel Inc. (NASDAQ/NMS:AREL) Monday announced results of operations for the three months and year ended Dec. 31, 1989.

The company reported fourth-quarter revenue of $1,008,000 and a net loss of $5,185,000, or 56 cents per share. For the year 1989, the company reported revenue of $4,378,000 and a net loss of $12,256,000, or $1.33 per share.

For the three months and year ended Dec. 31, 1988, the company had revenue of $2.35 million and $5,429,000 and a net loss of $2,083,000, or 23 cents per share, and $10,622,000, or $1.16 per share, respectively.

Revenue for the fourth quarter decreased $1,342,000 from the prior year. Fourth-quarter 1989 results included previously announced restructuring provisions of $3.5 million to provide for excess inventory and disputed receivables, write-down of certain other assets and accrual of severance costs relating to a reduction in the work force.

The company and its investment banker, Houlihan, Lokey, Howard & Zukin Capital, are continuing their efforts to pursue strategic and financial alternatives to enhance shareholder value, including finding a buyer or corporate partner for the company.

The company also announced that it had recently agreed to a change in the scope of services to be performed for Apple Computer Inc. Under the new arrangement, the company over the next year is no longer responsible for integrating the Macintosh as the primary workstation for Apple's Alpharel imaging system, but will continue to provide certain technical support and enhancements.

Alpharel Inc. is a leading supplier of software-based system solutions for

document management applications at both the departmental and enterprise corporate levels. The company, which was founded in 1981, has its headquarters in Camarillo.

LOS ANGELES (FEB. 26) BUSINESS WIRE - Larry L. Dechant has been named senior vice president-eastern region of Hilton Inns Inc., according to Donald L. Harrill, executive vice president of franchising and development for Hilton Inns.

Dechant was previously vice president of development and operations for the eastern region of Hilton Inns.

A 25-year veteran of Hilton, Dechant completed the Hilton Professional Development Program (HPDP) in 1965. He then held front office management positions at the Pittsburgh Hilton, the former Boston Statler Hilton and the Conrad Hilton in Chicago, and became executive assistant manager of the Rye Town Hilton in Rye Brook, N.Y., in 1973.

Dechant joined Hilton Inns in 1976 as divisional manager of operations. In 1980, he was promoted to the newly created position of corporate director of training for Hilton Inns.

Dechant graduated from Oklahoma State University with a degree in hotel and restaurant administration. He is an active member of the AH&MA Educational Institute and currently resides in Stamford, Conn.

Hilton Hotels Corp. is a publicly owned international lodging company with 270 properties in the United States. In all, more than 93,000 rooms are operated under the Hilton name. The company's growing overseas subsidiary Conrad Hotels, operates hotels in Queensland, Australia; on the island of St. Martin in the Caribbean; London; Dublin; and Monte Carlo. Addtional properties will open in Hong Kong, Cancun, Brussels and Istanbul by the end of 1992.

VANCOUVER, British Columbia (FEB. 26) BUSINESS WIRE - Med-Tech Systems Inc. (VcSE:MDT) reported that Joseph Kovacs, president, has negotiated on behalf of Med-Tech System Inc. a memorandum of understanding that was signed in Budapest, Hungary, on Feb. 15 with Interfinance Ltd. (IFL) of

Budapest.

The main points are:

-- Med-Tech Systems has agreed to form a joint venture company with Interfinance for financing the HEVIZOS project in its registration process in North America.

-- Interfinance has agreed to provide $3.5 million U.S. investment to the joint venture company for the registration process in North America.

-- Interfinance has agreed to form a joint venture company for 50 percent interest in the project, with the head office in Budapest.

Med-Tech Systems Inc. and Interfinance Ltd. will prepare the final and detailed agreement for the new joint venture company before Mar. 31.

SAN FRANCISCO (FEB. 26) BUSINESS WIRE - Wells Fargo & Co. (NYSE:WFC) Monday received approval from the Office of the Comtroller of the Currency (OCC) and the Board of Governors of the Federal Reserve System for its acquisition of two California banks.

The two regulators approved Wells Fargo's acquisitions of both Central Pacific Corp. (ASE:CTA) and its subsidiary, American National Bank, and the Torrey Pines Group (OTC) and its subsidiary, Torrey Pines Bank. The acquisitions are expected to be completed in late March or early April, subject to certain closing conditions.

American National specializes in consumer and business banking through 28 offices in an eight-county territory that ranges from the city of Riverbank in the north to San Bernardino in the south.

Torrey Pines Bank is a consumer bank that focuses on loans and financial services to individuals and mid-sized businesses. It operates six full-service branches in San Diego county and one in Riverside county.

Wells Fargo & Co., which had $48.7 billion in assets at Dec. 31, is the parent of Wells Fargo Bank, the third largest bank in the state. Wells Fargo Bank operates 463 branches in California.

#90057b0274 02/26/1990 ~Business Wire

SAN RAFAEL, CA (FEB. 27) BUSINESS WIRE - WordStar International Inc. Monday announced the release of three new products and the repositioning of its overall product line to give customers more choices for using its popular WordStar word processing software.

The new releases are WordStar 6.0, WordStar 2000 Release 3.5 and Easy Extra 1.5. The product line has been expanded to appeal to all word processing customers, from entry level through advanced users.

WordStar 6.0 is the newest and most advanced member of the company's product line. It was developed to support the new state-of-the-art scalable font printers including the new Hewlett-Packard LaserJet III, Canon scalable font printer, and PostScript printers, such as Apple LaserWriter and NEC LC890.

WordStar 6.0 also offers the features which have made WordStar one of the best-selling word processing programs, including Advanced Page Preview, cited as the best page preview in the industry; paragraph styles; pull-down menus; file conversion; and integrated text and graphics.

According to Jim Cook, vice president of Product Development at WordStar International, this new release confirms WordStar's position as a technology leader.

''With the technology in WordStar 6.0, users have more control to create professional-looking documents,'' he said. ''Release 6.0 also maximizes the productivity of users who type by touch because it uses WordStar's home-row keystroke commands.''

In addition to the scalable font support, which allows the user to scale fonts from .25- to 999.75-point automatically, WordStar 6.0 also includes support kerning, special printing effects, multiple symbol sets and improved file conversion.

''We have been working in close alliance with WordStar International from the beginning. The breakthrough performance of our new HP LaserJet III printer, combined with the full features of WordStar 6.0, provide users with a complete office solution,'' said Richard E. Belluzzo, general manager of HP's Boise Printer division.

WordStar 6.0 will be released March 1, 1990, at a suggested retail price of $495. Its release coincides with the introduction of the Hewlett-Packard LaserJet III.

WordStar 2000 Release 3.5 is the newest version of the highly acclaimed WordStar 2000 product. WordStar 2000 was named one of the top-rated DOS word processors by InfoWorld magazine (January 1990). Release 3.5 offers Advanced Page Preview, previously available only in WordStar. Enhanced printer support a faster file conversion process, and smoother graphics capability have also been added to this release.

''We're very excited about WordStar 2000 and we know that the many fans of the program will be delighted with this release,'' said Cook. Wordstar 2000 Release 3.5 will begin shipping Feb. 26, 1990, at a suggested retail price of $495.

The third product release is Easy Extra 1.5, which includes EasyMail, a mailing list manager. According to Stephanie Littell, vice president of marketing for WordStar International, Easy Extra is being targeted toward the entry-level word processing user.

''Easy Extra is the ideal starting point for a new computer user,'' she said. ''It's easy to install and easy to use, affordable and upwardly compatible with other WordStar products.'' Easy Extra 1.5 began shipping Feb. 21, 1990, at a suggested retail price of $129.

WordStar 5.5 will continue to sell at a new suggested retail price of $395.

A new technical support policy goes into effect on the release of the new products. Users of WordStar 6.0 and WordStar 2000 3.5 will receive free support at an 812 number, five days a week, for the life of the product plus 60 days, from WordStar International's new technical support facility in Bloomington, Ind.

The toll-free support for users of WordStar 5.5 and WordStar 2000 3.0 will end on June 1. Free support will continue at an 812 number for WordStar 5.5 until further notice. Free support for WordStar 2000 3.0 will continue at an 812 number until Sept. 1, 1990.

WordStar International Inc. is a leading developer of business productivity products. WordStar word processing products are among the largest selling microcomputer software programs in the world with 14 different language versions and an installed user base of more than 3.5 million.

SAUSALITO, CA (FEB. 27) BUSINESS WIRE - Autodesk (NASDAQ/NMS:ACAD)

announced Monday that Carolyn Aver has been appointed to the position of chief financial officer.

Aver takes over these duties from Donald W. Lohin, who leaves the company after 5 months as CFO to rejoin his family in Massachusetts.

''Carolyn has played a vital role in the success of this company,'' stated Alvar Green, president and chief executive officer for Autodesk. ''We feel that Carolyn's extensive experience and professionalism make her the ideal choice to head up Autodesk's financial operations.''

Aver joined the company as controller in 1984. Prior to joining Autodesk Aver worked as a certified public accountant for the accounting firm Arthur Young & Co. (now Ernst & Young).

Autodesk develops, markets and supports a family of computer-aided design, engineering and animation software products for desktop computers and workstations.

For more information call 415/331-0356 or GO ADESK on CompuServe.

#90057b0278 02/26/1990 ~Business Wire
SAN RAFAEL, CA (FEB. 27) BUSINESS WIRE - WordStar International Inc. announced Monday the latest release of its flagship word processing program that fully supports the new Hewlett-Packard LaserJet III printer.

WordStar International will ship WordStar 6.0 upon the release of the HP LaserJet III printer on March 1.

WordStar 6.0 was developed to take full advantage of the scalable font technology in the new HP LaserJet III.

A major new feature of the WordStar 6.0 program is the ability to fully support scalable-font printers, such as the HP LaserJet III and PostScript printers. With WordStar 6.0, typefaces and point sizes can now be selected on-the-fly so users no longer need to pre-install point sizes, saving time and further increasing productivity.

Point sizes of fonts can be defined anywhere from .25 to 999.75 points in .25 increments, limited only by their printer's capabilities. WordStar 6.0 automatically makes adjustments for the line length and spacing.

WordStar 6.0 also supports kerning, so documents will look as if they were

professionally typeset. For fonts with kerning tables, the spacing between individual characters can be adjusted giving users precise control over the document's appearance.

An upgrade to WordStar's StarExchange file conversion program is included in the program. Star Exchange 4.0 provides full support for WordStar's paragraph styles and automatic file format sensing on documents to be converted.

Users now only need to specify output file formats for even easier conversion of documents created with earlier versions of WordStar and other word processing programs.

WordStar 6.0 also includes expanded support that allows users of the HP LaserJet III PostScript printers to access font shadings from within the program. Because WordStar 6.0 does not limit the number of fonts per document, WordStar users can take full advantage of the HP LaserJet III's no font limit per page feature.

WordStar 6.0 also includes the advanced text and graphics technology features found in earlier versions of the WordStar program. For example, WordStar International's industry-renowned Advanced Page Preview allows single pages, facing pages, or up to 144 thumbnails to be viewed all at once exactly as they will be printed out.

Users can zoom in to 400 percent to check the exactness to detail of both text and graphic images. Industry-standard SAA pull-down menus help users to be productive right from the start and powerful customized style sheets are available for formatting paragraphs. All of these features can be accessed directly from the home-row keys.

WordStar International Inc., headquartered in San Rafael, is a leading developer of business productivity software products. The WordStar word processing products are among the largest selling microcomputer software programs in the world.

     #90057b0609 02/26/1990 ~Business Wire
SANTA ANA, CA (FEB. 26) BUSINESS WIRE - Alpha Microsystems (NASDAQ:ALMI) and its AMS Products Group (AMS) Monday announced a major new family of mid-range business systems based on the Pick operating system, the 8- to 160-user AMS 2000 Series.

A signigicant option available on the 2000 Series is AMS' enhanced local

area networking and communications support through its Common Network Architecture (CNA). With CNA, networked configurations of multiple AMS 2000 Series systems will support hundreds of users, as well as multiple PC-based Pick workstations. CNA also supports SDLC/SNA communications, providing AMS 2000 Series users the ability to communicate over SNA networks.

Introduced at the first annual AMS Dealer Meeting, February 22 through 24, on the Queen Mary in Long Beach, the AMS 2000 Series and CNA were the featured hardware and software products at AMS' extensive roll-out of new products and dealer support programs.

After extensive research and planning, Alpha Microsystems determined that the worldwide applications software base of over 4,000 industry-specific solutions available in Pick represented a significant opportunity for the company to capitalize on its 13 years of successful dealer distribution and vertical market experience.

With a worldwide installed base of over 36,000 business computers, Alpha Microsystems is well positioned to aggressively leverage its considerable vertical marketing expertise, marketing support programs, manufacturing resources and nationwide field service capabilities for a successful entry into the Pick market.

The AMS 2000 Series, with central processors based on Motorola MC68020 and MC68030 technology, consists of two basic vertical enclosure-based models, the AMS 2200 and AMS 2600.

A wide variety of options are available including up to 6MB of ECC memory; up to a maximum of 10 high performance disk drives of the same capacity in each disk enclosure (with the appropriate expansion enclosures and hardware); two additional magnetic tape drives, each of a different type; two additional Centronics compatible parallel printer ports; and intelligent serial port expansion to 32 ports.

All models of the AMS 2000 Series are currently available for delivery within normal published lead-times. The systems are available with a variety of standard and optional warranty programs. Installation, warranty service and on-going maintenance are available through Alpha Microsystems' nationwide customer-service organization.

With headquarters in Santa Ana, Alpha Microsystems with its AMS Products Group and RBM Products Group manufactures, markets and services muli-user, multitasking computer hardware and software products.

Operating software environments are provided for Alpha Microsystems' AMOS, and RBM's RECAP, proprietary, muli-user business-oriented operating systems, as well as industry-standard software including XENIX, Pick OA

and R83, Thoroughbred Basic and MS-DOS.

Distributed worldwide, the company's families of high-performance systems provide cost effective, multi-user computer solutions for businesses of all kinds.

ANTWERP, BELGIUM (FEB. 26) BUSINESS WIRE - OSHAP TECHNOLOGIES LTD. (NASDAQ SYMBOLS: OSHSF, OSHUF, OSHWF) Monday announced an agreement in principle whereby TECNOMATIX N.V., OSHAP's majority owned subsidiary engaged in the manufacture and distribution of medical imaging and hyperthermia equipment, has sold 27.3 percent, on a fully diluted basis, of its shares to an international consortium of leading European venture capital firms for DM 6 million (US $ 3.6 million).

Furthermore, the new investor's ownership will decrease in stages to 16.7 percent, on a fully diluted basis, should certain profit targets be achieved over the next three years. The agreement, subject to the completion of definitive documentation and government approval, is expected to be signed shortly.

OSHAP TECHNOLOGIES LTD. provides flexible machining systems, standard automation products and advanced computer aided engineering workstations to major worldwide industrial concerns. OSHAP is also a manufacturer of hyperthermia and medical imaging equipment.

MILPITAS, CA (FEB. 26) BUSINESS WIRE - Quantum Corp. (OTC:QNTM) announced Monday that it has shipped more than 1 million ProDrive Series 3.5-inch disk drives first introduced in 1988.

Designed to meet the demanding storage needs of a broad range of personal computers and desktop workstations, the ProDrive Series drives offer storage capacities ranging from 42 to 210 megabytes with a choice of integrated SCSI and AT-Bus controllers.

Quantum's roster of major OEM customers currently includes such notable systems manufacturers as Apple Computer, AT&T, Commodore, Hewlett Packard, Intel, NeXT Computer, Sun Microsystems, Tandy, Unisys and Zenith, among others.

While the company's ProDrive sales continue to be dominated by OEMs, Berkley noted that sales through its industrial distributors, Arrow Kierulff Electronics and Marshall Industries, are increasing rapidly, and that the wide acceptance of the ProDrive products in the distribution channel has been especially gratifying.

Since its founding in 1980, Quantum Corp. has emerged as a leading independent manufacturer of hard disk drives for personal computers and workstations. Its products are marketed to original equipment manufacturers and distributors worldwide.

Plus Development Corp., a subsidiary of Quantum established in 1983, designs and markets high-volume personal computer storage enhancement products through 2,500 dealers worldwide.

BRISBANE, CA (FEB. 26) BUSINESS WIRE - Hitachi America Ltd. Monday announced that Executive Vice President William Gsand will be an honored guest at the head table of the international banquet during the annual SAE International Congress and Exposition, Feb. 26 - March 2 in Detroit, Mich.

Hitachi America has several divisions that support the three major American automotive manufacturers as well as Japanese car makers building products in the United States.

The Semiconductor and IC Division supplies products including microcontrollers, memories and linear devices to the automotive market.

SICD also recently introduced a line of intelligent power devices for use as high side drivers for solenoids and bulbs. In 1989, the Semiconductor and IC Division won a Ford Preferred Quality Q1 award.

SICD also has a sales and field engineering office in Dearborn, Mich., dedicated to the company's automotive customers.

Based in Schaumberg, Ill., Hitachi America's Electron Tube Division offers an array of flat panel liquid crystal displays for automotive instrumentation.

Hitachi America's Automotive Products Division supplies sensors and actuators for electronic control systems such as spark, air and fuel control products, as well as starters, alternators and motors.

AUP is based in Farmington Hills, Mich. Many of AUP's products are manufactured in the United States by Hitachi Automotive Products Inc. in plants located in Harrodsburg and Bardstown, Ky.

A HAP subsidiary, the Hitachi Farmington Hills Technical Center, provides product development and analysis to U.S. automakers.

Hitachi America Ltd., a wholly owned subsidiary of Hitachi Ltd., markets and manufactures electrical and electronic goods throughout the United States.

Hitachi Ltd. is one of the world's largest electrical and electronic companies, with fiscal 1988 revenues (ended March 31, 1989) of more than $48.5 billion.

#90057b0616 02/26/1990 ~Business Wire

SANTA CLARA, CA (FEB. 26) BUSINESS WIRE - A new family of Advanced,

Self-Timed SRAMs designed to significantly improve cycle time in high-performance computer systems was announced Monday by National Semiconductor Corp.

The BiCMOS ECL (emitter coupled logic) I/O 2Kx9 AST SRAMs which feature maximum access times from 5 to 10 ns (nanoseconds) enable system designers to improve the performance of high-speed ECL CPUs (central processing units) by 60 to 150 percent over standard SRAMs and 150 percent over competitive Self-Timed SRAMs.

These new SRAMs answer a problem that system designers face: the actual operating or system cycle time they can achieve from their systems is considerably slower than the data-sheet speed of standard SRAM devices.

The new 5 ns AST SRAMs from National allow system cycle times of 5 ns, giving a big performance boost to designers of 80-200 MHz CPUs. Comparable products such as a 13 ns Self-Timed synchronous SRAM achieve system cycle times of 15 ns in the system, whereas a conventional asynchronous 10 ns SRAM will result in 15 to 20 ns system cycle times.

The AST SRAMs are targeted for a range of high-performance computing systems such as high-end engineering workstations, servers, minisupers and supercomputers. Typically, the devices are tightly coupled with very fast ECL CPUs in such applications as first-level cache store, cache-tag memory translation lookaside buffers, writable control store, and other fast memory functions.

National Semiconductor's first five AST SRAMs are being announced today. All have F100K I/O levels and come in 64-lead ceramic quad flatpacks. The NM4492W5 (5 ns access time), NM4492W7 (7 ns) and NM4492W10 (10 ns) work with a 5.2 volt negative power supply, whereas the NM100492W7 (7 ns) and NM100492W10 (10 ns) require a 4.5 volt negative power supply.

All are available now in production volume from National Semiconductor and from authorized national distributors. In quantities of 100 resale pricing is $210 each for the 5 ns version, $150 each for the 7 ns version and $125 each for the 10 ns version.

National Semiconductor Corp., based in Santa Clara, is a major manufacturer of integrated circuits and the leading U.S. based supplier of high-speed ECL components, including logic, ASICs, PALS and memory.

#90057b0617 02/26/1990 ~Business Wire

LOS ALTOS, CA (FEB. 26) BUSINESS WIRE - Symsoft Corp. Monday introduced HotShot Graphics 1.7, an upgrade to its popular PC grahics software.

HotShot Graphics 1.7 is the first capture, conversion and editing utility to allow the capture of DOS, MS Windows and OS/2 Presentation Manager screens. The MS Windows and OS/2 Presentation Manager capture modules allow saving the full screen, a portion of the screen or a single window to the clipboard or a named file.

Like its predecessor, HotShot Graphics 1.7 speeds and simplifies the preparation of artwork for inclusion in documents created in word processing and desktop publishing programs.

Users can capture, edit, size, annotate, paint or draw screens and then combine them into composite pictures. HotShot Graphics 1.7 includes full-screen text and full-page graphics editors, a built-in database directory for cataloging, sorting and retrieving images and high-speed, high-quality (300 dpi) printing.

HotShot Graphics 1.7 can capture most DOS text or graphics screens, (including MS Windows), and OS/2 Presentation Manager, with a single key stroke. HotShot Graphics 1.7 also includes an auto-increment feature to further speed the capture process. The Grab utility in HotShot Graphics 1.7 requires only 25K of memory, in contrast to other memory hungry capture programs.

Additionally, the Grab utility can be removed without rebooting.

HotShot Graphic's integrated, text and graphics editors let users create art or touch-up and edit captured, scanned or clip-art images of any size up to a full 8-1/2 by 11 page 300 dpi image.

Users can edit and annotate captured text screens from spreadsheets, word processing programs, databases and more. All of HSG's editing features are available at every zoom level. And, while working in OS/2 Presentation Manager, all of HSG's features are accessible through the DOS compatibility box.

Captured images and imported graphics files can be converted to seven popular graphics file formats and exported to word processing and desktop publishing programs such as Word 5.0, WordPerfect 5.0, PageMaker and Ventura Publisher. With HotShot Graphics 1.7 files can be converted one at a time or in batches to speed the conversion process.

HotShot Graphics has been the premiere capture/conversion/editing program for the Desktop Publishing industry since its introduction in August 1986.

SANTA CLARA, CA (FEB. 26) BUSINESS WIRE - Rational Monday announced the integration of its Rational Environment with IBM's new RISC System/6000 running AIX Release 3.1.

When integrated with IBM's RISC System/6000, the Rational Environment provides a comprehensive software engineering environment for Ada. Rational's products are used to improve the productivity of teams of software engineers designing and developing large software applications.

The RISC System/6000 contains many features that will enhance the effectiveness of the Rational Environment, including the industry's most advanced floating point processor, new super scalar processors, and optimized 3-D graphics capabilities.

''The integration of the Rational Environment, which has been successfully used in the development of major Ada programs, with the RISC System/6000 produces a comprehensive, workstation-based development environment that dramatically increases productivity,'' said Bob Bond, Rational's vice president of marketing.

''The openness of Rational's technology ensures compatibility with all products included in IBM's technical Computer-Aided Software Engineering (CASE) solution.''

Rational's products, including an attached processor, the Rational R1000 Series 300 Coprocessor; workstation interface software, the Rational X Interface to the RISC System/6000; and the Rational Environment, will be available in August at a price beginning at $99,500.

The Rational Design Facility: Cadre Teamwork, which integrates Teamwork runnning on the IBM RISC System/6000 with the Rational Environment, will also be available in August at a price beginning at $2,000.

The Rational Publishing Interface: Interleaf TPS, which integrates Interleaf Technical Publishing Software running on the IBM RISC System/6000 with the Rational Environment, is available in August at a price beginning at $1,000.

The Rational Remote Compilation Facility, available in August at a price beginning at $2,500, enables software to be developed using the Rational Environment when the IBM RISC System/6000 is the target platform.

Rational, an IBM Business Partner with headquarters in Santa Clara, was

founded in 1980 and has sales and support operations in the United States, Europe and the Asia-Pacific region. Its customers are among the largest defense, aerospace, and commercial companies throughout the world.

#90057b0632 02/26/1990 ~Business Wire

SEATTLE (FEB. 26) BUSINESS WIRE - Sales for the year ended Jan. 31, increased 15 percent to $2,671,114,000 from $2,327,946,000.

For the fourth quarter, sales were $857,483,000 compared with $765,117,000 a 12 percent increase.

Net earnings for the year ended Jan. 31, were $114,909,000 compared with $123,332,000, a 7 percent decrease. On a per share basis, net earnings were $1.41 compared with $1.51. For the fourth quarter, net earnings were $31,422,000 compared with $47,514,000, a 34 percent decrease. On a per share basis, net earnings were 39 cents compared with 58 cents.

Net earnings for the fourth quarter were negatively impacted by higher merchandise markdowns and shrinkage and a provision for estimated back wage claims as discussed below.

The board of directors at their meeting on Tuesday, Feb. 20, voted to increase the quarterly dividend to 7.5 cents per share. The dividend will be payable on March 15 to shareholders of record March 5.

CUPERTINO, CA (FEB. 26) BUSINESS WIRE - Apple Computer Inc. announced Monday that Intellimation of Santa Barbara, Calif., will provide Academic Courseware Exchange service on an interim basis to colleges and universities while final arrangements for an expanded program are being completed.

Apple and Kinko's Copies announced last July their intention to replace the Academic Courseware Exchange program administered by Kinko's with more sophisticated software distribution, publishing and marketing. The Academic Courseware Exchange was originally established in 1986 by Apple and Kinko's to make software created by college faculty easily available to other faculty members and students at a reasonable cost.

''During the past five years, curriculum software development has flourished well beyond our early expectations -- in part because of the introduction of HyperCard software and other easy-to use Macintosh development tools as well as the growing interest in multimedia technologies,'' said Apple Academic Solutions Manager Katie Povejsil.

During this interim period, Academic Courseware materials may be obtained by calling 1-800-346-8355. Intellimation will also take inquiries from software developers interested in distributing materials through the Academic Courseware Exchange for the program's eventual administrator.

Intellimation was founded in 1987 as a subsidiary to ABC-CLIO, a 37-year-old educational publisher. The company publishes and distributes multimedia materials and is best- known as marketer and distributor of The Annenberg/CPB Collection of video courses such as The Brain and The Mechanical Universe.

MILPITAS, CA (FEB. 26) BUSINESS WIRE - Octel Communications (NASDAQ/NMS:OCTL) and Deloitte & Touche Monday announced the signing of a three-year, $5-million contract under which Deloitte & Touche will purchase Octel voice processing systems for a nationwide voice mail network linking the firm's partners and employees in more than 100 cities.

The installations are expected to take place over a three-year period.

Management at Deloitte & Touche said it expects the network to increase productivity and enhance communication with clients and between partners and employees of the firm. Deloitte & Touche was formed in December 1989 by the merger of the accounting firms Deloitte Haskins & Sells and Touche Ross.

Octel Aspen systems will allow employees and clients of Deloitte & Touche to benefit from the full range of voice processing applications -- voice mail, telephone answering, automated attendant, call routing menus, voice bulletin boards and voice-prompted forms applications. In addition, Octel's AspenNet voice processing network allows voice messages to be sent between systems nationwide.

With AspenNet, specialized personnel in widespread geographic locations can share information on clients' accounts using voice mail, eliminating the delay of mailing written memos and the inconvenience of missing conference calls.

Octel Communications Corp. designs, manufactures and markets a full line of high-performance voice processing systems. These specialized computers which integrate with a large number of telephone systems, help companies and individuals solve a range of communications problems.

Octel's Aspen product line is sold in the United States, Canada and overseas to small businesses and large multisite corporations. The recently announced Sierra multiple-application voice processing platform is a very large capacity system designed to meet the special needs of telephone companies and other voice information service providers.

Among the applications for Octel's products are voice mail, integrated telephone answering, automated attendant, call routing and audiotex (voice bulletin boards.)

Octel was founded in 1982 and has headquarters in Milpitas.

Deloitte & Touche is the third largest accounting firm in the United States; the firm offers a full range of audit, management consulting, and tax services to both domestic and multinational clients.

AGOURA HILLS, CA (FEB. 26) BUSINESS WIRE - TRADITIONAL INDUSTRIES, INC. (NASDAQ/NMS Symbol:TRAD) Monday announced results for the second quarter and the six months ended December 31, 1989.

For the three months ended December 31, 1989, revenues were $13,465,000 as compared to $14,957,000 for the same quarter last year. The Company reported net income of $309,000, or $0.07 per share primary, ($0.07 per share, fully diluted), as compared to $1,557,000, or $0.43 per share primary, ($0.35 per share, fully diluted), for the quarter ended December 31, 1988.

For the six months ended December 31, 1989, revenues increased 18% to $33,451,000 as compared to $28,432,000. Income before cumulative effect of a change in accounting principle for the first six months of fiscal 1989 was $1,270,000, or $0.30 per share primary, ($0.30 per share fully diluted) as compared to $2,956,000, or $0.84 per share primary, ($0.68 per share fully diluted for the comparable period in fiscal 1988.

The Company's December 31, 1988 financial statements have been restated to reflect the cumulative effect of FASB 96, which was $1,600,000, or $0.46 per share primary ($0.31 per share, fully diluted).

Commenting on the results, Arland D. Dunn, Chairman of the Board and Chief Executive Officer of TRADITIONAL INDUSTRIES, INC., said, ''The Company's results for the second quarter reflect Management's recently executed corporate strategy to improve the Company's cash flow and financial position. The restructuring of our sales organization involved the discontinuance of packages with the highest direct costs.

Alan F. Kane, President of TRADITIONAL INDUSTRIES, INC., added, ''Throughout fiscal 1990, the Company will continue to control revenue growth, with distinct emphasis on internal collection procedures and profitability. During the second quarter, collection activities have been expanded to return those customers with delinquent accounts to current. These newly implemented procedures, along with an increase in monthly payments in all programs sold, should favorably impact the Company's cash flow.''

TRADITIONAL INDUSTRIES, INC. is the nation's leading specialty marketer of photographic and video products and services.

VANCOUVER, B.C. (FEB. 26) BUSINESS WIRE - HQ Office International Inc. (NASDAQ: HQOIU for Units; HQOIA for Class A Common Stock; HQOIW for Class A Warrants) announced Monday that it has been approved for listing on the Pacific Stock Exchange.

It is expected the listing will take place in mid-March.

George J. Handgis, president and chief executive officer stated, ''We look forward to the support that will be provided by listing on the Pacific Stock Exchange. The listing should provide our shareholders with added trading volume in the stock, as well as allow shareholders to trade the stock freely in California, as well as in Alaska, Arizona, Arkansas, Delaware, Georgia, Idaho, Illinois, Indiana, Iowa, Kentucky, Minnesota, Mississippi, Missouri, Montana, New Mexico, North Carolina, Oregon, South Carolina, South Dakota and Texas.

HQ Office International will offer a wide selection of quality, brand-name office products including general office supplies, business machines, office furniture and other business-related products and services at discount prices to small- and medium-sized businesses, as well as retail consumers. The company anticipates opening its first store in the Vancouver area by early April.

SAN FRANCISCO (FEB. 26) BUSINESS WIRE - AIFS Inc. (ASE/PSE:AIF), an international educational services company, Monday announced that it will seek legislation to clarify the status of its Au Pair in America and Camp America programs under the J Visa authority of the United States Information Agency (''USIA'').

The company's announcement was in response to the report released Friday,

Feb. 16, by the General Accounting Office (''GAO'') which concluded that summer student travel/work, international camp counselor and au pair programs are not consistent with the intent of applicable statutes enacted in 1961. The report suggested that Congress may wish to consider continued authorization of such programs under new or amended legislation.

A company representative stated that the company had been successful in securing Congressional action in 1988 to extend its Au Pair in America program for a two-year period pending the release of the GAO study.

The company indicated that it expects to be granted J visas to permit continuation of its Au Pair in America program at present levels through the fiscal year ended Sept. 30, 1991. It also expects to be able to continue its Camp America program in the future using foreign students as camp counselors in American summer camps.

If the company is not successful in obtaining legislative relief, however, the operation of the programs could be materially adversely affected, with a resulting adverse effect on the company's profitability.

AIFS Inc. designs, markets and operates educational and cultural programs world-wide. The company, though its operating subsidiaries, provides opportunities for American college and high school students to study and travel abroad and brings foreign youths to the United States on a variety of cultural exchanges.

The company also operates 20 language centers throughout the United States and 20 abroad for intensive English language training for foreign students.

PHOENIX (FEB. 26) BUSINESS WIRE - America West Airlines (NASDAQ:AWAL; PSE:AWA) will begin new service at Meadows Field in Bakersfield, Calif., with four daily flights to Las Vegas on April 15.

The carrier will utilize the 37-passenger Boeing de Havilland Dash 8 turboprop and will offer an introductory round trip fare between the two cities of $108 and introductory one-way fares as low as $69.

Peter Otradovec, vice president of planning said, ''Our flight schedule will provide Bakersfield travelers with convenient connections throughout the midwest and east coast. In addition, we are offering introductory fares that are more than competitive with fares for similar service around

the United States.

America West's $108 introductory round-trip fare requires a seven day advance purchase. The $69 introductory one-way fare is only offered on the evening flight and the $79 introductory one-way fare requires a three day advance purchase. All introductory fares must be purchased by April 15 and travel must be completed by May 31.

The following is a summary of America West's Bakersfield flight schedule:

BAKERSFIELD Departs	LAS VEGAS Arrives	LAS VEGAS Departs	BAKERSFIELD Arrives
7:35 a.m.	8:35 a.m.	9:25 a.m.	10:30 a.m.
10:55 a.m.	11:55 a.m.	2:10 p.m.	3:15 p.m.
4:00 p.m.	5:00 p.m.	5:45 p.m.	6:50 p.m.
8:40 p.m.	9:40 p.m.	10:50 p.m.	11:55 p.m.

America West, which began operations on Aug. 1, 1983, holds the national championship for on-time performance in 1988 and 1989. The carrier's routes extend from coast to coast with daily service to Hawaii and western Canada utilizing a fleet of 88 Boeing aircraft including 747s, 757s, 737s and the de Havilland Dash 8s.

In addition to Bakersfield, America West will offer new service at Boston on March 15 and San Francisco on May 1.

WAYLAND, MA (FEB. 26) BUSINESS WIRE - Candela Laser Corp. (CLZR) announced Friday that it has received major patents in Italy, Belgium, the United Kingdom, Switzerland and Taiwan, covering the use of pulsed lasers to break down objects within the body.

The U.S. Patent Office has recently issued a similar patent to Candela. These patents cover multiple medical procedures, including the treatment of kidney stones, gallstones, angioplasty and other calcified material in the body.

Dr. Horace W. Furumoto, chairman and CEO, stated , ''I believe that these five foreign patents, coupled with our U.S. patent, will provide Candela with a competitive edge in these important medical markets. This is another example of Candela's leadership in laser technology.''

PALO ALTO, CA (FEB. 26) BUSINESS WIRE - Hewlett-Packard Co. Monday announced it will replace the most popular laser printer ever brought to market when it introduces the HP LaserJet III printer on March 1.

The third-generation HP LaserJet III printer offers improved print quality through HP's Resolution Enhancement technology, on-the-fly font scaling and faster graphics printing -- for $2,395 (U.S. list), or $300 less than the HP LaserJet Series II printer it replaces. The new eight-page-per-minute printer is fully compatible with the HP LaserJet Series II printer.

HP has sold more than 1.5 million HP LaserJet Series II printers since the product was introduced in 1987, more than all other non-HP desktop laser printers combined. The company will stop actively selling the product March 1 but will continue to accept orders through September. HP fully supports discontinued products for five years.

HP's desktop-printer strategy is to provide customers with greater performance for fewer dollars with each successive product. The original HP LaserJet printer had a U.S. list price of $3,495 and brought quick, quiet printing to the business office.

The HP LaserJet Series II printer had a U.S. list price of $2,695 and offered more internal fonts, more memory and the ability to print larger type sizes than its predecessor.

HP also announced it will introduce Apple Macintosh versions of the HP LaserJet III, IID and IIP printers, which are expected to be available in the second quarter of 1990.

Macintosh users will have access to the improved print quality of the HP LaserJet III printer; the dual-paper tray, envelope and two-sided printing features of the HP LaserJet IID printer; and economical PostScript printing from the HP LaserJet IIP printer.

These Macintosh-compatible HP LaserJet printers consist of the printer, an AppleTalk interface, the PostScript printer cartridge and additional memory.

Hewlett-Packard Co. is an international manufacturer of measurement and computation products and systems recognized for excellence in quality and support. The company's products and services are used in industry, business, engineering, science, medicine and education in 100 countries.

HP has 94,000 employees and had revenue of $11.9 billion in its 1989 fiscal year.

EMERYVILLE, CA (FEB. 26) BUSINESS WIRE - Cetus Corp. (NASDAQ:CTUS) announced Monday that EuroCetus B.V., Cetus' wholly owned European subsidiary, had received pricing approval in France for Proleukin interleukin-2 and that the company expected to begin marketing Proleukin in that country shortly.

The company announced last September that it had received product approval for use of Proleukin in the treatment of metastatic renal cell carcinoma (kidney cancer) from the French Ministry of Health in accordance with the recommendations of the Committee for Proprietary Medicinal Products, the centralized regulatory review and recommendation body of the European Community, issued in May 1989.

It is estimated that 9,400 patients are diagnosed with renal cell carcinoma in France each year. France has a population of approximately 55 million, making it the fourth largest country in the EC. It is the sixth EC member country to grant full marketing approval to EuroCetus for Proleukin.

Proleukin is being developed in Europe on behalf of the Cetus Healthcare Limited Partnership II.

Cetus Corp. is a leading biotechnology company primarily engaged in the development, manufacturing and marketing of pharmaceutical products to treat cancers and serious infectious diseases. The company is also developing commercial applications of its GeneAmp polymerase chain reaction technology.

Founded in 1971, Cetus is based in Emeryville, and also operates EuroCetus in Amsterdam, Netherlands.

SEATTLE (FEB. 26) BUSINESS WIRE - Aldus Corp. (NASDAQ:ALDC) Monday announced it has completed the acquisition of Silicon Beach Software, a privately owned software publisher based in San Diego.

The company said that all the outstanding shares of Silicon Beach were acquired in exchange for approximately 1.24 million shares of Aldus common stock on a fully diluted basis. The company valued the acquisition at $25.5 million, based on the closing price of Aldus shares on Thursday, Feb. 22. Aldus signed a definitive agreement to acquire Silicon Beach on Feb. 6.

''We believe that the price is a good value,'' said Aldus President Paul Brainerd. ''With the combination of Silicon Beach's products and development capabilities and our worldwide marketing and distribution systems, we are enthusiastic about the prospects for future growth.''

The acquisition is being accounted for as a pooling of interests, which combines the operating results of both companies. Silicon Beach had unaudited net income in 1989 of approximately $1.6 million on revenues of $10.7 million. Aldus previously reported net income for 1989 (without Silicon Beach) of $15.5 million, or $1.21 per share, on revenues of $87.9 million.

Based on these results, the acquisition is expected to increase Aldus' 1989 earnings per share by approximately 1 cent.

Silicon Beach will continue to operate from its headquarters in San Diego as a separate business unit. Founded in 1985, the company develops and publishes state-of-the-art software applications for the Apple Macintosh.

Its product line includes SuperPaint, SuperCard, Personal Press, Digital Darkroom and Super 3D. They will be distributed through Aldus' network of more than 12,000 authorized dealers and distributors in more than 40 countries.

Aldus Corp. creates computer software that helps people throughout the world effectively communicate information and ideas. The Aldus product line includes Aldus PageMaker, Aldus Persuasion, Aldus FreeHand and Aldus PrePrint.

LAUREL, MS (FEB. 26) BUSINESS WIRE - Sanderson Farms Inc. (NASDAQ/NMS:SAFM) Monday reported results for the first quarter of the 1990 fiscal year.

For the three months ended Jan. 31, 1990, net sales were $39,806,000 compared with $41,947,000 in the first quarter of 1989. Net income was $550,000, or 6 cents per share, compared with $2,037,000, or 22 cents per share, in the like period a year ago.

Joe F. Sanderson Jr., president and chief executive officer of Sanderson Farms, remarked: ''Our sales and profits declined from the levels achieved in the first quarter of 1989 primarily due to lower market prices for poultry products. Market prices for poultry, as measured by a simple average of the Georgia dock prices, were approximately 14 percent lower than in the same period last year.

''The decline in selling prices more than offset a slight increase in the number of pounds sold by Sanderson Farms and an improvement in the prices of feed grains. We are pleased that the company has remained profitable through this period and has maintained a strong balance sheet with a substantial cash position and little debt.''

Sanderson Farms Inc. is engaged in the production, processing, marketing and distribution of fresh and frozen chicken and other prepared food items. Its shares are traded in the NASDAQ National Market System under the symbol SAFM.

PURCHASE, NY and CANTON, MA (FEB. 26) BUSINESS WIRE - JWP Inc. (NYSE:JWP) and NEECO Inc. (NEEC) Monday announced an agreement in principle for JWP Inc. to acuire NEECO Inc. in a stock for stock merger valued at approximately $100 million, or $17 per NEECO common share, based upon the closing price of JWP common stock on Feb. 22, 1990.

The transaction is subject to the signing of a definitive merger agreement agreement which will include customary conditions and approvals,

including approval of NEECO's stockholders. The signing is expected to occur on or about March 6, 1990.

In the transaction, each outstanding share of NEECO common stock would be exchanged for 0.523 of a share of newly issued JWP common stock. The ratio is subject to adjustment so that the consideration for each NEECO share will not exceed $19.09 in JWP common stock.

In addition, in the event of certain declines in the market value of JWP common stock, the ratio would be adjusted to provide up to a maximum of 0.552 of a share of JWP common stock for each NEECO share. If the market value of a share of JWP common stock falls below $26.50, NEECO would have the right to terminate the merger.

JWP is the premier technical services company in the world specializing in facility and information systems. The company is also emerging as a leader in the environmental systems and services industry, including ownership of the largest investor-owned water utility in New York State.

NEECO is a leading nationwide reseller of desktop computer systems and provider of related services to the business and corporate marketplace, operating from 14 Business Sales Centers and two distribution facilities.

For the 12 months ended Dec. 31, 1989, JWP and NEECO had revenues of $1.74 billion and $283 million, profits of $38.5 million and $7.8 million, and earnings per share of $1.90 and $1.58, respectively.

The JWP common stock that would be issued in the merger will be offered only by means of a prospectus included as part of a registration statement to be filed with the Securities and Exchange Commission after signing of the definitive merger agreement.

SALT LAKE CITY (FEB. 26) BUSINESS WIRE - Plexus Resources Corp. Monday announces a private placement agreement that provides for: - a major equity financing which will provide CDN$16.5 million on closing; - a close relationship with the world-ranging TOTAL natural resources orgnaization through a 51 percent interest to be held in Plexus by TOTAL Energold Corp.; and - acquisition of the U.S. mining exploration subsidiary of TOTAL Energold which has projects in Idaho and Nevada.

Proceeds would also be available to finance further development of two other advanced mining projects - the 50 percent-held Western World copper deposit in California and the 100 percent-owned Bornite high-grade copper-gold deposit in Oregon.

The agreement with TOTAL Energold provides for that company to purchase, as a private placement, 6,000,000 common shares for the equivalent of CDN$3.00 per share. Plexus is to receive CDN$16.5 million cash. The remaining CDN$1.5 million is accounted for by the transfer to Plexus of all the shares of TOTAL's United States mining exploration subsidiary Soverign Explorations Inc.

When these transactions are completed, TOTAL Energold will hold a 51 percent interest in Plexus which will have 11,761,842 shares outstanding.

The agreement also provides for TOTAL Energold to maintain a greater than

50 percent interest in Plexus as exisiting Plexus warrants and conversion rights are exercised. Plexus will issue warrants to TOTAL Energold to purchase up to 2,150,000 shares at CDN$3.00 per share. These warrants could provide up to an additional CDN$6,450,000 of financing.

The transaction is subject to due dillgence and approvals of Plexus shareholders, TOTAL Energold's board of directors and regulatory authorities.

Plexus Resources Corp. is an expanding diversified U.S. natural organization with extensive base metal and precious metal interests and oil and gas production, the company's shares are listed on The Toronto Stock Exchange (PXS) and trade in the U.S. on NASDAQ (PLUSF).

TUSTIN, CA (FEB. 26) BUSINESS WIRE - Trimedyne Inc. (NASDAQ:TMED) announced Monday it received approval from the U.S. Food and Drug Administration (FDA) to commence human clinical trials of its new ''cold'' laser catheter for ablating plaque (fatty) blockages, including hard, calcified deposits, in peripheral (leg) arteries with Trimedyne's hew holmium laser.

The new catheter transmits extremely rapid, high energy laser beams in pulses through a tiny optical fiber to a patented tip at the end of the catheter, call a ''Spectraprobe.''

The tip is advanced through the blood vessel to the blockage over a standard guidewire, like a monorail train. When it reaches the blockage, the tip allows the holmium laser beam to ablate the plaque without creating excessive heat.

This new holmium laser catheter is used to treat partially blocked blood vessels and is compared to its first holmium laser catheter approved a few weeks ago which is used to open totally blocked vessels.

Both devices have been used to successfully treat nine patients with plaque (fatty) blockages in peripheral (leg) vessels in a clinical study using its new holmium ''cold'' laser.

The patients were treated at the Arizona Heart Institute in Phoenix by Doctors Edward B. Diethrich and Dr. Oswaldo Santiago. One patient with an extensive blockage in a leg artery was successfully treated with Trimedyne's cold laser at this institution and the laser treatement was

broadcast live by satellite closed circuit television on Feb. 12, 1990 to approximately 600 physicians attending the international Congress of Vascular Surgeons in Phoenix.

Human clinical trials of the new catheter and holmium laser in leg vessels will initially be conducted at five medical centers in the United States and will be expanded to additional centers overseas.

At a later date, Trimedyne expects to request FDA approval to begin testing its new catheter and holmium laser for removing blockages in the coronary arteries.

Trimedyne is the leading manufacturer of proprietary lasers and laser catheters for removing blockages from blood vessels.

SILER CITY, NC (FEB. 26) BUSINESS WIRE - Communication Cable Inc. (NASDAQ: CABL), Monday reported consolidated sales and earnings for the first quarter ending Jan. 31, 1990.

Consolidated sales for the three months were $5,566,877, slightly higher than $5,540,693 for the like period in 1989. Consolidated net income was $377,414, or 22 cents per share compared to $236,986, or 21 cents per share in 1989, an increase of $140,428, or 59 percent. As a result of the recent stock offering, 1990 per share earnings were calculated on 1,728,916 shares vs. 1,152,428 in 1989.

Market conditions softened some in the first quarter as anticipated, reflecting adjustments in the computer, construction and auto industries. In spite of softened market conditions, sales volume increased by approximately 7 percent but was not reflected in sales dollars due to offsetting reductions in copper prices.

The new Saxton operation previously reported is expected to begin production by late March 1990 .

The factory building in Shenzhen, China, is essentially finished and the company expects to ship equipment from the United States to the factory in July 1990.

The first quarter performance is on target with earlier projections and the 1990 fiscal budget.

CHICAGO (FEB. 26) BUSINESS WIRE - Autodesk (NASDAQ/NMS:ACAD) announced Monday that it has reached an agreement with D-CUBED Ltd. of Cambridge, England, to license D-CUBED's constraint management software for integration into Autodesk's family of computer-aided engineering products.

D-CUBED's constraint manager, DCM (dimensional constraint manager), allows designers to apply a variety of constraints to define a model. Then, when any element of that design is altered, DCM automatically solves the equations necessary to determine what happens to the model.

''Constraint management software is vital to conceptual design,'' stated Dr. John Owen, author of DCM and managing director of D-CUBED. ''It allows people to be more creative in the design process because they can explore a range of design possibilities and see what results.''

''We selected DCM because it is fast, accurate and it was designed to be easily integrated into existing geometric modelers like AutoCAD, stated Dr. Ronald McElhaney, vice president of Engineering for Autodesk. ''What intrigues me most about this technology is its ability to free engineers from the necessity to specify designs with total mathematical accuracy,'' continued McElhaney.

''AutoCAD with constraint management would allow our customers to quickly approximate designs, then apply constraints that would automatically resolve the design into a finished, mathematically accurate, drawing.''

Company officials did not make details of their agreement public, but stated that they expect to see the first results from this technology partnership reach customers sometime next year.

D-CUBED Ltd. provides consulting services and advanced technology software components for integration into CAD/CAM systems. For further information on D-CUBED please call (United Kingdom) 0223-359-597.

Autodesk Inc. develops, markets and supports a family of computer-aided design and engineering software products for desktop computers and workstations. For more information please call 415/331-0356 or GO ADESK on CompuServe.

LEXINGTON, MA (FEB. 26) BUSINESS WIRE - Loral Infrared & Imaging Systems, a unit of Loral Corp., has received a $6.3 million contract from the Naval Air Development Center in Warminster, Pa., to develop and test a new infrared signal processor for long-range search and track missions.

Under the contract, Loral will design, build, and test a flyable infrared search and track signal processor for detecting long-range airborne targets in environments with a high clutter background. The device will be known as the clutter discrimination signal processor.

The 20-month contract is a part of an advanced technology program to develop and demonstrate the remote platform surveillance system, a high-altitude aircraft designed to provide real-time situational awareness of over-the-horizon events to U.S. Naval task forces.

Loral Infrared & Imaging Systems (formerly Honeywell Electro-Optics Division) is a technology leader in the development and manufacture of advanced electro-optical components and sensors for both imaging and non-imaging applications. Customers include the U.S. Department of Defense, NASA, and domestic international prime contractors.

Loral Corp.(NYSE:LOR) is a high-technology company that primarily designs and manufactures defense electronics.

SAN ANTONIO (FEB. 26) BUSINESS WIRE - Datapoint Corp. (NYSE:DPT) Monday announced the appointment of Robert E. Hollingsworth as director of Engineering, Michael J. Hopf as director of U.S. Sales, and Kane B. Pierce as director of Worldwide Marketing.

The announcement was made by Martin Goldberg, Datapoint chief operating officer, at the company's San Antonio headquarters.

As director of Worldwide Marketing, Pierce will develop and implement programs to support new product introductions, as well as provide ongoing product support for Datapoint's marketing and sales organizations in the

United States and worldwide.

Datapoint education, systems and applications demonstration centers, multi-national account management, and corporate and marketing communications are also included within the department.

Pierce has nine years of business experience, with an emphasis in IBM sales and marketing, leasing, and banking. She spent six years with International Business Machines Corp. as a marketing representative in the northeastern United States, and was New England account manager for Leasing Dynamics Inc.

Pierce joined Datapoint in 1988 as marketing consultant for the launch of the company's line of UNIX-based products, becoming product manager for the UNIX line shorly thereafter.

Hopf is responsible for all sales activities in the United States. He joined Datapoint in 1982 as sales manager for the Florida branch. After a brief time with GTE Data Services as national sales manager for Commercial Services, Hopf returned to Datapoint in 1986. He was director, Eastern Operations until the present appointment.

Prior to his tenure at Datapoint, Hopf was vice president, Sales, for Computer Control Corporation, a minicomputer company, and at Allison-Crain Inc., a vertical software marketing firm. From 1974 to 1978, Hopf was with International Business Machines Corp., General Systems Division.

In the new position of director of Engineering, Hollingsworth has responsibility for hardware and software research and development, system support, and system sustaining engineering.

Datapoint Corp. develops, manufactures, and markets computer and communication products for integrated network systems worldwide.

CHICAGO (FEB. 26) BUSINESS WIRE - Autodesk (NASDAQ/NMS:ACAD) Monday announced that it has obtained the non-exclusive rights to AGLib from Applied Geometry Corp. of Seattle.

AGLib is a library of geometry software that uses non-uniform rational b-spline (NURBS) geometry to describe all standard CAD/CAM curves and surfaces without approximation.

With the agreement, Autodesk establishes its commitment to incorporating NURBS technology into its family of computer-aided engineering products.

''NURBS geometry is required for the sculptured surfaces that are common in most of today's CAD/CAM applications,'' stated Dr. Ronald McElhaney, vice president of engineering for Autodesk.

''With Applied Geometry's software library, Autodesk can deliver MCAE tools that not only describe complex surface information for visualization but also provide exact representation of those surfaces suitable for analysis and downstream manufacturing applications.''

Autodesk officals also expressed excitement over the implications this technology would have for the company's large community of third-party developers who produce add-on products tailored for specific applications.

''Our developer community will be able to use the analytically correct, complex geometry provided by this partnership to develop a new generation of sophisticated, integrated solutions for the design and manufacturing marketplace,'' stated Dr. Malcolm Davies, senior vice president of marketing and sales for Autodesk.

Company officials did not make details of their agreement public, but stated that they expect to see the first results from this technology partnership reach customers sometime next year.

Applied Geometry Corp. is a privately held company that was founded in 1985 to design, develop and market a library of geometry software to use within engineering and manufacturing applications.

Autodesk Inc. develops, markets and supports a family of computer-aided design and engineering software products for desktop computers and workstations. For more information, telephone 415/331-0356 or GO ADESK on CompuServe.

CHICAGO (FEB. 26) BUSINESS WIRE - In a move demonstrating its commitment to the CAD/CAM market, Autodesk (NASDAQ/NMS:ACAD) announced Monday that it has signed an agreement to license the ACIS geometric modeling technology from Spatial Technology Inc. of Boulder, Colo.

ACIS is an object-oriented, precise, boundary-representation geometric modeler written in the C++ programming language. ACIS allows the representation of the usually separate worlds of wireframe, surface and solid models to co-exist naturally in the data structure.

Based in Boulder, Spatial Technology developed ACIS in conjunction with Drs. Ian Braid, Alan Grayer and Charles Lang of Three-Space Ltd. of Cambridge, England. Spatial Technology Inc. was founded in 1986 to develop automated manufacturing applications using solid modeling.

It has been funded by an industrial consortium including Union Carbide, Allied Signal and Hewlett-Packard along with the leading venture capital group of Nazem & Co. of New York City.

Company officials did not make details of their agreement public, but stated that they expect to see the first results from this technology partnership reach customers sometime next year. Autodesk Inc. develops, markets and supports a family of computer-aided design and engineering software products for desktop computers and workstations. For more information please call 415/331-0356 or GO ADESK on CompuServe.

#90057b0691 02/26/1990 ~Business Wire

LOS ANGELES (FEB. 26) BUSINESS WIRE - Whittaker Corp. Monday announced the results of its operations for the first quarter of fiscal 1990 which ended Jan. 31.

Sales and operating profit of continuing operations were $36,343,000 and $4,550,000, respectively, compared to $36,964,000 and $5,645,000, respectively, a year ago.

Income from continuing operations for the quarter amounted to a loss of $1,017,000, or 13 cents per share, compared to income of $1,542,000, or 20 cents per share, a year earlier. Income from discontinued operations from the first quarter of 1990 amounted to a loss of $2,168,000, or 26 cents per share, compared to income of $3,252,000, or 46 cents per share, a year earlier.

The sharp decline in income of both continuing operations and discontinued operations from the first quarter of 1989 is due largely to increased interest costs resulting from debt incurred to finance the recapitalization of the company in June 1989.

The gain on disposal of discontinued operations for the first quarter of 1990 amounted to $4,784,000, or 58 cents per share.

On Feb. 5, Whittaker announced that it had entered into a definitive agreement to sell its coatings business and specialty chemicals segment to Morton International Inc. subject to several conditions, including governmental approvals.

As a result, the specialty chemicals segment has now been classified as a discontinued operation; the coatings business had previously been so classified. The company's continuing operations are now comprised of two operating business segments: aerospace and biotechnology.

The financial statements reflect the operating results and balance sheet items of the discontinued operations separately from continuing operations. Previously reported financial statements have been restated to reflect the discontinuance of the specialty chemicalssegment.

CANTON (FEB. 26) BUSINESS WIRE - Instron Corp. announced Monday that it has signed a letter of intent to acquire Laboratory MicroSystems Inc., (LMS) of Troy, N.Y.

The acquisition, which consisted of $2.5 million in Instron stock and cash is subject to LMS stockholder approval and is expected to close around April 1990.

LMS has been in the software business for nearly nine years and during the most recent four years has worked closely with Instron in joint software development programs, including Instron's integrated materials testing software, Series IX.

For the past three years, LMS has been concentrating the majority of its development efforts on the laboratory informa-tion management systems (LIMS) product. A LIMS system manages data within a laboratory and provides information reporting compiled from the resulting database.

LMS has developed a LIMS product, ''LabVantage,'' which is available in various configurations for operation in both small and large laboratories using either MS-DOS or Digital VAX versions.

Harold Hindman, chairman and CEO of Instron stated, ''One of the major factors which will contribute to Instron's growth in the future is its

ability to provide customers with system solutions to its materials testing challenges. Our software strengths coupled with supplying laboratory information management systems are key strategies to this growth.''

According to Hindman, Instron will market the LabVantage software product in material, component, chemical and environmental laboratories throughout the world.

Mark Chudzicki, president of LMS noted that the software capabilities of LMS coupled with the global distribution channels of Instron will complement the product lines of both companies.

Instron Corp., listed on the American Stock Exchange (ISN), is a leading producer of instruments and systems for advanced materials testing.

HAMILTON, BERMUDA (FEB. 26) BUSINESS WIRE - Norex America Inc. (AMEX:NXA) Monday announced that it has been advised by the Maritime Administration, U.S. Department of Transportation that its bid, in which it was joined by a group of unaffiliated Norwegian investors, had been accepted to purchase certain secured drilling rig debt issued by a subsidiary of Global Marine Inc. that is owned by that governmental agency.

The face amount of the notes to be beneficially owned by Norex is approximately $26 million of a package whose total face amount is approximately $100 million. The group's successful bid, which was not disclosed, was at a discount to this amount.

This purchase is in addition to other purchases of similar rig debt, one to be closed in February as previously announced, which, together, have an aggregate face amount of approximately $51 million, and which also have been purchased at a discount.

Norex America Inc. is currently engaged in vessel ownership and tanker chartering and is pursuing investment and development in shipping and offshore marine activities.

#90057b0703 02/26/1990 ~Business Wire

NEW YORK (FEB. 26) BUSINESS WIRE - American International Petroleum Corp. (NASDAQ:AIPN) Monday announced that it has completed the purchase of 100 percent working interest in 10 oil and gas wells in Sabine Parish, La.

With this acquisition, AIPC has also purchased approximately 2,100 acres of leasehold rights on which the company intends to drill offset wells in 1990. The company estimates that these acquisitions, when developed, will add reserves of approximately 100,000 barrels of oil and 1.5 billion cubic feet of gas.

On Feb. 20, 1990, a wholly owned subsidiary of the company entered into an agreement for a three-year lease, with purchase option, of a 3-inch gas pipeline approximately 13 miles long, which will connect the acquired wells to an interstate gas pipeline.

AIPC has entered into a gas sales agreement for the initial 10 wells, and is currently in the process of connecting the wells and their gathering lines to the 13-mile pipeline.

With these two acquisitions, the company's total holdings in Sabine Parish will be increased to 33 oil and gas wells, 3,530 acres of leasehold rights and 22 miles of gas pipelines.

Dr. George Faris, chairman and chief executive officer of the company, stated that: ''These acquisitions and our commitment to purchase four additional wells continue the implementation of the company's strategy of taking advantage of appropriate acquisition opportunities to enhance the company's natural gas producing capabilities in Sabine Parish, La., while maximizing cash flow from the company's existing gas operations in this area.''

American International Petroleum Corp. is engaged in refining oil and natural gas production, transportation, exploration and marketing activities in Louisiana, Kentucky as well as Colombia, South America.

ST. CHARLES, MD (FEB. 26) BUSINESS WIRE - Interstate General Co. L.P. (ASE:IGC) Monday acquired substantially all the operating businesses of American Family Homes, one of the leading homebuilders in the Southeastern United States for families who own their own land.

The purchase price of $7.5 million was paid in IGC units and cash.

Based in Charlotte, N.C., American Family Homes operates 13 sales offices in five states: North Carolina, South Carolina, Virgnia, Georgia and Tennessee.

The company builds and finances homes for credit-worthy families which own their own land, primarily in rural or semi-rural areas. The privately-owned company was founded in 1972.

James J. Wilson, president and chief executive officer of IGC said, ''We are quite pleased to welcome this excellent organization into our company. For IGC and our unitholders, this is a wonderful opportunity to add another profitable dimension to our homebuilding division.

''American Family Homes offers quality, affordable housing, which is consistent with IGC's concentration on the entry-level market.''

Wilson said that IGC plans to expand American Family Homes operations by opening sales centers in new markets throughout the Southeast and mid-Atlantic regions.

James Calder, president and chief operating officer of American Family Homes says, ''We have been looking forward to our relationship with IGC, and are confident this is an arrangement that will greatly benefit us all.''

IGC is a diversified real estate development and building organization. Founded in 1957, the company is the developer and leading homebuilder in St. Charles, a 9,100-acre planned community in suburban Washington D.C.

Headquartered in St. Charles, the company is currently involved in four related areas of operation: community development, homebuilding, investment property development and management services.

Listed on the American and Pacific stock exchanges, IGC is a master limited partnership that first issued units to the public in February 1987.

ST. PETERSBURG, FL (FEB. 26) BUSINESS WIRE - In a move to provide more expert direction from Dr. Jean-Francois Rossignol, the board of directors of BELMAC CORP. (NASDAQ: BEMCC) initiated a total company restructuring, beginning with the renovation of its management team at a board meeting on Friday, Feb. 16.

As of March 1, Rossignol will replace Edmund Vimond as chairman of the board; Vimond will continue to serve as a director. In addition, the board accepted the resignation of directors Stanley Hagendorf and Harold Huber. Huber also served as vice president of the company.

Arnold Lipman, known for his work with innovative optical technology, has also been named as an interim director, until he can be confirmed at the next stock holders meeting. Lipman, Rossignol and Mark Ayers, a current member of the board, have also been named to a newly established executive committee.

Rossignol will continue in his responsibilities as president and chief executive officer.

James M. DeMesa M.D. was promoted to vice president, Medical Affairs; Fred Cousineau was appointed to director of Business Development; and Karl E. Achenbach Ph.D. will continue as director of Regulatory Affairs.

Belmac, a St. Petersburg-based pharmaceutical company, is now focusing its efforts on securing the most qualified professional talents to serve as company officers, advisors and directors, according to Rossignol.

This research, conducted under the director of Rossignol, has further supported the company's claims that Alphanon stops hemorrhoidal bleeding. This transdermal medication is believed to be the first such non-surgical treatment for hemorrhoids and is expected to reduce the need for more aggressive measures in a number of patients who suffer from this condition.

Rossignol established his reputation at SmithKline & French Laboratories and E.R. Squibb & Sons where he has directed the development of several new drugs.

BELMAC CORP., a development stage drug company, has developed Alphanon, which the company believes is the only non-surgical treatment to stop hemorrhoidal bleeding, which may eliminate the need for surgery.

MT. LAUREL, NJ (FEB. 26) BUSINESS WIRE - Spring Financial Services Inc. a diversified retail, mortgage lending and credit insurance company, has entered into an agreement with Equity One Inc. of Langhorne, Pa. to acquire all the outstanding shares of the company.

The two principal officers of Equity One, Samuel Maratea and John Miriello will become executive officers and principals of the new company.

Equity One originates, services and sells first and second mortgages and commercial loans to local and regional financial institutions.

The acquisition by Spring Financial, according to its company spokesman, fits in strategically with the company's plan to expand its operation as a retail lender into the Mid-Atlantic and Eastern States.

The Langhorne company will continue to operate as Equity One in order to build upon the presence it has established in its current marketplace serving Bucks, Delaware and Montgomery Counties.

Equity One will expand its operation into southwestern Pennsylvania and the state of Delaware.

Spring Financial had assests totalling $18.3 million at year end 1989. It operates through offices located in Mt. Laurel and Willingboro, Burlington County; Berlin, Camden County; and Greensboro and Durham, North Carolina in addition to its new operation in Langhorne, Pa.

#90057b0710 02/26/1990 ~Business Wire
NORWOOD, MA (FEB. 26) BUSINESS WIRE - Phoenix Technologies Ltd. Monday announced it has begun shipping a ''renderer'' for interpreting and printing fonts in the Type 1 ''hinted'' format from Adobe Systems Inc.

Phoneix becomes the first non-Adobe supplier capable of processing the Adobe Type 1 hinting data, a formatting technique that helps to maintain the high quality of characters, especially when they are scaled to low point sizes. The Type 1 font renderer is available as a font option in the PhoenixPage printing architecture.

Phoenix will be demonstrating its renderer at the upcoming Seybold show in Boston, March 5 to 8.

Type 1 fonts became prominent last fall when Adobe announced it would document the Type 1 font format. Although the Type 1 specification has yet to be published, Adobe has supplied a number of font foundries with tools for converting their existing font libraries into the Type 1 format.

Several printer manufacturers have licensed PhoenixPage with the Type 1 capability.

The Type 1 renderer is one of several font technologies available in PhoenixPage. The PhoenixPage FontSocket management system is designed to permit timely integration of new font systems.

A font format consists of outlines for defining a character's curves and

lines, metrics for defining its width, and hints for ensuring the ''look'' or quality of the character when scaled. Scaling is the ability to create characters anywhere in the range from very small to very large.

Together the three components describe how characters will appear once printed. The renderer uses the outlines in a font to create a character image and interprets the hints for ''preserving'' critical parts of that character image when it is reduced in size.

Phoneix Technologies Ltd. designs, develops and markets systems software products for personal computers, laser printers and workstations.

CAMBRIDGE, MA (FEB. 26) BUSINESS WIRE - Individual Inc. has launched First!, an intelligent news agent for corporations in information-intensive markets.

First! monitors world-wide news sources and uses artificial intelligence technology to extract only those stories that match a particular client's interests. Relevant articles are packaged into an up-to-the-minute customized report of industry news, delivered to each client daily by 8 a.m. via electronic mail for organization-wide redistribution on local area networks. Daily delivery via FAX is also available.

First! provides organizations, at the corporate or divisional level, with a complete solution to the current-awareness information needs of their busy managers. Via First! the company or division receives only the pertinent stories that impact their decision making process.

A unique feature of the service permits the copyrighted stories to be disseminated throughout the organization on local electronic mail network, providing for information sharing and insuring broad access to knowledge.

Individual ensures the relevance of information through the dynamic adjustment of subscriber profiles. Users fill out an initial profile form of their interests and then regularly refine this profile by simply marking stories received as relevant or not.

Individual's computers take this ''relevance feedback'' and -- on a monthly basis -- automatically modify the profile using such advanced information refining techniques as Similarity Measurement, Relevance Tuning, and Concept Recognition.

First! is currently in use by such companies as Digital Equipment Corp., Lotus Development Corp., Computer Corporation of America, NEC, On Technology, and GTE. Departments utilizing the service include marketing sales, competitive intelligence, mergers & acquisitions, product line management, and the office of the chief executive officer.

First!, Individual's introductory product, is targeted at the fast-paced high technology industry. Customized reports draw information from such news sources as Business Wire, Kyodo (Japan Economic and High Tech Wire), PR Newswire, Reuters, and UPI, to assure worldwide coverage. When more than one source carries the same news, First! delivers only the version most appropriate to the specific profile.

The annual subscription price is $1,995 for the Basic Service (up to 500 stories), $4,500 for the Expanded Service (up to 1,250 stories), and $6,750 for the Comprehensive Service (up to 2,000 stories). First! is a cost-effective way to distribute customized information to a broad number

of knowledge workers. Typically, daily service for 200 managers costs only $50 per person per year.

Individual had an exclusive license from Cornell University for SMART (System for Manipulation and Retrieval of Text), the core information refining technology upon which First! is based. SMART is the product of 20 years of research by Cornell's Dr. Gerard Salton, the leading authority in the field of modern information retrieval. Dr. Salton is also on Individual's Scientific Advisory Board.

SMART uses plain English to enter query profiles. It then analyses the concepts in an entire article to measure its relevance to the profile. SMART also employs ''relevance feedback'' to automatically redefine and hone the parameters of the profile by analyzing the content of articles deemed relevant or not by the user.

Individual Inc., based in Cambridge, Mass., was established in 1988 to build and operate an information refiner, filtering and customizing information from a broad spectrum of electronic sources. The company applies advanced technologies to spread the power of knowledge to business professionals worldwide.

#90057b0737 02/26/1990 ~Business Wire
HOUSTON (FEB. 26) BUSINESS WIRE - Everest Technologies Inc. Monday said it has developed a computer-based inspection system that detects flaws in tiny electronic components during manufacturing, and that the process should help place U.S. makers of high-tech components ahead of foreign competition.

The Houston-based software and imaging company also confirmed that it was holding advanced tests of the system with three major U.S. electronic manufacturers.

Everest said its highly proprietary IcoMetrics Workstation had drawn major producers of microscopic-size components to its Houston operations, largely because the system replaces human inspections for product flaws.

He said the system addresses a major industry problem: improving the reliability of manufactured components used in a wide range of computers and other electronic products and systems. It detects flaws as small as one ten-thousandths of an inch--during, before and after manufacturing.

Makers of computer chips, circuitry, ceramics and other components are

using visual inspection in slow, laborious human-based processes.

The Everest IcoMetrics Workstation used in quality control includes a mini-computer, monitor and keyboard, up to 300 megabytes of storage, eight to 16 megabytes of random access memory, high speed video or scanning camera, optional microscope, special lighting, and cartridge or tape backup systems.

But it is the software that takes scientific inspections to a new level. It directs inspection of products, captures and analyses the image to detect flaws, and determines if the structure meets required measurements. It also checks for shapes, textures and location of subcomponents -- with ability to examine objects from all views.

Everest said its system actually ''sees'' objects where other methods must compare the subject to a perfect example. Now manufacturers can perform on-line inspections, process control applications and quality control laboratory functions without reprogramming.

IcoMetrics was developed by Everest to provide analysis of virtually any image, and has been used in a wide variety of applications, including automotive design, material and product analysis, satellite image analysis motion analysis and medical imaging.

Everest software, systems and products are developed and marketed at its operations in Houston.

BALA CYNWYD, PA (FEB. 26) BUSINESS WIRE - EQK Green Acres L.P. (NYSE symbol EGA) Monday (Feb. 26, 1990) reported results of operations for the calendar year ended Dec. 31, 1989, showing net funds generated (cash flow) of $13,313,000, or $1.29 per unit.

Net funds generated (cash flow) for the three months ended Dec. 31, 1989, was $3,449,000, or 34 cents per unit. Net income for the year 1989 was $4.3 million, or 42 cents per unit, including net income of $1,133,000, or 11 cents per unit for the fourth quarter.

The company's sole business is the ownership and operation of Green Acres Mall, a super-regional shopping mall located in Nassau County, Long Island N.Y. The company announced that the appraised value of the Mall at year-end was $243.2 million, as determined by Landauer Associates, a nationally recognized independent real estate appraisal firm.

The net liquidation value of the company, based on the appraised value, and taking into consideration the company's other assets, all of its liabilities, and the present value of costs that would be associated with a liquidating sale, was $15.42 per unit at year-end.

NEW YORK (FEB. 26) BUSINESS WIRE - Goldman, Sachs & Co. and Drexel Burnham Lambert Incorporated announced that last Friday (Feb. 23) Goldman Sachs and Drexel Burnham completed the acquisition by Goldman Sachs of Drexel Burnham's fixed and adjustable rate agency-guaranteed mortgage-backed securities (MBS) portfolio.

In addition to Drexel Burnham's physical inventory of those securities, Goldman Sachs also acquired its foward and failed-to-settle MBS positions, and selected repurchase and reverse repurchase positions, where Drexel's customers agreed to the transfer to Goldman Sachs.

The amount of gross positions acquired exceeds $12.5 billion. The portfolio remains hedged.

Goldman Sachs is contacting remaining Drexel Burnham MBS customers to verify their positions and seek their consent to the transfer of their outstanding MBS positions. Goldman Sachs plans to acquire from Drexel Burnham the remaining positions for which consent is obtained, at a second closing currently scheduled for tomorrow (Tuesday, Feb. 27).

Settlements with those customers are expected to commence the following day (Wednesday, Feb. 28).

A special telephone line has been set up at 212/902-4380 to verify transactions and to answer questions from remaining Drexel Burnham MBS customers and counterparties.

WAYNE, NJ (FEB. 26) BUSINESS WIRE - Union Camp Corp. (NYSE:UCC) Monday announced it will build a new sheet finishing plant to convert white paper into ''cutsize'' sheets for use in copiers and desk-top printers.

The 211,000-square-foot plant will be located in Sumter, S.C., about 35 miles east of the company's business papers mill in Eastover.

Start-up in Sumter is scheduled for mid-1991, to coincide with the start-up uf the new paper machine now under construction at the Eastover mill. The new plant will cost about $25 million.

''Cutsize'' is the industry term for white paper that has gbeen cut into sheets of 8-1/2''x 11'', 8-1/2'' x 14'' and similar sizes for office and business use.

Union Camp currently converts rolls of its white paper into cutsize sheets at facilities in Franklin, Va. and Normal, Ill.

Gene Cartledge, chairman and chief executive officer said, ''Over the next decade the continued rapid growth in laser printers and other desk-top devices will significantly increase demand for cutsize sheets. We're adding a third sheet-finishing plant to meet this demand.''

Union Camp Corp., a leading manufacturer of paper, packaging and chemicals makes business papers at Eastover, and Franklin, Va. The company is in the midst of a major capital expansion program scheduled for completion in 1991. That program will add 300,000 tons of new papermaking capacity at the Eastover mill.

VALENCIA, CA (FEB. 26) BUSINESS WIRE - 3-D Systems Inc. (NASDAQ:TDSSF and Vancouver:TDS.V) announced Monday results for the three months and the year ending Dec. 31, 1989.

Sales for the quarter ended Dec. 31, 1989 were $6,668,316 (all figures are in US dollars) vs. $1,808,066 for the quarter ended Dec. 31, 1988 and $17,503,554 for the full year vs. $4,476,576 in 1988.

Net profit for the quarter ended Dec. 31, 1989 was $476,104 or 4 cents per

share and a loss of $1,948,037 for the year, equivalent to a net loss of 18 cents per share.

In the quarter ended Dec. 31, 1988, the company recorded a net loss of $1,530,064 or a loss of 16 cents per share and a net loss of $4,719,079 for the year, equivalent to a net loss of 49 cents per share.

3-D Systems Inc. is the Canadian parent company of 3D Systems Inc. a California company formed in March 1986 to develop, manufacture and market equipment which produces plastic models from solid modeling CAD data.

The company's patented StereoLithography process utlizies an ultra violet laser which passes over a vat of liquid polymer, hardening the liquid wherever it touches so that it creates a solid, three-dimensional object which conforms exactly to the stored computer design.

WALTHAM, MA (FEB. 26) BUSINESS WIRE - Helix Technology Corp. (NASDAQ:HELX) Monday announced that net income for the year ended Dec. 31, 1989, was $2.7 million, or $1.07 per share, compared with net income of $3.7 million, or $1.45 per share, for 1988.

Sales for 1989 were $54.6 million compared with $55.2 million a year ago.

For the fourth quarter ended Dec. 31, 1989, sales were $12.7 million versus $14.8 million for the comparable period last year. Net income for the quarter was $251 thousand, or 10 cents per share, compared with 1988's fourth quarter net income of $1.0 million, or 40 cents per share.

The company also announced that the board of directors declared a quarterly cash dividend of 19 cents per common share. The dividend is payable on March 29, 1990, to shareholders of record at the close of business on March 8, 1990.

Commenting on 1989 results, Helix President, Robert J. Lepofsky, said, ''The previously reported delays in our military cooler activity overshadowed the high level of performance achieved during 1989 in our cryogenic vacuum pump business.''

''While we resumed production shipments of military coolers in January, we remain cautious over the near-term outlook for the semiconductor equipment sector -- the principal market for our cryopump products.''

Helix Technology Corp. is a worldwide leader in the development and application of cryogenic and vacuum technology. Helix is recognized for providing innovative solutions to customer requirements in select government and commercial markets.

WESTBURY, NY (FEB. 26) BUSINESS WIRE - Howard S. Stern, chairman and chief executive officer of E-Z-EM Inc., one of the nation's leading manufacturers and distributors of diagnostic imaging products, has announced the appointment of Daniel R. Martin, of Scarsdale N.Y., to the position of president and chief operating officer.

Prior to his appointment, Martin served as corporate vice president and president of the Europe, Middle East and African markets of Sterling Drug Inc., a division of Eastman Kodak.

As chief operating officer, Martin will be primarily responsible for continuing the profitable growth of the ongoing business; Stern as CEO will be primarily responsible for moving the company into new markets for the future.

Both will work with the strong existing management team to enhance the company's position in growing worldwide markets.

''The decision to appoint Mr. Martin was based on his extensive pharmaceutical experience, which complements E-Z-EM's extensive strengths in the medical device field,'' said Stern.

Martin graduated from Cornell University in 1958 with a Bachelor of Arts degree in economics and holds a Master of Science degree in management from Columbia University.

E-Z-EM is traded on NASDAQ, the symbol is ''EZEM''.

#90057b0761 02/26/1990 ~Business Wire

EAST HARTFORD, CT (FEB. 26) BUSINESS WIRE - TRC Companies Inc. (AMEX:TRR) management announced Monday that the company expects to show a loss for its third quarter ending March 31, 1990, of approximately $450,000, or 8

cents per share.

The expected loss is principally due to a continued slowdown in the environmental testing business at the company's metaTRACE subsidiary. In addition, the company's government engineering subsidiary, Alliance Technologies Corp., has experienced budget cuts by the U.S. EPA on its acid rain and global warming technical assistance contract.

Losses at metaTRACE are a direct result of a reduction in its volume of business. The ability of metaTRACE to attract new business, in particular from the Department of Defense (''DOD'') and the Environmental Protection Agency (''EPA'') has been adversely affected by the previously announced investigation by the Inspectors General of DOD and EPA of certain laboratory procedures at metaTRACE.

The company believes that the slowdown at metaTRACE was exacerbated by the release outside of the DOD of a DOD Inspector General memorandum prepared in late December 1989, describing the findings of the Inspector General's investigation of metaTRACE. The company and its counsel believe that memorandum contains material errors as well as misleading statements. The company and its counsel have so advised the office of the Inspector General of the DOD.

In response to the Inspectors General investigation at metaTRACE, the company has retained new management personnel at metaTRACE, instituted rigorous testing guidelines and believes it has aggressively addressed all the issues raised by the Inspectors General investigation and will continue to work to bring the investigation to a conclusion and to seek new sources of business for metaTRACE.

The company's financial condition at Jan. 26, 1990, continues to be very strong with cash and cash equivalents of $2.4 million, working capital of $22.2 million, a current ratio of 6.9 to 1, shareholders' equity of $29.5 million and no borrowings under the company's $15 million unsecured three-year line-of-credit.

TRC Companies Inc. and its engineering, laboratory and instrument subsidiaries service clients from 14 offices throughout the United States.

#90057b0766 02/26/1990 ~Business Wire

SUFFERN, NY (FEB. 26) BUSINESS WIRE - Rapitech Systems Inc. (RSI) announced Monday its results of operations for the six months ended Jan. 31, 1990.

Revenues for the period were $794,500 up from $222,803 for the comparable period of the prior year. The company generated a net profit of $32,838, 1 cent per share, compared to a loss of $945,373, 28 cent per share, for the comparable prior period.

Revenues for the second quarter ended Jan. 31, 1990, were $408,750 compared to $110,376 for the second quarter last year. The net loss was $88,735, 2 cents per share, down substantially from loss of $396,576, 12 cents per share, for the comparable prior period.

Jeffrey M. Tolk, president of Rapitech Systems stated that ''the results of operations for the six months showed substantial improvement over a year ago, both in revenues and earnings.'' Tolk further stated that ''the tight control over discretionary expenses and the revised marketing and sales strategy became evident this fiscal year.''

While the company reported a modest loss for the quarter, all costs associated with the relocation to new headquarters and the legal expenses associated with its S-1 registration statement have been expensed in the current period.

Rapitech is currently negotiation with various third parties for the license of its Conversionware products and use of its consulting and technology services. No assurance can be given as to whether the company will be successful in these efforts.

Rapitech Systems Inc. is the leading developer of a series of language translation and migration tools, Conversionware, which translate proprietary dialects of Fortran, Cobol, VMS-Fortran and other languages into industry standard 'C' language, 1977 ANSI Fortran and Ada language.

In addition, the company offers a full range of consulting services which include customs and turnkey translations on a total project management basis. Conversionware is a registered trademark of Rapitech Systems Inc.

#90057b0771 02/26/1990 ~Business Wire

NEW YORK (FEB. 26) BUSINESS EDITORS - Noise Cancellation Technologies Inc. (NCT), the leading developer of active noise cancellation products and systems Monday announced that the company has begun trading its common shares of stock in the NASDAQ market.

NCT can be found under the NASDAQ symbol NCTI.

NCT was incorporated in 1983 and introduced its first product, the NCT-2000 system, in 1987. The NCT-2000 system is a microcomputer-based active noise cancellation controller that significantly reduces repetitive low frequency noise and vibration without affecting desirable sounds such as speech and warning signals. The patented NCT-2000 technology produces ''anti-noise'' - the inverse or mirror image of the offending noise - which, upon impact with the offending noise, virtually eliminates it.

To date, NCT has applied this technology to the following product areas: Mufflers (both automotive and industrial), vehicle passenger quieting and medical diagnostic equipment.

NCT's electronic muffler is the first of its type. The muffler reduces noise without the use of conventional muffling devices such as baffles, resonators and sound-absorbing materials.

The NCT electronic muffler analyzes the structure of exhaust noise, predicts its waveform, and then generates the appropriate ''anti-noise'' virtually eliminating the exhaust noise.

Moreover, the electronic muffler causes no back-pressure thereby significantly improving engine efficiency. the components of this implementation of NCT's technology are patented and patent pending.

Walker Manufacturing Co., a unit of Tenneco Automotive and a world leader in the exhaust industry, recently announced the formation of a joint venture with NCT to produce and market the electronic muffler.

The joint venture grants to Walker Manufacturing the exclusive license to market the electronic muffler to the automotive industry including light trucks. NCT retains worldwide rights to non-automotive segments of the

muffler applications including heavy trucks.

Noise Cancellation Technologies Inc. and NCT Medical Systems Inc. are headquartered in New York. NCT Inc. holds worldwide patents on active noise and vibration cancellation technology and is the world leader in the field.

PHILADELPHIA (FEB. 26) BUSINESS WIRE - The Atrun Group, headquartered here announced Monday the signing of a contractual agreement to represent for distribution Bill Blass men's apparel in the Soviet Union and Eastern Europe. The contract was signed with Pincus Brothers-Maxwell, the exclusive licensee for the manufacturing of Bill Blass clothing.

The Bill Blass contract represents the latest in a series of ventures for The Atrun Group, international trade specialists targeting business opportunities in the Soviet Union and Eastern Europe.

Recently, The Atrun Group announced the joint venture with Radiotehnika - the second largest manufacturer of electronic goods in the Soviet Union - to set up western-style electronic stores that will also carry western products.

"Our function for Bill Blass, like other western companies we represent is to pave the way for one of America's premier menswear apparel lines to be the first company of its type to launch a major campaign in this territory " said Sydney Stern, president of The Atrun Group, which has been operating in the Soviet Union the last five years.

"We will establish distribution channels and make arrangements for appropriate retail venues so this product can be sold in this potential market base of 450 million new consumers. Futhermore, and very importantly we also will be coordinating the repartriation of profits into hard currencies."

Larry Smith, managing director of Bill Blass menswear and also executive vice president of Pincus Brothers-Maxwell, which has its manufacturing facility in Philadelphia and showrooms in New York, Chicago, Dallas, Charlotte and Los Angeles, said everybody is excited by this new opportunity. "Bill Blass is a name renown in the West and now we will be

dressing the East," said Smith.

COSTA MESA, CA (FEB. 26) BUSINESS WIRE - ICN Biomedicals Inc. (ASE: BIM) reported Monday that net income for 1989 rose 69 percent over that for 1988 to a record $6.1 million.

This net income figure represents earnings of 57 cents per share; this compares to net earnings of 34 cents a share (net profit of $3.6 million) in fiscal 1988.

Sales for 1989 totalled $61.4 million, also a record for the company. This figure represents a 22 percent increase in sales over that recorded for 1988 ($50.5 million).

In 1989, fourth quarter figures showed a net income of $1.8 million (17 cents per share); this compares with a net income of $163,000 (2 cents per share) for the same period in 1988.

Fourth quarter results for 1989 included income from one month of operation of Flow Laboratories, a company acquired by ICN Biomedicals on Nov. 8, 1989. Flow Laboratories of McLean, Vir. had revenues of approximately $100 million in their fiscal year which ended on June 30, 1989.

For 1989, ICN Biomedicals reported that profit before taxes totalled $8.4 million as compared to $4 million in 1988. For the fourth quarter of 1989, profit before taxes was $2.5 million; this compares with a 1988 pre-tax loss in the fourth quarter of $369,000.

The company attributed its record 1989 performance to continued demand for its biotechnology research and clinical disgnostic products as well as to the addition of the extensive line of Flow Laboratories products to its product offerings.

Of the biotechnology products offered by the company, increased sales of radiolabelled amino acids (used to track metabolic pathways) and nucleotides (used for DNA experimentation) were seen in 1989.

Sales of adsorbents used for for chromatographic applications were also higher in 1989 than in 1988. Previous investments in international operations, particularly in Canada and Germany, were reflected by increased biotechnology products sales in these countries.

Fred Andrea, president and chief operating officer of ICN Biomedicals Inc., stated, "We are extremely pleased with our continued strong growth in sales resulting from an increased penetration of our biotechnology and diagnostic products."

BEDFORD HEIGHTS, OH (FEB. 26) BUSINESS WIRE - Riser Foods Inc. (AMEX:RSR) today announced its second quarter results for fiscal 1990, noting continuing profitability and improved results over last year.

Results for Riser's second quarter of fiscal 1990 continued to show strong improvement. The second quarter of fiscal 1990, a 12 week quarter which ended January 13, 1990, showed net income of $2.1 million, or 26 cents per share, as compared to a net loss of $1.6 million, or 20 cents per share, last year.

Riser reported net income of $4 million, or 49 cents per share, for the twenty-eight (28) weeks ended January 13, 1990 as compared to a net loss of $6 million, or 77 cents per share, for the twenty-eight (28) weeks ended January 14, 1989. Last year's loss included a one-time gain on the sale of 11 stores which amounted to $3.3 million, or 41 cents per share.

Riser noted that the results for the second quarter and year-to-date include a provision of $400,000 for the closing of one retail location.

Riser noted that its current year results include an extraordinary income item of $1.2 million year-to-date and $700,000 for the second quarter of fiscal 1990 representing the utilization of a portion of the Company's federal income tax net operating loss carryforward. These extraordinary

items partially offset Riser's income tax provisions which amounted to $1.8 million and $1.1 million, respectively.
